No. MC 117383 (Sub No. 2), filed June 19, 1958. Applicant: JACK JOHNSON, doing business as HENDERSON TRUCKING COMPANY, 134 South Washington Street, Henderson, Tenn. Applicant's attorney: Clarence Evans, Third National Bank Building, Nashville 3, Tenn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber* and *mill work*, both rough and dressed or finished, between points in Arkansas on and south of U. S. Highway 70, and between points in Mississippi and Alabama south of U. S. Highway 82, on the one hand, and, on the other, all points in Tennessee and Kentucky west of the Tennessee River. Between the above-described origin points in Arkansas and Mississippi, on the one hand, and, on the other, points in Lauderdale, Colbert, Franklin, Marion, Lamar, Pickens, Tuscaloosa, Fayette, Walker, Winston, Cullman, Lawrence, Morgan, Limestone, Madison, Jefferson and Bibb Counties, Ala. Between points in the above-described origin points in Alabama and Arkansas, on the one hand, and, on the other, points in Mississippi on and north of U. S. Highway 82.

HEARING: October 27, 1958, at the Dinkler-Andrew Jackson Hotel, Nashville, Tenn., before Examiner Alton R. Smith.

No. MC 117480, filed June 30, 1958. Applicant: T. H. McDANIEL, doing business as T. H. McDANIEL AND COMPANY, Shannon, Miss. Applicant's attorney: Dudley R. Carr, Tupelo, Miss. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *New furniture* and *new upholstered reclining or lounge chairs*, from Shannon, Miss., to points in Mississippi, Alabama, Florida, Georgia, Tennessee, Kentucky, Ohio, Indiana, Illinois, Michigan, Texas, Louisiana, Arkansas, Oklahoma, New Mexico, Wyoming, Colorado, Nebraska, South Dakota, Minnesota, Iowa, Kansas, Wisconsin, Missouri, and North Dakota.

NOTE: Applicant states that it will transport produce and grain on return.

HEARING: October 23, 1958, at the Robert E. Lee Hotel, Jackson, Miss., before Examiner Alton R. Smith.

No. MC 117485 (Sub No. 1), filed August 18, 1958. Applicant: CLYDE BAILEY AND MALCOLM C. BAILEY, doing business as BAILEY TRUCK LINE, 304 West Minnesota Street, Brookhaven, Miss. Applicant's attorney: Rubel L. Phillips, Deposit Guaranty Bank Building, Jackson, Miss. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Clay products*, in bulk, from the plant site of Brookhaven Pressed Brick and Manufacturing Company, Brookhaven, Miss., for the account of said company only, to points in Baldwin, Escambia and Mobile Counties, Ala., and The Parishes of Ascension, Assumption, Concordia, East Baton Rouge, East Feliciana, Iberia, Iberville, Jefferson, Lafayette, Lafourche, Livingston, Madison, Orleans, Plaquemines, St. Bernard, St. Charles, St. Helena, St. James, St. John the Baptist, St. Martin, St. Mary, St. Tammany, Tangipahoa, Tensas, Terrebonne, Washington, West Baton Rouge, and West Feliciana, La.

HEARING: October 23, 1958, at the Robert E. Lee Hotel, Jackson, Miss., before Joint Board No. 165, or, if the Joint Board waives its right to participate, before Examiner Alton R. Smith.

No. MC 117494, filed July 3, 1958. Applicant: GEORGE ANDREWS AND BERT ANDREWS, doing business as ANDREWS BROS., 670 East Main Street, Nanticoke, Luzerne County, Pa. Applicant's attorney: John J. Dempsey, Jr., 1200 Miners National Bank Building, Wilkes-Barre, Pa. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Anthracite coal* from Glen Burn Colliery Breaker, Susquehanna Collieries Division of the M. A. Hanna Company, in Shamokin, Pa., to points in Delaware, Maryland, New Jersey, New York, Virginia and the District of Columbia.

HEARING: October 20, 1958, at the Penn Sherwood Hotel, 3900 Chestnut St., Philadelphia, Pa., before Examiner James C. Cheseldine.

No. MC 117502, filed July 7, 1958. Applicant: BILLIE LEE POTTS, Route No. 1, Waynesville, N. C. Applicant's attorney: William Medford, 427 North Main Street, Waynesville, N. C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Shoes, materials* used in the manufacture of shoes, *shoe manufacturing machinery*, and *parts* and *materials* used in manufacturing or repairing shoe machinery, between Waynesville, N. C., Mobile, Ala., New Orleans, La., New York, N. Y., and Philadelphia, Pa.

NOTE: Applicant states that all the materials transported by applicant will be in transit between Wellco Shoe Corporation and its subsidiaries and/or affiliates or licensees of its subsidiaries and/or affiliates.

HEARING: October 22, 1958, at the U. S. Court Rooms, Charlotte, N. C., before Examiner C. Evans Brooks.

No. MC 117508, filed July 11, 1958. Applicant: PETTAPIECE CARTAGE & BUILDERS' SUPPLIES, LTD., 39 Oak Street West, Leamington, Ontario, Canada. Applicant's attorney: Wm. R. Heferan, 1419–25 Majestic Building, Detroit 26, Mich. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime*, from the site of the plant of the Woodville Lime Products Company, located at or near Woodville, Ohio to ports of entry on the International Boundary Line between the United States and Canada at or near Detroit and at or near Port Huron, Mich. *Foundry sand*, from points in the Lower Peninsula of Michigan to ports of entry on the International Boundary Line between the United States and Canada at or near Detroit and at or near Port Huron, Mich. Applicant indicates the proposed service is in foreign commerce only.

HEARING: October 27, 1958, at the Olds Hotel, Lansing, Mich., before Joint Board No. 57.

No. MC 117510, filed July 14, 1958. Applicant: NEELY L. BROOKS, P. O. Box 474, Tanoka, Tex. Applicant's attorney: Austin L. Hatchell, Suite 1009 Perry-Brooks Building, Austin 1, Tex. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Processed cottonseed meal, cake and hulls*, and *mixed livestock feedstuffs*, in bulk and in sacks, bags and other containers, from Lubbock, Tex., to points in Oklahoma, Kansas, Colorado and New Mexico; and *rejected shipments*, and *empty containers or other such incidental facilities* used in transporting the commodities specified, on return.

HEARING: October 24, 1958, at the Baker Hotel, Dallas, Tex., before Examiner James H. Gaffney.

No. MC 117513, filed July 14, 1958. Applicant: DAVID MONGILLO, HATTIE MONGILLO, MILTON J. MONGILLO, EDWARD H. MONGILLO, IRENE M. SATALINE, AND GERTRUDE M. WRINN, a partnership doing business as DAVID MONGILLO & SONS, 52 High Street, Southington, Conn. Applicant's attorney: Edward Seltzer, 48 Pearl Street, Hartford 3, Conn. Authority sought to operate as a *common or contract carrier*, by motor vehicle, over irregular routes, transporting: *Structural steel, heavy tools, large parts, compressors, timbers, planks, gas and oxygen cylinders, presses, winch trucks, transformers, fuse holders, and fuses, switches*, and other similar and like heavy hauling, between points in Connecticut, and points in New York, Massachusetts, Rhode Island, Pennsylvania and New Jersey.

NOTE: Applicant has filed two separate common and contract applications, both incorporated in the above docket number; and states that, because it operates heavy hauling equipment performing special and individual services required by the particular needs of shippers, the alternative applications have been filed in fairness to applicant and the Commission.

HEARING: November 5, 1958, at the U. S. Court Rooms, Hartford, Conn., before Examiner James C. Cheseldine.

No. MC 117520, filed July 15, 1958. Applicant: R. I. RIDDLE, doing business as RIDDLE TRUCKING COMPANY, 213 E. Coffee Street, Manchester, Tenn. Authority sought to operate as a *contract carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except household goods as defined by the Commission, commodities in bulk, Class A and B explosives, and commodities requiring special equipment, (1) between the Arnold Engineering Development Center, near Tullahoma, Tenn., and Fort Campbell, Ky.: from Arnold Engineering Development Center near Tullahoma over Tennessee Highway 55 to Manchester, Tenn., thence over U. S. Highway 41 to Nashville, Tenn., and thence over U. S. Highway alt. 41 to Fort Campbell, and return over the same route, serving no intermediate points; and (2) between the Arnold Engineering Development Center near Tullahoma, Tenn., and Louisville, Ky.: from Arnold Engineering Development Center near Tullahoma over Tennessee Highway 55 to Manchester, Tenn., thence over U. S. Highway 41 to Nashville, Tenn., and thence over U. S. Highway 31W to Louisville, and return over the same route, serving Fort Knox, Ky., as an off-route point.

NOTE: Applicant states the proposed operations are for the account of the United States Government.

HEARING: October 30, 1958, at the Dinkler-Andrew Jackson Hotel, Nashville, Tenn., before Joint Board No. 264, or, if the Joint Board waives its right to participate, before Examiner Alton R. Smith.

No. MC 117530, filed July 17, 1958. Applicant: CHARLES W. WADE, 803 4th Avenue North, Nashville 4, Tenn. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* requiring refrigeration, except commodities of unusual value, household goods as defined by the Commission, Class A and B explosives, commodities in bulk, and those requiring special equipment other than in refrigerated service, betweeen Nashville, Tenn., and points in Florida.

HEARING: October 31, 1958, at the Dinkler-Andrew Jackson Hotel, Nashville, Tenn., before Examiner Alton R. Smith.

No. MC 117532, filed July 18, 1958. Applicant: STANLEY KACZYNSKI, 25130 Telegraph Road, Flat Rock, Mich. Applicant's attorney: Gerald Tuchow, 26335 East Huron River Drive, Flat Rock, Mich. Authority sought to operate as a *contract carrier*, by motor vehicle, over a regular route, transporting: *Brick* and *building material*, from Canton, Ohio to Flat Rock, Mich., from Canton over U. S. Highway 30 to Wooster, Ohio, thence over U. S. Highway 250 to Ashland, Ohio, thence continuing over U. S. Highway 250 to the junction of the Ohio Turnpike, thence over the Ohio Turnpike to junction Alternate U. S. Highway 24, thence over Alternate U. S. Highway 24 to junction U. S. Highway 24, thence over U. S. Highway 24 to Flat Rock. *Empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application, from Flat Rock, Mich., to Canton, Ohio, return from Flat Rock over the above-specified route to Canton, Ohio. Serving points in Wayne, Washtenaw and Midland Counties, Mich., as intermediate and off-route points on the above-specified routes.

HEARING: October 24, 1958, at the Olds Hotel, Lansing, Mich., before Joint Board No. 57.

No. MC 117534, filed July 18, 1958. Applicant: FLOYD BARBER, doing business as SUBURBAN TRUCKING CO., 17039 Lincoln, East Detroit, Mich. Applicant's attorney: Robert A. Sullivan, 2606 Guardian Building, Detroit 26, Mich. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Clay products*, from Mansfield, Wooster and Uhrichsville, Ohio, to Detroit, Mich., and points in Michigan within 25 miles thereof.

HEARING: October 24, 1958, at the Olds Hotel, Lansing, Mich., before Joint Board No. 57.

No. MC 117540, filed July 22, 1958. Applicant: LISSNER PAPER GRADING CO., a corporation, 1050 N. North Branch Street, Chicago 22, Ill. Applicant's attorney: Reginald J. Holzer, 134 North LaSalle Street, Chicago 2, Ill. HEARING: October 17, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner John P. McCarthy.

MOTOR CARRIERS OF PASSENGERS

No. MC 61599 (Sub No. 122), filed July 17, 1958. Applicant: QUEEN CITY COACH COMPANY, a corporation, 417 West Fifth Street, Charlotte, N. C. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *Passengers and their baggage*, and *express, mail*, and *newspapers*, in the same vehicle, with passengers, between junction U. S. Highway 74 and unnumbered County Highway, approximately one mile west of Shelby, N. C., and Marion, N. C., from junction U. S. Highway 74 and unnumbered County Highway, approximately one mile west of Shelby, over said unnumbered County Highway to junction North Carolina Highway 26, thence over North Carolina Highway 26, via Polkville and Dysartville, to Marion, and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations in Georgia, North Carolina, South Carolina, Tennessee, and Virginia.

NOTE: Applicant states it does not propose to transport baggage in separate vehicles.

HEARING: October 17, 1958, at the U. S. Court Rooms, Charlotte, N. C., before Joint Board No. 103, or, if the Joint Board waives its right to participate, before Examiner C. Evans Brooks.

No. MC 108452 (Sub No. 7), filed September 2, 1958. Applicant: ATWOOD'S TRANSPORT LINES, INC., 419 New Jersey Avenue NW., Washington 1, D. C. Applicant's attorney: Chester E. King, 1507 M Street NW., Washington 5, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage* and *mail* in same vehicle with passengers, between Washington, D. C. and site of United States Atomic Energy Commission at or near Germantown, Md., from Washington, D. C., over city streets to the District of Columbia-Maryland State line, thence over U. S. Highway 240 to intersection with unnumbered highways, thence over said unnumbered highways to site of buildings of U. S. Atomic Energy Commission located near Germantown, Md., and return over the same route, serving no intermediate points. Applicant is authorized to conduct operation in District of Columbia, Maryland, and Virginia.

HEARING: October 21, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Joint Board No. 120.

No. MC 115025 (Sub No. 2), filed July 29, 1958. Applicant: THE SHORT LINE OF CONNECTICUT, INCORPORATED, doing business as THE SHORT LINE, 100 Gilbert Street, East Hartford, Conn. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *Passengers and their baggage*, and *mail, express* and *newspapers* in the same vehicle with passengers, between Norwich, Conn., and Misquamicut Beach, Westerly, R. I., from Norwich over Connecticut Highway 2 to Westerly, R. I., which is located on U. S. Highway 1, thence over unnumbered highway to Misquamicut Beach, and return over the same route, serving no intermediate points. Applicant is authorized to conduct operations in Connecticut, Massachusetts, New Hampshire and Rhode Island.

HEARING: November 4, 1958, at the U. S. Court Rooms, Hartford, Conn., before Joint Board No. 252, or, if the Joint Board waives its right to participate, before Examiner James C. Cheseldine.

No. MC 117535, filed July 21, 1958. Applicant: LESTER A. CRAWFORD, doing business as CRAWFORD BUS SERVICE, North State Street, Lockport, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Groups of passengers*, such as school children and church groups, beginning and ending at Lockport and Joliet, Ill., and extending to Burlington, Milwaukee, Lake Geneva, Wis., and the Sand Dunes, near junction U. S. Highway 30 and Indiana Highway 49, Cedar Lake, and Valparaiso, Ind.

NOTE: Applicant states that the above authority will not include baggage of passengers.

HEARING: October 29, 1958, in Room 852, U. S. Custom House, 610 South Canal St., Chicago, Ill., before Joint Board No. 17.

No. MC 117541, filed July 22, 1958. Applicant: LINWOOD K. CASSEL AND HARRY F. UNDERCOFFLER, doing business as RADIO TAXI, 1450 West Main Street, Norristown, Pa. Applicant's attorney: Thomas E. Waters, 830 Swede Street, Norristown, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in one-way or round-trip special operations, in non-scheduled limousine door-to-door service, beginning and ending in the Boroughs of Norristown and Bridgeport and points in the Townships of Upper Merion, Plymouth, Whitemarsh, East Norriton, and West Norriton, Montgomery County, Pa., and extending to points in New York, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, and the District of Columbia.

HEARING: October 21, 1958, at the Penn Sherwood Hotel, 3900 Chestnut St., Philadelphia, Pa., before Examiner James C. Cheseldine.

No. MC 117555, filed July 28, 1958. Applicant: CLARKSVILLE TRANSIT CO., INC., 314 Commerce Street, Clarksville, Tenn. Applicant's attorney: Alfred T. MacFarland, 104 W. Main Street, Lebanon, Tenn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in round-trip charter operations, beginning and ending at points in Montgomery County, Tenn., and extending to points in Alabama, Arkansas, Georgia, Illinois, Indiana, Ohio, Mississippi, Missouri, Kentucky, Louisiana, and Florida.

NOTE: Applicant states that the above authority is for non-schedule charter operations only.

HEARING: November 4, 1958, at the Dinkler-Andrew Jackson Hotel, Nashville, Tenn., before Examiner Alton R. Smith.

No. MC 117575, filed August 18, 1958. Applicant: MOUNTAINEER BUS LINE, INC., 1056 University Avenue, Morgantown, W. Va. Applicant's attorney: Wesley R. Tinker, Jr., 56 Fourteenth Street, Wheeling, W. Va. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, and *mail, express* and *newspapers*, between Morgantown, W. Va., and Waynesburg, Pa.: from Morgantown over West Virginia Highway 7, through Westover, Riverside, Granville, Osage and Pursglove, to junction West Virginia Highway 92, thence over West Virginia Highway 7, through Cassville, Pentress and Blacksville, to junction unnumbered highway which leads from Pennsylvania Highway 218 near the Pennsylvania-West Virginia State Line, to West Virginia Highway 7, thence over said unnumbered highway to Pennsylvania Highway 218 at or near the Pennsylvania-West Virginia State Line, and thence over Pennsylvania Highway 218 to Waynesburg, and return over the same route, serving all intermediate points; also, over an alternate route as follows: from Morgantown over West Virginia Highways 92 and 7, through Star City, over recently constructed new bridge across the Monongahela River, to junction West Virginia Highways 92 and 7 at Pursglove, thence over West Virginia Highway 7, through Cassville, Pentress and Blacksville, to junction unnumbered highway which leads from Pennsylvania Highway 218 near the Pennsylvania-West Virginia State Line to West Virginia Highway 7, thence over said unnumbered highway to Pennsylvania Highway 218, and thence over Pennsylvania Highway 218 to Waynesburg, and return over the same route, serving all intermediate points.

HEARING: November 10, 1958, at the U. S. Court Room, New Federal Building, Wheeling, W. Va., before Joint Board No. 236, or, if the Joint Board waives its right to participate, before Examiner Lucian A. Jackson.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 45059 (Sub No. 9), filed September 3, 1958. Applicant: McNAUGHTON BROS., INC., 723 Church Street, Indiana, Pa. Applicant's attorney: Earl R. Handler, Indiana Theater Building, Indiana, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving Dayton, Pa., as an off-route point in connection with applicant's authorized regular route operations. RESTRICTIONS: The service to be performed by said carrier shall be limited to service which is auxiliary to, or supplemental of, rail service of the Baltimore and Ohio Railroad Company: Said carrier shall not serve any point, nor a station on the rail line of the Baltimore and Ohio Railroad. All contractural arrangements between said carrier and the Baltimore and Ohio Railroad Company shall be reported to the Commission and shall be subject to revision, if and as the Commission finds it to be necessary in order that such arrangements shall be fair and equitable to the parties; and such further specific conditions as the Commission, in the future, may find it necessary to impose in order to restrict said carrier's operation to service which is auxiliary to or supplemental of, rail service. Applicant is authorized to conduct operations in Pennsylvania, Ohio, West Virginia, New Jersey and New York.

No. MC 66562 (Sub No. 1449), filed August 29, 1958. Applicant: RAILWAY EXPRESS AGENCY, INC., 219 East 42nd Street, New York 17, N. Y. Applicant's attorney: William H. Marx (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Class A and B explosives*, moving in express service, between New York, N. Y., and Port Washington, N. Y., from New York over New York Highway 25–A to junction of New York Highway 101, thence over New York Highway 101 to Port Washington, and return over the same route, serving no intermediate points. Applicant is authorized to conduct operations throughout the United States.

No. MC 66562 (Sub No. 1450), filed September 4, 1958. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42nd Street, New York 17, N. Y. Applicant's attorney: James E. Thomas, Suite 1220, The Citizens & Southern National Bank Building, Atlanta, Ga. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Class A and B explosives*, moving in express service, (1) between Johnson City, Tenn. and Elizabethton, Tenn., from Johnson City over Tennessee Highway 91 to Elizabethton, and return over same route, serving no intermediate points; (2) between Elizabethton, Tenn. and Johnson City, Tenn., over Tennessee Highway 67, serving no intermediate points as an alternate route for operating convenience only. RESTRICTION: (1) The service to be performed by applicant shall be limited to service which is auxiliary to or supplemental of air or railway express service; (2) Shipments transported by applicant shall be limited to those moving on a through bill of lading or express receipt covering, in addition to a motor carrier movement by applicant, an immediate prior or immediately subsequent movement by air or rail.

No. MC 107496 (Sub No. 116), filed September 5, 1958. Applicant: RUAN TRANSPORT CORPORATION, 408 SE. 30th Street, Des Moines, Iowa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aviation gasoline* and *jet fuel*, in bulk, in tank vehicles, from Hastings, Minn., to Milwaukee, Wis. Applicant is authorized to conduct operations in Iowa, Illinois, Wisconsin, Nebraska, Minnesota, South Dakota, Kansas, North Dakota, Missouri, Ohio, Michigan, Kentucky, Indiana, Colorado, Oklahoma, Arkansas, Louisiana and Texas.

No. MC 110821 (Sub No. 5), filed September 2, 1958. Applicant: THE GRIFFIN TRUCKING & STORAGE COMPANY, INC., P. O. Box 3377, Fayetteville, N. C. Applicant's attorney: A. W. Flynn, Jr., 201–204 Jefferson Building, Greensboro, N. C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, dairy products*, and *articles* distributed by meat packing houses, as described in Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M. C. C. 209 and 766, from Fayetteville, N. C., to points in Granville, Vance, Warren, Franklin and Pitt Counties, N. C., and *returned and rejected shipments* of the commodities specified in this application on return. Applicant is authorized to conduct regular route operations in North Carolina and South Carolina, and irregular route operations in North Carolina.

No. MC 112713 (Sub No. 78), filed August 27, 1958. Applicant: YELLOW TRANSIT FREIGHT LINES, INC., 1626 Walnut Street, Kansas City, Mo. Applicant's attorney: John M. Records, same address as applicant. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Topeka, Kans., and Baxter Springs, Kans., from Topeka over U. S. Highway 75 to junction U. S. Highway 160, thence over U. S. Highway 160 to junction U. S. Highway 169, thence over U. S. Highway 169 to junction U. S. Highway 166, thence over U. S. Highway 166 to Baxter Springs, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with

applicant's authorized regular route operations (a) Between Kansas City, Kans., and Baxter Springs, Kans., and (b) Between Topeka, Kans., and Kansas City, Mo. Applicant is authorized to conduct operations in Illinois, Indiana, Kansas, Kentucky, Michigan, Missouri, Ohio, Oklahoma, and Texas.

No. MC 114194 (Sub No. 13), filed September 4, 1958. Applicant: KREIDER TRUCK SERVICE, INC., 8003 Collinsville Road, East St. Louis, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Steepwater*, in bulk, in tank vehicles, from Granite City, Ill. to points in Iowa, Indiana, Illinois, Missouri, Tennessee, Wisconsin, Michigan, and Kentucky, except no movements to Muscatine, Iowa. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Missouri, Ohio, and Tennessee.

No. MC 115504 (Sub No. 9), filed September 2, 1958. Applicant: KENISON TRUCKING, INC., 413 South 2nd West (P. O. Box 324), Salt Lake City, Utah. Applicant's attorney: Bartly G. McDonough, 10 Executive Building, 455 East 4th South, Salt Lake City 11, Utah. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (A) *Dry fertilizer*, from Garfield, Utah, and the site of the United States Steel Corporation plant at Geneva, Utah, to points in Arizona; (B) *Returned empty containers* used in the transportation of dry fertilizer, from the above-specified destination points to Garfield, Utah, and the site of the United States Steel Corporation plant at Geneva, Utah; and (C) *Aluminum sulphate*, in bulk, in conveyor-belt type equipment, from Richmond, Calif., to water purification plants located in Castlegate, Deer Creek (Wasatch County), Ogden, and Salt Lake City, Utah, and points within 25 miles of each, and Idaho Falls, Blackfoot, Pocatello, Twin Falls, Idaho, and points within 25 miles of each. Applicant is authorized to conduct operations in California, Idaho, Nevada, and Utah.

NOTE: Applicant states that the operations under (A) and (B) above are to be performed for the account of the Western Phosphates, Inc., and the United States Steel Corporation, Columbia-Geneva Steel Division; and under (C) above for the account of the L. H. Butcher Company.

No. MC 117500, filed July 7, 1958, (CORRECTION) published July 23, 1958, on page 5599. Applicant: EDWARD LAFAYETTE WATSON, doing business as WATSON TRUCKING COMPANY, Route 30, Matteson, Ill. Applicant's attorney: Harold T. Halfpenny, 111 West Washington Street, Chicago 2, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement* and *mortar*, in bulk and in bags, in dump trucks, flatbed, tank, and hopper-type equipment, from Buffington, Ind., to points in that part of Illinois bounded on the north by the Illinois-Wisconsin State line, on the west by U. S. Highway 51, and on the south by U. S. Highway 36, and *empty cement bags* on return.

NOTE: Previous publication indicating proposed operations would originate at Burlington, Ind., was in error. The correct origin point is Buffington, Ind.

MOTOR CARRIERS OF PASSENGERS

No. MC 102676 (Sub No. 4), filed September 2, 1958. Applicant: CENTRAL COACH, INC., 103 Murray Avenue, Worcester 10, Mass. Applicant's attorney: George C. O'Brien, The Eighth Floor, 33 Broad Street, Boston 9, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *Passengers and their baggage*, in the same vehicle with passengers, between Worcester, Mass., and Burrillville, R. I., from Worcester over Massachusetts Highway 122A to the junction of Massachusetts Highway 146, thence over Massachusetts Highway 146 to the junction in Millbury, Mass., of an unnumbered highway, thence over such unnumbered highway to Sutton, thence over an unnumbered highway to East Douglas, thence over Massachusetts Highway 16 to Douglas, thence over Massachusetts Highway 16 to junction of unnumbered highway leading to Burrillville, thence over said unnumbered highway to the Massachusetts-Rhode Island State line, thence over Rhode Island Highway 100 to Wallum Lake Village in Burrillville, and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations in Massachusetts, New Hampshire and Rhode Island.

No. MC 113430 (Sub No. 4), filed August 28, 1958. Applicant: THE R. AND H. COMPANY, a corporation, 70 Florence Street, East Hartford, Conn. Applicant's attorney: John R. Sims, Jr., Munsey Building, Washington 4, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *Passengers and their baggage*, and *express*, *mail*, and *newspapers*, in the same vehicle with passengers, between Danbury, Conn., and Bedford Village, N. Y., from Danbury over U. S. Highway 6 to Brewster, N. Y., thence over U. S. Highway 202 to Croton Falls, N. Y., thence over New York Highway 22 to Bedford Village, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only, in connection with applicant's authorized regular route operations between Hartford, Conn., and New York, N. Y. Applicant is authorized to conduct operations in Connecticut and New York.

APPLICATIONS UNDER 212 (c) CONVERSION PROCEEDINGS

No. MC 13554 (Sub No. 1). Applicant: WILLIAM A. HARRIS AND JAMES L. HARRIS doing business as HARRIS TRUCKING CO., Gardena, Calif.

Carrier filed an application, under Section 212 (c) of the Interstate Commerce Act, for a determination of its status pertaining to contract carrier authority issued on or before August 22, 1957. The operations conducted pursuant to said proceeding, are and continue to be those of a contract carrier as defined in Section 203 (a) (15). On July 16, 1958, the carrier requested dismissal of the application, and an order was entered on September 3, 1958, effective October 20, 1958, vacating and setting aside the order entered herein on January 31, 1958, instituting a proceeding under Section 212 (c) of the Interstate Commerce Act.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5, GOVERNED BY SPECIAL RULE 1.240 TO THE EXTENT APPLICABLE

MOTOR CARRIERS OF PROPERTY

No. MC 52958 (Sub No. 12), filed September 2, 1958. Applicant: HENNEPIN TRANSPORTATION CO., INC., 23 NE. 4th Street, Minneapolis, Minn. Applicant's attorney: Bernard Rosenberg, Rand Tower, Minneapolis 2, Minn. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, *OVER REGULAR ROUTES:* Between Hudson, Wis., and Milwaukee, Wis., from Hudson over U. S. Highway 12 to junction U. S. Highway 16, thence over U. S. Highway 16 to Milwaukee, and return over the same route, serving the intermediate points of Roberts, Hammond, Baldwin, Woodville, Hersey, Wilson, Knapp, Menomonie, and Elk Mound, Wis., and the off-route points of (a) Wisconsin Highway 35 between Ellsworth and its junction with U. S. Highway 12; (b) Wisconsin Highway 65 between River Falls and its junction with U. S. Highway 12; (c) Wisconsin Highway 29 between Prescott and its junction with U. S. Highway 12; (d) U. S. Highway 10 between Prescott and its junction with U. S. Highway 12; (e) Wisconsin Highway 25 between Durand and its junction with U. S. Highway 12; (f) Wisconsin Highway 72 between Ellsworth and its junction with Wisconsin Highway 25; (g) U. S. Highway 63 between Ellsworth and its junction with U. S. Highway 12; and (h) St. Croix County Road B between U. S. Highway 12 and Woodville. *OVER IRREGULAR ROUTES:* (1) Between points in Wisconsin on the following highways: (a) Wisconsin Highway 35 and U. S. Highway 10 between River Falls and Plum City, including River Falls and Plum City; (b) U. S. Highway 10 and Wisconsin Highway 72 between Prescott and Downsville, including Prescott and Downsville; and (c) Wisconsin Highway 29 between River Falls and Spring Valley including River Falls and Spring Valley; and (2) between points on the above-specified highways in (1) above, on the one hand, and, on the other, points on the regular service routes specified above. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Minnesota, and Wisconsin.

NOTE: Duplication with present authority to be eliminated. This application is directly related to MC-F 6982, published in the FEDERAL REGISTER of August 27, 1958.

APPLICATIONS UNDER SECTIONS 5 AND 210a (b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5 (a) and 210a (b) of the Interstate Commerce Act and certain other procedural matters with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F 6867 (HERRIN TRANSPORTATION CO.—CONTROL—M. P. & ST. L. EXPRESS, INC.), published in the March 27, 1958, issue of the FEDERAL REGISTER on page 2066. Second application filed September 9, 1953, for temporary authority under Section 210a (b).

No. MC-F 7000. Authority sought for consolidation into CONSOLIDATED FREIGHT LINES, INC., (DEL. CORP.), 431 Burgess Drive, Menlo Park, Calif., of the operating rights and property of CONSOLIDATED FREIGHTWAYS, INC., (WASH. CORP.) and SEA-VAN EXPRESS, LTD. (BRITISH COLUMBIA CORP.), both of 431 Burgess Drive, Menlo Park, Calif., and for acquisition by CONSOLIDATED FREIGHTWAYS COMPANY, also of Menlo Park, of control of such rights and property through the transaction. Applicants' attorneys: John R. Turney, 2001 Massachusetts Avenue, N. W., Washington 6, D. C., and Eugene T. Liipfert, 431 Burgess Drive, Menlo Park, Calif. Operating rights sought to be consolidated: (CONSOLIDATED FREIGHTWAYS, INC.) Principally *general commodities*, as a *common carrier* over regular and irregular routes, between points in the States of Washington, Oregon, Nevada, California, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Nebraska, Minnesota, Iowa, Wisconsin, Illinois, Indiana, Kentucky, Pennsylvania and West Virginia, including, as to the regular routes, generally between numerous west coast points on the one hand, and, on the other, Chicago, Ill.; (SEA-VAN EXPRESS, LTD.) *general commodities*, except used household goods and office furniture, uncrated, as a *common carrier* over a regular route between Seattle, Wash., and the boundary of the United States and Canada, serving all intermediate points and the off-route point of Sedro-Woolley, Wash. CONSOLIDATED FREIGHT LINES, INC., (DEL. CORP.) holds no authority from this Commission; however, it is affiliated with CONSOLIDATED FREIGHTWAYS, INC., (WASH. CORP.). Application has not been filed for temporary authority under Section 210a (b).

No. MC-F 7001. Authority sought for control by DAVID B. WORSTER, VINCENT R. WORSTER AND LAURA H. BEMENT, all of East Main Road, R. D. #1, North East, Pa., and ALTON WARNER, Lake Road, Bergen, N. Y., of McKAY AND MACLEOD CORP. and F. D. McKAY, INC., both of 7 East Race Street, Salamanca, N. Y. Applicants' attorney: William W. Knox, 23 West 10th Street, Erie, Pa. Operating rights sought to be controlled: (McKAY AND MACLEOD CORP.) *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes, between Jamestown, N. Y., and between junction New York Highways 17 and 16 near Portville, N. Y., and New York, N. Y., serving certain intermediate and off-route points; two alternate routes for operating convenience only; *general commodities*, with certain exceptions including household goods and commodities in bulk, over irregular routes, between New York, N. Y., on the one hand, and, on the other, points in Bergen, Passaic, Hudson, and Essex Counties, N. J., (RESTRICTION: The transportation of *lumber*, by virtue of the above authority, is restricted against service between New York, N. Y., on the one hand, and, on the other, Passaic, N. J., and points within 15 miles of Passaic); *sand and gravel*, from Vandalia, N. Y., to points in McKean County, Pa.; *crude oil*, from Rasselas, Pa., to Salamanca, N. Y.; *bakery goods* and *roofing material*, between Passaic, N. J., and points within 15 miles of Passaic, on the one hand, and, on the other, points in New Jersey and New York; (F. D. McKAY, INC.) Authority to operate under the Second Proviso of Section 206 (a) (1) of the Interstate Commerce Act covering the transportation of *general commodities*, as a *common carrier* over regular routes, between various points in the State of New York as more specifically described in Docket No. MC 97496 Sub 1. VINCENT R. WORSTER, LAURA H. BEMENT and ALTON WARNER hold no authority from this Commission; however, DAVID B. WORSTER is sole stockholder of WORSTER MOTOR LINES, INC., which is authorized to operate as a *common carrier* in Pennsylvania, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, West Virginia, Indiana, Illinois, Michigan, Ohio and the District of Columbia. Application has been filed for temporary authority under Section 210a (b).

NOTE: Application will be published in the FEDERAL REGISTER at a later date as a matter directly related.

No. MC-F 7002. Authority sought for control by MUSHROOM TRANSPORTATION COMPANY, INC., 6921 Castor Avenue, Philadelphia 49, Pa., of SMITH & HOWELL FILM SERVICE, INC., 210 Sixth North Street, Syracuse, N. Y., and for acquisition by WILLIAM W. CUTAIAR, SR., Millers Hill, Kennett Square, Pa., WILLIAM W. CUTAIAR, JR., 1200 Blythe Avenue, Drexel Hill, Pa., ROBERT F. CUTAIAR, 8106 Albion Street, Philadelphia, Pa., and RICHARD W. CUTAIAR, 7405 Rowland Avenue, Cheltenham, Pa., of control of SMITH & HOWELL FILM SERVICE, INC., through the acquisition by MUSHROOM TRANSPORTATION COMPANY, INC. Applicant's attorneys: William J. Lippman, 1413 K Street, NW., Washington 5, D. C., Charles W. Singer, 1825 Jefferson Place NW., Washington 6, D. C., and G. Donald Bullock, Box 146, Wyncote, Pa. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over irregular routes, between Syracuse, Rochester, Buffalo, Albany, and Watervliet, N. Y., on the one hand, and, on the other, points in New York; *film* and *theatre* supplies, between Albany, N. Y., and New York, N. Y., on the one hand, and, on the other, points in Massachusetts west of the Connecticut River, and points in Vermont on and west of U. S. Highway 7. MUSHROOM TRANSPORTATION COMPANY, INC., is authorized to operate as a *common carrier* in Maryland, Pennsylvania, New York, Delaware, New Jersey, Illinois, Massachusetts, Connecticut, Rhode Island and the District of Columbia. Application has been filed for temporary authority under Section 210a (b).

No. MC-F 7003. Authority sought for control by E. M. EASTER, M. E. EASTER, L. W. EASTER, L. D. EASTER, L. B. EASTER, M. M. MORSE and R. L. EASTER, doing business as EASTER-STORES, Des Moines, Iowa, of ACE LINES, INC., 2420 Minnehaha Avenue, Minneapolis 4, Minn. Applicants' attorney: William A. Landau, 1307 East Walnut Street, P. O. Box 1634, Des Moines, Iowa. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods and commodities in bulk (other than grain), as a *common carrier* over irregular routes, between Nassau, Minn., and points in Minnesota within 25 miles of Nassau, on the one hand, and, on the other, points in South Dakota; *binder twine*, from Breckenridge, Minn., to points in Dickey, Ransom, Richland and Sargent Counties, N. Dak.; *gravel*, from points in Minnesota within 30 miles of Breckenridge, Minn., to West Fargo and Union Stock Yards, N. Dak.; *mill feed, vegetables, seeds and seed bags*, new and used, between points in Cass, Grand Rocks, Pembine, Traill, and Walsh Counties, N. Dak., on the one hand, and, on the other, points in Clay, Kittson, Mahnomen, Marshall, Norman, Polk, Red Lake, and Rosseau Counties, Minn.; *building materials, coal, farm machinery and parts thereof, emigrant movables, household goods*, as defined by the Commission, *feeds, forest products* (including lumber and fence posts), *livestock* (including horses), and *unprocessed farm products*, between points in Minnesota, North Dakota, Iowa and Illinois, except between points in the commercial zone of Fargo, N. Dak., on the one hand, and, on the other, points in the Minneapolis-St. Paul commercial zone. R. L. EASTER holds no authority from this Commission. All other applicants are authorized to operate, as a partnership doing business as HIGHWAY TRANSPORT COMPANY, as a *common carrier* in Wisconsin, Colorado, Kansas, Nebraska, Iowa and Illinois. Application has been filed for temporary authority under Section 210a (b).

No. MC-F 7004. Authority sought for purchase by FURNITURE EXPRESS, INC., Fluvanna Road, R. D. No. 1, Jamestown, N. Y., of the operating rights of GEORGE T. SNEATH (PRODUCERS BANK AND TRUST COMPANY OF BRADFORD, PA., EXECUTOR), doing business as SNEATH CARTING COMPANY, 215 Main Street, Bradford, Pa., and for acquisition by GEORGE E. RINDOSH, also of Jamestown, of control of such rights through the purchase. Applicants' attorney: Johnson, Peterson, Tener & Anderson, Bank of Jamestown Building, Jamestown, N. Y. Operating

rights sought to be transferred: *Bananas*, as a *common carrier* over a regular route, from Olean, N. Y., to Bradford, Pa., serving no intermediate points; *household goods*, as defined by the Commission, between points in McKean County, Pa., on the one hand, and, on the other, points in New Jersey, New York and West Virginia, and between points in McKean County, Pa., on the one hand, and, on the other, points in Ohio; *machinery, materials, supplies* and *equipment*, incidental to, or used in, the construction, development, operation and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, between points in McKean County, Pa., on the one hand, and, on the other, points in Cattaraugus County, N. Y. FURNITURE EXPRESS, INC., is authorized to operate as a *common carrier* in New York, New Jersey, Pennsylvania, Ohio, Maryland, Illinois, Indiana, Wisconsin, Michigan, Delaware, Virginia and the District of Columbia. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 7005. Authority sought for control and merger by COLDWAY FOOD EXPRESS, INC., P. O. Box 259, Sidney, Ohio, of the operating rights and property of FOODWAY EXPRESS, INC., 225 West 34th Street, New York 1, N. Y., and for acquisition by E. J. GARMHAUSEN, also of Sidney, of control of such rights and property through the purchase. Applicants' attorney: Herbert Baker, 50 West Broad Street, Columbus 15, Ohio. Operating rights sought to be controlled and merged: *Fresh, processed, and canned fruits, produce, and food products, nuts, peanut oil, peanut butter, batteries and battery parts*, as a *common carrier* over regular routes, between New York, N. Y., and Philadelphia, Pa., serving the intermediate and off-route points of Camden, Jersey City, Elizabeth, New Brunswick, Newark, Paterson and Trenton, N. J.; *fresh fruits and fresh vegetables*, over irregular routes, between New York, N. Y., and Jersey City, N. J., on the one hand, and, on the other, U. S. Naval Air Station, Lakehurst, N. J., U. S. Merchant Marine Academy, Kings Point, L. I., N. Y., Camp Upton, Yaphank, L. I., N. Y., U. S. Naval Hospital, Brentwood, L. I., N. Y., Fort Slocum, New Rochelle, N. Y., Camp Shanks, Orangeburg, N. Y., U. S. Military Academy, West Point, N. Y., and Stewart Field, Newburg, N. Y.; *fruits and fresh vegetables, poultry, eggs, dairy products, meats, meat products*, and *fish*, between New York, N. Y., and Jersey City, N. J., on the one hand, and, on the other, Mitchell Field, Garden City, L. I., N. Y., U. S. Naval Separation Center, Lido Beach, L. I., N. Y., Greenhaven Prison, Stormville, N. Y., U. S. Naval Training Station and U. S. Naval Separation Center, Sampson, N. Y., Fort Monmouth, N. J., Fort Hancock, Red Bank, N. J., Camp Kilmer, New Brunswick, N. J., and Fort Dix, N. J. COLDWAY FOOD EXPRESS, INC., is authorized to operate as a *common carrier* in Ohio, Pennsylvania, New Jersey, New York, Illinois, Michigan, Wisconsin, Kentucky, Missouri, Indiana, Maryland, Massachusetts and the District of Columbia. Application has not been filed for temporary authority under Section 210a (b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[Notice 52]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

SEPTEMBER 12, 1958.

The following letter-notices of proposals to operate over deviation routes for operating convenience only with no service at intermediate points have been filed with the Interstate Commerce Commission, under the Commission's Special Rules Revised, 1957 (49 CFR 211.1 (c) (8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1 (d) (4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1 (e)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 1470 (Sub No. 1) (Deviation No. 1), COLUMBUS AND CHICAGO MOTOR FREIGHT, INCORPORATED, 1053 East Fifth Avenue, Columbus, Ohio, filed September 10, 1958. Attorney for said carrier, Earl J. Thomas, Thomas Buildings, 5844–5850 North High Street, Worthington, Ohio. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between Westville, Ind., and Chicago, Ill., as follows: from junction U. S. Highway 6 and Indiana Highway 421 in Westville over Indiana Highway 421 to the Indiana Toll Road, thence over the Indiana Toll Road to the Indiana State line and junction U. S. Highway 41 and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Westville, Ind., and Chicago, Ill., over the following pertinent route: from Westville over U. S. Highway 6 to junction U. S. Highway 41, thence over U. S. Highway 41 to the Calumet Expressway, thence over the Calumet Expressway to 95th Street, thence over 95th Street to Root Street, thence to the Chicago Terminal.

No. MC 30250 (Deviation No. 2), HOUSTON & NORTH TEXAS MOTOR FREIGHT LINES, INC., 2515 Irving Blvd., Dallas 7, Tex., filed September 9, 1958. Attorney for said carrier, Lewy Hallman, First National Bank Building, Dallas 2, Tex. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between Oklahoma City, Okla., and Purcell, Okla., as follows: from Oklahoma City over Oklahoma Highway 74 to Purcell and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Dallas, Tex., and Oklahoma City, Okla., over U. S. Highway 77.

No. MC 77477 (Deviation No. 1), ATLANTIC FREIGHT LINES, INC., P. O. Box 32, Uniontown, Pa., filed September 9, 1958. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route between Buffalo, N. Y., and Ripley, N. Y., as follows: from Interchange No. 50 of the New York State Thruway at Buffalo over the New York State Thruway and access routes to Interchange No. 61 at Ripley and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over the following pertinent route: from Ripley over U. S. Highway 20 to Silver Creek, N. Y., thence over New York Highway 5 to Buffalo, and return over the same route.

By the Commission.

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[1023—Allotments—(Burley, Flue, Fire, Air, Sun–58)–1]

PART 725—BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

1958 SINGLE COMBINED ALLOTMENT FOR FIRE-CURED AND VIRGINIA SUN-CURED TOBACCO

The changes involved in this amendment are based on the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, including Public Law 85–705, approved August 21, 1958, applicable to tobacco (7 U. S. C. 1311–15).

In conformance with the provisions of the Administrative Procedure Act (5 U. S. C. 1003), notice of the formulation of this amendment was published in the FEDERAL REGISTER (23 F. R. 6600). The views, data and recommendations of interested persons have been followed within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

Since fire-cured (type 21) and Virginia sun-cured (type 37) tobacco farmers will soon be harvesting and curing the 1958 crop, it is hereby found and determined that compliance with the 30-day effective date provisions of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the amendment contained herein shall become effective upon the date of filing with the Director, Division of the Federal Register.

The regulations governing the establishment of farm marketing quotas and acreage allotments for burley, flue-cured, fire-cured, dark air-cured and Virginia sun-cured tobacco for the 1958–59 marketing year (22 F. R. 5675, 8103; 23 F. R. 135) are hereby amended by adding a new § 725.929 as follows:

§ 725.929 *Combination of 1958 fire-cured (type 21) tobacco acreage allotment and 1958 Virginia sun-cured (type 37) tobacco acreage allotment on the same farm into a 1958 single combined allotment.* (a) The 1958 fire-cured (type 21) tobacco acreage allotment and the 1958 Virginia sun-cured (type 37) tobacco acreage allotment heretofore established for the same farm pursuant to §§ 725.911 to 725.928, inclusive, shall be combined into a 1958 single combined tobacco acreage allotment for the farm for either fire-cured (type 21) tobacco, or Virginia sun-cured (type 37) tobacco, whichever the owner of the farm or his representative chooses, or if there is more than one owner of the land comprising the farm, whichever the representative of all such owners chooses, and notifies the county committee of his choice, within 15 days after the date written notification of the opportunity to make such choice is mailed to the owner or owners, or within such extended period of time thereafter as the county committee in any case may fix and notify the owner or owners of such extension. The county committee shall also notify the farm owner or owners that in case the county committee is not notified within such 15 days or such extension of time as may be granted, that a choice has been made as heretofore provided, the county committee, with approval of a representative of the State committee, shall combine such 1958 allotments for such farm into a 1958 single combined acreage allotment for either fire-cured (type 21) tobacco or Virginia sun-cured (type 37) tobacco, on the basis of (1) the prevalent kind of tobacco grown in the area in which such farm is located, (2) the curing facilities on such farm, and (3) the proximity and nature of markets. Any single combined acreage allotment established for any farm pursuant to this paragraph shall equal the sum of the acreage of the allotments of fire-cured (type 21) tobacco and Virginia sun-cured (type 37) tobacco comprising it, and shall be used for all purposes of the 1958 tobacco marketing quota program and for determining 1958 price support eligibility.

(b) If after September 12, 1958, one or more farms having a 1958 fire-cured (type 21) tobacco acreage allotment is combined with another or more farms having a 1958 Virginia sun-cured (type 37) tobacco acreage allotment, a single combined acreage allotment for the 1958–59 marketing year designated for either fire-cured (type 21) tobacco or Virginia sun-cured (type 37) tobacco shall be established for the combined

farm equal to the total acreage of and in place of the 1958 acreage allotments for fire-cured (type 21) tobacco and Virginia sun-cured (type 37) tobacco previously established for the farms comprising the combined farm. The county committee shall give written notification to the owner or owners of such combined farm that the owner or his representative may designate, or if there is more than one owner of the land comprising the farm that the representative of all such owners may designate, a single combined 1958 acreage allotment for the combined farm as either for fire-cured (type 21) tobacco or for Virginia sun-cured (type 37) tobacco by submitting his choice to the local county committee within 15 days following the date of mailing of such notification, or within such extended period of time thereafter as the county committee in any case may fix and notify the owner or owners of such extension; and that if within such time the county committee is not notified that a choice has been made as heretofore provided, the county committee, with approval of a representative of the State committee, shall designate the 1958 single combined acreage allotment for the farm as heretofore provided in this section. The occurrence on the same farm of concurrent acreage allotments for fire-cured (type 21) tobacco and Virginia sun-cured (type 37) tobacco pursuant to the provisions of § 725.920 shall be deemed to be of the same effect, for the purposes of and in applying the provisions of this paragraph, as a combination of farms described above in this paragraph.

(c) Single combined farm acreage allotments established in accordance with this section shall be determined and approved as provided in § 725.927 (a) and the State committee or its representative may review and revise or require revision of any acreage allotment so established. Written notice of such single combined farm acreage allotments and marketing quotas shall be given and mailed as provided in § 725.927 (b).

(d) For the purpose of this section the term "representative" shall mean the person named and authorized by the owner of a farm to act for him, or if there are two or more owners of the land comprising a farm, the person named and authorized by such owners to act for all of them in designating or choosing for the farm a single combined acreage allotment for either fire-cured (type 21) tobacco or Virginia sun-cured (type 37) tobacco. The county committee may require any person to furnish to it such evidence as it may require to reasonably establish such person as an owner or representative of an owner or owners.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interprets and applies sec. 313, 52 Stat. 47, as amended; sec. 315, Pub. Law 85–705, 85th Cong.; 7 U. S. C. 1313)

Done at Washington, D. C. this 15th day of September 1958. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 909—ALMONDS GROWN IN CALIFORNIA

BUDGET OF EXPENSES OF ALMOND CONTROL BOARD AND RATE OF ASSESSMENT FOR CROP YEAR

Notice was published in the FEDERAL REGISTER of August 26, 1958 (23 F. R. 6600) that the Secretary was considering a proposed rule to establish a budget of expenses of the Almond Control Board of $33,000 and a rate of assessment of seventeen hundredths of a cent (.17¢) per pound of almond kernels received by handlers for their own accounts during the crop year beginning July 1, 1958. Said action was proposed to be taken in accordance with the applicable provisions of Marketing Agreement No. 119, as amended, and Order No. 9, as amended (7 CFR Part 909), regulating the handling of almonds grown in California. Said marketing agreement and order are effective under the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

The aforesaid notice afforded interested persons an opportunity to file data, views, or arguments concerning the proposal with the Department prior to final issuance of the rule. The prescribed time has expired and no such communications have been received.

After consideration of all relevant matters it is hereby found that expenses of the Almond Control Board in the total amount of $33,000 are reasonable and likely to be incurred by the Board during the 1958–59 crop year, and a rate of assessment of .17 cent per pound of almond kernels is necessary to provide funds to meet authorized Board expenses.

Therefore, it is ordered, That the budget of expenses of the Almond Control Board and rate of assessment for the year beginning July 1, 1958 be as follows:

§ 909.308 *Budget of expenses of the Almond Control Board and rate of assessment for the crop year beginning July 1, 1958*—(a) *Budget of expenses.* The budget of expenses for the crop year beginning July 1, 1958 shall be in the total amount of $33,000 for the maintenance and functioning of the Almond Control Board, and for such purposes as the Secretary may, pursuant to the provisions of the agreement and order (§§ 909.1 to 909.92), determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for the said crop year shall be seventeen hundredths of a cent (.17¢) per pound of almonds, kernel weight basis, received by each handler for his own account, except almonds received from other handlers on which assessments have previously been paid.

It is hereby further found that good cause exists for not postponing the effective date of this order later than the date of its publication in the FEDERAL REGISTER for the reasons that: (1) The action will apply to all almonds received by handlers for their own accounts during the crop year which began on July 1, 1958, and such receipts of 1958 crop almonds have already begun; and (2) no advance or special preparation for operations hereunder will be needed.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 15, 1958, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Division.

[F. R. Doc. 58–7633; Filed, Sept. 17, 1958; 8:55 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 16]

PART 514—TECHNICAL STANDARD ORDERS FOR AIRCRAFT MATERIALS, PARTS, PROCESSES, AND APPLIANCES

FIRE DETECTORS

Minimum performance standards for fire detectors for use in civil aircraft of the United States are defined in § 514.21.

Inasmuch as this amendment which provides for a measurement of response time characteristics with a flame temperature of 1100° C in lieu of 815° C is a relaxation of a rule and, as such, does not impose any additional burden upon interested persons, therefore compliance with the notice, procedures, and effective date provisions of the Administrative Procedure Act is unnecessary and is not required.

Section 514.21 (21 F. R. 6508) under Subpart B of this part is amended to read as follows:

§ 514.21 *Fire detectors–TSO–C11b*—(a) *Applicability*—(1) *Minimum performance standards.* Minimum performance standards are hereby established for fire detectors which are required to be approved for use on civil aircraft of the United States. New models of fire detectors manufactured for use on civil aircraft of the United States on or after October 15, 1958, shall meet the standards of SAE Aeronautical Standard AS–401A, "Fire and Heat Detectors," revised October 1, 1949,[1] with the exceptions listed in subparagraph (2) of this paragraph. Fire detectors approved by the Civil Aeronautics Administration prior to the effective date of this section may continue to be manufactured under the provisions of their original approval.

(2) *Exceptions.* (i) Section 3.3, "Identification," of AS–401A need not be met for purposes of this order.

(ii) A temperature of 1100° C shall be used in lieu of 815° C specified in AS–401A, sections 7.1, Response Time, and 7.1.1, Repeat Response Time.

(b) *Marking.* In lieu of information required in § 514.3 (c), the alarm temperature shall be shown.

(c) *Data requirements.* One copy each of the operating instructions, schematic diagrams, and installation

[1] Copies may be obtained from the Society of Automotive Engineers, 485 Lexington Ave., New York 17, New York.

procedures for the detectors shall be furnished the Chief, Aircraft Engineering Division, Civil Aeronautics Administration, Washington 25, D. C., with the statement of conformance. Such data shall include the following:

(1) Maximum allowable normal ambient temperature at the point of detector location;

(2) Maximum allowable rate of temperature rise at point of detector location as a result of normal operation;

(3) Electrical circuit arrangement;

(4) Operating voltage;

(5) Mounting or support method; and

(6) Maximum or minimum number of units or detector length which can be used in one circuit or one fire zone without adversely affecting sensitivity or causing false indications due to temperature associated with normal operation.

(d) *Effective date.* October 15, 1958.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

SEPTEMBER 10, 1958.

[F. R. Doc. 58-7585; Filed, Sept. 17, 1958; 8:45 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6314]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

INSTALLMENT METHOD OF REPORTING INCOME

On January 11, 1958, notice of proposed rule making with respect to regulations for taxable years beginning after December 31, 1953, and ending after August 16, 1954, under section 453 (relating to the installment method of reporting income) of the Internal Revenue Code of 1954, was published in the FEDERAL REGISTER (23 F. R. 228). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the regulations as so proposed are hereby adopted, subject to the changes as set forth below.

Consideration is being given to the issuance of separate rules dealing with the matter of whether income from so-called "revolving credit sales" may be reported under the installment method of accounting provided for under section 453.

PARAGRAPH 1. Section 1.453–1 is revised—

(A) By adding at the end of paragraph (b) the following sentence: "For rules applicable in determining 'selling price' and the use of certain other terms, see also paragraph (c) of § 1.453–4."

(B) By inserting between the fourth and fifth sentences of paragraph (d) the following: "For definition of the basis of an installment obligation, see section 453 (d) (2) and paragraph (b) (2) of § 1.453–9."

(C) By deleting the last sentence of paragraph (d) and inserting in lieu thereof the following: "The fair market value of the property repossessed shall be reflected in the appropriate permanent records of the vendor at the time of such repossession."

PAR. 2. Paragraph (b) of § 1.453–2 is revised.

PAR. 3. Paragraph (b) (2) of § 1.453–4 is revised by inserting immediately after the term "Deferred-payment sales" the words "of real property".

PAR. 4. Paragraph (b) of § 1.453–5 is revised by inserting between the third and fourth sentences the following: "For definition of the basis of an installment obligation, see section 453 (d) (2) and paragraph (b) (2) of § 1.453–9."

PAR. 5. Paragraph (a) (1) of § 1.453–6 is revised by deleting the first sentence and inserting in lieu thereof the following: "In transactions included in paragraph (b) (2) of § 1.453–4, that is, sales of real property involving deferred payments in which the payments received during the year of sale exceed 30 percent of the selling price, the obligations of the purchaser received by the vendor are to be considered as an amount realized to the extent of their fair market value in ascertaining the profit or loss from the transaction."

PAR. 6. Paragraph (b) (2) of § 1.453–7 is revised by inserting immediately prior to the term "self-employment income" the words "tax on".

PAR. 7. The example in paragraph (b) (3) of § 1.453–7 is revised by deleting the words "Adjustment in respect to tax of Year 3" appearing in Computation of Adjustment in Year 3 and inserting in lieu thereof the words "Adjustment to tax of Year 3".

PAR. 8. Paragraph (c) of § 1.453–8 is vised by inserting immediately after the words "may not change from the installment" the word "method".

PAR. 9. Paragraph (b) of § 1.453–9 is deleted and a new paragraph (b) is inserted in lieu thereof.

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

Approved: September 12, 1958.

NELSON P. ROSE,
Acting Secretary of the Treasury.

The regulations adopted under section 453 of the Internal Revenue Code of 1954, relating to the installment method of accounting, effective for taxable years beginning after December 31, 1953, and ending after August 16, 1954, except as specifically provided otherwise, read as follows:

Sec.
1.453 Statutory provisions; installment method.
1.453–1 Installment method of reporting income.
1.453–2 Special rules applicable to dealers in personal property.
1.453–3 Special rules applicable to casual sales or casual dispositions of personal property.
1.453–4 Sale of real property involving deferred periodic payments.
1.453–5 Sale of real property treated on installment method.
1.453–6 Deferred-payment sale of real property not on installment method.
1.453–7 Change from accrual to installment method by dealers.
1.453–8 Requirements for adoption of or change to installment method.
1.453–9 Gain or loss on disposition of installment obligations.
1.453–10 Effective date.

AUTHORITY: §§ 1.453 to 1.453–10, issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

§ 1.453 *Statutory provisions; installment method.*

SEC. 453. *Installment Method*—(a) *Dealers in personal property.* Under regulations prescribed by the Secretary or his delegate, a person who regularly sells or otherwise disposes of personal property on the installment plan may return as income therefrom in any taxable year that proportion of the installment payments actually received in that year which the gross profit, realized or to be realized when payment is completed, bears to the total contract price.

(b) *Sales of realty and casual sales of personalty*—(1) *General rule.* Income from—

(A) A sale or other disposition of real property, or

(B) A casual sale or other casual disposition of personal property (other than property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year) for a price exceeding $1,000,

may (under regulations prescribed by the Secretary or his delegate) be returned on the basis and in the manner prescribed in subsection (a).

(2) *Limitation.* Paragraph (1) shall apply—

(A) In the case of a sale or other disposition during a taxable year beginning after December 31, 1953 (whether or not such taxable year ends after the date of enactment of this title), only if in the taxable year of the sale or other disposition—

(i) There are no payments, or

(ii) The payments (exclusive of evidences of indebtedness of the purchaser) do not exceed 30 percent of the selling price.

(B) In the case of a sale or other disposition during a taxable year beginning before January 1, 1954, only if the income was (by reason of section 44 (b) of the Internal Revenue Code, of 1939) returnable on the basis and in the manner prescribed in section 44 (a) of such code.

(c) *Change from accrual to installment basis*—(1) *General rule.* If a taxpayer entitled to the benefits of subsection (a) elects for any taxable year to report his taxable income on the installment basis, then in computing his taxable income for such year (referred to in this subsection as "year of change") or for any subsequent year—

(A) Installment payments actually received during any such year on account of sales or other dispositions of property made in any taxable year before the year of change shall not be excluded; but

(B) The tax imposed by this chapter for any taxable year (referred to in this subsection as "adjustment year") beginning after December 31, 1953, shall be reduced by the adjustment computed under paragraph (2).

(2) *Adjustment in tax for amounts previously taxed.* In determining the adjustment referred to in paragraph (1) (B), first determine, for each taxable year before the year of change, the amount which equals the lesser of—

(A) The portion of the tax for such prior taxable year which is attributable to the gross profit which was included in gross income for such prior taxable year, and which by reason of paragraph (1) (A) is includible in gross income for the taxable year, or

(B) The portion of the tax for the adjustment year which is attributable to the gross profit described in subparagraph (A).

The adjustment referred to in paragraph (1) (B) for the adjustment year is the sum of the amounts determined under the preceding sentence.

(3) *Rule for applying paragraph (2).* For purposes of paragraph (2), the portion of the tax for a prior taxable year, or for the adjustment year, which is attributable to the gross profit described in such paragraph is that amount which bears the same ratio to the tax imposed by this chapter (or by the corresponding provisions of prior revenue laws) for such taxable year (computed without regard to paragraph (2)) as the gross profit described in such paragraph bears to the gross income for such taxable year. For purposes of the preceding sentence, the provisions of chapter 1 (other than of subchapter D, relating to excess profits tax, and of subchapter E, relating to self-employment income) of the Internal Revenue Code of 1939 shall be treated as the corresponding provisions of the Internal Revenue Code of 1954.

(d) *Gain or loss on disposition of installment obligations*—(1) *General rule.* If an installment obligation is satisfied at other than its face value or distributed, transmitted, sold, or otherwise disposed of, gain or loss shall result to the extent of the difference between the basis of the obligation and—

(A) The amount realized, in the case of satisfaction at other than face value or a sale or exchange, or

(B) The fair market value of the obligation at the time of distribution, transmission, or disposition, in the case of the distribution, transmission, or disposition otherwise than by sale or exchange.

Any gain or loss so resulting shall be considered as resulting from the sale or exchange of the property in respect of which the installment obligation was received.

(2) *Basis of obligation.* The basis of an installment obligation shall be the excess of the face value of the obligation over an amount equal to the income which would be returnable were the obligation satisfied in full.

(3) *Special rule for transmission at death.* Except as provided in section 691 (relating to recipients of income in respect of decedents), this subsection shall not apply to the transmission of installment obligations at death.

(4) *Effect of distribution in certain liquidations*—(A) *Liquidations to which section 332 applies.* If—

(i) An installment obligation is distributed by one corporation to another corporation in the course of a liquidation, and

(ii) Under section 332 (relating to complete liquidations of subsidiaries) no gain or loss with respect to the receipt of such obligation is recognized in the case of the recipient corporation,

then no gain or loss with respect to the distribution of such obligation shall be recognized in the case of the distributing corporation.

(B) *Liquidations to which section 337 applies.* If—

(i) An installment obligation is distributed by a corporation in the course of a liquidation, and

(ii) Under section 337 (relating to gain or loss on sales or exchanges in connection with certain liquidations) no gain or loss would have been recognized to the corporation if the corporation had sold or exchanged such installment obligation on the day of such distribution,

then no gain or loss shall be recognized to such corporation by reason of such distribution.

§ 1.453–1 *Installment method of reporting income*—(a) *In general.* Section 453 permits dealers in personal property, that is, persons who regularly sell or otherwise dispose of personal property on the installment plan, to return the income from the sale or other disposition thereof on the installment method. The installment method may also be applied with certain limitations (see paragraph (c) of this section) to the sale or other disposition of real property and the casual sale or other casual disposition of certain personal property.

(b) *Income to be reported.* Persons permitted to use the installment method of accounting prescribed in section 453 may return as income from installment sales in any taxable year that proportion of the installment payments actually received in that year which the gross profit realized or to be realized when the property is paid for bears to the total contract price. In the case of dealers in personal property, for this purpose, gross profit means sales less cost of goods sold. See § 1.453–2 for rules applicable to the computation of income of dealers in personal property reporting on the installment method. In the case of sales of real estate and casual sales of personal property, gross profit means the selling price less the adjusted basis as defined in section 1011 and the regulations thereunder. Gross profit, in the case of a sale of real estate by a person other than a dealer and a casual sale of personal property, is reduced by commissions and other selling expenses for purposes of determining the proportion of installment payments returnable as income. For rules applicable in determining "selling price" and the use of certain other terms, see also paragraph (c) of § 1.453–4.

(c) *Limitations on the use of the installment method.* (1) Income from the sale or other disposition of real property or from casual sales or other casual dispositions of personal property may be reported on the installment method for taxable years beginning after December 31, 1953, only if, in the taxable year of the sale or other disposition, (i) there are no payments or (ii) the payments (exclusive of evidences of indebtedness of the purchaser) do not exceed 30 percent of the selling price.

(2) The income from a casual sale or other casual disposition of personal property may be reported on the installment method only if (i) the property is not of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, and (ii) its sale price exceeds $1,000.

(d) *Treatment of gain or loss on default by the purchaser of personal property sold on the installment plan.* If for any reason the purchaser defaults in any of his installment payments, and the vendor (whether he is a dealer in personal property or a person who has made a casual sale or other casual disposition of personalty), returning income on the installment method, repossesses the property sold, whether title thereto had been retained by the vendor or transferred to the purchaser, gain or loss for the year in which the repossession occurs is to be computed upon any installment obligations of the purchaser which are satisfied or discharged upon the repossession or are applied by the vendor to the purchase or bid price of the property. Such gain or loss is to be measured by the difference between the fair market value at the date of repossession of the property repossessed and the basis in the hands of the vendor of the obligations of the purchaser which are so satisfied, discharged, or applied, with proper adjustment for any other amounts realized or costs incurred in connection with the repossession. (See also § 1.453–6.) The basis in the hands of the vendor of the obligations of the purchaser satisfied, discharged, or applied upon the repossession of the property shall be the excess of the face value of such obligations over an amount equal to the income which would be returnable were the obligations paid in full. For definition of the basis of an installment obligation, see section 453 (d) (2) and paragraph (b) (2) of § 1.453–9. No deduction for a bad debt shall in any case be taken on account of any portion of the obligations of the purchaser which are treated by the vendor as not having been satisfied, discharged, or applied upon the repossession unless it is clearly shown that after the property was repossessed the purchaser remained liable for such portion; and in no event shall the amount of the deduction exceed the basis in the hands of the vendor of the portion of the obligations with respect to which the purchaser remained liable after the repossession. (See also section 166 and the regulations thereunder.) If the property repossessed is bid in by the vendor at a lawful public auction or judicial sale, the fair market value of the property shall be presumed to be the purchase or bid price thereof in the absence of clear and convincing proof to the contrary. The fair market value of the property repossessed shall be reflected in the appropriate permanent records of the vendor at the time of such repossession.

(e) *Other accounting methods.* If the vendor chooses as a matter of consistent practice to return the income from installment sales on an accrual method or on the cash receipts and disbursements method, such a course is permissible.

(f) *Records.* In adopting the installment method of accounting the seller must maintain such records as are necessary to clearly reflect income in accordance with this section, section 446 and § 1.446–1.

§ 1.453–2 *Special rules applicable to dealers in personal property*—(a) *In general.* A person who regularly sells personal property on the installment plan may adopt (but is not required to do so), one of the following four ways of protecting his interest in case of default by the purchaser:

(1) By an agreement that title is to remain in the vendor until the purchaser has completely performed his part of the transaction;

(2) By a form of contract in which title is conveyed to the purchaser immediately, but subject to a lien for the unpaid portion of the selling price;

(3) By a present transfer of title to the purchaser, who at the same time executes a reconveyance in the form of a chattel mortgage to the vendor; or

(4) By conveyance to a trustee pending performance of the contract and subject to its provisions.

(b) *Installment income of dealers in personal property.* The income from installment sales of a dealer, that is, a person regularly engaged in the sale of personal property on the installment plan, may be ascertained by treating as income that proportion of the total payments received in the taxable year from installment sales (such payments being allocated to the year against the sales of which they apply) which the gross profit realized or to be realized on the total installment sales made during each year bears to the total contract price of all such sales made during that respective year. A dealer who desires to compute income by the installment method shall maintain accounting records in such a manner as to enable an accurate computation to be made by such method in accordance with the provisions of this section, section 446, and § 1.446–1.

(c) *Treatment of payments on sales made in years prior to change to installment method.* No payments received in the taxable year shall be excluded in computing the amount of income to be returned on the ground that they were received under a sale the total profit from which was returned as income during a taxable year or years prior to the change by the taxpayer to the installment method of returning income. In this regard, however, see section 453 (c) and § 1.453–7 for the computation of the adjustments for amounts previously included in income in the case of a change from an accrual method to the installment method. Deductible items are not to be allocated to the years in which the profits from the sales of a particular year are to be returned as income, but must be deducted for the taxable year in which the items are "paid or incurred" or "paid or accrued". See sections 461 and 7701 (a) (25), and the regulations thereunder.

§ 1.453–3 *Special rules applicable to casual sales or casual dispositions of personal property.* Income shall be computed and reported separately for each casual sale or other casual disposition of personal property as installment payments are received in the year of sale and subsequent years. See § 1.453–1 (c) for limitations on the use of the installment method.

§ 1.453–4 *Sale of real property involving deferred periodic payments*—(a) *In general.* Sales of real property involving deferred payments include (1) agreements of purchase and sale which contemplate that a conveyance is not to be made at the outset, but only after all or a substantial portion of the selling price has been paid, and (2) sales in which there is an immediate transfer of title, the vendor being protected by a mortgage or other lien as to deferred payments.

(b) *Classes of sales.* Such sales, under either paragraph (a) (1) or (2) of this section, fall into two classes when considered with respect to the terms of sale, as follows:

(1) Sales of real property which may be accounted for on the installment method, that is, sales of real property in which (i) there are no payments during the taxable year of the sale or (ii) the payments in such taxable year (exclusive of evidences of indebtedness of the purchaser) do not exceed 30 percent of the selling price, or

(2) Deferred-payment sales of real property in which the payments received in cash or property other than evidences of indebtedness of the purchaser during the taxable year in which the sale is made exceed 30 percent of the selling price.

(c) *Determination of "selling price".* In the sale of mortgaged property the amount of the mortgage, whether the property is merely taken subject to the mortgage or whether the mortgage is assumed by the purchaser, shall, for the purpose of determining whether a sale is on the installment plan, be included as a part of the "selling price"; and for the purpose of determining the payments and the total contract price as those terms are used in section 453, and §§ 1.453–1 through 1.453–7, the amount of such mortgage shall be included only to the extent that it exceeds the basis of the property. The term "payments" does not include amounts received by the vendor in the year of sale from the disposition to a third person of notes given by the vendee as part of the purchase price which are due and payable in subsequent years. Commissions and other selling expenses paid or incurred by the vendor shall not reduce the amount of the payments, the total contract price, or the selling price.

§ 1.453–5 *Sale of real property treated on installment method*—(a) *In general.* In any transaction described in paragraph (b) (1) of § 1.453–4, that is, sales of real property in which there are no payments during the year of sale or the payments in that year do not exceed 30 percent of the selling price, the vendor may return as income from each such transaction in any taxable year that proportion of the installment payments actually received in that year which the gross profit (as described in paragraph (b) of § 1.453–1) realized or to be realized when the property is paid for bears to the total contract price. In any case, the sale of each lot or parcel of a subdivided tract must be treated as a separate transaction and gain or loss computed accordingly. (See paragraph (a) of § 1.61–6.)

(b) *Defaults and repossessions.* If the purchaser of real property on the installment plan defaults in any of his payments, and the vendor returning income on the installment method reacquires the property sold, whether title thereto had been retained by the vendor or transferred to the purchaser, gain or loss for the year in which the reacquisition occurs is to be computed upon any installment obligations of the purchaser which are satisfied or discharged upon the reacquisition or are applied by the vendor to the purchase or bid price of the property. Such gain or loss is to be measured by the difference between the fair market value at the date of reacquisition of the property reacquired (including the fair market value of any fixed improvements placed on the property by the purchaser) and the basis in the hands of the vendor of the obligations of the purchaser which are so satisfied, discharged, or applied, with proper adjustment for any other amounts realized or costs incurred in connection with the reacquisition. The basis in the hands of the vendor of the obligations of the purchaser satisfied, discharged, or applied upon the reacquisition of the property will be the excess of the face value of such obligations over an amount equal to the income which would be returnable were the obligations paid in full. For definition of the basis of an installment obligation, see section 453 (d) (2) and paragraph (b) (2) of § 1.453–9. No deduction for a bad debt shall in any case be taken on account of any portion of the obligations of the purchaser which are treated by the vendor as not having been satisfied, discharged, or applied upon the reacquisition of the property, unless it is clearly shown that after the property was reacquired the purchaser remained liable for such portion; and in no event shall the amount of the deduction exceed the basis in the hands of the vendor of the portion of the obligations with respect to which the purchaser remained liable after the reacquisition. (See section 166 and the regulations thereunder.) If the property reacquired is bid in by the vendor at a foreclosure sale, the fair market value of the property shall be presumed to be the purchase or bid price thereof in the absence of clear and convincing proof to the contrary. If the property reacquired is subsequently sold, the basis for determining gain or loss is the fair market value of the property at the date of reacquisition (including the fair market value of any fixed improvements placed on the property by the purchaser).

§ 1.453–6 *Deferred-payment sale of real property not on installment method*—(a) *Value of obligations.* (1) In transactions included in paragraph (b) (2) of § 1.453–4, that is, sales of real property involving deferred payments in which the payments received during the year of sale exceed 30 percent of the selling price, the obligations of the purchaser received by the vendor are to be considered as an amount realized to the extent of their fair market value in ascertaining the profit or loss from the transaction. Such obligations, however, are not considered in determining whether the payments during the year of sale exceed 30 percent of the selling price.

(2) If the obligations received by the vendor have no fair market value, the payments in cash or other property having a fair market value shall be applied against and reduce the basis of the property sold and, if in excess of such basis, shall be taxable to the extent of the excess. Gain or loss is realized when the obligations are disposed of or satisfied, the amount thereof being the difference between the reduced basis as provided in the preceding sentence and the amount realized therefor. Only in rare and extraordinary cases does property have no fair market value.

(b) *Title retained by vendor.* (1) If the vendor in sales referred to in paragraph (a) of this section has retained title to the property and the purchaser defaults in any of his payments, and the vendor repossesses the property, the difference between (i) the entire amount of the payments actually received on the contract and retained by the vendor plus the fair market value at the time of repossession of fixed improvements placed on the property by the purchaser and (ii) the sum of the profits previously returned as income in connection therewith and an amount representing what would have been a proper adjustment for exhaustion, wear and tear, obsolescence, amortization, and depletion of the property during the period the property was in the hands of the purchaser had the sale not been made, will constitute gain or loss, as the case may be, to the vendor for the year in which the property is repossessed.

(2) The basis of the property described in subparagraph (1) of this paragraph in the hands of the vendor will be the original basis at the time of the sale plus the fair market value at the time of repossession of fixed improvements placed on the property by the purchaser, except as provided in subparagraph (3) of this paragraph.

(3) With respect to repossessions occurring after the date of publication in the FEDERAL REGISTER of final regulations under section 453, the basis of property determined in accordance with subparagraph (2) of this paragraph shall be reduced by what would have been a proper adjustment for exhaustion, wear and tear, obsolescence, amortization, and depletion of the property during the period the property was in the hands of the purchaser had the sale not been made.

(c) *Title transferred to purchaser.* If the vendor in sales described in paragraph (a) of this section has previously transferred title to the purchaser, and the purchaser defaults in any of his payments, and the vendor accepts a voluntary reconveyance of the property, in partial or full satisfaction of the unpaid portion of the purchase price, the receipt of the property so reacquired, to the extent of its fair market value at that time, including the fair market value of fixed improvements placed on the property by the purchaser, shall be considered as the receipt of payment on the obligations satisfied. If the fair market value of the property is greater than the basis of the obligations of the purchaser so satisfied (generally, such basis being the fair market value of such obligations previously recognized in computing income), the excess constitutes ordinary income. If the value of such property is less than the basis of such obligations, the difference may be deducted as a bad debt if uncollectible, except that if the obligations satisfied are securities (as defined in section 165 (g) (2) (C)), any gain or loss resulting from the transaction is a capital gain or loss subject to the provisions of sections 1201 through 1241. If the property reacquired is subsequently sold, the basis for determining gain or loss is the fair market value of the property at the date of reacquisition including the fair market value of the fixed improvements placed on the property by the purchaser. See section 166 and the regulations thereunder with respect to property reacquired in a foreclosure proceeding.

§ 1.453–7 *Change from accrual to installment method by dealers*—(a) *In general.* A taxpayer who is a dealer in personal property and who is entitled to the benefits of section 453 (a) may elect to report his taxable income on the installment method of accounting without securing consent of the Commissioner. In the event a dealer elects to change from an accrual method of accounting to the installment method, any installment payments actually received in the year of change or in subsequent taxable years on account of sales or other dispositions of property made in any taxable year before the year of change shall not be excluded from taxable income. This means that profits attributable to installment sales even though included in taxable income in their entirety in a year of sale before the year in which the change to the installment method is made are also includible in taxable income as payments are received in the year of change and in subsequent taxable years. But the tax imposed for the year of change or any subsequent taxable years (such years being referred to as "adjustment years") beginning after December 31, 1953, shall be reduced by an adjustment proportionate to the tax attributable to the gross profit which is, by reason of the change to the installment method, included in gross income a second time, determined by the method of computation described in section 453 (c) and paragraph (b) of this section.

(b) *Adjustment to tax.* (1) The adjustment to tax under section 453 (c) (2) is determined as follows:

(i) Determine separately the portion of the tax for each taxable year before the year of change which is attributable to the gross profit from installment sales which was included in gross income in that year and which is also includible in gross income for any adjustment year;

(ii) Determine separately the portion of the tax for each adjustment year which is attributable to the gross profit described in subdivision (i) of this subparagraph;

(iii) Select for each adjustment year the lesser of the amounts determined under subdivisions (i) and (ii) of this subparagraph;

(iv) The tax imposed in any adjustment year shall be reduced by the amount as determined in subdivision (iii) of this subparagraph or the sum of all such amounts if more than one prior taxable year is involved;

(v) The portion of the tax for any taxable year attributable to the gross profit described in subdivision (i) of this subparagraph shall be that proportion of the tax determined for such year without regard to the adjustments under this paragraph, which the gross profit included in gross income in the prior year and includible in gross income for the adjustment year bears to the gross income of that year.

(2) The tax determined in any of the steps provided in subparagraph (1) of this paragraph shall be the tax imposed by chapter 1, subtitle A of the Internal Revenue Code of 1954; or chapter 1, not including subchapter D, relating to excess profits tax, nor subchapter E, relating to tax on self-employment income, of the Internal Revenue Code of 1939.

(3) The computation of the adjustment provided in section 453 (c) (2) may be illustrated by the following example:

ADJUSTMENTS IN TAX ON CHANGE TO INSTALLMENT METHOD

	Taxable years (prior to change)		Adjustment years (after change)	
	Year 1	Year 2	Year 3	Year 4
Gross profit from installment sales (receivable in periodic payments over 5 years)	$100,000		$20,000 (1) 10,000 (2) 80,000 (3)	$12,000 (4) 8,000 (5) 40,000 (6) 90,000 (7)
Other income	80,000	200,000	90,000	90,000
Gross income	180,000	250,000	200,000	280,000
Deductions	60,000	50,000	50,000	60,000
Taxable income	120,000	200,000	150,000	220,000
Tax rate assumed (percent)	30	50	40	40
Tax would be	$36,000	$100,000	$60,000	$72,000

	COMPUTATION OF ADJUSTMENT IN YEAR 3	Lesser tax portion
	Year 1 items	
In year 3 (portion of tax)	20,000/200,000×60,000=$6,000	
In year 1 (portion of tax)	20,000/180,000×36,000=$4,000	$4,000
	Year 2 items	
In year 3 (portion of tax)	10,000/200,000×60,000=$3,000	
In year 2	10,000/250,000×100,000=$4,000	3,000
Adjustment to tax of year 3		7,000

See footnotes at end of table.

ADJUSTMENTS IN TAX ON CHANGE TO INSTALLMENT METHOD—Continued

		Lesser tax portion
	COMPUTATION OF ADJUSTMENT IN YEAR 4	
	Year 1 items	
In year 4 (portion of tax)	12,000/240,000×72,000=$3,600	
In year 1 (portion of tax)	12,000/180,000×36,000=$2,400	$2,400
	Year 2 items	
In year 4 (portion of tax)	8,000/240,000×72,000=$2,400	2,400
In year 2 (portion of tax)	8,000/250,000×100,000=$3,200	
Adjustment to tax of year 4		4,800

(1) and (4) from year 1 sales.
(2) and (5) from year 2 sales.
(3) and (6) from year 3 sales.
(7) from year 4 sales.

(c) *Special rules for partnerships.* In the case of a change from an accrual method of accounting to the installment method of accounting by a partnership which is a dealer in personal property, payments attributable to installment sales under such accrual method shall be included in the gross income of the partnership in their entirety as payments are received in the year of change and in subsequent taxable years, even though included in gross income of the partnership for a year before the year in which the change to the installment method is made. Each partner's distributive share of the profits attributable to installment sales included in partnership taxable income for the year of sale and for each "adjustment year" shall be taken into account separately in accordance with section 702 (a) (8) and § 1.702–1 (a) (8). The income tax of each partner for adjustment years shall be computed with the adjustment provided by section 453 (c) (2) for amounts previously taxed. However, it is not necessary for a partner to have been a member of the partnership for the year of sale and each subsequent taxable year, including adjustment years, in order to apply the adjustment to tax provided by section 453 (c) (2).

§ 1.453–8 *Requirements for adoption of or change to installment method*—(a) *Dealers in personal property*—(1) *Adoption of installment method.* A taxpayer who adopts the installment method of accounting in the first taxable year in which he makes installment sales must indicate in his income tax return for that taxable year that the installment method of accounting is being adopted.

(2) *Change to installment method.* A taxpayer who changes to the installment method in accordance with § 1.453–7 shall attach a statement to his income tax return for the taxable year with respect to which the change is made. This statement must show—

(i) The method of accounting used in computing taxable income before the change;

(ii) The span of taxable years over which it will be necessary to compute adjustments; and

(iii) A schedule similar to the schedule shown in the example in paragraph (b) (3) of § 1.453–7, showing the computation of the required adjustments under section 453 (c) (2).

Similar statements must be attached to and filed with income tax returns for subsequent taxable years in which adjustments are required because of the inclusion of installment payments in gross income a second time.

(b) *Sales of real property and casual sales of personal property.* (1) A taxpayer who sells or otherwise disposes of real property, or who makes a casual sale or other casual disposition of personal property, and who elects to report the income therefrom on the installment method must set forth in his income tax return (or in a statement attached thereto) for the year of the sale or other disposition the computation of the gross profit on the sale or other disposition under the installment method. In any taxable year in which the taxpayer receives payments attributable to such sale or other disposition, he must also show in his income tax return the computation of the amount of income which is being reported in that year on such sale or other disposition.

(2) The information required by subparagraph (1) of this paragraph must be submitted for each separate sale or other disposition but, in the case of multiple sales or other dispositions, separate computations may be shown in a single statement.

(c) *Installment method and other accounting methods.* Notwithstanding the fact that a dealer in personal property may change to the installment method of accounting without permission, a dealer may not change from the installment method of accounting for sales on the installment plan to an accrual method of accounting or to any other method of accounting without the permission of the Commissioner.

§ 1.453–9 *Gain or loss on disposition of installment obligations*—(a) *In general.* Subject to the exceptions contained in section 453 (d) (4) and paragraph (c) of this section, the entire amount of gain or loss resulting from any disposition or satisfaction of installment obligations, computed in accordance with section 453 (d), is recognized in the taxable year of such disposition or satisfaction and shall be considered as resulting from the sale or exchange of the property in respect of which the installment obligation was received by the taxpayer.

(b) *Computation of gain or loss.* (1) The amount of gain or loss resulting under paragraph (a) of this section is the difference between the basis of the obligation and (i) the amount realized, in the case of satisfaction at other than face value or in the case of a sale or exchange, or (ii) the fair market value of the obligation at the time of disposition, if such disposition is other than by sale or exchange.

(2) The basis of an installment obligation shall be the excess of the face value of the obligation over an amount equal to the income which would be returnable were the obligation satisfied in full.

(3) The application of subparagraph (1) and (2) of this paragraph may be illustrated by the following examples:

Example (1). In 1960 the M Corporation sold a piece of unimproved real estate to B for $20,000. The company acquired the property in 1948 at a cost of $10,000. During 1960 the company received $5,000 cash and vendee's notes for the remainder of the selling price, or $15,000, payable in subsequent years. In 1962, before the vendee made any further payments, the company sold the notes for $13,000 in cash. The corporation makes its returns on the calendar year basis. The income to be reported for 1962 is $5,500, computed as follows:

Proceeds of sale of notes		$13,000
Selling price of property	$20,000	
Cost of property	10,000	
Total profit	10,000	
Total contract price	20,000	
Percent of profit, or proportion of each payment returnable as income, $10,000 divided by $20,000, 50 percent.		
Face value of notes	15,000	
Amount of income returnable were the notes satisfied in full, 50 percent of $15,000	7,500	
Basis of obligation—excess of face value of notes over amount of income returnable were the notes satisfied in full		7,500
Taxable income to be reported for 1962		5,500

Example (2). Suppose in example (1) the M Corporation, instead of selling the notes, distributed them in 1962 to its shareholders as a dividend, and at the time of such distribution, the fair market value of the notes was $14,000. The income to be reported for 1962 is $6,500, computed as follows:

Fair market value of notes		$14,000
Basis of obligation—excess of face value of notes over amount of income returnable were the notes satisfied in full (computed as in example (1))		7,500
Taxable income to be reported for 1962		6,500

(c) *Disposition from which no gain or loss is recognized.* (1) Under section 453 (d) (4), no gain or loss shall be recognized to a distributing corporation with respect to the distribution of installment obligations in certain corporate liquidations, under the following conditions:

(i) If the distribution is made, pursuant to a plan for the complete liquidation of a subsidiary meeting the requirements of section 332, to a corporation in the hands of which no gain or loss is recognized with respect to such distribution, or

(ii) If the distribution is made, pursuant to a plan for the complete liquidation of a corporation which meets the requirements of section 337, under conditions whereby no gain or loss would have been recognized to the corporation had such installment obligations been sold or exchanged on the day of distribution.

(2) Where the Internal Revenue Code provides for exceptions to the recognition of gain or loss in the case of certain dispositions, no gain or loss shall result under section 453 (d) in the case of a disposition of an installment obligation. Such exceptions include: Certain transfers to corporations under sections 351 and 361; contributions of property to a partnership by a partner under section 721; and distributions by a partnership to a partner under section 731 (except as provided by section 736 and section 751).

(3) Any amount received by a person in payment or settlement of an installment obligation acquired in a transaction described in subparagraphs (1) or (2) of this paragraph (other than an amount received by a stockholder with respect to an installment obligation distributed to him pursuant to section 337) shall be considered to have the character it would have had in the hands of the person from whom such installment obligation was acquired.

(d) *Carryover of installment method.* For the treatment of income derived from installment obligations received in transactions to which section 381 (a) is applicable, see section 381 (c) (8) and the regulations thereunder.

(e) *Installment obligations transmitted at death.* Where installment obligations are transmitted at death, see section 691 (a) (4) and the regulations thereunder for the treatment of amounts considered income in respect of a decedent.

(f) *Losses.* See sections 1201–1241, as to the limitation on capital losses sustained by corporations and the limitation as to both capital gains and capital losses of individuals.

§ 1.453–10 *Effective date.* (a) Except as provided in this section, the provisions of section 453 and §§ 1.453–1 through 1.453–7, and § 1.453–9 shall apply to any taxable year beginning after December 31, 1953, and ending after August 16, 1954.

(b) The provisions of § 1.453–8 shall apply to taxable years ending more than 90 days after the publication of final regulations under section 453 in the FEDERAL REGISTER.

(c) Under the provisions of sections 453 (b) and 7851 (a) (1) (C), section 453 (b) (1) and the regulations with respect thereto shall also apply—

(1) To a sale or other disposition during a taxable year beginning before January 1, 1954, only if the income was returnable (by reason of section 44 (b) of the Internal Revenue Code of 1939) on the basis and in the manner prescribed in section 44 (a) of such code.

(2) To a sale or other disposition during a taxable year beginning after December 31, 1953, and ending before August 17, 1954, though such taxable year is subject to the provisions of the Internal Revenue Code of 1939.

(d) Under the provisions of sections 453 (c) (1) (B) and 7851 (a) (1) (C), section 453 (c) and the regulations with respect thereto shall also apply to taxable years beginning after December 31, 1953, and ending before August 17, 1954, though such taxable years are subject to the provisions of the Internal Revenue Code of 1939.

(e) The provisions of § 1.453–6 (b) (3) shall apply to repossessions occurring after the date of publication in the FEDERAL REGISTER of regulations under section 453.

[F. R. Doc. 58–7614; Filed, Sept. 17, 1958; 8:52 a. m.]

Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

[T. D. 631]

PART 170—MISCELLANEOUS REGULATIONS RELATING TO LIQUOR

LOSSES OF ALCOHOLIC LIQUORS CAUSED BY DISASTER

The purpose of this Treasury decision is to provide regulations implementing sections 208 and 210 (a) (3) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress).

PARAGRAPH 1. Section 208 of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress) reads as follows:

SEC. 208. *Losses of alcoholic liquors caused by disaster*—(a) *Authorization.* Where the President has determined under the Act of September 30, 1950 (42 U. S. C., sec. 1855), that a "major disaster" defined in such Act has occurred in any part of the United States, the Secretary of the Treasury or his delegate shall pay (without interest) to the person specified in subsection (b) an amount equal to the amount of the internal revenue taxes paid or determined and customs duties paid on distilled spirits, wines, rectified products, and beer previously withdrawn, which were lost, rendered unmarketable, or condemned by a duly authorized official by reason of such disaster occurring in such part of the United States after December 31, 1954, and not later than the date of enactment of this Act, if such spirits, wines, rectified products, or beer were at the time of such disaster in the possession of—

(1) The person paying such tax, or such tax and duty, or obligated to pay a determined tax, on such spirts, wines, rectified products, or beer,

(2) A bottler of distilled spirits, wines or rectified products, or a rectifier, or

(3) A wholesale or retail dealer in distilled spirits, wines, or beer,

all referred to in this section as the possessor or possessors.

(b) *To whom made.* Any payment authorized by this section may be made—

(1) To the possessor, or

(2) To any distiller, winemaker, brewer, rectifier, importer, wholesale liquor dealer, or wholesale beer dealer who replaced (or to any distiller, winemaker, brewer, rectifier, importer, or wholesale dealer who has given credit or made replacement to a wholesale dealer who replaced) for the possessor the full equivalent of distilled spirits, wines, rectified products, or beer so lost or rendered unmarketable or condemned, without compensation, remuneration, or credit of any kind in respect of the tax, or tax and duty, on such spirits, wines, rectified products, or beer.

(c) *Claims.* No claim shall be allowed under this section unless—

(1) Filed within 6 months after the date of enactment of this act, and

(2) The claimant furnishes proof to the satisfaction of the Secretary of the Treasury or his delegate that—

(A) Neither the claimant nor any possessor was indemnified by any valid claim of insurance or otherwise in respect of the tax or tax and duty on the distilled spirits, wines, rectified products, or beer covered by the claim, and

(B) The claimant is entitled to payment under this section.

Claims under this section shall be filed under such regulations as the Secretary of the Treasury or his delegate shall prescribe.

(d) *Destruction of distilled spirits, wines, rectified products, or beer.* When the Secretary of the Treasury or his delegate has made payment under this section in respect of the tax, or tax and duty, on the distilled spirits, wines, rectified products, or beer condemned by a duly authorized official or rendered unmarketable, such distilled spirits, wines, rectified products, or beer shall be destroyed under such supervision as the Secretary of the Treasury or his delegate may prescribe, unless such distilled spirits, wines, rectified products, or beer were previously destroyed under supervision satisfactory to the Secretary of the Treasury or his delegate.

(e) *Products of Puerto Rico.* The provisions of this section shall not be applicable in respect of distilled spirits, wines, rectified products, and beer of Puerto Rican manufacture brought into the United States and so lost or rendered unmarketable or condemned.

(f) *Other laws applicable.* All provisions of law, including penalties, applicable in respect of internal revenue taxes on distilled spirits, wines, rectified products, and beer shall, insofar as applicable and not inconsistent with this section, be applied in respect of the payments provided for in this section to the same extent as if such payments constituted refunds of such taxes.

Pursuant to the above provisions of law, the following new subpart, Subpart F, is added to Part 170:

SUBPART F—LOSSES OF ALCOHOLIC LIQUORS CAUSED BY A DISASTER OCCURRING AFTER DECEMBER 31, 1954, AND BEFORE THE DAY FOLLOWING THE DATE OF ENACTMENT OF THE EXCISE TAX TECHNICAL CHANGES ACT OF 1958

Sec.
170.101 Scope of subpart.

DEFINITIONS

170.102 Meaning of terms.

PAYMENTS

170.103 Circumstances under which payment may be made.
170.104 Persons to whom payment may be made.

CLAIMS PROCEDURE

170.105 Execution and filing of claims.
170.106 Return of claim for completion.
170.107 Separation of imported, domestic, and Puerto Rican liquors; separate claims for taxes and duties.
170.108 Claimant to furnish satisfactory proof.
170.109 Supporting evidence.
170.110 Supporting statement.
170.111 Replacement or credit.
170.112 Action by assistant regional commissioner.

DESTRUCTION OF LIQUORS

170.113 Supervision.

PENALTIES

Sec.
170.114 Penalties.

AUTHORITY: §§ 170.101 to 170.114 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805. Interpret or apply sec. 208, Pub. Law 85–859.

§ 170.101 *Scope of subpart.* This subpart prescribes the requirements necessary to implement section 208 of the act, concerning payments which may be made by the United States in respect to the internal revenue taxes, paid or determined and customs duties paid on distilled spirits, wines, rectified products, and beer previously withdrawn, which were lost, rendered unmarketable, or condemned by a duly authorized official by reason of a disaster occurring in the United States after December 31, 1954, and not later than the date of enactment of the act. The provisions of this subpart shall not be applicable in respect of distilled spirits, wines, rectified products, and beer of Puerto Rican manufacture brought into the United States.

DEFINITIONS

§ 170.102 *Meaning of terms.* When used in this subpart, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine as well. The terms "includes" and "including" do not exclude things not enumerated which are in the same general class.

Act. The Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress).

Alcoholic liquors, or "liquors". Distilled spirits, wines, rectified products, and beer lost, rendered unmarketable, or condemned, as provided in this subpart.

Assistant regional commissioner. An assistant regional commissioner (alcohol and tobacco tax) who is responsible to, and functions under the direction and supervision of, a regional commissioner of internal revenue.

Beer. Beer, ale, porter, stout, and other similar fermented beverages (including saké or other similar products) of any name or description containing one-half of 1 percent or more of alcohol by volume on which the internal revenue tax has been paid or determined, and, if imported, on which duties have been paid at the rate applicable thereto.

Claimant. The person to whom payment may be made as provided in § 170.104.

Commissioner. The Commissioner of Internal Revenue.

Commissioner of Customs. The Commissioner of Customs, Bureau of Customs, Treasury Department, Washington, D. C.

Disaster. A flood, fire, hurricane, earthquake, storm, or other catastrophe which has occurred in any part of the United States, after December 31, 1954, and not later than the date of enactment of the act, and which the President of the United States has determined, under the Act of September 30, 1950 (64 Stat. 1109; 42 U. S. C. 1855), was a "major disaster" as defined in such act.

Distilled spirits, or spirits. Ethyl alcohol and other distillates, such as whisky, brandy, rum, gin, and vodka, on which the internal revenue tax has been paid or determined and, if imported, on which duties have been paid at the rate applicable thereto.

Duly authorized official. Any Federal, State, or local government official in whom has been vested authority to condemn liquors made the subject of a claim under this subpart.

Duty or duties. Any duty or duties paid under the customs laws of the United States.

Full equivalent. A quantity of distilled spirits or of rectified products, in tax gallons; a quantity of wine, in wine gallons; or a quantity of beer, in barrels of 31 gallons, equal to the quantity lost, rendered unmarketable, or condemned.

Person paying tax or tax and duty. The person, such as a distiller, rectifier, winemaker, brewer, or importer who originally paid the internal revenue tax on the liquors or the person who paid such tax and customs duties on imported liquors.

Possessor. The person, bottler, or dealer in whose possession liquors subject to claim were held at the time of a disaster.

Rectified products. Liquors manufactured by rectifying, purifying, refining, mixing, or blending distilled spirits or wines and on which tax has been paid or determined, and, if imported, on which duty has been paid.

Tax. With respect to: (a) Unrectified distilled spirits, the internal revenue distilled spirits tax paid or determined thereon; (b) wines, the internal revenue wine tax paid or determined thereon; (c) rectified products, the distilled spirits tax, the rectification tax (if any), the cordial tax (if any), and the wine tax (if any), paid or determined thereon, and (d) beer, the internal revenue beer tax paid or determined thereon.

United States. When used in a geographical sense includes only the States, the Territories of Alaska and Hawaii, and the District of Columbia.

Wines. All still wines, effervescent wines, and flavored wines, on which internal revenue wine tax has been paid or determined, and, if imported, on which duty has been paid.

PAYMENTS

§ 170.103 *Circumstances under which payment may be made.* Assistant regional commissioners shall allow payment (without interest) of an amount equal to the amount of tax paid or determined, and the Commissioner of Customs shall allow payment (without interest) of an amount equal to the amount of customs duties paid, on distilled spirits, wines, rectified products, and beer previously withdrawn, which are lost, rendered unmarketable, or condemned by a duly authorized official by reason of a disaster occurring in the United States after December 31, 1954, and not later than the date of enactment of the act. Such payments may be made only if, at the time of such disaster, such liquors were in the possession of (a) the person paying such tax, or such tax and duty, or obligated to pay a determined tax on such alcoholic liquors, (b) a bottler of such liquors, or (c) a wholesale or retail dealer in such liquors.

§ 170.104 *Persons to whom payment may be made.* Claims may be filed by and payment made to any of the possessors referred to in § 170.103. Claims may also be filed by and payment made to any distiller, winemaker, brewer, rectifier, importer, wholesale liquor dealer, or wholesale beer dealer who replaced (or to any distiller, winemaker, brewer, rectifier, importer, or wholesale dealer who has given credit or made replacement to a wholesale dealer who replaced) for the possessor the full equivalent of the liquors so lost, rendered unmarketable, or condemned, without compensation, remuneration, or credit of any kind in respect of the tax, or tax and duty, on such liquors.

CLAIMS PROCEDURE

§ 170.105 *Execution and filing of claims.* Claims shall be executed on Form 843 (Internal Revenue) in accordance with such instructions thereon as are applicable, and must be filed with the assistant regional commissioner of the internal revenue region in which the liquors were lost, rendered unmarketable, or condemned, within 6 months after the date of enactment of the act. In any instance where the liquors were replaced or where credit therefor was given, the person replacing or giving credit therefor and the recipient thereof shall join in the claim. Any claim under this subpart filed after the specified 6-month period will be rejected in full.

§ 170.106 *Return of claim for completion.* The regulations in this subpart contemplate that claims will be filed (a) where the possessor has received the full equivalent of the liquors before the filing of the claim, and (b) where the completion of the claim is to await determination as provided in § 170.111, of the quantity of liquors lost, rendered unmarketable, or condemned, and the quantity which may be replaced or for which credit may be given. In the event of paragraph (b) of this section, the claim will be returned to the claimant, on completion of such determination, for insertion of the necessary data.

§ 170.107 *Separation of imported and domestic liquors: separate claims for taxes and duties.* If a claim involves taxes on domestic liquors and imported liquors, the quantities of each must be shown separately in the claim. A separate claim must be filed in respect of customs duties.

§ 170.108 *Claimant to furnish satisfactory proof.* The claimant shall furnish proof to the satisfaction of the assistant regional commissioner regarding the following:

(a) That the tax or tax and duty on the liquors has been paid (or determined in the case of a person obligated to pay a determined tax);

(b) That such liquors were lost, rendered unmarketable, or condemned by a duly authorized official, by reason of damage sustained as the result of a disaster;

(c) The type and date of occurrence of the disaster and the location of the liquors at that time;

(d) That neither the claimant nor the possessor was indemnified by any valid claim of insurance or otherwise in respect of the tax or tax and duty on the liquors covered by the claim; and

(e) That the claimant is entitled to payment under this subpart.

§ 170.109 *Supporting evidence.* The claimant shall support his claim with any evidence (such as inventories, statements, invoices, bills, records, stamps, labels, and formulas) that he is able to submit, relating to the liquors on hand at the time of the disaster and averred to have been lost, rendered unmarketable, or condemned as a result thereof.

§ 170.110 *Supporting statement.* In an instance of replacement of liquors for a possessor, or of credit or replacement of liquors to a wholesale dealer who replaced liquors for a possessor, the claimant shall attest in his claim that he, as a distiller, winemaker, brewer, rectifier, importer, or dealer, as the case may be, replaced for the possessor, either directly or indirectly, the full equivalent of the liquors which were lost, rendered unmarketable, or condemned, as a result of a disaster, without compensation, remuneration, or credit of any kind in respect of the tax, or tax and duty, on such liquors.

§ 170.111 *Replacement or credit.* The replacement of liquors for a possessor, either direct or by the giving of credit or the making of replacement to a wholesale dealer who is to replace, and the completion of the claim by the claimant, may be delayed until a determination has been made by the assistant regional commissioner as to the quantities of liquors lost, rendered unmarketable, or condemned, as provided in § 170.112. The findings of the assistant regional commissioner in this respect may be made available to the persons involved in the transaction. The claim shall be fully completed with respect to evidence of the various aspects of the replacement before being further processed by the assistant regional commissioner as provided in § 170.112. Nothing in this section is to be construed as extending the 6-month period provided in § 170.105 for the filing of claims.

§ 170.112 *Action by assistant regional commissioner.* The assistant regional commissioner will date stamp and examine each claim filed under this subpart and will determine the validity of the claim in respect of the quantities of liquors covered thereby, and of any replacement claimed. The claim will then be processed by him in accordance with existing procedures. Claims involving customs duties will be forwarded to the Commissioner of Customs with a summary statement by the assistant regional commissioner concerning his findings.

DESTRUCTION OF LIQUORS

§ 170.113 *Supervision.* When allowance has been made under this subpart in respect of the tax, or tax and duty, on liquors condemned by a duly authorized official or rendered unmarketable, such liquors shall be destroyed by suitable means under the supervision of an internal revenue officer who will be assigned for that purpose by the assistant regional commissioner, unless such liquors were previously destroyed under supervision satisfactory to the assistant regional commissioner. The Commissioner of Customs will notify the assistant regional commissioner as to allowance under this subpart of claims for duty in respect of unmarketable or condemned liquors.

PENALTIES

§ 170.114 *Penalties.* Penalties are provided in sections 7206 and 7207 of the Internal Revenue Code for execution under the penalties of perjury of any false or fraudulent statement in support of any claim and for the filing of any false or fraudulent document under this subpart. All provisions of law, including penalties, applicable in respect of internal revenue taxes on distilled spirits, wines, rectified products, and beer, shall, insofar as applicable and not inconsistent with this subpart, be applied in respect of the payments provided for in this subpart to the same extent as if such payments constituted refunds of such taxes.

PAR. 2. Section 210 (a) (3) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress), reads as follows:

SEC. 210 (a) (3). *Losses caused by disaster.* Provisions having the effect of section 5064 of the Internal Revenue Code of 1954 (as such section is included in chapter 51 of such Code as amended by section 201 of this Act) shall be deemed to be included in the Internal Revenue Code of 1954, effective on the day following the date of the enactment of this Act, and shall apply with respect to disasters occurring after such date of enactment, and not later than June 30, 1959.

Section 5064 of the Internal Revenue Code of 1954 (as such section is included in chapter 51 of such Code as amended by section 201 of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress)), reads as follows:

SEC. 5064. *Losses caused by disaster*—(a) *Authorization.* Where the President has determined under the Act of September 30, 1950 (42 U. S. C., sec. 1855), that a "major disaster" as defined in such Act has occurred in any part of the United States, the Secretary or his delegate shall pay (without interest) an amount equal to the amount of the internal revenue taxes paid or determined and customs duties paid on distilled spirits, wines, rectified products, and beer previously withdrawn, which were lost, rendered unmarketable, or condemned by a duly authorized official by reason of such disaster occurring in such part of the United States after June 30, 1959, if such distilled spirits, wines, rectified products, or beer were held and intended for sale at the time of such disaster. The payments authorized by this section shall be made to the person holding such distilled spirits, wines, rectified products, or beer for sale at the time of such disaster.

(b) *Claims.* No claim shall be allowed under this section unless—

(1) Filed within 6 months after the date on which the President makes the determination that the disaster referred to in subsection (a) has occurred; and

(2) The claimant furnishes proof to the satisfaction of the Secretary or his delegate that—

(A) He was not indemnified by any valid claim of insurance or otherwise in respect of the tax, or tax and duty, on the distilled spirits, wines, rectified products, or beer covered by the claim; and

(B) He is entitled to payment under this section.

Claims under this section shall be filed under such regulations as the Secretary or his delegate shall prescribe.

(c) *Destruction of distilled spirits, wines, rectified products, or beer.* When the Secretary or his delegate has made payment under this section in respect of the tax, or tax and duty, on the distilled spirits, wines, rectified products, or beer condemned by a duly authorized official or rendered unmarketable, such distilled spirits, wines, rectified products, or beer shall be destroyed under such supervision as the Secretary or his delegate may prescribe, unless such distilled spirits, wines, rectified products, or beer were previously destroyed under supervision satisfactory to the Secretary or his delegate.

(d) *Products of Puerto Rico.* The provisions of this section shall not be applicable in respect of distilled spirits, wines, rectified products, and beer of Puerto Rican manufacture brought into the United States and so lost or rendered unmarketable or condemned.

(e) *Other laws applicable.* All provisions of law, including penalties, applicable in respect of internal revenue taxes on distilled spirits, wines, rectified products, and beer shall, insofar as applicable and not inconsistent with this section, be applied in respect of the payments provided for in this section to the same extent as if such payments constituted refunds of such taxes.

Pursuant to the above provisions of section 210(a) (3) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress), the following new subpart, Subpart G, is added to Part 170:

SUBPART G—LOSSES CAUSED BY DISASTER

Sec.
170.121 Scope of subpart.

DEFINITIONS

170.122 Meaning of terms.

PAYMENTS

170.123 Circumstances under which payment may be made.

CLAIMS PROCEDURE

170.124 Execution and filing of claim.
170.125 Separation of imported, domestic, and Virgin Island liquors; separate claims for taxes and duties.
170.126 Claimant to furnish proof.
170.127 Supporting evidence.
170.128 Action on claims.

DESTRUCTION OF LIQUORS

170.129 Supervision.

PENALTIES

170.130 Penalties.

AUTHORITY: §§ 170.121 to 170.130 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805. Interpret or apply sec. 210 (a) (3), Pub. Law 85–859.

§ 170.121 *Scope of subpart.* The regulations in this subpart prescribe the requirements necessary to implement section 210 (a) (3) of the act, concerning payments which may be made by the United States of amounts equal to the internal revenue taxes paid or determined and customs duties paid on distilled spirits, wines, rectified products, and beer previously withdrawn, which

were lost, rendered unmarketable, or condemned by a duly authorized official by reason of a "major disaster" occurring in the United States on and after the day following the date of enactment of the act, and not later than June 30, 1959. The provisions of this subpart shall not be applicable in respect of distilled spirits, wines, rectified products, and beer of Puerto Rican manufacture brought into the United States.

DEFINITIONS

§ 170.122 *Meaning of terms.* When used in this subpart, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural shall include the singular, and vice versa, and words importing the masculine shall include the feminine as well. The terms "includes" and "including" do not exclude things not enumerated which are in the same general class.

Act. The Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress).

Alcoholic liquors, or "liquors". Distilled spirits, wines, rectified products, and beer, lost, rendered unmarketable, or condemned, as provided in this subpart.

Assistant regional commissioner. An assistant regional commissioner (alcohol and tobacco tax) who is responsible to, and functions under the direction and supervision of, a regional commissioner of internal revenue.

Beer. Beer, ale, porter, stout, and other similar fermented beverages (including saké or other similar products) of any name or description containing one-half of 1 percent or more of alcohol by volume on which the internal revenue tax has been paid or determined, and, if imported, on which duties have been paid at the rate applicable thereto.

Claimant. The person who held the liquors for sale at the time of the disaster and who files claim under this subpart.

Commissioner. The Commissioner of Internal Revenue.

Commissioner of Customs. The Commissioner of Customs, Bureau of Customs, Treasury Department, Washington, D. C.

Disaster. A flood, fire, hurricane, earthquake, storm, or other catastrophe which has occurred in any part of the United States on and after the day following the date of enactment of the act, and not later than June 30, 1959, and which the President of the United States has determined, under the act of September 30, 1950 (64 Stat. 1109; 42 U. S. C. 1855), was a "major disaster" as defined in such act.

Distilled spirits, or spirits. Ethyl alcohol and other distillates, such as whisky, brandy, rum, gin, and vodka, on which the internal revenue tax has been paid or determined, and, if imported, on which duties have been paid at the rate applicable thereto.

Duly authorized official. Any Federal, State, or local government official in whom has been vested authority to condemn liquors made the subject of a claim under this subpart.

Duty or duties. Any duty or duties paid under the customs laws of the United States.

Rectified products. Liquors manufactured by rectifying, purifying, refining, mixing, or blending distilled spirits or wines and on which tax has been paid or determined, and, if imported, on which duty has been paid.

Tax. With respect to: (a) Unrectified distilled spirits, the internal revenue distilled spirits tax paid or determined thereon; (b) wines, the internal revenue wine tax paid or determined thereon; (c) rectified products, the internal revenue distilled spirits tax, the rectification tax (if any), the cordial tax (if any), and the wine tax (if any), paid or determined thereon; and (d) beer, the internal revenue beer tax paid or determined thereon.

United States. When used in a geographical sense includes only the States, the Territories of Alaska and Hawaii, and the District of Columbia.

Wines. All still wines, effervescent wines, and flavored wines, on which internal revenue wine tax has been paid or determined, and, if imported, on which duty has been paid.

PAYMENTS

§ 170.123 *Circumstances under which payment may be made.* Assistant regional commissioners shall allow payment (without interest) of an amount equal to the amount of tax paid or determined, and the Commissioner of Customs shall allow payment (without interest) of an amount equal to the amount of customs duty paid, on distilled spirits, wines, rectified products, and beer previously withdrawn, which are lost, rendered unmarketable, or condemned by a duly authorized official by reason of a disaster occurring in the United States on and after the day following the date of enactment of the act, and not later than June 30, 1959. Payments may be made only if, at the time of the disaster, such liquors were being held for sale by the claimant.

CLAIMS PROCEDURE

§ 170.124 *Execution and filing of claim.* Claims under this subpart shall be executed on Form 843 (Internal Revenue) in accordance with such instructions thereon as are applicable, and filed (original only) with the assistant regional commissioner of the internal revenue region in which the liquors were lost, rendered unmarketable, or condemned, within 6 months after the date on which the President makes the determination that the disaster has occurred. The claim shall state all the facts on which the claim is based, and shall set forth, in detail as to each class of liquor, the quantity (tax gallons, wine gallons, barrels, etc.), the kind of tax and rate or rates applicable to each item, and the amount claimed.

§ 170.125 *Separation of imported, domestic, and Virgin Island liquors; separate claims for taxes and duties.* If a claim involves taxes on domestic liquors, imported liquors, and/or liquors of Virgin Island manufacture, the quantities of each must be shown separately in the claim. A separate claim must be filed in respect of customs duties.

§ 170.126 *Claimant to furnish proof.* The claimant shall furnish proof to the satisfaction of the assistant regional commissioner regarding the following:

(a) That the tax on such liquors, or the tax and duty if imported, was fully paid, or the tax, if not paid, was fully determined;

(b) That such liquors were lost, rendered unmarketable, or condemned by a duly authorized official, by reason of damage sustained as a result of a disaster;

(c) The type and date of occurrence of the disaster and the location of the liquors at that time;

(d) That the claimant was not indemnified by a valid claim of insurance or otherwise in respect of the tax, or tax and duty, on the liquors covered by the claim; and

(e) That the claimant is entitled to payment under this subpart.

§ 170.127 *Supporting evidence.* The claimant shall support his claim with any evidence (such as inventories, statements, invoices, bills, records, labels, formulas, stamps) that he is able to submit, relating to the quantities and identities of liquors, on which duty has been paid or tax has been paid or determined, on hand at the time of the disaster and averred to have been lost, rendered unmarketable, or condemned as a result thereof.

§ 170.128 *Action on claims.* The assistant regional commissioner shall date stamp and examine each claim filed under this subpart and will determine the validity of the claim. The claim will then be processed by him in accordance with existing instructions. Claims and supporting data involving customs duties will be forwarded to the Commissioner of Customs with a summary statement by the assistant regional commissioner regarding his findings.

DESTRUCTION OF LIQUORS

§ 170.129 *Supervision.* When allowance has been made under this subpart in respect of the tax, or tax and duty, on liquors condemned by a duly authorized official or rendered unmarketable, such liquors shall be destroyed by suitable means under the supervision of an internal revenue officer assigned for that purpose by the assistant regional commissioner, unless such liquors were previously destroyed under supervision satisfactory to the assistant regional commissioner. The Commissioner of Customs will notify the assistant regional commissioner as to allowance under this subpart of claims for duty in respect of unmarketable or condemned liquors.

PENALTIES

§ 170.130 *Penalties.* Penalties are provided in sections 7206 and 7207 of the Internal Revenue Code for the execution under the penalties of perjury of any false or fraudulent statement in support of any claim and for the filing of any false or fraudulent document under this subpart. All provisions of law, including penalties, applicable in respect of internal revenue taxes on distilled spirits, wines, rectified products, and beer, shall, insofar as applicable and not inconsistent with this subpart, be applied in respect of the payments provided for in this subpart to the same extent as if such payments constituted refunds of such taxes.

Because the time limitation for filing claims under these regulations is limited, it is found that it is impracticable and contrary to the public interest to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003), or subject to the effective date limitation of section 4 (c) of such act. Accordingly, this Treasury decision shall be effective on the day following the date of enactment of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress).

[SEAL] LEO SPEER,
Acting Commissioner of Internal Revenue.

D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: September 12, 1958.

NELSON P. ROSE,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter A—Aid of Civil Authorities and Public Relations

PART 805—SAFEGUARDING MILITARY INFORMATION

MISCELLANEOUS AMENDMENTS

1. In Part 805, § 805.8 (a) is revised as follows:

§ 805.8 *Loss or other subjection to compromise*—(a) *Reporting.* If a person knows of the loss, unauthorized disclosure, or other possible subjection to compromise of classified information, he will report it without delay to his immediate superior or commander.

2. In Part 805, § 805.10 is deleted and the following substituted therefor:

§ 805.10 *Atomic energy restricted data*—(a) *Markings and notations required*—(1) *Material containing restricted data.* (i) In addition to other required classification markings and notations, all documents or other material containing restricted data and all inner covers in which restricted data is transmitted will be conspicuously marked at least once, with capital letters not less than one-quarter inch in height, as follows:

RESTRICTED DATA

ATOMIC ENERGY ACT 1954

(ii) When material is extracted from a document, or pages, sections, chapters, or other parts are so separated, each extract or part will be marked as prescribed in subdivision (i) of this subparagraph if it contains restricted data.

(b) *Dissemination*—(1) *Within Department of Defense and to contractors.* Restricted data may be disclosed only to Department of Defense personnel and to contractors of the Department of Defense and their employees who have been granted a personnel security clearance equivalent to the security classification of the information involved.

NOTE: Foreign nationals will not be permitted to have access to restricted data or classified former restricted data regardless of grade, position, employment, or nationality except for certain releases that are made in strict compliance with the Atomic Energy Act of 1954 after specific approval of the Chief of staff, USAF (Assistant Chief of Staff, Intelligence).

(2) *To other individuals.* Except as provided in subparagraph (1) of this paragraph, the disclosure or release of restricted data to any individual may be made only if the individual possesses a current Atomic Energy Commission clearance equivalent to the security classification of the information involved, and the dissemination has been approved according to § 805.11.

NOTE: Atomic Energy Commission "L" and "Q" clearances are equivalent to Department of Defense personnel security clearances for access to Confidential and Secret information respectively; a "Q" clearance with a notation showing specific Atomic Energy Commission authorization for access to Top Secret is the equivalent of a Department of Defense clearance for access to Top Secret.

(3) *Oral discussions.* When an individual discloses Restricted Data or classified former Restricted Data to other persons during discussions, he will inform them of the designation of such information.

3. Section 805.11 (f) is deleted and the following substituted therefor:

§ 805.11 *Disclosure of classified information outside the Department of Defense.* * * *

(f) *To other civilian activities.* Generally, all requests for classified information from persons or agencies outside the Department of Defense, and all proposals originating in the Air Force to release classified information to such persons or agencies will be forwarded for necessary action to the Chief of Staff, USAF.

(1) *Activities involving industrial mobilization.* Frequently the Air Force obtains information and records from civilian firms and industries regarding the mobilization of materiel and industrial organizations in case of war. If any civilian activity applies for such information or records, the application will be referred for necessary action to the Under Secretary of the Air Force. If any person is served with any process or subpoena, demanding him to produce such records, he will immediately report it to the United States Attorney for the district in which the subpoena is served; at the same time he will report it directly to the Under Secretary of the Air Force. Pending instructions from the Under Secretary of the Air Force, he will not furnish the requested information.

(2) *Litigation.* Requests or subpoenas for the appearance of witnesses before civil tribunals or for classified information or material to be used in connection with litigation will be processed in accordance with §§ 804.401 to 804.410.

(3) *Highly sensitive information.* Occasionally agencies or activities outside the Department of Defense may request highly sensitive defense information other than that being made available to them for their use in the usual conduct of Government business. No authority in the Air Force may approve such a request before referring it to the Chief of Staff, USAF, or the Secretary of the Air Force. Highly sensitive information within the meaning of this subparagraph is that which pertains to such things as: U. S. military capabilities, state of military preparedness, strategic and tactical plans, location of mobilization stocks of materiel, extremely critical munitions of war, and locations and vulnerability of target areas within the United States (especially such details as industrial complexes and communications system layouts).

(4) *Authority of chiefs of major staff offices, Headquarters USAF.* Within the limits of this section, chiefs of Headquarters USAF offices on the directorate and higher levels having primary interest in Confidential and Secret Air Force information may release it or approve its release to persons and agencies outside the Department of Defense. Also, each Deputy Chief of Staff, The Inspector General, the Assistant Chief of Staff for Guided Missiles, and the Assistant Chief of Staff, Installations, may release or approve the release of Top Secret Air Force information under the same conditions. In addition, so far as Air Force authority applies, the Director of Intelligence, Headquarters USAF, may release any classified intelligence information to agencies of the Executive branch of the Federal Government, contractors, or private individuals who participate legitimately in national intelligence activities.

(5) *Authority of commanders, major air commands.* Section 805.11 (d) and (e) authorize commanders of major air commands to release certain classified information to representatives of the General Accounting Office and to contractors and prospective contractors. Within the limits of this section, such commanders may also release or authorize the release of Confidential or Secret information to other persons or agencies outside the Department of Defense: *Provided,* That:

(i) The information originated in (and is of primary interest to) the major air command.

(ii) The release is necessary to accomplish the mission of the major air command.

(iii) The following categories and types of information are not released: war plans, proposed policies under consideration by the Air Force, intelligence, Atomic Energy Restricted Data, and cryptographic information.

(iv) Documents originated by higher authority are not released without approval of the higher authority.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 31]

COLUMBIA NATIONAL WILDLIFE REFUGE, WASHINGTON

HUNTING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add to Chapter I, Title 50, Code of Federal Regulations, a new subpart entitled Columbia National Wildlife Refuge, Washington, and §§ 31.55 and 31.56 as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of migratory waterfowl, coots, and deer on certain lands of the Columbia National Wildlife Refuge under certain limitations and subject to compliance with the laws and regulations of the State of Washington.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

LANSING A. PARKER,
Acting Director, Bureau of Sport Fisheries and Wildlife.

SEPTEMBER 12, 1958.

SUBPART—COLUMBIA NATIONAL WILDLIFE REFUGE, WASHINGTON

HUNTING

§ 31.55 *Hunting of migratory waterfowl and coots permitted.* Subject to compliance with the provisions of Parts 6, 18, and 21 of this chapter, the hunting of migratory waterfowl and coots is permitted on the hereinafter described lands of the Columbia National Wildlife Refuge, Washington, subject to the following conditions, restrictions, and requirements.

(a) *Hunting area.* The following described area is open to hunting:

T. 17 N., R. 28 E., Willamette Meridian,
Sec. 10, S½SW¼ and SE¼;
Sec. 11, S½;
Sec. 12, W½SW¼NW¼, SE¼SW¼NW¼, SW¼, S½NW¼SE¼, and SW¼SE¼;
Secs. 13, 14 and 15, all;
Sec. 22, NE¼, N½NW¼, and SE¼NW¼;
Sec. 23, N½;
Sec. 24, all;
Sec. 25, E½.
T. 17 N., R. 29 E.,
Sec. 18, lots 1-4, incl., SE¼SW¼, and NE¼SE¼, and S½SE¼;
Sec. 19, lots 1-4 incl., W½NE¼NE¼, NW¼NE¼, and E½W½;
Sec. 29, S½NW¼ and S½;
Sec. 30, lots 1 and 2, N½NE¼, SE¼NE¼, E½NW¼, and NW¼NE¼SW¼;
Sec. 32, all;
Sec. 33, NE¼NE¼, SE¼NW¼NE¼, NE¼SW¼NE¼, S½SW¼NE¼, SE¼NE¼, and SW¼NW¼;
Sec. 34, W½ and SW¼SW¼SE¼.

(b) *State laws.* Strict compliance with all applicable State laws and regulations is required.

(c) *Dogs.* Hunting dogs, not to exceed two per hunter, may be used for the purpose of retrieving dead or wounded birds, but such dogs shall not be permitted to run at large on the public shooting grounds or elsewhere on the refuge.

(d) *Boats.* Subject to the requirements of Part 6 of this chapter, the use of boats without motors is permitted for the purpose of hunting.

(e) *Blinds.* Temporary blinds for the purpose of hunting may be erected, but such blinds shall be considered public property and available for general use and must be removed from the public hunting area at the end of the hunting season. The digging of pits for use as hunting blinds or for any other purpose is prohibited.

(f) *Checking stations.* Hunters, upon entering or leaving the hunting area, shall report at such checking stations as may be established for the purpose of regulating the hunting.

§ 31.56 *Hunting of deer permitted.* Subject to compliance with the provisions of Parts 18 and 21 of this chapter, the hunting of deer is permitted during the period October 26 to November 30, 1958, inclusive, on all of the lands of the Columbia National Wildlife Refuge, subject to the following conditions, restrictions, and requirements:

(a) *State laws.* Strict compliance with all applicable State laws and regulations is required.

(b) *Dogs prohibited.* Dogs are not permitted on the Refuge for use in the hunting of deer.

(c) *State cooperation.* State cooperation may be enlisted in the regulation, management, and operation of the public hunting areas, and the State may promulgate such special regulations as may be necessary for these purposes. In the event such State regulations are issued, compliance therewith shall be a requisite to lawful entry for the purpose of hunting.

[50 CFR Part 31]

DEER FLAT NATIONAL WILDLIFE REFUGE, IDAHO

HUNTING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add § 31.101 to Subpart—Deer Flat National Wildlife Refuge, Idaho, Chapter I, Title 50, Code of Federal Regulations, as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of upland game birds on certain lands of the Deer Flat National Wildlife Refuge, Idaho, under certain limitations and subject to compliance with the laws and regulations of the State of Idaho.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

LANSING A. PARKER,
Acting Director, Bureau of Sport Fisheries and Wildlife.

SEPTEMBER 12, 1958.

§ 31.101 *Upland game bird hunting permitted.* Subject to the provisions of Parts 18 and 21 of this chapter and to the conditions and restrictions of §§ 31.94 to 31.100, inclusive, of this subpart, the hunting of resident upland game birds is permitted during the period October 25 to November 23, 1958, inclusive, on the lands of the Deer Flat National Wildlife Refuge, Idaho, described in § 31.94.

[F. R. Doc. 58-7586; Filed, Sept. 17, 1958; 8:45 a. m.]

[50 CFR Part 31]

WILLAPA NATIONAL WILDLIFE REFUGE, WASHINGTON

HUNTING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add § 31.362 to Subpart—Willapa National Wildlife Refuge, Washington, Chapter I, Title 50, Code of Federal Regulations, as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of deer, bear, bobcats, and raccoons during a part of the 1958 State season on certain lands of the Willapa National Wildlife Refuge, Washington, under certain limitations and subject to compliance with the laws and regulations of the State of Washington.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed amendment to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

LANSING A. PARKER,
Acting Director, Bureau of Sport Fisheries and Wildlife.

SEPTEMBER 12, 1958.

§ 31.362 *Bow and arrow hunting permitted.* Subject to the provisions of Parts 18 and 21 of this chapter, the hunting of deer, bear, bobcats, and raccoons solely by means of bow (except crossbow) and arrow is permitted from October 12 to November 5, 1958, inclusive, only on that portion of the Willapa National Wildlife Refuge, Washington, designated as Long Island, subject to the following conditions, restrictions, and requirements:

(a) *State laws.* Strict compliance with all applicable State laws and regulations is required.

(b) *Firearms prohibited.* The possession or use of firearms on the Refuge is prohibited.

(c) *Dogs prohibited.* Dogs are not permitted on the Refuge for the purpose of hunting.

(d) *Checking stations.* Hunters, upon entering or leaving the hunting area, shall report at such checking stations as may be established for the purpose of regulating the hunting.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 982, 986]

[Docket Nos. AO-238-A8, AO-296]

MILK IN CENTRAL WEST TEXAS AND RED RIVER VALLEY MARKETING AREAS

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Wichita Falls, Texas, on August 6-9, 1957, pursuant to notice thereof issued on July 10, 1957 (22 F. R. 5705), upon a proposed marketing agreement and order regulating the handling of milk in the Central West Texas and Red River Valley marketing areas.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Agricultural Marketing Service, on May 19, 1958 (23 F. R. 3530), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision, containing notice of opportunity to file written exceptions. On the basis of filed exceptions certain changes were made, particularly relating to the pooling provisions. In view of these changes, the Deputy Administrator, Agricultural Marketing Service, filed with the Hearing Clerk, United States Department of Agriculture, a revised recommended decision on August 12, 1958 (23 F. R. 6284). Further opportunity was provided for filing written exceptions thereto.

The material issues of record related to:

(1) Whether the handling of milk produced for sale in the Red River Valley marketing area is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce in milk and its products;

(2) Whether marketing conditions justify regulation of the handling of such milk and, if so, whether by the issuance of a separate order to regulate the handling of milk in the Red River Valley marketing area, or by the expansion of the Central West Texas marketing area to include portions of such area;

(3) If a separate order is issued, what its provisions should be with respect to:

(a) The scope of regulation,

(b) The classification and allocation of milk,

(c) The determination of and the level of class prices,

(d) The distribution of proceeds to producers, and

(e) The necessary administrative provisions; and

(4) Whether Palo Pinto County, Texas, should be added to the Central West Texas marketing area, and whether certain other proposed amendments to the Central West Texas marketing area should be adopted.

Findings and conclusions. Issue No. 4, relating to the Central West Texas marketing order, required separate consideration from the remaining issues before the hearing, and it was disposed of through amendment of the Central West Texas order (No. 82) effective February 1, 1958 (23 F. R. 638).

With respect to the remaining issues, it is hereby found and concluded upon the evidence adduced at the hearing and the record thereof that:

(1) *Character of commerce.* All milk produced for sale in the Red River Valley marketing area is in the current of interstate commerce or directly burdens, obstructs, or affects interstate commerce in milk and its products.

Handlers located in the Texas portion of the proposed area regularly dispose of milk to wholesale and retail accounts in the Oklahoma portion of the area. Likewise, milk from Oklahoma plants is distributed to wholesale and retail customers in Texas. In the distribution of this milk, handlers in the Red River Valley marketing area are in direct competition with handlers who are regulated under the Oklahoma Metropolitan, Texas Panhandle, North Texas, and Central West Texas marketing orders. It has been determined by the Secretary that the handling of milk in the marketing areas regulated by the aforesaid orders is in the current of interstate commerce.

Milk from producers whose farms are in Oklahoma is regularly received in plants in the Texas portion of the proposed area for processing where it is intermingled with milk of Texas producers and is distributed in both Oklahoma and Texas. In addition to the milk which moves across state lines from farm to plant, there is a considerable degree of competition with interstate markets in the procurement of supplies. The production area of the Red River Valley marketing area is overlapped to a considerable extent in both Oklahoma and Texas by the milksheds of the Oklahoma Metropolitan, North Texas, and Texas Panhandle marketing areas and to a lesser extent by that of the Central West Texas marketing area.

The Red River Valley marketing area has been relatively short of milk and it has been necessary for handlers to secure supplemental supplies to meet their Class I requirements. In addition to milk which is brought in from other markets in Oklahoma and Texas, milk has been imported in substantial quantities within the past year from several points in Iowa, as well as from Kansas, Missouri, Minnesota, and Wisconsin.

(2) *Need for regulation.* The marketing and pricing conditions in the Red River Valley marketing area are such that regulation is necessary to establish and maintain orderly marketing and to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended. This can best be accomplished by the issuance of a separate marketing agreement and order program for the area. There is no basis for annexing any of the proposed area to the Central West Texas marketing area.

The problems encountered by producers in the Red River Valley marketing area are typical of those occurring in unregulated fluid milk markets where producers' cooperative associations have been unsuccessful in establishing effective bargaining relationships with handlers.

The Federal milk marketing program proposed for the Red River Valley will implement the declared congressional policy of establishing and maintaining orderly marketing conditions by:

(a) Providing a regular and dependable method for determining minimum prices to producers at level comparable to those contemplated under the Act;

(b) Establishing uniform prices to handlers for milk received from producers according to a classification plan based on the use made of such milk by the handler;

(c) Providing an impartial audit of handlers' records of receipts and utilization to further insure uniform prices for milk purchased;

(d) Providing all producers with a means whereby the weighing and testing of their milk can be checked to insure accuracy;

(e) Establishing uniform returns to producers, supplying milk to the area, and insuring that the lower returns from the sale of reserve supplies will be equitably shared by all producers;

(f) Establishing uniform rules for the operation of a market-wide base and excess plan that will (i) acquaint producers with the rules for establishing bases and determining base and excess prices, and (ii) encourage producers to deliver their milk on a more even pattern; and

(g) Providing market-wide information on receipts, sales, and other factors relating to milk marketing supplies in the area.

The lack of uniformity in prices paid producers for their milk, the wide variety of classification and pricing plans used by the several handlers in the area, and the ineffectiveness of producers in protecting themselves against sharp declines in prices brought on by price cutting

among handlers, have created unstable marketing conditions.

At the present time, no two handlers pay producers on exactly the same basis. Prices paid producers vary greatly among handlers. These factors of lack of uniformity, and the uncertainty of prices paid to producers, foster market instability and permit inequities to occur among handlers in the prices paid for producers' milk. The classification and pricing plan of the attached order is a means of establishing uniform prices for milk received from producers according to its use by each handler. The use-classification plan is equitable and will apply similarly to all handlers. To insure its effectiveness it must be supplemented by an impartial audit of handlers' records of receipts and utilization. The pooling provisions of the proposed order will provide a means of insuring uniform returns to all producers supplying each handler and an equal sharing of the lower returns associated with seasonal and other excesses of producer milk.

Many producers supplying handlers in the Red River Valley marketing area have had no effective means of insuring the accuracy of the weights and tests of their regular deliveries of milk. They have not been permitted to audit the records of the handlers to establish the accuracy of the percentage of milk paid for as base and as excess under the several base and excess plans operated by the handlers.

These plans are operated by the individual handlers and there has been no uniformity in the methods of determining the proportion of excess milk. There are some indications that the plans have operated to the benefit of a few producers and to the disadvantage of others. There is need for a Federal order to correct these inequities.

Producers have had no method for participating in the price determining decisions that govern the sales of their milk. Handlers and their representatives have discouraged producers from joining the proponent producers' cooperative associations. In at least some instances, they have refused to make deductions for association dues, even though the producer members have authorized such deductions. These actions have kept producers from exercising an effective part in determining the prices they receive for their milk or the percentage of their deliveries which will be paid for as base milk and excess milk. An order will give producers a voice in the deliberations as to what prices they should receive for their milk and will provide a means whereby the producers' associations can carry out an effective marketing service program applicable to all handlers who receive milk from their members. The classified price plan of the attached order, together with the pricing formulas contained therein, will insure sufficient quantities of pure and wholesome milk for the marketing area and will protect the interests of producers, handlers, consumers, and the general public.

(3) *Order provisions*—(a) *The scope of regulation.* A Federal milk order achieves marketing and pricing stability by requiring that regulated handlers pay at least specified minimum prices to producers in accordance with a classified-use plan established in the order, and that these payments be distributed to each producer on a uniform basis through either an individual-handler pool or a market-wide pool. It is necessary therefore, to establish clearly which plants and which milk will be subject to all or a part of the pricing provisions of an order, and which producers will participate in the distribution of returns through the type of pool specified. To identify such persons in referring to them throughout this decision and in the proposed order, such terms as "marketing area", "producer", "pool plant", "handler", "producer milk", and "other source milk" are defined and used herein.

Marketing area. The Red River Valley marketing area should be defined to include all the territory within Caddo, Carter, Comanche, Grady, Jackson, Kiowa, Stephens, and Tillman counties in Oklahoma, and Hardeman, Wichita, and Wilbarger counties in Texas, including all Federal, state, and municipal institutions or bases located therein.

Fluid milk products sold for consumption in the principal communities in the area must be approved by health authorities who administer health ordinances, practices, and procedures generally patterned after the U. S. Public Health Service Milk Ordinance and Code. Within this area, the health standards are substantially identical and are under the jurisdiction of operating health authorities.

Marketing areas as defined in the Federal milk orders are designed to cover, as nearly as is practicable, areas in which milk is sold to consumers rather than the area in which the milk is produced. The proposed order would regulate distributing plants that are in substantial competition with one another, within the defined marketing area.

The proposed marketing area as defined herein includes much less territory than was proposed by the handlers who would be subject to regulation, or than was proposed by one of the producer cooperative associations which requested the hearing. Some of the territory originally proposed in the notice of hearing was abandoned by the proponents at the hearing, and no evidence was presented in support of its inclusion in the proposed marketing area. In addition, a considerable area concerning which evidence was submitted has been eliminated in the proposed order. In defining the marketing area there has been eliminated that portion of the proposed area in which insignificant volumes of milk are disposed of by regulated handlers. At the present time, it is not feasible in defining the marketing area to include all the area in which any handler, who would be regulated by the proposed order, disposes of any milk. To do so would expand the limits of the marketing area almost indefinitely.

The recommended area encompasses all the territory within which any regulated handler sells a significant volume of milk. Further expansion of the marketing area would not enhance the effectiveness of the regulation; it might have a contrary effect by bringing under regulation plants which have only minor connection with the area proposed to be regulated.

The handlers who would be regulated sell by far the greater volume of their milk in the area which has been defined and only a very small proportion of their milk outside these counties. Individual handlers will not be disadvantaged significantly in making sales outside the proposed marketing area because:

(1) The principal competitors for out of area markets will be either handlers also regulated under the Red River Valley marketing order, or handlers regulated under the other Federal order markets; and

(2) The economies inherent in the large-scale processing and distribution of milk will tend to offset any advantage that might accrue to the occasional unregulated handler with whom they might be in competition;

Accordingly, the marketing area which is defined herein includes the territory necessary to minimize problems of competition with unregulated distributors and, at the same time, restore marketing stability to the Red River Valley marketing area.

A cooperative association with producer members supplying Wichita Falls, Texas, Handlers in its filed exceptions contended that the Texas portion of the marketing area should be regulated under a separate order. As shown above, the marketing area recommended herein is an integrated area which should include the designated counties in both Texas and Oklahoma.

Plants and milk to be regulated. Most of the plants which will be regulated under the proposed order are primarily fluid milk plants; they are engaged in manufacturing operations only to a limited degree. These plants are required to dispose of milk products in conformity with similar Grade A ordinances, either municipal or state. Any plant which is under the supervision of a municipal or state health authority and which disposes of any appreciable volume of Grade A milk as fluid milk products to wholesale or retail accounts in the marketing area, should be defined as a pool plant, and should be subject to full regulation under the proposed order.

At the hearing, it was proposed to exempt from full regulation plants disposing of only a small quantity of milk in the marketing area. The proposed exemptions ranged from an average of 100 to 300 pounds of milk per day. It has been concluded that plants which dispose of less than an average of 600 pounds per day as Class I milk to wholesale and retail outlets in the marketing area should not be considered pool plants and should be subject to only partial regulation. The limit of 600 pounds per day approximates an average-sized retail route or a small to medium-sized combination wholesale and retail route. Such volume of milk would not constitute a significant factor in the market, and it is, therefore, not necessary that such a plant be subject to full regulation under the order. Such a plant, however, should be required to furnish such reports as the market administrator may deem necessary and should be required to fulfill certain obligations under the order, including the payment of administrative assessment on the volume of milk actually disposed of as Class I in the marketing area.

The order should also provide standards for plants from which pool plants making sales to wholesale and retail outlets in the marketing area may draw their supplies. Plants shipping supplemental milk to a market ("supply plants") generally fall into two categories. One category includes plants which regularly supply milk to distributing plants, and must be considered to be closely associated with the market. At the present time, there are no plants in this category which regularly serve the plants distributing fluid milk products in the marketing area. Some provision, however, should be made to regulate plants of this type, in the event that one or more might become associated with the market. Plants of this type are a normal part of the milk procurement facilities in any market, and there is nothing in this order which would preclude any plant, wherever located, from serving the market in the future, should a need for its milk arise. This objective can be best accomplished by including in the definition of pool plant a supply plant that ships to pool distributing plants, at least 50 percent of its producer receipts during the current month. Because of the seasonal fluctuation in milk production, supply plants which may be a necessary part of the market during the season of short supply, may not be required to ship a large volume of milk during the months of flush production. Nevertheless, these plants are closely associated with the market and should be subject to regulation. Accordingly, any supply plant which qualifies as a pool plant by shipping to distributing plants at least 50 percent of its receipts during each of the months of September through December should be permitted to continue as a pool plant until September 1 of the year following, even though its shipments to the market during the January through August period are less than 50 percent of its receipts. Supply plants which fail to ship 50 percent of their receipts, during the months of September through December, cannot be considered as closely associated with the market, and should not be considered pool plants except during those months in which they actually ship 50 percent of their receipts to distributing plants.

A handler should be defined as any person who operates a pool plant or any other plant from which milk is disposed of as Class I milk on wholesale or retail routes in the area. The term, "handler", should also include a cooperative association with respect to the milk of member producers, which may be diverted for the account of such cooperative association from a pool plant to a nonpool plant. This provision is necessary to assure that producers whose milk is needed on the market may have all of their deliveries included in the computation of bases even though their milk may be temporarily diverted to a manufacturing plant during the base-forming period.

The term, "handler", is not intended to include the operation of a nonpool plant by persons who may operate both pool plants and nonpool plants. The definition should also include producer-handlers, in order that they may be required to report to the market administrator whenever the market administrator deems it necessary to determine their continued status as producer-handlers.

The term, "producer", should be defined to include any person who produces milk that meets the requirements of the Grade A ordinances of any state or municipal health authority, and which is received at a pool plant or which is caused to be diverted to a nonpool plant by a cooperative association in its capacity as a handler. The definition should be broad enough to include any person producing milk which meets the standards fixed by the several agencies of the Federal Government for milk for fluid consumption on its bases and installations, when the milk produced by such a person is received at a plant supplying milk to such Federal establishment, even though his milk may not be under inspection of a state or municipal authority.

There are within the proposed marketing area several Federal establishments. At the present time, all are purchasing milk which is approved by local health authorities. It is possible, however, that in the future milk may be disposed of to one of these establishments from a source which has been approved by the health officer of the Federal base, but which is not under inspection of any local municipal, or state, health authority. Should this happen, the persons who produce such milk should be considered producers the same as other producers who furnish milk to the marketing area.

Only a few pool plants have manufacturing facilities, and in order to facilitate the movement of milk of producers among the various pool plants, provision should be made so that milk of a producer may be diverted by a handler, other than a cooperative association, from his pool plant to the pool plant of another handler. Such diversion should be permitted for any period during the months of February through July, in the season of flush production, and for not more than 10 days' production of a producer during any month, August through January. Such diverted milk should be considered received by the diverting handler at the pool plant from which such milk was diverted; but for purposes of determining shrinkage, such diverted milk should be considered as producer milk at the pool plant to which it was diverted. Milk so diverted for more than 10 days during any month August through January should be deemed received at the plant to which it was diverted for the entire period of diversion.

Provision should also be made so that milk of producers which is regularly received at a pool plant may be diverted for the account of a handler to nonpool plants without such producers losing their status under the order. This will permit milk regularly associated with the market to be diverted to manufacturing plants during periods of flush production or over week-ends and holidays, when supply and demand relationships may require that some reserve milk be manufactured in plants not regulated by the order. However, to insure that a producer's milk is needed by the market and is associated with it, some limitation on diversion should be provided in the order. Such limitation should be made in the fall months when production is seasonally low and the market needs the milk most. Thus, provision is made to limit diversion to a nonpool plant to ten days' production of milk of a producer during any month during the period, September through December. If such diversion exceeds ten days' production of any producer, the diverted milk should not be considered producer milk for the entire period of such diversion. Subject to the foregoing qualifications, producers whose milk is diverted should continue to receive the uniform price under the order and their milk should continue to be available for fluid use when needed on the market. Diverted milk should be considered to have been received at the plant from which it was diverted. In the case of milk diverted by a proprietary handler, the handler would continue to be responsible for such milk, just as though the milk had been received in his pool plant. In the case of milk diverted by a cooperative association which does not operate a pool plant, the milk should be considered to have been received by the cooperative association at a pool plant at the same location as the pool plant from which it was diverted. The cooperative association would be the handler for such milk and would be required to account for it according to its classification and to make payment to the producer for such milk.

Some cooperative associations have members which are associated with and supply milk to different Federal order markets. Such cooperative associations may divert milk of their producer members from one market to another market. To establish under which order such diverted milk should be pooled, the producer definition should exclude any person whose milk is diverted to a pool plant by a cooperative association if such person retains his status as a producer as defined in another Federal order and his milk is classified and priced under such other order.

The term, "producer-handler", should include a person who operates a distributing plant in which he handles only milk of his own production, and such milk from other handlers as is priced under the order at such other handler's plant. A producer-handler should be subject to the order only to the extent that he must submit reports to the market administrator as required, and maintain and make available to the market administrator the accounts, records, and facilities that are necessary for the mar-

ket administrator to verify such person's status as a producer-handler. It is unnecessary to require under the order that a producer-handler pay any particular price to himself for milk produced on his own farm.

The classification provisions of the proposed order should provide that any milk, skim milk, or cream transferred by a handler to a producer-handler should be Class I milk. Supplemental purchases which may be obtained by a producer-handler from other handlers may be presumed to be needed by the producer-handler for fluid use, and should be classified in the plant of the supplying handler as Class I milk. Purchases of milk from other handlers should not jeopardize a producer-handler's status as such. Producer-handlers, however, should not be permitted to maintain their status as producer-handlers if they dispose of other source milk as Class I. To permit a producer-handler to dispose of other source milk for Class I use, could result in serious disruption of orderly marketing, since it would enable such a person to purchase distress milk from nonpool plants during the period of flush production, thereby gaining a competitive advantage over regulated handlers.

Any milk which a handler receives from a producer-handler should be considered as other source milk, and it should be allocated to the lowest class utilization at the pool plant of the handler. This method of allocating receipts from a producer-handler recognizes that sales by a producer-handler to another handler is the means by which the producer-handler disposes of his surplus milk. It would be inappropriate under these circumstances to provide for the equal sharing by the producer-handler in the Class I market of another handler with respect to the producer-handler's surplus milk.

In their exceptions handlers suggested that the market administrator be required to publish each month a list of producer-handlers and that any milk purchased by a handler from a producer-handler not on the list be considered producer milk. In a market of this size there is little likelihood that a handler would purchase the milk of a producer-handler without knowing his status. The requirement to publish such a list would be unduly cumbersome in relation to the problem to be dealt with. Accordingly, no change should be made with respect to the treatment of milk received from a producer-handler.

"Other source milk" should be defined to include all skim milk and butterfat utilized by a handler in his operations, except fluid milk products received by such handler from producers. This would include any nonfluid milk products from any source, including those produced at the handler's plant during the same or an earlier month, which are reprocessed during the current month at the plant. The other source milk would represent all butterfat and skim milk from any source not subject to the pricing provisions of the attached order. Defining other source milk in this manner will insure uniformity among all handlers under the allocation and pricing provisions of the order.

(b) *Classification of milk.* Milk received by regulated handlers should be classified on the basis of skim milk and butterfat according to the form in which, or the purpose for which, it is used as either Class I milk or Class II milk.

A classified-use plan of this type will insure that minimum prices for milk will be uniform among handlers according to use, that a price may be fixed for the milk disposed of as Class I milk at a level that will bring forth an adequate supply of pure and wholesome milk, and that a necessary reserve supply of quality milk may be maintained without disrupting marketing and pricing conditions within and around the established marketing area.

The products which should be included in Class I milk are those which are required by the health authorities, exercising jurisdiction in the marketing area, to be produced from Grade A milk. The extra cost of getting quality milk produced and delivered to the market in the condition and quantities required, makes it necessary to provide for Class I milk a price somewhat higher than that received for non-Grade A milk produced for use in manufactured dairy products. This higher price should be at such a level that it will yield a return to producers that will encourage the production of enough milk to meet the requirements of the market.

The reserve milk which is not needed seasonally, or at other times during the year for Class I use, must be disposed of for use in manufactured dairy products. These products are not required to be made from Grade A milk, and must be sold in competition with similar products produced through the entire United States. Milk so used should be classified as Class II milk and should be priced in accordance with its value in manufactured dairy products.

In accordance with these standards, Class I milk should include all those products which are disposed of in the form of milk, skim milk (including reconstituted and concentrated nonfat milk solids), buttermilk, flavored milk, flavored milk drinks, cream and any mixtures in fluid form of milk, skim milk and cream, which are disposed of for fluid use, such as half and half, and all milk which cannot be accounted for as having been used to produce a Class II product.

Fluid milk products which contain concentrated skim milk solids such as skim milk drinks, fortified skim milk, and buttermilk to which extra solids have been added, or concentrated whole milk disposed of for fluid use, should be included within the definition of Class I milk, and all the nonfat solids contained therein should be priced equally. For brevity and convenience in referring to Class I milk items, they are included in a definition of "fluid milk product". Products such as evaporated or condensed milk packaged in bulk or in hermetically sealed containers will not be considered Class I milk, since they need not be handled as fluid milk products, and are not required to be made from Grade A milk.

Skim milk and butterfat are not used in many products in the same proportions as in the milk received from producers and, therefore, should be classified separately according to their respective uses. The skim milk serum and butterfat content of milk products received and disposed of by a handler may be determined through certain recognized testing procedures. Some of these products, such as ice cream and condensed products, present a difficult problem of testing and accounting, in that some of the water contained in the milk originally has been removed. It is necessary in the case of such products to provide a special means of ascertaining the amount of skim milk and butterfat contained in or used to produce these products. This may be accomplished through the use of adequate plant records made available to the market administrator in the case of products manufactured by the handler, or by means of standard conversion factors of skim milk and butterfat used to produce such products in the case of items purchased by a handler, or where adequate plant records are not available.

The accounting procedures to be used in the case of any condensed milk product disposed of as Class I milk should be based on the pounds of milk or skim milk required in its production. Concentrated skim milk solids which are reconstituted for distribution as Class I products, or are used to fortify other Class I products are included in this category. The value of each pound of nonfat solids utilized in Class I products has a value to the handler the same as every other pound contained therein. Neither the form in which, nor the source from which, such solids are obtained change their value to the handler for this purpose. Solids contained in producer skim milk are in fluid form and are paid for on the basis of all the water that was originally associated with such solids. In order to account for skim milk solids in powder or condensed form on a basis comparable to that used in accounting for regular skim milk, it is necessary to account for such solids on the basis of the quantity of skim milk necessarily used in the production of such solids. Therefore, the accounting procedures to be used in the case of this and any other condensed product should be based on the pounds of milk or skim milk required in its production.

Each handler must be held responsible for a full accounting of all his receipts of skim milk and butterfat in any form. A handler who first receives milk from producers should be responsible for establishing the classification of, and making payment to producers for, such milk. Fixing responsibility in this manner is a practice which is followed consistently in both regulated and nonregulated markets. It is necessary, for effective administration of the provisions of the order, that equality of minimum prices among handlers be maintained. The operator of the plant at which the milk is first received from producers is the person with whom contractual relationships have been made by producers or their representatives. Except for the limited quantities of skim milk which may be classified as Class II under circumstances set forth elsewhere, all skim milk and butterfat which is received, and

for which the handler cannot establish utilization, should be classified as Class I milk. This is necessary to remove any advantage to handlers who fail to keep complete and accurate records of their operations, and to assure that producers will receive full value for their milk on the basis of its use by the handler.

All skim milk and butterfat used to produce products, other than those which are classified as Class I milk, should be Class II milk. Included as Class II milk are such products as ice cream, ice cream mixes, frozen desserts and mixes, eggnog, yogurt, aerated cream, butter, cheese (including cottage cheese), evaporated and condensed milk (both plain and sweetened), nonfat dry milk solids, dry whole milk, sour cream, and any other product not specified as Class I. Class II milk should also include skim milk and butterfat disposed of to commercial food manufacturing plants, such as wholesale bakeries, soup companies, candy manufacturers, etc., which do not dispose of fluid milk products for fluid consumption. The health ordinances do not require that the milk utilized in these products be of Grade A quality.

Cream placed in storage and frozen should be classified as Class II milk. Such cream is intended primarily for use in ice cream and ice cream mixes. Should any frozen cream or other Class II product later be utilized in the manufacture of another product, it would be considered a receipt of other source milk in the plant of the handler and would be assigned to the lowest class price utilization in the plant.

Producers proposed that sour cream be included in Class I. The record, however, fails to establish that any of the health departments having jurisdiction in the marketing area require that it be made from Grade A milk. The facts established are that most of the sour cream disposed of by handlers in the marketing area is purchased from outside sources already processed and is not generally produced from producer milk.

Classification as Class II milk should be provided for skim milk which is disposed of for livestock feed and for skim milk which is dumped by the handler after prior notification to the market administrator of his intention to do so. In some sections of the proposed marketing area, manufacturing facilities are rather limited. Many of the handlers who would be subject to the order also have rather small operations. As a consequence, there will be times when a plant will have small quantities of milk, which are in excess of its bottling requirements, and which it would be uneconomical to transport to a manufacturing plant. In such instances, the handler should be permitted to dump the skim milk contained in such milk without having it classified as Class I milk. To prevent abuse of this privilege, however, the handler should be required to notify the market administrator of his intention to dump such skim milk so that the market administrator may have the opportunity to physically verify both the quantity of skim milk to be dumped, and its actual dumping, if he desires to do so. Failure to notify the market administrator in advance would result in such milk's being considered unaccounted for, and subject to classification in Class I milk as excess shrinkage.

While it is reasonable to permit skim milk for which a handler has no use to be disposed of to farmers for livestock feed or to be dumped, there is no justification for permitting fat to be so utilized. While excess skim milk may be of no value to a handler, except in condensed form, the fat can be disposed of in ice cream and possibly in butter at any point in the marketing area. The only appreciable quantities of fat which cannot be salvaged are those contained in returns of creamed cottage cheese and flavored milk. Any loss involved in such returns is a part of the normal risk associated with doing business, and should be compensated for by the 2 percent shrinkage permitted to be classified as Class II milk.

Shrinkage up to 2 percent of the handler's receipts from producers should be permitted to be classified as Class II milk, as should all shrinkage incurred in the handling of other source milk. Shrinkage should be determined by subtracting, from the total pounds of skim milk and butterfat received by the handler, his total utilization of skim milk and butterfat respectively, in the various products handled. The resulting figure should be prorated between the handler's receipts of milk from producers and from other sources. The shrinkage associated with the other source milk and that which is allocated to producer milk, in an amount not in excess of 2 percent of the handler's receipts of skim milk and butterfat from producers, should be classified as Class II. Any shrinkage allocated to producer milk in excess of 2 percent of the handler's receipts from producers, should be classified as Class I milk.

Handlers have inventories of fluid milk products at the beginning and end of each month, which enter into the problem of accounting for current receipts and utilization. Inventory is intended to include stocks on hand of bulk milk, skim milk, cream, and bottled milk, and other fluid milk products designated as Class I milk. Manufactured products on hand are not included in the inventory to be accounted for, because either they were in processed form or the milk used to produce such products will already have been accounted for as Class II milk. As noted above, handlers will be required to keep records of such products, but they will not be included in the inventory for the purpose of accounting for current receipts. Inventory should be accounted for as Class II milk. If fluid milk products in inventory are accounted for as Class II milk at the end of the month, it will be necessary to provide a method for dealing with the producer milk in inventory which is used in the current month for Class I purposes, but which the handler accounted for to producers as Class II at the end of the preceding month. Handlers at times will also have other source milk in inventory. Producer milk from inventory should have prior claim on Class I sales over current receipts of other source milk. This can be accomplished by considering the ending inventory in one month as a receipt by the handler in the following month, and substracting such receipt in series, starting with the Class II milk remaining after the subtraction of other source receipts during the month. To the extent that opening inventory is allocated to Class I milk and there was an equivalent amount of producer milk classified in Class II in the preceding month, a reclassification charge should be made at the difference between the Class I price in the current month and the Class II price in the preceding month. This will ensure equality in the application of the minimum prices among handlers, and in returns to producers, whether such producer milk is from current receipts or from the preceding month's inventory.

Transfers. The classification of butterfat and skim milk used in the production of Class II items is established when the product is made. The classification of Class I milk should be established when butterfat or skim milk is disposed of by the handler. However, since some Class I items may be disposed of to other pool plants for processing, specified classification procedures must be prescribed for milk transferred to other pool plants.

Milk, skim milk, and cream, or other products designated as Class I milk, transferred by a handler to the plant of another handler, except a producer-handler, should be classified as Class I milk, unless both handlers indicate in their reports to the market administrator that they desire such milk to be classified as Class II milk. The plant to which the milk is transferred, however, must have sufficient Class II utilization available for such assignment after the prior allocation of shrinkage and other source milk. Furthermore, the assignment of classification must be such that it will result in the maximum amount of producer milk at both plants being assigned to Class I milk. This is in accordance with the principle that the higher valued usage should be assigned to those producers who regularly supply the market.

In order to reduce the administrative expenses of verifying the use of milk or skim milk transferred great distances, milk or skim milk which is moved to plants located more than 350 miles from Wichita Falls, Texas, should be Class I in all cases. There are ample manufacturing facilities within 350 miles of Wichita Falls to handle all of the excess supplies that may be produced seasonally for the market. It is a very costly procedure to verify the utilization of small lots of milk or skim milk moved great distances. In the interest of maintaining administrative costs as low as possible, any milk or skim milk moved more than 350 miles from Wichita Falls should be classified as Class I.

It is as uneconomical for the market administrator to travel several hundred miles to verify the utilization of a few cans of cream, as it is to travel the same distance to verify the utilization of a tank of milk. In the case of shipments of cream, however, the shipment is frequently labeled as being for use as manufacturing grade cream only. When this

occurs and the market administrator has knowledge of the fact, cream moved more than 350 miles from Wichita Falls may be classified as Class II milk if all the following conditions are met:

(1) The transferring handler requests such a classification;

(2) It is clearly labeled as manufacturing grade cream, and is so invoiced; and

(3) The market administrator is notified, prior to the shipment, so that he may have an opportunity to verify the labeling.

The most common form of transfer to a nonpool plant is the movement of excess milk to nearby plants which have manufacturing facilities. It is provided that if milk, skim milk, or cream is transferred from a pool plant to a nonpool plant located less than 350 miles from Wichita Falls, Texas, it shall be Class I unless Class II use is established. If the transferee plant distributes milk on routes the market administrator shall first allocate to the Class I utilization in such plant, the receipts from dairy farmers who constitute its regular source of Grade A supply. If the Class I disposition of such plant exceeds its receipts from such dairy farmers the milk, skim milk, or cream transferred to such plant shall be assigned to Class I up to the amount that Class I disposition exceeds receipts from dairy farmers. Any additional amount shall be classified as Class II.

If the transferee plant does not distribute milk on routes, the milk, skim milk, or cream shall be classified as Class II milk except that: (1) if the nonpool plant transfers milk, skim milk, or cream to a pool plant, an amount equal to skim milk and butterfat transferred to the nonpool plant from other pool plants shall be classified as though it had been transferred directly between the pool plants; and (2) if skim milk and butterfat is transferred from the nonpool plant to another nonpool plant which does distribute fluid milk on routes, the skim milk and butterfat transferred from the pool plant to the first nonpool plant shall be Class I in an amount equal to that transferred to the second nonpool plant unless it is established that such skim milk or butterfat was transferred to the second nonpool plant without Grade A certification with each container labeled to show that the contents were for manufacturing use only and that the shipment was so invoiced. If, however, the transferee plant is a pool plant under another order issued pursuant to the Act, the milk received at such plant from dairy farmers who are producers under such order should receive prior claim to the Class I utilization over the fluid milk products diverted or transferred to such plant.

Allocation. Because the order prices apply only to producer milk, it is necessary, if a pool plant has butterfat or skim milk other than that received from producers, to determine the quantities of milk in each class to be assigned to current receipts from producers. The milk of producers who are regularly engaged in supplying the market should be assigned to Class I before any other milk is so assigned. This is necessary to insure the effectiveness of the classified pricing program of the order. The system of assigning utilization of milk to receipts from different sources which will carry out this objective is set forth in detail in the order.

In general, this procedure requires that skim milk and butterfat, respectively, remaining in each class be assigned to producer milk by making the following deductions from the gross utilization of each handler, starting with Class II milk, except as otherwise noted:

(1) Class II shrinkage of producer milk;

(2) Other source milk;

(3) Opening inventory;

(4) Receipts from other pool plants according to its classification; and

(5) Overage.

Since uniform prices paid producers by each handler are to be calculated monthly, the assignment of utilization described above should be carried out with respect to all milk received during each month. To apply a shorter accounting period would place a burden upon handlers and would increase substantially the cost of administering the order.

(c) *Class prices.* In order to restore and maintain orderly marketing conditions in the Red River Valley marketing area, Class I and Class II prices for producer milk must be established at levels that will reflect economic conditions affecting the market supply and demand for milk or its products, and assure the maintenance of a supply of quality milk adequate for the needs of the market. The act requires that minimum prices established by Federal milk orders meet this standard. An important point is that prices be at a level that, over a reasonable period of time, will result in a supply of milk meeting the quality standards of the market about equal to the needs of the market, considering the necessity for a reserve supply of milk and a seasonal fluctuation in production. This means that the minimum prices provided in the order can be related to general economic conditions, but they cannot be maintained out of line with such conditions or with prices in surrounding markets. If producers' prices are too low, not enough milk of acceptable quality will be produced and delivered to plants to supply the Class I needs of the market, and there will be a tendency for producers to shift to other markets where the prices are more nearly adequate. Likewise, if prices are too high, milk production will be overstimulated, consumption will tend to fall off, and there will be a tendency for producers to shift from other markets to the Red River Valley marketing area. These actions would result in a supply of milk greater than needed to supply the demands of the market, and would eventually result in the shifting of agricultural resources toward the production of unnecessary and uneconomical surplus which would reduce the uniform prices received by producers.

The Red River Valley marketing area is situated near to several other Federally regulated milk markets. As noted above, the production area for the Red River Valley overlaps the milksheds of the North Texas, Central West Texas, and Texas Panhandle marketing areas and to an even greater degree that of the Oklahoma Metropolitan milk marketing area. For this reason, it is particularly important that prices in the Red River Valley be established at a level which will not disrupt the supply and demand relations of the several surrounding marketing areas.

The prices in the Oklahoma Metropolitan marketing area are the lowest of any of the above-mentioned marketing areas. As one progresses south or west from the Oklahoma Metropolitan marketing area, prices are increased to compensate for the additional costs of transporting supplemental milk from the area of surplus production, and to compensate for the additional costs of getting milk produced in Western Oklahoma and Texas. Accordingly, the price for Class I milk in the Red River Valley marketing area must be higher than that established in the Oklahoma Metropolitan milk marketing order, and lower than those provided in the Texas marketing orders.

The price for milk received at pool plants located in Texas should be 15 cents higher than the Class I price established under the Oklahoma Metropolitan milk marketing order. At all other pool plants located within 100 miles of the City Hall in Wichita Falls, Texas, it should be 10 cents higher than the price established under the Oklahoma Metropolitan marketing order. At all other plants a location differential should apply based on the distance such plants are from the City Hall in Wichita Falls, Texas. This level of prices will maintain a proper alignment between the Red River Valley marketing area and the Federal marketing areas mentioned above. A greater difference in prices between the Oklahoma Metropolitan marketing area and the Red River Valley marketing area would place handlers in the Red River Valley at a competitive disadvantage with plants regulated under the Oklahoma Metropolitan marketing order, which dispose of milk in the Red River Valley marketing area and in the area lying between the Oklahoma Metropolitan and the Red River Valley marketing areas. At the same time, a price less than that provided would afford handlers regulated under the Red River Valley marketing area, especially those located south of the Red River, a competitive advantage over handlers whose milk is priced under the North Texas or Central West Texas marketing orders.

If the Class I pricing as proposed herein had been operative, the Class I price at Wichita Falls, Texas, in 1956 would have ranged from about $5.15 to $5.75, and averaged $5.48 per hundredweight. For the first six months of 1957, an average Class I price of $5.19 per hundredweight would have resulted.

Comparable Class I prices actually paid by handlers in the Red River Valley marketing area are not available, but prices reported to have been paid producers for base milk in 1956 ranged from about $4.75 to $5.65 per hundredweight; and for the first six months of 1957, they ranged from about $4.50 to $5.45 per hundredweight.

Exceptions to the Class I pricing provisions of the order were filed by several handlers who are subject to regulation under the Central West Texas order and by the cooperative association which supplies them with milk. It was their contention that the proposed price is too low and would place them at a competitive disadvantage. Their opposition is based largely on a comparison of the prices that would have prevailed under the proposed order with the prices that were actually effective in Central West Texas during the past four years. During a substantial portion of that period, however, the latter price was not based on the formula provided, but was fixed at a somewhat higher level because of the extreme drought which prevailed.

Were the proposed order in effect in July 1958, the Class I price would be 32 cents below the Central West Texas price at Abilene. This figure is very close to that which the exceptions allege should prevail.

On an annual average the difference in price between Wichita Falls and Abilene will exceed the above figure by a few cents. To increase the price at Wichita Falls, however, to bring it nearer to the Abilene price would cause a misalignment in price between Wichita Falls, and the Oklahoma Metropolitan, North Texas, and Texas Panhandle marketing areas.

Class II milk. Every fluid milk market needs a reserve supply of Grade A milk to meet day-to-day fluctuations in receipts from producers and in Class I sales. While sales of milk vary considerably on a day-to-day basis, they are rather uniform from season to season. Milk supplies, however, because of the seasonal variations in production, are greater during the late winter and spring months than they are in late summer and fall. As a result, handlers must process on a year-round basis the daily and seasonal surplus into various manufactured products. Since milk going into these products must be paid for at the Class II price, this price must be fixed at a level which will encourage handlers to accept whatever quantities of such milk may be offered from time to time by the producers who supply the market. It is of equal importance that the price be at a level which will return to producers the full value for their milk.

All products which are included in Class II may be made from milk which does not meet the requirements of the Grade A ordinances. Grade A milk which may be used in these products by regulated handlers, must be priced at a level which is competitive with the cost of alternative supplies of milk that would otherwise be used in the manufacture of such products. Ice cream, cottage cheese, and condensed milk are the most important outlets for reserve and surplus supplies on the market.

In the past, the Red River Valley has been relatively short of milk during the late summer and fall months, and it has been necessary for handlers to rely on receipts of ungraded milk to process the Class II products which they manufacture during the season of short supply. When milk is not available locally, these products have been purchased, for the most part, in the form of powder, condensed skim, and cream. It seems appropriate, therefore, that the formula for pricing Class II milk, at least during the season of short supply, should be one which would reflect the cost of obtaining supplies from alternative sources. Such a formula would be one which is based on the market value of butter and nonfat dry milk solids. One of the alternative formulas used for determining the Class I price under the Oklahoma Metropolitan milk marketing order is a formula based on the Chicago market prices of butter and nonfat dry milk solids. Since, as has been noted above, the prices in the Red River Valley marketing order must be aligned to those in the Oklahoma Metropolitan Order, the price for Class II milk under the Red River Valley marketing order during the season of short supply should be identical to the butter-powder formula in the Oklahoma Metropolitan milk marketing order. This formula arrives at a price for the butterfat by subtracting 3 cents from the price of 92-score butter at Chicago, adding 20 percent thereto, and multiplying by 4. The value of the skim milk is determined by subtracting from the average prices of nonfat dry milk solids both spray and roller process, f. o. b. manufacturing plants in the Chicago area, 5.5 cents, multiplying by 8.5, and then multiplying by 0.96. This is the price which should be effective for the months of August through January, inclusive.

During the months of heavier production, it will be necessary for many of the handlers in the Red River Valley marketing area to move excess supplies to nearby manufacturing plants for processing into Class II products, since the facilities of handlers for processing whole milk into manufactured dairy products are limited, particularly in the Texas portion of the proposed marketing area. During this period of the year, the Class II price should be one which will enable handlers to dispose of excess supplies to manufacturing plants without incurring a substantial loss on the transaction. The best reflector of the value of milk for Class II products during the months of flush production is the price paid by manufacturing plants for ungraded milk for use in these products. The Class II price during the months of February through July, therefore, should be the average of the prices paid for ungraded milk by the following plants: American Foods Company, Miami, Oklahoma; Gilt Edge Dairy, Norman, Oklahoma; the Muskogee Dairy Products Company, Muskogee, Oklahoma; the Page Milk Company, Coffeyville, Kansas; the Pet Milk Company, Siloam Springs, Arkansas; and the Real Test Foods Company, Tulsa, Oklahoma. These are the same plants whose pay prices are used in determining the Class II prices under the Oklahoma Metropolitan marketing order.

Prices determined in this manner will insure that handlers will make every effort during the months of short production to see that available supplies of producer milk are used in Class I to the greatest extent possible. It will also insure that handlers will be able to move surplus milk into manufacturing channels when it cannot be utilized in Class I on the market.

Producers proposed that for certain products, such as cottage cheese, ice cream, and similar products a Class II price be established somewhat higher than the price fixed for milk going into butter, cheese, nonfat dry milk solids, and other commodities which are less perishable and less bulky. At this time, it is not feasible to establish a separate classification for such products. Such products may be disposed of freely in the marketing area, regardless of whether they have been made from Grade A milk. Large quantities of cottage cheese and ice cream are distributed over the entire marketing area by plants which are subject to regulation under other Federal marketing orders, as well as by manufacturing plants which are completely free of regulation. Pricing milk going into these products at a somewhat higher level than the Class II price in surrounding markets, or than the price paid by unregulated manufacturing plants, would place regulated handlers at a competitive disadvantage and might result in their refusing to accept from producers more milk than was needed for their Class I use. Refusal by handlers to accept milk for use in ice cream, cottage cheese, and similar products would create disorderly marketing and would pose a severe problem for the cooperative association in disposing of the seasonal surplus in the market.

Location differentials. Class I milk products, because of their bulky, perishable nature, incur relatively high transportation costs, if such products or the milk used to produce them are moved a considerable distance. Milk delivered by farmers directly to plants in or near the centers of population is therefore, worth more to a handler than milk which is received from farmers at a plant located many miles from the point at which the milk is distributed. On such milk the handler must incur the additional cost of moving the milk to a central market. The producer, in turn, receives less for milk delivered to points distant from the central market in lieu of incurring the additional cost of hauling his milk directly to the central market. Under these conditions, the value of milk delivered by producers to plants located some distance from the central market is reduced by approximately the cost of transporting such milk from the point of receipt to the central market.

At the present time, there are no supply plants regularly furnishing milk to the Red River Valley marketing area. With the rapidly changing pattern that is developing in the milk industry, it is possible, however, that in the near future supply plants may begin to furnish milk to the market on a regular basis. In order to allow for the cost of moving Class I milk from distant plants that might become regular sources of supply for the market, it is necessary to establish the Class I price for milk delivered to plants at a point in the marketing

area and then provide a schedule of deductions from the Class I price as location differentials or adjustments. The city of Wichita Falls, Texas, is the largest population center in the proposed marketing area. It is also the most distant from alternative sources of supply and, therefore, the cost of milk from surplus producing areas delivered to Wichita Falls would be greater than at other population centers in the marketing area. Accordingly, the Class I price should be established at Wichita Falls. Because of the extensive nature of the marketing area and its peculiar location in relation to sources of supply and to other marketing areas, the prices at all points in Texas should be the same as that at Wichita Falls. At plants located in Oklahoma and within 100 miles of Wichita Falls, the price should be 5 cents less than the price at Wichita Falls. At all other plants, the price should be reduced 1.5 cents per hundredweight for each 10 miles or fraction thereof that such plant is more than 100 miles distant from the City Hall at Wichita Falls, Texas. Although, normally, location differentials are uniform at the same distance from the central market regardless of the direction in which the plant is located, in the present instance, it is desirable to permit the deduction of a location differential only at those plants which are located north and east of Wichita Falls. Because the areas to the south and west are generally a deficit production area and the costs of alternative supplies in that area are higher than they are further north, prices at plants in other West Texas marketing areas are higher than those proposed for the Red River Valley marketing area by approximately the amount of the additional cost of transporting supplemental supplies from the surplus production areas in the north central states. If the prices at plants south of the Red River Valley were reduced because of their distance from the marketing area, it is possible that plants presently regulated under the Central West Texas marketing order might attempt to become regulated under the Red River Valley marketing order. If this were to happen, the prices such plants were required to pay would be substantially less than the prices paid by other plants regulated under the Central West Texas marketing order. The resulting competitive advantage enjoyed by such a handler would disrupt the orderly marketing in the Central West Texas marketing area.

One of the exceptions proposed that the location differential be revised so as to provide a Class I price at Ardmore, Oklahoma, four and one-half cents less than the price at Lawton, Oklahoma. This exception is denied since Ardmore is at least as far from the Oklahoma Metropolitan marketing area as Lawton is and is closer to the North Texas marketing area than any other point at which a plant is located in the Oklahoma portion of the proposed marketing area.

The proposed rate of 1.5 cents for each 10 miles or fraction thereof that a plant is more than 100 miles from the City Hall in Wichita Falls, Texas, reflects the actual cost of transporting milk in tank trucks. This rate is comparable to that which is generally contained in other Federal milk marketing orders.

A method is provided for determining, if necessary, the priority of milk from various plants and allocating milk to Class I use by computing the aggregate value of the location adjustments to be allowed, such adjustments to be made in sequence in the order that such plants are distant from the City Hall in Wichita Falls, Texas.

The value of milk used in manufactured dairy products is affected very little, if at all, by the location of the plant receiving and processing such milk. This occurs because of the differences in the cost of moving the two types of product.

Fluid milk products are bulky, easily contaminated, and highly perishable, whereas, such products as butter, cheese, and nonfat dry milk solids are easily transported and may be stored for long periods of time, and have a high value relative to the cost of transporting them. The cost of such products is virtually the same at the plant of origin as it would be delivered to Wichita Falls. For this reason, the price for Class II products varies little, regardless of the location of the plant. Accordingly, no adjustment should be made in the Class II price by reason of the location of the plant at which the milk is received from producers.

In line with the economic considerations which affect the value of milk for fluid uses when it is delivered by farmers to plants located some distance from the consuming market, it is necessary and appropriate that the prices paid producers for milk delivered to plants at which a location differential applies should also be reduced at the same rate to reflect the lower value of such milk, f. o. b. the point of actual delivery, in contrast to its value when delivered to Wichita Falls.

Butterfat differentials. As noted above, it has been concluded that butterfat and skim milk should be accounted for and classified separately. It will be necessary, therefore, to adjust the Class I and Class II prices in accordance with the average butterfat content of the milk in each class by a butterfat differential that will reflect differences of value due to variations in the butterfat content of such products. In order to maintain prices on the same basis as those in surrounding markets, prices for the Red River Valley marketing area should be computed and announced in terms of milk of 4.0 percent butterfat content.

The butterfat differentials for Class I milk and Class II milk should be appropriate to the level of class prices provided for herein for Class I milk and Class II milk. To achieve this end, the Class I price should be increased or decreased, for each one-tenth of 1 percent of butterfat content above or below 4.0 percent, by the value obtained by multiplying the Chicago butter price for the preceding month by 0.125. The Class II differential would be determined by multiplying the Chicago butter price for the current month by 0.115.

The use of butterfat differentials in this manner is practiced in most fluid milk markets for adjusting for butterfat variations. At these levels they reflect the situation in the market and will maintain the prices in this market in proper alignment with prices in surrounding markets, regardless of the butterfat content of the milk. Identical butterfat differentials are provided in the Oklahoma Metropolitan marketing order.

In order that the Class I butterfat differential may be announced early each month, at the same time that the Class I price is announced, the Class I butterfat differential should be based on the average price of butter during the preceding month. Since Class II prices will not be announced until after the end of the month, and will be based on market prices of commodities during the month in which the milk is manufactured, the Class II butterfat differential should be based on the value of butter during the month in which the milk is utilized. Accordingly, the Class II butterfat differential should be based on the price of butter during the current month, and should be announced at the end of the month at the same time as the Class II price is announced. Although handlers will not know the cost of such milk until after it is utilized, they will know that in any sales competition with other processors of manufactured dairy products, whether regulated or not, they will be paying for milk on the basis of current market prices the same as their competitors.

The butterfat differentials used in making payments to producers should be calculated at the average of the returns actually received from the sale of butterfat in producer milk. The rate to be used for this purpose would be the average of the Class I and Class II differentials weighted by the proportion of the butterfat in producer milk which is classified in each class. Thus, producer returns for butterfat will reflect the actual sales value of the butterfat in their milk at the class prices provided in the order. The producer butterfat differentials in no way affect the amount of a handler's obligations which are computed at the class prices. It is merely a means of prorating returns among producers in accordance with the variations in the butterfat test of the milk which they deliver.

Equivalent prices. A provision should also be written in the order directing the market administrator to use a price determined by the Secretary to be comparable, in the event that any of the prices used in making the various computations provided in the order is not published and available to the market administrator. This would prevent the lack of a price quotation from affecting the operation of the order. Such a provision is incorporated in most milk marketing orders.

Compensatory payments. A compensatory payment should be assessed on other source milk disposed of as Class I milk.

Some handlers in the proposed marketing area have made a practice of keeping their purchases of milk from producers at the lowest possible level even during the months of flush production and have relied on purchases of milk from other plants to fulfill their Class I requirements. These handlers have purchased distress milk, particularly during the season of flush supplies, from other markets or from other plants in the market, at prices equal to or slightly in excess of its manufacturing value, and have used such milk for Class I purposes. Such practices have had a demoralizing effect on the market and contributed greatly to the chaotic conditions which led producers to request a marketing order for the Red River Valley.

An important function of an order is to insure that handlers paying producers the Class I price for fluid milk will not be placed at a disadvantage by other handlers using the market's excess or surplus milk for Class I use. It is equally important that the Class I market be protected from the use of seasonal excess milk from other markets, as well as from its own surplus. If the order fails to provide such protection, handlers could continue to curtail purchases of milk from producers to their own advantage and secure low cost surplus supplies from other markets for Class I use.

Seasonal supplies may be obtained easily and cheaply during the months of flush production when most markets have receipts of milk considerably greater than necessary to supply their regular fluid requirements. If adjoining milksheds were to dispose of seasonal surpluses in each other's Class I markets, the result would be confused and disorderly marketing conditions. Class I prices would be demoralized, production of milk would be impaired, and the future permanent supply of milk of both markets would be in jeopardy. Such disorderly marketing conditions would be contrary to the purposes of the act. Therefore, in order to insure the effectiveness of the classified pricing program, and to promote orderly marketing, it is necessary that some method of compensating for or neutralizing the effect of the advantage created for unpriced milk should be provided as an essential provision of this order.

It is concluded therefore that the inclusion of compensation payment provisions in the order is necessary to insure against the displacement of producer milk for the purpose of cost advantage. This is essential to preserve the integrity of the classified pricing program of the order. Since minimum class prices may not be set under the order for plants which do not participate in the market-wide equalization the only alternative is to levy a charge against unpriced milk for the removal of any advantage there may be in using unregulated milk in Class I instead of producer milk.

The rate of the compensatory payment on other source milk should be the difference between the Class I and Class II prices during the months of February through July, and the difference between the Class I price and the uniform price during the remainder of the year.

Surplus fluid milk would be available to Red River Valley handlers from unregulated markets during the months of February through July. The alternative outlet for such milk is in manufactured dairy products. A fair index of the value of such milk when used in manufactured dairy products is the Class II price proposed herein. This represents the actual value of such other source milk during these months.

During the remainder of the year when milk is in much shorter supply, and there is a much greater demand for fluid milk for bottled use, handlers in the Red River Valley will not be able to purchase milk at its value for manufacturing. During these months, it is likely that the minimum price at which handlers would be able to purchase fluid milk from unregulated sources would be one equivalent to the uniform price computed under the Red River Valley order. During the months of August through January, therefore, the rate of the compensatory payment on other source milk should be equal to the difference between the uniform price and the Class I price. The purpose of this provision is to remove any price advantage the handler may have in using unregulated milk, and hence, in making the adjustment for butterfat content, both the Class I price and the uniform price should be adjusted by the Class I butterfat differential, and not by the producer differential which is otherwise used in adjusting the uniform prices.

In addition to the other source milk which may enter the market in the form of fluid milk products, there are times when other source milk will be imported from unregulated sources in concentrated form for use as Class I milk. In order to remove the price advantage a handler might have through the reconstitution of such products into fluid milk products, the rate of compensatory payment on other source milk received in concentrated form should be the same as on that received in the form of fluid milk products.

Since the handler must pay the cost of transporting other source milk from the plant of origin to the marketing area, the rate of the compensatory payment on other source milk should be reduced by the amount of the location differential which would apply at the plant of origin were it a regulated plant under the proposed order. No location differential should be deducted, however, in the case of condensed skim milk or nonfat dry milk which at times may be allocated to Class I use. In the case of these products it would be extremely difficult and at times impossible to determine the plant of origin. They may pass through several hands between the manufacturer and the ultimate user and the output of many plants in many different localities may be commingled by the broker or jobber from whom such products are acquired. The administrative difficulties which would be involved make it impractical to apply location differentials to the payment associated with condensed skim milk and nonfat dry milk. Moreover, since the cost of transporting milk solids in concentrated form is slight in terms of its milk equivalent, the difference in cost to handlers would be negligible.

In computing the applicable location differential, if a handler has received other source milk from two or more nonpool plants, the amount of skim milk and butterfat allocated to Class I milk should be considered to have been received from the plants in sequence, according to the smallest location adjustment applicable.

In addition to the other source milk which may enter the market through pool plants, other source milk may also be distributed within the marketing area directly from nonpool plants. There is no evidence of distribution within the marketing area at the present time by plants which would not meet the requirements of pool plants. There are plants, however, in the vicinity which could extend their distribution routes into the marketing area and by preserving their unregulated status could operate with a substantial price advantage over regulated handlers unless provision is made to assure that all competing plants pay the minimum class prices.

The compensatory payment applicable to other source milk disposed of from nonpool plants on routes in the marketing area should be the same as that applicable to other source milk disposed of through pool plants. This is the only method of dealing with such problems which was considered. It will remove the advantage that might accrue to a nonpool plant should it begin the distribution of other source milk in the marketing area.

No compensatory payment should apply to other source milk which is classified and priced under another Federal milk order whether such milk is disposed of in the market directly from such plant or through a pool plant. In either case its proper classification and price would have been determined by the other order.

Payments to producers—(a) Type of pool. The order should provide for a market-wide pool, rather than for an individual-handler pool as proposed in the recommended decision.

The market-wide pool was proposed by producers. Under the market-wide pool, all producers delivering milk to all pool plants would receive uniform prices for all milk so delivered regardless of the use made of such milk by the handler to whom it is delivered. Under the individual-handler pool the producers supplying each of the regulated handlers would be paid a blend price based upon the proportion of the receipts of producer milk classified as Class I milk and Class II milk at the plant(s) of the particular handler receiving the milk. Under either type of pool, the uniform or blend prices are subject to adjustment for location and the butterfat content of the milk. Producers may also be charged different rates for hauling their milk from the farm to the plant. These rates, however, are not established by the order.

Three cooperative associations whose members supply milk to the market, in their exceptions, requested a market-wide type of pool. One of them, as noted above, requested that the Texas portion of the area be established as a separate marketing area with a market-wide pool, at least for that portion of the area; the others urged a market-wide pool be adopted for the entire area. Under the conditions prevailing in the market it is concluded that a market-wide type of equalization pool would be most effective in establishing and maintaining

orderly marketing and pricing conditions.

Only two of the pool plants in the marketing area are equipped to process any appreciable quantity of the reserve and surplus milk.

One of these plants manufactures all of the cottage cheese for several other handlers in the market. For this reason, and those already pointed out in the discussion of the necessity for an appropriate Class II price, the type of pool established should provide for an equitable sharing, particularly during the flush production season, of the lower returns that will inevitably accompany an adequate and necessary reserve of milk.

A market-wide pool will permit any handler to bid on such business as that offered by the many military installations and other public institutions located in and adjacent to the marketing area, and obtain the necessary milk to supply such sales without upsetting the market stability whenever the contracts for supplying such installations might shift from one handler to another.

There are two cooperative associations which are in a position to assume the responsibility for removing the reserve and surplus milk of their member-producers. A market-wide pool will facilitate the movement of milk by these associations between handlers to meet their individual needs or to move milk, which is not needed on the market, to manufacturing plants. A market-wide pool will aid the market in retaining qualified producers during periods of seasonal surplus by permitting them to receive the market-wide uniform price regardless of the utilization of their milk. This is necessary if their milk is to be available to fill the Class I requirements of the market at other seasons of the year. These factors and the variation in the amount of reserve supplies among the several plants all support the adoption of a market-wide pool.

Base and excess plan. A base and excess plan of distributing returns for milk among producers should be employed in connection with the "market-wide" pool established herein. Receipts of milk from producers vary between spring and fall months in a much greater degree than do Class I sales. In addition, some handlers have difficulty in using, during the periods of seasonally high production, all of the milk delivered to them by producers. Consequently, there is a need for an incentive to maintain production in the late summer and fall months, relative to that of the winter and spring months.

Handlers and producers on the market are now relying on various forms of base-excess plans to provide the incentive needed to induce local dairymen to strive for a more nearly level milk production throughout the year. The presently operated plans have served a function in the market, even though their operation has been deficient from the standpoint of equality between handlers and fairness to producers. These conditions can arise because the distributors themselves establish the rules of the base-excess plan and control the adjustment and transfers of bases. Producers have no say whatever in the operations of the several base plans now in use.

Base and excess plans have proved an effective means of improving the seasonal pattern of milk deliveries, because they relate producers' returns directly to the deliveries of milk in the late summer and fall months when production conditions are more difficult and milk is less plentiful. Such a plan will help to achieve a production which is more nearly fitted to the sales pattern of fluid milk products in this area. Were some version of this plan not included in the attached order, the most likely results would be increased seasonality in production with the attendant problems of surplus disposal in the months of flush production and the need for additional imports of supplemental milk in the short production months. The base and excess plan uniformly applied to all producers, by being incorporated in the attached order, will play an essential part in stabilizing market conditions by encouraging the trend to a more nearly even production seasonally.

The base and excess plan proposed herein would establish for each producer a base equal to his average daily deliveries during the four months of September through December. If a producer did not deliver milk to the market during the entire period, the days of actual delivery from the first day of delivery, but not less than 90, would be used.

During the months of March through June, separate uniform prices will be computed for base milk and excess milk for the purpose of allocating Class I sales to base milk. Base milk would be that quantity of milk delivered by each producer up to his average daily base multiplied by the number of days in the month during which he delivers milk to any pool plant. The excess price would be the Class II price, except in those months when total Class I sales exceed the total quantity of base milk. During such months, the excess price would be a blend of the actual Class I and Class II utilization of excess milk.

Provision is made for producers who may enter the market after the start of the base-forming period to establish a full base by delivering a minimum of 90 days during the specified period. Producers delivering milk for less than 90 days will have their bases calculated by dividing their total deliveries during the base-forming period by 90.

Provision also is made for a person who becomes a producer after the base-forming period, and who has established a base under another Federal order, to be assigned a base equal to that which he would have received if he had been a producer during the base-forming period. This provision should facilitate the movement of milk of producers between the Red River Valley marketing area and adjacent Federal order marketing areas, where their milksheds overlap.

Although fewer than 90 days of the base-making period will remain after the effective date of the order, it provides for the establishment of bases during the current year. Section 986.65 (b) provides that persons who become producers after October 3d of any year as a result of the plants to which they deliver their milk having become pool plants shall have their bases computed in the same manner as if such plants had been pool plants during the entire base-forming period.

A producer should be permitted to transfer his base only to another member of his family and then only in the case of retirement of the producer or his entrance into the military service. In the event of death of a producer, the base should be transferable to a surviving member of the family who carries on the producing functions. In the case of a partnership composed of members of the same family, the base may be transferred in whole or in part to either member of the partnership upon its dissolution. For a base to be so divided, both parties must file application with the market administrator requesting division of the base, and the application must set forth the portion of the base which is to be transferred to each of the parties.

(b) *Payments to individual producers and to members of cooperative associations.* Handlers should make payment to each producer for milk delivered by such producer at the appropriate uniform prices. Payments due any producer for milk should be paid by the handler to a cooperative association that makes a written request for such payment, if the producer has given the cooperative association written authorization in the form of a contract or in any other form to collect such payments. The association's request should also agree to indemnify the handler for any loss incurred because of improper claim. In making such payments for producers' milk to a cooperative association, the handler should, at the same time, furnish the cooperative association with a statement showing the name of each producer for whom payment is being made to the cooperative association, the volume and butterfat content of the milk delivered by each such producer, and the amount of, and the reason for, any deduction which the handler withheld in the amount payable to each producer. This statement is necessary for the cooperative association in making proper distribution of the money it collects to the producer members for whom collection is made.

Qualified cooperative associations of dairymen should be permitted to receive a payment from handlers for their producer members as a group. In order to enable the association to carry out its essential functions as authorized in the Agricultural Marketing Agreement Act, a cooperative association, if it is to carry out these functions, must have full authority in the collective bargaining and sale of members' milk.

The proponent cooperative associations, in other markets, have assumed the responsibility for moving producers' milk during months of flush production. They are expected to assume the same responsibility with respect to the Red River Valley marketing area. Sales of surplus milk outside the marketing area may result in financial losses or gains to the cooperative associations. They must be in a position to spread such losses or gains over the entire membership, if they are to handle such milk effectively and efficiently. The Agricultural Marketing Agreement Act authorizes a qualified cooperative association to collect payment on behalf of all its members for milk caused to be moved by it to all types of outlets, and to reblend the proceeds from all sales over its entire membership. The order should provide that payment to such a cooperative association is proper satisfaction of the payments required by the order to be made to individual producer-members.

Producer settlement fund. Since the amount which the order requires a particular handler to pay for his milk may be more or less than the amount he is required to pay to producers or cooperatives associations, it is necessary to provide for some method of balancing these amounts. The producer-settlement fund is established for this purpose. All handlers who are required to pay more for their milk on the basis of their utilization, than they are required to pay to producers or cooperative associations, must pay the difference into the producer-settlement fund, and those handlers who are required to pay to producers or cooperative associations more than the utilization value of their milk must be reimbursed for the difference from the producer-settlement fund. The amounts paid into and out of the producer-settlement fund, except for minor differences that may result from the rounding-off of uniform prices will be equal. In order to permit this rounding-off of prices and to allow for unavoidable delays in receiving payments from handlers, and to permit payments to be made to any handler, which audit reveals is due to such handler a reserve should be held in the producer-settlement fund at all times. The amount of the reserve contemplated in the proposed order should be sufficient for these purposes. This reserve should be adjusted each month by the market administrator adding in the computation of the uniform price, not less than one-half of the balance in the producer-settlement fund at that time.

If at any time the balance in the producer-settlement fund is insufficient to cover payments due handlers from such fund, the payments to such handlers should be reduced at a uniform rate per hundredweight of milk. The handlers may then reduce payments to producers and cooperative associations by an equivalent amount per hundredweight. The amount remaining due such handlers from the producer-settlement fund, should be paid as soon as the balance in the fund is sufficient and handlers should then complete payments to producers and cooperative associations. In order to reduce the possibility of this occurring, milk received by any handler who has not made the payments required of him in the preceding month should not be considered in the computation of the uniform price.

(c) *Other administrative provisions.* Certain other provisions are needed in the order to carry out the administrative steps necessary to accomplish the purpose of the proposed regulation.

Terms and definitions. In addition to the definitions discussed earlier in this decision which define the scope of the regulation, certain other terms and definitions are desirable in the interest of brevity and to assure that each usage of the term implies the same meaning. Definitions for "base" and "excess" milk are included. The other terms defined in the proposed order are common to most other Federal milk marketing orders.

Market administrator. Provision should be made for the appointment by the Secretary of a market administrator to administer the terms and provisions of the order, and the powers and duties essential to the proper functioning of his office should be specified.

Records and reports Provisions should be included in the order to advise handlers that they are required to maintain adequate records of their operations and to make the reports necessary to establish the proper classification and pricing of producers' milk and the payments due producers for such milk. Time limits must be prescribed for filing such reports and for making payments to producers. Dates must be established for the announcement of prices by the market administrator.

It should be provided that the market administrator report to a cooperative association, which so requests the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For purposes of this report the utilization of members' milk in each handler's plant will be prorated to each class in the same proportion that total receipts of producer milk were used by such handler.

In addition to the regular reports of handlers, provision is made for the handler, prior to the diversion of milk, to notify the market administrator and the cooperative association, if the producer is a member, of his intention to divert such milk, setting forth the dates of the proposed diversion and the plant to which it is to be diverted. This report is necessary if the weight of the milk delivered to a nonpool plant is to be verified and a sample taken for determining its butterfat content.

Handlers should maintain and make available to the market administrator all records and accounts of their operation and such facilities as are necessary to determine the accuracy of the information reported to the market administrator and any other information upon which the classification of producer milk depends. The market administrator must likewise be permitted to check the accuracy of the weights and tests of milk and milk products received and handled, and to verify all payments required to be made under the order.

It is necessary that handlers retain records to prove the utilization of the milk received from producers and that proper payment was made therefor. Since the books of all handlers associated with the market cannot be audited immediately after the milk has been delivered to a plant, it is necessary that such records be retained for a reasonable period of time.

The order should provide for specific limitations on the time that handlers are required to retain books and records and on the period of time within which obligations under the order should terminate. The provision made in this regard is identical in principle with the general amendment made to all milk orders in operation, July 30, 1947, following the Secretary's decision of January 26, 1949 (14 F. R. 444). That decision covering the retention of records and limitations of claims is equally applicable in this situation and is adopted as part of this decision. Without a provision for termination of obligation after a reasonable period of time has elapsed, handlers may file claims which, because the period involved might extend back over many years, could be in substantial amounts. This creates uncertainties which could endanger the stability of the market and lead to serious inequities. The order should provide that any obligation to pay a handler shall terminate two years after the month in which the milk was received if an overpayment is claimed, or within two years after payment was made if a refund is claimed, unless within the time specified the handler filed a petition, pursuant to section 8c (15) (A) of the act claiming such money. Handlers also need the protection of provisions terminating their obligations to make payments.

Since handlers cannot be forewarned always as to their contingent liabilities, it is extremely difficult and burdensome to make adequate provision by setting up reserves, or by taking other precautionary measures. The obligation of any handler to pay money should, except under certain extraordinary circumstances such as litigation, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. It is concluded that a period of two years is a reasonable time within which the market administrator should complete his auditing and inspection work and render his billing for money due under the order. Provisions are necessary as contained in the order included herewith to meet such contingencies, as failure of the handler to submit required books and records and to deal with situations where fraud or willful concealment of information may be involved.

It was proposed that if a handler fails to make the required reports or payments, his name should be publicly announced at the discretion of the market administrator. Such announcement is provided for by the act and it is concluded that its adoption will facilitate the enforcement of the details of the order.

Expense of administration. Each handler who operates a pool plant should be required to pay to the market administrator as his pro rata share of the cost of administering the order, not

more than 5 cents per hundredweight or such lesser amount as the Secretary may from time to time see fit with respect to:

(a) Producer milk (including a handler's own production); and

(b) Other source milk which is allocated to Class I milk.

Each handler who operates a nonpool plant, not subject to the classification and pricing provisions of another Federal order, should be required, as his pro rata share of the cost of administering the order, to make such payment with respect to the volume of milk which is disposed of within the marketing area as Class I milk from such plant.

The market administrator must have sufficient funds to enable him to administer properly the terms of the order. The act provides that the cost of administration shall be financed through an assessment on handlers.

One of the duties of the market administrator is to verify the receipts and disposition of milk from all sources. Other source milk is received by handlers to supplement local producer supplies of milk. Equity in sharing the cost of administration of the order among handlers will be achieved, therefore, by applying the administrative assessment to all producer milk (including a handler's own production) and all other source milk allocated to Class I. Since the market administrator must also verify reports submitted by handlers who operate nonpool plants, it is necessary that a charge for administrative assessment be levied against the milk disposed of by such handlers in the marketing area.

In view of the anticipated volume of milk, and the cost of administering orders in markets of comparable size and circumstances, it is concluded that an initial rate of 5 cents per hundredweight is necessary to meet the expenses of administration. Provision should be made to enable the Secretary to reduce the rate of assessment below the 5 cents per hundredweight maximum without necessitating an amendment to the order. This should be done at any time that experience in the market reveals that a lesser rate will provide sufficient revenue to administer the order properly.

Marketing services. A provision should be included in the order for furnishing marketing services to producers, such as the verification of the tests and weights of producer milk and the furnishing of market information to producers. These services should be provided by the market administrator and the cost should be borne by the producer receiving the service. If a cooperative association is performing such services for member-producers, the market administrator may accept this in lieu of his own service. There is need for a marketing service program in connection with the administration of an order in this area. Orderly marketing will be promoted by assuring individual producers that the payments received for their milk will be in accordance with the classified pricing and pooling provisions of the order and reflect accurately the weights and tests of such milk. To accomplish this fully it is necessary that the butterfat tests and weights of individual producer's deliveries of milk, as reported by the handler, be verified for accuracy. In the case of producers who are members of a cooperative association, which the Secretary has determined is under the complete control of such producers and is actually marketing the milk of its member-producers such services may be rendered by the cooperative association rather than by the market administrator. The two cooperative associations in the area have been performing check-weighing and check-testing services for their members who are producers under other milk marketing orders. At the time of the hearing they had not been successful in securing permission from handlers to perform such services for their member-producers in the Red River Valley marketing area. It is assumed, however, that such services will be performed for their members if an order is issued and made effective. In order that such services be performed on a market-wide basis, the market administrator should provide them for producers not otherwise receiving such services through a cooperative association.

An important phase of the marketing service program order is to furnish producers with correct market information. Efficiency in the production, utilization and marketing of milk will be promoted by the dissemination of current information on a market-wide basis to all producers.

To enable the market administrator to furnish these services, provisions should be made for a maximum deduction of 5 cents per hundredweight with respect to receipts of milk from producers for whom he renders marketing services. If later experience indicates that marketing services can be performed at a lesser rate provision is made for the Secretary to adjust the rate downward without the necessity of a hearing. In the event a qualified cooperative association has been determined to be performing such services for its members, handlers would be required to pay to the cooperative association such dues as are authorized by its members.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

General findings. (a) The proposed marketing agreement and order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed marketing agreement and order will regulate the handling of milk in the same manner as, and will be applicable to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "marketing agreement regulating the handling of milk in the Red River Valley marketing area", and "order regulating the handling of milk in the Red River Valley marketing area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

Referendum order; determination of representative period; and designation of referendum agent. It is hereby directed that a referendum be conducted among producers to determine whether the issuance of the attached order regulating the handling of milk in the Red River Valley marketing area, is approved or favored by the producers, as defined under the terms of the proposed order, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of March 1958 is hereby determined to be the representative period for the conduct of such referendum.

A. T. Radigan and H. E. Crone are hereby designated, jointly and severally, agents of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177) such referendum to be completed on or before the 20th day from the date this decision is issued.

Issued at Washington, D. C., this 12th day of September 1958.

[SEAL] E. L. PETERSON,
Assistant Secretary.

Order[1] Regulating the Handling of Milk in the Red River Valley Marketing Area

Sec.
986.0 Findings and determinations.

DEFINITIONS

986.1 Act.
986.2 Secretary.
986.3 Department of Agriculture.
986.4 Red River Valley marketing area.
986.5 Person.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, governing proceedings to formulate marketing agreements and marketing orders have been met.

986.6 Producer.
986.7 Distributing plant.
986.8 Supply plant.
986.9 Pool plant.
986.10 Nonpool plant.
986.11 Handler.
986.12 Cooperative association.
986.13 Producer-handler.
986.14 Producer milk.
986.15 Fluid milk product.
986.16 Other source milk.
986.17 Base milk.
986.18 Excess milk.

MARKET ADMINISTRATOR

986.25 Designation.
986.26 Powers.
986.27 Duties.

REPORTS, RECORDS, AND FACILITIES

986.30 Reports of receipts and utilization.
986.31 Reports of payments to producers.
986.32 Other reports.
986.33 Records and facilities.
986.34 Retention of records.

CLASSIFICATION

986.40 Skim milk and butterfat to be classified.
986.41 Classes of utilization.
986.42 Shrinkage.
986.43 Responsibility of handlers and reclassification of milk.
986.44 Transfers.
986.45 Computation of skim milk and butterfat in each class.
986.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

986.50 Class prices.
986.51 Butterfat differentials to handlers.
986.52 Location adjustment credit to handlers.
986.53 Rate of compensatory payments.
986.54 Use of equivalent prices.

APPLICATION OF PROVISIONS

986.60 Producer-handlers.
986.61 Handlers subject to other orders.
986.62 Handlers operating nonpool plants.
986.63 Diverted milk.

DETERMINATION OF BASE

986.65 Computation of daily average base for each producer.
986.66 Base rules.
986.67 Announcement of established bases.

DETERMINATION OF UNIFORM PRICES

986.70 Computation of value of producer milk for each handler.
986.71 Computation of the uniform price.
986.72 Computation of uniform prices for base and excess milk.
986.73 Butterfat differential to producers.
986.74 Location adjustment to producers.

PAYMENTS

986.80 Time and method of payment for producer milk.
986.81 Producer-settlement fund.
986.82 Payments to the producer-settlement fund.
986.83 Payments out of the producer-settlement fund.
986.84 Adjustment of accounts.
986.85 Marketing services.
986.86 Expense of administration.
986.87 Termination of obligations.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

986.90 Effective time.
986.91 Suspension or termination.
986.92 Continuing obligations.
986.93 Liquidation.

MISCELLANEOUS PROVISIONS

986.100 Agents.
986.101 Separability of provisions.

AUTHORITY: §§ 986.0 to 986.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 986.0 *Findings and determinations.* (a) Findings upon the basis of the hearing record. Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Red River Valley marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 5 cents per hundredweight or such amount not to exceed 5 cents per hundredweight as the Secretary may prescribe, with respect to (a) producer milk, including a handler's own production, (b) other source milk classified as Class I milk; and Class I milk disposed of on routes in the marketing area from nonpool plants.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Red River Valley marketing area shall be in conformity to, and in compliance with, the following terms and conditions:

§ 986.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 986.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 986.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture, or such other Federal agency as may be authorized to perform the price reporting functions specified in this part.

§ 986.4 *Red River Valley marketing area.* "Red River Valley marketing area", hereinafter called "marketing area" means all territory within the following counties, including all municipal corporations; Federal reservations, facilities, and installations; and state institutions located therein: Caddo, Carter, Comanche, Grady, Jackson, Kiowa, Stephens, and Tillman in Oklahoma, and Hardeman, Wichita, and Wilbarger in Texas.

§ 986.5 *Person.* "Person" means any individual, partnership, corporation, association or other business unit.

§ 986.6 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk in compliance with the requirements specified in paragraph (a) or in paragraph (b) of this section, which milk is received directly from the farm at a pool plant or is caused to be diverted by a handler within the limits prescribed in § 986.63:

(a) Produces milk on a dairy farm subject to regular inspection by a duly constituted state or municipal health authority, under a dairy farm rating or permit issued by such authority for the production of milk to be disposed of for fluid consumption;

(b) Produces milk which is acceptable to an agency of the Federal Government for fluid consumption in its reservation, facility, or installation.

The term producer shall not include any person with respect to milk received by a handler who is partially exempt from the provisions of this part pursuant to § 986.61; nor shall it include a person whose milk is diverted to a pool plant by a cooperative association if such person retains his status as a producer as defined in another order issued pursuant to the act and his milk is classified and priced under such other order.

§ 986.7 *Distributing plant.* "Distributing plant" means all the buildings, premises, and facilities of a plant: (a) which is subject to regular inspection by a duly constituted state or municipal health authority, or by an agency of the Federal Government located in the marketing area, (b) in which milk or skim milk is processed or packaged and (c) from which Class I milk is disposed of during the month on routes (including routes operated by venders or through plant stores) to wholesale or retail outlets located in the marketing area (except deliveries in bulk to other pool plants) in an amount greater than an average of 600 pounds per day.

§ 986.8 *Supply plant.* "Supply plant" means all the buildings, premises, and facilities of a plant from which fluid milk products equal to not less than 50 percent of its receipts of milk from dairy farmers, who would be producers if this plant qualified as a pool plant, are shipped to a distributing plant during such month: *Provided,* That any plant

which qualifies as a supply plant for each of the months of September through December shall, upon written application to the market administrator before January 31 of the following year, be designated as a supply plant for the months of January through August.

§ 986.9 *Pool plant.* "Pool plant" means a distributing plant (other than that of a producer-handler or one which is exempt pursuant to § 986.61) or a supply plant.

§ 986.10 *Nonpool plant.* "Nonpool plant" means any milk processing or manufacturing plant other than a pool plant.

§ 986.11 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) Any person in his capacity as the operator of a nonpool plant from which Class I milk is disposed of in the marketing area; or

(c) A cooperative association with respect to the milk of producers diverted for the account of such association from a pool plant to a nonpool plant within the limits prescribed in § 986.63.

§ 986.12 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines:

(a) Is qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) Has and is exercising full authority in the sale of milk of its members.

§ 986.13 *Producer-handler.* "Producer-handler" means any person who produces milk and who operates a plant from which there is distributed as Class I milk on routes in the marketing area only milk of such person's own production or milk which has been received from a pool plant.

§ 986.14 *Producer milk.* "Producer milk" means all skim milk or butterfat contained in milk of a producer which is received at a pool plant or which is diverted within the limits prescribed in § 968.63.

§ 986.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream or any mixture in fluid form of cream and milk or skim milk (except cultured sour cream, frozen storage cream, aerated cream products, ice cream and frozen dessert mix, evaporated or condensed milk, and sterilized products in hermetically sealed containers).

§ 986.16 *Other source milk.* "Other source milk" means all skim milk and butterfat, other than that contained in producer milk or in receipts of fluid milk products from other pool plants, including products designated as Class II milk pursuant to § 986.41 (b) from any source (including those from a plant's own production), which are reprocessed or converted to another product in the plant during the month and any disappearance of nonfluid milk products not otherwise accounted for.

§ 986.17 *Base milk.* "Base milk" means milk received at a pool plant(s) from a producer during any of the months of March through June which is not in excess of such producer's daily average base computed pursuant to § 986.65 multiplied by the number of days in such month.

§ 986.18 *Excess milk.* "Excess milk" means milk received at a pool plant(s) from a producer during any of the months of March through June which is in excess of the base milk of such producer for such months, and shall include all milk received during such months from a producer for whom no daily average base can be computed pursuant to § 986.65.

MARKET ADMINISTRATOR

§ 986.25 *Designation.* The agency for the administration of this part shall be a market administrator, who shall be a person selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 986.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 986.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties, and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds received pursuant to § 986.86: (1) The cost of his bond and the bonds of his employees, (2) his own compensation, and (3) all other expenses (except those incurred under § 986.85) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this section and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose, at his discretion, unless otherwise directed by the Secretary, the name of any handler who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 986.30 and 986.31 or payments pursuant to §§ 986.80 to 986.86;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk and the percentage relationship of such receipts to the total pounds of Class I milk available to assign to such receipts exclusive of the Class I milk disposed of by such handler to the pool plant(s) of other handlers and to nonpool plants. For the purpose of these reports the milk so received from members of such association shall be prorated to each class in accordance with the same percentage as the total receipts of producer milk bear to such utilization of milk by such handler;

(i) Verify all reports and payments of each handler by audit of the records of such handler or any other handler or person to whom skim milk and butterfat are transferred, or by such other means as are necessary;

(j) Prepare and make available for the benefit of producers, consumers and handlers, general statistics and information concerning the operation of this part which do not reveal confidential information; and

(k) On or before the date specified publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(1) On or before the 12th day of each month, the Class I price and the Class I butterfat differential, both for the current month;

(2) On or before the 5th day of each month, the Class II price, and the Class II butterfat differential, both for the preceding month; and

(3) On or before the 12th day of each month, the uniform price(s) computed pursuant to § 986.71 or § 986.72, whichever is applicable, and the butterfat differential computed pursuant to § 986.73, both for the preceding month.

REPORTS, RECORDS, AND FACILITIES

§ 986.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers and, for the months of March through June, the aggregate quantities of base milk and excess milk;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts of fluid milk products from other handlers;

(c) The quantities of skim milk and butterfat contained in (or used in the production of) other source milk (except Class II products disposed of in the same form in which received without further processing or packaging by the handler) and any disappearance of other source milk held in inventory;

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(e) The disposition of Class I products on routes wholly outside the marketing area;

(f) The quantities of fluid milk products on hand at the beginning and end of the month; and

(g) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 986.31 *Reports of payments to producers.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month showing:

(a) The total pounds of milk received from each producer and cooperative association, the total pounds of butterfat contained in such milk and the number of days' production represented by the milk received from such producer(s), including for the months of March through June each producer's deliveries of base and excess milk;

(b) The amount of payment to each producer or cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 986.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted to another pool plant or to a nonpool plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member, his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which it is to be diverted.

§ 986.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month.

§ 986.34 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the Act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 986.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received by a handler during the month, which is required to be reported pursuant to § 986.30, shall be classified by the market administrator pursuant to the provisions of §§ 986.41 to 986.46, inclusive.

§ 986.41 *Classes of utilization.* Subject to the conditions set forth in §§ 986.43 and 986.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk and concentrated nonfat milk solids) and butterfat (1) disposed of from the plant in the form of fluid milk products, except those classified pursuant to paragraph (b) (4) of this section, and (2) not specifically accounted for as Class II milk;

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than a fluid milk product;

(2) Disposed of to commercial food manufacturing establishments which do not dispose of fluid milk products for fluid consumption;

(3) Contained in inventories of fluid milk products on hand at the end of the month;

(4) Skim milk disposed of for livestock feed, or dumped after prior notification to and opportunity for verification by the market administrator;

(5) In shrinkage not to exceed 2 percent of the skim milk and butterfat contained in producer milk, except that diverted pursuant to § 986.63; and

(6) In shrinkage of other source milk.

§ 986.42 *Shrinkage.* The market administrator shall determine the assignment of shrinkage to Class II milk as follows:

(a) Determine the total shrinkage of skim milk and butterfat in each pool plant; and

(b) Assign the shrinkage of skim milk and butterfat pro rata between producer milk and other source milk received in the form of a fluid milk product.

§ 986.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk and butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified as Class II milk, if later disposed of by such handler or another handler (whether in original or other form) as any fluid milk product, shall be reclassified as Class I milk. Any skim milk or butterfat classified as Class II milk in the previous month pursuant to § 986.41 (b) (3) shall be reclassified as Class I milk if it is substracted from Class I during the current month pursuant to § 986.46 (a) (5) or the corresponding step of § 986.46 (b).

§ 986.44 *Transfers.* Skim milk and butterfat if disposed of by a handler by transfer or diversion from a pool plant shall be classified as follows:

(a) If transferred or diverted to a pool plant of another handler (except a producer-handler) in the form of fluid milk products it shall be classified so as to result in the maximum assignment of the producer milk of both handlers to Class I milk. Any additional amounts of skim milk and butterfat shall be classified as Class I milk unless the operators of both plants claim utilization thereof in Class II milk in their reports submitted pursuant to § 986.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk for any month shall be limited to the respective amounts thereof remaining in Class II milk for such month at the pool plant(s) of the receiving handler after subtraction of other source milk pursuant to § 986.46;

(b) As Class I milk, if transferred to the plant of a producer-handler in the form of fluid milk products;

(c) As Class I milk, if diverted or transferred in bulk in the form of milk or skim milk to a nonpool plant located more than 350 miles from the City Hall in Wichita Falls, Texas, by the shortest hard-surfaced highway distance as determined by the market administrator;

(d) As Class I milk, if transferred in the form of cream to a nonpool plant, located more than 350 miles from the City Hall in Wichita Falls, Texas, by the shortest hard-surfaced highway distance as determined by the market administrator, unless the handler claims classification as Class II milk, establishes the fact that such cream was transferred without Grade A certification, each container was tagged or labeled to show that the contents were only for manufacturing use, the shipment was invoiced accordingly, and the market administrator was given sufficient notice to allow him to verify the shipment;

(e) (1) As Class I milk, if transferred or diverted in bulk form as milk, skim milk, or cream to a nonpool plant located not more than 350 miles by the shortest hard-surfaced highway distance from the City Hall in Wichita Falls, Texas, from which fluid milk is disposed of on wholesale or retail routes or to other milk plants, unless the handler claims classification of Class II milk pursuant

to § 986.30 and all of the following conditions are met:

(i) The operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant and the market administrator is permitted to audit such books and records for purposes of verification; and

(ii) Such nonpool plant received milk from dairy farmers who constitute a regular source of supply for Class I use as determined by the market administrator;

(2) If the above conditions are fulfilled, the market administrator shall classify such milk, subject to verification, in the following manner: (i) Determine the use of all skim milk and butterfat at such nonpool plant, and (ii) allocate the skim milk and butterfat so transferred to the highest use classification remaining after allowing first priority to that received at the nonpool plant directly from dairy farmers whom the market administrator determines constitute its regular source of Grade A milk for Class I use;

(f) As Class II milk, if transferred or diverted in bulk form as milk, skim milk, or cream to a nonpool plant which is not a pool plant as defined in any other order issued pursuant to the Act and which is located not over 350 miles from the City Hall, Wichita Falls, Texas, and from which no fluid milk is disposed of on wholesale or retail routes, except:

(1) If milk, skim milk, or cream is transferred from such nonpool plant to a pool plant, an amount equal to the skim milk and butterfat transferred to such nonpool plant from the pool plants of other handlers shall be deemed to have been transferred directly to the second pool plant and shall be classified in accordance with paragraph (a) of this section; and

(2) If milk, skim milk, or cream is transferred from such nonpool plant to a second nonpool plant from which fluid milk is distributed on wholesale or retail routes, the skim milk or butterfat transferred from the pool plant to the first nonpool plant shall be Class I milk in an amount equal to that transferred to such second nonpool plant, unless it is established that such milk or skim milk was transferred to the second nonpool plant without Grade A certification with each container labeled to show that the contents were for manufacturing use only, and that the shipment was invoiced accordingly.

(g) As Class II milk if transferred or diverted in bulk form as milk, skim milk or cream to a nonpool plant which is a pool plant as defined in another order issued pursuant to the Act and which is located not over 350 miles from the City Hall in Wichita Falls, Texas, and from which no fluid milk is distributed on wholesale or retail routes, except that if such transferee plant disposes of to other nonpool plants, which do distribute fluid milk products on wholesale or retail routes, more milk than the milk received at such transferee plant which is classified and priced under such other order, an amount equal to the difference shall be classified as Class I milk, except that if such transferee plant has received milk, skim milk or cream from other plants regulated under this or other Federal orders, the amount of such transferred milk allocated to Class I shall be determined by prorating the amount of milk available for Class I allocation in accordance with the receipts from all such plants at the transferee plant.

§ 986.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical or other obvious errors the monthly report submitted by each handler pursuant to § 986.30, and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk. Skim milk contained in any product utilized, produced or disposed of by the handler during the month shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 986.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 986.45, the market administrator shall determine the classification of milk received from producers for each handler in the following manner:

(a) Skim milk shall be allocated as follows:

(1) Subtract from the total pounds of skim milk in Class II milk, the pounds of shrinkage of skim milk in producer milk determined pursuant to § 986.41 (b) (5);

(2) Subtract from the remaining pounds of skim milk, in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of nonfluid milk products other than condensed skim milk or nonfat dry milk;

(3) Subtract from the remaining pounds of skim milk in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of condensed skim milk or nonfat dry milk;

(4) Subtract from the remaining pounds of skim milk, in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products which were not subject to the Class I pricing and payment provisions of another order issued pursuant to the act;

(5) Subtract from the remaining pounds of skim milk, in series beginning with Class II milk, the pounds of skim milk in other source milk received in fluid milk products which were subject to the Class I pricing and payment provisions of another order issued pursuant to the act;

(6) Subtract from the remaining pounds of skim milk, in series beginning with Class II milk, the pounds of skim milk in inventory at the beginning of the month in the form of fluid milk products;

(7) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers in the form of fluid milk products pursuant to § 986.44;

(8) Add to the pounds of skim milk remaining in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(9) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk received from producers, subtract such excess from the pounds of skim milk remaining in the classes in series beginning with Class II milk. Any amount so subtracted shall be called "overage";

(b) Butterfat shall be allocated in the same manner prescribed in paragraph (a) of this section for determining the allocation of skim milk to producer milk; and

(c) Add the pounds of skim milk and the pounds of butterfat in each class computed pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in producer milk allocated to each class.

MINIMUM PRICES

§ 986.50 *Class prices.* Subject to the provisions of §§ 986.51 and 986.52 the minimum price per hundredweight to be paid by each handler for milk received at his plant from producers during the month shall be as follows:

(a) *Class I milk.* The Class I price shall be the price for Class I milk established under Federal Order No. 6 regulating the handling of milk in the Oklahoma Metropolitan marketing area at Oklahoma City, plus 15 cents.

(b) *Class II milk.* (1) For the months of February through July the Class II price per hundredweight shall be the average of the basic or field prices reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture.

Present Operator and Location

American Foods Company, Miami, Okla.
Gilt Edge Dairy, Norman, Okla.
Muskogee Dairy Products Company, Muskogee, Okla.
Page Milk Company, Coffeyville, Kans.
Pet Milk Company, Siloam Springs, Ark.
Real Test Foods Company, Tulsa, Okla.

(2) For the months of August through January, the Class II price per hundredweight shall be computed by adding the plus values pursuant to subdivisions (i) and (ii) of this subparagraph as follows:

(i) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the mid-point of any price range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department of Agriculture during the month, subtract 3 cents, add 20 percent thereof and multiply by 4.0; and

(ii) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area as published by the Department of Agriculture for the period from the 26th day of the

preceding month through the 25th day of the current month, deduct 5.5 cents, multiply by 8.5 and then multiply by 0.86.

§ 986.51 *Butterfat differentials to handlers.* If the average butterfat content of the producer milk of any handler allocated to any class pursuant to § 986.46 is more or less than 4.0 percent there shall be added to the respective class price, computed pursuant to § 986.50 for each one-tenth of one percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of one percent that such average butterfat content is below 4.0 percent, an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department of Agriculture during the month specified below by the applicable factor listed and dividing the result by 10:

(a) *Class I milk.* Multiply such price for the preceding month by 1.25; and

(b) *Class II milk.* Multiply such price for the current month by 1.15.

§ 986.52 *Location adjustment credit to handlers.* For that milk which (a) is received from producers at a pool plant located outside the State of Texas and which is classified as Class I, the prices specified in § 986.50 shall be reduced 5 cents per hundredweight, plus an additional 1.5 cents per hundredweight for each 10 miles or fraction thereof that such plant is more than 100 miles distant from the City Hall in Wichita Falls, Texas, by the shortest hard-surfaced highway distance as determined by the market administrator: *Provided*, That in calculating such adjustment, transfers to a pool plant at which a location adjustment credit is not applicable or at which it is less than at the transferor plant, shall be assigned to Class I milk only to the extent that Class I disposition at the transferee plant exceeds 95 percent of the receipts from producers at such plant. Such assignment to transferor plants should be made first to plants at which no location adjustment credit is applicable and then in sequence to plants at which the lowest rate of such adjustment credit would apply.

§ 986.53 *Rate of compensatory payments.* The rate of compensatory payment per hundredweight applicable to other source milk assigned to Class I use at pool plants, or disposed of as Class I milk on routes in the marketing area from nonpool plants, shall be calculated as follows:

(a) For the months of February through July, subtract the Class II milk price, adjusted by the Class II butterfat differential from the Class I price, adjusted by the Class I butterfat differential, and, except in the case of condensed skim milk and nonfat dry milk, by the location adjustment pursuant to § 986.52 which would apply if the nonpool plant were a pool plant; and

(b) For the months of August through January, subtract the uniform price, adjusted by the Class I butterfat differential, from the Class I price, adjusted by the Class I butterfat differential, and, except in the case of condensed skim milk and nonfat dry milk, by the location adjustment pursuant to § 986.52 which would apply if the nonpool plant were a pool plant.

§ 986.54 *Use of equivalent prices.* If for any reason a price quotation required by this part for computing class prices or for any other purpose is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 986.60 *Producer-handlers.* Sections 986.40 to 986.46, 986.50 to 986.54, 986.65 to 986.67, 986.70 to 986.74, and 986.80 to 986.86, shall not apply to a producer-handler.

§ 986.61 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing order issued pursuant to the Act and whose milk is classified and priced under such other order, the provisions of this part shall not apply except that such handler shall, with respect to his total receipts and utilization or disposition of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

§ 986.62 *Handlers operating nonpool plants.* Each handler who is the operator of a nonpool plant which is not subject to the classification and pricing provisions of another order issued pursuant to the act, shall report as required pursuant to §§ 986.30 and 986.31, reporting receipts from and payments to dairy farmers in lieu of such information with respect to producers, and shall allow verification of such reports, and, on or before the 12th day of each month, he shall pay to the market administrator an amount computed by multiplying the total volume of Class I milk disposed of on routes in the marketing area from such nonpool plant during the preceding month by the rate of compensatory payment computed pursuant to § 986.53.

§ 986.63 *Diverted milk.* (a) Milk of a producer diverted by a handler, other than a cooperative association, from a pool plant to the pool plant of another handler for any day during the months of February through July and for not more than 10 days' production of a producer during any month for the period of August through January, shall be deemed to have been received by the diverting handler at the pool plant from which such milk was diverted, except that for the purpose of determining shrinkage pursuant to § 986.41 (b) (5), such milk shall be considered as producer milk at the pool plant to which it was diverted. Milk so diverted for more than 10 days during any of the months of August through January, shall be considered as received at the plant to which it was diverted for the entire period of diversion.

(b) Milk diverted by a cooperative association, which does not operate a pool plant, for the account of such association from the pool plant of another handler to a nonpool plant, shall be deemed to have been received by such association at a pool plant at the same location as that from which the milk was diverted.

(c) Milk diverted from a pool plant by the handler operating such pool plant to a nonpool plant shall be considered to have been received at the plant from which diverted.

(d) Milk diverted by a handler, including a cooperative association, to a nonpool plant for more than 10 days' production of a producer during any month during the months of September through December, shall not be considered producer milk for the entire period of such diversion during the month.

DETERMINATION OF BASE

§ 986.65 *Computation of daily average base for each producer.* Subject to the rules set forth in § 986.66, the daily average base of each producer for the months of March through June of each year shall be computed by the market administrator by dividing the total pounds of milk received by a handler(s) at a pool plant(s) from such producer during the months of September through December immediately preceding by the number of days' production delivered by such producer during the period, or by 90, whichever is more: *Provided*, (a) That any person who becomes a producer after the base-forming period and who has established a base under another order issued pursuant to the act shall be assigned a base equal to that which he would have received if he had been a producer during the base-forming period if his milk is received at a pool plant during an entire month, and (b) That for any person who becomes a producer after the 3d day of October of any year by virtue of the plant to which such person delivers his milk having become a pool plant, the market administrator shall compute a base equal to that which such producer would have established had the plant to which he ships his milk been a pool plant during the entire base-forming period.

§ 986.66 *Base rules.* (a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base-forming period;

(b) Base may be transferred during the months of March through June only in the following manner:

(1) In the event of death, retirement or entry into military service of a producer, the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy enterprise, such transfer to be effective the first of the month following notification of the market administrator

in writing of the person to whom such base is to be transferred;

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to either of the joint holders, or it may be divided, but only if the joint holders are members of the same family, and only upon application to the market administrator prior to the month in which the division is to become effective: *Provided*, That such application sets forth the percentage of the jointly held base which is to be assigned to each of the joint holders or his heirs and is signed by each joint holder or his heirs.

(c) A producer who ceases to deliver milk to a pool plant for more than 45 consecutive days during the six months prior to March 1, shall forfeit his base for the following base-utilization period.

§ 986.67 *Announcement of established bases.* On or before February 25 of each year, the market administrator shall notify each producer and the handler receiving milk from such producer, of the daily average base established by the producer.

DETERMINATION OF UNIFORM PRICES

§ 986.70 *Computation of value of producer milk for each handler.* For each month, the market administrator shall compute the value of producer milk for each handler as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 986.46 by the applicable class price (adjusted pursuant to §§ 986.51 and 986.52) and add together the resulting amounts;

(b) Add an amount computed by multiplying the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 986.46 (a) (2) (3) and (4) and the corresponding step of § 986.46 (b) by the rate of compensatory payment as determined pursuant to § 986.53;

(c) Add an amount computed by multiplying the pounds of any overage deducted from either class pursuant to § 986.46 (a) (9) and the corresponding step of § 986.46 (b) by the applicable class price(s); and

(d) Add any charges computed as follows: For any skim milk or butterfat in inventory reclassified pursuant to § 986.43 (b), which is not in excess of the quantity in producer milk classified as Class II milk (other than as shrinkage) in the handler's plant(s) for the preceding month, a charge shall be computed at the difference between its value at the Class I price for the current month and its value at the Class II price for the preceding month;

§ 986.71 *Computation of the uniform price.* For each of the months of July through February, the market administrator shall compute the uniform price per hundredweight of producer milk of 4.0 percent butterfat content, at Wichita Falls, Texas, as follows:

(a) Combine into one total the values computed pursuant to § 986.70 for the producer milk of all handlers who submitted reports prescribed in § 986.30 and who have made the payments pursuant to §§ 986.80 and 986.82 for the preceding month;

(b) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 986.73, and multiply the resulting figure by the total hundredweight of such milk;

(c) Add an amount equal to the total value of all allowable location adjustments to producers pursuant to § 986.74;

(d) Add an amount equal to not less than one-half of the unobligated balance on hand in the producer-settlement fund;

(e) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents.

§ 986.72 *Computation of uniform prices for base and excess milk.* For each of the months of March through June, the market administrator shall compute the uniform prices per hundredweight for base and for excess milk, each of 4.0 percent butterfat content, at Wichita Falls, Texas, as follows:

(a) Compute the total value of excess milk for all handlers who submitted reports pursuant to § 986.30, and who have made the payments pursuant to §§ 986.80 and 986.82 as follows: (1) Multiply the hundredweight of such milk not in excess of the total quantity of producer milk assigned to Class II milk in the pool plants of such handlers by the Class II milk price, (2) multiply any additional hundredweight of excess milk not included in subparagraph (1) of this paragraph by the Class I milk price, and (3) add together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 per cent butterfat received from producers;

(c) Subtract the total value of excess milk obtained in paragraph (a) of this section from the total value of milk computed pursuant to § 986.71 (a) to (d) and adjust by any amount involved in the adjustment of the uniform price of excess milk to the nearest cent;

(d) Divide the amount obtained in paragraph (c) of this section by the total hundredweight of base milk included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat received from producers.

§ 986.73 *Butterfat differential to producers.* The applicable uniform price(s) to be paid each producer shall be increased or decreased for each one-tenth of one percent that the average butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to each class by the appropriate butterfat differential for such class as determined pursuant to § 986.51, dividing by the total pounds of butterfat in producer milk and rounding to the nearest even tenth of a cent.

§ 986.74 *Location adjustment to producers.* In making payments to producers pursuant to § 986.80, for the months of July through February, each handler may deduct, for each hundredweight of milk, and for the months of March through June for each hundredweight of base milk received from producers at a pool plant which is located outside the State of Texas, 5 cents per hundredweight plus an additional 1.5 cents for each 10 miles or fraction thereof that such plant is more than 100 miles from the City Hall in Wichita Falls, Texas, by the shortest hard-surfaced highway distance as determined by the market administrator.

PAYMENTS

§ 986.80 *Time and method of payment for producer milk.* (a) Except as provided in paragraph (b) of this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(1) On or before the last day of each month, to each producer who did not discontinue shipping milk to such handler during the month, an amount equal to not less than the Class II price for the preceding month multiplied by the hundredweight of milk received from such producer during the first 15 days of the month;

(2) On or before the 15th day of the following month, an amount equal to not less than the applicable uniform price(s) adjusted by the butterfat and location differentials to producers multiplied by the hundredweight of milk or base milk and excess milk received from such producer during the month, subject to the following adjustments: (i) Less payments made to such producer pursuant to subparagraph (1) of this paragraph, (ii) less marketing service deductions made pursuant to § 986.85, (iii) plus or minus adjustments for errors made in previous payments made to such producer, and (iv) less proper deductions authorized in writing by such producer: *Provided*, That if by such date such handler has not received full payment pursuant to § 986.83, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator.

(b) (1) Upon receipt of a written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler for the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association, each handler shall:

(i) Pay to the cooperative association on or before the 27th and 13th day of each month, in lieu of payments pursuant to paragraph (a) of this section, an amount equal to the gross sum due for all milk received from certified members, less amounts owed by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer;

(ii) Submit to the cooperative association on or before the 10th day of each month written information which shows for each member-producer (*a*) the total pounds of milk received during the preceding month, (*b*) the total pounds of butterfat contained in such milk, (*c*) the number of days of production included in such receipts, (*d*) for the months of March through June, the amount of base and excess milk received, and (*e*) the amounts withheld by the handler in payment for supplies sold; and

(iii) Submit to the cooperative association on or before the 25th day of each month written information which shows for each such member-producer the total pounds of milk received during the first 15 days of the current month.

The foregoing payment and submission of information shall be made with respect to the milk, of each producer who the cooperative association certifies is a member, which is received on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association; and

(2) A copy of each such request, promise to reimburse, and certified list of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion through audits of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

§ 986.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 986.62, 986.82, and 986.84, and out of which he shall make all payments to handlers pursuant to §§ 986.83 and 986.84: *Provided*, That any payments due to any handler may be offset by any payments due from such handler.

§ 986.82 *Payments to the producer-settlement fund.* On or before the 13th day after the end of each month, each handler shall pay to the market administrator any amount by which the value of producer milk as computed pursuant to § 986.70 for such month is greater than the amount required to be paid by him for such milk pursuant to § 986.80.

§ 986.83 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of each month, the market administrator shall pay to each handler any amount by which the total value of his producer milk, computed pursuant to § 986.70, for such month is less than the amount required to be paid producers by such handler pursuant to § 986.80: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly per hundredweight such payments and shall complete such payments as soon as the necessary funds are available.

§ 986.84 *Adjustments of accounts.* Whenever audit by the market administrator or other verification discloses errors resulting in moneys due (a) the market administrator from a handler, (b) a handler from the market administrator, or (c) any producer or cooperative association from a handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such errors occurred.

§ 986.85 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 986.80 shall deduct 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as may be prescribed by the Secretary and shall pay such deductions to the market administrator on or before the 15th day after the end of the month. Such money shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association.

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall (in lieu of the deduction specified in paragraph (a) of this section) make such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 13th day after the end of each month, pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of such deductions and the amount of milk for which such deduction was computed for each producer.

§ 986.86 *Expense of administration.* On or before the 15th day after the end of each month, each handler who operates a pool plant shall pay to the market administrator, as his pro rata share of the expense of the administration of this part, 5 cents or such lesser amount as the Secretary may prescribe for each hundredweight of butterfat and skim milk contained in (a) producer milk, including such handler's own production, and (b) other source milk classified as Class I milk; and each handler who operates a nonpool plant, not subject to the classification and pricing provisions of another Federal order, shall make such payment only with respect to Class I milk disposed of within the marketing area on routes.

§ 986.87 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator the account for which it is to be paid;

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligations are made available to the market administrator or his representative;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (in-

cluding deduction or setoff by the market administrator) was made by the handler, if a refund of such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the Act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 986.90 *Effective time.* The provisions of this part, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 986.91 *Suspension or termination.* The Secretary shall, whenever he finds that any or all provisions of this part, or any amendment thereto, obstruct or do not tend to effectuate the declared policy of the act, terminate or suspend the operation of any or all provisions of this part or any amendment thereto.

§ 986.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, or any amendment thereto, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 986.93 *Liquidation.* Upon the suspension or termination of any or all provisions of this part, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 986.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent and representative in connection with any of the provisions of this part.

§ 986.101 *Separability of provisions.* If any provisions of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

[7 CFR Parts 1011, 1016]

[Docket No. AO-299]

MILK IN MICHIGAN UPPER PENINSULA AND NORTHEASTERN WISCONSIN MARKETING AREAS

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENTS AND ORDERS

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR, Part 900), a public hearing was held at Escanaba, Michigan, on October 8–15, 1957, pursuant to notice thereof issued on September 13, 1957 (22 F. R. 7429), and at Green Bay, Wisconsin, pursuant to notice to reconvene which was issued October 30, 1957 (22 F. R. 8852), upon proposed marketing agreements and orders regulating the handling of milk in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on May 28, 1958 (23 F. R. 3818), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of opportunity to file written exceptions thereto.

On the basis of exceptions to the previous recommended decision certain changes were made in the regulation proposed, thus the Deputy Administrator, Agricultural Marketing Service, on August 20, 1958 (23 F. R. 6510), filed with the Hearing Clerk, United States Department of Agriculture, his revised recommended decision containing notice of opportunity to file written exceptions thereto.

The material issues of record relate to:

1. Whether the handling of milk produced for sale in each of the proposed marketing areas is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk or its products;

2. Whether marketing conditions show the need for the issuance of milk marketing agreements or orders which will tend to effectuate the policy of the act; and

3. If orders are issued what their provisions should be with respect to:

(a) The scope of regulation;

(b) The classification and allocation of milk;

(c) The determination and level of class prices;

(d) Distribution of proceeds to producers; and

(e) Administrative provisions.

1. *Character of commerce.* The handling of milk in each of the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas is in the current of interstate commerce or directly burdens, obstructs or affects interstate commerce in milk and milk products.

The Michigan Upper Peninsula marketing area defined in the order proposed for that area includes fourteen counties in Michigan and portions of three counties in Wisconsin. Within this area there is a continuous and substantial interstate commerce in the procurement of milk from producers and the sale of fluid milk and its products to consumers. Distributing plants in Iron Mountain, Ironwood and Bessemer, Michigan, distribute fluid milk products in Saxon, Hurley, Florence, Aurora, Niagara and Wausaukee, Wisconsin. Distributing plants in Rhinelander and Green Bay, Wisconsin, distribute fluid milk products throughout various portions of the area in Michigan. Distributing plants in the Sault St. Marie portion of the marketing area distribute fluid milk products to ore boats passing through the locks at Sault St. Marie proceeding to ports in Ohio, Indiana, Illinois and Minnesota.

Producers supplying milk to plants in the Michigan portion of the marketing area are on farms located in several counties in Wisconsin and all the Upper Peninsula counties of Michigan. Milk produced on farms in the states of Wisconsin and Michigan is inextricably commingled at processing plants in Ironwood, Iron Mountain, Crystal Falls and Bessemer, Michigan; and in Green Bay, Wisconsin. Supplemental supplies of milk come primarily from plants procuring supplies of milk from Wisconsin dairy farmers.

The marketing area proposed for this Northeastern Wisconsin area includes the city of Menominee, Michigan. Milk dealers in Menominee distribute milk in Marinette and other nearby Wisconsin areas. Wisconsin dealers likewise distribute milk in Menominee.

One of the major distributors serving the proposed Northeastern Wisconsin marketing area processes milk at a plant in Green Bay, Wisconsin, and distributes approximately 25 percent of his total fluid milk sales in the Michigan Upper Peninsula marketing area as proposed herein. Milk used in these products is procured from producers with farms located in Michigan and Wisconsin. Other distributors at Rhinelander and Sheboygan, Wisconsin, in the proposed Northeastern Wisconsin marketing area distribute fluid milk products in Michigan. The distributor at Rhinelander distributes milk in Ironwood, Watersmeet and Iron River, Michigan. The distributor at Sheboygan distributes fluid milk products in Menominee, Michigan. Fluid milk products are distributed throughout the Wisconsin area from plants of handlers regulated by the Milwaukee, Wisconsin, order.

Farm milk supplies for each of the proposed marketing areas are intermingled with farm supplies of numerous manufacturing plants. Such products as nonfat dry milk, cheese, butter, evaporated milk and other related products are processed by national dairy concerns for distribution in the current of interstate commerce. Within the Northeastern Wisconsin marketing and supply areas are more than four thousand farms supplying milk to the Chicago, Illinois, market.

2. *Need for regulation.* Milk marketing and pricing conditions in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas justify the issuance of milk marketing orders to establish and maintain orderly marketing conditions. Orders for each of these areas will tend to effectuate the declared policy of the Agricultural Marketing Agreement Act.

Northeastern Wisconsin is in general an area of intensive milk production. Of the 21 counties proposed for inclusion in the marketing area milk cow population in 13 counties exceeded 50 per square mile of land in farms, and was less than 25 in only three counties. In this area are located 17 supply plants for the Chicago market which receive milk from more than 4,000 producers qualified for Chicago. The total volume of Chicago pool milk has varied from 63 to 93 million pounds per month in a recent 12 month period. Extensive manufacturing of dairy products such as cheese, butter, nonfat dry milk and other products is conducted in the area.

Approximately 1,250 producers of Grade A milk supply the needs of plants engaging in the fluid milk trade of this area. None of this milk is purchased from producers on the basis of use made of it by the dealer. Most producers receive a flat price for their milk without being in position to negotiate with respect to prices, terms or conditions of sale. In a few instances base and excess prices are paid as a means of encouraging level production, but without regard to utilization of the milk.

For the most part the prices paid producers approximate the producer prices of the Chicago order applicable in the immediate vicinity. This does not mean, however, that local milk dealers are paying the applicable Chicago order prices for the milk they sell in fluid form. Handler testimony for a group of dealers claimed to be representative showed that in May 1957 they used 73.6 percent of receipts from producers as Class I milk and in September 1957 their Class I utilization was 82 percent. Chicago Class I and II utilization was 56.9 percent in May and 76.5 percent in September. The Chicago utilization percentages include in Class II ice cream use and for Class II volumes are computed on a milk equivalent basis; had the computation for Chicago been identical with that for the Northeastern Wisconsin dealers a somewhat greater difference in utilization would have been shown. No Chicago plants regularly distribute milk in Northeastern Wisconsin that is priced under the Chicago order. Three cooperative associations and one proprietary concern operating Chicago supply plants also operate separate facilities for the Northeastern Wisconsin trade.

The flat price system prevalent in the Northeastern Wisconsin area by its very nature promotes instability in the marketing of milk for the fluid trade of the area. The milk dealer who can restrict his purchases to the volume of his trade sales will have a Class I cost equal to the flat price paid. A certain amount of reserve milk is necessary for the market, however, to assure an adequate supply at all times. Fluctuation brought about by the seasonal nature of production and day to day variations in milk sales require the disposition of some Grade A milk produced for the market into manufacturing channels at a value lower than that for fluid sales. To the extent that a dealer can avoid or minimize the cost of handling such reserve milk he can achieve a competitive advantage over the dealer who carries the reserve milk associated with his share of the market. As a result producers have no assurance of a continuing market for their milk. Instances were shown on the record of producers being "cut off" with little or no notice.

While the supply competition from Chicago determines the general level of prices in the area, the flat prices paid are by no means uniform. In some cases different prices are paid to producers delivering to the same dealer. These price differences accentuate disparities in costs of milk for fluid use.

A cooperative association representing a substantial number of producers has been unsuccessful in attempts to negotiate uniform prices based upon use of milk. With most dealers they have been unable to negotiate prices on any basis. Dealer resistance has prevented this association from fully serving its members through check testing and weighing services.

Classified prices are negotiated separately by areas between the principal milk dealers with plants located in or near the Michigan Upper Peninsula cities of Ironwood, Marquette, and Sault St. Marie and local units of a cooperative association representing producers supplying each of these cities. Other cooperative associations own and operate plants at which milk produced by members of such associations is received, processed, and packaged, and from which such milk is distributed to wholesale and retail outlets. A considerable volume of milk in the Upper Peninsula is, however, purchased at flat prices without regard to the use made of the milk.

Substantial quantities, estimated at 10 to 14 million pounds annually, of milk packaged in Northeastern Wisconsin plants is distributed in the Michigan Upper Peninsula. The principal distribution is from a plant at Green Bay, Wisconsin. Milk from this plant is now sold throughout most of the Upper Peninsula. A plant at Rhinelander, Wisconsin also distributes substantial volumes of milk in the Peninsula, principally in the western portion. Distribution from other Wisconsin plants is of a more localized nature. This regular distribution of milk packaged in Wisconsin is a relatively recent development associated with improved roads, paper packages, and growth of the Upper Peninsula tourist trade. Classified price negotiations between producers and dealers in the Upper Peninsula are of comparatively recent origin, such negotiations having been carried on only since January 1954 at Marquette, December 1954 at Ironwood, and June 1956 at Sault Ste. Marie. While income from dairying represents a substantial proportion of the cash farm income of the Upper Peninsula, climate, topography and soil conditions are such that only 10–15 percent of the total area is in farmland. Twenty to twenty-five percent of the milk produced is for fluid use; the large majority of the remainder being made into cheese.

Negotiation of classified prices for milk delivered to Upper Peninsula dealers has been severely affected by the sales competition from milk bought on the flat price basis. The complex problem of proper price relationship between the production area of the Upper Peninsula and that of the intensive Wisconsin production area cannot properly be solved by negotiation when prices do not apply equally on the basis of classified use.

Stability of marketing conditions can be assured for these areas only (1) when all milk handlers in each area have substantially equal prices of milk according to use, (2) such use is verified by impartial audit, when all producers supplying each handler in each market receive the same price for milk of the same quality, with the quality and quantity of such milk verified by an adequate check weighing and testing program, and (3) when accurate marketwide information relative to receipts and sales of milk in these areas is provided to all (giving in each case due consideration to the point of receipt). The milk marketing orders herein proposed will provide the only practical means for accomplishing these ends.

3. *Order provision*—(a) *The scope of regulation*—(1) *Marketing areas.* The three cooperative associations of producers that initiated the request for an order proposed in the notice of hearing an order with a marketing area of all territory in the Michigan Upper Peninsula, exclusive of Menominee township in Menominee County, plus five towns and the city of Hurley in Iron County, Wisconsin. A handler who distributes in the Upper Peninsula about one-fourth of the milk processed at his plant in Green Bay, Wisconsin, proposed in the notice of hearing that the area also include 25 counties in Northeastern Wisconsin and Menominee township, Menominee County, Michigan. Handlers with local distribution proposed minor additions, all of which were within the area proposed by the Green Bay handler.

In the course of the hearing the proponent cooperative associations supported the need for regulation in much of the additional Wisconsin territory proposed, but advocated that this be accomplished by means of a separate order. Consideration was given to issuance of a single regulation for the Michigan Upper Peninsula and Northeastern Wisconsin areas. While substantial volumes of milk are distributed in Michigan by plants located in Wisconsin, the number of dealers making such distribution is relatively few. Additional plant and farm supply inspections are required, since Michigan statutes do not provide for reciprocal approvals. Prior to July 1, 1957, milk could not practicably be labeled Grade A in Michigan so that milk meeting Grade A standards could not be sold in Michigan under the label used for the Wisconsin trade. A large majority of the dealers in Northeastern Wisconsin limit their distribution to Wisconsin points. Wisconsin distribu-

tion from Michigan plants is localized to nearby points for which appropriate consideration can be given in defining separate marketing areas.

In view of these considerations and differences in supply conditions in the two areas, it is concluded that issuance of separate orders for the Michigan Upper Peninsula and Northeastern Wisconsin areas with prices properly aligned is the most appropriate means of providing regulation adapted to the needs of each area.

The Michigan Upper Peninsula marketing area should be defined to include all area within 14 of the 15 Upper Peninsula counties (omitting Menominee County) and the following territory in Wisconsin: five towns and the cities of Hurley and Montreal in Iron County; two towns in Florence County and one town and the village of Niagara in Marinette County. For the purposes of the pricing provisions this area is divided into two zones which are discussed in detail under pricing.

The total population of this area is approximately 290,000. The principal cities with population over 10,000 are Sault St. Marie, Escanaba, Ironwood and Marquette. There are, in addition, six other cities of more than 5,000 population.

While no one dealer distributes milk throughout the Upper Peninsula, a dealer whose plant is located in Marquette distributes throughout the greater portion. Milk bottled at this plant is sold at Sault St. Marie, and St. Ignace, each approximately 165 miles east of Marquette, at Manistique and Escanaba to the southeast, at Houghton 100 miles to the northwest, and to the south, at Crystal Falls, near the Wisconsin border. Milk bottled at Bessemer and Ironwood is likewise sold in the Copper Country near Houghton, and a cooperative association with bottling facilities in Houghton County sells milk in and near Marquette. Ironwood and Bessemer dealers serve the adjoining cities of Hurley and Montreal and other nearby territory in Iron County, Wisconsin. Iron Mountain dealers serve the nearby areas in Florence and Marinette counties, Wisconsin, and Wisconsin dealers in Florence County compete in Iron Mountain.

The health regulations of the State of Michigan provide a uniform minimum standard with respect to all milk marketed within the State of Michigan. While Grade A milk regulations similar to United States Public Health standards have only recently become effective in Michigan on a permissive basis, practically all plants in the Upper Peninsula either have complied or will comply with Grade A standards. Grade A labeling under United States Public Health standards is widespread in Wisconsin and will become compulsory July 1, 1959.

While resident population in many areas of the Upper Peninsula is sparse the distribution of tourist and vacation trade is widespread. It is therefore concluded that the marketing area in Michigan should be defined by county boundries. The southernmost county, Menominee, is largly devoted to farming with its principal population center, the City of Menominee, at the southern extremity of the county, which adjoins the City of Marinette, Wisconsin. Inclusion of these cities in the Northeastern Wisconsin marketing area appears appropriate. There is little, if any, distribution of milk in other portions of Menominee County that would not be regulated under either of the orders.

The Northeastern Wisconsin marketing area should include the Wisconsin counties of Brown, Calumet, Kewaunee, Langlade, Lincoln, Manitowoc, Oneida, Outagamie, Portage, Sheboygan, Vilas, Waupaca and Winnebago. In addition there should be included, as more precisely defined in the order, the northern portion of Fond du Lac County, the eastern portion of Marathon County, all of Shawano County not a part of the Menominee Indian Reservation, the southeastern portion of Wood County, the City of Sturgeon Bay in Door County, the cities of Marinette and Peshtigo and the town of Peshtigo in Marinette County, the cities of Gillett, Oconto and Oconto Falls in Oconto County, all in Wisconsin, and the City of Menominee, Menominee County, Michigan.

The total population of this area is approximately 900,000. The principal cities, ranging in population from 25,000 to more than 50,000, are Green Bay, Sheboygan, Oshkosh, Appleton, Wausau, Fond du Lac, and Manitowoc, and the companion cities of Marinette and Menominee the combined population of which is approximately 25,000. There are, in addition, some sixteen other cities of more than 5,000 population.

Milk from one Green Bay plant is distributed throughout this entire area. A cooperative association operates a bottling plant at West DePere in Brown County from which milk is distributed throughout the major portion of the area. Another plant of the same cooperative furnishes the entire milk supply of a dealer in Rhinelander whose distribution covers the remainder of the area. Milk bottled at Sheboygan and Manitowoc is distributed extensively throughout a number of the more densely populated counties in the southern and eastern portions of the area. A number of other plants extend their distribution throughout two or more counties. There is also a substantial distribution of milk throughout much of the area from at least three plants regulated under the order for the Milwaukee market.

Wausau dealers offered testimony to show that the volume of milk from other areas sold in that city is not sufficient to justify its inclusion in the marketing area. Approximately 7–8 percent of the sales in Wausau are by dealers with extensive distribution throughout the area. The same general need for regulation was shown with respect to marketing conditions in Wausau as for the remainder of the area. Producers supplying Wausau dealers belong to the same cooperative association as do the producers supplying numerous dealers throughout the area. Wausau dealers extend their distribution into other parts of the proposed area. It is concluded that Wausau should be included in the area.

Almost all milk distributed in the area meets the Grade A labeling standards of Wisconsin. Most of the cities have Grade A ordinances and milk inspected under one authority moves freely into other jurisdictions within the area.

In the counties of Marinette and Oconto on the western shore of Green Bay it is necessary to include in the marketing area only the cities which are the principal centers of population. It is not necessary to regulate distribution in the remainder of these counties, in Forest County, or in that part of Florence County not included in the Michigan Upper Peninsula order. Population in these areas is predominantly rural, and there is little opportunity for substantial distribution of milk by dealers who will not otherwise be regulated. Likewise in Door County, lying between the shores of Green Bay and those of Lake Michigan, it is necessary to include only the City of Sturgeon Bay to provide effective regulation. Inclusion of all of Fond du Lac County would result in the marketing area boundary passing through the city of Waupun, which lies partly in Fond du Lac County and partly in Dodge County. For this reason the southern portion of Fond du Lac County is not included in the area.

(2) *Milk to be regulated.* The milk to be regulated by each of the proposed marketing agreements and orders should be that which represents the primary sources of supply of milk distributed on routes in the respective proposed marketing areas. To be eligible for such distribution milk must be produced, processed and distributed in conformity with applicable health regulations. Provision should be made to designate clearly what milk will be subject to the pricing and the respective pooling provisions of each of the recommended marketing agreements and orders. For this reason, definitions of fluid milk plant or pool plant, handler, producer, producer milk, producer-handler, route, fluid milk product and other source milk are provided in the orders.

The definition of a fluid milk plant, or pool plant, should be such as to determine which producers, as hereinafter defined, are to be included in the determination of the uniform prices to be paid by handlers under the Michigan Upper Peninsula and Northeastern Wisconsin orders. The two broad categories of milk plants to be regulated by these orders are distributing plants and supply plants. There are distributing plants at which milk received from local dairy farmers or other plants is processed and packaged and from which such milk is distributed as fluid milk products in one or both of these extensive marketing areas. At other plants milk is received directly from dairy farmers and delivered in bulk to distributing plants. This category of plant is generally known as a supply plant.

Elsewhere in this decision it is concluded that under the Michigan Upper Peninsula order distribution of returns to producers should be through individual-handler pools, and that under the Northeastern Wisconsin order such distribution should be through a marketwide pool. Under handler pooling the incentive for a handler to engage in the fluid milk trade of the area is based strictly upon the fluid milk business he can develop. In a marketwide pool, however, there is incentive for plants to be placed under regulation as a means of sharing in the utilization of the market without becoming an integral part of the supply for the market. The marketwide pooling system provides opportunity for partial regulation with respect to milk not priced and pooled under the order. Similar provisions would encounter practical difficulties in a handler pool order. For these reasons the standards of market participation used to determine full regulation of distributing plants and supply plants vary somewhat under the two pooling systems. In conformity with the nomenclature included in other orders, fully regulated plants are defined as "fluid milk plants" under the Michigan Upper Peninsula order and as "pool plants" under the Northeastern Wisconsin order.

To be eligible for distribution in fluid form in the State of Michigan milk must conform to the requirements of Public Law No. 169. Permissive standards for Grade A milk have recently become effective and it is probable that milk labeled Grade A will shortly constitute the principal distribution in the Upper Peninsula. Distributing plants to be defined as fluid milk plants under the Michigan Upper Peninsula order should include those plants at which fluid milk products either labeled Grade A or conforming to the requirements of Michigan Public Law No. 169 are processed or packaged for distribution in the marketing area.

Under this order provision should be made to exempt from regulation distributing plants located outside the marketing area from which only a minor volume of milk is distributed in the marketing area. Regulation of such plants might place them in an uneconomic and unfavorable position with respect to the major portion of their sales in nonregulated areas. As long as the volume of sales an exempt plant may make in the proposed marketing area is left relatively low, such distribution would not present a disruptive force. An average of 600 pounds per day on routes in the marketing area is considered to be an appropriate limit for such exemption.

The fluid milk plant definition of the Michigan Upper Peninsula order should include provision for supply plants at which milk produced in conformity with health regulations of the area is received from dairy farmers and from which fluid milk products are moved to distributing plants. Supply plants from which regular shipments of milk are delivered to the market should be fully regulated. Regular shipments of milk from sources where no minimum price regulations are in effect would be a threat to the stability of this market were there no provisions for pricing receipts of supply plants. As a result of handlers' receiving milk from outside the order in unlimited shipments, a situation could arise in which a significant portion of the market supply of milk would not be subject to the pricing and payment provisions of the order. These plants would be a constant threat to the classified pricing plan of the order.

Handlers in the Michigan Upper Peninsular area receive both regular and incidental supplemental supplies of milk when demand for fluid milk products exceeds the production of milk in this area. Further, there are supply plants which are integral parts of a certain handler's sources of supply. One of the proponent cooperatives, with a plant located at Crystal Falls, receives producer milk to supply various handlers with supplemental supplies of milk. A dealer performing functions somewhat similar to those of a supply plant plans to construct a receiving station at Carney, Michigan. Supply plants which constitute regular sources of supply should be fully regulated. Provision should be made, however, for receipt of some supplemental unpriced supplies during the vacation and short production seasons. Thus, it is concluded that the fluid milk plant definition in the Michigan Upper Peninsula order should provide that a supply plant be one from which milk or skim milk is delivered to a distributing plant on 10 or more days in any of the months of July through December or on 3 or more days in the months of January through June.

In the Northeastern Wisconsin marketing area, uniform minimum standards of the State of Wisconsin presently apply only to milk labeled Grade A. Grade labeling will become compulsory in 1959. Grade A milk represents the dominant distribution in the Northeastern Wisconsin marketing area. Distributing plants to be regulated under the Northeastern Wisconsin order should be those at which fluid milk products labeled Grade A are processed or packaged for distribution in the marketing area and from which disposition of fluid milk products on routes in the marketing area represents 20 percent or more of receipts of Grade A milk from dairy farmers. Such plants should also be limited to those having a total route disposition of 50 percent or more of receipts from dairy farmers and supply plants. To qualify for pool status a supply plant should move 50 percent or more of its receipts of Grade A milk from dairy farmers to a qualified distributing plant. If a supply plant qualifies on this basis during each of the months of August through November, it should be able to retain pool plant status the following December through July.

The extent to which other markets draw supplies from the same area as the Northeastern Wisconsin market and the substantial manufacturing milk production in the area necessitate these pool plant requirements in order to insure that the producers sharing in the uniform price of the market pool be those delivering to plants from which a substantial portion of the receipts is disposed of as fluid milk products in the marketing area, and that the receipts of plants primarily associated with other markets or uses be excluded from sharing in the pool.

The proponent of marketwide pooling at the hearing proposed that disposition of 30 percent of receipts from producers as Class I milk in the marketing area be required each month for both distributing and supply plants. This proponent, a cooperative association, operates a supply plant at Wittenberg, Wisconsin, that supplies the entire needs of a distributing plant at Rhinelander. Other than this regular full-supply arrangement handlers provided little evidence of need for supply plants. This is a concentrated milk production area where there are abundant supplies of milk available for direct delivery. Supply plants most commonly are called upon for heaviest shipments in periods of low supply. Accordingly, provision is made for a supply plant to retain pool status if it has made substantial shipments in the August-November period for which milk production is normally seasonally low. The requirement that 20 percent of its farm milk supply be disposed of on routes in the marketing area will limit pool participation of distribution plants to those with a substantial interest in the fluid trade of the area. The requirement that a distribution plant have 50 percent or more of its total Grade A receipts disposed of on routes, either in or out of the area, serves to distinguish those plants that must qualify as supply plants from those that may qualify as distributing plants. In view of its inclusion in the recommended decision, provision is retained to exempt from regulation distributing plants located outside the marketing area from which Class I disposition on routes in the marketing area averages less than 600 pounds per day.

There are at least three distributing plants, which would be regulated by the proposed Northeastern Wisconsin order that currently sell fluid milk products within the proposed Michigan Upper Peninsula marketing area. There are at least three milk plants regulated under the Milwaukee, Wisconsin, order that currently sell fluid milk products within the proposed Northeastern Wisconsin marketing area. Since handlers distribute fluid milk products in various regulated markets in this area, provisions must be adopted to avoid possible dual regulation. In this connection, it is concluded that a plant should be regulated under the order where such plant's monthly sales of fluid milk products are greatest. However, operators of plants subject to regulation under another order should be required to file reports and submit to audits by the market administrator in order that he may verify the status of such plant.

"Handler" should be defined under the respective orders as any person who operates one or more fluid milk or pool plants, in his capacity as such, or who operates a plant that does not qualify as a fluid milk or pool plant but from which any fluid milk product is distributed on routes in the marketing area. The handler receives the milk of producers and must be held responsible for reporting its receipts and utilization, and for making payment for it at not less

than specified minimum prices. Producer-handlers and operators of plants (including those that fail to qualify for pool status under the Northeastern Wisconsin order) distributing minimum volumes in the marketing areas should be defined as handlers so that they may be required to report to the market administrator the information necessary to determine their status and relationship to the market at any given time. In certain cases, obligations imposed by the order must also be ascertained.

It was proposed that a cooperative association be defined as a handler with respect to milk of member producers diverted for the account of the cooperative to nonfluid milk plants even though the association operated no plant. In another portion of this decision it is concluded that proceeds of the sale of producer milk under the Michigan Upper Peninsula order be by means of individual-handler pools. The pool of the cooperative handler, with respect to milk delivered to unregulated plants, would reflect only the value of the diverted milk which presumably would be in manufacturing milk classes. For the producers diverted for the account of the cooperative to receive any share of the value of Class I milk of the market, it would be necessary for the cooperative to collect the proceeds for milk of other member producers and reblend them with those from the diverted milk. This may be done without defining the cooperative association as a handler or the farmers whose milk is diverted by the cooperative as producers. The proposal would serve no useful purpose under this order. Under the Northeastern Wisconsin order, a cooperative association may be a handler with respect to milk so diverted. This provision will enable milk so diverted for short periods of time to continue to receive the uniform price under the order and be available for fluid use when needed.

"Producer" should be defined under the Michigan Upper Peninsula order as any person, other than a producer-handler, who produces milk in compliance with Grade A requirements or Michigan Public Law No. 169, which milk is received at a fluid milk plant. Provision should be made that the milk of producers regularly received at a fluid milk plant may be diverted for the account of the handler operating such plant to a nonfluid milk plant without such producers losing their status as producers under the proposed order. This will permit milk regularly associated with this market to be diverted to manufacturing plants during periods of flush production, holidays and weekends when deliveries exceed sales, should there be need for this milk to be manufactured in nonregulated plants. Producers whose milk is so diverted will continue to receive the diverting handler's uniform price under the order and their milk should be available for fluid use when needed. Diverted milk shall be deemed to have been received at the fluid milk plant from which it was diverted. Under the Northeastern Wisconsin order, "producer" should be defined as any person, other than a producer-handler, who produces milk in compliance with Grade A requirements of any duly constituted health authority, which milk is received at a pool plant or is diverted from a pool plant to a nonpool plant for the account of a handler or cooperative association. An exception should be made, however, to exclude from the definition of "producer" during the months of March through June those farmers with bases established under the Chicago and Milwaukee orders by delivery to plants, subject to such orders, operated under common control with the Northeastern Wisconsin pool plant to which the farmer may deliver during these months. A number of handlers operate both Chicago or Milwaukee and Northeastern Wisconsin plants. Payments under a base plan are made in these months under the Chicago order and in all but March under the Milwaukee order, but no base plan is provided herein. Without the exception provided in the producer definition a handler with plants in other pools could transfer producers with wider seasonal production to the Northeastern Wisconsin pool for these months of seasonally high production.

"Producer milk" should include all skim milk and butterfat contained in milk produced by producers and received at the fluid milk plant or pool plant directly from producers or diverted by a handler from such a plant. All provisions concerning the classification of producer milk should apply also to the milk received from handlers' own herds.

"Producer-handler" should be defined as a dairy farmer who operates a plant from which fluid milk products are distributed on a route in the marketing area but who receives no milk from other dairy farmers, nonfluid milk plants or nonpool plants. Reports to the market administrator at such time and in such manner as may be requested, with examinations of accounts, records and facilities should provide ample means to determine the status of a producer-handler.

A producer-handler may receive milk from other fluid milk or pool plants and still maintain status as a producer-handler. However, the classification provisions of each of the proposed orders should provide that any milk, skim milk or cream in bulk form transferred or diverted from a fluid milk or pool plant to a producer-handler will be Class I milk. Supplemental supplies of milk which may be obtained from other fluid milk or pool plants, by virtue of the type of operation involved, may be presumed to be needed by the producer-handler for fluid milk use and should be classified in the supplying handler's plant as Class I milk. Any milk which is received at a fluid milk or pool plant from a producer-handler would be "other source milk" and would, therefore, be allocated to the lowest class utilization at the plant(s) of such handler after the allocation of allowable shrinkage on producer milk. This method of allocating milk received from producer-handlers at regulated plants will insure producers priority on Class I sales made by the handler operating the plant where the producer-handler's milk is received. The producer-handler who by being exempt enjoys the full advantage of his fluid milk sales, should not also share in the Class I sales of other producers.

The definition of a route is included in each of the orders to clarify other definitions or provisions and avoid lengthy repetition in order language. The term route should be defined as a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product other than a delivery to any milk processing plant.

A definition of "fluid milk product" is included to mean milk, flavored milk, flavored milk drinks, skim milk, buttermilk, half and half and cream. This definition of "fluid milk product" will clarify other order provisions and definitions.

"Other source milk" should be defined as all skim milk and butterfat contained in fluid milk products received by a handler at his fluid milk or pool plant(s), except producer milk and fluid milk products received from other regulated plants. This definition would include milk products, other than fluid milk products, from any source (including those produced at the fluid milk or pool plant) which are reprocessed and converted to another product in the plant during the month. The amount of supplemental supplies received from unregulated milk plants, varies from season to season and between handlers. This definition of other source milk will insure uniformity among all handlers under the allocation and pricing provisions of each of the proposed orders.

(b) *The classification and allocation of milk.* Milk under each order would be classified in three classes reflecting the principal differences in the value and in the quality of milk required for different uses.

Because skim milk and butterfat are not used in most products in the same proportion as received from producers, these components should be classified separately. Class prices, however, will apply per hundredweight of milk and will be adjusted for the butterfat content of the milk actually used in each class through butterfat differentials.

Class I utilization under each order should include all skim milk and butterfat disposed of for consumption as fluid milk products, namely milk, skim milk, flavored milk, flavored milk drinks, buttermilk, half and half, and cream. Plant loss of producer milk in excess of 2 percent of receipts and skim milk and butterfat not accounted for as Class II or Class III utilization should also be Class I.

The products to be included in Class I are those required by health authorities in each marketing area to be from inspected sources. The extra cost of producing and delivering to the market milk of approved quality in the quantities required for fluid distribution justifies a price for Class I milk somewhat higher than that for manufacturing quality milk. It is appropriate that the products requiring approval be included in a single class so that all milk required for their use may contribute uniformly to the cost of supplying the market needs for inspected milk.

Reserve milk in excess of market needs for fluid consumption must usually be manufactured into various dairy products for which approved inspected sources of milk are not required. Such products must be sold in competition with like products from uninspected sources produced over a wide area. Most such products are less perishable than fluid milk products. Milk used to produce these products should be classified in lower classes and priced in accordance with its value in such outlets.

It was proposed that all such uses be included in Class II milk. It is desirable, however, that separate classification and pricing be provided for milk used to produce butter, cheese, and nonfat dry milk. Substantial volumes of milk priced under the Chicago order are made into these products at plants located in the Northeastern Wisconsin area. A separate class (Class IV) is provided under that order for the milk equivalent of butterfat made into butter and cheese. A separate classification for these products (including also nonfat dry milk, the manufacture of which frequently complements the manufacture of butter) will permit pricing milk used for these products under the Northeastern Wisconsin order in close alignment with the Chicago order. In the Michigan Upper Peninsula some excess milk must be disposed of to cheese factories, and prices that can be realized in this area for milk disposed of to such outlets differ considerably from the value of such milk in other nonfluid products. In addition to these products, skim milk dumped or disposed of for livestock feed after notification to the market administrator and opportunity for verification of volumes should also be included in Class III milk, as should shrinkage within allowable limits.

Class II milk should then include all skim milk and butterfat used to produce products not specified as Class I or Class III and in inventories of fluid milk products on hand at the end of the month.

Unaccounted for milk in excess of a reasonable allowance for plant loss should be Class I so as to require full accounting by handlers for their receipts. Two percent is considered a reasonable maximum allowance for plant loss. No limit need be put on shrinkage of other source milk (assigned to Class III) since such milk is deducted from the lowest use class under the allocation procedures.

Since it is not feasible to segregate shrinkage of producer milk from that of other source milk in the same plant, total shrinkage is prorated on the basis of the volume of receipts. Allowance for loss on producer milk diverted to another plant regulated by the same order should be at the plant where actually received. Each handler must be held responsible for full accounting of all his receipts of skim milk or butterfat in any form. The handler who first receives the milk from producers should be responsible for establishing the classification of and the payment for producer milk. Except for such limited quantities of shrinkage as may be classified in Class III, all skim milk and butterfat which is received and for which the handler cannot establish utilization should be classified as Class I milk. This provision is necessary to remove any advantage to handlers who fail to keep complete and accurate records and to assure that producers receive full value for their milk on the basis of its use.

Uniformity of minimum prices to handlers and simplicity of accounting are achieved if, so far as possible, Class I utilization each month is assigned to current receipts of producer milk. This can be accomplished by classification of closing inventory as Class II, and allocation of opening inventory to Class I only when current receipts of producer milk (except allowable Class III shrinkage) are less than Class I sales. In such case the handler should pay the difference between the Class II price for such milk in the preceding month and the current Class I price. The volume on which this charge is made should not exceed the volume for which producers were paid at the Class II price in the preceding month.

Provisions should be made for classification of fluid milk products transferred in bulk between regulated plants and from regulated plants to unregulated plants. Transfers between fluid milk plants, or between pool plants, should be permitted in any class agreed upon by the handlers operating such plants so long as the prior claim of producer milk for Class I sales is maintained.

Transfers to an unregulated plant may be at Class II or Class III if such plant does not engage in the fluid milk business, or has receipts from inspected farmers equal to any Class I sales. If Class I sales exceed such receipts, the milk transferred should be Class I to the extent of the excess. In any event, in order to substantiate a classification other than Class I the unregulated plant must have and make available records adequate to verify any such utilization claimed.

When handlers receive butterfat and skim milk from sources other than from producers, it is necessary to provide a method for allocating such receipts to the classes of utilization in such a manner as to determine the classification of producer milk. Inasmuch as producer milk is the regular available supply for fluid consumption in the marketing area, producer milk should be assigned the Class I utilization in preference to other source milk. This is necessary to assure the effectiveness of a classified pricing program. The system of assigning utilization of milk to receipts from different sources is set forth in detail in the proposed order. A monthly accounting period is provided for this assignment in order that uniform prices to producers may be computed for each month's delivery of milk.

(c) *Class prices.* The price of milk for fluid use in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas should be closely related to the prices of milk used in the production of manufactured dairy products. In both of these areas substantial volumes of milk are produced, relative to fluid milk production, for use in the production of manufactured milk products. Producers' farms where milk is produced for the Chicago and Northeastern Wisconsin markets are intermingled in the Northeastern Wisconsin milkshed. Surplus and reserve supplies of milk from the Chicago market are manufactured in plants located in the Northeastern Wisconsin area. Dealers in the Northeastern Wisconsin and Michigan Upper Peninsula areas have based their fluid milk prices on the prices paid by manufacturing plants in the areas and on prices paid by plants regulated under the Chicago order. Class I prices in the nearby Federal order markets of Chicago, Milwaukee, Duluth-Superior, Minneapolis-St. Paul and Upstate Michigan are based on similar manufacturing values. Use of a basic formula price to which a Class I differential is added will, for each order, reflect manufacturing values.

(1) *Basic formula price.* The basic formula price used to determine the Class I price should be the higher of the average price paid by 12 Wisconsin and Michigan condenseries or a formula price based on market values of butter and nonfat dry milk. These prices measure the value of milk used in each of these major manufactured dairy products which are marketed nationally. These same factors are used in the Chicago and Milwaukee Federal order markets.

Several of the 12 condenseries whose prices are included are located in the Northeastern Wisconsin area. A butter-powder formula price using slightly different factors from that included in the attached orders was proposed in the notice of hearing. In view of the desirability of maintaining alignment with prices of the orders for the Chicago and Milwaukee markets the formula price used in those orders is included as the alternative basic formula price. Use of the basic formula price of the preceding month in the determination of Class I prices will permit these prices to be announced early in the month to which they apply, and will assist in maintenance of alignment with Chicago and Milwaukee prices.

(2) *Class I price.* The Class I price differential to be added to the basic formula price should be at a level which will reflect the additional costs of providing an adequate but not excessive year-round supply of milk meeting the inspection requirements of each of these areas. For the initial 18 months of operation of the Northeastern Wisconsin order this differential should be established at an annual level of $0.74, varied seasonally to be $0.94 for the months of August, September, October, and November; $0.74 for the months of January, February, July, and December; and $0.54 for the months of March, April, May, and June; and at those plants located in the Wisconsin counties of Florence, Forest, Marinette, Oneida, and Vilas, or in the State of Michigan, the Class I price under the Northeastern Wisconsin order should be increased ten cents. For the initial 18 months of operation of the Michigan Upper Peninsula order this differential should be established for those plants located in (1) Zone 1 at an annual level of $0.97, varied seasonally to be $1.15 for the months of July through November, and $0.95 for the months of January,

February, and December, and $0.75 for all other months; and (2) Zone 2 at an annual level of $1.17, varied seasonally to be $1.35 for the months of July through November, $1.15 for the months of January, February, and December, and $0.95 for all other months.

It was proposed at the hearing that the Class I differential of the Northeastern Wisconsin order be $1.00 in all months of the year and that of the Michigan Upper Peninsula order be $1.35 for all months. While zone price differences for the Upper Peninsula were proposed in the notice of hearing, proponents at the hearing supported the application of a single Class I differential applicable at all locations.

Prices of the Chicago and Milwaukee markets are a dominating influence on the price structure of the Northeastern Wisconsin area. The volume of milk priced under the Chicago order delivered to Chicago pool plants located in the Northeastern Wisconsin area averaged approximately 78 million pounds per month over a recent 12 month period. This is substantially more milk than that to be regulated under the Northeastern Wisconsin order. Chicago prices at these points are clearly the dominant competitive factor in procurement of milk. Milwaukee handlers also compete for sales in the Northeastern Wisconsin marketing area. Producer prices under the Milwaukee order are directly related to those of the Chicago order.

Under the Chicago order the Class I prices at plants located more than 70 miles from the Chicago City Hall are decreased 2 cents for each 15 miles or fraction thereof in excess of 70 miles. An annual average Class I differential of 90 cents is provided at the 55–70 mile zone. Chicago pool plants are located in the Northeastern Wisconsin area in zones 7–14 so that the annual average Class I price differentials applicable at these plants range from 64 to 78 cents. Under the Milwaukee order an average annual differential of 86 cents, which represents the Chicago zone prices at Milwaukee, applies at all plants.

Approximately two-thirds of the milk to be regulated by the Northeastern Wisconsin order is received at points which would lie in zones 7–10 of the Chicago order, for which the applicable Class I differential of that order ranges from 72 to 78 cents on the annual average. Furthermore, it is from plants located in this area that route distribution is most extensive throughout other parts of the area.

This area also represents the primary concentration of receipts under the Chicago order. Thirteen of the 17 Chicago pool plants are located in zones 7–10. While the record does not show the volume of receipts for plants in this particular group of zones, at 10 plants in zones 7–9 receipts were more than 61 percent of the Chicago milk received in the entire area. The six Chicago plants in zone 9 received approximately 35 percent of the total volume for the area.

It is concluded that a Class I differential with an annual average of 74 cents, which is that applicable under the Chicago order at plants in zone 9, is appropriate for all parts of the Northeastern Wisconsin marketing area except for the northern portion of the area discussed elsewhere in this decision. Throughout the remainder of the area the extensive competition between handlers makes it desirable that the Class I price be uniform to handlers rather than be varied by the zone differentials of the Chicago order. The concentration of receipts under both Chicago and the proposed Northeastern Wisconsin order at or near zone 9 makes this the most appropriate price for the area.

In conformity with the seasonal price patterns of the Chicago order the Northeastern Wisconsin Class I differential should be 20 cents above the annual average level for the months of August through November, 20 cents less for the months of March through June, and at the annual average level for other months.

The Chicago and Milwaukee orders provide for the adjustment of Class I and II prices on the basis of supply and demand in the Chicago market. In view of the lack of data with respect to producer receipts and utilization in the Wisconsin area there is no basis for providing similar provisions for the Northeastern Wisconsin order at this time. While consideration was given to providing precise price alignment by use of the amount of adjustment each month under the Chicago order such precise alignment is not required for an initial 18 month period of operation of the order necessary to provide data with respect to the market. The differences in classification and accounting provisions of the orders make it impossible to provide precise alignment on a comparable basis. The inclusion of ice cream and fluid cream as Class II uses under the Chicago order accounted for on the milk equivalent of butterfat used results in a higher cost to handlers and consequently a higher average producer price for identical utilization than will result from the classification and accounting procedure of the order recommended herein. Experience during the initial period will provide data upon which proper allowance may be made for these factors.

In Oneida and Vilas counties milk production is much less intensive than in the remaining portions of the Northeastern Wisconsin area. The principal handler located in this area, whose plant is at Rhinelander in Oneida County, receives his entire supply from a plant at Wittenberg, 74 miles to the south in the area to which the 74 cent differential would apply. This area, and the companion cities of Marinette-Menominee are the portions of the Northeastern Wisconsin area nearest to the Michigan Upper Peninsula area from which local distribution in adjacent portions of that area may be expected. A Class I price 10 cents higher than that applicable in other portions of the area should apply under the Northeastern Wisconsin order at plants in these areas and the territory intervening between the two marketing areas. This will reflect differences in supply conditions in that portion of the area.

Other than this zone price differential, there is no need to provide any reductions in the Class I price for plants at distant locations. This is an area where substantial volumes of milk in excess of local requirements are produced and as a consequence producer prices approach the minimum. To the east is Lake Michigan, to the south Chicago order prices increase at locations nearer Chicago, while Milwaukee prices are maintained at the Chicago level applicable at Milwaukee, and to the north this decision establishes Michigan Upper Peninsula prices higher than those here provided. To the west the nearest regulated markets, Minneapolis-St. Paul and Duluth-Superior, are also at higher levels.

It was proposed by proponent cooperatives that the Michigan Upper Peninsula marketing area be zoned as three areas for the purpose of establishing Class I price differentials, for each zone. However, at the hearing producers recommended that the Class I price be the basic formula price plus $1.35 in all months and for all portions of the marketing area. Negotiated prices in the two markets of Marquette and Ironwood have been established by one of the proponent cooperatives for several years. In 1961 the average monthly price differential for fluid milk, above manufacturing prices, using the recommended basic formula price, was $1.30 in the Marquette market and $1.05 in the Ironwood market. Negotiated prices for the Sault Ste. Marie market have not been in effect for a sufficient period to permit a reasonable determination of the average differential. The prices negotiated at this point have, however, have been substantially higher at all times than those for Marquette. The classification to which these prices apply is not similar in all respects to that recommended herein inasmuch as the negotiated Class I price does not apply to cream and half and half.

The influence of the Northeastern Wisconsin market should be reflected in the level of the Class I price under the Michigan Upper Peninsula order. The Wisconsin area is not only a source of alternative supplies of milk but provides considerable direct competition for sales from Wisconsin plants. The Michigan Upper Peninsula area is, however, quite extensive geographically, and some portions are much farther from the Wisconsin production area than others. As a consequence transportation costs from Wisconsin points are substantially higher in certain parts of the area.

For Zone 1, representing the area lying nearest to the Wisconsin production, a Class I price 23 cents higher than that of the principal portion of the Northeastern Wisconsin area is provided. This price is 13 cents more than that for the nearby northern portions of the Wisconsin area. Such difference approximates the costs of movement of supplemental supplies in this area. The Class I price is increased an additional 20 cents for the remainder of the area, which is at a greater distance from Northeastern Wisconsin. This difference between zones approximates that which has been established through negotiations at Ironwood in Zone 1 and Marquette in Zone 2. The relationship between prices in the principal cities in each of these zones and that provided in the concen-

trated Wisconsin production area continues to approximate reasonable allowances for transportation for movements of supplemental supplies of milk.

In the previous recommended decision it was proposed that a third zone, consisting of the counties of Chippewa, Luce and Mackinac be provided, with an additional increase of 20 cents in the minimum Class I price. This would have included the city of Sault Ste. Marie. As a result of exceptions received, the record with respect to the pricing history of this proposed zone has been reviewed. It is hereby concluded that the data available with respect to price relationships between this area and the area proposed in Zone 2 in the recommended decision covers too short a period to justify establishment at this time of a fixed differential in the minimum Class I prices applicable in these areas. Accordingly, only two pricing zones are provided in the order attached hereto, with the same minimum Class I price applicable at all points in the area outside Zone 1.

The price relationships between the Michigan Upper Peninsula and Northeastern Wisconsin orders have also been reviewed and it is concluded that the prices of the Michigan order should be increased 3 cents in order to more appropriately reflect past relationships and cost of transportation.

The demand for fluid milk during the vacation season in the Michigan Upper Peninsula makes appropriate the inclusion of July with the months of highest Class I prices. With this exception the seasonal pattern of the Class I price in the Michigan Upper Peninsula order should follow that of the Northeastern Wisconsin order. The price differences cited apply to the annual average levels provided.

In contrast to the situation in Northeastern Wisconsin the possibility that distant plants are or might become regulated under the Michigan Upper Peninsula order requires that provision be made to allow for the cost of moving Class I milk from such plants. While the distant plants presently distributing milk in the area would be regulated under the Northeastern Wisconsin order, plants not subject to any other order may become regulated as either supply plants or distributing plants. If such plants are west of Lake Michigan, presumably in Wisconsin or Minnesota the nearest portion of the marketing area will be Zone 1, in which the cities of Ironwood and Iron Mountain provide appropriate points from which distances may be determined. If such plants are east of Lake Michigan, presumably in the lower peninsula of Michigan, the portion of the marketing area accessible to them will be Zone 2, via the newly constructed bridge over the Straits of Mackinac. St. Ignace, located at the straits, provides a convenient point for measurement of distances from Zone 2. Accordingly, location adjustments from the Zone 1 price are provided for plants located west of Lake Michigan and more than 50 miles from the nearer of Ironwood or Iron Mountain, and from the Zone 2 price for plants located east of Lake Michigan and more than 50 miles from St. Ignace. The rate of adjustment should be 10 cents per hundred-weight for distances of 50–70 miles, plus 2 cents for each additional 20 miles or fraction thereof. The application of these rates to the Northeastern Wisconsin plants with substantial distribution in the marketing area will approximate the prices established for such plants under the Wisconsin order.

Under the handler pooling provisions included in the Michigan Upper Peninsula order the producer prices computed reflect the location value of milk if the handler does not operate two or more plants at which different Class I values are applicable. If such is the case the uniform price applicable to milk received at the plant to which the higher Class I price applies is computed and a location differential equal to the difference in Class I values is used in determining minimum producer prices at other plants of such handler. The uniform price of the Northeastern Wisconsin order is computed as that applicable at plants in the major portion of the area with a 10 cent plus differential for milk delivered to plants in the higher priced zone.

(3) *Class II price.* The Class II price should reflect a value for milk used in cottage cheese, ice cream and related products under each of these orders. Reserve supplies of milk that are needed because handlers' sales fluctuate on a daily basis are converted to such products as cottage cheese, ice cream and related products. Ungraded milk for these purposes commands higher prices than that for butter, cheese, or nonfat dry milk. The level of Class II milk price should not be below that paid for ungraded milk for the same use, since such "pay" prices represent the prevailing value for milk for such uses. It is to be expected that such supplies of milk will be used in the highest valued manufactured products. It is concluded that the Class II price under each of these orders should be the basic formula price of the current month which represents the higher of the prices established for milk for manufacturing purposes.

(4) *Class III price.* The Class III price should reflect the value of milk for manufacture into butter, nonfat dry milk, and cheese (other than cottage cheese) in the Michigan Upper Peninsula and Northeastern Wisconsin marketing areas. The plants which manufacture butter, nonfat dry milk and cheese are not comparable in these two areas. In the Northeastern Wisconsin area there are centered some of the largest manufacturing plants in the country. Plants manufacture into these products milk from the Chicago market for which the price is established on the basis of the butter-powder formula price. Thus, it is appropriate that the butter-powder formula portion of the basic formula price should be used to price milk used to produce butter and cheese under the Northeastern Wisconsin order. That computed from the current month quotations should apply.

Producer proponents of the Michigan Upper Peninsula order proposed that the pay prices at local cheese plants and creameries should be the price for "distressed" milk during the flush months. Products, principally cheese, made at these plants must be assembled and shipped considerable distances to the central markets. As a consequence the prices paid by these plants are less than prices paid by cheese factories and creameries in Northeastern Wisconsin. Many of these plants are operated by producer cooperatives so that their current pay prices may not reflect accurately returns to the farmers supplying milk to such plants. It is concluded that the butter-powder formula price less ten cents will approximate the level of prices paid by manufacturing plants in the area and should determine the Class III milk price.

(5) *Handler butterfat differentials.* Butterfat and skim milk will be accounted for separately for classification purposes since they are not used in most products in the same proportions as received from producers. The basic test for which class prices are determined is 3.5 percent butterfat content, the usual fat test at which prices are quoted in these areas, and on which the two markets have operated for some time. It will then be necessary to adjust Class I, Class II and Class III prices of milk to each handler in accordance with the average test of milk used in each class by such handler. Butterfat differentials which reflect differences in value due to differences in butterfat content are used for this purpose.

Producers proposed that a single butterfat differential apply to all classes of milk. They proposed that this differential be 0.122 times the average price of 92-score butter at Chicago. Producers contend there is a shortage of butterfat for fluid milk uses which has resulted in part from the requirements of recently enacted Michigan statutes.

Butterfat in fluid milk products (which include cream) from inspected sources has a higher value than that in ungraded milk, which will be approximately reflected by a butterfat differential 0.125 times the Chicago butter price. Such a differential should be used to adjust the hundredweight price of Class I milk for each one-tenth percent variation from 3.5 percent butterfat content. The Class II and Class III butterfat differential should be 0.115 times the Chicago butter price. This differential reflects an appropriate value of butterfat for Class II and Class III uses in these areas.

In order that the Class I butterfat differential may be announced early each month for the current month, it is provided that the Class I differential be based on the average price of butter in the preceding month. This will permit the announcement of the Class I butterfat differential at the same time that the Class I price is announced.

The Class II and Class III butterfat differential will not be announced until after the end of the current month. Although handlers will not know precisely the cost of such milk as it is utilized, they will know that their cost will follow that of their principal competitors for manufactured outlets. Trends in butter and nonfat dry milk

prices may be observed from daily and weekly reports issued by the Department.

(d) *Distribution of proceeds to producers*—(1) *Types of pool.* The act specifies that an order must provide for (1) the payment to all producers delivering milk to the same handler of uniform prices for all milk delivered by them, or (2) the payment to all producers delivering milk to all handlers of uniform prices for all milk so delivered, without regard to the uses made of such milk by the handler to whom it was delivered. The former method of payment is by individual-handler pools, the latter by a marketwide pool. Under either method all handlers pay the class prices for producer milk, except for differences in the location at which received and for butterfat content.

Under the individual-handler pool, the minimum prices to be paid producers will be uniform to all producers delivering their milk to the same handler. The uniform price will depend upon the proportion of producer receipts used in each class by the handler. Although each handler will be required to pay minimum uniform prices to all the producers who deliver milk to him during each month, the prices paid by different handlers may differ because the proportion of milk used in each class may vary.

(i) Michigan Upper Peninsula: The individual-handler type of pool should be included in the Michigan Upper Peninsula order as a means of distributing to producers the returns from the sale of their milk.

In the Michigan Upper Peninsula area the Michigan Milk Producers Association has operated separate association pools at Marquette, Ironwood and Sault Ste. Marie with respect to milk of those members delivered to handlers at each of these points. Handler pooling will permit continuation of this practice should the association so desire. At least three other cooperative associations operate plants in other points in this marketing area. The area is very extensive, with substantial differences in production conditions surrounding various centers of population. While Class I price differences are provided in recognition of this situation, it is also desirable that differences in the supply and sales relationships throughout the area be reflected in producer prices. Individual handler pooling was supported by all producer organizations with members supplying the Michigan Upper Peninsula market.

It was proposed that, in addition to the milk each handler received from producers or diverted for his account to nonfluid milk plants, there should be included in the computation of his pool price, milk of dairy farmers who had supplied such handler any time during the preceding months of July-December and certified their willingness and ability to deliver inspected milk currently, but whose milk was not received at a fluid milk plant. It was proposed that such dairy farmers be designated "associated producers" and receive payments from the handler through the market administrator equal to the difference between the uniform price of the handler and the manufacturing milk price of the order. The source of such payments would be a reduction in the uniform price otherwise payable to producers by the handler. It was claimed that such provisions would prevent producers from loss of their market through arbitrary action of the handler.

A number of things in addition to conformity with health requirements are influential in farmers' acquiring and retaining a fluid milk market. A number of plants in this area receive milk only in bulk tanks and other plants are in the course of changing to this type of delivery. Only dairy farmers equipped with farm storage tanks can continue to market milk at such plants. Seasonality of production is another factor which may affect the ability of a dairy farmer to retain his market with any specific handler. It is difficult from this record to find a basis on which failure of a farmer to meet market practice requirements could be distinguished from arbitrary action of a handler in determining the producer who should share in the Class I business of a handler without current delivery of milk. It is concluded that such provision should not be included without more definite evidence of actual need to provide stable market conditions.

(ii) Northeastern Wisconsin: The marketwide type of pool should be used in the Northeastern Wisconsin order to distribute returns to producers.

In the recommended decision it was recommended that handler pools also be included in the Northeastern Wisconsin order, principally upon the basis that it was not shown that any particular group of plants serve to balance supplies among other plants. As a result of numerous exceptions received to the proposed pooling provisions for this area it is concluded that handler pooling in this area might operate to prevent adequate reserve supplies of milk from being carried by many Northeastern Wisconsin plants. Such reserve supplies for this market would thus accumulate either in the Chicago pool or in the hands of cooperative handlers under the Northeastern Wisconsin order. In view of these considerations it is concluded that returns under the Northeastern Wisconsin order should be by means of a marketwide type of pool. Appropriate modification of the definitions of "plant", "producer" and "handler", and provision for payments on unpriced milk are included on the basis of findings contained elsewhere in this decision.

(2) *Payments on unpriced milk.* Northeastern Wisconsin order: The order should provide compensatory payments with respect to unpriced milk which is allocated to Class I in a pool plant when receipts from producers exceed 110 percent of the Class I utilization.

An important function of the order is to insure that the position of handlers paying producers a Class I price for fluid milk will not be undermined by other handlers using the market's excess or surplus milk for Class I use. It is equally important that the Class I market be protected from the use of seasonal excess milk from other markets as well as from its own surplus. If the order failed to provide such protection, a handler could curtail purchases of producer milk to his own advantage and secure low cost reserve supplies from other markets for Class I use.

Seasonal supplies may be obtained easily and cheaply during the months of flush production, when most markets have receipts of milk considerably greater than necessary to supply their current fluid requirements. If adjoining milksheds dispose of their seasonal surplus in each other's Class I markets, the result would be confused and disorderly marketing conditions. Market prices would be demoralized, production of milk would be impaired, and the future supply of milk for both markets would be jeopardized. Such disorderly marketing conditions would be contrary to the purposes of the Agricultural Marketing Agreement Act. Therefore, in order to insure the effectiveness of the classified pricing program and to promote orderly marketing, it is necessary that some method of compensating for, or neutralizing the effect of, the advantage created for unpriced milk should be provided as an essential provision of this order. Since the need for such payments arises because of the availability of unpriced milk (milk not procured at specified prices by class usage), compensatory payments should not apply to milk entering the marketing area from a plant regulated under another order. Its proper classification and pricing is determined pursuant to the other order.

It is not practicable to price all milk which may enter the market. However, it is necessary to make provision to prevent the displacement of producer milk by such unpriced milk for the purpose of cost advantage. The alternative available under the order is to make a charge against unpriced milk used in Class I to the extent necessary to remove any advantage in using such milk in lieu of milk from producers.

To remove the price advantage that a handler might achieve by purchasing surplus milk from other markets for use as Class I milk, a compensatory payment should be assessed on such milk equal to the difference between the Class I price and the Class III price. The Class III price provided by the order is a fair index of the value of such milk in manufactured dairy products which is the alternative outlet for such milk. As indicated elsewhere in this decision manufacture of such dairy products is highly concentrated in this and adjoining areas.

It was proposed that the rate of payment be the difference between the Class I price of the order and the uniform price. It is likely that the uniform price of the Chicago order rather than that of the Northeastern Wisconsin order will be the dominant competitive procurement factor in the area. Further, as demonstrated clearly by present procurement practices in the area, it cannot be assumed that payment of a uniform price determines the cost of Class I milk to a handler.

In order to permit handlers to secure supplementary supplies without making a payment when the market is actually short of milk, it has been provided that no compensatory payment will apply any month in which receipts of producer milk on the market are less than 110 percent of Class I sales. Such utilization percentage would be a more practical demarcation of adequate supply and deficit supply conditions than the 125 percent mentioned at the hearing.

In the case of a handler whose plant fails to qualify as a distributing plant but who has sales of fluid milk products on routes in the marketing area, such handler also should under certain conditions be required to make payments to the producer-settlement fund. The amount of these payments would be the lesser of (1) the difference between the Class I and Class III price multiplied by the amount of Class I milk sold in the marketing area, or (2) the amount by which total payments to dairy farmers are less than the total amount of the plant's obligation to producers if such obligation is computed as if such plant were a pool plant.

If the handler elects to make payments under the first option, the regulatory plan will be protected in the same manner and to the same extent as is provided with respect to compensatory payments on other source milk. If the handler chooses to pay the full utilization value of his milk either directly to his own farmers or by combination of payments to his farmers and to the producer-settlement fund, he will obviously not have any advantage in terms of the minimum order class prices on his sales of Class I milk in the marketing area, for his total minimum obligation for milk will be determined in exactly the same way as if he were a fully regulated handler.

Affording this latter option to nonpool plants from which some Class I milk is distributed in the marketing area will adequately protect the regulatory plan in this market. Under the standards adopted herein for pooling the only such nonpool plants would be those with less than half their receipts disposed of on routes or with only a minor share of their route business in the marketing area, being primarily associated with other fluid markets. Distributing plants primarily associated with other unregulated markets do not procure their milk supplies in the milkshed of the Northeastern Wisconsin area, which is practically coextensive with the marketing area. It is expected that Class I utilization of pool milk in this market will substantially exceed 50 percent. Under these circumstances no advantage in the procurement of milk could accrue to handlers operating such nonpool plants. The volumes of milk that might be involved would be relatively small in comparison to the volume of milk in the pool. There is no necessity in this market to require these partially regulated plants to make payments into the producer-settlement fund if it is ascertained that they have paid their Grade A dairy farmers at least the total amount of money which they would be required to pay if they were fully regulated.

The nonpool handler should also pay his pro rata share of the costs of administration of the order. Complete verification of receipts, utilization and payments is required if such a handler is to be given credit for payments as related to the classified use value of skim milk and butterfat received. Accordingly, administrative expense should be determined on the same basis as for fully regulated plants. Should a handler operating a nonpool distributing plant elect when filing his report to make payments to the pool at the difference between the Class I and Class III prices with respect to sales in the marketing area, the expenses of administration will be assessed only with respect to such sales, since need for verification will then be confined to that volume.

(3) *Producer-settlement fund.* Since the amount which the Northeastern Wisconsin order requires a particular handler to pay for his milk may be more or less than the amount he is required to pay to producers or cooperative associations, some method of balancing these amounts is necessary. A producer-settlement fund should be established for this purpose. All handlers who are required to pay more for their milk on the basis of their utilization than they are required to pay to producers or cooperative associations should pay the difference into the producer-settlement fund; and all handlers who are required to pay more to producers or cooperative associations than they are required to pay for their milk on the basis of utilization should receive the difference from the producer-settlement fund. Amounts paid into and out of the producer-settlement fund for this purpose will be equal except for minor differences that may result from rounding of uniform prices. In order to permit this rounding of prices, to allow for unavoidable delays in receiving payments from handlers, and to permit payments to be made to any handler which audit by the market administrator reveals is due such handler from the producer-settlement fund, a reserve should be held in the producer-settlement fund at all times. The amount of the reserve contemplated in the proposed Northeastern Wisconsin order should be sufficient for these purposes. This reserve would be accumulated by deducting between 4 and 5 cents each month from the uniform price, after adding half of the unobligated balance to the pool from which such prices are computed.

If at any time the balance in the producer-settlement fund is insufficient to cover payments due to all handlers from the producer-settlement fund, payments to such handlers should be reduced uniformly per hundredweight of milk. The handlers may then reduce payments to producers by an equivalent amount per hundredweight. Amounts remaining due such handlers from the producer-settlement fund should be paid as soon as the balance in the fund is sufficient, and handlers should then complete payments to producers.

4. *Producer butterfat differentials.* The butterfat differential used in making payments to producers should be calculated at the average of the returns actually received from the sale of butterfat in producer milk by each handler. The rate to be used for this purpose would be the average of the Class I, Class II, and Class III differentials weighted by the proportion of butterfat in producer milk classified in each class. Thus, producer returns for butterfat will reflect the actual sale value of their butterfat at the class differentials provided in the order. The producer butterfat differential in no way affects the handlers' costs of milk but merely prorates returns among producers according to the varying butterfat tests of their milk.

(e) *Other administrative provisions.* Certain other provisions are needed in each of the orders to carry out the administrative steps necessary to accomplish the purpose of the proposed regulations.

(1) *Terms and definitions.* In addition to the definitions discussed earlier in this decision which define the scope of the regulation, certain other terms and definitions are desirable in the interest of brevity and to assure that each usage of the term implies the same meaning. Other terms defined in each of the proposed orders are common to many other Federal milk orders.

(2) *Market Administrator.* Provisions are made for the appointment by the Secretary of market administrators to administer each of the orders and to set forth the powers and duties of the market administrators.

(3) *Records and reports.* Provision should be included in each of the orders to inform handlers that they are required to maintain adequate records of their operations and to make the reports necessary to establish the proper classification and pricing of milk and payments due producers for milk. Time limits must be prescribed for filing such reports and for making payments to producers. Dates must be established for the announcement of prices by the market administrators.

In view of the adoption of marketwide pooling under the Northeastern Wisconsin order, it is necessary to provide additional time for computation of the marketwide uniform price based upon receipt of reports from all handlers, and for handlers to make payments to producers. Under this type of pooling sufficient time must be provided for receiving monies due the producer-settlement fund and payments to handlers which are required to balance the pool. The dates of these payments will follow, in general, those under the Chicago order. The following time schedules should allow all interested persons adequate time to perform each function. These time limits apply to the indicated day of the month following the month for which computations are being made except Class I price announcements which are for the current month.

(i) Day of the month and function under the Michigan Upper Peninsula order are as follows:

5th day—Announcement of class prices by market administrators.

5th working day (exclusive of Sundays and holidays)—Submission of monthly reports of receipts and utilization by handlers.

10th day—Payment by handlers at class prices to cooperative associations operating fluid milk plants.

12th day—Announcement of uniform price for each handler by market administrator.

12th day—Notification by market administrator to each handler of the value of his producer milk in each class, and payments due for expenses of administration.

13th day—Payments by handlers to cooperative associations.

15th day—Payments by handlers to producers.

20th day—Submission of producer payrolls by each handler to the market administrator.

(ii) Day of the month and function under the Northeastern Wisconsin order are as follows:

5th day—Announcement of class prices by market administrator.

5th working day (exclusive of Sundays and holidays)—Submission of monthly reports of receipts and utilization by handlers.

10th day—Payment by handlers at class prices for milk received from pool plants of cooperative associations.

14th day—Announcement by market administrator of uniform price, notification to each handler of the value of producer milk in each class and payments due for expense of administration.

16th day—Payments by handler to cooperative associations collecting on behalf of members.

16th day—Payments by handler to market administrator for producer-settlement fund.

17th day—Payment by market administrator due to handlers out of producer-settlement fund.

18th day—Payments by handlers to producers.

25th day—Submission of producer payroll by each handler to the market administrator.

It is necessary that handlers retain records to prove the utilization of the milk received and that proper payments were made therefor. Since the books of all handlers associated with the market cannot be audited immediately it is necessary that such records be kept for a reasonable period of time.

Each of the orders should provide for specific limitations of the time that handlers should be required to retain their books and records and of the period of time in which obligations under the order should terminate. The provisions made in this regard are identical in principle with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444) covering the retention of records and limitation of claim is equally applicable in this situation and is adopted as a part of this decision.

(4) *Expense of administration.* As his share of the expenses of administering the respective order under which he is regulated each handler should pay not in excess of 5 cents per hundredweight with respect to all receipts of producer milk and such other source milk, not priced under another order, as is classified Class I milk. The expense of administration for handlers paritally regulated under the Northeastern Wisconsin order is discussed elsewhere in this decision.

Market administrators must verify receipts and utilization of all such milk, therefore, all such milk should be subject to the expenses of adminstration. Experience in other markets indicates that 5 cents per hundredweight with respect to all such milk should yield sufficient money to cover expenses of administration. If payment of expenses of administration at the rate of 5 cents per hundredweight yields more money than is needed, under either order, provision is made for the Secretary to prescribe a lesser rate of payment from time to time.

(5) *Marketing services.* A provision should be included in each of the orders for furnishing marketing services to producers, such as verifying tests and weights of producer milk and furnishing market information. These should be provided by the market administrators and the cost should be borne by the producers receiving the service. If a qualified cooperative association is found to be performing such services for any member producers in a similar manner, this will be accepted by the market administrators in lieu of their own service. These orders should provide that 6 cents per hundredweight, or such lesser amount as the Secretary may determine, be deducted from payments to such producers for use of the market administrators in financing such services.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of certain interested parties in the market. These briefs and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions set forth in the briefs are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or to reach such conclusions are denied.

General findings. (a) The proposed marketing agreements and orders and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in each of the marketing areas, and the minimum prices specified in the proposed marketing agreements and the orders are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in public interest; and

(c) The proposed marketing agreements and orders will regulate the handling of milk in the same manner as, and will be applicable to persons in the respective classes of industrial and commercial activity specified in, marketing agreements upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled.

Marketing agreement and order. Annexed here to and made a part hereof are four documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Michigan Upper Peninsula Marketing Area", "Order Regulating the Handling of Milk in the Michigan Upper Peninsula Marketing Area", "Marketing Agreement Regulating the Handling of Milk in the Northeastern Wisconsin Marketing Area", and "Order Regulating the Handling of Milk in the Northeastern Wisconsin Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreements, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreements are identical with those contained in the attached orders which will be published with this decision.

Referendum order; determination of representative period; and designation of referendum agent. It is hereby directed that a referendum be conducted among producers to determine whether the issuance of the attached order regulating the handling of milk in the Michigan Upper Peninsula marketing area, is approved or favored by the producers, as defined under the terms of the proposed order, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of June 1958, is hereby determined to be the representative period for the conduct of such referendum.

A. T. Radigan is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 30th day from the date this decision is issued.

Referendum order; determination of representative period; and designation of referendum agent. It is hereby directed that a referendum be conducted among producers to determine whether the issuance of the attached order regulating the handling of milk in the Northeastern Wisconsin marketing area, is approved or favored by the producers, as defined under the terms of the proposed order, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of June 1958, is hereby determined to be the representative period for the conduct of such referendum.

A. T. Radigan is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders, as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 30th day from the date this decision is issued.

Issued at Washington, D. C. this 15th day of September 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

Order Regulating the Handling of Milk in the Michigan Upper Peninsula Marketing Area

Sec.
1011.0 Findings and determinations.

DEFINITIONS

1011.1 Act.
1011.2 Secretary.
1011.3 U. S. D. A.
1011.4 Person.
1011.5 Michigan Upper Peninsula marketing area.
1011.6 Fluid milk product.
1011.7 Route.
1011.8 Fluid milk plant.
1011.9 Handler.
1011.10 Producer.
1011.11 Producer-handler.
1011.12 Producer milk.
1011.13 Other source milk.
1011.14 Cooperative association.

MARKET ADMINISTRATOR

1011.20 Designation.
1011.21 Powers.
1011.22 Duties.

REPORTS, RECORDS AND FACILITIES

1011.30 Monthly reports of receipts and utilization.
1011.31 Payroll reports.
1011.32 Producer-handler reports.
1011.33 Exempt handler reports.
1011.34 Records and facilities.
1011.35 Retention of records.

CLASSIFICATION

1011.40 Skim milk and butterfat to be classified.
1011.41 Classes of utilization.
1011.42 Shrinkage.
1011.43 Transfers.
1011.44 Responsibility of handlers.
1011.45 Computation of skim milk and butterfat in each class.
1011.46 Allocation of butterfat classified.
1011.47 Allocation of skim milk classified.
1011.48 Computation of total producer milk in each class.

MINIMUM PRICES

1011.50 Basic formula price.
1011.51 Class I milk price.
1011.52 Class II milk price.
1011.53 Class III milk price.
1011.54 Handler butterfat differential.
1011.55 Handler location adjustments.
1011.56 Equivalent price provision.

HANDLER'S OBLIGATION AND UNIFORM PRICE

1011.60 Value of producer milk.
1011.61 Computation of uniform price.
1011.62 Producer butterfat differential.
1011.63 Producer location adjustments.
1011.64 Notification.

PAYMENT FOR MILK

1011.70 Time and method of payment.
1011.71 Expense of administration.
1011.72 Marketing services.
1011.73 Errors in payment.
1011.74 Overdue accounts.
1011.75 Termination of obligations.

APPLICATION OF PROVISIONS

1011.80 Producer-handler exemption.
1011.81 Exempt handler.
1011.82 Handlers subject to other Federal orders.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

1011.90 Effective time.
1011.91 Suspension or termination.
1011.92 Continuing obligation.
1011.93 Liquidation.

MISCELLANEOUS PROVISIONS

1011.100 Agents.
1011.101 Separability of provisions.

AUTHORITY: §§ 1011.0 to 1011.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 1011.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Michigan Upper Peninsula marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in the order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 5 cents per hundredweight or such amount not to exceed 5 cents per hundredweight as the Secretary may prescribe, with respect to (a) All receipts within the month of milk from producers, including milk of such handler's own production; and (b) Any other source milk allocated to Class I pursuant to § 1011.46 (b) and the corresponding step of § 1011.47.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Michigan Upper Peninsula marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 1011.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1011.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 1011.3 *U. S. D. A.* "U. S. D. A." means the United States Department of Agriculture.

§ 1011.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 1011.5 *Michigan Upper Peninsula marketing area.* (a) "Michigan Upper Peninsula marketing area" (hereinafter referred to as the "marketing area") means all the territory including all municipal corporations within the zones described below in this section.

(b) "Zone 1": Counties of Delta, Dickinson, Gogebic, Iron, Ontonagon, all in the State of Michigan; the town of Niagara and the village of Niagara, in Marinette County; the towns of Aurora and Florence, in Florence County, and the towns of Carey, Kimball, Oma, Pence, Saxon and the cities of Hurley and Montreal in Iron County, all in the State of Wisconsin.

(c) "Zone 2": Counties of Alger, Baraga, Chippewa, Houghton, Keweenaw, Luce, Mackinac, Marquette and Schoolcraft, all in the State of Michigan.

§ 1011.6 *Fluid milk product.* "Fluid milk product" means milk, skim milk, flavored milk, flavored milk drinks, buttermilk, half and half and cream (sweet or sour).

§ 1011.7 *Route.* "Route" means a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product, other than a delivery to any milk processing plant.

§ 1011.8 *Fluid milk plant.* "Fluid milk plant" means the premises, buildings and facilities of any milk receiving, processing or packaging plant handling milk eligible for distribution in the marketing area as Grade A milk or conforming to the requirements of Michigan Act No. 169, Public Acts 1929, as amended:

(a) From which fluid milk products are disposed of during the month on routes in the marketing area except as provided in § 1011.81; or

(b) From which milk or skim milk is delivered to a plant(s) described in paragraph (a) of this section on 10 or more days in any of the months of July through December or on three or more days in any of the months of January through June.

§ 1011.9 *Handler.* "Handler" means a person who operates one or more fluid

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

milk plants or any other plant from which fluid milk products are disposed of during the month on routes in the marketing area.

§ 1011.10 *Producer.* "*Producer*" means a person, other than a producer-handler, who produces milk in conformity with the sanitation requirements for Grade A milk of any duly constituted health authority, or in conformity with the requirements of Michigan Act No. 169, Public Acts 1929, as amended, which milk is:

(a) Received at a fluid milk plant; or

(b) Diverted from such plant for the account of a handler (milk so diverted shall be deemed to have been received by the diverting handler at the fluid milk plant from which it was diverted).

§ 1011.11 *Producer-handler.* "Producer-handler" means a dairy farmer who distributes fluid milk products on a route in the marketing area but receives no fluid milk products during the month except his own production or from fluid milk plants.

§ 1011.12 *Producer milk.* "Producer milk" means milk received at a fluid milk plant directly from producers, or diverted to a nonfluid milk plant pursuant to § 1011.10.

§ 1011.13 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in (or represented by):

(a) Receipts during the month of fluid milk products except: (1) Receipts from other fluid milk plants or (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the fluid milk plant) which are reprocessed or converted to another product in the fluid milk plant during the month.

§ 1011.14 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers, as defined in § 1011.10, which the Secretary determines after application by the association is qualified under provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act".

MARKET ADMINISTRATOR

§ 1011.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal by the Secretary.

§ 1011.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1011.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(c) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(d) Pay out of the funds provided by § 1011.71:

(1) The cost of his bond and of the bonds of his employees,

(2) His own compensation, and

(3) All other expenses, except those incurred under § 1011.72, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 1011.30 through 1011.33, or (2) payments pursuant to §§ 1011.70, 1011.71, and 1011.72;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Audit records of all handlers or persons upon whose utilization the classification of skim milk and butterfat for each handler depends, to verify the reports and payments required pursuant to the provisions of this part; and

(i) Publicly announce the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum price for Class I milk pursuant to § 1011.51 and Class I butterfat differential pursuant to § 1011.54 (a), both for the current month; the minimum price for Class II milk pursuant to § 1011.52 and the Class II butterfat differential pursuant to § 1011.54 (b), both for the preceding month; and the minimum price for Class III milk pursuant to § 1011.53 and the Class III butterfat differential pursuant to § 1011.54 (b), both for the preceding month;

(2) On or before the 12th day of each month the uniform price for each handler for the preceding month, computed pursuant to § 1011.61 and the producer butterfat differential computed pursuant to § 1011.62.

REPORTS, RECORDS AND FACILITIES

§ 1011.30 *Monthly reports of receipts and utilization.* On or before the 5th day (exclusive of Sundays and holidays) of each month, each handler who operates fluid milk plant(s) shall report to the market administrator for the preceding month for each fluid milk plant in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of butterfat and skim milk contained in or represented by:

(1) Producer milk,

(2) Fluid milk products received from other fluid milk plants,

(3) Other source milk, and

(4) Inventories of fluid milk products on hand at the end of each month;

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section; and

(c) Such other information with respect to sources and disposition as the market administrator may prescribe.

§ 1011.31 *Payroll reports.* On or before the 20th day of each month each handler operating fluid milk plant(s) shall report his producer payroll for each fluid milk plant for the preceding month which shall show:

(a) The pounds of milk received from each producer and the percentage of butterfat contained therein;

(b) The date and net amount of payment to such producer, or to a cooperative association for such producer's milk, with the price, deductions and charges involved and the nature of each.

§ 1011.32 *Producer-handler reports.* Each producer-handler shall make reports at such time and in such manner as the market administrator may request.

§ 1011.33 *Exempt handler reports.* Each handler exempt pursuant to §§ 1011.81 and 1011.82 shall report to the market administrator his disposition of fluid milk products on routes within the marketing area at such time and in such manner as the market administrator shall prescribe.

§ 1011.34 *Records and facilities.* Each handler shall maintain and make available to the market administrator, during the usual hours of business, such accounts and records of all of his operations and such facilities as are necessary to verify reports or to ascertain the correct information with respect to:

(a) The receipts and utilization or disposition of all skim milk and butterfat received, including all milk products received and disposed of in the same form;

(b) The weights and tests for butterfat, skim milk and other content of all milk and milk products handled;

(c) Inventories of all dairy products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations.

§ 1011.35 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if within such three year period, the market administrator notifies a handler in writing that the reten-

tion of such books and records, or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1011.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat required to be reported pursuant to § 1011.30 shall be classified (separately as skim milk and butterfat), pursuant to §§ 1011.41 through 1011.45.

§ 1011.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1011.42 and 1011.43, the classes of utilization shall be:

(a) Class I utilization shall be all skim milk and butterfat:

(1) Disposed of in the form of fluid milk products, except those classified pursuant to paragraph (c) (2) of this section; and

(2) Not accounted for as Class II or Class III utilization.

(b) Class II utilization shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraphs (a) or (c) of this section; and

(2) In inventories of fluid milk products on hand at the end of the month.

(c) Class III utilization shall be all skim milk and butterfat:

(1) Used to produce butter, nonfat dry milk or cheese in any form except cottage cheese;

(2) In skim milk disposed of for livestock feed or dumped subject to prior notification to and verification (at his discretion) by the market administrator;

(3) In shrinkage of skim milk and butterfat allocated to milk received from producers, but not to exceed 2 percent of such receipts; and

(4) In shrinkage of other source milk.

§ 1011.42 *Shrinkage.* (a) When producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk transferred by a handler to another handler without first having been received in the transferor handler's plant shall be included in the receipts at the plant of the transferee handler for the purpose of computing his shrinkage and shall be excluded at the plant of the transferor handler in computing his shrinkage.

§ 1011.43 *Transfers.* Skim milk and butterfat transferred or diverted as milk, skim milk or cream in bulk form from a fluid milk plant to:

(a) The fluid milk plant of another handler shall be classified at the utilization indicated by the operators of both plants in their reports submitted pursuant to § 1011.30, otherwise as Class I utilization, subject in either event to the following conditions:

(1) The receiving plant has utilization in such class of an equivalent amount of skim milk and butterfat, respectively, and

(2) Such skim milk and butterfat shall be classified so as to allocate to producer milk the greatest possible total Class I utilization in the two plants;

(b) A plant operated by a producer-handler or a handler exempt pursuant to § 1011.81, shall be Class I utilization; and

(c) A nonfluid milk plant (except as specified in paragraph (b) of this section) shall be Class I utilization unless the following conditions apply:

(1) Utilization in another class is claimed by the transferring handler in his report submitted pursuant to § 1011.30 for the month;

(2) Class I utilization in the nonfluid milk plant does not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers who the market administrator determines are the regular source of supply for fluid disposition of such plant. If Class I utilization exceeds such receipts, the skim milk and butterfat transferred shall be Class I to the extent of such excess, and

(3) The operator of the nonfluid milk plant maintains books and records which are made available if requested by the market administrator and which are adequate for the verification of such utilization.

§ 1011.44 *Responsibility of handlers.* All skim milk and butterfat shall be classified as Class I utilization unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 1011.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and obvious errors the monthly report submitted by each handler and compute the total pounds of skim milk and butterfat respectively, in Class I, Class II and Class III utilization for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water normally associated with such solids in the form of whole milk.

§ 1011.46 *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class III utilization, the pounds of butterfat shrinkage allowed pursuant to § 1011.41 (c) (3);

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk received from a plant(s) other than those subject to another marketing agreement or order issued pursuant to the act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk received from a plant(s) subject to another marketing agreement or order issued pursuant to the act;

(d) Subtract from the pounds of butterfat remaining in Class II milk and Class I milk, in series beginning with Class II, the pounds of butterfat contained in inventory of fluid milk products on hand at the beginning of the month;

(e) Subtract from the remaining pounds of butterfat in each class the pounds of butterfat received from fluid milk plants of other handlers according to the classification established pursuant to §§ 1011.41 and 1011.43 (a);

(f) Add to the remaining pounds of butterfat in Class III utilization the pounds subtracted pursuant to paragraph (a) of this section; and

(g) If the remaining pounds of butterfat in all classes exceed the pounds of butterfat in milk received from producers, subtract such overage from the remaining pounds of butterfat in each class in series, beginning with the lowest-priced utilization.

§ 1011.47 *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to milk received from producers in the same manner as that prescribed for butterfat in § 1011.46.

§ 1011.48 *Computation of total producer milk in each class.* The amounts computed pursuant to §§ 1011.46 and 1011.47 will be combined into one total for each class and the weighted average butterfat content of producer milk in each class will be determined.

MINIMUM PRICES

§ 1011.50 *Basic formula price.* The basic formula price shall be the higher of the prices computed pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic or field prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the U. S. D. A.:

Present Operator and Location

Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed from the following formula:

(1) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-

score) bulk creamery butter per pound at Chicago, as reported by the U. S. D. A., during the month: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter.

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period, by the U. S. D. A.; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 75.2 cents and adjust to the nearest full cent.

§ 1011.51 *Class I milk price.* Subject to the provisions of § 1011.54 the minimum price to be paid by each handler for milk received at his fluid milk plant from producers or the fluid milk plant of a cooperative association during the month and utilized as Class I milk during the 18 month period following the effective date of this part shall be the basic formula price for the preceding month, plus the applicable amounts specified below for the marketing area zone in which such plant is located. For plants located outside the marketing area and west of Lake Michigan the price (subject to § 1011.55) shall be that specified for Zone 1. For plants located outside the marketing area and east of Lake Michigan the price (subject to § 1011.55) shall be that specified for Zone 2.

Zone	Months of March through June	Months of January February and December	Months of July through November
1	$0.75	$0.95	$1.15
2	.95	1.15	1.35

§ 1011.52 *Class II milk price.* Subject to the provisions of § 1011.54, the minimum price to be paid by each handler for milk received at his fluid milk plant from producers or from the fluid milk plant of a cooperative association, during the month and utilized as Class II milk shall be the basic formula price.

§ 1011.53 *Class III milk price.* Subject to the provisions of § 1011.54 the minimum price per hundredweight to be paid by each handler for milk received at his fluid milk plant from producers or the fluid milk plant of a cooperative association during the month and utilized as Class III milk shall be the price computed pursuant to § 1011.50 (b) less ten cents.

§ 1011.54 *Handler butterfat differential.* If the average butterfat test of Class I milk, Class II milk or Class III milk as computed pursuant to § 1011.48 is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of one percent that such average butterfat test is above or below 3.5 percent, a butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the U. S. D. A. during the month specified below by the applicable factor listed, and rounding to the nearest one-tenth cent:

(a) For Class I milk, multiply such price for the preceding month by 0.125;

(b) For Class II and Class III milk, multiply such price for the current month by 0.115.

§ 1011.55 *Handler location adjustments.* (a) For milk received at a fluid milk plant located outside the marketing area, west of Lake Michigan and more than 50 miles from the nearer of the City Hall in Ironwood, Michigan, or the City Hall in Iron Mountain, Michigan, the applicable Zone 1 price for Class I milk shall be reduced 10 cents, plus 2 cents for each 20 miles or fraction thereof in excess of 70 miles.

(b) For milk received at a fluid milk plant located outside the marketing area, east of Lake Michigan, and more than 50 miles from the City Hall in St. Ignace, Michigan the applicable Zone 2 price for Class I milk shall be reduced 10 cents, plus 2 cents for each 20 miles or fracton thereof in excess of 70 miles.

(c) Any distance used to determine locaton adjustments shall be the shortest hard surfaced highway distance as determined by the market administrator.

§ 1011.56 *Equivalent price provision.* Whenever the provisions of this part require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining minimum class prices or for any other purpose and the specified price is not reported or published, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with, the price specified.

HANDLER'S OBLIGATION AND UNIFORM PRICE

§ 1011.60 *Value of producer milk.* The value of producer milk received by each handler at fluid milk plant(s) shall be computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class, as computed pursuant to § 1011.48, by the applicable respective class prices (adjusted pursuant to §§ 1011.54 and 1011.55), and add together the resulting amounts;

(b) Add the amounts computed by multiplying the quantity of overage assigned to each class pursuant to § 1011.46 (g) and the corresponding step of § 1011.47 by the applicable class price;

(c) Add the amount obtained in multiplying by the difference between the Class II price for the preceding month and the Class I price for the current month the lesser of:

(1) The hundredweight of milk subtracted from Class I pursuant to § 1011.46 (d) and the corresponding step of § 1011.47; or

(2) The hundredweight of producer milk classified as Class II, during the preceding month; and

(d) Add or subtract, as the case may be, the amount necessary to correct errors in receipts or utilization for previous months as disclosed by audit by the market administrator.

§ 1011.61 *Computation of uniform price.* For each month the market administrator shall compute for each handler a "uniform price" per hundredweight of producer milk of 3.5 percent butterfat content delivered to fluid milk plants of such handler as follows:

(a) From the value of milk computed for such handler pursuant to § 1011.60, subtract, if the weighted average butterfat test of all milk represented by such value is greater than 3.5 percent or add if the weighted average butterfat test of such milk is less than 3.5 percent an amount computed by multiplying the total pounds of butterfat represented by the difference of such weighted average butterfat test from 3.5 percent by the butterfat differential computed pursuant to § 1011.62 multiplied by 10;

(b) Adjust the resulting amount by the sum of money used in adjusting the uniform price, pursuant to paragraph (c) of this section for the previous month to the nearest cent;

(c) Except as provided in paragraph (d) of this section, divide the result by the total hundredweight of producer milk represented by the amount computed pursuant to § 1011.60 (a) and adjust the resulting figure to the nearest cent. The "uniform price" so computed shall be that applicable to milk delivered to the fluid milk plant(s) of a handler at which plant or plants a single Class I price is applicable pursuant to §§ 1011.51 and 1011.55;

(d) For each handler operating two or more fluid milk plants at which different Class I prices are applicable pursuant to §§ 1011.51 and 1011.55, the value of milk used in the computation provided in paragraph (c) of this section shall first be further adjusted by adding the value of all applicable producer location adjustments pursuant to § 1011.63. The uniform price as computed shall be that applicable at the plant or plants of such handler at which the highest Class I price is applicable.

§ 1011.62 *Producer butterfat differential.* The applicable uniform prices to be paid pursuant to § 1011.70 to producers delivering milk to each handler shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 3.5 percent, respectively, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 1011.54, weighted by the pounds of butterfat in producer milk used by such handler in each class and the result rounded to the nearest tenth of a cent.

§ 1011.63 *Producer location adjustments.* In making payments pursuant to § 1011.70 to producers or a cooperative association for milk for which a uniform price was computed pursuant to § 1011.61 (d) such uniform price for milk received at a plant at which a lesser Class I price is applicable than at the plant for which the uniform price is computed shall be

reduced by an amount equal to the difference between the applicable Class I prices.

§ 1011.64 *Notification.* On or before the 12th day after the end of each month, the market administrator shall mail to each handler, at his last known address a statement showing for such month:

(a) The amount and value of his producer milk in each class;

(b) The uniform price applicable at each fluid milk plant of such handler pursuant to §§ 1011.61 and 1011.63 and the butterfat differential computed pursuant to § 1011.62; and

(c) The amounts to be paid by such handler pursuant to §§ 1011.71 and 1011.72.

PAYMENT FOR MILK

§ 1011.70 *Time and method of payment.* (a) Except as provided in paragraph (b) or (c) of this section, on or before the 15th day after the end of each month each handler who received milk from producers shall pay for milk received during such month to each producer for milk received from him the uniform price as provided in § 1011.61 adjusted by the butterfat differential pursuant to § 1011.62 and the location adjustment pursuant to § 1011.63.

(b) (1) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any claim on the part of the association, each handler shall pay to the cooperative association on or before the 13th day of each month, in lieu of payments pursuant to paragraph (a) of this section, an amount equal to the gross sum due for all milk received from certified members, less amount owing by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer and submit to the cooperative association on or before the 13th day of each month, written information which shows for each such member-producer:

(i) The total pounds of milk received from him during the preceding month,

(ii) The total pounds of butterfat contained in such milk.

(iii) The number of days on which milk was received, and

(iv) The amounts withheld by the handler in payment for supplies sold.

The foregoing payment and submission of information shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association.

(2) A copy of each such request, promise to reimburse, and a certified list of members shall be filed simultaneously with the market administrator by the association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, shall be made by written notice to the market administrator, and shall be subject to his determination.

(c) Each handler shall make payment to a cooperative association for milk received from the fluid milk plant of such cooperative association on or before the 10th day after the end of the month in which it was received, at not less than the applicable class prices.

§ 1011.71 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 13th day after the end of each month, 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe with respect to:

(a) All receipts within the month of milk from producers, including milk of such handler's own production; and

(b) Any other source milk allocated to Class I pursuant to § 1011.46 (b) and the corresponding step of § 1011.47.

§ 1011.72 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments pursuant to § 1011.70 for milk received from each producer (excluding milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight, as the Secretary may prescribe, and on or before the 13th day after the end of each month shall pay such deductions to the market administrator. Such monies shall be used by the market administrator to verify weights, samples and tests of milk received from producers and to provide producers with market information, such services to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers whose milk is received at a fluid milk plant not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the Secretary, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from payments required pursuant to § 1011.70 as may be authorized by such producers, and pay such deductions on or before the 13th day after the end of the month to the cooperative association rendering such services of which such producers are members.

§ 1011.73 *Errors in payment.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in monies due:

(a) To the market administrator from such handler,

(b) To such handler from the market administrator, or

(c) To any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due; and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 1011.74 *Overdue accounts.* Any unpaid obligation of a handler or of the market administrator pursuant to §§ 1011.71, 1011.72 and 1011.73 shall be increased one-half of one percent on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 1011.75 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or association or, if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the Act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 1011.80 *Producer-handler exemption.* A producer-handler shall be exempt from all provisions of this part except §§ 1011.32, 1011.34 and 1011.35.

§ 1011.81 *Exempt handler.* A handler who operates a fluid milk plant, of the type specified in § 1011.8 (a), located outside the marketing area from which an average of less than 600 pounds of fluid milk products per day are disposed of during the month in the marketing area on route(s), shall be exempt from all provisions of this part except §§ 1011.33 through 1011.35.

§ 1011.82 *Handlers subject to other Federal orders.* The provisions of this part shall not apply to a handler with respect to the operation of a fluid milk plant during any month in which the milk at such plant would be subject to the classification, pricing and payment provisions of another marketing agreement or order issued pursuant to the Act and the disposition of fluid milk products in the other Federal marketing area exceeds that in the Michigan Upper Peninsula marketing area: *Provided*, That the operator of a fluid milk plant which is exempted from the provisions of this part pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1011.90 *Effective time.* The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1011.91 *Suspension or termination.* The Secretary shall, whenever he finds that this part, or any provision of this part, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision of this part.

§ 1011.92 *Continuing obligation.* If upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1011.93 *Liquidation.* Under the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers, in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1011.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1011.101 *Separability of provisions.* If any provision of this part, or the application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Order[1] Regulating the Handling of Milk in the Northeastern Wisconsin Marketing Area

Sec.
1016.0 Findings and determinations.

DEFINITIONS

1016.1 Act.
1016.2 Secretary.
1016.3 U. S. D. A.
1016.4 Person.
1016.5 Northeastern Wisconsin Marketing area.
1016.6 Fluid milk product.
1016.7 Route.
1016.8 Pool plant.
1016.9 Handler.
1016.10 Producer.
1016.11 Producer-Handler.
1016.12 Producer milk.
1016.13 Other source milk.
1016.14 Cooperative association.

MARKET ADMINISTRATOR

1016.20 Designation.
1016.21 Powers.
1016.22 Duties.

REPORTS, RECORDS AND FACILITIES

1016.30 Monthly reports of receipts and utilization.
1016.31 Payroll reports.
1016.32 Producer-handler reports.
1016.33 Exempt handler reports.
1016.34 Records and facilities.
1016.35 Retention of records.

CLASSIFICATION

1016.40 Skim milk and butterfat to be classified.
1016.41 Classes of utilization.
1016.42 Shrinkage.
1016.43 Transfers.
1016.44 Responsibility of handlers.
1016.45 Computation of skim milk and butterfat in each class.
1016.46 Allocation of butterfat classified.
1016.47 Allocation of skim milk classified.
1016.48 Computation of total producer milk in each class.

MINIMUM PRICES

1016.50 Basic formula price.
1016.51 Class I milk price.
1016.52 Class II milk price.
1016.53 Class III milk price.
1016.54 Handler butterfat differential.
1016.55 Equivalent price provision.

HANDLER'S OBLIGATION AND UNIFORM PRICE

1016.60 Value of producer milk.
1016.61 Computation of uniform price.
1016.62 Producer butterfat differential.
1016.63 Producer location adjustments.
1016.64 Notification.

PAYMENT FOR MILK

1016.70 Time and method of payment.
1016.71 Producer-equalization fund.
1016.72 Payments to the producer-equalization fund.
1016.73 Payments out of the producer-equalization fund.
1016.74 Expense of administration.
1016.75 Marketing services.
1016.76 Errors in payment.
1016.77 Overdue accounts.
1016.78 Termination of obligations.

APPLICATION OF PROVISIONS

1016.80 Producer-handler exemption.
1016.81 Exempt handler.
1016.82 Handlers subject to other Federal orders.
1016.83 Handlers operating a nonpool distributing plant.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

1016.90 Effective time.
1016.91 Suspension or termination.
1016.92 Continuing obligation.
1016.93 Liquidation.

MISCELLANEOUS PROVISIONS

1016.100 Agents.
1016.101 Separability of provisions.

AUTHORITY: §§ 1016.0 to 1016.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 1016.0 *Findings and determinations—(a) Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Northeastern Wisconsin marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 5 cents per hundredweight or such amount not to exceed 5 cents per hundredweight as the Secretary may prescribe, with respect to (a) all receipts within the month of milk from producers, including milk of such handler's own production; (b) any other source milk allocated to Class I pursuant to § 1016.46 (b) and the corresponding step of § 1016.47; and (c) the applicable amount specified in § 1016.83 (a) (2) or (b) (2).

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Northeastern Wisconsin marketing area shall be in conformity to, and in compliance with, the following terms and conditions:

DEFINITIONS

§ 1016.1 *Act.* "Act" means Public Act No. 10, 73d Congress as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.).

§ 1016.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 1016.3 *U. S. D. A.* "U. S. D. A." means the United States Department of Agriculture.

§ 1016.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 1016.5 *Northeastern Wisconsin marketing area.* The Northeastern Wisconsin marketing area, hereinafter referred to as the "marketing area", means all territory within (a) the counties of Brown, Calumet, Kewaunee, Langlade, Lincoln, Manitowoc, Oneida, Outagamie, Portage, Shawano (exclusive of the Menominee Indian Reservation), Sheboygan, Vilas, Waupaca and Winnebago, all in Wisconsin, including all towns, villages and cities; (b) the County of Fond du Lac, Wisconsin, exclusive of the towns of Alto, Ashford, Auburn, Byron, Eden, Oakfield, Osceola and Waupun, the villages of Campbellsport, Eden and Oakfield, and the city of Waupun; (c) the city of Sturgeon Bay in Door County, Wisconsin; (d) the towns of Bergen, Berlin, Bevent, Easton, Elderon, Franzen, Guenther, Harrison, Hewitt, Knowlton, Kronenwetter, Maine, Marathon, Mosinee, Norrie, Plover, Reid, Rib Mountain, Ringle, Stettin, Texas, Wausau and Weston, the villages of Brokaw, Elderon, Hatley, Marathon and Rothschild, and the cities of Mosinee Schofield and Wausau, all in Marathon County, Wisconsin; (e) the town of Peshtigo and the cities of Marinette and Peshtigo in Marinette County, Wisconsin; (f) the cities of Gillett, Oconto and Oconto Falls in Oconto County, Wisconsin; (g) the towns of Cranmoor, Grand Rapids, Port Edwards, Rudolph, Saratoga and Seneca, the villages of Biron and Port Edwards, and the cities of Nekoosa and Wisconsin Rapids in Wood County, Wisconsin; and (h) the city of Menominee in Menominee County, Michigan.

§ 1016.6 *Fluid milk product.* "Fluid milk product" means milk, skim milk, flavored milk, flavored milk drinks, buttermilk, half and half and cream (sweet or sour).

§ 1016.7 *Route.* "Route" means a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product, other than a delivery to any milk processing plant.

§ 1016.8 *Pool plant.* "Pool Plant" means any milk plant approved by a duly constituted authority for the handling of milk to be labeled Grade A, except as provided in §§ 1016.80, 1016.81 and 1016.82:

(a) At which milk is processed or packaged and from which during the month:

(1) Disposition on routes in the marketing area of fluid milk products labeled Grade A is 20 percent or more of receipts of Grade A milk from dairy farmers, and

(2) Total disposition on routes of fluid milk products labeled Grade A is 50 percent or more of receipts of Grade A milk from dairy farmers and other milk plants; or

(b) At which milk eligible for distribution as Grade A milk is received from dairy farmers and from which during the month 50 percent or more of such receipts is moved to a plant described in paragraph (a) of this section. Any such receiving plant that was a pool plant during each of the months of August through November immediately preceding shall continue to be a pool plant for each of the succeeding months of December through July unless written request to the contrary is filed with the market administrator on or before the first day of any such month.

§ 1016.9 *Handler.* "Handler" means (a) the operator of a pool plant in his capacity as such; (b) the operator of any other plant from which fluid milk products labeled Grade A are disposed of during the month on routes in the marketing area; or (c) a cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant.

§ 1016.10 *Producer.* (a) "Producer" means a person, other than a producer-handler, who produces Grade A milk in conformity with the sanitation requirements of any duly constituted Federal, state, county, or municipal authority, whose milk is received at a pool plant. "Producer" shall also include any such person with respect to milk diverted from a pool plant to a nonpool plant for the account of a handler or cooperative association. Milk so diverted shall be deemed to have been received at the pool plant from which diverted, if for the account of the operator of such plant, or at an identical location if for the account of a cooperative association through diversion from the pool plant of another handler.

(b) During the months of March, April, May and June "producer" shall not include any such person whose milk is received or diverted from a farm from which a base applicable for the current year was earned under the provisions of either Federal Order No. 41 or Federal Order No. 7 by delivery to a plant subject to such order operated by the handler, an affiliate of such handler or any person who controls or is controlled by such handler.

§ 1016.11 *Producer-handler.* "Producer-handler" means a dairy farmer who distributes fluid milk products on a route in the marketing area, but receives no fluid milk products during the month except his own production or by transfer from pool plants.

§ 1016.12 *Producer milk.* "Producer milk" means milk received at a pool plant directly from producers, or diverted to a nonpool plant pursuant to § 1016.10.

§ 1016.13 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in (or represented by):

(a) Receipts during the month of fluid milk products except

(1) Receipts from other pool plants or

(2) Producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the pool plant) which are reprocessed or converted to another product in the pool plant during the month.

§ 1016.14 *Cooperative Association.* "Cooperative Association" means any cooperative marketing association of producers, as defined in § 1016.10, which the Secretary determines after application by the association is qualified under provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act."

MARKET ADMINISTRATOR

§ 1016.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, governing proceedings to formulate marketing agreements and orders, have been met.

by, and shall be subject to removal by the Secretary.

§ 1016.21 *Powers.* The market administrator shall have the following powers with respect to this part.

(a) To administer its terms and provisions;

(b) To receive, investigate and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1016.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(c) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(d) Pay out of the funds provided by § 1016.74;

(1) The cost of his bond and of the bonds of his employees,

(2) His own compensation, and

(3) All other expenses, except those incurred under § 1016.75, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 1016.30 through 1016.33, or (2) payments pursuant to §§ 1016.70 through 1016.76;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Audit records of all handlers or persons upon whose utilization the classification of skim milk and butterfat for each handler depends, to verify the reports and payments required pursuant to the provisions of this part; and

(i) Publicly announce the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum price for Class I milk pursuant to § 1016.51 and the Class I butterfat differential pursuant to § 1016.54 (a), both for the current month; the minimum price for Class II milk pursuant to § 1016.52 and the Class II butterfat differential pursuant to § 1016.54 (b), both for the preceding month; and the minimum price for Class III milk pursuant to § 1016.53 and the Class III butterfat differential pursuant to § 1016.54 (b), both for the preceding month;

(2) On or before the 14th day of each month the uniform price for the preceding month, computed pursuant to § 1016.61 and the producer butterfat differential computed pursuant to § 1016.62.

Reports, Records and Facilities

§ 1016.30 *Monthly reports of receipts and utilization.* On or before the 5th day (exclusive of Sundays and holidays) of each month, each handler who operates pool plants, each cooperative association that is a handler pursuant to § 1016.9 (c) and each handler whose obligation is computed pursuant to § 1016.83 shall report to the market administrator for the preceding month for each pool plant, in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of butterfat and skim milk contained in or represented by:

(1) Producer milk, or receipts from dairy farmers producing Grade A milk,

(2) Fluid milk products received from other pool plants,

(3) Other source milk, and

(4) Inventories of fluid milk products on hand at the end of each month;

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section; and

(c) Such other information with respect to sources and disposition as the market administrator may prescribe.

§ 1016.31 *Payroll reports.* On or before the 25th day of each month each handler operating a pool plant or receiving Grade A milk from dairy farmers shall report his producer payroll for each pool plant for the preceding month which shall show:

(a) The pounds of milk received from each producer or dairy farmer producing Grade A milk and the percentage of butterfat contained therein;

(b) The date and net amount of payment to such producer or dairy farmer, or to a cooperative association for such producer's milk, with the price, deductions and charges involved and the nature of each.

§ 1016.32 *Producer-handler reports.* Each producer-handler shall make reports at such time and in such manner as the market administrator may request.

§ 1016.33 *Exempt handler reports.* Each handler exempt pursuant to §§ 1016.81 and 1016.82 shall report to the market administrator his disposition of fluid milk products on routes within the marketing area at such time and in such manner as the market administrator shall prescribe.

§ 1016.34 *Records and facilities.* Each handler shall maintain and make available to the market administrator, during the usual hours of business such accounts and records of all of his operations and such facilities as are necessary to verify reports or to ascertain the correct information with respect to:

(a) The receipts and utilization or disposition of all skim milk and butterfat received, including all milk products received and disposed of in the same form;

(b) The weights and tests for butterfat, skim milk and other content of all milk and milk products handled;

(c) Inventories of all dairy products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations.

§ 1016.35 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if within such three year period, the market administrator notifies a handler in writing that the retention of such books and records, or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1016.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat required to be reported pursuant to § 1016.30 shall be classified (separately as skim milk and butterfat), pursuant to §§ 1016.41 through 1016.45.

§ 1016.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1016.42 and 1016.43, the classes of utilization shall be:

(a) Class I utilization shall be all skim milk and butterfat:

(1) Disposed of in the form of fluid milk products, except those classified pursuant to paragraph (c) (2) of this section; and

(2) Not accounted for as Class II and Class III utilization.

(b) Class II utilization shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraphs (a) or (c) of this section; and

(2) In inventories of fluid milk products on hand at the end of the month.

(c) Class III utilization shall be all skim milk and butterfat:

(1) Used to produce butter, nonfat dry milk or cheese in any form except cottage cheese;

(2) In skim milk disposed of for livestock feed or dumped subject to prior notification to and verification (at his discretion) by the market administrator;

(3) In shrinkage of skim milk and butterfat allocated to milk received from producers, but not to exceed 2 percent of such receipts; and

(4) In shrinkage of other source milk.

§ 1016.42 *Shrinkage.* (a) When producer milk is utilized in conjunction with other source milk, the shrinkage shall be allocated pro rata between the receipts of skim milk and butterfat in producer milk and other source milk.

(b) Producer milk transferred by a handler to another handler without first having been received in the transferor handler's plants shall be included in the receipts at the plant of the transferee handler for the purpose of computing his shrinkage and shall be excluded at the plant of the transferor handler in computing his shrinkage.

§ 1016.43 *Transfers.* Skim milk and butterfat transferred or diverted as milk, skim milk or cream in bulk form from a pool plant to:

(a) The pool plant of another handler shall be classified at the utilization indicated by the operators of both plants in their reports submitted pursuant to § 1016.30, otherwise as Class I utilization, subject in either event to the following conditions:

(1) The receiving plant has utilization in such class of an equivalent amount of skim milk and butterfat, respectively, and

(2) Such skim milk and butterfat shall be classified so as to allocate to producer milk the greatest possible total Class I utilization in the two plants;

(b) A plant operated by a producer-handler or a handler exempt pursuant to § 1016.81, shall be Class I utilization;

(c) A nonpool plant (except as specified in paragraph (b) of this section) shall be Class I utilization unless the following conditions apply:

(1) Utilization in another class is claimed by the transferring handler in his report submitted pursuant to § 1016.30 for the month,

(2) Class I utilization in the nonpool milk plant does not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers who the market administrator determines are the regular source of supply of Grade A milk for such plant. If Class I utilization exceeds such receipts, the skim milk and butterfat transferred shall be Class I to the extent of such excess, and

(3) The operator of the nonpool milk plant maintains books and records which are made available if requested by the market administrator and which are adequate for the verification of such utilization.

§ 1016.44 *Responsibility of handlers.* All skim milk and butterfat shall be classified as Class I utilization unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 1016.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and obvious errors the monthly report submitted by each handler and compute the total pounds of skim milk and butterfat respectively, in Class I, Class II and Class III utilization for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water normally associated with such solids in the form of whole milk.

§ 1016.46 *Allocation of butterfat classified.* The pounds of butterfat remaining after making the following computations shall be the pounds in each class allocated to milk received from producers:

(a) Subtract from the total pounds of butterfat in Class III utilization, the pounds of butterfat shrinkage allowed pursuant to § 1016.41 (c) (3);

(b) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk received from a plant(s) other than those subject to another marketing agreement or order issued pursuant to the act;

(c) Subtract from the pounds of butterfat remaining in each class, in series beginning with the lowest-priced utilization, the pounds of butterfat in other source milk received from a plant subject to another marketing agreement or order issued pursuant to the act;

(d) Subtract from the pounds of butterfat remaining in Class II milk and Class I milk, in series beginning with Class II, the pounds of butterfat contained in inventory of fluid milk products on hand at the beginning of the month;

(e) Subtract from the remaining pounds of butterfat in each class the pounds of butterfat received as fluid milk products from pool plants of other handlers according to the classification established pursuant to §§ 1016.41 and 1016.43 (a);

(f) Add to the remaining pounds of butterfat in Class III utilization the pounds subtracted pursuant to paragraph (a) of this section; and

(g) If the remaining pounds of butterfat in all classes exceed the pounds of butterfat in milk received from producers, subtract such overage from the remaining pounds of butterfat in each class in series, beginning with the lowest-priced utilization.

§ 1016.47 *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to milk received from producers in the same manner as that prescribed for butterfat in § 1016.46.

§ 1016.48. *Computation of total producer milk in each class.* The amounts computed pursuant to §§ 1016.46 and 1016.47 will be combined into one total for each class and the weighted average butterfat content of producer milk in each class will be determined.

MINIMUM PRICES

§ 1016.50 *Basic formula price.* The basic formula price shall be the higher of the prices computed pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic or field prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the U. S. D. A.

Present Operator and Location

Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richmond Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed from the following formula:

(1) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the U. S. D. A., during the month: *Provided,* That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter.

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period, by the U. S. D. A.; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 75.2 cents and adjust to the nearest full cent.

§ 1016.51 *Class I milk price.* Subject to the provisions of § 1016.54 the minimum price to be paid by each handler for milk received at his pool plant from producers or the pool plant of a cooperative association during the month and utilized as Class I milk during the 18 month period following the effective date of this part shall be:

(a) Except as provided in paragraph (b) of this section, the basic formula price for the preceding month plus $0.54 for the months of March, April, May and June; $0.74 for the months of January, February, July and December; and $0.94 for all other months.

(b) For plants located in the Wisconsin counties of Florence, Forest, Marinette, Oneida and Vilas or in the State of Michigan, the price computed in paragraph (a) of this section shall be increased ten cents.

§ 1016.52 *Class II milk price.* Subject to the provisions of § 1016.54 the minimum price to be paid by each handler for milk received at his pool plant from producers or the pool plant of a cooperative association, during the month and utilized as Class II milk shall be the basic formula price.

§ 1016.53 *Class III milk price.* Subject to the provision of § 1016.54 the minimum price per hundredweight to be paid by each handler for milk received at his pool plant from producers or the pool plant of a cooperative association during the month and utilized as Class III milk shall be the price computed pursuant to § 1016.50 (b).

§ 1016.54 *Handler butterfat differential.* If the average butterfat test of Class I milk, Class II milk or Class III milk as computed pursuant to § 1016.48 is more or less than 3.5 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of one percent that such average butterfat test is above or below 3.5 percent, a butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the U. S. D. A. during the month specified below by the applicable factor listed, and rounding to the nearest one-tenth cent:

(a) For Class I milk, multiply such price for the preceding month by 0.125;

(b) For Class II and Class III milk, multiply such price for the current month by 0.115.

§ 1016.55 *Equivalent price provision.* Whenever the provisions of this part require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining minimum class prices or for any other purpose and the specified price is not reported or published, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with, the price specified.

HANDLER'S OBLIGATION AND UNIFORM PRICE

§ 1016.60 *Value of producer milk.* The value of producer milk received by each handler at pool plant(s) and by any cooperative association with respect to milk for which it is a handler pursuant to § 1016.9 (c) shall be computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class, as computed pursuant to § 1016.48, by the applicable respective class prices (adjusted pursuant to § 1016.54);

(b) Add the amounts computed by multiplying the quantity of overage assigned to each class pursuant to § 1016.46 (g) and the corresponding step of § 1016.47 by the applicable class price;

(c) Add the amount obtained in multiplying by the difference between the Class II price for the preceding month and the Class I price for the current month the lesser of:

(1) The hundredweight of milk subtracted from Class I pursuant to § 1016.46 (d) and the corresponding step of § 1016.47; or

(2) The hundredweight of producer milk classified as Class II, during the preceding month; and

(d) If during the month total receipts of producer milk were 110 percent or more of the total Class I milk at pool plants, add an amount equal to the difference between the values (at test and location) at the Class I price and Class III price with respect to (1) Other source milk subtracted from Class I pursuant to § 1016.46 (b) and the corresponding step of § 1016.47; and

(2) Milk in inventory subtracted from Class I pursuant to § 1016.46 (d) and the corresponding step of § 1016.47 which is in excess of the sum of:

(i) The quantity for which payment is computed pursuant to paragraph (c) of this section; and

(ii) The quantity subtracted from Class II pursuant to § 1016.46 (c) and the corresponding step of § 1016.47 in the month preceding.

§ 1016.61 *Computation of uniform price.* For each month, the market administrator shall compute the uniform price per hundredweight for producer milk of 3.5 percent butterfat content delivered to pool plants other than those specified in § 1016.63, as follows:

(a) Combine into one total the individual values of milk of all handlers computed pursuant to § 1016.60;

(b) Add, if the weighted average butterfat test of all producer milk represented in paragraph (a) of this section is less than 3.5 percent, or subtract, if the weighted average butterfat test of such milk is more than 3.5 percent, an amount computed by multiplying the total pounds of butterfat represented by the difference of such average butterfat test from 3.5 percent by the butterfat differential provided in § 1016.62 multiplied by 10;

(c) Subtract the aggregate of the values of the applicable producer location adjustments pursuant to § 1016.63;

(d) Add not less than one half of the unobligated balance in the producer-equalization fund;

(e) Divide the resulting amount by the hundredweight of milk received from producers; and

(f) Subtract not less than 4 cents nor more than 5 cents.

§ 1016.62 *Producer butterfat differential.* The applicable uniform prices to be paid pursuant to § 1016.70 to producers delivering milk to each handler shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 3.5 percent, respectively, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 1016.54, weighted by the pounds of butterfat in producer milk used by such handler in each class and the result rounded to the nearest tenth of a cent.

§ 1016.63 *Producer location adjustments.* In making payments pursuant to § 1016.70 to producers or a cooperative association for milk received at a plant located in the Wisconsin counties of Florence, Forest, Marinette, Oneida or Vilas or in the State of Michigan, the uniform price computed pursuant to § 1016.61 shall be increased 10 cents.

§ 1016.64 *Notification.* On or before the 14th day after the end of each month, the market administrator shall mail to each handler, at his last known address a statement showing for such month:

(a) The amount and value of his producer milk in each class;

(b) The uniform price for the month pursuant to §§ 1016.61 and 1016.63 and the butterfat differential computed pursuant to § 1016.62; and

(c) The amount due such handler pursuant to § 1016.73 and the amounts to be paid by such handler pursuant to §§ 1016.72, 1016.74 and 1016.75.

PAYMENT FOR MILK

§ 1016.70 *Time and method of payment.* (a) (1) Except as provided in paragraphs (b) and (c) of this section, on or before the 18th day after the end of each month each handler who received milk from producers shall pay for milk received during such month to each producer for milk received from him the uniform price as provided in § 1016.61 adjusted by the butterfat differential pursuant to § 1016.62 and the location adjustment pursuant to § 1016.63.

(2) If by such date a handler has not received full payment pursuant to § 1016.73, he may reduce his total payments to all producers and cooperative associations uniformly by not more than the amount of reduction in payment from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator.

(b) (1) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any claim on the part of the association, each handler shall pay to the cooperative association on or before the 16th day of each month, in lieu of payments pursuant to paragraph (a) of this section an amount equal to the gross sum due for all milk received from certified members, less amount owing by each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer and submit to the cooperative association on or before the 16th day of each month, written information which shows for each such member-producer:

(i) The total pounds of milk received from him during the preceding month,

(ii) The total pounds of butterfat contained in such milk,

(iii) The number of days on which milk was received, and

(iv) The amounts withheld by the handler in payment for supplies sold.

The foregoing payment and submission of information shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until

the original request is rescinded in writing by the association.

(2) A copy of each such request, promise to reimburse, and a certified list of members shall be filed simultaneously with the market administrator by the association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, shall be made by written notice to the market administrator and shall be subject to his determination.

(c) Each handler shall make payment to a cooperative association for milk received from the pool plant of such cooperative association on or before the 16th day after the end of each month in which it was received, at not less than the applicable class prices.

§ 1016.71 *Producer-equalization fund.* The market administrator shall establish and maintain a separate fund, known as the "producer-equalization fund" into which he shall deposit all payments received pursuant to §§ 1016.72 and 1016.83 (a) (1) or (b) (1) (including any adjustments thereto pursuant to § 1016.76) and out of which he shall make all payments pursuant to § 1016.73 (including any adjustments thereto pursuant to § 1016.76).

§ 1016.72 *Payments to the producer-equalization fund.* On or before the 16th day after the end of each month, each handler whose value of milk is required to be computed pursuant to § 1016.60 shall pay to the market administrator any amount by which such value for such month is greater than the minimum amount required to be paid by him pursuant to § 1016.70.

§ 1016.73 *Payments out of the producer-equalization fund.* On or before the 17th day after the end of each month, the market administrator shall pay to each handler any amount by which the value of milk for such handler for the month pursuant to § 1016.60 is less than the total minimum amount required to be paid by him pursuant to § 1016.70, less any unpaid obligations of such handler to the market administrator pursuant to § 1016.72: *Provided,* That if the balance in the producer-equalization fund is insufficient to make all payments to all such handlers pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 1016.74 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 16th day after the end of each month 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe with respect to:

(a) All receipts within the month of milk from producers, including milk of such handler's own production;

(b) Any other source milk allocated to Class I pursuant to § 1016.46 (b) and the corresponding step of § 1016.47; and

(c) The applicable amount specified in § 1016.83 (a) (2) or (b) (2).

§ 1016.75 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments pursuant to § 1016.70 for milk received from each producer (excluding milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight, as the Secretary may prescribe, and on or before the 16th day after the end of each month shall pay such deduction to the market administrator. Such monies shall be used by the market administrator to verify weights, samples and tests of milk received from producers and to provide producers with market information, such services to be performed by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers whose milk is received at a pool plant not operated by a cooperative association of which such producers are members, and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the Secretary, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from payments required pursuant to § 1016.70 as may be authorized by such producers, and pay such deductions on or before the 16th day after the end of the month to the cooperative association rendering such services of which such producers are members.

§ 1016.76 *Errors in payment.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in monies due:

(a) To the market administrator from such handler,

(b) To such handler from the market administrator, or

(c) To any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 1016.77 *Overdue accounts.* Any unpaid obligation of a handler or of the market administrator pursuant to §§ 1016.72 through 1016.76 shall be increased one-half of one percent on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 1016.78 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's report of utilization of the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or associations or, if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or setoff by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 1016.80 *Producer-handler exemption.* A producer-handler shall be exempt from all provisions of this part except §§ 1016.32, 1016.34 and 1016.35.

§ 1016.81 *Exempt handler.* A handler who operates a fluid milk plant located outside the marketing area from which an average of less than 600 pounds of fluid milk products per day are disposed of during the month in the marketing area on route(s), shall be exempt from all provisions of this part except §§ 1016.33 through 1016.35.

§ 1016.82 *Handlers subject to other Federal orders.* The provisions of this part shall not apply to a handler with respect to the operation of a pool plant during any month in which the milk at such plant would be subject to the classification, pricing and payment provisions of another marketing agreement or order issued pursuant to the act and the disposition of fluid milk products in the other Federal marketing area exceed that in the Northeastern Wisconsin marketing area: *Provided*, That the operator of a pool plant which is exempted from the provisions of this part pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

§ 1016.83 *Handler operating a non-pool distributing plant.* Each handler, other than a producer-handler or one exempt pursuant to §§ 1016.81 or 1016.82, who during the month operates a Grade A milk plant from which fluid milk products are distributed on a route in the marketing area, shall, in lieu of the payments required pursuant to §§ 1016.70 through 1016.74, pay to the market administrator as follows:

(a) If such handler so elects at the time of reporting pursuant to § 1016.30, his obligations shall be as follows:

(1) On or before the 16th day after the end of the month, for the producer-equalization fund, an amount equal to the difference between the value of the Class I milk disposed of during the month on routes in the marketing area at the applicable Class I price for the month and the value of such milk at the Class III price; and

(2) On or before the 16th day after the end of the month, as his pro rata share of the expense of administration, the rate specified in § 1016.74 with respect to Class I milk disposed of on routes in the marketing area.

(b) Unless such handler elects to have his obligations computed pursuant to paragraph (a) of this section, his obligations shall be as follows:

(1) On or before the 25th day after the end of the month, for the producer-equalization fund, the lesser of the amount computed pursuant to paragraph (a) (1) of this section, or any plus amount resulting from the following computation:

(i) Compute an amount equal to the value of milk which would be computed pursuant to § 1016.60 for Grade A milk received from dairy farmers at such plant for such month if such plant had been a pool plant;

(ii) Deduct the gross payments made by the handler to dairy farmers, for Grade A milk received at such plant for such month. Gross payments to be included in this computation shall be limited to cash payments made to the dairy farmer or his assignee on or before the date of the report required pursuant to § 1016.31, plus the value of any supplies or services furnished by the handler on prior written authorization or as evidenced by a delivery ticket signed by the dairy farmer; and

(2) On or before the 16th day after the end of the month, as his pro rata share of the expense of administration, an amount equal to that which would have been computed pursuant to § 1016.74 had such plant been a pool plant.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1016.90 *Effective time.* The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1016.91 *Suspension or termination.* The Secretary shall, whenever he finds that this part, or any provision of this part, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision of this part.

§ 1016.92 *Continuing obligation.* If upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1016.93 *Liquidation.* (a) Under the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent.

(b) If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers, in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1016.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1016.101 *Separability of provisions.* If any provision of this part, or the application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

INTERSTATE COMMERCE COMMISSION

[49 CFR Pa:t 193]

[Ex Parte No. MC-40]

MOTOR CARRIERS; PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

BRAKES

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 5th day of September, A. D. 1958.

The matter of parts and accessories necessary for safe operation, particularly the provisions of § 193.42 (c) of the Motor Carrier Safety Regulations relating to brakes required on trucks and truck-tractors having three or more axles, and § 193.48, requiring all brakes to be operative, with certain exceptions, as prescribed by order dated April 14, 1952, as amended, the record in the entitled proceeding, and petition of Pacific Intermountain Express Company, dated April 30, 1958, for reconsideration, in part, of our order of April 3, 1958, denying petition of November 8, 1957; being under consideration, and

It appearing that petitioner's prayer for a stay of our order of April 3, 1958, denying petition of November 8, 1957, was denied by our order issued this date;

It further appearing that continuing study and investigation have shown that some amendment of § 193.42 (c), but in a different manner than that proposed by the petitioner, may be warranted, and that amendment of § 193.48 may be desirable in the interest of improved safety of motor vehicle operation; and good cause appearing therefor:

It is ordered, That pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) notice is hereby given of the Commission's proposal to amend §§ 193.42 (c) and 193.48 of the Motor Carrier Safety Regulations, adopted April 14, 1952, as amended (49 CFR 193.42 (c) and 193.48) (49 Stat. 543, as amended, 49 U. S. C. 304) by substituting the following rules for the rules now in effect:

§ 193.42 *Brakes required on all wheels.* • • •

(c) Trucks and truck-tractors having three or more axles may have brakes omitted on only one axle: *Provided*, That such axle shall not have more than two tires in use, that such tires are no larger than the smallest tires used on that vehicle, and that the vehicle be not equipped with means for removing or reducing the braking effort on the front wheels.

§ 193.48 *Brakes to be operative.* (a) With exceptions noted in the following paragraphs of this section, all brakes with which motor vehicles are equipped shall be operative at all times. Means for reducing or removing the braking effort shall not be used except when operating under adverse conditions such as wet, snowy, or icy roads.

(b) Brakes on vehicles being towed in driveaway and towaway operations need not all be operative, as provided in § 193.42 (b).

(c) On any bus, truck, or truck-tractor, having not more than two axles, means may be used for reducing the braking effort on the front wheels: *Provided*, That such means be incapable of reducing such brakes to less than 50 percent of their operating pressure.

(d) On any truck or truck-tractor with three or more axles, having brakes on all wheels, means may be used for reducing or removing the braking effort on the front axle.

It is further ordered, That interested persons may on or before November 14, 1958, submit written statements containing data, views, or arguments, verified under oath by a person having knowledge of such data, views, or arguments, and that thereafter consideration will be given to the proposed amendments, or some revision thereof, in the light of the statements which may be submitted.

It is further ordered, That one signed copy and 14 additional copies of such statements be furnished for the use of the Commission by mailing to the Secretary of the Interstate Commerce Commission, Washington, D. C. No oral hearing is contemplated, but any request for such hearing shall be supported by an explanation as to why the evidence to be presented cannot reasonably be submitted in the form heretofore provided. The Commission thereafter will determine whether or not assignment of the matter for oral hearing is necessary or desirable.

And it is further ordered, That notice of this proposed rule modification shall be given to motor carriers, other persons of interest, and to the general public by depositing a copy thereof in the office of the Secretary of the Interstate Commerce Commission, Washington, D. C., and by filing a copy with the Director, Federal Register Division.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

NOTICES

DEPARTMENT OF THE TREASURY

Office of Treasurer of the United States

[Revision 2]

ORDER OF SUCCESSION OF PERSONS TO ACT AS TREASURER OF THE UNITED STATES

Under the authority conferred upon me by Treasury Department Order No. 129, Revision No. 2, dated April 22, 1955, it is hereby ordered that the following officers in the Office of the Treasurer of the United States and the Bureau of the Public Debt in the order of succession enumerated shall act as Treasurer during the absence or disability of the Treasurer.

Deputy Treasurer.
Assistant Deputy Treasurer.
Assistant to the Deputy Treasurer.
Chief, General Accounts Division.
Cashier, Treasurer's Office.
Director, Parkersburg Office, Bureau of the Public Debt.

In the event of an enemy attack on the continental United States, and in the absence of the Treasurer of the United States, the senior officer, in descending order in the foregoing line of succession, present at the site of the operations of the Treasurer of the United States shall act as Treasurer. If none of such officers is present at the site of the Treasurer's operations it is hereby ordered that the officer acting as District Director, Internal Revenue Service, at the city at which the Treasurer's operations are reestablished shall act as Treasurer of the United States.

In the event of an enemy attack on the continental United States and the occurrence of a vacancy in the Office of the Treasurer, the Treasurer's functions shall be deemed to have been transferred, pursuant to the above described Treasury Department Order, to the Deputy Treasurer, and in the event of a vacancy in the Office of the Deputy Treasurer, to the senior officer, in descending order in the following line of succession, present at the site of the operations of the Treasurer of the United States.

Assistant Deputy Treasurer.
Assistant to the Deputy Treasurer.
Chief, General Accounts Division.
Cashier, Treasurer's Office.
Director, Parkersburg Office, Bureau of the Public Debt.

If none of such officers is present at the site of the Treasurer's operations, the Treasurer's functions shall be deemed to have been transferred, pursuant to the aforesaid order, to the officer acting as District Director, Internal Revenue Service at the city at which the Treasurer's operations are reestablished.

This order supersedes the order of succession dated March 21, 1957.

Dated: September 4, 1958.

[SEAL] IVY BAKER PRIEST, *Treasurer of the United States.*

In the following lands one-half (½) interest in the minerals was reconveyed to the United States, and one-half (½) interest was reserved to the proponent:

Salt Lake 064930

T. 19 S., R. 8 E.,
Sec. 27: NW¼SE¼.

The areas described total 103,511.01 acres of public land.

Further information as to mineral rights, reservations for rights-of-way, etc., in these lands is of record in the Land Office, Bureau of Land Management, 312 Federal Building, P. O. Box 777, Salt Lake City 10, Utah.

The lands are in widely scattered parcels distributed throughout the State. They are generally desert or semi-desert in character, and not suitable for farming.

No application for these lands will be allowed under the homestead, desert-land, small-tract, or any other nonmineral public land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the lands described above are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allow-

ance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert-Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference right under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented by 10:00 a. m. on October 10, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and by 10:00 a. m. on January 9, 1959, will be governed by the time of filing.

(3) All valid applications, and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented by 10:00 a. m. on January 9, 1959, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws, beginning 10:00 a. m., on January 9, 1959.

Persons claiming veteran's preference rights under Paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, 312 Federal Building, P. O. Box 777, Salt Lake City 10, Utah.

VAL B. RICHMAN,
State Supervisor.

ALASKA

WITHDRAWING PUBLIC LANDS AT NOATAK, ALASKA, FOR SCHOOL PURPOSES

SEPTEMBER 12, 1958.

By virtue of the authority vested in the Secretary of the Interior by the act of May 31, 1938 (52 Stat. 593; 48 U. S. C. 353a), and pursuant to Departmental Order No. 2583, section 2.22 (a) of August 16, 1950, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining and mineral leasing laws and disposals under the act of July 31, 1947 (61 Stat. 681; 30 U. S. C. 601–604) as amended, and reserved under the jurisdiction of the Bureau of Indian Affairs, Department of the Interior, for school purposes:

NOATAK AREA

Beginning at Corner No. 1 of U. S. Survey 2037; thence N. 18°51' E., 29.0 ft.; thence N. 71°09' W., 264.0 ft.; thence S. 18°51' W., 230.0 ft.; thence S. 71°09' E., 402 ft. more or less to a point along the bank of the Noatak River; thence northerly following the meanders of the bank of the Noatak River 90.0 ft. more or less to the intersection of line 3—4 of U. S. Survey 2037; thence N. 65°50' W., 130.0 ft. more or less to Corner No. 4 of U. S. Survey 2037; thence N. 18°51' E., 99.0 ft. to Corner No. 1 of U. S. Survey 2037; the point of beginning.

The tract described contains 2.9 acres.

EDWARD WOOZLEY,
Director.

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

SEPTEMBER 10, 1958.

The U. S. Forest Service of the Department of Agriculture has filed an application, Serial Colorado 06813, for withdrawal of the lands described below from location and entry under the General Mining Laws, subject to existing valid claims.

The applicant desires the land for use as a roadside zone.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 339 New Custom House, P. O. Box 1018, Denver 1, Colorado.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

NEW MEXICO PRINCIPAL MERIDIAN, COLORADO

RIO GRANDE NATIONAL FOREST

Colorado Highway No. 17 Roadside Zone

A strip of land 200 feet wide on each side of the center line through the following legal subdivisions:

T. 32 N., R. 4 E.,
Sec. 13, S½SE¼;
Sec. 24, NW¼NE¼, E½NW¼ to Tierra Amarilla Land Grant (lots 1, 2, 3).

[UTAH (II–2)]

UTAH

SMALL TRACT CLASSIFICATION; PUBLIC SALE

SEPTEMBER 11, 1958.

1. Pursuant to authority delegated to me by Bureau Order No. 541 dated April 21, 1954 (19 F. R. 2473), I hereby classify the following described public lands in Kane County, Utah, as suitable for public sale under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

SALT LAKE MERIDIAN

T. 43 S., R. 2 E.,
Sec. 13: Lots 29, 31 to 62, incl., 65, 66, 67, 77, 81, 82, 83, 86, 87, 88, 89, 92, 93, 94, 95, 98.

2. The above described lots were segregated from all appropriation, including the general mining laws, except applications under the mineral leasing laws, by the classification of September 4, 1957, which was published in the FEDERAL REGISTER of September 12, 1957, Vol. 22, Page 7290.

3. The lands are located approximately 66 miles east of Kanab, Utah, and 14 miles northwest of the Glen Canyon Dam site. Utah Highway 259, a limited access highway, traverses the area. All lots are accessible. The topography is gently sloping toward the northeast. Soils vary from sandy-loam to sandy. The native vegetation consists principally of black brush with assorted weeds and grasses. Culinary water is not now available from any developed source, but water has been developed in wells to the northwest.

There are no schools or other public facilities in the area at the present time, but limited shopping facilities will be available nearby. An electric transmission line has been extended to a point about one mile northwest of the northern part of the area herein considered.

4. The individual tracts vary in size from 2.60 acres to 3.15 acres and are all rectangular in shape. A plat of survey showing the location of each tract can be secured for $1.00 from the Manager, Land Office, 312 Post Office Building, P. O. Box 777, Salt Lake City, Utah. The appraised value of the tracts vary from $175.00 to $300.00 per tract as shown below. Rights-of-way for street and road purposes and for public utilities will be reserved as shown below. All minerals in the lands will be reserved to the United States.

Lot No.	Acres	Right-of-way (width and location)	Appraised value
29	2.93	33' NE and SE sides	$300.00
31	2.93	33' NW and SW sides	300.00
32	2.93	33' NE and NW sides	300.00
33	3.15	33' NW side and 66' SW side.	300.00
34	2.80	66' SW side	275.00
35	2.60	33' NE side	275.00
36	2.60	33' SW side	275.00
37	2.60	33' SW side	275.00
38	2.60	33' NE side	275.00
39	2.80	66' SW side	225.00
40	2.80	66' SW side	275.00
41	2.60	33' NE side	175.00
42	2.60	33' SW side	275.00
43	2.93	33' SW and SE sides	175.00
44	2.93	33' SE and NE sides	300.00
45	3.15	66' SW side and 33' SE side	300.00
46	3.15	66' SW side and 33' NW side.	300.00
47	2.93	33' NW and NE sides	300.00
48	2.93	33' NW and SW sides	300.00
49	2.60	33' SW side	275.00
50	2.60	33' NE side	275.00
51	2.80	66' SW side	275.00
52	2.80	66' SW side	275.00
53	2.60	33' NE side	275.00
54	2.60	33' SW side	275.00
55	2.60	33' SW side	275.00
56	2.60	33' NE side	275.00
57	2.80	66' SW side	275.00
58	3.15	66' SW side, 33' SE side	300.00
59	2.93	33' SE and NE sides	300.00
60	2.93	33' SW and SE sides	300.00
61	2.93	33' NW and SW sides	300.00
62	2.93	33' NW and NE sides	300.00
65	2.60	33' NE side	275.00
66	2.60	33' SW side	275.00
67	2.60	33' SW side	275.00
77	2.80	66' NE side	225.00
81	2.80	66' NE side	275.00
82	2.80	66' NE side	275.00
83	2.60	33' SW side	275.00
86	2.93	33' SW and SE sides	300.00
87	3.15	33' SE side and 66' NE side	300.00
88	3.15	33' NW side and 66' NE side.	300.00
89	2.93	33' NW and SW sides	300.00
92	2.60	33' SW side	275.00
93	2.80	66' NE side	275.00
94	2.80	66' NE side	275.00
95	2.60	33' SW side	275.00
98	2.80	66' NE side	275.00

5. Persons who have previously acquired a tract under the Small Tract Act are not qualified to purchase a tract at the sale unless they can make a showing satisfactory to the Bureau of Land Management that the acquisition of another tract is warranted in the circumstances.

6. The above-described tracts will be sold at public auction at a sale to be held in the Ballroom, Hotel Newhouse, Salt Lake City, Utah at 10:00 a. m. and at 3:00 p. m. on January 7, 1959. The sale at 10:00 a. m. will be open only to those persons who qualify for veterans' preference under the provisions outlined in Paragraph 9, below. The 3:00 p. m. sale will be open to the public generally but will be held only if any of the tracts described in Paragraph 4, above, remain unsold after the 10:00 a. m. sale. Bids may be made personally by an individual or by his agent at either sale, or by mail. Bids sent by mail will be considered only if received at the Land Office, Bureau of Land Management, 312 Post Office Building, Salt Lake City, Utah, prior to 10:00 a. m., January 6, 1959. No bid will be accepted if it is less than the appraised price of the tract. See Paragraph 4, above, for appraised prices.

7. To facilitate the completion of the sale, all oral bidders at the 10:00 a. m. sale should bring with them a photostatic copy of their discharge papers or other acceptable certification of proof of right to veterans' preference as outlined in Paragraph 9.

8. Each bid sent by mail must clearly show: (a) The full name and mailing address of the bidder; (b) Classification Order No. Utah II–2; (c) The number of the lot for which the bid is made, described in accordance with Paragraph 4, of this order. Each bid must be accompanied by the full amount of the bid in the form of a certified or cashier's check, post office money order, or bank draft made payable to the Bureau of Land Management. All unsuccessful bids will be promptly returned after the sale. A photostatic copy of bidder's discharge papers, or other certification showing proof of veteran's preference as outlined in Paragraph 9, below, must accompany the bid. Such papers will be returned promptly after the sale. Bids for separate lots must be enclosed in separate envelopes but payment and proof of veterans' preference need only accompany the highest bid, providing all other bids designate the envelope containing the payment and the veterans' preference proof. Each envelope must be addressed to the Manager, Land Office, Bureau of Land Management, Post Office Box 777, Salt Lake City, Utah, and carry in the lower left hand corner of its face the following information and nothing else: (a) "Bid for Small Tract"; (b) "Classification Order No. II–2"; (c) "Veterans' Preference", if the bidder is entitled to such preference; (d) the number of the lot for which the bid is made showing lot number in accordance with Paragraph 4, above. Sender's name and return address should be shown on the reverse side of the envelope.

9. In accordance with 43 CFR 257.14 (e), each tract at the 10:00 a. m. sale will be awarded to the highest bidder among persons entitled to veterans' preference. No person will be awarded more than one tract, unless he is an agent acting for one or more persons. Persons entitled to veterans' preference in brief are: (a) Honorably discharged veterans who served at least 90 days after September 15, 1940; (b) surviving spouse or minor orphan children of such veterans; and (c) with the consent of the veteran, the spouse of living veterans. Veterans who were discharged on account of wounds or disability incurred in the line of duty, or the surviving spouse or minor children of veterans killed in the line of duty are eligible for veterans' preference regardless of whether such serviceman served less than 90 days after September 15, 1940.

10. Sealed bids will be opened in the presence of the public in Room 312, Post Office Building, Salt Lake City, Utah, beginning at 1:00 p. m. on January 6, 1959. Sealed bids must be in multiples of $5.00. Lists of the highest sealed bids received for each lot will be posted for public inspection at the sale.

11. All inquiries concerning these lands should be addressed to the Manager, Land Office, Bureau of Land Management, 312 Post Office Building, Post Office Box 777, Salt Lake City, Utah.

EVAN L. RASMUSSEN,
Acting State Supervisor.

[No. 59–4]

OREGON

REVOCATION AIR NAVIGATION SITE WITHDRAWAL NO. 32

Pursuant to a report of the Civil Aeronautics Administration, United States Department of Commerce, and by virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), and pursuant to the authority delegated by section 2.5 of the Bureau of Land Management Order No. 541 of April 21, 1954 (19 F. R. 2473), as amended, it is ordered as follows:

1. Air Navigation Site Withdrawal No. 32, as modified on April 11, 1949, affecting lands described below, is hereby revoked:

WILLAMETTE MERIDIAN, OREGON

T. 31 S., R. 5 W.,
Sec. 3: Lot 9, approximately 52.38 acres.

2. The above-described land is revested Oregon and California Railroad Grant land and is valuable for the perpetual production of timber as part of the South Umpqua Sustained-Yield Unit.

3. The land has been classified for retention in Federal ownership to be managed for permanent forest production, and the timber thereon shall be sold, cut, and removed in conformity with the principal of sustained yield as authorized under the act of August 28, 1937 (50 Stat. 874).

4. No application will be allowed under the Homestead, Desert Land, Small Tract, or any other nonmineral public land law.

5. Beginning at 10 a. m. on January 13, 1959, the lands described in paragraph 1 above will (subject to valid existing rights) become subject to location or leasing under mining and mineral leasing laws.

6. Inquiries concerning the land should be addressed to the Manager, Portland Land Office, 809 N. E. Sixth Avenue, Portland, Oregon.

TOM D. CONKLIN,
Acting State Supervisor.

[F. R. Doc. 58–7592; Filed, Sept. 17, 1958; 8:47 a. m.]

[Sacramento 056544]

CALIFORNIA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

SEPTEMBER 11, 1958.

Pursuant to following listed determinations of the Federal Power Commission, and in accordance with the authority delegated to me by the California State Supervisor, Bureau of Land Management, Part II, Document 4, California State Office, dated November 19, 1954 (19 F. R. 7697), it is ordered as follows:

1. Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described, so far as they are withdrawn and reserved for power purposes are hereby restored to disposition under the public land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and as to DA-937 and DA-943 it is further stipulated that in the event described areas are required for power purposes, any improvements or structures placed thereon which shall be found to interfere with such development shall be removed or relocated as may be necessary to eliminate interference with power development at no cost to the United States, its permittees or licensees.

Determination No.	Date and type of withdrawal	Type of restoration	Description of lands
			Mount Diablo Meridian
DA-900	Power Site Reserve No. 232 of Nov. 25, 1911.	Under applicable land laws.	T. 33 N., R. 8 W., Section 18: E½NE¼ SW¼SE¼SW¼SE¼, N½SE¼SE¼ SW¼SE¼.
DA-937	Power Site Reserve No. 232 of Nov. 25, 1911.	Under applicable land laws.	T. 33 N., R. 8 W., Section 18: Lots 1 and 4, NE¼, E½NW¼, W½SE¼ SW¼, SE¼SE¼SW¼, N½N½ SE¼, N½SW¼NW¼SE¼, SE¼ NW¼SE¼, NE¼SW¼SE¼, N½ SW¼SW¼SE¼, S½S½SW¼SW¼ SE¼, W½SW¼SE¼SW¼SE¼, W½E½SW¼SE¼SW¼SE¼, E½ SE¼SW¼SE¼SW¼SE¼, S½SE¼ SE¼SW¼SE¼, NW¼SE¼SE¼, E½E½SE¼SE¼.
DA-943	Power Site Reserve No. 232 of Nov. 25, 1911.	Under applicable land laws.	T. 33 N., R. 9 W., Section 13: N½SE¼ NW¼, SE¼SE¼NW¼.

The areas described total approximately 479.30 acres of public land and private land.

The following lands have been patented:

T. 33 N., R. 8 W., M. D. M.,
Sec. 18: E½E½SE¼SE¼, E½NE¼NE¼ SE¼.

2. The subject lands are located in Eastern Trinity County near Lewiston, California. The land consists mainly of high, steep ridges, interspersed by gulches, draining into the Trinity River. The most level part lies along the main course of the Trinity River and consists of dredge tailings left by mining operations of past years. The thin stony soil and steep slopes preclude agricultural use of the land. Elevations range from 1,800 feet at river level to 2,500 feet on ridge tops.

Most of the steep slopes are covered with a semi-dense chaparral of live oak, ceanothus and manzanita overstoried by scattered hardwoods, digger pine and some ponderosa pine. The ground cover is mostly annual grasses and weeds. The land covered by tailings is devoid of vegetation.

3. No application for these lands will be allowed under the homestead, desert land, small tract or any other nonmineral public land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

4. The lands described shall be subject to application by the State of California for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of material for construction and maintenace of such highways, in accordance with and subject to the provisions of section 24 of the Federal Power Act, as amended, and the special stipulations provided in paragraph 1.

5. Subject to any existing valid rights and the requirements of applicable law, the lands described are hereby opened to filing of applications and selections in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m., local time, on October 17, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m., local time, on January 16, 1959, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. local time, on January 16, 1959, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

6. The lands have been open to applications and offers under the mineral-leasing laws, and to location under the United States mining laws pursuant to the act of August 11, 1955 (69 Stat. 682; 80 U. S. C. 621–625).

7. Persons claiming veteran's preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 Code of Federal Regulations.

8. Inquiries regarding these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, 10th Floor, California Fruit Building, Fourth and J Streets, Sacramento 14, California.

R. G. SPORLEDER,
Officer in Charge,
Northern Field Group,
Sacramento, California.

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

SEPTEMBER 12, 1958.

The U. S. Forest Service of the Department of Agriculture has filed an application, Serial Colorado 022828, for withdrawal of the lands described below from location and entry under the General Mining Laws, subject to existing valid claims.

The applicant desires the land for use as a lookout, administrative sites, and nursery.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 339 New Custom House, P. O. Box 1018, Denver 1, Colorado.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, COLORADO

PIKE NATIONAL FOREST

Devils Head Lookout

T. 9 S., R. 69 W.,
Sec. 22, NW¼NE¼.

Indian Creek Administrative Site (Addition)

T. 8 S., R. 69 W.,
Sec. 3, S½SW¼SE¼.

Jefferson Creek Administrative Site

T. 7 S., R. 76 W.,
Sec. 23, NW¼NE¼.

Lake George Administrative Site (Addition)

T. 12 S., R. 71 W.,
Sec. 28, S½SW¼NW¼, and S½N½SW¼ NW¼;
Sec. 29, SW¼NE¼NE¼, S½NW¼NE¼, N½SW¼NE¼, and N½S½SW¼NE¼.

Mount Herman Nursery (Addition)

T. 11 S., R. 67 W.,
Sec. 20, SW¼NE¼, SE¼NW¼, NE¼SW¼ NW¼, S½NE¼NE¼SW¼, N½SE¼ NE¼ SW¼, and N½SE¼.

Woodland Park Administrative Site

T. 12 S., R. 68 W.,
Sec. 7, lots 8, 10, 11, 12, and N½.

The areas described above total 826.88 acres.

J. ELLIOTT HALL,
Lands and Minerals Officer.

[F. R. Doc. 58-7594; Filed, Sept. 17, 1958; 8:47 a. m.]

Bureau of Reclamation

HANOVER-BLUFF UNIT, MISSOURI RIVER BASIN PROJECT, WYOMING

FIRST FORM RECLAMATION WITHDRAWAL

AUGUST 19, 1958.

By virtue of the authority vested in the Secretary of the Interior by section 3 of the Act of June 17, 1902 (32 Stat. 388; 43 U. S. C. 416), and pursuant to Departmental Order No. 2765 of July 30, 1954, I hereby withdraw the following-described lands from public entry under the first form of withdrawal:

SIXTH PRINCIPAL MERIDIAN

T. 46 N., R. 92 W.,
Sec. 3, tract 41, lots 5, 6, 9, 10, SE¼NE¼, and E½SE¼;
Sec. 4, tract 1, lot 6, SW¼NE¼, N½NW¼ SE¼, and N½S½NW¼SE¼;
Sec. 9, SW¼NW¼;
Sec. 18, tract 1, lot 26.
T. 46 N., R. 93 W.,
Sec. 13, tracts 2 and 4, lots 6 and 7;
Sec. 24, tracts 2 and 3.
T. 45 N., R. 94 W.,
Sec. 1, tract 1;
Sec. 2, tracts 1, 3, and 5, lot 18;
Sec. 3, lot 23.

The areas described aggregate 710.46 acres.

FLOYD E. DOMINY,
Acting Commissioner.

[68710]

SEPTEMBER 12, 1958.

I concur.

The lands shall be administered by the Bureau of Land Management until such time as they are needed for reclamation purposes.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

[F. R. Doc. 58-7595; Filed, Sept. 17, 1958; 8:48 a. m.]

COLORADO RIVER STORAGE PROJECT, CALIFORNIA

ORDER OF REVOCATION

By virtue of the authority vested in the Secretary of the Interior by section 3 of the Act of June 17, 1902 (32 Stat. 388; 43 U. S. C. 416), and pursuant to Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental order dated October 16, 1931, in so far as said order affects the following-described land: *Provided, however,* That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

SAN BERNARDINO MERIDIAN, CALIFORNIA

T. 7 N., R. 24 E.,
Sec. 8, S½NW¼SW¼NE¼, S½SW¼NE¼, and NW¼SE¼.

The areas described aggregate 65 acres.

WILLIAM I. PALMER,
Acting Associate Commissioner.

[Los Angeles 0156749]

SEPTEMBER 12, 1958.

I concur.

The released land is proposed for exchange under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1272; 49 Stat. 1976; 43 U. S. C. 315g) as amended, by which the offered land will benefit a Federal land program. This revocation, therefore, is not subject to the provisions contained in the Act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

HEREFORD LIVESTOCK AUCTION AND ZACHARY STOCK YARDS

PROPOSED POSTING OF STOCKYARDS

The Director of the Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of the act.

Hereford Livestock Auction, Hereford, Tex.
Zachary Stock Yards, Zachary, La.

Notice is hereby given, therefore, that the said Director, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the act, as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule may do so by filing them with the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., within 15 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D. C., this 15th day of September 1958.

[SEAL] DAVID M. PETTUS,
Director, Livestock Division,
Agricultural Marketing Service.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 12416 etc.; FCC 58M-991]

NICK J. CHACONAS ET AL.

ORDER CONTINUING HEARING

In re applications of Nick J. Chaconas, Gaithersburg, Maryland, Docket No. 12416, File No. BP-10996; I. T. Cohen and Anne H. Cohen, d/b as Tri-County Broadcasting Company, Laurel, Maryland, Docket No. 12417, File No. BP-11309; The Eleven Fifty Corp., Capitol Heights, Maryland, Docket No. 12418, File No. BP-11379; TCA Broadcasting Corporation, College Park, Maryland, Docket No. 12419, File No. BP-11741; for construction permits.

The Chief Hearing Examiner having under consideration the joint motion of Nick J. Chaconas and Tri-County Broadcasting Company, filed September 12, 1958, that certain procedural dates heretofore specified in this proceeding be amended, and that the formal hearing be continued without date;

It appearing that all parties to the proceeding consent to a grant of this motion and to a waiver of the provisions of section 1.43 of the rules to permit immediate consideration thereof;

It is ordered, This 12th day of September 1958, that the motion is granted and that the following procedural dates shall be observed in the above-entitled proceeding:

Exchange of nontechnical exhibits—September 15, 1958.
Exchange of technical exhibits—September 19, 1958.

It is further ordered, That formal hearing in the proceeding, which is presently scheduled to begin September 18, 1958, is continued to a date which will be later specified.

Released: September 15, 1958.

The Hearing Examiner having under consideration the procedure to be followed in the above-entitled matter which is scheduled for hearing on October 16, 1958; and

It appearing that counsel for all parties have informally agreed to the prehearing conference date hereinafter ordered;

It is ordered, This 12th day of September 1958, pursuant to § 1.111 of the Commission's rules, that the parties or their attorneys shall appear at the offices of the Commission in Washington, D. C., at 10:00 a. m., on Thursday, September 25, 1958, for a prehearing conference to consider:

1. The necessity or desirability of simplification, clarification, amplification, or limitation of the issues;

2. The possibility of stipulating with respect to facts;

3. The procedures to be followed prior to and at the hearing;

4. The limitation of the number of witnesses;

5. The procedures and schedules for the prior mutual exchange between the parties of prepared testimony and exhibits; and

6. Such other matters as may aid in the disposition of this proceeding.

Released: September 15, 1958.

AMERICAN TELEPHONE AND TELEGRAPH CO.

ORDER CONTINUING HEARING

In the matter of the applications of American Telephone and Telegraph Company (Long Lines Department); for modification of its point-to-point microwave radio station licenses in Portland, Maine; Brunswick, Maine; Liberty, Maine; Kings Mountain, Maine; Franklin, Maine; and Cooper Hill, Maine, for facilities connecting with the trans-Atlantic telephone cable system, to authorize the furnishing of an alternate voice and digital data transmission service to the United States Air Force; Docket No. 12569:

Call sign:	File No.
KCB 81	2943-C1-ML-58
KCB 82	2944-C1-ML-58
KCB 83	2945-C1-ML-58
KCC 85	2946-C1-ML-58
KCC 86	2947-C1-ML-58
KCC 92	2948-C1-ML-58

The Hearing Examiner having under consideration a motion filed September 5, 1958, by the American Telephone and Telegraph Company requesting that a prehearing conference in the above-entitled proceeding be scheduled for September 22, 1958, and that the evidentiary hearing in this proceeding now scheduled to begin on September 22, 1958 be continued to a date to be determined at the prehearing conference; and

It appearing that the suggested time schedule meets the convenience of the other parties to the proceeding, and good cause for granting the motion having been shown;

It is ordered, This the 11th day of September 1958, that the motion is granted and a prehearing conference in the above-entitled proceeding will be held on Monday, September 22, 1958, beginning at 2: 00 p. m. in the offices of the Commission, Washington, D. C. and the matters to be considered are those specified in § 1.111 of the Commission's rules; and

It is further ordered, That the evidentiary hearing in the above-entitled proceeding now scheduled to begin on September 22, 1958 is continued to a date to be determined at the prehearing conference to be held on September 22, 1958.

Released: September 12, 1958.

[Docket No. 12598; FCC 58-868]

M & M BROADCASTING CO. (WMBV-TV)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of M & M Broadcasting Company (WMBV-TV), Marinette, Wisconsin, Docket No. 12598, File No. BPCT-2524; for television construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 10th day of September 1958;

The Commission having under consideration the above-captioned application requesting a construction permit to move the transmitter site of Station WMBV-TV from a point approximately 14 miles southeast of Marinette, Wisconsin and approximately 38 miles northeast of Green Bay, Wisconsin, to a point approximately 38 miles southeast of Marinette and approximately 14 miles northeast of Green Bay, to increase the antenna height above average terrain from 780 to 960 feet, to increase the visual effective radiated power from 240 to 316 kw and to make other equipment changes;

It appearing that Valley Telecasting Company and Norbertine Fathers, licensees of Stations WFRV-TV and WBAY-TV respectively, of Green Bay, Wisconsin, have filed objections to the above-captioned application alleging, inter alia, that a grant thereof would result in a diminution of service to Marinette, and a loss of the only service to areas north of Marinette; that action be withheld pending a decision in Docket No. 12429, involving applicant corporation; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicant was advised by letter of the reasons why the Commission was unable to conclude that a grant would serve the public interest, of all objections to its application, of the necessity for a hearing, and was given an opportunity to reply; and

It further appearing that upon due consideration of the above-captioned application, the objections thereto and the reply to the above letter, the Commission finds that pursuant to section 309 (b) of the Communications Act of 1934, as amended, a hearing is necessary; that the applicant is legally, financially, and technically qualified to construct, own and operate the station as proposed and is otherwise qualified except as to the issues below;

It is ordered, That the petitions of Norbertine Fathers and Valley Telecasting Company are granted to the extent hereinafter provided and are denied in all other respects;

It is further ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-captioned application of M & M Broadcasting Company is designated for hearing at a time and place to be specified in a subsequent order upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose service from the proposed operation, and the availability of other service to such areas and population.

2. To determine in light of the evidence adduced pursuant to the above issue, whether a grant of the above-captioned application would serve the public interest, convenience and necessity.

It is further ordered, That Norbertine Fathers and Valley Telecasting Company are hereby made parties to the proceeding;

It is further ordered, That to avail themselves of the opportunity to be heard, M & M Broadcasting Company, Norbertine Fathers and Valley Telecasting Company pursuant to § 1.140 (c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order file with the Commission, in triplicate, a written appearance, stating an intention to appear on the date fixed for the hearing and present evidence on the issue specified in this order.

Released: September 12, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-15345]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 12, 1958.

Take notice that Cities Service Gas Company (Applicant), a Delaware corporation with principal place of business at Oklahoma City, Oklahoma, filed in Docket No. G-15345 on June 23, 1958, an

application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate, as an integral part of its existing natural-gas system, the following facilities: (1) A new 1,350 horsepower compressor station on its existing field-pipeline system in the Hugoton Field, Haskell County, Kansas, to act as a booster for the existing Hugoton Compressor Station, and (2) a 1,350 horsepower addition to its existing Ulysses Compressor Station in the Hugoton Field, Grant County, Kansas. The Hugoton Field is one of Applicant's principal sources of gas supply.

The application states that the well pressures are declining in the Hugoton Field of Kansas and that, if Applicant were to attempt with its existing compressor facilities to maintain present inputs into its system from the Hugoton Field, it would be necessary to operate its Ulysses and Hugoton Compressor Stations at overloads of 32 percent and 25.5 percent, respectively. Applicant considers this degree of overloading to be excessive and hazardous, and states that installation of the proposed compressor facilites would reduce such overloading to 8.2 percent at the Hugoton Station, which is not considered excessive, and would completely eliminate overloading at Ulysses Station.

Applicant estimates that the capital cost of the proposed facilities will total approximately $787,000, which will be financed out of treasury cash.

Applicant states that since the proposed facilities are intended for the purpose of maintaining present inputs into its system, no additional revenues can be attributed to the proposed investment.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 14, 1958, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 3, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7597; Filed, Sept. 17, 1958; 8:48 a. m.]

[Docket No. G-15710]

CENTRAL PENNSYLVANIA GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 12, 1958.

Take notice that Central Pennsylvania Gas Company (Applicant), a Pennsylvania corporation, having its operating headquarters at 107 West Broad Street, Tamaqua, Pennsylvania, filed on July 28, 1958, an application pursuant to section 7 (a) of the Natural Gas Act, for an order directing Manufacturers Light and Heat Company (Manufacturers) to sell and deliver natural gas to it for resale to the public in the area served and to be served by Applicant, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant states that it is presently manufacturing and selling propane air gas in the Boroughs of State College and Bellefonte and the communities of Lemont and Pleasant Gap, all located in Centre County. Applicant proposes to serve these communities with natural gas and also one new industrial customer located in Clarence, Pennsylvania, whose plant is adjacent to Applicant's proposed pipeline.

Applicant proposes to construct an 8-inch pipeline extending from Manufacturer's line No. 1711 in Centre County, approximately 21.4 miles in length to its existing plant located at Axeman, Pennsylvania.

Applicant estimates its peak-day and annual natural gas requirements as follows:

VOLUMES IN MCF

Year	Peak day	Annual
1st	867	281,139
2d	1624	518,521
3d	1804	557,554
4th	2022	590,493
5th	2242	603,729

Applicant estimates the cost of its proposed construction will be $600,000 which it proposes to finance with the proceeds of a $650,000 six per cent first mortgage, twenty year bond issue and $150,000 in subordinated debt and equity financing. From the funds derived from this financing, Applicant will retire $159,000 existing first mortgage bonds. The balance of the funds will be used for construction and working capital purposes.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 7, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 3, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-16238]

QUINTIN LITTLE

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

SEPTEMBER 12, 1958.

Quintin Little on August 15, 1958, tendered for filing a proposed change in his presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 1, 1958.

Purchaser: Lone Star Gas Company.

Rate schedule designation: Supplement No. 1 to Quintin Little's FPC Gas Rate Schedule No. 1.

Effective date: September 15, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed favored-nation rate increase, Quintin Little submits a copy of a letter from the Lone Star Gas Company notifying that effective July 1, 1958, the price of gas it purchases from properties in the same area would be increased to a base rate of 14 cents per Mcf. Quintin Little cites the contract provisions and states that denial of the increase would be inequitable.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to Quintin Little's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Quintin Little's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 15, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7599; Filed, Sept. 17, 1958; 8:48 a. m.]

[Docket No. G-16239]

GRUBBS & HAWKINS ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

SEPTEMBER 12, 1958.

Grubb & Hawkins et al. (Respondent) on August 14, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 12, 1958.

Purchaser: Trunkline Gas Company.

Rate schedule designation: Supplement No. 13 to Respondent's FPC Gase Rate Schedule No. 1.

Effective date: October 1, 1958 (effective date is that proposed by Respondent).

In support of the proposed periodic rate increase, Respondent states that the increase is provided by a contract resulting from arm's-length bargaining in good faith. The increased rate and charge also reflects (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge.

This suspension, however, is based solely on the possibility of the additional tax being invalidated and only such tax reimbursement shall be made effective subject to refund.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 13 to Respondent's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 13 to Respondent's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until October 2, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7600; Filed, Sept. 17, 1958; 8:49 a. m.]

[1] Supplement No. 12 to Respondent's FPC Gas Rate Schedule No. 1 (Louisiana gathering tax increase) was suspended for one day until August 2, 1958, in Docket No. G-15600, and is now in effect subject to refund.

[Docket No. G-16240]

TEXAS GULF PRODUCING CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

SEPTEMBER 12, 1958.

Texas Gulf Producing Company (Texas Gulf) on August 15, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 11, 1958.

Purchaser: Trunkline Gas Company.

Rate schedule designation: Supplement No. 9 to Texas Gulf's FPC Gas Rate Schedule No. 4.

Effective date: September 15, 1958 (effective date is the first day after the expiration of the required 30-days' notice).

In support of the proposed favored-nation rate increase Texas Gulf cites the contractural provisions and submits a letter dated March 10, 1958, from Trunkline advising that Trunkline has executed a new contract with Coastal States Gas Producing Company to purchase gas at a similar price in Bee County, Texas, and that deliveries began on March 7, 1958.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 9 to Texas Gulf's FPC Gas Rate Schedule No. 4 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 9 to Texas Gulf's FPC Gas Rate Schedule No. 4.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 15, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7601; Filed, Sept. 17, 1958; 8:49 a. m.]

[Docket No. G-16349]

SHELL OIL CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

SEPTEMBER 12, 1958.

Shell Oil Company (Shell) on August 15, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 12, 1958.

Purchaser: West Lake Natural Gasoline Company.

Rate schedule designation: Supplement No. 1 to Shell's FPC Gas Rate Schedule No. 173.

Effective date: September 15, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed periodic rate increase, Shell merely states that the proposed rate was agreed to after arm's-length negotiations and formed a major consideration for seller entering into the contract.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to Shell's FPC Gas Rate Schedule No. 173 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Shell's FPC Gas Rate Schedule No. 173.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until September 16, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

G-14822; Murphy District Field, Ritchie County, W. Va.; Hope Natural Gas Co.

G-14830; Boonesville Field, Jack and Wise Counties, Tex.; Natural Gas Pipeline Co. of America.

G-14831; Aztec (Pictured Cliffs) Field, San Juan County, N. Mex.; El Paso Natural Gas Co.

G-14838; Acreage In Field, Stephens County, Okla.; Lone Star Gas Co.

G-14839; Elm Grove Field, Logan County, Colo.; Kansas-Nebraska Natural Gas Co., Inc.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 20, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 7, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[1] Application covers the proposed sale of natural gas under amendatory agreement dated February 19, 1958, which adds additional acreage to a basic contract dated October 1, 1956, as amended. Applicant was authorized in Docket No. G-11419 covering sale of gas under the basic contract.

[2] Neville G. Penrose, Inc., Operator, is filing for itself and on behalf of the following nonoperators: Broseco Corporation and John B. Rich. All are signatory seller parties to the gas sales contract dated February 14, 1958.

[3] The Reger Gas Company, Applicant, is a partnership consisting of Glenn L. Haught, Teddie C. Fredrick, L. D. Nutter, Mountain Iron and Supply Company, Arthur M. Taylor, Guy R. Neely, Elwood Harrigan, Sydney Renehan, Howard E. Koontz, Lewis J. Fuccy, Ridgeway T. Johnston, Paul McCoy, Margaret Sperry, J. E. Kintner, Warren R. Haught, Eldon J. Haught, and Richard G. Lynch. Glenn L. Haught is a signatory seller party to the gas sales contract dated March 19, 1958 and the remaining above-named partners are also signatory seller parties through the signature of Glenn L. Haught who has signed the contract as attorney-in-fact for said partners.

[4] Bailey Gas Company, Applicant, is a partnership consisting of C. N. Hall, Sr., P. P. Gunn, Harry Stevens, Lloyd Jackson, Arvil Gunn, Harry Stevens, Lloyd Jackson, Arvil Browning, Verbie Browning, E. G. Chapman, Mal Pack, L. E. Thompson, L. M. Pack, Ercel Midkiff, Paul Le Masters, Hal S. McComas, Curtis M. Tackett, Wylie Stowers, Eurukel Hall, Juanita Hall, Carl Hanson, Margie Phillips, Dr. Rodgers Harshbarger, Harry E. Martin, Kyle Dunlop, R. L. Martin, D. V. Quick, and Juanita Quick. C. N. Hall, Sr., P. P. Gunn, and Harry Stevens are signatory seller parties to the subject gas sales contract, and the remaining partners are signatory seller parties through the signatures of C. N. Hall, Sr., P. P. Gunn and Harry Stevens who have signed the subject contract as attorneys-in-fact for said partners.

[5] Ward Run Development Company, Applicant, is a partnership consisting of Willard E. Ferrell and eighty-one additional partners listed in the subject gas sales contract. Willard E. Ferrell is a signatory seller party to the gas sales contract, and the remaining eighty-one partners are signatory seller parties through the signature of Willard E. Ferrell who has signed the subject contract as attorney-in-fact for said partners.

[6] Roy G. Hildreth, et al., Applicant, is a partnership consisting of Roy G. Hildreth, Lester L. Hildreth, Buena Ogden, Ruth Hildreth, Jason Taylor, R. L. McCulty, Lee Ellis, Roy G. Hildreth, Jr., James E. Oakley, Bliss L. Hildreth, William E. Boggess, John H. Niday, W. G. Drake, Virgil E. Daugherty, H. E. Ross, and O. R. Hardman. All of the above named partners are signatory seller parties to the gas sales contract dated March 4, 1958.

[7] E. B. Alexander, Jr., and Katherine B. Alexander are filing jointly for their combined 4.16667 percent interest in the SE-72 Gas Unit. Both are signatory seller parties to the gas sales contract dated February 24, 1958.

[8] Mrs. Betty D. Mortimer and Mrs. Frances D. Harrell are filing for their interests in gas produced from the subject acreage through their attorney, John M. Shuey. Mrs. Betty D. Mortimer and Mrs. Frances D. Harrell are named as seller parties to the subject gas sales contract dated November 4, 1957, which contract has been signed by C. M. Dorchester, attorney-in-fact.

[9] Graham-Michaelis Drilling Company, Operator, a co-partnership consisting of W. A. Michaelis, Jr., Marjorie Lois Graham, and William L. Graham, is filing for its 40.625 percent interest in production from the Jones "B No. 1" Unit and on behalf of the following nonoperators: William Graham, Inc., 25 percent; Petrolite Corporation, 25 percent; Robert White, 6.25 percent; and Guy Young, 3.125 percent. The above-named partners of Graham-Michaelis Drilling Company are signatory seller parties to the gas sales contract, and the nonoperators by instrument of assignment dated February 25, 1958, have become signatory parties to the subject contract to the extent of their individual interests.

[10] The Spurgeon Gas Company, Applicant, is a partnership consisting of Glenn L. Haught, Mountain Iron and Supply Company, Teddie C. Frederick, Clifton G. Valentine, L. D. Nutter, Paul McCoy, Howard E. Koontz, Jr., Sydney Renehan, Lewis J. Fuccy, Elwood Harrigan, Arthur M. Taylor, Warren R. Haught, Eldon J. Haught, Richard G. Lynch, and J. E. Kintner. Glenn L. Haught is a signatory seller party to the subject gas sales contract, and the remaining partners are also signatory seller parties through the signature of Glenn L. Haught, who has signed the subject contract as attorney-in-fact for said partners.

[11] Champlin Oil and Refining Company, Operator, is filing for its interest in the subject acreage. As operator of the D. P. Dunn Unit, Applicant lists Christie Mitchell & Mitchell Company, as nonoperator and owner of 41.94 percent working interest, which company has negotiated a separate contract to dispose of its share of the production. Champlin is the only signatory seller party to the gas sales contract dated March 10, 1958.

[12] Wm. H. Perkins, J. R. Perkins, R. R. Goldsmith, Marvin J. Coles, Osias Biller, Howard W. Jennings, and Fieldon L. Parkham are filing jointly for their 100 percent interest in ten acres. All are signatory seller parties to the gas sales contract dated January 15, 1958.

[13] Raymond Oil Company, Applicant, is a partnership consisting of Francis M. Raymond, Charles F. Raymond, William Mike Raymond, and Shirley Salem, filing for its 31.28125 percent working interest and as agent for Artnell Co., and Western Crude Marketers, Inc., who respectively own 42.87500 percent and 10.71875 percent working interests in the subject acreage. The individual partners of Raymond Oil Co. (Shirley Salem through the signature of Francis M. Raymond, attorney-in-fact) are the only signatory seller parties to the gas sales contract dated February 6, 1958. Production is limited to formations down to and including the "D" Sand. Supplement filed concurrently with the certificate application but under separate cover is statement invoking the provisions of section 157.28 for temporary authorization.

[Docket No. 14981 etc.]

PERMIAN BASIN PIPELINE CO., ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

SEPTEMBER 12, 1958.

In the matters of Permian Basin Pipeline Company, Docket No. G-14981; Northern Natural Gas Company, Docket No. G-14982; El Paso Natural Gas Company, Docket No. G-15139.

Take notice that Permian Basin Pipeline Company (Permian), a Delaware corporation having its principal place of business in Omaha, Nebraska, filed an application in Docket No. G-14981 on April 25, 1958, and amendments thereto on May 22, 1958 and August 6, 1958, pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities subject to the jurisdiction of the Commission, as are fully described in the application on file with the Commission, and open to public inspection.

Take further notice that Northern Natural Gas Company (Northern), a Delaware corporation with a principal office in Omaha, Nebraska, filed an application on April 25, 1958 in Docket No. G-14982 pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities subject to the jurisdiction of the Commission, as more fully described in the application on file with the Commission, and open to public inspection.

Take further notice that El Paso Natural Gas Company (El Paso), a Delaware corporation with a principal place of business in El Paso, Texas, filed an application on May 21, 1958 in Docket No. G-15139, pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of an additional 50,000 Mcf daily of natural gas delivered to it by Northern in Yoakum County, Texas, to a point on Northern's system in Moore County, Texas, subject to the jurisdiction of the Commission, as more fully described in the application on file with the Commission and open to public inspection.

The applicants recite that Permian proposes to sell and deliver an additional 50,000 Mcf daily to Northern for transportation to and for Northern by El Paso.

The proposed facilities together with their location, estimated costs and method of financing are summarized for the subject dockets in the following table.

	Facilities requested	Location facilities	Estimated cost and method of financing
Permian, G-14981	Three 550 hp. compression units	On Plymouth to Sprayberry line.	$379,800
	Turbocharge 3—2,000 hp. units to 2,800 hp. Florey Station.		226,000
	Interest and overhead		24,200
	Total		[1] 630,000
El Paso, G-15139	Additional meter station	Dumas plant	[2] 24,044
Northern, G-14982	8.1 miles 30" pipeline	North of Beaver, Okla	770,400
	11.1 miles of 30" pipeline	South of Beaver, Okla	1,033,400
	2,000 hp. compressor	Sunray, Tex	478,000
	2,000 hp. compressor	Beaver, Okla	749,400
	Interest and overhead		121,200
	Total		[3] 3,152,700

[1] From cash on hand.
[2] From current working funds.
[3] From cash on hand, and if required, short-term bank notes.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 20, 1958, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications.

Protest or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and pro-

cedure (18 CFR 1.8 or 1.10) on or before October 6, 1958.

[Docket No. G-16115]

WARREN PETROLEUM CORP.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

SEPTEMBER 12, 1958.

Warren Petroleum Corporation (Respondent), on August 14, 1958, tendered for filing a proposed change in its presently effective rate schedule for sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 25, 1958.[1]

Purchaser: Texas Eastern Transmission Corp.

Rate schedule designation: Supplement No. 10 to Respondent's FPC Gas Rate Schedule No. 18.

Effective date: August 28, 1958 (effective date is the date proposed by Respondent).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge until August 29, 1958, and thereafter to permit it to become effective as of that date; provided, that within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rate be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 10 to Respondent's FPC Gas Rate Schedule No. 18.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until August 29, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of August 29, 1958: *Provided, however,* That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of Warren Petroleum Corporation to Comply with the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ——, in Docket No. G-16115, Warren Petroleum Corporation hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this —— day of ——

WARREN PETROLEUM CORPORATION

By ——

Attest: ——

Secretary

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7605; Filed, Sept. 17, 1958; 8:50 a. m.]

[Docket No. G-15121]

MANUFACTURERS LIGHT AND HEAT CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 12, 1958.

Take notice that The Manufacturers Light and Heat Company (Applicant), a Pennsylvania corporation and a subsidiary of The Columbia Gas System, Inc., having its principal place of business at 800 Union Trust Building, Pittsburgh, Pennsylvania, filed on May 19, 1958 an application, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to install and operate (1) a 55 horsepower portable compressor unit at its Hanst Compressor Station, Beaver Township, Clarion County, Pennsylvania and (2) a 75 horsepower portable compressor unit at its Cross Creek Compressor Station in Jefferson Township, Washington County, Pennsylvania. In connection with the installation and operation of compressor units at its Hanst and Cross Creek Compressor Stations, Applicant also requests permission to abandon (1) its entire existing Hanst Compressor Station, consisting of 7 compressor units with a total of 540 horsepower, and (2) its entire existing Cross Creek Compressor Station, consisting of one 300 horsepower compressor unit, subject to the jurisdiction of the Commission, all as more fully represented in the application, which is on file with the Commission and open for public inspection.

Applicant states that the maximum deliverability of Hanst producing field is 200 Mcf per day, for which the proposed compressor unit will be adequate. Applicant also states that the existing Hanst station is not suitable for reinstallation and will be sold for junk. It is estimated that this proposed retirement will result in a decrease of $7,400 per year in operating and maintenance costs.

Applicant states that the maximum deliverability of the Cross Creek field is 310 Mcf per day for which the proposed 75 horsepower compressor unit will be adequate. This proposed replacement will result in an estimated decrease in operating and maintenance costs of $15,000 per year.

Applicant also proposes to construct new buildings for the proposed new compressor units and to retire the old buildings at said Hanst and Cross Creek stations.

The estimated cost of the proposed construction at Hanst Compressor Station is $7,000. It is estimated that the salvage will amount to $2,000, that retirement costs will be $2,000, and that there will be a credit to fixed capital of $54,300.

The estimated cost of construction at Cross Creek Compressor Station is $38,000. It is estimated that the salvage will amount to $20,000, that retirement costs will be $5,000, and that there will be a credit to fixed capital of $40,000.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 16, 1958, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 6, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G-16126]

TENSAS GAS GATHERING CORP.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

SEPTEMBER 12, 1958.

Tensas Gas Gathering Corporation (Tensas Gas), on August 13 and 14, 1958, tendered for filing three revised tariff sheets[1] to its FPC Gas Tariff, Original Volume No. 1, by which Tensas Gas proposes to increase its rate for sale of gas in an amount in excess of $30,000 annually to Olin Gas Transmission Corporation supplied with gas produced or gathered by Tensas Gas in the State of Louisiana.

The increased rate and charge so proposed, which Tensas Gas proposes to be effective as of August 14, 1958, is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rates and charges until August 15, 1958, and thereafter to permit them to become effective as of that date: *Provided,* That within 20 days from the date of this order Tensas Gas shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated revised tariff sheets be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Tensas Gas' proposed increased rate be made effective as hereinafter provided and that Tensas Gas be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated revised tariff sheets.

(B) Pending such hearing and decision thereon, said First Revised Sheet Nos. 5, 6 and 7 to Tensas Gas FPC Gas Tariff, Original Volume 1, are each hereby suspended and the use thereof deferred until August 15, 1958, and until such further time as each is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in the above-designated filings shall be effective as of August 15, 1958: *Provided, however,* That within 20 days from the date of this order, Tensas Gas shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Tensas Gas shall refund at such time and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by Tensas Gas herein shall be passed on and paid to the persons entitled thereto as such times and in such amounts, and in such manner as may be required by final order of the Commission. Tensas Gas shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Tensas Gas so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers

[1] Said Notice of Change, together with another concurrently submitted but not subject to this order, are submitted in substitution for prior filing made on July 28, 1958.

[1] First Revised Sheet Nos. 5, 6 and 7 to Tensas Gas' FPC Gas Tariff, Original Volume No. 1, comprising its Rate Schedule G-2. Aforementioned Sheet Nos. 6 and 7 were filed on August 13 and Sheet No. 5 was filed on August 14. On July 28, 1958, Tensas Gas tendered for filing Supplement No. 1 to Rate Schedule G-2 to effect the proposed change. The aforementioned revised sheets were filed pursuant to a Commission letter dated August 7, 1958, which informed Tensas Gas that changes in rates may be effected only by tendering revised tariff sheets.

and the revenues resulting therefrom, as computed under the rates in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the difference in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Tensas Gas shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the revised tariff sheets involved, as follows:

Agreement and Undertaking of Tensas Gas Gathering Corporation to Comply with the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes.

In conformity with the requirements of the order issued ----------, in Docket No. G-16126, Tensas Gas Gathering Corporation hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused the agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolutions of its board of directors, a certified copy of which is appended hereto this day of ----------

TENSAS GAS GATHERING CORPORATION
By ----------
Attest:

Secretary

Unless Tensas Gas is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Tensas Gas shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) The revised tariff sheets hereby suspended shall not be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 f)).

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3074]

CORNUCOPIA GOLD MINES

ORDER SUMMARILY SUSPENDING TRADING

SEPTEMBER 12, 1958.

I. The Common Stock, $.05 par value, of Cornucopia Gold Mines being listed and registered on the American Stock Exchange; and

II. The Commission on July 25, 1958, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the Act") to determine at a hearing to be held September 2, 1958, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the common stock of Cornucopia Gold Mines (hereinafter called "registrant") on the American Stock Exchange for failure to comply with section 13 of the Act and the rules and regulations adopted thereunder, and for failure to comply with the disclosure requirements of Regulation 14 adopted pursuant to section 14 (a) of the Act.

On September 2, 1958, the Commission issued its order summarily suspending trading of said securities on the exchange pursuant to section 19 (a) (4) of the Act for the reasons set forth in said order to prevent fraudulent, deceptive or manipulative acts or practices for a period of ten days from the date of the aforesaid order.

III. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the American Stock Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten days, September 13 to 22, 1958, inclusive.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[No. 3666]

[Ex Parte No. MC-13]

TRANSPORTATION OF NITROMETHANE

At a special session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 10th day of September A. D. 1958.

It appearing, that the occurrence of violent explosions at Niagara Falls, N. Y., on January 22, 1958, and at Mt. Pulaski, Ill., on June 1, 1958, of nitromethane in bulk in railroad tank cars, indicates the desirability, in the public interest, of imposing at the earliest practicable date, regulations for the transportation of nitromethane (a chemical presently classified as a nonexplosive), when transported in bulk, in railroad tank cars or in tank motor vehicles;

It further appearing, that because of the urgent and immediate need for such regulations, rule making procedure under section 4 (a) of the Administrative Procedure Act, 5 U. S. C. 1003 (a), would be impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than 30 days notice pursuant to section 4 (c) of the Administrative Procedure Act, 5 U. S. C. 1003 (c);

It is ordered, That under authority contained in 18 U. S. C. 831-835, all shipments of nitromethane (lacquer solvent), in bulk, in railroad tank cars, and under authority contained in 49 U. S. C. 304, all shipments of the same commodity in tank motor vehicles by common, contract or private carriers by motor vehicle, from all shippers to all consignees, shall be prohibited until further order of the Commission;

It is further ordered, That this order shall be effective on September 19, 1958.

And it is further ordered, That notice of this proposed order shall be given to rail carriers, motor carriers, other persons of interest, and to the general public by depositing a copy thereof in the Office of the Secretary of the Interstate Commerce Commission, Washington, D. C., and by filing a copy with the Director, Federal Register Division.

(Sec. 204, 49 Stat. 546, as amended, 62 Stat. 738; 49 U. S. C. 304; 18 U. S. C. 831-835)

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY, *Secretary.*

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

[Amdt. 21]

PART 485—SOIL BANK

SUBPART—CONSERVATION RESERVE PROGRAM

MISCELLANEOUS AMENDMENTS

The regulations governing the conservation reserve part of the Soil Bank Program, 21 F. R. 6289, as amended, are hereby further amended as follows:

1. Section 485.150 (w) is amended by changing the first sentence to read as follows: "'Tame hay' means a stand of perennial grass or legumes which normally requires preparation of the land and seeding and from which the growth was harvested for hay or silage during either of the two years preceding the first year of the contract period for the land first placed in the conservation reserve."

2. Section 485.153 is amended by inserting immediately after the first sentence a new sentence to read as follows: "Public land upon which a homestead or desert land entry has been made and is in good standing shall not be considered land owned by the Federal Government within the meaning of the foregoing provision."

3. A new section is added immediately following § 485.153b to read as follows:

§ 485.153c *Land with respect to which a contract has been terminated.* Any land with respect to which a conservation reserve contract has been terminated for causes other than the expiration of the contract period shall not be eligible to be placed in the conservation reserve for twelve months following such termination except as provided in § 485.169 (b) (1).

4. Section 485.156 (c) is amended by changing the second sentence to read as follows: "A practice started before April 15 of the first year of the contract period and after the producer has signed a contract or an application for a contract shall be considered as having been started during the first year of the contract period."

5. Section 485.156 (c) (1) is amended by changing the colon after the word "producer" to a comma and inserting immediately thereafter the following: "under a contract for which 1956, 1957, or 1958 was the first year of the contract period, and such period shall be not less than three and not more than ten years, as the producer elects, under a contract for which 1959 or a subsequent year is the first year of the contract period:".

6. Section 485.156 (c) (2) is amended by deleting the comma after the word "producer" and inserting immediately thereafter the following: "under a contract for which 1956, 1957, or 1958 is the first year of the contract period, and such period may be not less than five and not more than ten years, as the producer elects, under a contract for which 1959 or a subsequent year is the first year of the contract period,".

7. Section 485.156 (d) (1) is amended by inserting "or § 485.169 (b) (2)" immediately following "§ 485.159" in the first sentence.

8. Section 485.156 (d) (1) is also amended by inserting immediately before the last sentence the following: "Contracts previously entered into with producers shall also be modified to reduce the acreage in the designated conservation reserve by any acreage which the county committee determines to be damaged by natural causes to the extent that such land is no longer suitable for agricultural production and it would be impracticable to require the restoration or establishment of any of the approved practices thereon. In case of such modification, annual and cost-share payments paid or due with respect to such acreage need not be refunded or forfeited."

9. Section 485.158 (a) (2) is amended by striking out the word "and" preceding (5) in the fifth sentence, changing the colon in the fifth sentence to a comma, and inserting immediately thereafter the following: "and (6) orchards, vineyards, small fruits, and nursery stock including woody ornamentals such as azaleas, roses and rhododendrons (flowers grown from seed or bulbs for commercial use are soil bank base crops):"

10. Section 485.159 is amended by adding at the end thereof a new paragraph (d) to read as follows:

(d) Notwithstanding the provisions of paragraphs (a), (b), and (c) of this section, with respect to contracts under which 1959 or a subsequent year is the first year of the contract period, reconstitution of farms shall be made in accordance with the regulations governing reconstitution of farms, farm allotments, and farm history and soil bank base acreages (7 CFR Part 719, 23 F. R. 6731) and any amendments thereto.

11. Section 485.160 (a) is amended by redesignating paragraph (d) as subparagraph (4).

12. Section 485.163 (d) (3) is amended to read as follows:

(3) The number of acres in the tract or tracts of land designated as the conservation reserve and the number of acres on the farm devoted to soil bank base crops shall be measured or otherwise determined in accordance with the regulations governing the determination of acreage and performance (7 CFR Part 718, 22 F. R. 3747) and any amendments thereto. In determining the acreage of any commodity for which an acreage allotment or soil bank corn base was determined for the farm the definition of the acreage of such commodity under the marketing quota and price support programs shall apply except that: (i) The provisions of such definitions which relate to the disposition of acreage in excess of the allotment shall apply to the disposition of acreage in excess of that required for compliance with a conservation reserve contract; (ii) the acreage of peanuts shall include any acreage planted to peanuts which is harvested for hay or hogged off, and any acreage from which the peanuts are marketed for consumption as boiled peanuts; (iii) the acreage of wheat shall include any acreage planted to wheat which is harvested for hay or ensilage: *Provided*, That if the soil bank base in effect is the base established under a Conservation Reserve Contract which includes 1957 as a part of the contract period and such contract is not modified to include additional land in the conservation reserve, or is modified only through reconstitution of the farm, the acreage of wheat shall not include acreage planted to wheat which is harvested for hay or ensilage. For 1956, the number of acres devoted to any of the soil bank base crops for which an acreage allotment or soil bank corn base is not applicable shall be the harvested acreage of such crop. For 1957 and subsequent years, it shall be the acreage planted to such crop (including volunteer seedlings) except that: (a) An acreage of such crop shall not be considered as acreage devoted to a soil bank base crop if it is turned under, cut off, pastured off, or otherwise disposed of, to the extent that the crop will not reach maturity, before the later of (*1*) a date to be established by the State committee which shall be at least 15 days before the date the harvesting of the latest maturing crop in the area normally begins (such date may be established in a county or an area within a county and will be available at the county ASC office), or (2) 15 days after the mailing date of Form CSS–572, Notice of Measured Acreage—Soil Bank Program, but in no event later than the maturity of the crop; (b) any acreage of such crop shall not be considered as acreage devoted to a soil bank base crop if it is disposed of in accordance with regulations governing the determination of acreage and performance (7 CFR Part 718, 22 F. R. 3747) and any amendments thereto; and (*c*) any crop which is used as a nurse or cover crop shall not be considered as acreage devoted to a soil bank base crop if the producer obtains written approval from the county committee for such use prior to the time disposition would otherwise be required under (*a*) (*1*) or (2) of this subdivision and none of such crop is harvested or if the county committee determines that the crop has in fact been used as a nurse or cover crop, has not been harvested, and has been disposed of by the producer in such manner, or is in such condition, that no part of the crop can be harvested. Notwithstanding the other provisions of this section, for 1958 and subsequent years the acreage of any grain crop (including a crop subject to acreage allotments) which is planted on the conservation reserve only for wildlife feed plantings as a part of an approved G–1 practice and no part of which is harvested will not be considered as devoted to soil bank base crops for the purpose of determining compliance with the farm permitted acreage. For the purpose of determining compliance with acreage allotments, the acreage of any crop subject to acreage allotments shall be determined in accordance with applicable acreage allotment and marketing quota program regulations.

13. Section 485.166 is amended to read as follows:

§ 485.166 *Set-offs.* Set-offs shall be handled in accordance with the regulations issued by the Secretary governing setoffs (7 CFR Part 13, 23 F. R. 3757) and any amendments thereto.

14. Section 485.168 is amended by adding at the end thereof a new paragraph (d) to read as follows:

(d) Effective with respect to contracts under which 1959 or a subsequent year is the first year of the contract period, the provisions of paragraph (a) (2) of this section shall not apply to a cash tenant, standing-rent tenant, or a fixed-rent tenant unless such tenant was living on the farm in the year immediately preceding the first year of the contract period or received 50 percent or more of his income in such year from the farm to be covered by a conservation reserve contract.

(Sec. 124, 70 Stat. 198; 7 U. S. C. 1812)

Issued at Washington, D. C., this 15th day of September 1958.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

[F. R. Doc. 58–7668; Filed, Sept. 18, 1958; 8:53 a. m.]

[Amdt. 19]

PART 485—SOIL BANK

SUBPART—CONSERVATION RESERVE PROGRAM

MISCELLANEOUS AMENDMENTS

The regulations governing the conservation reserve part of the Soil Bank Program, 21 F. R. 6289, as amended, are hereby further amended as follows:

1. By adding a new § 485.153b as follows:

§ 485.153b *Land in small watershed projects.* Any land, which is otherwise eligible, on which an easement or right-of-way is granted in connection with a project authorized under the Watershed Protection and Flood Prevention Act of August 4, 1954, 68 Stat. 666, as amended, shall be eligible to be designated as conservation reserve, except for any part of such land which is permanently flooded by water as a result of the works of such project.

2. Section 485.157 (f) is amended by inserting "(1)" after the heading of paragraph (f) and adding a new subparagraph (2) as follows:

(2) The producer shall, without cost-share payments, restore any protective vegetative cover which is damaged as a result of the impoundment of water in connection with a project under the Watershed Protection and Flood Prevention Act of August 4, 1954, 68 Stat. 666, as amended.

3. Section 485.163 (d) is amended by adding the following new subparagraph:

(4) Commencing with the year following the year in which land is flooded as a result of the impoundment of water on the conservation reserve, or any part thereof, under an easement or right-of-way granted in connection with a Watershed Protection and Flood Prevention Project under the Act of August 4, 1954, 68 Stat. 666, as amended, the number of acres which shall be used in computing the annual payment shall be reduced by the number of acres of the conservation reserve which are permanently flooded.

(Sec. 124, 70 Stat. 198; 7 U. S. C. 1812)

Issued at Washington, D. C., this 15th day of September 1958.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

SUBPART—UNITED STATES STANDARDS FOR APPLES [1]

On July 1, 1958, a notice of proposed rule making was published in the FEDERAL REGISTER (23 F. R. 5013) regarding proposed amendments to the United States Standards for Apples.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the following United States Standards for Apples are hereby promulgated pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., as amended; 7 U. S. C. 1621 et seq.).

GRADES

Sec.
51.300 U. S. Extra Fancy.
51.301 U. S. Fancy.
51.302 U. S. No. 1.
51.303 U. S. No. 1 Cookers.
51.304 U. S. No. 1 Early.
51.305 U. S. Utility.
51.306 Combination grades.
51.307 U. S. Hail grade.

COLOR

51.308 Color requirements.

UNCLASSIFIED

51.309 Unclassified.

TOLERANCES

51.310 Tolerances.
51.311 Application of tolerances to individual packages.
51.312 Basis of calculating percentages.

CONDITION

51.313 Conditions after storage or transit.

SIZE

51.314 Size requirements.

PACKING AND MARKING

51.315 Packing requirements.
51.316 Suggestions for marking containers.

U. S. CONDITION STANDARDS FOR EXPORT

51.317 U. S. condition standards for export.

DEFINITIONS

51.318 Mature.
51.319 Overripe.
51.320 Carefully hand-picked.
51.321 Clean.
51.322 Well formed.
51.323 Injury.
51.324 Fairly well formed.
51.325 Damage.
51.326 Seriously deformed.
51.327 Serious damage.

AUTHORITY: §§ 51.300 to 51.327 issued under Sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

GRADES

§ 51.300 *U. S. Extra Fancy.* "U. S. Extra Fancy" consists of apples of one variety which are mature, but not overripe, carefully hand-picked, clean, well formed; free from decay, internal browning, internal breakdown, scald, scab, bitter pit, Jonathan spot, freezing injury, broken skins and bruises (except those that are slight and incident to proper handling and packing), and visible water core. The apples shall also be free from injury caused by russeting, sunburn or spray burn, limb rubs, hail, drought spots, scars, stem or calyx cracks, other disease, insects, or mechanical or other means. Each apple of this grade shall have the amount of color specified in § 51.308 for the variety. (See §§ 51.308, 51.310, and 51.313.)

§ 51.301 *U. S. Fancy.* "U. S. Fancy" consists of apples of one variety which are mature but not overripe, carefully hand-picked, clean, fairly well formed; free from decay, internal browning, internal breakdown, bitter pit, Jonathan spot, scald, freezing injury, broken skins and bruises (except those incident to proper handling and packing), and visible water core. The apples shall also be free from damage caused by russeting, sunburn, or spray burn, limb rubs, hail, drought spots, scars, stem or calyx cracks, other diseases, insects, or mechanical or other means. Each apple of this grade shall have the amount of color specified in § 51.308 for the variety. (See §§ 51.308, 51.310, and 51.313.)

§ 51.302 *U. S. No. 1.* The requirements for this grade are the same as U. S. Fancy except for color and russeting. In this grade less color is required for all varieties except yellow and green varieties, for which the requirements for both grades are the same. Apples of this grade shall be free from excessive damage caused by russeting which means that they shall meet the russeting requirements for U. S. Fancy as defined under the definitions of "damage by russeting" except for the following:

(a) The aggregate area of an apple which may be covered by smooth netlike russeting shall not exceed 25 percent; and,

(b) The aggregate area of an apple which may be covered by smooth solid russeting shall not exceed 10 percent: *Provided*, That in the case of the Yellow Newtown or similar varieties the aggregate area of an apple which may be covered with smooth solid russeting shall not exceed 20 percent. (See §§ 51.308, 51.310, and 51.313.)

§ 51.303 *U. S. No. 1 Cookers.* "U. S. No. 1 Cookers" consist of apples of one variety which meets the requirements of U. S. No. 1 grade except as to color. This grade is provided for apples which are mature but which may not have sufficient color to meet the specifications of U. S. No. 1. (See §§ 51.310 and 51.313.)

§ 51.304 *U. S. No. 1 Early.* "U. S. No. 1 Early" consists of apples of one variety which meet the requirements of U. S. No. 1 grade except as to color, maturity and size. Apples of this grade have no color requirements, need not be mature, and shall be not less than 2 inches in diameter. This grade is provided for varieties such as Duchess, Gravenstein, Red June, Twenty Ounce, Wealthy, Williams, Yellow Transparent, and Lodi, or other varieties which are normally marketed during the summer months. (See §§ 51.310 and 51.313.)

§ 51.305 *U. S. Utility.* "U. S. Utility" consists of apples of one variety which are mature but not overripe, carefully hand-picked, not seriously deformed; free from decay, internal browning, internal breakdown, scald and freezing injury. The apples shall also be free from serious damage caused by dirt or other foreign matter, broken skins, bruises, russeting, sunburn, spray burn, limb rubs, hail, drought spots, scars, stem or calyx cracks, visible water core, other diseases, insects, or mechanical or other means. (See §§ 51.310 and 51.313.)

§ 51.306 *Combination grades.* (a) Combinations of the above grades can be used as follows:

(1) Combination U. S. Extra Fancy and U. S. Fancy.

(2) Combination U. S. Fancy and U. S. No. 1.

(3) Combination U. S. No. 1 and U. S. Utility.

(b) Combinations other than these are not permitted in connection with the United States apple grades. When Combination U. S. Extra Fancy and U. S. Fancy is packed, at least 25 percent of the apples in any lot shall meet the requirements of the higher grade in the combination. When Combination U. S. Fancy and U. S. No. 1 or Combination U. S. No. 1 and U. S. Utility are packed, at least 50 percent of the apples in any lot shall meet the requirements of the higher grade in the combination. (See §§ 51.308, 51.310, and 51.313.)

§ 51.307 *U. S. Hail grade.* "U. S. Hail grade" consists of apples which meet the requirements of U. S. No. 1 grade except that hail marks where the skin has not been broken and well healed hail marks where the skin has been broken shall be permitted, provided the apples are fairly well formed. (See §§ 51.308, 51.310, and 51.313.)

COLOR

§ 51.308 *Color requirements.* In addition to the requirements specified for the grades set forth in §§ 51.300 to 51.307, apples of these grades shall have the percentage of color specified for the variety in Table I appearing in this section. For the solid red varieties the percentage stated refers to the area of the surface which must be covered with a good shade of solid red characteristic of the variety: *Provided*, That an apple having color of a lighter shade of solid red or striped red than that considered as a good shade of red characteristic of the variety may be admitted to a grade, provided it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of good red characteristic of the variety required for the grade. For the striped red varieties the percentage stated refers to the area of the surface in which the stripes of good shade of red characteristic of the variety shall predominate over stripes of lighter red, green, or yellow. However, an apple having color of a lighter shade than that considered as a good shade of red characteristic of the variety may be admitted to a grade: *Provided*, That it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of stripes of a good red characteristic of the variety required for the grade. Faded brown stripes shall not be considered as color except in the case of the Gray Baldwin variety.

TABLE I—COLOR REQUIREMENTS FOR SPECIFIED U. S. GRADES OF APPLES, BY VARIETIES

Variety	U. S. Extra Fancy	U. S. Fancy	U. S. No. 1.
	Percent	*Percent*	*Percent*
Solid Red:			
Black Ben	75	50	25
Gano	75	50	25
Winesap	75	50	25
Other similar varieties [1]	75	50	25

[1] Arkansas Black, Beacon, Detroit Red, Esopus Spitzenburg, King David, Lowry, Minjon.

[2] When Red Sport varieties are specified as such they shall meet the color requirements specified for Red Sport varieties.

[3] Haralson, Kendall, Macoun, Melba, Snow (Famouse).

[4] Bonum, Early McIntosh, Limbertwig, Milton, Nero, Paragon.

[5] Tinge of color.

[6] Duchess, Red Astrachen, Smokehouse, Summer Rambo.

[7] Blush cheek.

[8] None.

[9] Characteristic ground color.

[10] 75 percent characteristic color. Note: "Characteristic color," when the white around the lenticels predominates over the green color, creating a mottling effect on the surface of the apple, it shall be considered as the minimum characteristic color.

UNCLASSIFIED

§ 51.309 *Unclassified.* "Unclassified" consists of apples which are not graded in conformity with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

TOLERANCES

§ 51.310 *Tolerances.* (a) In order to allow for variations incident to proper grading and handling, not more than a total of 10 percent of the apples in any lot may fail to meet the requirements of the grade: *Provided*, That not more than one-half of this amount, or 5 percent, shall be allowed for apples which are seriously damaged by insects and including not more than 1 percent for apples affected by decay or internal breakdown or both.

(b) When applying the foregoing tolerances to the Combination grades, no part of any tolerance shall be allowed to reduce, for the lot as a whole, the 50 percent of apples of the higher grade required in the combination but individual containers shall have not less than 40 percent of the higher grade.

§ 51.311 *Application of tolerances to individual packages.* The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations provided the averages for the entire lot are within the tolerances specified for the grade:

(a) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided (as in the case of size, where a tolerance of 15 percent is provided) individual packages in any lot shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages in any lot shall have not more than double the tolerance specified, except that at least one apple which is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any package.

(b) For packages which contain 10 pounds or less, individual packages in any lot are not restricted as to the percentage of defects: *Provided*, That not more than one apple which is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any package.

§ 51.312 *Basis of calculating percentages.* (a) When the numerical count is marked on the container, percentages shall be calculated on the basis of count.

(b) When the minimum diameter or minimum and maximum diameters are marked on the container, percentages shall be calculated on the basis of weight.

(c) When the apples are in bulk, percentages shall be calculated on the basis of weight.

CONDITION

§ 51.313 *Condition after storage or transit.* Decay, scald, or any other deterioration which may have developed on apples after they have been in storage or transit shall be considered as affecting condition and not the grade.

SIZE

§ 51.314 *Size requirements.* (a) The numerical count or the minimum diameter of the apples packed in a closed container shall be indicated on the container.

(b) When the numerical count is marked on the container the minimum size of the largest apple shall be not more than one-fourth inch larger than the minimum size of the smallest apple.

(c) When the numerical count is not shown the minimum diameter shall be plainly stamped, stenciled, or otherwise marked on the container in terms of whole inches, whole and half inches, whole and quarter inches, or whole and eighth inches, as 2½ inches minimum, 2¼ inches minimum, or 2⅜ inches minimum, in accordance with the facts. It is suggested that both minimum and maximum diameters be marked on the container, as 2¼ to 2¾ inches, or 2½ to 2¾ inches, as such marking is especially desirable for apples marketed in the export trade.

(d) The measurement for minimum size shall be the largest diameter of the apple taken at right angles to a line from the stem end to the blossom end. The measurement for maximum size shall be the smallest dimension of the apple determined by passing the apple through a round opening.

(e) In order to allow for variations incident to proper sizing, not more than 5 percent of the apples in any lot may not meet the size requirements: *Provided*, That, when the maximum and minimum sizes are both stated, an additional 10 percent tolerance shall be allowed for apples which are larger than the maximum size stated.

PACKING AND MARKING

§ 51.315 *Packing requirements*—(a) *Representative face packing.* Each package shall be packed so that the apples on the shown face shall be reasonably representative in size, color and quality of the contents of the package.

(b) *Boxes.* (1) Apples packed in the standard northwestern apple boxes shall be arranged in the containers according to the approved and recognized methods with the stems pointing toward the ends of the boxes, except when jumbled. All packages shall be well filled but not to the extent as to cause excessive or unnecessary bruising to the apples because of overfilled packages. Apples packed in the standard northwestern apple boxes shall be tightly packed with sufficient bulge to prevent any appreciable movement of the apples within the containers when lidded. Each wrapped apple shall be completely enclosed by its individual wrapper.

(2) Apples packed in other type boxes, such as nailed wooden boxes, wirebound boxes, and fibreboard boxes, may be place packed, jumbled packed faced, or jumble packed, and all packs shall be well filled.

(3) Apples packed in boxes equipped with cell compartments or molded trays shall be of the proper size for the cells or the molds in which they are packed.

(4) Apples packed in consumer unit cartons and packed into shipping containers shall completely fill the shipping container.

(c) *Baskets.* Apples packed in U. S. standard bushel baskets, one-half bushel baskets and five-eighths bushel baskets may be ring faced and shall be tightly packed with sufficient bulge to prevent any appreciable movement of the apples within the containers when lidded.

(d) *Tolerances.* In order to allow for variations incident to proper packing, not more than 5 percent of the containers in any lot may not meet these requirements.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

§ 51.316 *Suggestions for marking containers.* (a) In order to conserve space, abbreviations may be used for marking United States grade names on containers. The following abbreviations are suggested where it is not desired to use the full grade name:

(1) U. S. Ex. Fcy. for U. S. Extra Fancy.
(2) U. S. Fcy. for U. S. Fancy.
(3) U. S. No. 1 for U. S. No. 1.
(4) U. S. Util. for U. S. Utility.
(5) Combination grades may be designated by abbreviations of the grades preceded by the abbreviation "Comb.", as "Comb. U. S. Fcy.-U. S. No. 1".

U. S. CONDITION STANDARDS FOR EXPORT[1]

§ 51.317 *U. S. condition standards for export.* (a) The apples in any lot shall be generally tightly packed when in baskets, and generally fairly tightly or tightly packed when in boxes.

(b) Not more than 5 percent of the apples in any lot shall be further advanced in maturity than firm ripe.

(c) Not more than 5 percent of the apples in any lot shall be damaged by storage scab.

(d) Not more than a total of 5 percent of the apples in any lot shall be damaged by bitter pit, Jonathan spot, scald, internal breakdown, water core, freezing, decay, or other such condition factors: *Provided*, That:

(1) Not more than 2 percent shall be allowed for apples affected by decay;

(2) Not more than 2 percent shall be allowed for damage by internal breakdown; and,

(3) Not more than 2 percent of slight scald shall be permitted for apples properly packed in oiled paper or which have been especially treated with oil to prevent scald; otherwise, the apples must be free from scald.

(e) Any lot of apples shall be considered as meeting the U. S. condition standards for export if the entire lot averages within the requirements specified: *Provided*, That no sample from the containers in any lot is found to exceed double the percentages specified, except that for packages which contain 10 pounds or less, individual packages in any lot are not restricted as to the percentage of defects if the entire lot averages within the tolerances specified.

DEFINITIONS

§ 51.318 *Mature.* "Mature" means that the apples have reached the stage of growth which will insure the proper completion of the ripening process. Before a mature apple becomes overripe it will show varying degrees of firmness, depending upon the stage of the ripening process. The following terms are used for describing these different stages of firmness of apples:

(a) "Hard" means apples with a tenacious flesh and starchy flavor.

(b) "Firm" means apples with a tenacious flesh but which are becoming crisp with a slight starchy flavor, except the Delicious variety.

(c) "Firm ripe" means apples with crisp flesh except that the flesh of the apples of the Gano, Ben Davis, and Rome Beauty varieties may be slightly mealy.

(d) "Ripe" means apples with mealy flesh and soon to become soft for the variety.

§ 51.319 *Overripe.* "Overripe" means apples which are dead ripe, with flesh very mealy or soft, and past commercial utility.

§ 51.320 *Carefully hand-picked.* "Carefully hand-picked" means that the apples do not show evidence of rough handling or of having been on the ground.

§ 51.321 *Clean.* "Clean" means that the apples are free from excessive dirt, dust, spray residue and other foreign material.

§ 51.322 *Well formed.* "Well formed" means that the apple has the normal shape characteristic of the variety, except that the shape may be slightly irregular, provided, it does not detract from the general appearance of the apple.

§ 51.323 *Injury.* "Injury" means any defect which more than slightly affects the appearance, or the edible or shipping quality of the apples.

(a) Russeting in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface, shall not be considered in determining whether or not an apple is injured by russeting, except that rough or bark-like russeting in the stem cavity or calyx basin shall be considered as injury when the appearance of the apple is materially affected. The following types and amounts of russeting outside of the stem cavity or calyx basin, shall be considered as injury:

(1) Smooth net-like russeting, when an aggregate area of more than 5 percent of the surface is covered, and the color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russeting when the appearance is affected to a greater extent than the above amount permitted.

(2) Smooth, solid russeting which covers an aggregate area of more than one-half inch in diameter, and the pattern and color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous solid russeting when the appearance is affected to a greater extent than the above amount permitted.[1]

(3) Slightly rough russeting which covers an aggregate area of more than one-fourth inch in diameter.[1]

(4) Rough russeting, unless it is well within the stem cavity or calyx basin and is not readily apparent.

(b) Any one of the following defects, on any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as injury:

(1) Sunburn or spray burn, when the discolored area does not blend into the normal color of the fruit.

(2) Dark brown or black limb rubs which affect a total area of more than one-eighth inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of injury by russeting.[1]

(3) Hail marks, drought spots or other similar depressions or scars where there is appreciable discoloration other than russeting, or when the indentations are not superficial, or when an individual indentation exceeds one-eighth inch in diameter, or the total affected area exceeds one-fourth inch in diameter.[1]

(4) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed a length of one-eighth inch.

(5) Diseases:

(i) Cedar rust infection which affects a total area of more than one-eighth inch in diameter.[1]

(ii) Sooty blotch or fly speck which is thinly scattered over more than 5 percent of the surface, or dark, heavily concentrated spots which affect an area of more than one-fourth inch in diameter.[1]

(iii) Red skin spots which are thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-fourth inch in diameter.[1]

(6) Insects:

(i) Any healed sting or healed stings which affect a total area of more than one-eighth inch in diameter including any encircling discolored rings.[1]

(ii) Worm holes.

§ 51.324 *Fairly well formed.* "Fairly well formed" means that the apple may be slightly abnormal in shape but not to an extent which detracts materially from its appearance.

§ 51.325 *Damage.* "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the apples.

(a) Russeting in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface shall not be considered in determining whether or not an apple is damaged by russeting, except that excessively rough or bark-like russeting in the stem cavity or calyx basin shall be considered as damage when the appearance of the apple is materially affected. The following types and amounts of russeting outside of the stem cavity or calyx basin, shall be considered as damage:

(1) Russeting which is excessively rough on Roxbury Russet and other similar varieties.

(2) Smooth net-like russeting, when an aggregate area of more than 15 percent of the surface is covered, and the color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russeting when the appearance is affected to a greater extent than the above amount permitted.

(3) Smooth solid russeting, when an aggregate area of more than 5 percent of the surface is covered, and the pattern and color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous solid russeting when the appearance is affected to a greater extent than the above amount permitted.

(4) Slightly rough russeting which covers an aggregate area of more than one-half inch in diameter.[1]

(5) Rough russeting which exceeds one-fourth inch in diameter, unless it is well within the stem cavity or calyx basin and is not readily apparent.[1]

(b) Any one of the following defects, or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(1) Sunburn or spray burn which has caused blistering or cracking of the skin, or when the discolored area does not blend into the normal color of the fruit unless the injury can be classed as russeting.

(2) Limb rubs which affect a total area of more than one-half inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of damage by russeting.[1]

(3) Hail marks, drought spots, or other similar depressions or scars when the skin has not been broken and the injury is more than slightly depressed or affects a total area of more than one-half inch in diameter; or hail marks or similar scars when the skin has been broken and the injury is not well healed, or is more than slightly depressed, or affects an aggregate area of more than one-fourth inch in diameter.[1]

(4) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of one-fourth inch.

(5) Diseases:

(i) Scab spots which affect a total area of more than one-fourth inch in diameter.[1]

(ii) Cedar rust infection which affects a total area of more than one-fourth inch in diameter.[1]

(iii) Sooty blotch or fly speck which is thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-half inch in diameter.[1]

(iv) Red skin spots which are thinly scattered over more than one-tenth of the surface, or dark, heavily concentrated spots which affect an area of more than one-half inch in diameter.[2]

(6) Insects:

(i) Any healed sting or healed stings which affect a total area of more than three-sixteenths inch in diameter including any encircling discolored rings.[1]

(ii) Worm holes.

§ 51.326 *Seriously deformed.* "Seriously deformed" means that the apple is so badly misshapen that its appearance is seriously affected.

§ 51.327 *Serious damage.* "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the apples.

(a) The following types and amounts of russeting shall be considered as serious damage:

(1) Smooth solid russeting, when more than one-half of the surface in the aggregate is covered, including any russeting in the stem cavity or calyx basin or slightly rough, or excessively rough or bark-like russeting which detracts from the appearance of the fruit to a greater extent than the amount of smooth solid russeting permitted: *Provided*, That any amount of russeting shall be permitted on Roxbury Russet and other similar varieties.

(b) Any one of the following defects, or any combination thereof, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(1) Sunburn or spray burn which seriously detracts from the appearance of the fruit.

(2) Limb rubs which affect more than one-tenth of the surface in the aggregate.

(3) Hail marks, drought spots, or scars, if they materially deform or disfigure the fruit, or if such defects affect more than one-tenth of the surface in the aggregate: *Provided*, That no hail marks which are unhealed shall be permitted and not more than an aggregate area of one-half inch shall be allowed for well-healed hail marks where the skin has been broken.[1]

(4) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of one-half inch.

(5) Visible water core which affects an area of more than one-half inch in diameter.[1]

(6) Diseases: (i) Scab spots which affect a total area of more than three-fourths inch in diameter.[1]

(ii) Cedar rust infection which affects a total area of more than three-fourths inch in diameter.[1]

(iii) Sooty blotch or fly speck which affects more than one-third of the surface.

(iv) Red skin spots which affect more than one-third of the surface.

(v) Bitter pit and Jonathan spot which is thinly scattered over more than one-tenth of the surface and does not materially deform or disfigure the fruit.

(7) Insects: (i) Healed stings which affect a total area of more than one-fourth inch in diameter including any encircling discolored rings.[1]

(ii) Worm holes.

The United States Standards for Apples contained in this subpart shall become effective on the date of publication in the FEDERAL REGISTER, and thereupon will supersede the United States Standards for Apples which have been in effect since August 10, 1956. (7 CFR 51.300–51.327).

It is hereby found and determined that good cause exists for not postponing the effective date of these standards until 30 days after publication hereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the packing and shipment of the 1958 fall crop of apples has already begun; (ii) it is in the interest of the public and the industry that the standards be made effective as soon as possible; and (iii) no special preparation on the part of the industry is required to comply with these standards.

Dated: September 16, 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

[F. R. Doc. 58-7665; Filed, Sept. 18, 1958; 8:52 a. m.]

[1] These standards also may be referred to as "Standards for Export".

[1] The area refers to that of a circle of the specified diameter.

[2] The area refers to that of a circle of the specified diameter.

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Referenda Bulletin 1, Amdt. 1]

PART 717—HOLDING OF REFERENDA ON MARKETING QUOTAS

MISCELLANEOUS AMENDMENTS

Basis and purpose. The amendment contained herein is issued pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, for the purpose of amending § 717.5 of the regulations governing the holding of referenda on marketing quotas contained in §§ 717.1 to 717.14, inclusive (23 F. R. 3432). Prior to preparing this amendment, public notice (23 F. R. 6455) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to this amendment which were submitted pursuant to such notice have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

The regulations governing the holding of referenda on marketing quotas (23 F. R. 3432) are hereby amended in the following respect:

Section 717.5 is amended by changing the last sentence thereof to read as follows: "The polls shall be closed at 6 o'clock p. m., local time, or such later hour as is fixed by the State committee in order to afford a full and fair opportunity to producers to vote, on the date for holding the referendum."

(Sec. 375, 52 Stat. 66, as amended 7 U. S. C. 1375)

Done at Washington, D. C. this 15th day of September 1958. Witness my hand and seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 58-7670; Filed, Sept. 18, 1958; 8:53 a. m.]

[1026 (Burley, Flue, Fire, Air, and Sun-58)-1, Amdt. 1]

PART 725—BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

MARKETING QUOTA REGULATIONS, 1958–59 MARKETING YEAR

This amendment is based on the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, applicable to tobacco (7 U. S. C. 1311–15), and corrects the reference to "paragraph (f)" contained in the last sentence of § 725.952 (c) (23 F. R. 4143), to read "paragraph (e)". Accordingly, the last sentence of § 725.952 (c) is amended to read as follows: "Failure to return the marketing card within fifteen (15) days after written request by certified mail from the county office manager shall constitute failure to account for disposition of tobacco marketed from the farm unless disposition of all tobacco marketed from the farm is accounted for as provided in paragraph (e) of this section."

Since this document merely corrects an error in reference, it is found to be impractical and not in the public interest that the notice and public procedure and effective date requirements of the Administrative Procedure Act be followed and the correction provided for herein shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interprets or applies sec. 313, 52 Stat. 47, as amended; 7 U. S. C. 1373)

Done at Washington, D. C. this 15th day of September 1958. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 58-7671; Filed, Sept. 18, 1958; 8:54 a. m.]

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter G—Determination of Proportionate Shares

[Sugar Determination 849.2]

PART 849—DETERMINATION OF PREVENTED ACREAGE CREDIT

PREVENTED ACREAGE CREDIT; 1958 AND SUBSEQUENT CROPS

Pursuant to the provisions of section 302 (b) of the Sugar Act of 1948, as amended (hereinafter referred to as "act"), the following determination is hereby issued:

§ 849.2 *Scope and purpose*—(a) *Applicability.* The provisions of this section apply only in the Domestic Beet Sugar Area and provide procedures for protecting the interests of producers in local producing areas whose past production has been adversely, seriously, and generally affected by drought, storm, flood, freeze, disease, insects or other similar abnormal and uncontrollable conditions, as provided in section 302 (b) of the act.

(b) *Definitions.* For the purpose of this section the terms:

(1) "Prevented acreage" means the number of acres of sugar beets which the Agricultural Stabilization and Conservation (hereinafter referred to as the "ASC") county committee determines would have been planted on a farm during the 1958 or subsequent crop year in a local producing area approved for prevented acreage credit pursuant to paragraph (d) of this section, but were not planted because of drought, flood, storm, freeze, disease, insects, or, upon prior approval of the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture (obtained through the ASC State Committee), other similar abnormal and uncontrollable conditions.

(2) "Local producing area" means a township, as established by Federal survey, in all States in the Domestic Beet Sugar Area except Texas and Utah. In Texas and Utah, a local producing area shall mean an ASC community with boundaries as fixed by the ASC State Committee at the time of issuance of this determination and as shown on maps available for inspection in the respective ASC county offices.

(c) *Prevented acreage credit.* The ASC County Committee shall determine prevented acreages and credits therefor in accordance with the provisions of this section as part of the general determination of performance. The following limitations are applicable to prevented acreage credit for any farm:

(1) The farm must be located (see § 842.2 of this chapter) in a local producing area approved for prevented acreage credit in accordance with paragraph (d) of this section.

(2) Except as otherwise provided in this subparagraph, the number of prevented acres credited to a farm for a year when restrictive proportionate shares are applicable shall not be larger than the amount by which the proportionate share initially established for the farm, including adjustments under appeals but excluding any reallotments, exceeds the planted acreage for such year. In States where proportionate shares are established to coincide with planted acreages, the excess of the requested acreage over the planted acreage for the farm may be credited. However, if a producer other than a new producer (as defined in the proportionate share determination for the applicable year) did not request a proportionate share or requested one smaller than he would have requested because of his knowledge that he would be limited in his plantings due to one or more of the conditions specified in paragraph (b) (1) of this section, his credit shall be limited by the share that would have been established except for such conditions, as determined by the county committee.

(3) For any non-restricted crop, the prevented acreage credit together with the planted acreage for the farm shall not exceed the largest planted acreage plus any prevented acreage credit for the farm for any one of the three years immediately preceding the year for which credit is claimed.

(d) *Approval of local producing areas for prevented acreage credit.* The ASC County Committee shall determine the local producing areas within the county wherein the planting of sugar beets during any crop year was adversely, seriously and generally affected by one or more of the conditions specified in paragraph (b) (1) of this section. The ASC County Committee shall approve for a given crop year each local producing area wherein the planting of sugar beets was adversely and seriously affected by one or more of such conditions on ten percent or more of sugar beet farms in the area, or the acres so affected on farms in the area for a given crop amount to ten percent or more of the total acreage of the proportionate shares established for farms in the area for such year.

(e) *Determining and recording prevented acreage credits.* Subject to the provisions of this section, the ASC County Committee shall determine the extent of prevented acreage to be credited to each farm for the 1958 and subsequent crop years upon the basis of the prevented acreage reported with respect to such farm by the operator thereof, information contained in the county office records, and information brought to the attention of the ASC County Committee. The prevented acreage credit for each farm for any given crop year as determined by the ASC County Committee, together with a brief reference to the basis relied upon by the committee in determing the extent of such credit, shall be recorded on the appropriate county office records. The committee shall report to the ASC State Committee the local producing areas approved pursuant to paragraph (d) of this section, together with related data on numbers of farms, proportionate shares and the conditions causing the prevented acreages. The ASC State Committee shall record prevented acreage credits for proportionate share allotment areas in accordance with instructions issued by the Deputy Administrator, Production Adjustment, Commodity Stabilization Service, U. S. Department of Agriculture.

(f) *Notice.* In each case of denial or reduction of credit for prevented acreage as reported for the 1958 or subsequent crop, the ASC County Committee shall notify the person reporting the prevented acreage regarding the credit, if any, approved in his case, giving the basis of such denial or reduction.

(g) *Appeals.* Any producer whose reported prevented acreage is not approved in its entirety may appeal the county committee's determination to the ASC State Committee. Such an appeal must be filed within fifteen days of the date on which notice of such denial or reduction was mailed to the person claiming or reporting the prevented acreage. Upon receipt of an appeal, the State Committee shall ascertain the county committee's basis for denying or reducing the claim and any other information which is deemed necessary for consideration of the appeal. The appellant shall be informed when the State Committee will consider his appeal and that he may appear personally before the committee at such time if he so desires. After all

the facts in the case have been assembled, the committee shall consider the case carefully and determine the prevented acreage credit which should be approved in the case. The appellant shall be notified of the decision reached in his case. If the prevented acreage credit is less than that claimed, the notice shall also indicate the basis for the committee's decision and inform him that if he is not satisfied with the decision, he may, within fifteen days after such notice is mailed to him, appeal directly to the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C., whose decision shall be final. In acting upon the appeal, consideration shall be given by the State Committee or the Director only to such matters as were required or permitted to be considered by the county committee in approving prevented acreage credits in the case being reviewed.

This determination supersedes, with respect to the 1958 and subsequent crops, § 849.1 as issued September 6, 1957 (22 F. R. 7267, 7933).

STATEMENT OF BASES AND CONSIDERATIONS

Section 302 (a) of the act provides in part that in determining farm proportionate shares, the Secretary shall, insofar as practicable, protect the interests of new producers and small producers and the interests of producers who are cash tenants, share tenants, adherent planters, or sharecroppers "and of the producers in any local producing area whose past production has been adversely, seriously, and generally affected by drought, storm, flood, freeze, disease, insects, or other similar abnormal and uncontrollable conditions." The language appearing within the quotation marks was added by amendments to the act approved on May 29, 1956.

The former determination, as issued in September of 1957, provided for the establishment of prevented acreage credits beginning with the 1955 crop. Special procedure was required for the 1955 and 1956 crops, since they were produced prior to the issuance of the determination. For each subsequent crop, the establishment of such credits is combined with the regular determination of performance. The elimination of regulations relating to the 1955 and 1956 crops and special responsibilities of ASC State Committees in relation thereto, represent the principal changes in this determination, as compared with the original action.

This determination continues the former limitations on the approval of prevented acreage credits. A farm must be located in a local producing area which is approved by the ASC County Committee as a prevented acreage area for the applicable crop year because ten percent or more of the sugar beet farms in the area had prevented acreages or the planting of ten percent or more of the proportionate share acreage in the area was prevented by natural conditions enumerated in the amendment to section 302 (b) of the act. Failure to plant solely because of economic conditions or lack of interest is not a qualifying condition. A local producing area is defined as a township in each State except Texas and Utah, wherein the ASC community constitutes such an area. This is the same definition as is now effective under section 303 of the act with respect to acreage abandonment and crop deficiency payments. The prevented acreage which may be credited to the farm for any year is limited in reference to the established proportionate share or requested acreage.

Accordingly, I hereby find and conclude that this determination will effectuate the applicable provisions of the act.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 302, 61 Stat. 930, as amended; 7 U. S. C. 1132)

Issued this 15th day of September 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 58-7650; Filed, Sept. 18, 1958; 8:48 a. m.]

Subchapter I—Determination of Prices

[Sugar Determination 871.11, Amdt. 1]

PART 871—SUGAR BEETS

1958 CROP

Pursuant to the provisions of section 301 (c) (2) of the Sugar Act of 1948, as amended (herein referred to as "act"), the determination of fair and reasonable prices for the 1958 crop of sugar beets, issued July 31, 1958 (§ 871.11 (23 F. R. 5895)), is hereby amended as follows:

1. By deleting § 871.11 (a) (2) and substituting in lieu thereof:

(a) *Purchase agreements.* * * * (2) the price for sugar beets produced in the Imperial Valley, California shall be not less than that determined pursuant to the provisions of the 1957 crop sugar beet purchase contract between the processor and producer: Except, that,

(i) The price per pound charged for sugar beet seed furnished producers shall not exceed the price so charged for the 1957 crop by more than 5 cents per pound.

(ii) The amount charged producers for transporting sugar beets to processing plants outside the Imperial Valley shall not exceed the following:

Processor	Amount per screened ton of beets
American Crystal Sugar Co	$0.51
Holly Sugar Corp	[1] .12
Union Sugar Division, Consolidated Foods Corp	.61

[1] In the event Holly Sugar Corporation elects to apportion the cost of transporting sugar beets to its Dyer factory from the Imperial Valley to all beets purchased in the Valley then such amount shall not exceed $0.04 per screened ton of beets.

2. By changing the designation of § 871.11 (c) to (d) and inserting the following:

(c) *Reporting requirements.* The processor shall report to the Director, Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C. (herein referred to as "Director") within 60 days after the close of the sales period specified in the sugar beet purchase contract an itemized statement, for each settlement district, signed by an authorized official of the company or certified by an independent accountant showing the computation of "net proceeds" or "net returns" as specified in such contract. Such statement shall be substantially in the form as that contained in Schedule A: *Provided, however,* That if the processor markets beet sugar to an affiliate company or other affiliate business entity he shall report separately the quantity of sugar so marketed and the gross sales price and the net returns derived therefrom.

SCHEDULE A—STATEMENT OF AVERAGE NET RETURNS OR NET PROCEEDS FROM SALES OF SUGAR [1]

Company _____
Settlement area _____
Period _____

	Per cwt. sugar
Gross sales price:	
Total returns	
Less sales and marketing expenses:	
Federal excise tax	
Freight on sugar to destination	
Cash discount	
Allowances	
Brokerage	
Storage	
Warehousing and handling	
Taxes	
Insurance	
Cost of packaging in excess of basis pack	
Advertising	
Sales department expenses:	
Salaries	
Travel	
Miscellaneous	
Other (specify)	
Total expenses	
Net returns	

[1] Include sales of Molasses and Beet Pulp where such sales are required by the purchase contract.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The fair price determination for the 1958 crop of sugar beets provided that the price for sugar beets in Imperial Valley, California, shall be not less than that determined by an appropriate amendment to such determination. Prior to the issuance of the price determination for the 1958 crop of sugar beets, representatives of the California Beet Growers Association informed the Department that the processors purchasing sugar beets in the Imperial Valley had proposed certain changes in purchase contracts for the 1958 crop. The Association requested a supplemental hearing to consider the effects of such contract changes. Accordingly, a supplemental hearing on fair and reasonable prices for the 1958 crop of sugar beets in the Imperial Valley was held at El Centro, California on August 5 and 6, 1958.

(b) *Public hearing.* At the supplemental hearing representatives of the California Beet Growers Association, several local producers, and representatives of the three processors contracting for the purchase of sugar beets produced in Imperial Valley, and other interested parties presented testimony.

The representatives of producers recommended that the Secretary under-

take a complete review of the producer-processor relationships in the Imperial Valley and establish a fair division of the sugar dollar after considering the relative costs of producing and processing, the income available to the industry from sugar and by-products, and the relative risks of each party. Producer representatives further requested that the Department issue a recommendation for a fair sugar beet purchase contract for the Imperial Valley which would specifically include: (1) Such variations in terms and conditions as may be necessary and desirable to meet the different conditions under which each of the three companies operate; (2) the manner in which net selling prices should be computed, including specific delineation of all items of income and expense to be considered in such computation; (3) provision that the sugar companies be required to furnish producers each year a detailed statement of the computation of the net selling price of sugar; (4) determination of fair prices for sugar beet seed furnished to producers by the companies; (5) determination of minimum hauling allowances, including continuation of those now in effect, and a requirement that these allowances be included in the beet purchase contracts; (6) determination as to whether absorption by producers of a portion of freight charges on beets shipped to factories outside the Imperial Valley is necessary for the economic operation of the Oxnard, Betteravia, and Dyer factories; (7) a specific ceiling on the amount of freight charges to producers if such charges are determined to be necessary; and (8) a prohibition against so-called escalator clauses in sugar beet purchase contracts requiring producers to absorb any increases in processor costs.

The producer representatives testified at length and documented the recent history of negotiations regarding changes and proposed changes in the Imperial Valley purchase contracts. In summary, these representatives pointed out that (1) prior to the 1954 crop, processors paid the entire freight costs on sugar beets shipped from the Imperial Valley to factories located in other parts of the State; (2) beginning with the 1954 crop producers reluctantly agreed with two processors whose factories are located from 300 to 400 miles from the Imperial Valley to pay a part of the freight cost on beets because of substantial increases in freight rates; (3) Holly Sugar Corporation did not at that time charge nor propose to charge producers any part of the freight cost on beets shipped to its factory at Dyer; (4) producers and representatives of American Crystal Sugar Company negotiated and included in the 1954 contract a freight charge of 60 cents per screened ton of beets; (5) producers and representatives of Union Sugar Company negotiated and included in the 1954 contract a freight charge of 75 cents per screened ton of beets, and hauling allowances to producers for transporting sugar beets from the farm to the receiving station were eliminated; (6) both of the latter companies agreed that if there was a reduction in freight rates applicable to the 1954 crop the savings would be for the benefit of producers and Union Sugar Company so specified in its contract; (7) freight rates were reduced and Union Sugar Company charged producers 52 cents per ton of beets and American Crystal Sugar Company charged producers 40 cents per ton of beets for the 1954 crop; (8) Union Sugar Company amended its 1955 crop contract to charge producers 52 cents per ton of beets and continued such charge for the 1956 and 1957 crops even though freight rates were increased for the latter crop; (9) American Crystal Sugar Company charged producers 40 cents per ton of beets for the 1955 and 1956 crops although the written contract was not changed to conform, so when freight rates increased for the 1957 crop the charge to producers was increased to 60 cents per ton as specified in the contract; (10) during the contract negotiations in 1954, at no time did the processors indicate that they would expect producers to share in any future freight rate increases; (11) two of the three processors informed producers that because of a further freight rate increase of 40 cents per ton of beets shipped from the Imperial Valley they proposed to increase the freight absorption by producers for 1958 crop sugar beets; (12) Holly Sugar Corporation proposed to charge producers 60 cents per ton of beets shipped to its Dyer factory, but later proposed a charge of 18 cents per ton on all beets purchased regardless of the location of the factory where such beets would be processed; (13) Union Sugar Company proposed to charge producers 72 cents per ton of 1958 crop beets shipped to its factory at Betteravia; (14) American Crystal Sugar Company proposed to continue its charge of 60 cents per ton of 1958 crop beets shipped to its Oxnard factory; and (15) producers believed the proposed increases in freight absorptions were inequitable particularly since the increase in freight rates of 40 cents per ton of beets would be partially offset by a rebate of 20 cents per ton of beets for refined sugar shipped by the processor, and by the amount of the 3 percent transportation tax which was repealed August 1, 1958. Producer representatives also stated that in 1954 when freight charges were first imposed by the two companies which have thus far made such charges, such companies had been obtaining relatively high net returns; and since that time harvesting dates had become less advantageous, sugar content of beets had declined, insect damage and beet diseases had increased, while costs to producers had spiralled upward.

Representatives of producers stated that they objected to the proposal by Holly Sugar Corporation to increase the price of sugar beet seed 5 cents per pound; that they believe they have a right to more information on the selling price of sugar and the expenses incurred on the sales of sugar used in determining net returns, and that it is the Department's responsibility to require processors to detail items of revenue and expenses and to examine the companies' statements of net selling prices to be certain of the propriety and applicability of all elements. Several individual producers submitted data covering the costs of producing sugar beets during the past several years.

The representative of Holly Sugar Corporation submitted a copy of its proposed 1958 crop Imperial Valley contract. This contract provides for payment by producers of freight costs of 18 cents per screened ton of beets delivered to both its Dyer and Carlton factories. It also provides for an increase of 5 cents per pound in the price of processed seed and an increase of 4 cents in the price of whole seed. The witness stated that the Corporation was reluctant to propose a freight charge to producers and an increase in the price of beet seed since it was aware of the producers' serious economic problems, but that the Corporation had even more serious economic problems in relation to the operation of its Dyer factory. The witness explained that there was practically no local supply of beets at the Dyer factory and that it had to rely on beets grown in regions located at distant points from the factory. He stated that the freight cost on sugar beets from the principal rail stations in the Imperial Valley to Dyer had increased from $2.16 to $2.80 per ton of beets during the past 10 years. These increases, coupled with declining sucrose content of beets and consequent lower sugar recovery, resulted in an increase in freight costs of 23 cents per hundred pounds of recovered sugar for the 1957 crop over the period 1949–53. The witness testified that the cost to the Corporation of producing beet seed has been increasing and that it was hoped that the proposed increase in seed prices would enable the Corporation to break even on this phase of its operations. The witness recommended that the Department approve the proposed changes for the 1958 crop.

The representative of Union Sugar Division, Consolidated Foods Corporation, stated that it proposed to charge producers 72 cents per screened ton of 1958 crop beets for freight and that if the current freight rate of $3.80 per ton of beets was increased or decreased, the charge to producers would be increased or decreased a corresponding amount. The witness stated that his company began contracting beets in the Imperial Valley in 1947 after determining that it was feasible to transport beets 419 miles and still process them at a profit; from that year to date substantial increases had taken place in the cost of handling, hauling, and processing sugar beets; during the same period the price of refined sugar had increased very little; and if the company was required to absorb the recent increases in freight rates it would be forced to discontinue contracting acreage in the Imperial Valley. The witness stated that since the year 1947 freight rates on beets increased from $2.30 to $4.00 per ton of beets, processing labor costs increased over 100 percent, fuel and supply costs increased upwards of 125 percent, and during this period average sucrose content of beets purchased in the Valley declined from 17.82 to 15.35 percent. The witness testified that the purpose of the freight charge to

producers in the 1954 contract was to obtain participation by producers in the ever mounting cost of freight on beets and that while it was indicated that any reduction in freight rates would be for their benefit, producers had been informed that any further increase in freight rates would be borne by them. He stated further that his company sold at market prices a small portion of its total production of sugar to other units of Consolidated Foods Corporation; that his company did not furnish producers a detailed statement of expenses used in determining net returns since he believed it was not worthwhile and would serve to confuse the issue; and in reply to a question of the presiding officer he stated that his company would consider furnishing to the Department a detailed statement of the gross sales revenue and the marketing expenses used in computing net returns under the sugar beet purchase contract.

The representative of American Crystal Sugar Company presented a proposed 1958 crop Imperial Valley contract which continued without change the provisions of the 1957 crop contract. The witness testified that during the period 1948 to 1954 freight rates increased from $2.64 to $3.22 per ton of beets; the company informed producers that it would be necessary for them to participate in the freight costs for the 1954 crop if the company was to continue contracting beets in Imperial Valley; initially the company requested that producers pay $1.00 per ton for freight and that hauling allowances be discontinued; however, negotiations resulted in agreement on freight charges of 60 cents per screened ton of beets and continuation of customary hauling allowances; the company agreed orally that if there were any reduction in freight rates such reduction would be for the benefit of producers; and that the company charged producers 40 cents per ton for freight in 1954, 1955, and 1956, but advised them prior to contracting for the 1957 crop that the full 60 cent freight absorption provided in the contract might be charged due to imminent freight rate increases. The witness also stated that the sucrose content of beets had declined more than 2 percentage points since 1948; and that the unit cost of production had risen steadily for processors and producers alike over the past eleven years. The witness recommended that the Department approve the 1958 crop contract as proposed by his company.

Processor representatives took the position that the 3 percent transportation tax repealed by Congress on August 1, 1958, should not be regarded as an adjustment of freight costs or considered in determining the amount of freight charges to be borne by the producer for the 1958 crop.

(c) *The amended 1958 price determination.* This amendment provides that the terms of the 1957 crop Imperial Valley best purchase contracts apply with respect to the price of 1958 crop of beets in the Imperial Valley, except that (1) the price of beet seed may be increased by not more than 5 cents per pound; (2) freight charges to producers may be increased over those applicable to the 1956 crop by the net amount of the recent freight increase determined by deducting the amount of the rebate on refined sugar shipments and the savings to processors resulting from the repeal of the 3 percent Federal transportation tax. A new provision is included requiring all processors in the sugar beet area to furnish to the Department an itemized statement showing the computation of net proceeds used in making settlements with producers.

Consideration has been given to the recommendations and evidence submitted at the public hearing; to the results of investigations of economic conditions; and to the comparative operating results of processors and producers. Data obtained by the Department through field study of the returns, costs, and profits of sugar beet production and processing have been recast to reflect prospective price and production conditions for the 1958 crop.

Analysis of these data indicates that the profit position of producers in the Imperial Valley is less favorable than in former years. This is caused mainly by lower quality of beets and by charges for freight on beets, and by price increases for items used in sugar beet production. The economic position of Imperial Valley producers has also declined in relation to that of producers in other regions of California.

Approximately 60 percent of the sugar beets produced in the Imperial Valley are shipped long distances for processing, thereby supplementing the supply of beets for these factories and enabling them to extend their operations over a longer period than otherwise would be the case. On the other hand, sugar beets purchased in the Valley and processed at distant factories represent high cost raw material to those factories. Less sugar per ton of beets is being extracted from Imperial Valley beets than from beets grown in other parts of the State nearer the point of processing. Accordingly, the percentage of net proceeds paid to producers for beets grown in the Valley generally exceeds the percentage of proceeds paid for beets grown closer to the factory.

Analysis of the economic position of the processing facility located in the Valley close to its source of supply of beets indicates reasonable returns on its operations. The profit position of the Dyer factory operated by the same company north of the Valley is not very favorable, principally because the Dyer factory has practically no local supply of beets.

The increase in freight rates in December 1957 amounted to 40 cents per ton of beets shipped from the Imperial Valley to factories located outside the Valley. However, the 40 cent per ton rate increase (41 cents including 3 percent transportation tax) will be partially offset by a rebate of 20 cents per ton of beets for each 300 pounds of refined sugar shipped by rail. Also, the 3 percent Federal transportation tax was repealed in August of this year which will further minimize by from 9 to 12 cents per ton the effects of the recent freight increase. A comparison of freight rates reveals that the net cost per ton for transporting beets from the Imperial Valley for the 1958 crop will be about 11 cents more than for the 1956 crop for American Crystal Sugar Company, 12 cents more per ton for the Dyer Factory of Holly Sugar Corporation, and 9 cents more for Union Sugar Division. These amounts are recognized in the maximum freight charges to producers established by this determination as follows: (1) American Crystal Sugar Company—the amount of 51 cents per ton of beets; (2) Holly Sugar Corporation—the amount of 12 cents per ton of beets on beets shipped to its Dyer factory, or in lieu thereof the Corporation may charge 4 cents per ton on all beets which it purchases in the Valley; and (3) Union Sugar Division—61 cents per screened ton of beets.

This determination permits processors to increase prices for sugar beet seed by not more than 5 cents per pound above prices applicable under their 1957 contracts. It is understood that processors furnish seed to producers approximately at cost and it is deemed equitable that processors be allowed to recover full costs of seed production.

While most processors have customarily furnished to the Department statements showing the computation of average net proceeds from the sale of sugar, it is believed that the reporting requirement of this determination will provide greater uniformity in these data furnished by all processors thereby facilitating review. The separate reporting of sales of sugar to an affiliate company is deemed necessary to appraise such sales prices in relation to those made in the usual manner in the market place. Access to such data is considered essential for determining fair and reasonable prices for sugar beets as provided by the Act.

The recommendations by producer representatives that the fair price determination require that hauling allowances and other items be included in the purchase contracts have not been adopted. Two of the processors purchasing beets in the Valley have customarily paid producers specific allowances for hauling beets from the farm to the receiving station or factory. Although this has not been written into the purchase contracts, there has been a general understanding between processors and producers that the same allowances would be continued from crop to crop. Since contract negotiations between producers and processors have been generally satisfactory in recent years throughout the beet producing area, it is believed that these matters may be left to negotiation. Accordingly, I hereby find and conclude that the foregoing amendment to the determination will effectuate the price provisions of the act.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 301, 61 Stat. 929 as amended; 7 U. S. C. 1131)

Issued this 15th day of September 1958.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[992.313 Amdt. 3]

PART 992—IRISH POTATOES GROWN IN WASHINGTON

LIMITATION OF SHIPMENTS

Findings. (a) Pursuant to Marketing Agreement No. 113 and Order No. 92 (7 CFR Part 992), regulating the handling of Irish potatoes grown in the State of Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the State of Washington Potato Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the Act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment; (iii) compliance with this amendment will not require any preparation on the part of handlers which cannot be completed by the effective date; (iv) a reasonable time is permitted under the circumstances, for such preparation; and (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

Order, as amended. The provisions of § 992.313 (b) (1) (23 F. R. 5004, 6199) are hereby amended to read as follows:

(b) *Order.* (1) Except as otherwise provided in this section, during the period from September 19, 1958, through May 31, 1959, no handler shall ship potatoes of any variety unless such potatoes are "fairly clean" and (i) if they are of the round varieties (including, but not being limited to, Kennebec, Irish Cobbler, Bliss Triumph, and Pontiac varieties), such potatoes meet the requirements of the U. S. No. 1, or better grade, 2 inches minimum diameter; and (ii) if they are of the long varieties (including, but not being limited to, White Rose, Russet Burbank, and Early Gem varieties), such potatoes meet the requirements of the U. S. No. 2, or better, grade, and are of a weight not less than 8 ounces: *Provided*, That potatoes of the U. S. No. 1, or better, grade, may be shipped if they are 2 inches minimum diameter or 4 ounces minimum weight, as such terms, grades, and sizes are defined in the United States Standards for Potatoes (§§ 51.1540–51.1556 of this title), including the tolerances set forth therein.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 15, 1958.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Division.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7003]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MORRIS LOBER & ASSOCIATES, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.155 *Prices:* Exaggerated as regular and customary; fictitious marking; list or catalog as regular selling. Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 13.1056 *Pretic keting merchandise misleadingly.* Subpart—*Misbranding or mislabeling:* § 13.1280 *Price.* Subpart—*Misrepresenting oneself and goods*—Prices: § 13.1805 *Exaggerated as regular and customary;* § 13.1811 *Fictitious pretic keting.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Morris Lober & Associates, Inc., et al., New York, N. Y., Docket 7003, August 14, 1958]

In the Matter of Morris Lober & Associates, Inc., a Corporation, Handy Andy Products, Inc., a Corporation, Morris Lober, Leona Lober, and Marcia Wilner, Individually and as Officers of Both Corporations

This proceeding was heard by a hearing examiner on the complaint of the Commission charging two associated corporations in New York City with misrepresenting prices of the power lawn mowers they sold to dealers and others for resale to the public, by suggested list prices far in excess of the actual selling prices, disseminated in newspaper advertisements and reprints of customers' advertising, on distributors' price sheets furnished their retail customers, and on shipping cartons.

At the close of hearings in due course, the hearing examiner made his initial decision and order to cease and desist which became on August 14 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Morris Lober & Associates, Inc., Handy Andy Products, Inc., corporations, and Morris Lober, individually and as an officer of said corporations, and respondents' agents, representatives, employees, successors and assigns, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of power mowers, or other merchandise in commerce, as "commerce" is defined in the Act, do forthwith cease and desist from:

1. Representing in any manner that certain amounts are the regular and usual retail prices of their power mowers, or other merchandise, when such amounts are in excess of the prices at which such products are regularly and usually sold at retail.

2. Putting any plan into operation whereby retailers or others may misrepresent the regular and usual retail prices of merchandise.

It is further ordered, That the complaint be, and the same hereby is, dismissed as to Leona Lober and Marcia Wilner Pava individually and as officers of the corporate respondents.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents Morris Lober & Associates, Inc., and Handy Andy Products, Inc., corporations, and Morris Lober, individually and as officer of said corporations, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 14, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[Docket 7120]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

FLEISHER'S, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.73 *Formal regulatory and statutory requirements:* Fur Products Labeling Act. Subpart—*Invoicing products falsely:* § 13.1108 *Invoicing products falsely:* Fur Products Labeling Act. Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition:* Fur Products Labeling Act; § 13.1852 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.1886 *Quality, grade or type of product.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Fleisher's, Inc., et al., Hagerstown, Md., Docket 7120, August 22, 1958]

In the Matter of Fleisher's, Inc., a Corporation, and Max Fleisher, Martin Fleisher, and Ralph Goldman Individually and as Officers of Said Corporation.

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a furrier in Hagerstown, Md., with violating the Fur Products Labeling Act by advertising in newspapers which failed to reveal the proper names of fur-producing animals or when fur products were made of cheap or waste fur; by failing to keep proper records supporting price and savings claims; and by failing in other respects to comply with the invoicing and advertising requirements of the Act.

Following acceptance of an agreement for a consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 22 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Fleisher's, Inc., a corporation, and its officers, and Max Fleisher, Martin Fleisher, and Ralph Goldman, individually and as officers of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur", and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artifically colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is the fact;

(e) The name and address of the person issuing such invoice;

(f) The name of the country of origin of any imported fur contained in a fur product;

(g) The item number or mark assigned to a fur product.

B. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement or notice which is intended, to aid, promote, or assist directly or indirectly in the sale or offering for sale of fur products, and which:

1. Fails to disclose:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is the fact;

(c) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is the fact.

2. Fails to set out the information required under section 5 (a) of the Fur Products Labeling Act and the rules and regulations thereunder in type of equal size and conspicuousness and in close proximity with each other.

C. Making pricing claims or representations in advertisements respecting reduced prices, comparative prices or percentage savings claims unless respondents maintain full and adequate records disclosing the facts upon which such claims or representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 22, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 58–7646; Filed, Sept. 18, 1958; 8:46 a. m.]

TITLE 45—PUBLIC WELFARE

Chapter I—Office of Education, Department of Health, Education, and Welfare

PART 114—FEDERAL ASSISTANCE UNDER PUBLIC LAW 815, 81ST CONGRESS, AS AMENDED, IN CONSTRUCTION OF MINIMUM SCHOOL FACILITIES IN AREAS AFFECTED BY FEDERAL ACTIVITIES

Part 114 is added to 45 CFR, Subtitle B, Chapter I, to establish regulations for the filing and processing of applications for Federal grants for school construction under Public Law 815, 81st Congress, as amended by Title I of Public Law 85–620 (72 Stat. 548). The regulations, among other things, establish a cutoff date for filing such applications and provide for priority indices to establish the order of approval of such applications and of making payments from funds available on any cutoff date.

Part 114 reads as follows:

SUBPART A—FILING AND PROCESSING OF COMPLETE APPLICATIONS

Sec.
114.1 Definitions.
114.2 Procedure if funds are inadequate to make all payments.
114.3 Determination of priority indices for applications.
114.4 Determination of available and usable school facilities.
114.5 Criteria for waiver under section 5 (e) of the act.
114.6 Criteria for waiver under subsection 14 (a) of the act.
114.7 School facilities for children whose membership is of temporary duration only.
114.8 Certification of payments.
114.9 Additional payments under section 8 of the act.
114.10 Priority and approval of applications; conditioned upon readiness to proceed with construction.
114.11 Preceding provisions not exhaustive of jurisdiction of the Commissioner.

SUBPART B—ESTABLISHMENT OF DEADLINES FOR FILING APPLICATIONS

114.20 First deadline for applications with respect to funds available during fiscal year 1959.

SUBPART C—RETENTION OF RECORDS

114.30 Retention of records.

AUTHORITY: §§ 114.1 to 114.30 issued under sec. 12, 72 Stat. 554. Interpret or apply secs. 3–6, 8–9, 13–15, 72 Stat. 548.

SUBPART A—FILING AND PROCESSING OF COMPLETE APPLICATIONS

§ 114.1 *Definitions.* All terms used in this part which are defined in the act and not defined in this section shall have the meaning given to them in the act. As used in this part, for purposes of this part and determinations under the act as hereinafter defined, the following terms shall have the meaning indicated in paragraphs (a) to (s) of this section:

(a) *Act.* "The act" means Public Law 815, 81st Congress (64 Stat. 967), as amended by title I of Public Law 85–620 (72 Stat. 548), and as it may be hereafter amended.

(b) *Commissioner.* "Commissioner" means the Commissioner of Education, Department of Health, Education, and Welfare or his delegatee.

(c) *Local educational agency.* "Local educational agency" means a board of education or other legally constituted local school authority (including, where applicable, a State agency which directly operates and maintains facilities for providing free public education) having exclusive administrative control and direction of free public education, or some phase thereof, in a county, township, independent, or other school district located within a State. If the local educational agency so defined does not have responsibility for providing school facilities and such responsibility is vested in a State agency, the term shall include such State agency together with the agency having exclusive administrative control and direction of other phases of free public education.

(d) *Free public education.* "Free public education" means education which is provided at public expense, under public supervision and direction, and without tuition charge and which is provided as elementary or secondary school education in the applicable State. Elementary education may include kindergarten education meeting the above criteria.

(e) *Applicant.* An "applicant" is a local educational agency which has filed a complete application for assistance in school construction under the act and this part.

(f) *Complete application.* Where an applicant submits only one project by a filing date, the "complete application" at that time consists of both Part I (Maximum Grant) and Part II (Project) of the application Form RSF–2 prescribed by the Commissioner for use under this act, properly completed and executed, together with all documents, amendments, and communications in support thereof. Where applicant submits more than one project by a filing date, the Part I form and all Part II forms, properly executed and completed, together with all documents, amendments, and communications in support thereof on file at that time, shall be considered as the "complete application." Where more than one Part II application is submitted by an applicant, the applicant shall indicate the order in which its project applications are to be considered by the Commissioner. Only applications meeting the conditions for approval under the act shall be considered complete applications.

(g) *Project application.* "Project application" means Form RSF–2, Part II, properly completed and executed, making application for Federal assistance for constructing or providing school facilities under the act.

(h) *Filing of applications.* An application will not be deemed to be "filed" unless all necessary parts of the complete application, bearing the required certifications and verifications by the State educational agency, are received by the Commissioner, or enclosed in a cover addressed to the Commissioner and postmarked, on or before the applicable filing date established by Subpart B of this part.

(i) *Minimum school facilities.* "Minimum school facilities" means those instructional and auxiliary rooms (and initial equipment), exclusive of single purpose auditoriums, single purpose gymnasiums, and any built-in spectator space, necessary to operate a program of free public education for the school members of the applicant at normal capacity in accordance with the laws and customs of the State.

(j) *Available and usable school facilities.* "Available and usable school facilities" means those facilities containing pupil stations counted in ascertaining children who are "unhoused" or "without minimum school facilities."

(k) *Normal capacity.* The "normal capacity" of a school room is the number of pupil stations which the room accommodates under ordinary conditions in accordance with the laws and customs of the State governing free public education, provided that where kindergartens may be conducted on a two-session-per-day basis the number of pupil stations of the rooms used for that purpose shall be doubled in determining kindergarten needs.

(l) *Children who are unhoused or without minimum school facilities.* Children who are "unhoused" or "without minimum school facilities" are those children in excess of the normal capacity of available and usable minimum school facilities.

(m) *Membership.* Unless governed by State law or State regulation, a pupil is a "member" of a class or school from the date he presents himself at school and is placed on the current roll until he permanently leaves the class or school for one of the causes recognized as sufficient by the State. The date of permanent withdrawal should be the date on which it is officially known that the pupil has left school, and not necessarily the first day after the date of last attendance.

(n) *Average daily membership.* In a given school year, the "average daily membership" for a given school is the aggregate days of membership of individual children in the school divided by the number of days school was actually in session. Only days on which pupils were under the guidance and direction of teachers in the teaching process may be considered as days in session. The average daily membership for groups of schools having varying lengths of terms is the sum of the average daily memberships obtained for the individual schools.

(o) *Membership of children of temporary duration only.* "Membership of children of temporary duration only" means the school membership of children whose residence in the school area the Commissioner determines probably will be for less than six years beyond the date of the approval of the complete applications and whose number is required to be excluded from computation of maximum payments under section 5 of the act.

(p) *Priority indices.* The "priority indices" are the indices established pursuant to this part based on relative urgency of need for the purpose of determining, under the act, the order of approval of applications, and the order of payments.

(q) *Substantial percentage.* An application will not be considered to meet the "substantial percentage" requirement under section 14 (a) (1) of the act unless the total number of children who reside on Federal property (for whom the applicant is providing or, upon completion of the school facilities for which provision is made in section 14 (a), will provide free public education, and whose membership in the schools of such applicant has not formed and will not form the basis for payments under other provisions of the act) is in excess of 15 and represents at least 10 percent of the total number of children for whom the applicant is providing free public education, unless the percentage requirement is waived by the Commissioner under the provisions of section 14 (a).

(r) *Base year.* The term "base year" means the regular school year preceding the fiscal year in which an application was filed under this act or the regular school year preceding such school year, as may be designated in the application, except that in the case of an application based on children referred to in paragraph (2) or (3) of section 5 (a), the base year shall in no event be later than the regular school year 1958–1959.

(s) *Increase period.* The term "increase period" means the period of two consecutive regular school years immediately following such base year.

§ 114.2 *Procedure if funds are inadequate to make all payments.* (a) The Commissioner shall from time to time set dates by which applications for payments under this act with respect to construction projects must be filed, except that the last such date with respect to applications for payments on account of children referred to in paragraphs (2) or (3) of section 5 (a) and section 14 shall be not later than June 30, 1961. Section 3 of the act provides in part as follows:

> The Commissioner shall by regulation prescribe an order of priority, based on relative urgency of need, to be followed in approving applications in the event the funds appropriated under this Act and remaining available on any such date for payment to local educational agencies are less than the Federal share of the cost of the projects with respect to which applications have been filed prior to such date (and for which funds under this Act have not already been obligated). Only applications meeting the conditions for approval under this Act (other than section 6 (b) (2) (C)) shall be considered applications for purposes of the preceding sentence.

(b) With respect to applications made under section 14 of the act, section 14 (c) provides in part as follows:

> In determining the order in which such applications shall be approved, the Commissioner shall consider the relative educational and financial needs of the local educational agencies which have submitted approvable applications and the nature and extent of the Federal responsibility.

§ 114.3 *Determination of priority indices for applications.* When the Commissioner has set a date by which complete applications must be filed, the priority indices for approval of such applications shall be determined as follows:

(a) A priority index will be determined for the first construction project for each applicant under section 5 or section 14 by adding (1) the percentage that the estimated number of federally connected children countable for payment in the school district (or in the approved attendance afea except under section 14) is of the total estimated membership of all children in such area at the close of the applicable two-year increase period to (2) the percentage of the estimated school membership within the school district (or in the approved attendance area except under section 14) which at the same time is without minimum school facilities: *Provided*, That in no case shall the total of the two percentages used in determining the priority index exceed twice the percentage in subparagraph (1) of this paragraph. No priority, except under section 14, shall be established for any applicant having less than 20 unhoused children in the school district (or in the approved attendance area).

(b) In those cases where an applicant has filed more than one project application, the priority index for the second project will be determined by: (1) Dividing the normal capacity of the first project by the total estimated membership at the close of the two-year increase period and (2) reducing the applicant's priority index by twice the percentage so obtained. Where more than two project applications have been filed, the applicant's priority index for each succeeding project shall be reduced by the cumulative total capacity, as provided in the first sentence of this paragraph, of all the approved projects of the applicant.

(c) Except under section 14 of the act, in those cases where the jurisdictional area of the applicant with respect to which the application is made comprises an extensive territory and the Federal activity is localized within the area served by one or more attendance centers, and the other attendance centers within the district are practically unavailable to meet the needs of the attendance areas affected by Federal activities, then, in such case, the percentages described in subparagraphs (1) and (2) of paragraph (a) of this section will be determined with respect to the "federally affected attendance areas," and not with respect to the entire school district. (The conditions of this paragraph may be met only in large county unit school systems and, possibly, in other extensive districts having large housing projects constructed for defense workers or military personnel which have overburdened one or more attendance centers to such an extent that additional school facilities are required to house the children.)

§ 114.4 *Determination of available and usable school facilities.* The following school facilities shall be counted as usable and available in determining "unhoused children" or "children without school facilities":

(a) All school facilities which were constructed for school use and which have been used continuously for classroom purposes, unless such facilities have become unsafe or otherwise unusable to the extent that use of such facilities or partial use of such facilities has been abandoned or must be abandoned during the fiscal year in which the application is approved. Basement rooms, hallways, or other space the use of which for classroom purposes, in view of their character, inaccessibility, or other equally cogent reason, seriously prejudices educational objectives or has impaired or will impair the health or safety of the school children, will not be considered to be available and usable. These criteria shall apply to all facilities owned by other Federal agencies which are available or which may be made available for the education of children counted by applicants.

(b) All school facilities which are "under contract as of the date on which the Commissioner set, under section 3, the earliest date on or before which the application for such project is filed." Thus facilities, for which contracts are entered into after the date on which the Commissioner set the earliest cutoff date under this act on or before which the application was first filed, shall not be counted as available. The date on which the Commissioner set the cutoff date shall be the date on which the regulation setting such date was approved by the Secretary of Health, Education, and Welfare.

(c) All school facilities projects which, as of the date of approval of the application, have been approved for the applicant school district under this act.

(d) With respect to section 14 of the act, all minimum school facilities which with full utilization of practically available financial resources could be provided from local, State, or other Federal sources shall be considered as available and usable in making determinations. The capacity of school facilities which could be so provided shall be determined by dividing the sum of such resources by the cost per pupil of providing minimum school facilities in the applicant's school district.

§ 114.5 *Criteria for waiver under section 5 (e) of the act.* (a) The Commissioner's authority in section 5 (e) of the act to waive or reduce the percentage requirement or requirements in section 5 (c), to waive the requirement contained in the first sentence of subsection 5 (d) thereof, or to reduce the percentage specified in clause (2) of such sentence will not be exercised unless:

(1) The applicant meets all conditions of eligibility under the act other than section 14 thereof or, on the basis of the authorized waiver or reduction of one or more of the requirements, would meet such conditions;

(2) The applicant specifically states the extent to which it desires the Commissioner to exercise his authority to waive or reduce one or more of such requirements and makes appropriate requests therefor, agreeing that if such a request is granted in whole or in part in computing maximum payment under the act, only membership of children within the federally impacted attendance area shall be considered;

(3) The applicant has two or more attendance centers, and its jurisdictional area is county-wide or is sufficiently extensive as to be reasonably analogous to a county-wide school system;

(4) There has been an unusually large Federal impact in the two-year increase period for which the application is made in an attendance area affecting one or more attendance centers;

(5) It would not be practicable to transport students in the federally impacted attendance area to other available school facilities of the applicant because of distance, topography, or other equally cogent reasons; and

(6) The Commissioner of Education determines that other exceptional circumstances exist which in his judgment require such waiver or reduction to avoid inequity and to avoid defeating the purposes of the act.

(b) If the Commissioner, on the basis of the minimum criteria above set forth, determines, under subsection 5 (e), to exercise his authority to waive or reduce one or more of the specified requirements:

(1) He shall determine which requirement or requirements he will waive, or reduce, and if the latter, the extent of such reduction;

(2) He shall determine the geographical area of the applicant which shall be considered as constituting the "federally impacted attendance area"; and

(3) The application otherwise will be processed under the act and this part, taking into consideration only the established "federally impacted attendance area" but in no case shall payments hereunder exceed the amounts computable on the basis of the district as a whole taking into consideration the waivers or reductions approved by the Commissioner.

§ 114.6 *Criteria for waiver under subsection 14 (a) of the act.* The Commissioner's authority in section 14 (a) of the act to waive the percentage requirement in section 14 (a) (1) will not be exercised unless:

(a) The applicant meets all conditions of eligibility under section 14 or, on the basis of the authorized waiver of the percentage requirement, would meet such conditions;

(b) The applicant makes a request to waive such percentage requirement; and

(c) Either (1) the applicant's jurisdictional area is county-wide or is sufficiently extensive as to be analogous to a county-wide school system; there has been a concentration of children residing on Indian lands located in a remote or isolated area; and it would not be practicable to transport such children from the remote or isolated area to other available school facilities of the applicant because of distance, topography, or other equally cogent reasons; or (2) there are other exceptional circumstances which require a waiver to avoid inequity and to avoid defeating the purpose of section 14.

§ 114.7 *School facilities for children whose membership is of temporary duration only.* (a) If the Commissioner determines that the membership of some of the children of the applicant, representing otherwise countable Federal increases under section 5 of the act, will be of temporary duration only, as defined in § 114.1 (o), the membership of such children will be excluded in computing maximum payments under section 5.

(b) The Commissioner, when proper request therefor is made in a Part I application, (1) may make available to such applicant such temporary school facilities as may be necessary to take care of the membership of such children as the Commissioner determines will be members of the applicant's school system for a sufficient period of time to justify the expense; or (2) he may, where the applicant gives assurance in a complete application that at least minimum school facilities will be provided for such children, pay (on such terms and conditions as he deems appropriate to carry out the purposes of the act) to such applicant for use in constructing school facilities an amount not greater than the amount which he estimates will be necessary to make available temporary facilities for such children, provided that the amount so paid shall not exceed the cost, in the school district of the

applicant, of constructing minimum school facilities for such children. In no case will provision for such children be made unless they are deemed to be without minimum school facilities.

§ 114.8 *Certification of payments.* Payments to an applicant will be made only on the basis of a complete application satisfying conditions for payment under the act and this part, and will be restricted in amount to the cost of providing minimum school facilities for unhoused children; however;

(a) With respect to payments under the act (except section 14 thereof),

(1) The Federal share of the cost of a project which will be certified for payment shall, within the maximum otherwise payable under the act (except as provided in section 8 thereof), be equal to the cost but shall in no case exceed the cost of constructing minimum school facilities in the school district of the applicant and shall in no case exceed the cost in such district of constructing minimum school facilities for the estimated number of children who will be in the membership of the schools of such applicant at the close of the two-year increase period under consideration and who will otherwise be unhoused; and

(2) Nothing contained in the regulations in this part shall be deemed to bar an applicant, with the approval of the State educational agency, from using for an approved project, in addition to the Federal grant, monies otherwise obtained to provide a higher type or larger or better implemented school facility. The applicant will be required to show in such cases that the added cost is being thus independently met.

(b) Payments under section 14 of the act shall not exceed the portion of the cost of minimum school facilities which the Commissioner estimates is attributable to children who reside on Federal property, and which has not been, and is not to be, recovered by the applicant from other sources, including payments by the United States under any other provisions of the act or any other law; and such payments may be upon such terms and in such amounts, subject to the provisions of section 14 as the Commissioner may consider to be in the public interest.

§ 114.9 *Additional payments under section 8 of the act.* Pursuant to the authority vested in the Commissioner by section 8 of the act:

(a) Not to exceed 10 per centum of any amount appropriated under the act (exclusive of any sums appropriated for administration) is reserved and may be used by the Commissioner to make grants to applicants under the act (except section 14 thereof) when (1) the application would be approved but for the applicant's inability, unless aided by such grant, to finance the non-Federal share of the cost of a project; or (2) after the approval of the application the project cannot, without such grant, be completed because of flood, fire, or similar emergency affecting either the work on the project or the applicant's ability to finance the non-Federal share of the cost of the project.

(b) Under the authority of paragraph (a) (1) of this section, a complete application (except applications under section 14 and applications with respect to which the Commissioner has waived or reduced eligibility requirements under section 5 (e) of the act and § 114.5) may be considered for payment of part or all of the non-Federal share of the cost of any project which does not include more than minimum facilities for unhoused children: *Provided*, (1) That the application contains a request for payment hereunder; (2) that the estimated number of children countable for payment under section 5 of the act for the two-year increase period equals or exceeds the number obtained by taking 10 percent of the average daily membership of the applicant district for the base year applicable to the increase period under consideration, except that if the first year of the increase period has been included in a previous application with respect to which any payment has been or may be made, the applicable percentage shall be 5 percent instead of 10 percent; (3) that the applicant has exhausted all fiscal resources, including State aid, bonding authority, and Federal aid, which are practicably available to it and is unable to pay the non-Federal share of the cost of the project; (4) that it has been reached on the priority indices established by this part; and (5) that Federal monies reserved under paragraph (a) of this section are available. The additional payment to the applicant under this provision shall not exceed the cost of providing minimum school facilities for the number of unhoused children less all financial resources practicably available to the applicant; nor shall it exceed the difference between (i) the actual cost of providing minimum facilities for the federally connected pupils eligible for payment under the act, or the average cost in the State of providing such facilities, whichever is the lesser, and (ii) the Federal funds made available to the applicant under section 5 of the act plus local and State funds which may be made available for this purpose.

(c) Under the authority of paragraph (a) (2) of this section, a request by the applicant may be considered for the additional payment of part or all of the funds required to complete a project (to the extent that the completed project will not provide more than minimum school facilities for unhoused children) for which a project application under the act has been approved: *Provided*, (1) Federal monies reserved under paragraph (a) of this section are available; (2) the applicant cannot complete the project because of flood, fire, or similar emergency affecting either the work on the project or the applicant's ability to finance the non-Federal share of the cost of the project; and (3) that the applicant has exhausted all financial resources practicably available to it, including State aid, bonding authority, and Federal aid. The payment to be made under this paragraph shall not exceed the amount required to pay the additional cost caused by the emergency less any financial resources of the applicant practicably available for such purpose, including the proceeds of any insurance.

§ 114.10 *Priority and approval of applications; conditioned upon readiness to proceed with construction.* Initial approval of a project application meeting the conditions for approval under the act and under this part will be subject to cancellation in the event the applicant is not ready to proceed with construction within 90 days after the date of initial approval, unless such period is extended by the Commissioner for good cause shown; and the applicant's rights to approval and payment may be subordinated by reason thereof to other project applications of lower rank or the applicant may forfeit its priority in the discretion of the Commissioner.

§ 114.11 *Preceding provisions not exhaustive of jurisdiction of the Commissioner.* No provisions of this part now or hereafter promulgated shall be deemed exhaustive of the jurisdiction of the Commissioner under the act. The provisions of this part may be modified or further regulations may be issued hereafter as circumstances may warrant.

SUBPART B—ESTABLISHMENT OF DEADLINES FOR FILING APPLICATIONS

§ 114.20 *First deadline for applications with respect to funds available during fiscal year 1959.* For the purposes of sections 3 and 14 of the act November 17, 1958, is fixed as the date on or before which all complete applications for payments to which an applicant may be entitled under the act from funds then available for such purposes shall be filed.

SUBPART C—RETENTION OF RECORDS

§ 114.30 *Retention of records.* Local educational agencies receiving Federal grants under the act are required to keep intact all records supporting claims for such Federal grants until the completion of the fiscal audit and/or administrative reviews which are regularly conducted by Federal agencies, or for three years following the fiscal year to which the claim relates, whichever is later, except as otherwise notified. The records involved in any claims or expenditures which have been questioned should be further maintained until necessary adjustments have been made and the adjustments have been reviewed and cleared by the Federal agencies making such reviews. The Commissioner does not require that records be maintained beyond this period unless, under special circumstances, the grantee agency is specifically advised that certain record materials should be retained until specific questions are settled.

Dated: September 8, 1958.

[SEAL] L. G. DERTHICK,
United States Commissioner of Education.

Approved: September 13, 1958.

ARTHUR S. FLEMMING,
Secretary of Health, Education and Welfare.

TITLE 46—SHIPPING

Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

[Gen. Order 27, Rev., Amdt. 2]

PART 281—INFORMATION AND PROCEDURE REQUIRED UNDER OPERATING-DIFFERENTIAL SUBSIDY AGREEMENTS

MISCELLANEOUS AMENDMENTS

1. Supplement 1 of General Order 27, Rev., is hereby redesignated Amdt. 1.

2. Paragraph (c) of § 281.3 is amended to read as follows:

(c) *Periods of idleness.* In the event that a period of idleness, in excess of ten days, should immediately follow the termination of a voyage (subsidized or unsubsidized), the first ten days of such period of idleness shall be included in the preceding voyage and the date of termination thereof adjusted accordingly. If a vessel which has been idle commences loading cargo, stores, or fuel prior to the eleventh day of such idleness, the commencement of the new voyage shall be antedated to coincide with the termination of the preceding voyage.

3. Section 281.14 is amended to read as follows:

§ 281.4 *Treatment of subsidy during period of idleness and lay-up period.* During a lay-up period, subsidy shall be payable only for such subsidizable items of expense as are determined by the Administrator, after presentation by the operator of the facts relating to such lay-up period, to be necessary for the maintenance, preservation, repair, or husbanding of the vessel during and under the circumstances of such lay-up; *Provided, however,* That nothing herein shall limit any other rights of the United States with respect to the payment or non-payment of subsidy.

(Sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114)

Dated: September 15, 1958.

[SEAL] CLARENCE G. MORSE,
Maritime Administrator,
Chairman, Federal Maritime Board.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

NOTICE OF PROPOSED RULE MAKING

Pursuant to the Administrative Procedure Act, approved June 11, 1946, proposed regulations under section 6012 of the Internal Revenue Code of 1954 were published in tentative form with a notice of proposed rule making in the FEDERAL REGISTER for May 1, 1956 (21 F. R. 2819). Notice is hereby given that § 1.6012 and §§ 1.6012-7 to 1.6012-9, inclusive, of such proposed regulations are hereby withdrawn.

Further, notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Sections 1.6012-1 (b), 1.6012-2 (g), and 1.6012-3 (b) (2) are in substitution for §§ 1.6012-7, 1.6012-8, and 1.6012-9, hereinbefore withdrawn. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner within the 30-day period. In such a case, a public hearing will be held and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

The following regulations are hereby prescribed under certain sections of subtitle F of the Internal Revenue Code of 1954 which relate to certain procedural and administrative requirements in respect of the taxes imposed by subtitle A of such Code. Except as otherwise specifically provided, these regulations are applicable to taxable years beginning after December 31, 1953, and ending after August 16, 1954.

PROCEDURE AND ADMINISTRATION

INFORMATION AND RETURNS

Sec.	
1.6001	Statutory provisions; notice or regulations requiring records, statements, and special returns.
1.6001-1	Records.
1.6011	Statutory provisions; general requirement of return, statement, or list.
1.6011-1	General requirement of return, statement, or list.
1.6012	Statutory provisions; persons required to make returns of income.
1.6012-1	Individuals required to make returns of income.

1.6012-3	Returns by fiduciaries.
1.6012-4	Miscellaneous returns.
1.6013	Statutory provisions; joint returns of income tax by husband and wife.
1.6013-1	Joint returns.
1.6013-2	Joint return after filing separate return.
1.6013-3	Treatment of joint return after death of either spouse.
1.6013-4	Applicable rules.
1.6014	Statutory provisions; income tax return—tax not computed by taxpayer.
1.6014-1	Tax not computed by taxpayer with gross income less than $5,000.
1.6017	Statutory provisions; self-employment tax returns.
1.6017-1	Self-employment tax returns.
1.6031	Statutory provisions; return of partnership income.
1.6031-1	Return of partnership income.
1.6032	Statutory provisions; returns of banks with respect to common trust funds.
1.6032-1	Returns of banks with respect to common trust funds.
1.6033	Statutory provisions; returns by exempt organizations.
1.6033-1	Returns by exempt organizations.
1.6034	Statutory provisions; returns by trusts claiming charitable deductions under section 642 (c).
1.6034-1	Information returns required of certain trusts claiming charitable or other deductions under section 642 (c).
1.6035	Statutory provisions; returns of officers, directors, and shareholders of foreign personal holding companies.
1.6035-1	Returns of officers and directors of foreign personal holding companies.
1.6035-2	Returns of shareholders of foreign personal holding companies.
1.6041	Statutory provisions; information at source.
1.6041-1	Return of information as to payments of $600 or more.
1.6041-2	Return of information as to payments to employees.
1.6041-3	Payments for which no return of information on Forms 1099 and 1096 is required.
1.6041-4	Returns of information as to foreign items.
1.6041-5	Information as to actual owner.
1.6041-6	Time and place for filing Forms 1099 and 1096 and information to be shown on Form 1099.
1.6042	Statutory provisions; returns regarding corporate dividends, earnings, and profits.
1.6042-1	Return of information as to payments of dividends.
1.6043	Statutory provisions; return regarding corporate dissolution or liquidation.
1.6043-1	Return regarding corporate dissolution or liquidation.
1.6043-2	Return of information respecting distributions in liquidation.
1.6044	Statutory provisions; returns regarding patronage dividends.
1.6044-1	Returns of information as to patronage dividends, rebates, or refunds.
1.6045	Statutory provisions; returns of brokers.

Sec.
1.6046 Statutory provisions; returns as to formation or reorganization of foreign corporations.
1.6046–1 Returns as to formation or reorganization of foreign corporations.
1.6061 Statutory provisions; signing of returns and other documents.
1.6061–1 Signing of returns and other documents by individuals.
1.6062 Statutory provisions; signing of corporation returns.
1.6062–1 Signing of returns, statements, and other documents made by corporations.
1.6063 Statutory provisions; signing of partnership returns.
1.6063–1 Signing of returns, statements, and other documents made by partnerships.
1.6065 Statutory provisions; verification of returns.
1.6065–1 Verification of returns.
1.6071 Statutory provisions; time for filing returns and other documents.
1.6071–1 Time for filing returns and other documents.
1.6072 Statutory provisions; time for filing income tax returns.
1.6072–1 Time for filing returns of individuals, estates, and trusts.
1.6072–2 Time for filing returns of corporations.
1.6072–3 Income tax due dates postponed in case of China Trade Act corporations.
1.6072–4 Time for filing other returns of income.
1.6081 Statutory provisions; extension of time for filing returns.
1.6081–1 Extension of time for filing returns.
1.6081–2 Extensions of time in the case of foreign organizations, certain domestic corporations, certain partnerships, and citizens of United States residing or traveling abroad.
1.6081–3 Automatic extension of time for filing corporation income tax returns.
1.6091 Statutory provisions; place for filing returns or other documents.
1.6091–1 Place for filing returns or other documents.
1.6091–2 Place for filing income tax returns.
1.6091–3 Income tax returns required to be filed with Director, International Operations Division.
1.6091–4 Exceptional cases.
1.6102 Statutory provisions; computations on returns or other documents.
1.6102–1 Computations on returns or other documents.

TIME AND PLACE FOR PAYING TAX

1.6151 Statutory provisions; time and place for paying tax shown on returns.
1.6151–1 Time and place for paying tax shown on returns.
1.6152 Statutory provisions; installment payments.
1.6152–1 Installment payments.
1.6161 Statutory provisions; extension of time for paying tax.
1.6161–1 Extension of time for paying tax or deficiency.
1.6162 Statutory provisions; extension of time for payment of tax on gain attributable to liquidation of personal holding companies.
1.6162–1 Extension of time for payment of tax on gain attributable to liquidation of personal holding companies.
Sec.
1.6164 Statutory provisions; extension of time for payment of taxes by corporations expecting carrybacks.
1.6164–1 Extensions of time for payment of taxes by corporations expecting carrybacks.
1.6164–2 Amount of tax the time for payment of which may be extended.
1.6164–3 Computation of the amount of reduction of the tax previously determined.
1.6164–4 Payment of remainder of tax where extension relates to only part of the tax.
1.6164–5 Period of extension.
1.6164–6 Revised statements.
1.6164–7 Termination by district director.
1.6164–8 Payments on termination.
1.6164–9 Cross references.

TENTATIVE CARRYBACK ADJUSTMENTS

1.6411 Statutory provisions; tentative carryback adjustments.
1.6411–1 Tentative carryback adjustments.
1.6411–2 Computation of tentative carryback adjustment.
1.6411–3 Allowance of adjustments.
1.6411–4 Consolidated returns.

TERMINATION OF TAXABLE YEAR IN CASE OF JEOPARDY

1.6851 Statutory provisions; termination of taxable year.
1.6851–1 Termination of taxable period by district director.
1.6851–2 Furnishing of bond to insure payment.

MISCELLANEOUS PROVISIONS

1.9100–1 Extension of time for making certain elections.

PROCEDURE AND ADMINISTRATION

INFORMATION AND RETURNS

§ 1.6001 *Statutory provisions; notice or regulations requiring records, statements, and special returns.*

SEC. 6001. *Notice or regulations requiring records, statements, and special returns.* Every person liable for any tax imposed by this title, or for the collection thereof, shall keep such records, render such statements, make such returns, and comply with such rules and regulations as the Secretary or his delegate may from time to time prescribe. Whenever in the judgement of the Secretary or his delegate it is necessary, he may require any person, by notice served upon such person or by regulations, to make such returns, render such statements, or keep such records, as the Secretary or his delegate deems sufficient to show whether or not such person is liable for tax under this title.

§ 1.6001–1 *Records*—(a) *In general.* Except as provided in paragraph (b) of this section, any person subject to tax under subtitle A of the Internal Revenue Code of 1954, or any person required to file a return of information with respect to income, shall keep such permanent books of account or records, including inventories, as are sufficient to establish the amount of gross income, deductions, credits, or other matters required to be shown by such person in any return of such tax or information.

(b) *Farmers and wage-earners.* Individuals deriving gross income from the business of farming, and individuals whose gross income includes salaries, wages, or similar compensation for personal services rendered, are required with respect to such income to keep such records as will enable the district director to determine the correct amount of income subject to the tax. It is not necessary, however, that with respect to such income individuals keep the books of account or records required by paragraph (a) of this section. For rules with respect to the records to be kept in substantiation of traveling and other business expenses of employees see § 1.162–17.

(c) *Exempt organizations.* In addition to such permanent books and records as are required by paragraph (a) of this section with respect to the tax imposed by section 511 on unrelated business income of certain exempt organizations, every organization exempt from tax under section 501 (a) but required by section 6033 to file an annual return shall keep such permanent books of account or records, including inventories, as are sufficient to show specifically the items of gross income, receipts, and disbursements, and such other information as is required by section 6033. See section 6033 and § 1.6033–1.

(d) *Notice by district director requiring returns, statements, or the keeping of records.* The district director may require any person, by notice served upon him, to make such returns, render such statements, or keep such specific records as will enable the district director to determine whether or not such person is liable for tax under subtitle A of the Code.

(e) *Retention of records.* The books or records required by this section shall be kept at all times available for inspection by authorized internal revenue officers or employees, and shall be retained so long as the contents thereof may become material in the administration of any internal revenue law.

(f) *Cross reference.* For general information with respect to the keeping of records, see § 301.6001–1 of this chapter.

§ 1.6011 *Statutory provisions; general requirement of return, statement, or list.*

SEC. 6011. *General requirement of return, statement, or list*—(a) *General rule.* When required by regulations prescribed by the Secretary or his delegate any person made liable for any tax imposed by this title, or for the collection thereof, shall make a return or statement according to the forms and regulations prescribed by the Secretary or his delegate. Every person required to make a return or statement shall include therein the information required by such forms or regulations.

* * * * *

(c) *Income, estate, and gift taxes.* For requirement that returns of income, estate, and gift taxes be made whether or not there is tax liability, see sections 6012 to 6019, inclusive.

§ 1.6011–1 *General requirement of return, statement, or list*—(a) *General rule.* Every person subject to any tax, or required to collect any tax, under subtitle A of the Code, shall make such returns or statements as are required by the regulations in this chapter. The return or statement shall include therein the information required by the applicable regulations or forms.

(b) *Use of prescribed forms.* Copies of the prescribed return forms will so far

as possible be furnished taxpayers by district directors. A taxpayer will not be excused from making a return, however, by the fact that no return form has been furnished to him. Taxpayers not supplied with the proper forms should make application therefor to the district director in ample time to have their returns prepared, verified, and filed on or before the due date with the internal revenue office where such returns are required to be filed. Each taxpayer should carefully prepare his return and set forth fully and clearly the information required to be included therein. Returns which have not been so prepared will not be accepted as meeting the requirements of the Code. In the absence of a prescribed form, a statement made by a taxpayer disclosing his gross income and the deductions therefrom may be accepted as a tentative return, and, if filed within the prescribed time, the statement so made will relieve the taxpayer from liability for the addition to tax imposed for the delinquent filing of the return, provided that without unnecessary delay such a tentative return is supplemented by a return made on the proper form.

§ 1.6012 *Statutory provisions; persons required to make returns of income.*

SEC. 6012. *Persons required to make returns of income*—(a) *General rule.* Returns with respect to income taxes under subtitle A shall be made by the following:

(1) Every individual having for the taxable year a gross income of $600 or more (except that any individual who has attained the age of 65 before the close of his taxable year shall be required to make a return only if he has for the taxable year a gross income of $1,200 or more);

(2) Every corporation subject to taxation under subtitle A;

(3) Every estate the gross income of which for the taxable year is $600 or more;

(4) Every trust having for the taxable year any taxable income, or having gross income of $600 or over, regardless of the amount of taxable income; and

(5) Every estate or trust of which any beneficiary is a nonresident alien;

except that subject to such conditions, limitations, and exceptions and under such regulations as may be prescribed by the Secretary or his delegate, nonresident alien individuals subject to the tax imposed by section 871 and foreign corporations subject to the tax imposed by section 881 may be exempted from the requirement of making returns under this section.

(b) *Returns made by fiduciaries and receivers*—(1) *Returns of decedents.* If an individual is deceased, the return of such individual required under subsection (a) shall be made by his executor, administrator, or other person charged with the property of such decedent.

(2) *Persons under a disability.* If an individual is unable to make a return required under subsection (a) or section 6015 (a), the return of such individual shall be made by a duly authorized agent, his committee, guardian, fiduciary or other person charged with the care of the person or property of such individual. The preceding sentence shall not apply in the case of a receiver appointed by authority of law in possession of only a part of the property of an individual.

(3) *Receivers, trustees and assignees for corporations.* In a case where a receiver, trustee in bankruptcy, or assignee, by order of a court of competent jurisdiction, by operation of law or otherwise, has possession of or holds title to all or substantially all the property or business of a corporation, whether or not such property or business is being operated, such receiver, trustee, or assignee shall make the return of income for such corporation in the same manner and form as corporations are required to make such returns.

(4) *Returns of estates and trusts.* Returns of an estate or a trust shall be made by the fiduciary thereof.

(5) *Joint fiduciaries.* Under such regulations as the Secretary or his delegate may prescribe, a return made by one of two or more joint fiduciaries shall be sufficient compliance with the requirements of this section. A return made pursuant to this paragraph shall contain a statement that the fiduciary has sufficient knowledge of the affairs of the person for whom the return is made to enable him to make the return, and that the return is, to the best of his knowledge and belief, true and correct.

(c) *Certain income earned abroad.* For purposes of this section, gross income shall be computed without regard to the exclusion provided for in section 911 (relating to earned income from sources without the United States).

(d) *Consolidated returns.* For provisions relating to consolidated returns by affiliated corporations, see chapter 6.

[Sec. 6012 as amended by sec. 72 (a), Technical Amendments Act 1958]

§ 1.6012–1 *Individuals required to make returns of income*—(a) *Individual citizen or resident*—(1) *In general.* Except as provided in subparagraph (2) of this paragraph, an income tax return must be filed for each taxable year by every individual who receives $600 or more of gross income during such taxable year and who is—

(i) A citizen of the United States, whether residing at home or abroad,

(ii) A resident of the United States even though not a citizen thereof, or

(iii) An alien bona fide resident of Puerto Rico during the entire taxable year.

Such return must be filed by such individual regardless of his family or marital status.

(2) *Certain exceptions.* (i) In case an individual who is described in subparagraph (1) of this paragraph has attained the age of 65 before the close of his taxable year, an income tax return must be filed by such individual only if he receives $1,200 or more of gross income during his taxable year.

(ii) In the case of a short taxable year referred to in section 443 (a) (1), an individual described in subparagraph (1) of this paragraph shall file an income tax return if his gross income received during such short taxable year equals or exceeds his own personal exemption allowed by section 151 (b) (prorated as provided in section 443 (c)) and, when applicable, his additional exemption for age 65 or more allowed by section 151 (c) (1) (prorated as provided in section 443 (c)).

(3) *Earned income from without the United States.* For the purpose of determining whether an income tax return must be filed for any taxable year beginning after December 31, 1957, gross income shall be computed without regard to the exclusion provided for in section 911 (relating to earned income from sources without the United States). In the case of an individual claiming an exclusion under such section, he shall attach Form 2555 to the return required under this paragraph.

(4) *Return of income of minor.* A minor is subject to the same requirements and elections for making returns of income as are other individuals. Thus, a return of income must be made by or for a minor who has a total of $600 of gross income, regardless of the amount of his taxable income. For example, a return must be made by or for a minor who has an aggregate of $600 gross income from funds held in trust for him and from his personal services. The return of a minor must be made by the minor himself or must be made for him by his guardian or other person charged with the care of the minor's person or property. See paragraph (b) (3) of § 1.6012–3. See § 1.73–1 for inclusion in the minor's gross income of amounts received for his personal services.

(5) *Returns made by agents.* The return of income may be made by an agent if the person liable for the making of the return is unable to make it by reason of illness or continuous absence from the United States for a period of at least 60 days before the date prescribed by law for making the return. However, assistance in the preparation of the return may be rendered under any circumstances. Whenever a return is made by an agent it shall be accompanied by the prescribed power of attorney, Form 935, except that an agent holding a valid and subsisting general power of attorney authorizing him to represent his principal in making, executing, and filing the income return, may submit a certified copy thereof in lieu of the authorization on Form 935. The agent, as well as the taxpayer, may incur liability for the penalties provided for erroneous, false, or fraudulent returns. For a return of an agent for a nonresident alien individual, see paragraph (b) (6) of this section. For the requirements regarding signing of returns, see § 1.6061–1.

(6) *Form of return.* The return required under this paragraph shall be made on Form 1040, except in the case of a taxpayer who, in accordance with subparagraph (7) of this paragraph, elects to use Form 1040A. A taxpayer, even though entitled to use Form 1040A for the taxable year, may, nevertheless, use Form 1040 as his return. A taxpayer otherwise entitled to use Form 1040A as his return for the taxable year but who does not desire to take the standard deduction provided in section 141 is required to use Form 1040 as his return for the taxable year.

(7) *Use of Form 1040A by certain taxpayers with gross income less than $10,000*—(i) *In general.* Subject to the limitations set forth in subdivisions (ii), (iii), (iv), and (v) of this subparagraph, and in accordance with Form 1040A and the instructions provided with respect to such form, an individual may use Form 1040A as his return for any taxable year in which the gross income of the individual—

(*a*) Is less than $10,000.

(b) Consists entirely of remuneration for personal services performed as an employee, dividends or interest, and

(c) Does not include more than $200 from dividends, interest, and remuneration for personal services other than wages, as defined in section 3401 (a).

For purposes of determining whether gross income from dividends, interest, and remuneration other than wages, as defined in section 3401 (a), exceeds $200, dividends from domestic corporations are taken into account to the extent that they are includible in gross income.

(ii) *Restrictions on use of Form 1040A.* Form 1040A shall not be used by an individual—

(a) Who elects to itemize his deductions;

(b) Whose spouse makes a separate return on Form 1040 and elects to itemize deductions;

(c) Who is a nonresident alien individual;

(d) Who is a citizen of the United States entitled to the benefits of section 931 (relating to income from sources within possessions of the United States);

(e) Who makes a return under section 443 (a) (1) for a period of less than 12 months on account of a change in his accounting period;

(f) Who makes a return on a fiscal year basis;

(g) Who makes a return by use of a method of accounting other than the cash receipts and disbursements method;

(h) Who claims that amounts included in the statement of wages under section 6051 are excluded under section 105 (d);

(i) Who claims any of the deductions referred to in section 62, for example, the deductions for travel or transportation expense;

(j) Who claims a deduction for an exemption upon a multiple support agreement under section 152 (c); or

(k) Who claims credit for payment of estimated income tax or for an overpayment of income tax for the previous taxable year.

(iii) *Credits not allowable.* When Form 1040A is used, the following credits shall not be allowed:

(a) The credit provided by section 32 for tax withheld at source under subchapter B of chapter 3 of the Code;

(b) The credit provided by section 33 for taxes imposed by foreign countries and possessions of the United States;

(c) The credit provided by section 34 for dividends received;

(d) The credit provided by section 35 for partially tax-exempt interest; and

(e) The credit provided by section 37 for retirement income.

(iv) *Status benefits not allowable.* The status of a taxpayer as head of household, as defined in section 1 (b) (2), or as a surviving spouse, as defined in section 2 (b), shall not be considered in determining the tax liability of a taxpayer filing Form 1040A.

(v) *Use after due date not permitted.* Form 1040A shall not be used unless it is filed on or before the date prescribed in section 6072 (a) for the filing of the return.

(vi) *Computation and payment of tax.* Unless a taxpayer is entitled to elect under section 6014 and § 1.6014–1 not to show the tax on Form 1040A and does so elect, shall compute and show on his return on Form 1040A the amount of the tax imposed by subtitle A and shall, without notice and demand therefor, pay any unpaid balance of such tax not later than the date fixed for filing the return.

(vii) *Change of election to use Form 1040A.* A taxpayer who has elected to make a return on Form 1040A may change such election. Such change of election shall be within the time and subject to the conditions prescribed in section 144 (b) and § 1.144–2, relating to change of election to take, or not to take, the standard deduction.

(viii) *Joint return of husband and wife on Form 1040A.* If the aggregate gross income for any taxable year of a husband and wife, neither of whom was a nonresident alien at any time during such year, is less than $10,000, consists solely of remuneration for services performed as an employee, dividends, or interest, and does not include more than $200 from dividends, interest, and remuneration for personal services other than wages as defined in section 3401 (a), the spouses may file a joint return on Form 1040A. For purposes of determining whether gross income from sources other than wages exceeds $200 where both spouses received dividends from domestic corporations, the amount of such dividends received by each spouse is taken into account to the extent that such dividends are includible in gross income. See section 116 and §§ 1.116–1 and 1.116–2. If a joint return is made by husband and wife on Form 1040A, the liability for the tax shall be joint and several.

(b) *Returns of nonresident alien individuals*—(1) *Individuals in class 1 (no United States business and gross income of not more than $15,400)*—(i) *Return not required.* If the tax liability of a nonresident alien individual within class 1, as described in paragraph (a) (1) of § 1.871–7, is fully satisfied at the source, a return of income is not required.

(ii) *Return required.* A nonresident alien individual within class 1 shall make or have made a return on Form 1040NB with respect to that portion of his income described in paragraph (b) of § 1.871–7 upon which the tax has not been fully satisfied at the source, including such income upon which the tax is limited by tax convention. A return shall be made in such instance even though the individual's gross income from sources within the United States for the taxable year is less than $600.

(iii) *Items upon which tax not fully satisfied.* Some of the items of income from sources within the United States upon which the tax liability will not have been fully satisfied at the source are—

(a) Interest upon so-called tax-free covenant bonds upon which, in accordance with § 1.1451–1, a tax of only 2 percent is required to be withheld at the source;

(b) Capital gains described in paragraph (b) (4) of § 1.871–7, which are not subject to withholding under § 1.1441–1;

(c) Accrued interest received in connection with the sale of bonds between interest dates, which, in accordance with paragraph (a) (2) of § 1.1441–4, is not subject to withholding; and

(d) Dividends from foreign corporations which are not subject to withholding under paragraph (b) (2) of § 1.1441–3 but do constitute income from sources within the United States under paragraph (a) (2) of § 1.861–3.

(iv) *Claim for refund.* Notwithstanding the provisions of subdivisions (i) and (ii) of this subparagraph, a nonresident alien individual within class 1 shall include on Form 1040NB his entire income described in paragraph (b) of § 1.871–7, whether or not the tax has been fully satisfied at the source upon a portion thereof, if a claim for the refund of an overpayment of tax is made in accordance with section 6402 and the regulations thereunder. However, if the overpayment to be refunded consists solely of tax deemed to have been paid under section 852 (b) (3) (D), relating to undistributed capital gains of a regulated investment company, it is not necessary to include on the Form 1040NB the entire income described in paragraph (b) of § 1.871–7.

(2) *Individuals in class 2 (no United States business and gross income of more than $15,400).* Even though the tax has been fully satisfied at the source, every nonresident alien individual within class 2, as described in paragraph (a) (2) of § 1.871–7, shall make or have made a return on Form 1040NB–a of all his income described in paragraph (c) of § 1.871–7, including such income upon which the tax is limited by tax convention. However, if the gross income of an individual within class 2 consists of treaty income only, as defined in paragraph (e) of § 1.871–7, or if the nontreaty income does not exceed $15,400 in the aggregate, the return shall be made on Form 1040NB in the manner and to the extent otherwise required in subparagraph (1) of this paragraph. See paragraph (e) (2) of § 1.871–7.

(3) *Individuals in class 3 (United States business).* Every nonresident alien individual within class 3, as described in paragraph (a) (3) of § 1.871–7, shall make or have made a return on Form 1040B of all his income described in paragraph (d) of § 1.871–7, including such income upon which the tax is limited by tax convention, even though his gross income from sources within the United States for the taxable year is less than $600. No exception is made to this requirement in the case of such an individual who is a resident of Canada or Mexico. However, if the gross income of a nonresident alien individual within class 3 consists of treaty income only and the tax is determined by applying the limited rates applicable under the convention, then the return shall be made on Form 1040NB in the manner and to the extent otherwise required by subparagraph (1) of this paragraph. See paragraph (e) (3) and (5) of § 1.871–7. When used for this purpose, Form 1040NB shall be appropriately marked in accordance with the instructions issued with respect to the return.

(4) *Treaty income.* If the gross income of a nonresident alien individual to which this paragraph applies includes income on which the tax is limited by tax convention, see paragraph (e) of § 1.871–7.

(5) *Claims for refund*—(i) *Forms to use.* In the case of any overpayment of income tax by a nonresident alien individual to which this paragraph applies, claim for refund may be made in accordance with section 6402 and the regulations thereunder.

(ii) *Tax withheld at source.* If an overpayment has resulted from the withholding of tax at source under chapter 3 of the Code, statements shall be attached to the claim for refund showing accurately (a) the amounts of tax withheld, with the names and post office addresses of withholding agents and, (b) if applicable, facts sufficient to show that, at the time when the income was derived, the taxpayer was entitled to the benefit of a reduced rate of, or exemption from, tax with respect to that income under the provisions of a tax convention to which the United States is a party. For an illustration of the statements to be furnished when claiming the benefit of a reduced rate or exemption under a tax convention, see 26 CFR (1939) 7.710 (Treasury Decision 6030, approved July 10, 1953); § 501.11 of this chapter (Treasury Decision 6108, approved October 13, 1954); and § 502.10 of this chapter (Treasury Decision 6109, approved October 13, 1954). For the refund to the withholding agent of an overpayment of the tax under chapter 3 of the Code, see § 1.1464–1.

(6) *Representative or agent for nonresident alien individuals*—(i) *In general.* The responsible representative or agent within the United States of a nonresident alien individual shall make in behalf of his nonresident alien principal a return of, and shall pay the tax on, all income from sources within the United States coming within his control as representative or agent. The agency appointment will determine how completely the agent is substituted for the principal for tax purposes. Any person who collects interest or dividends on deposited securities of a nonresident alien individual, executes ownership certificates in connection therewith, or sells such securities under special instructions shall not be deemed merely by reason of such acts to be the responsible representative or agent of the nonresident alien individual.

(ii) *Income to be returned.* A return of income shall be required under this subparagraph only if the nonresident alien individual is otherwise required to make a return in accordance with this paragraph. The provisions of this paragraph shall apply in determining the form of return to be used and the income to be returned.

(c) *Cross reference.* For returns by fiduciaries for individuals, estates, and trusts, see § 1.6012–3.

§ 1.6012–2 *Corporations required to make returns of income*—(a) *In general*—(1) *Requirement of return.* Except as provided in paragraphs (e) and (g) (1) (ii) of this section with respect to charitable and other organizations having unrelated business income and to certain foreign corporations, respectively, every corporation, as defined in section 7701 (a) (3), subject to taxation under subtitle A shall make a return of income regardless of whether it has taxable income or regardless of the amount of its gross income.

(2) *Existence of corporation.* A corporation in existence during any portion of a taxable year is required to make a return. If a corporation was not in existence throughout an annual accounting period (either calendar year or fiscal year), the corporation is required to make a return for that fractional part of a year during which it was in existence. A corporation is not in existence after it ceases business and dissolves, retaining no assets, whether or not under State law it may thereafter be treated as continuing as a corporation for certain limited purposes connected with winding up its affairs, such as for the purpose of suing and being sued. If the corporation has valuable claims for which it will bring suit during this period, it has retained assets and therefore continues in existence. A corporation does not go out of existence if it is turned over to receivers or trustees who continue to operate it. If a corporation has received a charter but has never perfected its organization and has transacted no business and has no income from any source, it may upon presentation of the facts to the district director be relieved from the necessity of making a return. In the absence of a proper showing of such facts to the district director, a corporation will be required to make a return.

(3) *Form of return.* The return required of a corporation under this section shall be made on Form 1120 unless the corporation is of a type for which a special form is prescribed. The special forms of returns and schedules required of particular types of corporations are set forth in paragraphs (b) to (g), inclusive, of this section.

(b) *Personal holding companies.* A personal holding company, as defined in section 542, including a foreign corporation within the definition of such section, shall attach Schedule PH, Computation of U. S. Personal Holding Company Tax, to the return required by paragraph (a) or (g), as the case may be, of this section.

(c) *Insurance companies*—(1) *Life insurance companies.* A life insurance company subject to tax under section 802 or 811 shall make a return on Form 1120L. There shall be filed with the return (i) a copy of the annual statement, the form of which has been approved by the National Association of Insurance Commissioners, which is filed by the company for the year covered by such return with the Insurance Departments of States, Territories, and the District of Columbia, and which shows the reserves used by the company in computing the taxable income reported on its return, and (ii) copies of Schedule A (real estate) and Schedule D (bonds and stocks) of such annual statement.

(2) *Mutual insurance companies.* A mutual insurance company (other than a life or marine insurance company and other than a fire insurance company subject to the tax imposed by section 831) or an interinsurer or reciprocal underwriter subject to tax under section 821 shall make a return on Form 1120M. See paragraph (a) (3) of § 1.821–1. There shall be filed with the return (i) a copy of the annual statement, the form of which has been approved by the National Association of Insurance Commissioners, which is filed by the company for the year covered by such return with the Insurance Departments of States, Territories, and the District of Columbia, and (ii) copies of Schedule A (real estate) and Schedule D (bonds and stocks) of such annual statement.

(3) *Other insurance companies.* Every insurance company (other than a life or mutual insurance company), every mutual marine insurance company, and every mutual fire insurance company, subject to tax under section 831, and every mutual savings bank conducting a life insurance business and subject to tax under section 594, shall make a return on Form 1120. See paragraph (c) of § 1.831–1. There shall be filed with the return a copy of the annual statement, the form of which has been approved by the National Association of Insurance Commissioners, which contains the underwriting and investment exhibit for the year covered by such return.

(4) *Foreign insurance companies.* The provisions of subparagraphs (1), (2), and (3) of this paragraph concerning the returns and statements of insurance companies subject to tax under section 802 or 811, section 821, and section 831, respectively, are applicable to foreign insurance companies subject to tax under such sections, except that the copy of the annual statement, the form of which has been approved by the National Association of Insurance Commissioners, required to be submitted with the return shall, in the case of a foreign insurance company, be a copy of the statement relating to the United States business of such company.

(d) *Affiliated groups.* For the forms to be used by affiliated corporations filing a consolidated return, see § 1.1502–12.

NOTE: Paragraphs (e) and (f) of this section, relating to charitable and other organizations with unrelated business income and to farmers' cooperatives, respectively, have been issued as a part of Treasury Decision 6301, approved July 2, 1958.

(g) *Returns by foreign corporations*—(1) *Nonresident foreign corporations*—(i) *Taxable years beginning on or after January 1, 1958.* For taxable years beginning on or after January 1, 1958, every nonresident foreign corporation shall make or have made a return on Form 1120NB of all its income described in § 1.881–2, including such income upon which the tax is limited by tax convention, whether or not the tax has been fully satisfied at the source upon all or a portion thereof.

(ii) *Taxable years beginning before January 1, 1958*—(a) *Return not required.* For taxable years beginning before January 1, 1958, a nonresident foreign corporation is not required to make a return of income if the tax

liability of the corporation is fully satisfied at the source.

(b) *Return required.* For taxable years beginning before January 1, 1958, a nonresident foreign corporation shall make or have made a return on Form 1120NB with respect to that portion of its income described in § 1.881–2 upon which the tax has not been fully satisfied at the source, including such income upon which the tax is limited by tax convention.

(c) *Claim for refund.* Notwithstanding the provisions of (a) and (b) of this subdivision, a nonresident foreign corporation shall include on Form 1120NB its entire income described in § 1.881–2, whether or not the tax has been fully satisfied at the source upon a portion thereof, if a claim for refund of an overpayment of tax is made in accordance with section 6402 and the regulations thereunder. However, if the overpayment to be refunded consists solely of tax deemed to have been paid under section 852 (b) (3) (D), relating to undistributed capital gains of a regulated investment company, it is not necessary to include on the Form 1120NB the entire income described in § 1.881–2.

(2) *Resident foreign corporations.* Every resident foreign corporation shall make or have made a return on Form 1120 of all its income described in § 1.882–1, including such income upon which the tax is limited by tax convention.

(3) *Treaty income.* If the gross income of a foreign corporation includes income upon which the tax is limited by tax convention, see paragraph (f) of § 1.881–2 in the case of a nonresident foreign corporation, or paragraph (a) (7) of § 1.882–1 in the case of a resident foreign corporation.

(4) *Returns by agent.* If at the time the return is filed a foreign corporation has no office or place of business within the United States but has an agent in the United States, the return required by this paragraph shall be made by the agent. See section 882 (d).

(5) *Claims for refund*—(i) *Form to use.* In the case of any overpayment of income tax by a foreign corporation to which this paragraph applies, claim for refund shall be made in accordance with section 6402 and the regulations thereunder.

(ii) *Tax withheld at source.* If an overpayment has resulted from the withholding of tax at source under chapter 3 of the Code, statements shall be attached to the claim for refund showing the same information as is required by paragraph (b) (5) of § 1.6012–1 in the case of a claim for refund by a nonresident alien individual.

(6) *Special return forms.* For provisions relating to—

(i) Returns of foreign corporations which are personal holding companies as defined in section 542, see paragraph (b) of this section;

(ii) Returns of foreign insurance companies subject to tax under section 802 or 811, section 821, or section 831, see paragraph (c) of this section; and

(iii) Returns with respect to the tax imposed by section 511 upon unrelated business income described in section 512, see paragraph (e) of this section.

(h) *Other provisions.* For returns by fiduciaries for corporations, see § 1.6012–3. For information returns by corporations contemplating dissolution or liquidation and for information returns by corporations of distributions in liquidation, see §§ 1.6043–1 and 1.6043–2, respectively. For information returns by corporations relating to corporate dividends, earnings, and profits, see § 1.6042–1. For returns as to formation or reorganization of foreign corporations, see § 1.6046–1. For information returns of officers, directors, and shareholders of foreign personal holding companies, as defined in section 552, see §§ 1.6035–1 and 1.6035–2.

§ 1.6012–3 *Returns by fiduciaries*—(a) *For estates and trusts*—(1) *In general.* Every fiduciary, or at least one of joint fiduciaries, must make a return of income on Form 1041—

(i) For each estate for which he acts if the gross income of such estate for the taxable year is $600 or more;

(ii) For each trust for which he acts, except a trust exempt under section 501 (a), if such trust has for the taxable year any taxable income, or has for the taxable year gross income of $600 or more regardless of the amount of taxable income; and

(iii) For each estate and each trust for which he acts, except a trust exempt under section 501 (a), regardless of the amount of income for the taxable year, if any beneficiary of such estate or trust is a nonresident alien.

(2) *Gross income of $5,000 or more.* In cases in which the gross income of the estate or trust is $5,000 or over for any taxable year, a copy of the will or trust instrument, sworn to by the fiduciary as a true and complete copy, must be filed with the fiduciary return of the estate or trust, together with a statement by the fiduciary indicating the provisions of the will or trust instrument which, in his opinion, determine the extent to which the income of the estate or trust is taxable to the estate or trust, the beneficiaries, or the grantor, respectively. If, however, a copy of the will or trust instrument, and statement relating to the provisions of the will or trust instrument, have once been filed, they need not again be filed if the fiduciary return contains a statement showing when and where they were filed. If the trust instrument is amended in any way after such copies have been filed, a copy of the amendment must be filed by the fiduciary with the return for the taxable year in which the amendment was made. The fiduciary must also file with such amendment a statement indicating the effect, if any, in his opinion, of the amendment on the extent to which the income of the estate or trust is taxable to the estate or trust, the beneficiaries, or the grantor, respectively.

(3) *Domiciliary and ancillary representatives.* In the case of an estate required to file a return under subparagraph (1) of this paragraph, having both domiciliary and ancillary representatives, the domiciliary and ancillary representatives must each file a return on Form 1041. The domiciliary representative is required to include in the return rendered by him as such domiciliary representative the entire income of the estate. The return of the ancillary representative shall be filed with the district director for his internal revenue district and shall show the name and address of the domiciliary representative, the amount of gross income received by the ancillary representative, and the deductions to be claimed against such income, including any amount of income properly paid or credited by the ancillary representative to any legatee, heir, or other beneficiary. If the ancillary representative for the estate of a nonresident alien is a citizen or resident of the United States, and the domiciliary representative is a nonresident alien, such ancillary representative is required to render the return otherwise required of the domiciliary representative.

(4) *Two or more trusts.* A trustee of two or more trusts must make a separate return for each trust, even though such trusts were created by the same grantor for the same beneficiary or beneficiaries.

NOTE: Subparagraph (5) of this paragraph, relating to trusts with unrelated business income, was issued as a part of Treasury Decision 6301, approved July 2, 1958.

(b) *For other persons*—(1) *Decedents.* The executor or administrator of the estate of a decedent, or other person charged with the property of a decedent, shall make the return of income required in respect of such decedent. For the decedent's taxable year which ends with the date of his death, the return shall cover the period during which he was alive. For the filing of returns of income for citizens and alien residents of the United States, and alien residents of Puerto Rico, see paragraph (a) of § 1.6012–1. For the filing of a joint return after death of spouse, see paragraph (d) of § 1.6013–1.

(2) *Nonresident alien individuals*—(i) *In general.* Except as otherwise provided in paragraph (b) (6) of § 1.6012–1, a resident or domestic fiduciary or other person charged with the care of the person or property of a nonresident alien individual shall make a return for that individual and pay the tax. However, if the nonresident alien individual has appointed a person in the United States to act as his agent for the purpose of making a return of income, the fiduciary or other person charged with the care of the person or property of that individual shall not be required to make a return and pay the tax in accordance with this subparagraph. In such case, if the fiduciary is required to file Form 1041 for an estate or trust of which the nonresident alien individual is a beneficiary, the fiduciary shall attach a copy of the agency appointment to his return on Form 1041.

(ii) *Income to be returned.* A return of income shall be required under this subparagraph only if the nonresident alien individual is otherwise required to make a return in accordance with paragraph (b) of § 1.6012–1. The provisions of that section shall apply in determining the form of return to be used and the income to be returned.

(iii) *Allowance of deductions and credits.* The nonresident alien individual shall receive the benefit of the deductions and credits allowed to him with respect to the income tax only if, pursuant to section 874, the return so filed in accordance with this subparagraph constitutes a true and accurate return of the taxpayer's total income received from all sources within the United States and required to be returned in accordance with paragraph (b) of § 1.6012–1. However, this subdivision shall not be construed to deny the credits provided by sections 31 and 32 for tax withheld at the source.

(iv) *Alien resident of Puerto Rico.* This subparagraph shall not apply to the return of a nonresident alien individual who is a bona fide resident of Puerto Rico during the entire taxable year. See § 1.876–1.

(v) *Cross reference.* For requirements of withholding of tax at source on nonresident aliens and of returns with respect to such withheld taxes, see §§ 1.1441–1 to 1.1441–5 and §§ 1.1461–1 to 1.1461–3, respectively.

(3) *Persons under a disability.* A fiduciary acting as the guardian of a minor, or as the guardian or committee of an insane person, must make the return of income required in respect of such person unless, in the case of a minor, the minor himself makes the return or causes it to be made.

(4) *Corporations.* A receiver, trustee in dissolution, trustee in bankruptcy, or assignee, who, by order of a court of competent jurisdiction, by operation of law or otherwise, has possession of or holds title to all or substantially all the property or business of a corporation, shall make the return of income for such corporation in the same manner and form as corporations are required to make such returns. Such return shall be filed whether or not the receiver, trustee, or assignee is operating the property or business of the corporation. A receiver in charge of only a small part of the property of a corporation, such as a receiver in mortgage foreclosure proceedings involving merely a small portion of its property, need not make the return of income. See also § 1.6041–1, relating to information at source, and § 1.6042–1, relating to returns regarding corporate dividends, earnings, and profits.

(5) *Individuals in receivership.* A receiver who stands in the place of an individual must make the return of income required in respect of such individual. A receiver of only part of the property of an individual need not file a return, and the individual must make his own return.

(c) *Joint fiduciaries.* In the case of joint fiduciaries, a return is required to be made by only one of such fiduciaries. A return made by one of joint fiduciaries shall contain a statement that the fiduciary has sufficient knowledge of the affairs of the person for whom the return is made to enable him to make the return, and that the return is, to the best of his knowledge and belief, true and correct.

(d) *Other provisions.* For the definition of the term "fiduciary", see section 7701 (a) (6) and the regulations thereunder. For information returns required to be made by fiduciaries under section 6041, see § 1.6041–1. As to further duties and liabilities of fiduciaries, see section 6903 and § 301.6903–1 of this chapter.

§ 1.6012–4 *Miscellaneous returns.* For returns by regulated investment companies of tax on undistributed capital gain designated for special treatment under section 852 (b) (3) (D), see § 1.852–9. For returns with respect to tax withheld from nonresident aliens and foreign corporations, and on tax-free covenant bonds, see §§ 1.1461–1 to 1.1461–3, inclusive. For returns of tax on transfers to avoid income tax, see § 1.1494–1. For the requirement of an annual report by persons completing a Government contract, see 26 CFR (1939) 17.16 (Treasury Decision 4906, approved June 23, 1939), and 26 CFR (1939) 16.15 (Treasury Decision 4909, approved June 28, 1939), as made applicable to section 1471 of the 1954 Code by Treasury Decision 6091, approved August 16, 1954 (19 F. R. 5167).

§ 1.6013 *Statutory provisions; joint returns of income tax by husband and wife.*

SEC. 6013. *Joint returns of income tax by husband and wife*—(a) *Joint returns.* A husband and wife may make a single return jointly of income taxes under subtitle A, even though one of the spouses has neither gross income nor deductions, except as provided below:

(1) No joint return shall be made if either the husband or wife at any time during the taxable year is a nonresident alien;

(2) No joint return shall be made if the husband and wife have different taxable years; except that if such taxable years begin on the same day and end on different days because of the death of either or both, then the joint return may be made with respect to the taxable year of each. The above exception shall not apply if the surviving spouse remarries before the close of his taxable year, nor if the taxable year of either spouse is a fractional part of a year under section 443 (a) (1);

(3) In the case of death of one spouse or both spouses the joint return with respect to the decedent may be made only by his executor or administrator; except that in the case of the death of one spouse the joint return may be made by the surviving spouse with respect to both himself and the decedent if no return for the taxable year has been made by the decedent, no executor or administrator has been appointed, and no executor or administrator is appointed before the last day prescribed by law for filing the return of the surviving spouse. If an executor or administrator of the decedent is appointed after the making of the joint return by the surviving spouse, the executor or administrator may disaffirm such joint return by making, within 1 year after the last day prescribed by law for filing the return of the surviving spouse, a separate return for the taxable year of the decedent with respect to which the joint return was made, in which case the return made by the survivor shall constitute his separate return.

(b) *Joint return after filing separate return*—(1) *In general.* Except as provided in paragraph (2), if an individual has filed a separate return for a taxable year for which a joint return could have been made by him and his spouse under subsection (a) and the time prescribed by law for filing the return for such taxable year has expired, such individual and his spouse may nevertheless make a joint return for such taxable year. A joint return filed by the husband and wife under this subsection shall constitute the return of the husband and wife for such taxable year, and all payments, credits, refunds, or other repayments made or allowed with respect to the separate return of either spouse for such taxable year shall be taken into account in determining the extent to which the tax based upon the joint return has been paid. If a joint return is made under this subsection, any election (other than the election to file a separate return) made by either spouse in his separate return for such taxable year with respect to the treatment of any income, deduction, or credit of such spouse shall not be changed in the making of the joint return where such election would have been irrevocable if the joint return had not been made. If a joint return is made under this subsection after the death of either spouse, such return with respect to the decedent can be made only by his executor or administrator.

(2) *Limitations for making of election.* The election provided for in paragraph (1) may not be made—

(A) Unless there is paid in full at or before the time of the filing of the joint return the amount shown as tax upon such joint return; or

(B) After the expiration of 3 years from the last date prescribed by law for filing the return for such taxable year (determined without regard to any extension of time granted to either spouse); or

(C) After there has been mailed to either spouse, with respect to such taxable year, a notice of deficiency under section 6212, if the spouse, as to such notice, files a petition with the Tax Court of the United States within the time prescribed in section 6213; or

(D) After either spouse has commenced a suit in any court for the recovery of any part of the tax for such taxable year; or

(E) After either spouse has entered into a closing agreement under section 7121 with respect to such taxable year, or after any civil or criminal case arising against either spouse with respect to such taxable year has been compromised under section 7122.

(3) *When return deemed filed*—(A) *Assessment and collection.* For purposes of section 6501 (relating to periods of limitations on assessment and collection), and for purposes of section 6651 (relating to delinquent returns), a joint return made under this subsection shall be deemed to have been filed—

(i) Where both spouses filed separate returns prior to making the joint return—on the date the last separate return was filed (but not earlier than the last date prescribed by law for filing the return of either spouse);

(ii) Where only one spouse filed a separate return prior to the making of the joint return, and the other spouse had less than $600 of gross income ($1,200 in case such spouse was 65 or over) for such taxable year— on the date of the filing of such separate return (but not earlier than the last date prescribed by law for the filing of such separate return); or

(iii) Where only one spouse filed a separate return prior to the making of the joint return, and the other spouse had gross income of $600 or more ($1,200 in case such spouse was 65 or over) for such taxable year— on the date of the filing of such joint return.

(B) *Credit or refund.* For purposes of section 6511, a joint return made under this subsection shall be deemed to have been filed on the last date prescribed by law for filing the return for such taxable year (determined without regard to any extension of time granted to either spouse).

(4) *Additional time for assessment.* If a joint return is made under this subsection, the periods of limitations provided in sections 6501 and 6502 on the making of assessments and the beginning of levy or a pro-

ceeding in court for collection shall with respect to such return include one year immediately after the date of the filing of such joint return (computed without regard to the provisions of paragraph (3)).

(5) *Additions to the tax and penalties*—(A) *Additions to the tax.* Where the amount shown as the tax by the husband and wife on a joint return made under this subsection exceeds the aggregate of the amounts shown as the tax upon the separate return of each spouse—

(i) *Negligence.* If any part of such excess is attributable to negligence or intentional disregard of rules and regulations (but without intent to defraud) at the time of the making of such separate return, then 5 percent of the total amount of such excess shall be added to the tax;

(ii) *Fraud.* If any part of such excess is attributable to fraud with intent to evade tax at the time of the making of such separate return, then 50 percent of the total amount of such excess shall be added to the tax.

(B) *Criminal penalty.* For purposes of section 7206 (1) and (2) and section 7207 (relating to criminal penalties in the case of fraudulent returns) the term "return" includes a separate return filed by a spouse with respect to a taxable year for which a joint return is made under this subsection after the filing of such separate return.

(c) *Treatment of joint return after death of either spouse.* For purposes of sections 21, 443, and 7851 (a) (1) (A), where the husband and wife have different taxable years because of the death of either spouse, the joint return shall be treated as if the taxable years of both spouses ended on the date of the closing of the surviving spouse's taxable year.

(d) *Definitions.* For purposes of this section—

(1) The status as husband and wife of two individuals having taxable years beginning on the same day shall be determined—

(A) If both have the same taxable year—as of the close of such year; and

(B) If one dies before the close of the taxable year of the other—as of the time of such death; and

(2) An individual who is legally separated from his spouse under a decree of divorce or of separate maintenance shall not be considered as married; and

(3) If a joint return is made, the tax shall be computed on the aggregate income and the liability with respect to the tax shall be joint and several.

(Sec. 6013 as amended by sec. 73, Technical Amendments Act 1958)

§ 1.6013–1 *Joint returns*—(a) *In general.* (1) A husband and wife may elect to make a joint return under section 6013 (a) even though one of the spouses has no gross income or deductions. For rules for determining whether individuals occupy the status of husband and wife for purposes of filing a joint return, see paragraph (a) of § 1.6013–4. For any taxable year with respect to which a joint return has been filed, separate returns shall not be made by the spouses after the time for filing the return of either has expired. See, however, paragraph (d) (5) of this section for the right of an executor to file a late separate return for a deceased spouse and thereby disaffirm a timely joint return made by the surviving spouse.

(2) A joint return of a husband and wife (if not made by an agent) shall be signed by both spouses. The provisions of paragraph (a) (5) of § 1.6012–1, relating to returns made by agents, shall apply where one spouse signs a return as agent for the other, or where a third party signs a return as agent for both spouses.

(b) *Nonresident alien.* A joint return shall not be made if either the husband or wife at any time during the taxable year is a nonresident alien.

(c) *Different taxable years.* Except as otherwise provided in this section, a husband and wife shall not file a joint return if they have different taxable years.

(d) *Joint return after death.* (1) Section 6013 (a) (2) provides that a joint return may be made for the survivor and the deceased spouse or for both deceased spouses if the taxable years of such spouses begin on the same day and end on different days only because of the death of either or both. Thus, if a husband and wife make their returns on a calendar year basis, and the wife dies on August 1, 1956, a joint return may be made with respect to the calendar year 1956 of the husband and the taxable year of the wife beginning on January 1, 1956, and ending with her death on August 1, 1956. Similarly, if husband and wife both make their returns on the basis of a fiscal year beginning on July 1 and the wife dies on October 1, 1956, a joint return may be made with respect to the fiscal year of the husband beginning on July 1, 1956, and ending on June 30, 1957, and with respect to the taxable year of the wife beginning on July 1, 1956, and ending with her death on October 1, 1956.

(2) The provision allowing a joint return to be made for the taxable year in which the death of either or both spouses occurs is subject to two limitations. The first limitation is that if the surviving spouse remarries before the close of his taxable year, he shall not make a joint return with the first spouse who died during the taxable year. In such a case, however, the surviving spouse may make a joint return with his new spouse provided the other requirements with respect to the filing of a joint return are met. The second limitation is that the surviving spouse shall not make a joint return with the deceased spouse if the taxable year of either spouse is a fractional part of a year under section 443 (a) (1) resulting from a change of accounting period. For example, if a husband and wife make their returns on the calendar year basis and the wife dies on March 1, 1956, and thereafter the husband receives permission to change his annual accounting period to a fiscal year beginning July 1, 1956, no joint return shall be made for the short taxable year ending June 30, 1956. Similarly, if a husband and wife who make their returns on a calendar year basis receive permission to change to a fiscal year beginning July 1, 1956, and the wife dies on June 1, 1956, no joint return shall be made for the short taxable year ending June 30, 1956.

(3) Section 6013 (a) (3) provides for the method of making a joint return in the case of the death of one spouse or both spouses. The general rule is that, in the case of the death of one spouse, or of both spouses, the joint return with respect to the decedent may be made only by his executor or administrator, as defined in paragraph (c) of § 1.6013–4. An exception is made to this general rule whereby, in the case of the death of one spouse, the joint return may be made by the surviving spouse with respect to both him and the decedent if all the following conditions exist:

(i) No return has been made by the decedent for the taxable year in respect of which the joint return is made;

(ii) No executor or administrator has been appointed at or before the time of making such joint return; and

(iii) No executor or administrator is appointed before the last day prescribed by law for filing the return of the surviving spouse.

These conditions are to be applied with respect to the return for each of the taxable years of the decedent for which a joint return may be made if more than one such taxable year is involved. Thus, in the case of husband and wife on the calendar year basis, if the wife dies in February 1957, a joint return for the husband and wife for 1956 may be made if the conditions set forth in this subparagraph are satisfied with respect to such return. A joint return also may be made by the survivor for both himself and the deceased spouse for the calendar year 1957 if it is separately determined that the conditions set forth in this subparagraph are satisfied with respect to the return for such year. If, however, the deceased spouse should, prior to her death, make a return for 1956, the surviving spouse may not thereafter make a joint return for himself and the deceased spouse for 1956.

(4) If an executor or administrator is appointed at or before the time of making the joint return or before the last day prescribed by law for filing the return of the surviving spouse, the surviving spouse cannot make a joint return for himself and the deceased spouse whether or not a separate return for the deceased spouse is made by such executor or administrator. In such a case, any return made solely by the surviving spouse shall be treated as his separate return. The joint return, if one is to be made, must be made by both the surviving spouse and the executor or administrator. In determining whether an executor or administrator is appointed before the last day prescribed by law for filing the return of the surviving spouse, an extension of time for making the return is included.

(5) If the surviving spouse makes the joint return provided for in subparagraph (3) of this paragraph and thereafter an executor or administrator of the decedent is appointed, the executor or administrator may disaffirm such joint return. This disaffirmance, in order to be effective, must be made within one year after the last day prescribed by law for filing the return of the surviving spouse (including any extension of time for filing such return) and must be made in the form of a separate return for the taxable year of the decedent with respect to which the joint return was made. In the event of such proper disaffirmance the return made by the survivor shall constitute his separate return, that is, the joint return made by him shall be

treated as his return and the tax thereon shall be computed by excluding all items properly includible in the return of the deceased spouse. The separate return made by the executor or administrator shall constitue the return of the deceased spouse for the taxable year.

(6) The time allowed the executor or administrator to disaffirm the joint return by the making of a separate return does not establish a new due date for the return of the deceased spouse. Accordingly, the provisions of sections 6651 and 6601, relating to delinquent returns and delinquency in payment of tax, are applicable to such return made by the executor in disaffirmance of the joint return.

(e) *Return of surviving spouse treated as joint return.* For provisions relating to the treatment of the return of a surviving spouse as a joint return for each of the next two taxable years following the year of the death of the spouse, see section 2 and § 1.2–2.

§ 1.6013–2 *Joint return after filing separate return*—(a) *In general.* (1) Where an individual has filed a separate return for a taxable year for which a joint return could have been made by him and his spouse under section 6013 (a), and the time prescribed by law for filing the return for such taxable year has expired, such individual and his spouse may, under conditions hereinafter set forth, make a joint return for such taxable year. The joint return filed pursuant to section 6013 (b) shall constitute the return of the husband and wife for such year, and all payments, credits, refunds, or other repayments, made or allowed with respect to the separate return of either spouse are to be taken into account in determining the extent to which the tax based on the joint return has been paid.

(2) If a joint return is made under section 6013 (b), any election, other than the election to file a separate return, made by either spouse in his separate return for the taxable year with respect to the treatment of any income, deduction, or credit of such spouse shall not be changed in the making of the joint return where such election would have been irrevocable if the joint return had not been made. Thus, if one spouse has made an irrevocable election to adopt and use the last-in, first-out inventory method under section 472, this election may not be changed upon making the joint return under section 6013 (b).

(3) A joint return made under section 6013 (b) after the death of either spouse shall, with respect to the decedent, be made only by his executor or administrator. Thus, where no executor or administrator has been appointed, a joint return cannot be made under section 6013 (b).

(b) *Limitations with respect to making of election.* A joint return shall not be made under section 6013 (b) (1) with respect to a taxable year—

(1) Unless there is paid in full at or before the time of the filing of the joint return the amount shown as tax upon such joint return; or

(2) After the expiration of three years from the last day prescribed by law for filing the return for such taxable year determined without regard to any extension of time granted to either spouse; or

(3) After there has been mailed to either spouse, with respect to such taxable year, a notice of deficiency under section 6212, if the spouse, as to such notice, files a petition with the Tax Court of the United States within the time prescribed in section 6213; or

(4) After either spouse has commenced a suit in any court for the recovery of any part of the tax for such taxable year; or

(5) After either spouse has entered into a closing agreement under section 7121 with respect to such taxable year, or after any civil or criminal case arising against either spouse with respect to such taxable year has been compromised under section 7122.

(c) *When return deemed filed; assessment and collection; credit or refund.* (1) For the purpose of section 6501, relating to the period of limitations upon assessment and collection, and section 6651, relating to delinquent returns, a joint return made under section 6013 (b) shall be deemed to have been filed, giving due regard to any extension of time granted to either spouse, on the following date:

(i) Where both spouses filed separate returns, prior to making the joint return under section 6013 (b), on the date the last separate return of either spouse was filed for the taxable year, but not earlier than the last date prescribed by law for the filing of the return of either spouse;

(ii) Where only one spouse was required and did file a return prior to the making of the joint return under section 6013 (b), on the date of the filing of the separate return, but not earlier than the last day prescribed by law for the filing of such return; or

(iii) Where both spouses were required to file a return, but only one spouse did so file, on the date of the filing of the joint return under section 6013 (b).

(2) For the purpose of section 6511, relating to refunds and credits, a joint return made under section 6013 (b) shall be deemed to have been filed on the last date prescribed by law for filing the return for such taxable year, determined without regard to any extension of time granted to either spouse for filing the return or paying the tax.

(d) *Additional time for assessment.* In the case of a joint return made under section 6013 (b), the period of limitations provided in sections 6501 and 6502 shall not be less than one year after the date of the actual filing of such joint return. The expiration of the one year is to be determined without regard to the rules provided in paragraph (c) (1) of this section, relating to the application of sections 6501 and 6651 with respect to a joint return made under section 6013 (b).

(e) *Additions to the tax and penalties.* (1) Where the amount shown as the tax by the husband and wife on a joint return made under section 6013 (b) exceeds the aggregate of the amounts shown as tax on the separate return of each spouse, and such excess is attributable to negligence, intentional disregard of rules and regulations, or fraud at the time of the making of such separate return, there shall be assessed, collected, and paid in the same manner as if it were a deficiency an additional amount as provided by the following:

(i) If any part of such excess is attributable to negligence, or intentional disregard of rules and regulations, at the time of the making of such separate return, but without any intent to defraud this additional amount shall be 5 percent of the total amount of the excess.

(ii) If any part of such excess is attributable to fraud with intent to evade tax at the time of the making of such separate return, this additional amount shall be 50 percent of the total amount of the excess. The latter addition is in lieu of the 50 percent addition to the tax provided in section 6653 (b).

(2) For purposes of section 7206 (1) and (2) and section 7207 (relating to criminal penalties in the case of fraudulent returns), the term "return" includes a separate return filed by a spouse with respect to a taxable year for which a joint return is made under section 6013 (b) after the filing of a separate return.

§ 1.6013–3 *Treatment of joint return after death of either spouse.* For purposes of section 21 (relating to change in rates during a taxable year), section 443 (relating to returns for a period of less than 12 months), and section 7851 (a) (1) (A) (relating to the applicability of certain provisions of the Internal Revenue Codes of 1954 and 1939), where the husband and wife have different taxable years because of death of either spouse, the joint return shall be treated as if the taxable years of both ended on the date of the closing of the surviving spouse's taxable year. Thus, in cases where the 1939 Code otherwise would apply to the taxable year of the decedent spouse and the 1954 Code would apply to the taxable year of the surviving spouse, this provision makes the 1954 Code applicable to the taxable years of both spouses if a joint return is filed.

§ 1.6013–4 *Applicable rules*—(a) *Status as husband and wife.* For the purpose of filing a joint return under section 6013, the status as husband and wife of two individuals having taxable years beginning on the same day shall be determined—

(1) If the taxable year of each individual is the same, as of the close of such year; and

(2) If the close of the taxable year is different by reason of the death of one spouse, as of the time of such death.

An individual legally separated from his spouse under a decree of divorce or of separate maintenance shall not be considered as married. However, the mere fact that spouses have not lived together during the course of the taxable year shall not prohibit them from making a joint return. A husband and wife who are separated under an interlocutory decree of divorce retain the relationship of husband and wife until the decree becomes final. The fact that the taxpayer and his spouse are divorced or legally separated at any time after the close of the taxable year shall not deprive them

of their right to file a joint return for such taxable year under section 6013.

(b) *Computation of income, deductions, and tax.* If a joint return is made, the gross income and adjusted gross income of husband and wife on the joint return are computed in an aggregate amount and the deductions allowed and the taxable income are likewise computed on an aggregate basis. Deductions limited to a percentage of the adjusted gross income, such as the deduction for charitable, etc., contributions and gifts, under section 170, will be allowed with reference to such aggregate adjusted gross income. A similar rule is applied in the case of the limitation of section 1211 (b) on the allowance of losses resulting from the sale or exchange of capital assets (see § 1.1211–1). Although there are two taxpayers on a joint return, there is only one taxable income. The tax on the joint return shall be computed on the aggregate income and the liability with respect to the tax shall be joint and several. For computation of tax on the basis of the splitting of income in the case of a joint return, see § 1.2–1. For tax in the case of a joint return of husband and wife electing to pay the optional tax under section 3, see § 1.3–1 and paragraph (c) of § 1.6014–1. For separate computations of the self-employment tax of each spouse on a joint return, see paragraph (b) of § 1.6017–1.

(c) *Definition of executor or administrator.* For purposes of section 6013 the term "executor or administrator" means the person who is actually appointed to such office and not a person who is merely in charge of the property of the decedent.

§ 1.6014 *Statutory provisions; income tax return—tax not computed by taxpayer.*

SEC. 6014. *Income tax return—tax not computed by taxpayer*—(a) *Election by taxpayer.* An individual entitled to elect to pay the tax imposed by section 3 whose gross income is less than $5,000 and includes no income other than remuneration for services performed by him as an employee, dividends or interest, and whose gross income other than wages, as defined in section 3401 (a), does not exceed $100, shall at his election not be required to show on the return the tax imposed by section 1. Such election shall be made by using the form prescribed for purposes of this section and shall constitute an election to pay the tax imposed by section 3. In such case the tax shall be computed by the Secretary or his delegate who shall mail to the taxpayer a notice stating the amount determined as payable. In determining the amount payable, the credit against such tax provided for by section 34 or 37 shall not be allowed. In the case of a head of household (as defined in section 1 (b)) or a surviving spouse (as defined in section 2 (b)) electing the benefits of this subsection, the tax shall be computed by the Secretary or his delegate without regard to the taxpayer's status as a head of household or as a surviving spouse.

(b) *Regulations.* The Secretary or his delegate shall perscribe regulations for carrying out this section, and such regulations may provide for the application of the rules of this section to cases where the gross income includes items other than those enumerated by subsection (a), to cases where the gross income from sources other than wages on which the tax has been withheld at the source is more than $100 but not more than $200, and to cases where the gross income is $5,000 or more but not more than $5,200. Such regulations shall provide for the application of this section in the case of husband and wife, including provisions determining when a joint return under this section may be permitted or required, whether the liability shall be joint and several, and whether one spouse may make return under this section and the other without regard to this section.

§ 1.6014–1 *Tax not computed by taxpayer with gross income less than $5,000*—(a) *In general.* If an individual is entitled under § 1.6012–1 (a) (7) to use as his return Form 1040A, he may elect not to show thereon the amount of the tax due in connection with such return if his gross income is less than $5,000.

(b) *Computation and payment of tax.* A taxpayer who, in accordance with paragraph (a) of this section, elects not to show the tax on Form 1040A is not required to pay the unpaid balance of such tax at the time he files the return. In such case, the tax will be computed for the taxpayer by the Internal Revenue Service, and a notice will be mailed to the taxpayer stating the amount of tax due. Where it is determined that a refund of tax is due, the Internal Revenue Service will send such refund to the taxpayer. See paragraph (c) of § 301.6402–3 of this chapter.

(c) *Joint return.* (1) A husband and wife who, pursuant to § 1.6012–1 (a) (7), file a joint return on Form 1040A may elect not to show the tax on such return if their aggregate gross income for the taxable year is less than $5,000.

(2) The tax computed for the taxpayer who files Form 1040A and elects not to show thereon the tax due shall be the lesser of the following amounts:

(i) A tax computed as though the return on Form 1040A constituted the separate returns of the spouses, or

(ii) A tax computed as though the return on Form 1040A constituted a joint return.

§ 1.6017 *Statutory provisions; self-employment tax returns.*

SEC. 6017. *Self-employment tax returns.* Every individual (other than a nonresident alien individual) having net earnings from self-employment of $400 or more for the taxable year shall make a return with respect to the self-employment tax imposed by chapter 2. In the case of a husband and wife filing a joint return under section 6013, the tax imposed by chapter 2 shall not be computed on the aggregate income but shall be the sum of the taxes computed under such chapter on the separate self-employment income of each spouse.

§ 1.6017–1 *Self-employment tax returns*—(a) *In general.* Every individual, other than a nonresident alien, having net earnings from self-employment, as defined in section 1402, of $400 or more for the taxable year shall make a return of such earnings. Except as otherwise provided in this section, such return shall be made on Form 1040 in accordance with the instructions issued with respect to such form. The form to be used by residents of the Virgin Islands is Form 1040 V. I. Residents of Puerto Rico who are required to make a return of income under section 6012 (a) shall make a return of such income and earnings from self-employment on Form 1040. Residents of Puerto Rico who are not required to make a return of income under section 6012 (a) but are required to make a return of self-employment tax shall make such return on Form 1040 P. R. For purposes of this section, an individual who is a resident of the Virgin Islands or of Puerto Rico is not to be considered a nonresident alien individual. See § 1.1402 (b)–1. Provisions applicable to returns under section 6013 (a) shall be applicable to returns under this section. A return is required under this section if an individual has self-employment income, as defined in section 1402 (b), even though he may not be required to make a return under section 6012 for purposes of the tax imposed by section 1 or 3.

(b) *Joint returns.* (1) In the case of a husband and wife filing a joint return under section 6013, the tax on self-employment income is computed on the separate self-employment income of each spouse, and not on the aggregate of the two amounts. The requirement of section 6013 (d) (3) that in the case of a joint return the tax is computed on the aggregate income of the spouses is not applicable with respect to the tax on self-employment income. Where the husband and wife each has net earnings from self-employment of $400 or more, it will be necessay for each to complete separate schedules of the computation of self-employment tax with respect to the net earnings of each spouse, despite the fact that a joint return is filed. If the net earnings from self-employment of either the husband or the wife are less than $400, such net earnings are not subject to the tax on self-employment income, even though they must be shown on the joint return for purposes of the tax imposed by section 1 or 3.

(2) Except as otherwise expressly provided, section 6013 is applicable to the return of the tax on self-employment income; therefore, the liability with respect to such tax in the case of a joint return is joint and several.

(c) *Social security account numbers.* Every individual making a return of net earnings from self-employment is required to show thereon his social security account number, or, if he has no such account number, to make application therefor on Form SS–5 before filing such return. However, the failure to apply for or receive a social security account number will not excuse the individual from the requirement that he file such return on or before the due date thereof. Form SS–5 may be obtained from any district office of the Social Security Administration or from any district director of internal revenue. The application on Form SS–5 shall be filed with the district office of the Social Security Administration nearest the legal residence or principal place of business of such individual, or if he has no legal residence or principal place of business within the United States, Puerto Rico, or the Virgin Islands, with the office of the Social Security Administration at Baltimore, Maryland. An individual who has previously secured a social security account number as an employee shall use that account number on his return of net earnings from self-employment.

§ 1.6031 *Statutory provisions; return of partnership income.*

SEC. 6031. *Return of partnership income.* Every partnership (as defined in section 761 (a)) shall make a return for each taxable year, stating specifically the items of its gross income and the deductions allowable by subtitle A, and such other information for the purpose of carrying out the provisions of subtitle A as the Secretary or his delegate may by forms and regulations prescribe, and shall include in the return the names and addresses of the individuals who would be entitled to share in the taxable income if distributed and the amount of the distributive share of each individual.

§ 1.6031–1 *Return of partnership income*—(a) *In general.* Except as provided in paragraphs (b) and (d) of this section with respect to certain organizations excluded from the application of subchapter K of chapter 1 of the Code and certain partnerships having no United States business, an unincorporated organization defined as a partnership in section 761 (a), through or by means of which any business, financial operation, or venture is carried on, shall make a return for each taxable year on Form 1065. For purposes of filing a partnership return, an unincorporated organization will not be considered, within the meaning of section 761 (a), to carry on a business, financial operation, or venture as a partnership before the first taxable year in which such organization receives income or makes or incurs any expenditures treated as deductions for Federal income tax purposes. Such return shall state specifically the items of partnership gross income and the deductions allowable by subtitle A of the Code and shall include the names and addresses of all the partners and the amount of the distributive shares of income, gain, loss, deduction, or credit allocated to each partner. Such return shall be made for the taxable year of the partnership, irrespective of the taxable years of the partners. For taxable years of a partnership and of a partner, see section 706 and § 1.706–1. For signing of a partnership return, see § 1.6063–1.

(b) *Unincorporated organizations excluded from the application of subchapter K*—(1) *Wholly excluded.* (i) Any unincorporated organization with respect to which under section 761 (a) an election to be excluded from all the provisions of subchapter K of chapter 1 of the Code has been made shall file Form 1065 for the first year with respect to which such an election has been made, and such return shall contain in lieu of the information therein required only the name, or other identification, and the address of the organization. See section 761 and paragraph (a) (2) (iv) of § 1.761–1.

(ii) For each subsequent calendar year or portion thereof for which it is wholly excluded from the application of subchapter K of chapter 1 of the Code such an unincorporated organization shall file Form 1096 for the organization and Form 1099 for each person who was a member of the organization during any part of the calendar year. See section 761 and paragraph (a) (2) (v) (*a*) of § 1.761–1.

(2) *Partially excluded.* Any unincorporated organization excluded from the application of part of subchapter K of chapter 1 of the Code shall file a return on Form 1065 containing such information as the Commissioner may require. See section 761 and paragraph (a) (2) (v) (b) of § 1.761–1.

(c) *Partnerships having business or source of income within the United States.* Every partnership engaged in trade or business, or having income from sources, within the United States shall file a partnership return in accordance with this section, whether or not its principal place of business is outside of the United States, and whether or not all its members are nonresident aliens.

(d) *Partnerships having no United States business*—(1) *No return required from partnership.* A partnership carrying on no business in the United States and deriving no income from sources within the United States need not file a partnership return.

(2) *Returns of information with respect to partnership required of citizen or resident partners.* Where a United States citizen or resident is a partner in a partnership described in subparagraph (1) of this paragraph which is not required to file a partnership return, the district director with whom such person files his separate return may require such person to render such statements or provide such information as is necessary to show whether or not such person is liable for tax on income derived from such partnership. In addition, if an election in accordance with the provisions of section 703 (relating to elections affecting the computation of taxable income derived from a partnership) or section 761 (relating to the election to be excluded from the application of all or part of subchapter K of chapter 1 of the Code) is to be made by or for the partnership, a return on Form 1065 shall be filed for such partnership. See section 6063 and § 1.6063–1, relating to the authority of a partner to sign a partnership return. The filing of one such return for a taxable year of the partnership by a citizen or resident partner shall constitute a filing for the partnership of such partnership return.

(e) *Place and time for filing returns*—(1) *Place for filing.* The returns of partnerships doing business, or having income from sources, within the United States shall be filed with the district director for the internal revenue district in which the partnership has its principal office or principal place of business within the United States. If such partnership has no office, place of business, or agency within the United States, the return shall be filed with the Director, International Operations Division, Internal Revenue Service, Washington 25, D. C. A partnership return filed under the authority of paragraph (d) (2) of this section shall be filed with the internal revenue officer with whom the citizen or resident partner files his separate income tax return.

(2) *Time for filing.* The return of a partnership shall be filed on or before the fifteenth day of the fourth month following the close of the taxable year of the partnership, except that the return of a partnership consisting entirely of nonresident aliens shall be filed on or before the fifteenth day of the sixth month following the close of the taxable year of the partnership.

§ 1.6032 *Statutory provisions; returns of banks with respect to common trust funds.*

SEC. 6032. *Returns of banks with respect to common trust funds.* Every bank (as defined in section 581) maintaining a common trust fund shall make a return for each taxable year, stating specifically, with respect to such fund, the items of gross income and the deductions allowed by subtitle A, and shall include in the return the names and addresses of the participants who would be entitled to share in the taxable income if distributed and the amount of the proportionate share of each participant. The return shall be executed in the same manner as a return made by a corporation pursuant to the requirements of sections 6012 and 6062.

§ 1.6032–1 *Returns of banks with respect to common trust funds.* Every bank (as defined in section 581) maintaining a common trust fund shall make a return of income of the common trust fund, regardless of the amount of its taxable income. If a bank maintains more than one common trust fund, a separate return shall be made for each. No particular form is prescribed for making the return under this section, but Form 1065 may be used if it is designated by the bank as the return of a common trust fund. The return shall be made for the taxable year of the common trust fund and shall be filed on or before the fifteenth day of the fourth month following the close of such taxable year with the district director for the district in which the income tax return of the bank is filed. Such return shall state specifically with respect to the fund the items of gross income and the deductions allowed by subtitle A of the Code, and shall include each participant's name and address, the participant's proportionate share of taxable income or net loss (exclusive of gains and losses from sales or exchanges of capital assets), and the participant's proportionate share of gains and losses from sales or exchanges of capital assets. See § 1.584–2. A copy of the plan of the common trust fund must be filed with the return. If, however, a copy of such plan has once been filed with a return, it need not again be filed if the return contains a statement showing when and where it was filed. If the plan is amended in any way after such copy has been filed, a copy of the amendment must be filed with the return for the taxable year in which the amendment was made. For the signing of a return of a bank with respect to common trust funds, see § 1.6062–1, relating to the manner prescribed for the signing of a return of a corporation.

NOTE: Sections 1.6033 and 1.6033–1 have been issued as a part of Treasury Decision 6203, approved September 13, 1956, and Treasury Decision 6301, approved July 2, 1958.

§ 1.6034 *Statutory provisions; returns by trusts claiming charitable deductions under section 642 (c).*

SEC. 6034. *Returns by trusts claiming charitable deductions under section 642 (c)*—(a) *General rule.* Every trust claiming a charitable, etc., deduction under section 642 (c) for the taxable year shall furnish such information with respect to such taxable year as the Secretary or his delegate may by forms or regulations prescribe, setting forth—

(1) The amount of the charitable, etc., deduction taken under section 642 (c) within such year (showing separately the amount of such deduction which was paid out and the amount which was permanently set aside for charitable, etc., purposes during such year),

(2) The amount paid out within such year which represents amounts for which charitable, etc., deductions under section 642 (c) have been taken in prior years,

(3) The amount for which charitable, etc., deductions have been taken in prior years but which has not been paid out at the beginning of such year,

(4) The amount paid out of principal in the current and prior years for charitable, etc., purposes,

(5) The total income of the trust within such year and the expense attributable thereto, and

(6) A balance sheet showing the assets, liabilities, and net worth of the trust as of the beginning of such year.

(b) *Exception.* This section shall not apply in the case of a taxable year if all the net income for such year, determined under the applicable principles of the law of trusts, is required to be distributed currently to the beneficiaries.

§ 1.6034–1 *Information returns required of certain trusts claiming charitable or other deductions under section 642 (c)*—(a) *In general.* Every trust (other than a trust described in paragraph (b) of this section) claiming a charitable or other deduction under section 642 (c) shall file, with respect to the taxable year for which such deduction is claimed, a return of information on Form 1041A. The return shall set forth the name and address of the trust and the following information concerning the trust in such detail as is prescribed by the form or in the instructions issued with respect to such form:

(1) The amount of the charitable or other deduction taken under section 642 (c) for the taxable year, showing separately for each class of activity for which disbursements were made (or amounts were permanently set aside) the amounts which, during such year, were paid out (or which were permanently set aside) for charitable or other purposes under section 642 (c);

(2) The amount paid out during the taxable year which represents amounts permanently set aside in prior years for which charitable or other deductions have been taken under section 642 (c), and separately listing for each class of activity, for which disbursements were made, the total amount paid out;

(3) The amount for which charitable or other deductions have been taken in prior years under section 642 (c) and which had not been paid out at the beginning of the taxable year;

(4) (i) The amount paid out of principal in the taxable year for charitable, etc., purposes, and separately listing for each such class of activity, for which disbursements were made, the total amount paid out;

(ii) The total amount paid out of principal in prior years for charitable, etc., purposes;

(5) The gross income of the trust for the taxable year and the expenses attributable thereto, in sufficient detail to show the different categories of income and of expense; and

(6) A balance sheet showing the assets, liabilities, and net worth of the trust as of the beginning of the taxable year.

(b) *Exception.* A trust is not required to file a Form 1041A for any taxable year with respect to which the trustee is required by the terms of the governing instrument and applicable local law to distribute currently all of the income of the trust. For this purpose, the income of the trust shall be determined in accordance with section 643 (b) and §§ 1.643 (b)–1 and 1.643 (b)–2.

(c) *Time and place for filing return.* The return on Form 1041A shall be filed on or before the fifteenth day of the fourth month following the close of the taxable year of the trust, with the internal revenue officer with whom the fiduciary files the return on Form 1041 for such trust.

(d) *Other provisions.* For publicity of information on Form 1041A, see section 6104 and the regulations thereunder in Part 301 of this chapter. For the criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203, 7206, and 7207.

§ 1.6035 *Statutory provisions; returns of officers, directors, and shareholders of foreign personal holding companies.*

SEC. 6035. *Returns of officers, directors, and shareholders of foreign personal holding companies*—(a) *Officers and directors*—(1) *Monthly returns.* On the 15th day of each month each individual who on such day is an officer or a director of a foreign corporation which, with respect to its taxable year preceding the taxable year in which such month occurs, was a foreign personal holding company (as defined in section 552), shall make a return setting forth with respect to the preceding calendar month the name and address of each shareholder, the class and number of shares held by each, together with any changes in stockholdings during such period, the name and address of any holder of securities convertible into stock of such corporation, and such other information with respect to the stock and securities of the corporation as the Secretary or his delegate shall by forms or regulations prescribe as necessary for carrying out the provisions of this title. The Secretary or his delegate may by regulations prescribe, as the period with respect to which returns shall be made, a longer period than a month. In such case the return shall be due on the 15th day of the succeeding period, and shall be made by the individuals who on such day are officers or directors of the corporation.

(2) *Annual returns.* On the 60th day after the close of the taxable year of a foreign personal holding company (as defined in section 552), each individual who on such 60th day is an officer or director of the corporation shall make a return setting forth—

(A) In complete detail the gross income, deductions and credits, taxable income, and undistributed foreign personal holding company income of such foreign personal holding company for such taxable year; and

(B) The same information with respect to such taxable year as is required in paragraph (1), except that if all the required returns with respect to such year have been filed under paragraph (1), no information under this subparagraph need be set forth in the return filed under this paragraph.

(b) *Shareholders*—(1) *Monthly returns.* On the 15th day of each month each United States shareholder, by or for whom 50 percent or more in value of the outstanding stock of a foreign corporation is owned directly or indirectly (including, in the case of an individual, stock owned by the members of his family as defined in section 544 (a) (2)), if such foreign corporation with respect to its taxable year preceding the taxable year in which such month occurs was a foreign personal holding company (as defined in section 552), shall make a return setting forth with respect to the preceding calendar month the name and address of each shareholder, the class and number of shares held by each, together with any changes in stockholdings during such period, the name and address of any holder of securities convertible into stock of such corporation, and such other information with respect to the stock and securities of the corporation as the Secretary or his delegate shall by forms or regulations prescribe as necessary for carrying out the provisions of this title. The Secretary or his delegate may by regulations prescribe, as the period with respect to which returns shall be made, a longer period than a month. In such case the return shall be due on the 15th day of the succeeding period, and shall be made by the persons who on such day are United States shareholders.

(2) *Annual returns.* On the 60th day after the close of the taxable year of a foreign personal holding company (as defined in section 552) each United States shareholder by or for whom on such 60th day 50 percent or more in value of the outstanding stock of such company is owned directly or indirectly (including, in the case of an individual, stock owned by members of his family as defined in section 544 (a) (2)) shall make a return setting forth the same information with respect to such taxable year as is required in paragraph (1), except that, if all the required returns with respect to such year have been made under paragraph (1), no return shall be required under this paragraph.

§ 1.6035–1 *Returns of officers and directors of foreign personal holding companies*—(a) *Requirement of returns*—(1) *Form 957.* On the fifteenth day of the first month after the close of each taxable year of a foreign personal holding company (as defined in section 552) each United States citizen or resident who on such day is an officer or director of such company shall file an information return on Form 957 with respect to the stock and securities of the company setting forth the following information with respect to the taxable year:

(i) The name and address of the corporation;

(ii) The kind of business in which the corporation is engaged;

(iii) The date of incorporation;

(iv) The country under the laws of which the corporation is incorporated;

(v) The number of shares and par value of common stock of the corporation outstanding as of the beginning and end of the taxable year;

(vi) The number of shares and par value of preferred stock of the corporation outstanding as of the beginning and end of the taxable year, the rate of dividend on such stock, and whether such dividend is cumulative or noncumulative;

(vii) A description of the convertible securities issued by the corporation, including a statement of the face value of, and rate of interest on, such securities;

(viii) The name and address of each person who was a shareholder during the taxable year and the class and number of shares held by each, together with an explanation of any changes in stockholdings during the taxable year;

(ix) The name and address of each holder during the taxable year of securities convertible into stock of the corporation, and the class, number, and face value of the securities held by each, together with an explanation of any changes in the holdings of such securities during the taxable year;

(x) If any resolution or plan in respect of the dissolution of the corporation or the liquidation of the whole or any part of its capital stock was adopted during the taxable year, a certified copy of such resolution or plan and of any amendments thereof or supplements thereto;

(xi) If the return is for any taxable year beginning after December 31, 1957, in which the corporation was organized or reorganized—

(a) The classes and kinds of assets transferred to the corporation for stock or securities of the corporation in connection with its formation, organization, or reorganization;

(b) A detailed list of any stock or securities included in the assets transferred to the corporation for stock or securities of the corporation; and

(c) The names and addresses of the persons who were the owners of assets transferred to the corporation for stock or securities of the corporation immediately prior to such transfer; and

(xii) Such other information with respect to the stock or securities of the company as may be required by the return form.

(2) *Form 958.* On the sixtieth day after the close of the taxable year of a foreign personal holding company (as defined in section 552), each United States citizen or resident who on such day is an officer or director of such company shall file an information return on Form 958 with respect to the income of the corporation for the taxable year setting forth the following information:

(i) The gross income, deductions and credits, taxable income, foreign personal holding company income, and undistributed foreign personal holding company income for such taxable year, in complete detail;

(ii) The same information with respect to such taxable year as is required in subparagraph (1) of this paragraph, except that if all the information required under subparagraph (1) of this paragraph has been submitted, such information need not be set forth in the return on Form 958; and

(iii) Such other information as is required by the return form.

(b) *Returns jointly made.* If two or more officers or directors of a foreign personal holding company are required to file information returns for any taxable year under section 6035 (a) and this section, any two or more of such officers or directors may, in lieu of filing separate returns for such year, jointly execute and file the return on Form 957 and the return on Form 958.

(c) *Separate returns for each corporation.* If a person is required to file returns under section 6035 (a) and this section with respect to more than one foreign personal holding company, separate returns must be filed with respect to each company.

(d) *Place for filing returns.* Returns required under section 6035 (a) and this section shall be filed with the Director, International Operations Division, Internal Revenue Service, Washington 25, D. C.

(e) *Penalties.* For criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203, 7206, and 7207.

§ 1.6035–2 *Returns of shareholders of foreign personal holding companies*—(a) *Requirement of return.* On the fifteenth day of the first month after the close of each taxable year of a foreign personal holding company (as defined in section 552) each United States shareholder, by or for whom on such day 50 percent or more in value of the outstanding stock of such company is owned directly or indirectly, shall file an information return on Form 957 for such taxable year. For purposes of this section, an individual shall be considered as owning the stock owned by members of his family, as described in section 544 (a) (2).

(b) *Duplicate returns.* If a shareholder of a foreign personal holding company is required to file a return as an officer or a director of such company under section 6035 (a) and paragraph (a) (1) of § 1.6035–1, he shall file such return and not the return required to be filed under section 6035 (b) and this section.

(c) *Separate return for each corporation.* If a person is required to file a return under section 6035 (b) and this section with respect to more than one foreign personal holding company, a separate return must be filed with respect to each company.

(d) *Place for filing return.* The return required under section 6035 (b) and this section shall be filed with the Director, International Operations Division, Internal Revenue Service, Washington 25, D. C.

(e) *Penalties.* For criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203, 7206, and 7207.

§ 1.6041 *Statutory provisions; information at source.*

SEC. 6041. *Information at source*—(a) *Payments of $600 or more.* All persons engaged in a trade or business and making payment in the course of such trade or business to another person, of rent, salaries, wages, premiums, annuities, compensations, remunerations, emoluments, or other fixed or determinable gains, profits, and income (other than payments described in section 6042 (1) or section 6045), of $600 or more in any taxable year, or, in the case of such payments made by the United States, the officers or employees of the United States having information as to such payments and required to make returns in regard thereto by the regulations hereinafter provided for, shall render a true and accurate return to the Secretary or his delegate, under such regulations and in such form and manner and to such extent as may be prescribed by the Secretary or his delegate, setting forth the amount of such gains, profits, and income, and the name and address of the recipient of such payment.

(b) *Collection of foreign items.* In the case of collections of items (not payable in the United States) of interest upon the bonds of foreign countries and interest upon the bonds of and dividends from foreign corporations by any person undertaking as a matter of business or for profit the collection of foreign payments of such interest or dividends by means of coupons, checks, or bills of exchange, such person shall make a return according to the forms or regulations prescribed by the Secretary or his delegate, setting forth the amount paid and the name and address of the recipient of each such payment.

(c) *Payments of interest by corporations.* Every corporation making payments of interest, regardless of amounts, shall, when required by regulations of the Secretary or his delegate, make a return according to the forms or regulations prescribed by the Secretary or his delegate, setting forth the amount paid and the name and address of the recipient of each such payment.

(d) *Recipient to furnish name and address.* When necessary to make effective the provisions of this section, the name and address of the recipient of income shall be furnished upon demand of the person paying the income.

§ 1.6041–1 *Return of information as to payments of $600 or more*—(a) *General rule.* (1) Except as provided in § 1.6041–3, every person engaged in a trade or business shall make an information return for the calendar year with respect to payments made by him during such year in the course of his trade or business to another person of fixed or determinable—

(i) Salaries, wages, commissions, fees, and other forms of compensation for services rendered aggregating $600 or more;

(ii) Interest, rents, royalties, annuities, pensions, and other gains, profits, and income aggregating $600 or more; or

(iii) Foreign items, as defined in § 1.6041–4, aggregating $600 or more.

The payments described in subdivisions (i), (ii), and (iii) of this subparagraph shall not include any payments described in sections 6042 (1), 6043 (2), 6044, and 6045.

(2) The return required by this paragraph shall be made on Forms 1099 and 1096 except that the return with respect to distributions to beneficiaries of a trust or of an estate shall be made on Form 1041. A separate Form 1099 shall be furnished for each person to whom such payments of $600 or more are made. For time and place for filing Forms 1099 and 1096, see § 1.6041–6.

(b) *Persons engaged in trade or business.* The term "all persons engaged in a trade or business", as used in section 6041 (a), includes not only those so engaged for gain or profit, but also organizations the activities of which are not for the purpose of gain or profit. Thus, the term includes the organizations referred to in sections 401 (a), 501 (c), 501

(d) and 521 and in paragraph (g) of this section. On the other hand, section 6041 (a) applies only to payments in the course of trade or business; hence it does not apply to an amount paid by the proprietor of a business to a physician for medical services rendered by the physician to the proprietor's child.

(c) *Fixed or determinable income.* Income is fixed when it is to be paid in amounts definitely predetermined. Income is determinable whenever there is a basis of calculation by which the amount to be paid may be ascertained. The income need not be paid annually or at regular intervals. The fact that the payments may be increased or decreased in accordance with the happening of an event does not for purposes of this section make the payments any the less determinable. A salesman working by the month for a commission on sales which is paid or credited monthly receives determinable income.

(d) *Payments specifically included.* (1) Sums paid in respect of life insurance, endowment, or annuity contracts which are required to be included in gross income under section 72 or 101, relating to annuities and certain death benefits, are required to be reported in returns of information, except that payments in respect of policies surrendered before maturity and lapsed policies which were purchased by individuals in their own behalf directly from insurers need not be reported.

(2) Fees for professional services paid to attorneys, physicians, and members of other professions are required to be reported in returns of information if paid by persons engaged in a trade or business and paid in the course of such trade or business.

(3) Amounts paid as prizes and awards which are required to be included in gross income under section 74 and § 1.74–1 when paid in the course of a trade or business shall be reported in returns of information.

(e) *Payment made in medium other than cash.* If any payment required to be reported on Form 1099 is made in property other than money, the fair market value of the property at the time of payment is the amount to be included on such form.

(f) *When payment deemed made.* For purposes of a return of information, an amount is deemed to have been paid when it is credited or set apart to a person without any substantial limitation or restriction as to the time or manner of payment or condition upon which payment is to be made, and is made available to him so that it may be drawn at any time, and its receipt brought within his own control and disposition.

(g) *Payments made by United States, State, or Territory.* Returns on Forms 1099 and 1096 of payments made by the United States, or a State, Territory, or political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any one or more of the foregoing, shall be made by the officer or employee of the United States, or of such State, Territory, or political subdivision, or of the District of Columbia, or of such agency or instrumentality, as the case may be, having control of such payments or by the officer or employee appropriately designated to make such returns.

§ 1.6041–2 *Return of information as to payments to employees*—(a) *In general.* Wages, as defined in section 3401, paid to an employee are required to be reported on Form W–2. All other payments of compensation, including the cash value of payments made in any medium other than cash, to an employee by his employer in the course of the trade or business of the employer must be reported on Form 1099 if the total of such payments and the amount of the employee's wages, if any, required to be reported on Form W–2 equals $600 or more in a calendar year. For example, if a payment of $700 was made to an employee and $400 thereof represents wages subject to withholding under section 3402 and the remaining $300 represents compensation not subject to withholding, the $400 must be reported on Form W–2 and the $300 must be reported on Form 1099.

(b) *Distributions under employees' trust.* Amounts which are distributed or made available to a beneficiary, and to which section 402 (relating to employees' trusts) or section 403 (relating to employee annuity plans) applies, shall be reported on Forms 1099 and 1096 to the extent such amounts are includible in the gross income of such beneficiary when the amounts so includible are $600 or more in any calendar year.

§ 1.6041–3 *Payments for which no return of information on Forms 1099 and 1096 is required.* Payments of the following character need not be reported on Forms 1099 and 1096—

(a) Payments of income required to be reported on Forms 1012, 1013, 1042, 1042S, 1000, 1001 (including all special variations thereof), 941, W–2, and W–3;

(b) Payments by a broker to his customer;

(c) Payments of any type made to corporations (except payments described in section 6044 and § 1.6044–1);

(d) Payments of bills for merchandise, telegrams, telephone, freight, storage, and similar charges;

(e) Payments of rent made to real estate agents (but the agent is subject to the requirements of paragraph (a) (1) (ii) of § 1.6041–1);

(f) Payments representing earned income for services rendered without the United States made to a citizen of the United States, if it is reasonable to believe that such amounts will be excluded from gross income under the provisions of section 911 and the regulations thereunder;

(g) Salaries and profits paid or distributed by a partnership to the individual partners;

(h) Payments of commissions to general agents by fire insurance companies or other companies insuring property, except when specifically directed by the Commissioner to be filed;

(i) Amounts paid to persons in the military or civil service of the United States or a State, Territory or political subdivision thereof, or the District of Columbia as an allowance or reimbursement for traveling or other bona fide ordinary and necessary expenses, including an allowance for meals and lodging or a per diem allowance in lieu of subsistence;

(j) Payments of interest on obligations of the United States, or a State, Territory, or political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any one or more of the foregoing (but for requirements for reporting certain such payments by the United States or any agency or instrumentality thereof, see §§ 1.1461–1 to 1.1461–3, inclusive);

(k) Payments of interest on corporate bonds (but for requirements for reporting payments of interest on bonds, mortgages, deeds of trust, or other similar obligations issued before January 1, 1934, and containing a tax-free covenant, see §§1.1461–1 to 1.1461–3, inclusive);

(l) Payments made to employees for services performed in Puerto Rico;

(m) Amounts paid to persons in the service of an international organization as defined in section 7701 (a) (18), as an allowance or reimbursement for traveling or other bona fide ordinary and necessary expenses, including an allowance for meals and lodging or a per diem allowance in lieu of subsistence; and

(n) A payment of a type determined by the Commissioner to be paid as an award to an informer or other payment of a similar character made by the United States, a State, Territory, or political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any one or more of the foregoing.

§ 1.6041–4 *Returns of information as to foreign items*—(a) *In general.* If the amount of foreign items, as defined in paragraph (b) of this section, paid in any calendar year to a citizen or resident of the United States (individual or fiduciary), or a partnership any member of which is a citizen or resident of the United States, is $600 or more, an information return on Form 1099 setting forth the amount of such items is required to be filed by any person who accepts the item for collection as a matter of business or for profit, such as a bank. As used in this section, the term "collection" includes (1) payment of the foreign item in cash; (2) the crediting of the account of the person presenting the foreign item; (3) the tentative crediting of the account of the person presenting the foreign item until the amount of the foreign item is received by the bank or collecting agent from abroad; and (4) the receipt of foreign items for the purpose of transmitting them abroad for deposits.

(b) *Foreign items defined.* The term "foreign items", as used in this section, means any item of interest upon the bonds of a foreign country or of a nonresident foreign corporation not having a fiscal or paying agent in the United States (including Puerto Rico as if a part of the United States), or any item of dividends upon the stock of such corporation.

(c) *License to collect foreign items.* A bank or agent collecting foreign items is required to obtain a license pursuant to the provisions of section 7001 and the regulations thereunder in Part 301 of this chapter.

§ 1.6041–5 *Information as to actual owner.* When a person receiving a payment described in section 6041 is not the actual owner of the income received, the name and address of the actual owner shall be furnished upon demand of the person paying the income, and in default of compliance with such demand the payee becomes liable for the penalties provided. See section 7203.

§ 1.6041–6 *Time and place for filing Forms 1099 and 1096 and information to be shown on Form 1099.* Forms 1099 and 1096 for any calendar year shall be filed on or before February 28 of the following year with any of the Internal Revenue Service Centers, the addresses of which are listed in the instructions for such forms. The name and address of the person making the payment and the name and address of the recipient of the payment shall be stated on Form 1099. If the present address of the recipient is not available, the last known post office address must be given.

§ 1.6042 *Statutory provisions; returns regarding corporate dividends, earnings, and profits.*

SEC. 6042. *Returns regarding corporate dividends, earnings, and profits.* Every corporation shall, when required by the Secretary or his delegate—

(1) Make a return of its payments of dividends, stating the name and address of, the number of shares owned by, and the amount of dividends paid to, each shareholder;

(2) Furnish to the Secretary or his delegate a statement of such facts as will enable him to determine the portion of the earnings or profits of the corporation (including gains, profits, and income not taxed) accumulated during such periods as the Secretary or his delegate may specify, which have been distributed or ordered to be distributed, respectively, to its shareholders during such taxable years as the Secretary or his delegate may specify; and

(3) Furnish to the Secretary or his delegate a statement of its accumulated earnings and profits and the names and addresses of the individuals or shareholders who would be entitled to such accumulated earnings and profits if divided or distributed, and of the amounts that would be payable to each.

§ 1.6042–1 *Return of information as to payment of dividends*—(a) *Requirement of return*—(1) *In general.* Except as provided in subparagraphs (2) and (3) of this paragraph, every domestic corporation, or foreign corporation engaged in business within the United States or having an office or place of business or a fiscal or paying agent in the United States, making payments during the calendar year of $10 or more of dividends and distributions (other than distributions in liquidation) to any shareholder who is an individual (citizen or resident of the United States), a resident fiduciary, or a resident partnership any member of which is a citizen or resident shall file for the calendar year a return setting forth the amount of such payments for such calendar year. A separate return on Form 1099, showing the name and address of the payor and the shareholder, and the amount paid, shall be prepared with respect to each shareholder. These returns shall be accompanied by transmittal Form 1096.

(2) *National farm loan associations and certain other corporations.* A corporation described in section 501 (c) (12), (15), or (16), or section 521 (b) (1), or a national farm loan association or a production credit association, making a payment of a dividend or a distribution to any shareholder shall file an information return with respect to such payments when they total $100 or more during the calendar year.

(3) *Savings and loan associations, etc.* A savings and loan association, a cooperative bank, a homestead association, a credit union, or a building and loan association is required to file an information return with respect to distributions to a shareholder only if the amount thereof paid to the shareholder during the calendar year, or such amount when aggregated with other payments made to the shareholder during such year of interest, rents, royalties, annuities, pensions, and other gains, profits, and income, as described in paragraph (a) (1) (ii) of § 1.6041–1, totals $600 or more. For this purpose, the term "distributions to a shareholder" includes periodical distributions of earnings on running installment shares of stock paid or credited by a building and loan association to its holders of that class of stock, and the sum received upon withdrawal from a building and loan association in excess of the amounts paid in on account of membership fees and stock subscriptions, consisting of accumulated profits.

(b) *Nontaxable or partly nontaxable distributions.* In the case of a distribution which is made from a depletion or depreciation reserve, or which for any other reason is deemed by the corporation to be nontaxable or partly nontaxable to its shareholders, the corporation shall fill in the information on both sides of Form 1096.

(c) *Information as to actual owner*—(1) *In general.* When the person receiving a payment with respect to which an information return is required under authority of the Internal Revenue Code of 1954 is not the actual owner of the income received, the name and address of the actual owner or payee shall be furnished upon demand of the person paying the income, and in default of a compliance with such demand the payee becomes liable for the penalties provided. See section 7203. Dividends on stock are prima facie the income of the record owner of the stock. If a record owner of stock who is not the actual owner thereof receives dividends on such stock, he shall file a Form 1087 disclosing the name and address of the actual owner or payee, the name of the issuing corporation, the number of shares of such stock, and the amount of dividends received with respect to such stock during the calendar year. Unless such a disclosure is made the record owner will be held liable for any tax based upon such dividends. A separate Form 1087 shall be filed by the record owner for each of the stockholdings of each actual owner for whom he acts as nominee. However, where the record owner is a banking institution, trust company, or brokerage firm, it may, provided it maintains such records as will permit a prompt substantiation of each payment of dividends made to the actual owner, file one Form 1087 for each actual owner for whom it acts as nominee and report thereon the total amount of the dividends paid to such actual owner (without itemization as to the issuing company, class of stock, etc.).

(2) *Exceptions.* The filing of Form 1087 is not required if—

(i) The record owner is required to file a fiduciary return on Form 1041, or a withholding return on Form 1042, disclosing the name and address of the actual owner or payee;

(ii) The actual owner or payee is a nonresident alien individual, foreign partnership, or foreign corporation and the tax has been withheld at the source before receipt of the dividends by the record owner;

(iii) The record owner is a banking institution, a trust company, or a brokerage firm which prepares the individual income tax return of the actual owner, provided the verification on the return with respect to the preparation thereof is executed by such record owner; or

(iv) The record owner is a nominee of a banking institution or trust company exercising trust powers, and such banking institution or trust company is required to file a fiduciary return on Form 1041 which reflects the name and address of the actual owner or payee.

See § 1.1441–1, relating to withholding of tax on nonresident alien individuals, and § 1.1442–1, relating to withholding of tax on nonresident foreign corporations.

(d) *Time and place for filing.* Forms 1099, 1096, and 1087 for any calendar year shall be filed on or before February 28 of the following year with any of the Internal Revenue Service Centers, the addresses of which are listed in the instructions for such forms.

§ 1.6043 *Statutory provisions; return regarding corporate dissolution or liquidation.*

SEC. 6043. *Return regarding corporate dissolution or liquidation.* Every corporation shall—

(1) Within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, make a return setting forth the terms of such resolution or plan and such other information as the Secretary or his delegate shall by forms or regulations prescribe; and

(2) When required by the Secretary or his delegate, make a return regarding its distributions in liquidation, stating the name and address of, the number and class of shares owned by, and the amount paid to, each shareholder, or, if the distribution is in property other than money, the fair market value (as of the date the distribution is made) of the property distributed to each shareholder.

§ 1.6043–1 *Return regarding corporate dissolution or liquidation*—(a) *Requirement of returns.* Within 30 days after the adoption of any resolution or plan for or in respect of the dissolution

of a corporation or the liquidation of the whole or any part of its capital stock, the corporation shall file a return on Form 966, containing the information required by paragraph (b) of this section and by such form. Such return shall be filed with the district director for the district in which the income tax return of the corporation is filed. Further, if after the filing of a Form 966 there is an amendment of or supplement to the resolution or plan, an additional Form 966, based on the resolution or plan as amended or supplemented, must be filed within 30 days after the adoption of such amendment or supplement. A return must be filed under section 6043 and this section in respect of a liquidation whether or not any part of the gain or loss to the shareholders upon the liquidation is recognized under the provisions of section 1002.

(b) *Contents of return*—(1) *In general.* There shall be attached to and made a part of the return required by section 6043 and paragraph (a) of this section a certified copy of the resolution or plan, together with any amendments thereof or supplements thereto, and such return shall in addition contain the following information:

(i) The name and address of the corporation;

(ii) The place and date of incorporation;

(iii) The date of the adoption of the resolution or plan and the dates of any amendments thereof or supplements thereto; and

(iv) The internal revenue district in which the last income tax return of the corporation was filed and the taxable year covered thereby.

(2) *Liquidation within one calendar month.* If the corporation is a domestic corporation, and the plan of liquidation provides for a distribution in complete cancellation or redemption of all the capital stock of the corporation, and for the transfer of all the property of the corporation under the liquidation entirely within some one calendar month pursuant to section 333, and any shareholder claims the benefit of such section, such return shall, in addition to the information required by subparagraph (1) of this paragraph, contain the following:

(i) A statement showing the number of shares of each class of stock outstanding at the time of the adoption of the plan of liquidation, together with a description of the voting power of each such class;

(ii) A list of all the shareholders owning stock at the time of the adoption of the plan of liquidation, together with the number of shares of each class of stock owned by each shareholder, the certificate numbers thereof, and the total number of votes to which entitled on the adoption of the plan of liquidation; and

(iii) A list of all corporate shareholders as of January 1, 1954, together with the number of shares of each class of stock owned by each such shareholder, the certificate numbers thereof, the total number of votes to which entitled on the adoption of the plan of liquidation, and a statement of all changes in ownership of stock by corporate shareholders between January 1, 1954, and the date of the adoption of the plan of liquidation, both dates inclusive.

(3) *Returns in respect of amendments or supplements.* If a return has been filed pursuant to section 6043 and this section, any additional return made necessary by an amendment of or a supplement to the resolution or plan will be deemed sufficient if it gives the date the prior return was filed and contains a duly certified copy of the amendment or supplement and all other information required by this section and by Form 966 which was not given in the prior return.

§ 1.6043–2 *Return of information respecting distributions in liquidation.* (a) Unless the distribution is one in respect of which information is required to be filed pursuant to paragraph (b) of § 1.332–6, paragraph (a) of § 1.368–3, or § 1.1081–11, every corporation making any distribution of $600 or more during a calendar year to any shareholder in liquidation of the whole or any part of its capital stock shall file a return of information on Forms 1096 and 1099L, giving all the information required by such forms and by the regulations in this part. A separate Form 1099L must be prepared for each shareholder to whom such distribution was made, showing the name and address of such shareholder, the number and class of shares owned by him in liquidation of which such distribution was made, and the total amount distributed to him on each class of stock. If the amount distributed to such shareholder on any class of stock consisted in whole or in part of property other than money, the return on such form shall in addition show the amount of money distributed, if any, and shall list separately each class of property other than money distributed, giving a description of the property in each such class and a statement of its fair market value at the time of the distribution. Such forms, accompanied by transmittal Form 1096 showing the number of Forms 1099L filed therewith, shall be filed on or before February 28 of the year following the calendar year in which such distribution was made with any of the Internal Revenue Service Centers, the addresses of which are listed in the instructions for such forms.

(b) If the distribution is in complete liquidation of a domestic corporation pursuant to a plan of liquidation in accordance with which all the capital stock of the corporation is canceled or redeemed, and the transfer of all the property under the liquidation occurs within some one calendar month pursuant to section 333, and any shareholder claims the benefit of such section, the return on Form 1096 shall show (1) the amount of earnings and profits of the corporation accumulated after February 28, 1913, determined as of the close of such calendar month, without diminution by reason of distribution made during such calendar month, but including in such computation all items of income and expense accrued up to the date on which the transfer of all the property under the liquidation is completed, (2) the ratable share of such earnings and profits of each share of stock canceled or redeemed in the liquidation, and (3) the date and circumstances of the acquisition by the corporation of any stock or securities distributed to shareholders in the liquidation.

§ 1.6044 *Statutory provisions; returns regarding patronage dividends.*

SEC. 6044. *Returns regarding patronage dividends*—(a) *Payments of $100 or more.* Any corporation allocating amounts as patronage dividends, rebates, or refunds (whether in cash, merchandise, capital stock, revolving fund certificates, retain certificates, certificates of indebtedness, letters of advice, or in some other manner that discloses to each patron the amount of such dividend, refund, or rebate) shall make a return showing—

(1) The name and address of each patron to whom it has made such allocations amounting to $100 or more during the calendar year; and

(2) The amount of such allocations to each patron.

(b) *Payments regardless of amount.* If required by the Secretary or his delegate, any such corporation shall make a return of all patronage dividends, rebates, or refunds made during the calendar year to its patrons.

(c) *Exceptions.* This section shall not apply in the case of any corporation (including any cooperative or nonprofit corporation engaged in rural electrification) described in section 501 (c) (12) or (15) which is exempt from tax under section 501 (a), or in the case of any corporation subject to a tax imposed by subchapter L of chaper 1.

§ 1.6044–1 *Returns of information as to patronage dividends, rebates, or refunds*—(a) *Requirement*—(1) *In general.* Except as provided in subparagraph (2) of this paragraph, any corporation allocating to any patron amounts aggregating $100 or more during the calendar year as patronage dividends, rebates, or refunds (whether in cash, merchandise, capital stock, revolving fund certificates, retain certificates, letters of advice, or in some other manner that discloses to each patron the amount of such dividend, rebate, or refund) shall for each calendar year file a return of information with respect to such allocation on Forms 1096 and 1099. A separate Form 1099 shall be prepared for each patron showing the name and address of the patron to whom such allocation is made, and the amount of the allocation. The allocation shall be reported for the calendar year during which the allocation is made, regardless to whether the allocation is deemed for the purpose of section 522 to be made at the close of a preceding taxable year of the corporation.

(2) *Exception.* A return under section 6044 and this section is not required in the case of any corporation (including any cooperative or nonprofit corporation engaged in rural electrification) described in section 501 (c) (12) or (15) which is exempt from tax under section 501 (a), or in the case of any corporation subject to a tax imposed by subchapter L of chapter 1 of the Code.

(b) *Time and place for filing returns.* Forms 1099, accompanied by transmittal Form 1096, shall be filed on or before February 28 of the following year with any of the Internal Revenue Service Centers, the addresses of which are listed in the instructions for such forms.

(c) *Definitions.* The terms "cooperative association", "patron", "patronage dividends, rebates, and refunds", and "allocation" are defined, for the purpose of this section, in paragraph (b) of § 1.522–1.

§ 1.6045 *Statutory provisions; returns of brokers.*

SEC. 6045. *Returns of brokers.* Every person doing business as a broker shall, when required by the Secretary or his delegate, make a return, in accordance with such regulations as the Secretary or his delegate may prescribe, showing the names of customers for whom such person has transacted any business, with such details regarding the profits and losses and such other information as the Secretary or his delegate may by forms or regulations require with respect to each customer as will enable the Secretary or his delegate to determine the amount of such profits or losses.

§ 1.6046 *Statutory provisions; returns as to formation or reorganization of foreign corporations.*

SEC. 6046. *Returns as to formation or reorganization of foreign corporations*—(a) *Requirement.* Every attorney, accountant, fiduciary, bank, trust company, financial institution, or other person, who aids, assists, counsels, or advises in, or with respect to, the formation, organization, or reorganization of any foreign corporation, shall, within 30 days thereafter, make a return in accordance with regulations prescribed by the Secretary or his delegate.

(b) *Form and contents of return.* Such return shall be in such form, and shall set forth, in respect of each such corporation, to the full extent of the information within the possession or knowledge or under the control of the person required to make the return, such information as the Secretary or his delegate prescribes by forms or regulations as necessary for carrying out the provisions of the income tax laws.

(c) *Privileged communications.* Nothing in this section shall be construed to require the making of a return by an attorney-at-law with respect to any advice given or information obtained through the relationship of attorney and client.

(d) *Cross reference.* For provisions relating to penalties for violations of this section, see section 7203.

§ 1.6046–1 *Returns as to formation or reorganization of foreign corporations*—(a) *Requirement of returns.* Every attorney, accountant, fiduciary, bank, trust company, financial institution, or other person, who aids, assists, counsels, or advises in, or with respect to, the formation, organization, or reorganization of any foreign corporation shall file an information return on Form 959. The return must be filed in every such case regardless of—

(1) The nature of the counsel or advice given, whether for or against the formation, organization, or reorganization of the foreign corporation, or the nature of the aid or assistance rendered, and

(2) The action taken upon the advice or counsel, that is, whether the foreign corporation is actually formed, organized or reorganized.

(b) *Special provisions*—(1) *Employers.* In the case of aid, assistance, counsel, or advice in, or with respect to, the formation, organization, or reorganization of a foreign corporation given by a person in whole or in part through the medium of employees (including, in the case of a corporation, the officers thereof), the return made by the employer must set forth in detail the information required by this section including that which, as an incident to such employment, is within the possession or knowledge or under the control of such employees.

(2) *Employees.* The obligation of an employee (including, in the case of a corporation, the officers thereof) to file a return with respect to any aid, assistance, counsel, or advice in or with respect to the formation, organization, or reorganization of a foreign corporation, given as an incident to his employment, will be satisfied if a return as prescribed by this section is duly filed by the employer. Clerks, stenographers, and other employees rendering aid or assistance solely of a clerical or mechanical character in or with respect to the formation, organization, or reorganization of a foreign corporation are not required to file returns by reason of such services.

(3) *Partners.* In the case of aid, assistance, counsel, or advice in, or with respect to, the formation, organization, or reorganization of a foreign corporation given by one or more members of a partnership in the course of its business, the obligation of each such individual member to file a return will be satisfied if a return as prescribed by this section is duly filed by the partnership executed by all the members of the firm who gave any such aid, assistance, counsel, or advice. If, however, the partnership has been dissolved at the time the return is due, individual returns must be filed by each member of the former partnership who gave any such aid, assistance, counsel, or advice.

(4) *Return jointly made.* If two or more persons aid, assist, counsel, or advise in, or with respect to, the formation, organization, or reorganization of a particular foreign corporation, any two or more of such persons may, in lieu of filing several returns, jointly execute and file one return.

(5) *Separate return for each corporation.* If a person aids, assists, counsels, or advises in, or with respect to, the formation, organization, or reorganization of more than one foreign corporation, a separate return must be filed with respect to each foreign corporation.

(c) *Information required to be shown on return.* The return required by section 6046 and this section shall set forth the following information to the extent the information is within the possession or knowledge, or under the control, of the person filing the return:

(1) The name and address of the person (or persons) to whom, and the person (or persons) for whom, or on whose behalf, the aid, assistance, counsel, or advice was given;

(2) The name and address of the foreign corporation and the country under the laws of which it was formed, organized, or reorganized;

(3) The month and year when the foreign corporation was formed, organized, or reorganized;

(4) A statement of the manner in which the formation, organization, or reorganization of the foreign corporation was effected;

(5) A complete statement of the reasons for, and the purposes sought to be accomplished by, the formation, organization, or reorganization of the foreign corporation;

(6) A statement showing the classes and kinds of assets transferred to the foreign corporation in connection with its formation, organization, or reorganization, including a detailed list of any stock or securities included in such assets, and a statement showing the names and addresses of the persons who were the owners of such assets immediately prior to the transfer;

(7) The names and addresses of the shareholders of the foreign corporation at the time of the completion of its formation, organization, or reorganization, showing the classes of stock and number of shares held by each and, in the case of Forms 959 filed after December 31, 1958, the names and addresses of the subscribers to the stock of the foreign corporation and the number of shares subscribed to by each;

(8) The name and address of the person (or persons) having custody of the books of account and records of the foreign corporation; and

(9) Such other information as is required by the return form.

(d) *Privileged communications.* An attorney-at-law is not required to file a return with respect to any advice given or information obtained through the relationship of attorney and client.

(e) *Time and place for filing return*—(1) *Time for filing.* Returns required by section 6046 and this section shall be filed within 30 days after the first performance of any of the functions referred to in paragraph (a) of this section. If, in a particular case, the aid, assistance, counsel, or advice given by any person extends over a period of more than one day, such person, to avoid the multiple filing of returns, shall file a return within 30 days after either of the following events:

(i) The formation, organization, or reorganization of the foreign corporation, or

(ii) The termination of his aid, assistance, counsel, or advice in, or with respect to, the formation, organization, or reorganization of the foreign corporation.

(2) *Place for filing.* Returns required by section 6046 and this section shall be filed with the Director, International Operations Division, Internal Revenue Service, Washington 25, D. C.

(f) *Penalties.* For criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203, 7206, and 7207.

§ 1.6061 *Statutory provisions; signing of returns and other documents.*

SEC. 6061. *Signing of returns and other documents.* Except as otherwise provided by sections 6062 and 6063, any return, statement, or other document required to be made under any provision of the internal revenue laws or regulations shall be signed in accordance with forms or regulations prescribed by the Secretary or his delegate.

§ 1.6061–1 *Signing of returns and other documents by individuals*—(a) *Requirement.* Each individual (including a fiduciary) shall sign the income tax return required to be made by him, except that the return may be signed for the taxpayer by an agent who is duly authorized in accordance with paragraph (a) (5) of § 1.6012–1 to make such return. Other returns, statements, or documents required under the provisions of subtitle A or F of the Code or of the regulations thereunder to be made by any person with respect to any tax imposed by subtitle A of the Code shall be signed in accordance with any regulations contained in this chapter, or any instructions, issued with respect to such returns, statements, or other documents.

(b) *Cross references.* For provisions relating to the signing of returns, statements, or other documents required to be made by corporations and partnerships with respect to any tax imposed by subtitle A of the Code, see §§ 1.6062–1 and 1.6063–1, respectively. For provisions relating to the making of returns by agents, see paragraphs (a) (5) and (b) (6) of § 1.6012–1; and to the making of returns for minors and persons under a disability, see paragraph (a) (3) of § 1.6012–1 and paragraph (b) of § 1.6012–3.

§ 1.6062 *Statutory provisions; signing of corporation returns.*

SEC. 6062. *Signing of corporation returns.* The return of a corporation with respect to income shall be signed by the president, vice-president, treasurer, assistant treasurer, chief accounting officer or any other officer duly authorized so to act. In the case of a return made for a corporation by a fiduciary pursuant to the provisions of section 6012 (b) (3), such fiduciary shall sign the return. The fact that an individual's name is signed on the return shall be prima facie evidence that such individual is authorized to sign the return on behalf of the corporation.

§ 1.6062–1 *Signing of returns, statements, and other documents made by corporations*—(a) *Returns*—(1) *In general.* Returns required to be made by corporations under the provisions of subtitle A or F of the Code, or the regulations thereunder, with respect to any tax imposed by subtitle A of the Code, shall be signed for the corporation by the president, vice-president, treasurer, assistant treasurer, chief accounting officer, or any other officer duly authorized to sign such returns. It is not necessary that the corporate seal be affixed to the return. Spaces provided on return forms for affixing the corporate seal are for the convenience of corporations required by charter, or by the law of the jurisdiction in which they are incorporated, to affix their corporate seals in the execution of instruments.

(2) *By fiduciaries.* A return with respect to income required to be made for a corporation by a fiduciary, pursuant to the provisions of section 6012 (b) (3), shall be signed by such fiduciary. See paragraph (b) (4) of § 1.6012–3.

(3) *By agents.* A return with respect to income required to be made by an agent for a foreign corporation, which has no office or place of business in the United States, shall be signed by such agent. See paragraph (g) (4) of § 1.6012–2.

(b) *Statements and other documents.* Statements and other documents required to be made by or for corporations under the provisions of subtitle A or F of the Code, or the regulations thereunder, with respect to any tax imposed by subtitle A, shall be signed in accordance with the regulations contained in this chapter, or the forms and instructions, issued with respect to such statements or other documents.

(c) *Evidence of authority to sign.* An individual's signature on a return, statement, or other document made by or for a corporation shall be prima facie evidence that such individual is authorized to sign such return, statement, or other document.

(d) *Related provisions.* For the rules relating to the verification of returns, see § 1.6065–1. For provisions with respect to the signing of returns generally, see § 301.6061–1 of this chapter.

§ 1.6063 *Statutory provisions; signing of partnership returns.*

SEC. 6063. *Signing of partnership returns.* The return of a partnership made under section 6031 shall be signed by any one of the partners. The fact that a partner's name is signed on the return shall be prima facie evidence that such partner is authorized to sign the return on behalf of the partnership.

§ 1.6063–1 *Signing of returns, statements, and other documents made by partnerships*—(a) *In general.* Returns, statements, and other documents required to be made by partnerships under the provisions of subtitle A or F of the Code, or the regulations thereunder, with respect to any tax imposed by subtitle A of the Code shall be signed by any one of the partners.

(b) *Evidence of authority to sign.* A partner's signature on a return, statement, or other document made by or for a partnership of which he is a member shall be prima facie evidence that such partner is authorized to sign such return, statement, or other document.

§ 1.6065 *Statutory provisions; verification of returns.*

SEC. 6065. *Verification of returns*—(a) *Penalties of perjury.* Except as otherwise provided by the Secretary or his delegate, any return, declaration, statement, or other document required to be made under any provision of the internal revenue laws or regulations shall contain or be verified by a written declaration that it is made under the penalties of perjury.

(b) *Oath.* The Secretary or his delegate may by regulations require that any return, statement, or other document required to be made under any provision of the internal revenue laws or regulations shall be verified by an oath. This subsection shall not apply to returns and declarations with respect to income taxes made by individuals.

§ 1.6065–1 *Verification of returns*—(a) *Persons signing returns.* If a return, declaration, statement, or other document made under the provisions of subtitle A or F of the Code, or the regulation thereunder, with respect to any tax imposed by subtitle A of the Code is required by the regulations contained in this chapter, or the form and instructions, issued with respect to such return, declaration, statement, or other document, to contain or be verified by a written declaration that it is made under the penalties of perjury, such return, declaration, statement, or other document shall be so verified by the person signing it.

(b) *Persons preparing returns*—(1) *In general.* Except as provided in subparagraph (2) of this paragraph, if a return, declaration, statement, or other document is prepared for a taxpayer by another person for compensation or as an incident to the performance of other services for which such person receives compensation, and the return, declaration, statement, or other document requires that it shall contain or be verified by a written declaration that it is prepared under the penalties of perjury, the preparer must so certify the return, declaration, statement, or other document. A person who renders mere mechanical assistance in the preparation of a return, declaration, statement, or other document as, for example, a stenographer or typist, is not considered as preparing the return, declaration, statement, or other document.

(2) *Exception.* The verification required by subparagraph (1) of this paragraph is not required on returns, declarations, statements, or other documents which are prepared—

(i) For an employee either by his employer or by an employee designated for such purpose by the employer, or

(ii) For an employer as a usual incident of the employment of one regularly or continuously employed by such employer.

§ 1.6071 *Statutory provisions; time for filing returns and other documents.*

SEC. 6071. *Time for filing returns and other documents*—(a) *General rule.* When not otherwise provided for by this title, the Secretary or his delegate shall by regulations prescribe the time for filing any return, statement, or other document required by this title or by regulations.

• • • • •

§ 1.6071–1 *Time for filing returns and other documents*—(a) *In General.* Whenever a return, statement, or other document is required to be made under the provisions of subtitle A or F of the Code, or the regulation thereunder, with respect to any tax imposed by subtitle A of the Code, and the time for filing such return, statement, or other document is not provided for by the Code, it shall be filed at the time prescribed by the regulations contained in this chapter with respect to such return, statement, or other document.

(b) *Return for a short period.* In the case of a return with respect to tax under subtitle A for a short period, the district director may, upon a showing by the taxpayer of unusual circumstances, prescribe a time for filing the return for such period later than the time when such return would otherwise be due.

(c) *Time for filing certain information returns.* (1) For provisions relating to the time for filing returns of partnership income, see paragraph (e) (2) of § 1.6031–1.

(2) For provisions relating to the time for filing information returns by banks with respect to common trust funds, see § 1.6032–1.

(3) For provisions relating to the time for filing information returns by certain organizations exempt from taxation under section 501 (a), see paragraph (e) of § 1.6033–1.

(4) For provisions relating to the time for filing information returns by trusts claiming charitable deductions under section 642 (c), see paragraph (c) of § 1.6034–1.

(5) For provisions relating to the time for filing information returns by officers, directors, and shareholders of foreign personal holding companies, see §§ 1.6035–1 and 1.6035–2.

(6) For provisions relating to the time for filing information returns by persons making certain payments, see § 1.6041–6.

(7) For provisions relating to the time for filing information returns regarding corporate dividends, earnings, profits, and ownership of stock, see paragraph (d) of § 1.6042–1.

(8) For provisions relating to the time for filing information returns by corporations with respect to contemplated dissolution or liquidation, see paragraph (a) of § 1.6043–1.

(9) For provisions relating to the time for filing information returns by corporations with respect to distributions in liquidation, see paragraph (a) of § 1.6043–2.

(10) For provisions relating to the time for filing information returns with respect to payments of patronage dividends, see paragraph (b) of § 1.6044–1.

(11) For provisions relating to the time for filing information returns with respect to formation or reorganization of foreign corporations, see § 1.6046–1.

§ 1.6072 *Statutory provisions; time for filing income tax returns.*

SEC. 6072. *Time for filing income tax returns*—(a) *General rule.* In the case of returns under section 6012, 6013, 6017, or 6031 (relating to income tax under subtitle A), returns made on the basis of the calendar year shall be filed on or before the 15th day of April following the close of the calendar year and returns made on the basis of a fiscal year shall be filed on or before the 15th day of the fourth month following the close of the fiscal year, except as otherwise provided in the following subsections of this section.

(b) *Returns of corporations.* Returns of corporations under section 6012 made on the basis of the calendar year shall be filed on or before the 15th day of March following the close of the calendar year, and such returns made on the basis of a fiscal year shall be filed on or before the 15th day of the third month following the close of the fiscal year.

(c) *Returns by certain nonresident alien individuals and foreign corporations.* Returns made by nonresident alien individuals (other than those whose wages are subject to withholding under chapter 24) and foreign corporations (other than those having an office or place of business in the United States) under section 6012 on the basis of a calendar year shall be filed on or before the 15th day of June following the close of the calendar year and such returns made on the basis of a fiscal year shall be filed on or before the 15th day of the 6th month following the close of the fiscal year.

(d) *Returns of exempt cooperative associations.* In the case of income tax returns of exempt cooperative associations taxable under the provisions of section 522, returns made on the basis of a calendar year shall be filed on or before the 15th day of September following the close of the calendar year and returns made on the basis of a fiscal year shall be filed on or before the 15th day of the 9th month following the close of the fiscal year.

(e) *Income tax due dates postponed in case of China Trade Act corporations.* In the case of any taxable year beginning after December 31, 1948, and ending before October 1, 1956, no Federal income tax return of any corporation organized under the China Trade Act, 1922 (42 Stat. 849, U. S. C. title 15, chapter 4), as amended, shall become due until December 31, 1956, but only with respect to any such corporation and any such taxable year which the Secretary or his delegate may determine reasonable under the circumstances in China pursuant to such regulations as may be prescribed. Such due date shall be subject to the power of the Secretary or his delegate to extend the time for filing such return, as in other cases.

§ 1.6072–1 *Time for filing returns of individuals, estates, and trusts*—(a) *In general.* Except as provided in paragraphs (b) and (c) of this section, returns of income required under sections 6012, 6013, 6014, and 6017 of individuals, estates, and trusts (including unrelated business tax returns of domestic and foreign trusts referred to in section 511 (b) (2)) shall be filed on or before the fifteenth day of the fourth month following the close of the taxable year.

(b) *Decedents.* In the case of a final return of a decedent for a fractional part of a year, the due date of such return shall be the fifteenth day of the fourth month following the close of the 12-month period which began with the first day of such fractional part of the year.

(c) *Nonresident alien individuals.* The income tax return of a nonresident alien individual shall be filed on or before the fifteenth day of the sixth month following the close of the taxable year. However, a nonresident alien individual who for the taxable year has wages subject to withholding under chapter 24 of the Code shall file his income tax return on or before the fifteenth day of the fourth month following the close of the taxable year.

(d) *Last day for filing return.* For provisions relating to the time for filing a return where the last day for filing falls on Saturday, Sunday, or a legal holiday, see section 7503 and § 301.7503–1 of this chapter.

§ 1.6072–2 *Time for filing returns of corporations*—(a) *Domestic and certain foreign corporations.* The income tax return required under section 6012 of a domestic corporation or of a foreign corporation having an office or place of business in the United States shall be filed on or before the fifteenth day of the third month following the close of the taxable year.

(b) *Foreign corporations not having an office or place of business in the United States.* The income tax return of a foreign corporation which does not have an office or place of business in the United States shall be filed on or before the fifteenth day of the sixth month following the close of the taxable year.

(c) *Organizations having unrelated business income taxable at corporation rates.* The provisions of paragraphs (a) or (b) of this section apply to organizations referred to in section 511 (a) (2) and required to file a return of unrelated business taxable income.

(d) *Exempt cooperative associations.* The income tax return of an exempt cooperative association taxable under the provisions of section 522 shall be filed on or before the fifteenth day of the ninth month following the close of the taxable year.

(e) *Cross references.* For provisions relating to the time for filing a return where the last day for filing falls on Saturday, Sunday, or a legal holiday, see section 7503 and § 301.7503–1 of this chapter. For provisions relating to the fixing of a later time for filing in the case of a return for a short period, see paragraph (b) of § 1.6071–1. For provisions relating to time for filing consolidated returns, see paragraph (a) of § 1.1502–12.

§ 1.6072–3 *Income tax due dates postponed in case of China Trade Act corporations.* (a) With respect to a taxable year beginning after December 31, 1948, and ending before October 1, 1956, the income tax return of any corporation organized under the China Trade Act of 1952 (15 U. S. C., c. 4), as amended, shall not become due until December 31, 1956, provided that during any such taxable year conditions in China have been generally so unsettled as to militate against the normal commercial operations and corporate activities of such corporation. However, the postponement of the due date shall not apply to an income tax return for any such taxable year if—

(1) The books of account and business records are available so as to permit the filing of a proper return, and the corporation has otherwise been in a position to carry on its commercial operations and corporate activities and to make a proper distribution of its earnings or profits, if any, so as to permit the certification required by section 941 (b); or

(2) All the commercial operations and corporate activities of such corporation have been carried on in Hong Kong, Macao, or Taiwan (Formosa).

(b) Notwithstanding the provisions of subparagraph (1) or (2) of paragraph (a) of this section, the postponed due date referred to in this section will apply if a corporation satisfies the Commissioner that special circumstances exist, related to the unsettled conditions in China, which warrant such postponement.

(c) The postponed due date provided for in this section is expressly subject to the power of the Commissioner to extend, as in other cases, the time for filing the income tax return. See section 6081 and the regulations thereunder.

§ 1.6072–4 *Time for filing other returns of income*—(a) *Returns of tax withheld from nonresident aliens and foreign corporations, and on tax-free covenant bonds.* For the time for filing returns with respect to tax withheld

under chapter 3 of the Code, see §§1.1461–1 to 1.1461–3.

(b) *Reports for recovery of excessive profits on Government contracts.* For the time for filing annual reports by persons completing Government contracts, see 26 CFR (1939) 17.16 (Treasury Decision 4906, approved June 23, 1939), and 26 CFR (1939) 16.15 (Treasury Decision 4909, approved June 28, 1939, as made applicable to section 1471 of the 1954 Code by Treasury Decision 6091, approved August 16, 1954 (19 F. R. 5167).

(c) *Returns of tax on transfers to avoid income tax.* For the time for filing returns of tax under chapter 5 of the Code, see § 1.1494–1.

§ 1.6081 *Statutory provisions; extension of time for filing returns.*

SEC. 6081. *Extension of time for filing returns*—(a) *General rule.* The Secretary or his delegate may grant a reasonable extension of time for filing any return, declaration, statement, or other document required by this title or by regulations. Except in the case of taxpayers who are abroad, no such extension shall be for more than 6 months.

(b) *Automatic extension for corporation income tax returns.* An extension of 3 months for the filing of the return of income taxes imposed by subtitle A shall be allowed any corporation if, in such manner and at such time as the Secretary or his delegate may by regulations prescribe, there is filed on behalf of such corporation the form prescribed by the Secretary or his delegate, and if such corporation pays, on or before the date prescribed for payment of the tax, the amount properly estimated as its tax or the first installment thereof required under section 6152; but this extension may be terminated at any time by the Secretary or his delegate by mailing to the taxpayer notice of such termination at least 10 days prior to the date for termination fixed in such notice.

(c) *Postponement by reason of war.* For time for performing certain acts postponed by reason of war, see section 7508.

§ 1.6081–1 *Extension of time for filing returns*—(a) *In general.* District directors, including the Director, International Operations Division, are authorized to grant a reasonable extension of time for filing any return, declaration, statement, or other document which relates to any tax imposed by subtitle A of the Code and which is required under the provisions of subtitle A or F of the Code or the regulations thereunder. However, except in the case of taxpayers who are abroad, such extensions of time shall not be granted for more than six months. Except in the case of declarations of estimated income tax, an extension of time for filing an income tax return does not operate to extend the time for the payment of the tax, or any installment thereof, unless so specified in the extension. For extension of time for filing declarations of estimated tax, see §§ 1.6073–4 and 1.6074–3. For extension of time for paying tax, see § 1.6161–1.

(b) *Application for extension of time.* (1) A taxpayer desiring an extension of time for filing a return, statement, or other document shall, on or before the due date thereof, submit an application for such extension to the internal revenue officer with whom the return, statement, or other document is required to be filed. Such application shall be in writing, properly signed by the taxpayer or his duly authorized agent, and shall clearly set forth (i) the particular tax return, information return, statement, or other document, including the taxable year or period thereof, with respect to which the extension of the time for filing is desired, and (ii) a full recital of the reasons for requesting the extension to aid such internal revenue officer in determining the period of extension, if any, which will be granted. Such a request in the form of a letter will suffice as an application.

(2) In any case in which a taxpayer is unable, by reason of illness, absence, or other good cause, to sign a request for an extension, any person standing in close personal or business relationship to the taxpayer may sign the request on his behalf, and shall be considered as a duly authorized agent for this purpose, provided the request sets forth the reasons for a signature other than the taxpayer's and the relationship existing between the taxpayer and the signer.

§ 1.6081–2 *Extensions of time in the case of foreign organizations, certain domestic corporations, certain partnerships, and citizens of United States residing or traveling abroad*—(a) *In general.* An extension of time for filing returns of income is hereby granted up to and including the fifteenth day of the sixth month following the close of the taxable year in the case of:

(1) Partnerships which are required under paragraph (e) (2) of § 1.6031–1 to file returns on the fifteenth day of the fourth month following the close of the taxable year of the partnership, and which keep their records and books of account abroad;

(2) Domestic corporations which transact their business and keep their records and books of account abroad;

(3) Foreign corporations which maintain an office or place of business within the United States;

(4) Domestic corporations whose principal income is from sources within the possessions of the United States; and

(5) American citizens residing or traveling abroad, including persons in military or naval service on duty outside the United States.

In all such cases a statement must be attached to the return showing that the person for whom the return is made is a person described in this section.

(b) *Definitions.* The term "abroad", as used in this section, means outside the continental United States, Hawaii, and Puerto Rico. For purposes of this paragraph, the term "continental United States" does not include the Territory of Alaska.

§ 1.6081–3 *Automatic extension of time for filing corporation income tax returns*—(a) *In general.* A corporation shall be allowed an automatic extension of time to the fifteenth day of the third month following the month in which falls the date prescribed for the filing of its income tax return provided the following requirements are met:

(1) An application must be prepared in duplicate on Form 7004, "Application for Automatic Extension of Time to File U. S. Corporation Income Tax Return", and must be signed by a person authorized by the corporation to request such extension, and such person must be either an officer of the corporation or a person currently enrolled to practice before the Treasury Department.

(2) The original of the application must be filed on or before the date prescribed for the filing of the return of the corporation with the internal revenue officer with whom the corporation is required to file its income tax return and must be accompanied by a remittance of an estimated amount of tax which shall not be less than would be required as the first installment under section 6152 (a) (1) should the corporation elect to pay the tax in installments.

Upon the timely filing of Form 7004, properly prepared, the three-month extension shall be considered as allowed. If the taxpayer elects to pay in installments the tax shown on Form 7004, the installment privilege provided in section 6152 (a) (1) is limited to the amount shown on the form. The duplicate Form 7004 shall be attached to the completed income tax return when filed as evidence of the extension.

(b) *Consolidated returns.* An application for an automatic extension of time for filing a consolidated return shall be made by a person authorized by the parent corporation to request such extension. Such person must be either an officer of the parent corporation or a person currently enrolled to practice before the Treasury Department. There shall be attached to such application a statement listing the name and address of each member of the affiliated group for which such consolidated return will be made. The original of such application shall be filed with the district director for the district in which the parent corporation is required to file its income tax return. If a member of the affiliated group would be required to file its separate income tax return with a district director other than the district director with whom the parent corporation files its return, the parent corporation must immediately send to each district director with whom such member would be required to file its return a written notice that an application for the automatic extension of time for filing the consolidated return has been filed. Such notice shall also indicate the name and address of each member of the affiliated group required to file its separate return with such district director, and the name and address of the district director with whom the consolidated return will be filed. Upon the timely filing of Form 7004 in the office of the district director with whom the parent corporation files its return, and notices in the offices of the district directors with whom the members of the affiliated group file their returns, the three-month extension shall be considered as granted to the affiliated group for the filing of its consolidated return or for the filing of each member's separate return. In the event that the privilege of filing a consolidated return is not exercised, the parent corporation, and members of the affiliated group filing in the same district as that in which the parent files, shall attach to their completed separate income tax returns a copy of the application (Form 7004); and each other member of the affiliated group shall attach to its completed separate income tax return a copy of the notice sent to the district director with whom its return is filed.

(c) *Termination of automatic extension.* The district director, including the Director, International Operations Division, may, in his discretion, terminate at any time an automatic extension by mailing to the corporation (parent corporation in the case of an affiliated group), or the person who requested such extension for the corporation, a notice of termination. The notice shall be mailed at least ten days prior to the termination date designated in such notice. The notice of termination shall be sufficient for all purposes when mailed to the corporation at its address shown on Form 7004 or to the person who requested such extension for the corporation at his last known address or last known place of business, even if such corporation has terminated its existence, or such person is deceased or is under a legal disability.

§ 1.6091 *Statutory provisions; place for filing returns or other documents.*

SEC. 6091. *Place for filing returns or other documents*—(a) *General rule.* When not otherwise provided for by this title, the Secretary or his delegate shall by regulations prescribe the place for the filing of any return, declaration, statement, or other document, or copies thereof, required by this title or by regulations.

(b) *Tax returns.* In the case of returns of tax required under authority of part II of this subchapter—

(1) *Individuals.* Returns (other than corporation returns) shall be made to the Secretary or his delegate in the internal revenue district in which is located the legal residence or principal place of business of the person making the return, or, if he has no legal residence or principal place of business in any internal revenue district, then at such place as the Secretary or his delegate may by regulations prescribe.

(2) *Corporations.* Returns of corporations shall be made to the Secretary or his delegate in the internal revenue district in which is located the principal place of business or principal office or agency of the corporation, or, if it has no principal place of business or principal office or agency in any internal revenue district, then at such place as the Secretary or his delegate may by regulations prescribe.

• • • • •

(4) *Exceptional cases.* Notwithstanding paragraph (1), (2), or (3) of this subsection, the Secretary or his delegate may permit a return to be filed in any internal revenue district, and may require the return of any officer or employee of the Treasury Department to be filed in any internal revenue district selected by the Secretary or his delegate.

§ 1.6091–1 *Place for filing returns or other documents*—(a) *In general.* Except as provided in § 1.6091–4, whenever a return, statement, or other document is required to be made under the provisions of subtitle A or F of the Code, or the regulations thereunder, with respect to any tax imposed by subtitle A of the Code, and the place for filing such return, statement, or other document is not provided for by the Code, it shall be filed at the place prescribed by the regulations contained in this chapter.

(b) *Place for filing certain information returns.* (1) For the place for filing returns of partnership income, see paragraph (e) (1) of § 1.6031–1.

(2) For the place for filing information returns by banks with respect to common trust funds, see § 1.6032–1.

(3) For the place for filing information returns by certain organizations exempt from taxation under section 501 (a), see paragraph (e) of § 1.6033–1.

(4) For the place for filing information returns by trusts claiming charitable deductions under section 642 (c), see paragraph (c) of § 1.6034–1.

(5) For the place for filing information returns by officers, directors, and shareholders of foreign personal holding companies, see paragraph (e) of § 1.6035–1 and paragraph (c) of § 1.6035–2.

(6) For the place for filing returns of information reporting certain payments on Forms 1099 and 1096, see § 1.6041–6.

(7) For the place for filing information returns regarding corporate dividends, earnings, and profits on Forms 1099 and 1096, and regarding ownership of stock on Form 1087, see paragraph (d) of § 1.6042–1.

(8) For the place for filing information returns by corporations relating to contemplated dissolution or liquidation, see paragraph (a) of § 1.6043–1.

(9) For the place for filing information returns by corporations relating to distributions in liquidation, see paragraph (a) of § 1.6043–2.

(10) For the place for filing information returns reporting payments of patronage dividends, see paragraph (b) of § 1.6044–1.

(11) For the place for filing information returns relating to formation or reorganization of foreign corporations, see pararagph (e) of § 1.6046–1.

§ 1.6091–2 *Place for filing income tax returns*—(a) *Individuals, estates, and trusts.* (1) Except as provided in §§ 1.6091–3 and 1.6091–4, income tax returns of individuals, estates, and trusts shall be filed with the district director for the internal revenue district in which is located the legal residence or principal place of business of the person required to make the return, or, if such person has no legal residence or principal place of business in any internal revenue district, with the district director at Baltimore, Maryland.

(2) An individual employed on a salary or commission basis who is not also engaged in conducting a commercial or professional enterprise for profit on his own account does not have a "principal place of business" within the meaning of this section.

(b) *Corporations.* Except as provided in §§ 1.6091–3 and 1.6091–4, income tax returns of corporations shall be filed with the district director for the internal revenue district in which is located the principal place of business or principal office or agency of the corporation.

§ 1.6091–3 *Income tax returns required to be filed with Director, International Operations Division.* The following income tax returns shall be filed with the Director, International Operations Division, Internal Revenue Service, at Washington 25, D. C., or at such other address as is designated on the return form or in the instructions issued with respect to such form:

(a) Income tax returns on which all, or a portion, of the tax is to be paid in foreign currency. See §§ 301.6316–1 to 301.6316–8, inclusive, of this chapter.

(b) Income tax returns of individuals (whether citizens of the United States, citizens of possessions of the United States, or aliens) outside the United States, having no legal residence, or principal place of business, in any internal revenue district in the United States.

(c) The income tax return of an estate or trust the fiduciary of which is outside the United States and has no legal residence or place of business in any internal revenue district in the United States.

(d) Income tax returns of foreign corporations having no principal place of business, or principal office or agency in any internal revenue district in the United States.

§ 1.6091–4 *Exceptional cases*—(a) *Permission to file in district other than required district.* The Commissioner may permit the filing of any income tax return required to be made under the provisions of subtitle A or F of the Code, or the regulations in this part, in any internal revenue district, notwithstanding the provisions of paragraphs (1) and (2) of section 6091 (b) and §§ 1.6091–1 to 1.6091–3, inclusive.

(b) *Returns of officers and employees of the Internal Revenue Service.* The Commissioner may require any officer or employee of the Internal Revenue Service to file his income tax return in any district selected by the Commissioner.

§ 1.6102 *Statutory provisions; computations on returns or other documents.*

SEC. 6102. *Computations on returns or other documents*—(a) *Amounts shown on internal revenue forms.* The Secretary or his delegate is authorized to provide with respect to any amount required to be shown on a form prescribed for any internal revenue return, statement, or other document, that if such amount of such item is other than a whole-dollar amount, either—

(1) The fractional part of a dollar shall be disregarded; or

(2) The fractional part of a dollar shall be disregarded unless it amounts to one-half dollar or more, in which case the amount (determined without regard to the fractional part of a dollar) shall be increased by $1.

(b) *Election not to use whole dollar amounts.* Any person making a return, statement, or other document shall be allowed under regulations prescribed by the Secretary of his delegate, to make such return, statement, or other document without regard to subsection (a).

(c) *Inapplicability to computation of amount.* The provisions of subsections (a) and (b) shall not be applicable to items which must be taken into account in making the computations necessary to determine the amount required to be shown on a form, but shall be applicable only to such final amount.

§ 1.6102–1 *Computations on returns or other documents.* For provisions with respect to the rounding off to whole-dollar amounts of money items on returns and accompanying schedules, see § 301.6102–1 of this chapter.

TIME AND PLACE FOR PAYING TAX

§ 1.6151 *Statutory provisions; time and place for paying tax shown on returns.*

SEC. 6151. *Time and place for paying tax shown on returns*—(a) *General rule.* Except as otherwise provided in this section, when a return of tax is required under this title or regulations, the person required to make such return shall, without assessment or notice and demand from the Secretary or his delegate, pay such tax to the principal internal revenue officer for the internal revenue district in which the return is required to be filed, and shall pay such tax at the time and place fixed for filing the return (determined without regard to any extension of time for filing the return).

(b) *Exceptions*—(1) *Income tax not computed by taxpayer.* If the taxpayer elects under section 6014 not to show the tax on the return, the amount determined by the Secretary or his delegate as payable shall be paid within 30 days after the mailing by the Secretary or his delegate to the taxpayer of a notice stating such amount and making demand therefor.

(2) *Use of Government depositaries.* For authority of the Secretary or his delegate to require payments to Government depositaries, see section 6302 (c).

(c) *Date fixed for payment of tax.* In any case in which a tax is required to be paid on or before a certain date, or within a certain period, any reference in this title to the date fixed for payment of such tax shall be deemed a reference to the last day fixed for such payment (determined without regard to any extension of time for paying the tax).

§ 1.6151–1 *Time and place for paying tax shown on returns*—(a) *In general.* Except as provided in section 6152 and paragraph (b) of this section, the tax shown on any income tax return shall, without assessment or notice and demand, be paid to the internal revenue officer with whom the return is required to be filed at the time fixed for filing the return (determined without regard to any extension of time for filing the return). For provisions relating to the time for filing income tax returns, see section 6072 and §§ 1.6072–1 to 1.6072–4, inclusive. For provisions relating to the place for filing income tax returns, see section 6091 and §§ 1.6091–1 to 1.6091–4, inclusive.

(b) *Returns on Form 1040A*—(1) *Where tax is not shown on return.* In any case in which a taxpayer files a return on Form 1040A and, pursuant to section 6014 and § 1.6014–1, elects not to show the tax on the return, the amount of tax determined to be due shall be paid within 30 days after the date of mailing to the taxpayer a notice stating the amount payable and making demand upon the taxpayer therefor. However, if the notice is mailed to the taxpayer more than 30 days before the due date of the return, payment of the tax shall not be required prior to such due date.

(2) *Where tax is shown on the return.* In any case in which a taxpayer files a return on Form 1040A pursuant to paragraph (a) (7) of § 1.6012–1 and shows the amount of tax on the return, the unpaid balance of the tax shall, without assessment or notice and demand, be paid not later than the date fixed for filing the return.

(c) *Date fixed for payment of tax.* In any case in which a tax imposed by subtitle A of the Code is required to be paid on or before a certain date, or within a certain period, any reference in subtitle A or F of the Code to the date fixed for payment of such tax shall be deemed a reference to the last day fixed for such payment (determined without regard to any extension of time for paying the tax).

§ 1.6152 *Statutory provisions; installment payments.*

SEC. 6152. *Installment payments*—(a) *Privilege to elect to make installment payments*—(1) *Corporations.* A corporation subject to the taxes imposed by chapter 1 may elect to pay the unpaid amount of such taxes in installments as follows:

(A) With respect to taxable years ending before December 31, 1954, four installments, the first two of which shall be 45 percent, respectively, of such taxes and the last two of which shall be 5 percent, respectively, of such taxes;

(B) With respect to taxable years ending on or after December 31, 1954, two equal installments.

(2) *Estates of decedents.* A decedent's estate subject to the tax imposed by chapter 1 may elect to pay such tax in four equal installments.

(b) *Dates prescribed for payment of installments*—(1) *Four installments.* In any case (other than payment of estimated income tax) in which the tax may be paid in four installments, the first installment shall be paid on the date prescribed for the payment of the tax, the second installment shall be paid on or before 3 months, the third installment on or before 6 months, and the fourth installment on or before 9 months, after such date.

(2) *Two installments.* In any case (other than payment of estimated income tax) in which the tax may be paid in two installments, the first installment shall be paid on the date prescribed for the payment of the tax, and the second installment shall be paid on or before 3 months after such date.

(c) *Proration of deficiency to installments.* If an election has been made to pay the tax imposed by chapter 1 in installments and a deficiency has been assessed, the deficiency shall be prorated to such installments. Except as provided in section 6861 (relating to jeopardy assessments), that part of the deficiency so prorated to any installment the date for payment of which has not arrived shall be collected at the same time as and as part of such installment. That part of the deficiency so prorated to any installment the date for payment of which has arrived shall be paid upon notice and demand from the Secretary or his delegate.

(d) *Acceleration of payment.* If any installment (other than an installment of estimated income tax) is not paid on or before the date fixed for its payment, the whole of the unpaid tax shall be paid upon notice and demand from the Secretary or his delegate.

[Sec. 6152 as amended by sec. 3, Act of Sept. 1, 1954 (Pub. Law 767, 83d Cong.), 68 Stat. 1130]

§ 1.6152–1 *Installment payments*—(a) *Privilege of corporation to elect to make installment payments*—(1) *Amount to be paid.* In the case of any taxable year ending on or after December 31, 1954, a corporation subject to the taxes imposed by chapter 1 of the Code may elect, as provided in subparagraph (2) of this paragraph, to pay the unpaid amount of such tax for the taxable year in two equal installments instead of making a single payment. If such an election is made, the installments shall be paid as follows:

(i) Fifty percent on or before the date prescribed for the payment of the tax as a single payment, and

(ii) The remaining 50 percent on or before three months after the date prescribed for the payment of the first installment.

For provisions relating to installment payments of estimated income tax by corporations, see section 6154 and §§ 1.6154–1 to 1.6154–3, inclusive.

(2) *Method of election.* A corporation shall be considered to have made an election to pay its tax in installments if—

(i) It files its income tax return on or before the date prescribed therefor (determined without regard to any extension of time) and pays 50 percent of the unpaid amount of the tax at such time, or

(ii) It files an application on Form 7004 for an automatic extension of time to file its income tax return, as provided in § 1.6081–3, and pays 50 percent of the unpaid amount of the tax at such time.

Except as provided in paragraph (c) of this section, the installment privilege is limited to the unpaid amount of tax as shown on the income tax return filed in accordance with the provisions of subdivision (i) of this subparagraph, or as shown on the Form 7004 filed in accordance with the provisions of subdivision (ii) of this subparagraph.

(b) *Privilege of estates of decedents to make installment payments.* With respect to the income tax imposed by chapter 1 of the Code upon estates of decedents, the fiduciary may elect to pay the tax in four equal installments instead of in a single payment. If the election is made, the tax shall be paid as follows:

(1) Twenty-five percent on or before the date prescribed for the payment of the tax as a single payment,

(2) Twenty-five percent on or before three months after the date prescribed for payment of the first installment,

(3) Twenty-five percent on or before six months after the date prescribed for payment of the first installment, and

(4) Twenty-five percent on or before nine months after the date prescribed for payment of the first installment.

(c) *Proration of deficiency to installments.* If an election has been made to pay the tax imposed by chapter 1 of the Code in installments, and a deficiency has been assessed, the deficiency shall be prorated equally to all the installments, whether paid or unpaid. Except as provided in section 6861, relating to jeopardy assessment, the part of the deficiency so prorated to any installment which is not yet due shall be collected at the same time as and as part of such installment. The part of the deficiency so prorated to any installment the date for payment of which has arrived shall be paid upon notice and demand from the district director.

(d) *Acceleration of payment.* If a taxpayer elects under the provisions of this section to pay the tax in installments, any installment may be paid prior to the date prescribed for its payment. If an installment is not paid in full on or before the date fixed for its payment the whole amount of the unpaid tax shall be paid upon notice and demand from the district director.

§ 1.6161 *Statutory provisions; extension of time for paying tax.*

SEC. 6161. *Extension of time for paying tax*—(a) *Amount determined by taxpayer on return*—(1) *General rule.* The Secretary or his delegate, except as otherwise provided in this title, may extend the time for payment of the amount of the tax shown, or required to be shown, on any return or declaration required under authority of this title (or any installment thereof), for a reasonable period not to exceed 6 months from the date fixed for payment thereof. Such extension may exceed 6 months in the case of a taxpayer who is abroad.

* * * * *

(b) *Amount determined as deficiency.* Under regulations prescribed by the Secretary or his delegate, the Secretary or his delegate may extend, to the extent provided below, the time for payment of the amount determined as a deficiency:

(1) In the case of a tax imposed by chapter 1 or 12, for a period not to exceed 18 months from the date fixed for payment of the deficiency, and, in exceptional cases, for a further period not to exceed 12 months;

* * * * *

An extension under this subsection may be granted only where it is shown to the satisfaction of the Secretary of his delegate that the payment of a deficiency upon the date fixed for the payment thereof will result in undue hardship to the taxpayer in the case of a tax imposed by chapter 1, to the estate in the case of a tax imposed by chapter 11, or to the donor in the case of a tax imposed by chapter 12. No extension shall be granted if the deficiency is due to negligence, to intentional disregard of rules and regulations, or to fraud with intent to evade tax.

* * * * *

§ 1.6161–1 *Extension of time for paying tax or deficiency*—(a) *In general*—(1) *Tax shown or required to be shown on return.* A reasonable extension of the time for payment of the amount of any tax imposed by subtitle A of the Code and shown or required to be shown on any return, or for payment of the amount of any installment of such tax, may be granted by the district directors (including the Director, International Operations Division) at the request of the taxpayer. The period of such extension shall not be in excess of six months from the date fixed for payment of such tax or installment, except that if the taxpayer is abroad the period of the extension may be in excess of six months.

(2) *Deficiency.* The time for payment of any amount determined as a deficiency in respect of tax imposed by chapter 1 of subtitle A of the Code, or for the payment of any part thereof, may, at the request of the taxpayer, be extended by the internal revenue officer to whom the tax is required to be paid for a period not to exceed 18 months from the date fixed for payment of the deficiency, as shown on the notice and demand, and, in exceptional cases, for a further period not in excess of 12 months. No extension of the time for payment of a deficiency shall be granted if the deficiency is due to negligence, to intentional disregard of rules and regulations, or to fraud with intent to evade tax.

(3) *Extension of time for filing distinguished.* The granting of an extension of time for filing a return does not operate to extend the time for the payment of the tax or any part thereof, unless so specified in the extension.

(b) *Undue hardship required for extension.* An extension of the time for payment shall be granted only upon a satisfactory showing that payment on the due date of the amount with respect to which the extension is desired will result in an undue hardship. The extension will not be granted upon a general statement of hardship. The term "undue hardship" means more than an inconvenience to the taxpayer. It must appear that substantial financial loss, for example, loss due to the sale of property at a sacrifice price, will result to the taxpayer from making payment on the due date of the amount with respect to which the extension is desired. If a market exists, the sale of property at the current market price is not ordinarily considered as resulting in an undue hardship.

(c) *Application for extension.* An application for an extension of the time for payment of the tax shown or required to be shown on any return, or for the payment of any installment thereof, or for the payment of any amount determined as a deficiency shall be made on Form 1127 and shall be accompanied by evidence showing the undue hardship that would result to the taxpayer if the extension were refused. Such application shall also be accompanied by a statement of the assets and liabilities of the taxpayer and an itemized statement showing all receipts and disbursements for each of the three months immediately preceding the due date of the amount to which the application relates. The application, with supporting documents, must be filed with the internal revenue officer to whom the tax is required to be paid on or before the date prescribed for payment of the amount with respect to which the extension is desired. The application will be examined, and within 30 days, if possible, will be denied, granted, or tentatively granted subject to certain condition of which the taxpayer will be notified. If an additional extension is desired, the request therefor must be made on or before the expiration of the period for which the prior extension is granted.

(d) *Payment pursuant to extension.* If an extension of time for payment is granted, the amount the time for payment of which is so extended shall be paid on or before the expiration of the period of the extension without the necessity of notice and demand. The granting of an extension of the time for payment of the tax or deficiency does not relieve the taxpayer from liability for the payment of interest thereon during the period of the extension. See section 6601 and § 301.6601–1 of this chapter. Further, the granting of an extension of the time for payment of one installment of the tax does not extend the time for payment of subsequent installments.

(e) *Cross reference.* For extensions of time for payment of estimated tax, see §§ 1.6073–4 and 1.6074–3.

§ 1.6162 *Statutory provisions; extension of time for payment of tax on gain attributable to liquidation of personal holding companies.*

SEC. 6162. *Extension of time for payment of tax on gain attributable to liquidation of personal holding companies*—(a) *Extension permitted.* The Secretary or his delegate may (under regulations prescribed by the Secretary or his delegate) extend (for a period not to exceed 5 years from the date fixed for the payment of the tax) the time for the payment of such portion of the amount determined as the tax under chapter 1 by the taxpayer for any taxable year beginning before January 1, 1956, as is attributable to the short-term or long-term capital gain derived by the taxpayer from the receipt by him of property other than money on a complete liquidation of a corporation to which section 331 (a) (1) or 342 applies. This section shall apply only if the corporation, for its taxable year preceding the year in which occurred the complete liquidation (or the first of the series of distributions in complete liquidation), was, under the law applicable to such taxable year, a personal holding company or a foreign personal holding company. An extension under this section shall be granted only if it is shown to the satisfaction of the Secretary or his delegate that the failure to grant the extension will result in undue hardship to the taxpayer.

(b) *Security.* For authority of the Secretary or his delegate to require security in the case of such an extension, see section 6165.

§ 1.6162–1 *Extension of time for payment of tax on gain attributable to liquidation of personal holding companies*—(a) *In general.* (1) If it is shown to the satisfaction of the district director that undue hardship to the taxpayer will result from the payment of such portion of the amount determined as the tax under chapter 1 of the Code by the taxpayer as is attributable to the short-term or long-term capital gain derived by the taxpayer from the receipt by him of property other than money on a complete liquidation of a corporation to which section 331 (a) (1) or 342 applies, the district director may grant an extension of time for the payment of such portion of the tax. For the meaning of the term "undue hardship", see paragraph (b) of § 1.6161–1.

(2) The extension of time for payment shall be for a period not in excess of five years. The extension shall only be granted for a taxable year beginning before January 1, 1956, and shall apply only if the corporation, for its taxable year preceding the year in which occurred the complete liquidation (or the first of the series of distributions in complete liquidation), was, under the law applicable to such taxable year, a personal holding company or a foreign personal holding company.

(b) *Requirement of bond.* As a condition to the granting of an extension of time for payment, the taxpayer will usually be required by the district director to furnish a bond as provided in section 6165 and the regulations thereunder. For other provisions with respect to bonds, see section 7101 and the regulations thereunder.

§ 1.6164 *Statutory provisions; extension of time for payment of taxes by corporations expecting carrybacks.*

SEC. 6164. *Extension of time for payment of taxes by corporations expecting carrybacks*—(a) *In general.* If a corporation, in any taxable year, files with the Secretary or his delegate a statement, as provided in subsection (b), with respect to an expected net operating loss carryback from such taxable year, the time for payment of all or part of any tax imposed by subtitle A for the taxable year immediately preceding such taxable year shall be extended, to the extent and subject to the conditions and limitations hereinafter provided in this section.

(b) *Contents of statement.* The statement shall be filed at such time and in such manner and form as the Secretary or his delegate may by regulations prescribe. Such statement shall set forth that the corporation expects to have a net operating loss carryback, as provided in section 172 (b), from the taxable year in which such statement is made, and shall set forth, in such detail and with such supporting data and explanation as such regulations shall require—

(1) The estimated amount of the expected net operating loss;

(2) The reasons, facts, and circumstances which cause the corporation to expect such net operating loss;

(3) The amount of the reduction of the tax previously determined attributable to the expected carryback, such tax previously determined being ascertained in accordance with the method prescribed in section 1314 (a); and such reduction being determined by applying the expected carryback in the manner provided by law to the items on the basis of which such tax was determined;

(4) The tax and the part thereof the time for payment of which is to be extended; and

(5) Such other information for purposes of carrying out the provisions of this section as may be required by such regulations.

The Secretary or his delegate shall, upon request, furnish a receipt for any statement filed, which shall set forth the date of such filing.

(c) *Amount to which extension relates and installment payments.* The amount the time for payment of which may be extended under subsection (a) with respect to any tax shall not exceed the amount of such tax shown on the return, increased by any amount assessed as a deficiency (or as interest or addition to the tax) prior to the date of filing the statement and decreased by any amount paid or required to be paid prior to the date of such filing, and the total amount of the tax the time for payment of which may be extended shall not exceed the amount stated under subsection (b) (3). For purposes of this subsection, an amount shall not be considered as required to be paid unless shown on the return or assessed as a deficiency (or as interest or addition to the tax), and an amount assessed as a deficiency (or as interest or addition to the tax) shall be considered to be required to be paid prior to the date of filing of the statement if the 10th day after notice and demand for its payment occurs prior to such date. If an extension of time under this section relates to only a part of the tax, the time for payment of the remainder shall be considered to be the dates on which payments would have been required if such remainder had been the tax and the taxpayer had elected to pay the tax in installments as provided in section 6152.

(d) *Period of extension.* The extension of time for payment provided in this section shall expire—

(1) On the last day of the month in which falls the last date prescribed by law (including any extension of time granted the taxpayer) for the filing of the return for the taxable year of the expected net operating loss, or

(2) If an application for tentative carryback adjustment provided in section 6411 with respect to such loss is filed before the expiration of the period prescribed in paragraph (1), on the date on which notice is mailed by certified mail or registered mail by the Secretary or his delegate to the taxpayer that such application is allowed or disallowed in whole or in part.

(e) *Revised statements.* Each statement filed under subsection (a) with respect to any taxable year shall be in lieu of the last statement previously filed with respect to such year. If the amount the time for payment of which is extended under a statement filed is less than the amount under the last statement previously filed, the extension of time shall be terminated as to the difference between the two amounts.

(f) *Termination.* The Secretary or his delegate is not required to make any examination of the statement, but he may make such examination thereof as he deems necessary and practicable. The Secretary or his delegate shall terminate the extension as to any part of the amount to which it relates which he deems should be terminated because, upon such examination, he believes that, as of the time such examination is made, all or any part of the statement clearly is in a material respect erroneous or unreasonable.

(g) *Payments on termination.* If an extension of time is terminated under subsection (e) or (f) with respect to any amount, then—

(1) No further extension of time shall be made under this section with respect to such amount, and

(2) The time for payment of such amount shall be considered to be the dates on which payments would have been required if there had been no extension with respect to such amount and the taxpayer had elected to pay the tax in installments as provided in section 6152.

(h) *Jeopardy.* If the Secretary of his delegate believes that collection of the amount to which an extension under this section relates is in jeopardy, he shall immediately terminate such extension, and notice and demand shall be made by him for payment of such amount.

(i) *Consolidated returns.* If the corporation seeking an extension of time under this section made or was required to make a consolidated return, either for the taxable year within which the net operating loss arises or for the preceding taxable year affected by such loss, the provisions of such section shall apply only to such extent and subject to such conditions, limitations, and exceptions as the Secretary or his delegate may by regulations prescribe.

(Sec. 6164, as amended by sec. 89 (b), Technical Amendments Act 1958)

§ 1.6164–1 *Extensions of time for payment of taxes by corporations expecting carrybacks*—(a) *In general.* If a corporation in any taxable year files a statement with respect to an expected net operating loss carryback from such taxable year, such corporation may extend the time for the payment of all or part of any tax imposed by subtitle A for the taxable year immediately preceding such taxable year to the extent and subject to the limitations provided in section 6164. A corporation may extend the time for payment with respect to only such taxes as meet the following requirements:

(1) The tax must be one imposed by subtitle A of the Code;

(2) The tax must be for the taxable year immediately preceding the taxable year of the expected net operating loss;

(3) The tax must be shown on the return or must be assessed within the taxable year of the expected net operating loss; and

(4) The tax must not have been paid or required to have been paid prior to the filing of the statement.

(b) *Statement for purpose of extending time for payment.* (1) The time for payment of the tax is automatically extended upon the filing of a statement on Form 1138 by the corporation with the district director for the district where the tax is payable. The statement on Form 1138 must be filled out in accordance with the instructions accompanying the form, and all information required by the form and the instructions must be furnished by the taxpayer. The district director, upon request, will furnish a receipt for any statement filed. Such receipt will show the date the statement was filed.

(2) The period of extension is that provided in section 6164 (d) and § 1.6164–5 unless sooner terminated by action of either the district director or the corporation.

§ 1.6164–2 *Amount of tax the time for payment of which may be extended*—(a) *Total amount to which extension may relate.* The total amount of tax the time for payment of which may be extended under section 6164 may not exceed the amount of the reduction of the taxes previously determined attributable to the expected carryback.

(b) *Amount of tax to which extension may relate.* (1) The taxpayer shall specify on Form 1138 the kind of tax and the amount thereof the time for payment of which is to be extended. The amount of tax to which an extension may relate shall not exceed the amount of such tax shown on the return as filed, increased by any amount assessed as a deficiency (or as interest or addition to the tax) prior to the date of filing the statement and decreased by any amount paid or required to be paid prior to such date. In determining the amount of tax required to be paid prior to the date of filing the statement, only the following amounts shall be taken into consideration:

(i) The amount of the tax shown on the return as filed; and

(ii) Any amount assessed as a deficiency (or as interest or addition to the tax) if the tenth day after notice and demand for its payment occurs prior to the date of the filing of the statement.

(2) Delinquent installments are to be considered amounts required to be paid prior to the date of filing the statement. In the case of any authorized extension of time under sections 6161 and 6162, the amount of tax the time for payment of which is so extended is not to be considered required to be paid prior to the end of such extension. Similarly, any amount assessed as a deficiency (or as interest or addition to the tax) is not to be considered required to be paid prior to the date of the filing of the statement unless the tenth day after notice and demand for its payment falls prior to the date of the filing of the statement.

(2) The taxpayer may choose to extend the time for payment of all of one or more taxes, or it may choose to extend the time for payment of portions of several taxes. The taxes chosen by the taxpayer need not be those taxes which are affected by the carryback.

§ 1.6164–3 *Computation of the amount of reduction of the tax previously determined*—(a) *Tax previously determined.* The taxpayer is to determine the amount of the reduction, attributable to the expected carryback, in the aggregate of the taxes previously determined for taxable years prior to the taxable year of the expected net operating loss. The tax previously determined is to be ascertained in accordance with the method prescribed in section 1314 (a). Thus, the tax previously determined will be the tax shown on the return as filed, increased by any amounts assessed (or collected without assessment) as deficiencies prior to the date of the filing of the statement, and decreased by any amounts abated, credited, refunded, or otherwise repaid prior to such date. Any items as to which the Internal Revenue Service and the taxpayer are in disagreement at the time of the filing of the statement shall be taken into account in ascertaining the tax previously determined only if, and to the extent that, they were reported in the return, or were reflected in any amounts assessed (or collected without assessment) as deficiencies, or in any amounts abated, credited, refunded, or otherwise repaid, prior to the date of the filing of the statement. The tax previously determined will reflect the foreign tax credit and the credit for tax withheld at source provided in section 32.

(b) *Reduction attributable to the expected carryback.* The reduction, attributable to the expected carryback or related adjustments, in any tax previously determined is to be ascertained by applying the expected carryback as if it were a determined net operating loss carryback, in accordance with the provisions of section 172 and §§ 1.172–1 to 1.172–8, inclusive. Items must be taken into account only to the extent that such items were included in the return, or were reflected in amounts assessed (or collected without assessment) as deficiencies, or in amounts abated, credited, refunded, or otherwise repaid, prior to the date of the filing of the statement. Thus, for example, if the taxpayer claims a deduction for depreciation of $10,000 in its return and the Internal Revenue Service asserts that only $4,000 is properly deductible, no change is to be made in the $10,000 depreciation deduction as shown by the taxpayer on his return unless a deficiency has been assessed, or an amount collected without assessment, prior to the date of filing of the statement as a result of a change in the depreciation deduction, or unless such change in the depreciation deduction was reflected in an amount abated, credited, refunded, or otherwise repaid prior to such date.

§ 1.6164–4 *Payment of remainder of tax where extension relates to only part of the tax*—(a) *Time for payment.* If an extension of time relates to only part of the tax, the time for payment of the remainder of the tax shall be considered to be the dates on which payments would have been required if such remainder had been the tax and the taxpayer had elected to pay the tax in installments as provided in section 6152 (a).

(b) *Example.* The provisions of this section may be illustrated by the following example:

Example. Corporation X, which keeps its books and makes its tax returns on the calendar year basis, filed its income tax return for 1956 on March 15, 1957. The corporation showed a tax of $1,000 on its return and paid 50 percent of such tax, or $500 on March 15, 1957. On June 3, 1957, corporation X, pursuant to the provisions of section 6164, extended the time for payment of $400 of such tax. The remainder of the tax the time for payment of which was not so extended, i. e., $600, is to be considered the tax for purposes of determining when it is to be paid. The remainder is considered to be due on the dates on which payment would have been required if such remainder had been the tax. Since the taxable year ended on December 31, 1956, the tax is payable in two equal installments of $300 each on March 15, 1957, and June 17, 1957. The taxpayer, having paid $500 on March 15, 1957, will have $100 to pay on June 17, 1957.

§ 1.6164–5 *Period of extension.* If the time for the payment of any tax has been extended pursuant to section 6164, such extension shall expire:

(a) On the last day of the month in which falls the last date prescribed by law (including any extension of time granted the taxpayer) for the filing of the return for the taxable year of the expected net operating loss; or

(b) If an application for a tentative carryback adjustment provided in section 6411 with respect to such loss is filed before the expiration of the period specified in paragraph (a) of this section, on the date on which notice is mailed by registered mail prior to September 3, 1958, and by either registered or certified mail on and after September 3, 1958, to the taxpayer that such application is allowed or disallowed in whole or in part.

§ 1.6164–6 *Revised statements*—(a) *Requirements and effect.* A corporation may file more than one statement under section 6164 with respect to any one taxable year. Each statement is to be considered a new statement and not an amendment of any prior statement. Each such new statement is to be in lieu of the last statement previously filed with respect to the taxable year. The new statement may extend the time for payment of a greater or lesser amount of tax than was extended under the prior statement or may change the kind of tax the time for payment of which is to be extended. The extension may not relate to any amount of tax which was paid or required to be paid prior to the date of filing the new statement. Any amount of tax the time for payment of which was extended under a prior statement, however, may continue to be extended under the new statement. If the amount the time for payment of which is extended under the new statement is less than the amount so extended under the last statement previously filed, the extension of time shall be terminated on the date the new statement is filed as to the difference between the two amounts. See § 1.6164–8 for the dates on which such difference must be paid. If a corporation pays any amount of tax, the time for payment of which was extended, prior to the date the extension would otherwise terminate, the extension with respect to such amount shall be deemed terminated, without regard to whether a new statement is filed, on the date such amount is paid. The corporation shall indicate on each new statement filed that it has already filed one or more prior statements with respect to the taxable year. The corporation shall likewise indicate the date each prior statement was filed and the amount of each tax the time for payment of which was extended under each prior statement.

(b) *Example.* The provisions of this section may be illustrated by the following example:

Example. Corporation Y, which keeps its books and makes its tax returns on the calendar year basis, filed its income tax return for 1956 on March 15, 1957, showing a tax of $100,000. At the same time it filed a statement under section 6164 in which it stated that it expected to have a net operating loss of $75,000 in 1957 and that the reduction in the tax previously determined for 1955 (the second taxable year preceding the year of the expected net operating loss) attributable to the expected net operating loss carryback resulting from such expected loss, would be $39,000. The corporation accordingly extended the time for payment of $30,000 of its income tax for 1956, and paid $30,500 (30 percent of the excess of $100,000 over $39,000) of such tax on March 15, 1957 (see section 6164 (c) and § 1.6164–4). As a result of its operations during the next several months, the corporation filed a second statement on June 3, 1957, in which it stated that its expected net operating loss for 1957 would amount to $150,000 and that the corresponding reduction in the tax for 1955 would amount to $78,000. Corporation Y under the new statement may extend the time for payment of $30,500, the installment due on June 17, 1957, and the time for payment of the $39,000 extended under the first statement filed on March 15, 1957, may continue to be extended under the second statement. The $30,500 which was paid on March 15, 1957, will not be affected by the second statement filed on June 3, 1957.

§ 1.6164–7 *Termination by district director*—(a) *After an examination of the statement filed by the corporation is made.* The district director is authorized to make such examination of the statements filed as he deems necessary and practicable. If, upon such examination as he may make, the district director believes that, as of the time he makes the examination, all or any part of the statement is in a material respect erroneous or unreasonable, he will terminate the extension as to any part of the amount to which such extension relates which he deems should be terminated.

(b) *Jeopardy.* If the district director believes that the collection of any amount to which an extension under section 6164 relates is in jeopardy, he will immediately terminate the extension. In the case of such a termination, notice and demand shall be made by the district director for payment of such

amount, and there may be no further extension of time under section 6164 with respect to such amount.

§ 1.6164–8 *Payments on termination*—(a) *In general.* If an extension of time under section 6164 is terminated with respect to any amount either (1) by the filing of a new statement by the taxpayer under section 6164 (e) extending the time for payment of a lesser amount than was extended in a prior statement, or (2) by action of the district director under section 6164 (f) after making an examination of the statement filed by the corporation, no further extension of time may be made under section 6164 with respect to such amount. The time for payment of such amount shall be the dates on which payments would have been required if there had been no extension with respect to such amount and the taxpayer had elected under section 6152 (a) to pay the tax in installments.

(b) *Example.* The provisions of this section may be illustrated by the following example:

Example. Corporation Z, which keeps its books and makes its tax returns on the calendar year basis, filed its income tax return for 1956 on March 15, 1957, showing a tax of $100,000. At the same time it filed a statement under section 6164 extending the time for payment of the entire $100,000 on the basis of an expected net operating loss carryback from 1957. On April 10, 1957, the corporation filed a new statement indicating that the reduction, attributable to the carryback from 1957, in its income tax for 1956, would only be $80,000, and thus terminated the above extension of $20,000. The time for payment of such $20,000 may not be extended again, and such $20,000 is payable as if it were the tax for 1956 and corporation Z had elected to pay such tax in installments. That is, $10,000 is payable on March 15, 1957, and $10,000 payable on June 17, 1957. Inasmuch as the March 15 date had already passed when the corporation Z terminated the extension with respect to the $20,000, $10,000 is payable immediately upon such termination, and the other installment of $10,000 is payable on June 17, 1957. This example would also apply if the extension of time for payment of the $20,000 were terminated instead by the district director on April 10, 1957.

§ 1.6164–9 *Cross references.* For provisions with respect to interest due on amounts the payment of which is extended under section 6164, see section 6601 and § 301.6601–1 (e) of this chapter. For provisions relating to the applicability of section 6164 in the case of corporations making or required to make consolidated returns, see § 1.1502–19.

TENTATIVE CARRYBACK ADJUSTMENTS

§ 1.6411 *Statutory provisions; tentative carryback adjustments.*

SEC. 6411. *Tentative carryback adjustments*—(a) *Application for adjustment.* A taxpayer may file an application for a tentative carryback adjustment of the tax for the prior taxable year affected by a net operating loss carryback, provided in section 172 (b), from any taxable year. The application shall be verified in the manner prescribed by section 6065 in the case of a return of such taxpayer, and shall be filed, on or after the date of filing of the return for the taxable year of the net operating loss from which the carryback results and within a period of 12 months from the end of such taxable year, in the manner and form required by regulations prescribed by the Secretary or his delegate. The application shall set forth in such detail and with such supporting data and explanation as such regulations shall require—

(1) The amount of the net operating loss;

(2) The amount of the tax previously determined for the prior taxable year affected by such carryback, the tax previously determined being ascertained in accordance with the method prescribed in section 1314 (a);

(3) The amount of decrease in such tax, attributable to such carryback, such decrease being determined by applying the carryback in the manner provided by law to the items on the basis of which such tax was determined;

(4) The unpaid amount of such tax, not including any amount required to be shown under paragraph (5);

(5) The amount, with respect to the tax for the taxable year immediately preceding the taxable year of such loss, as to which an extension of time for payment under section 6164 is in effect; and

(6) Such other information for purposes of carrying out the provisions of this section as may be required by such regulations.

An application under this subsection shall not constitute a claim for credit or refund.

(b) *Allowance of adjustments.* Within a period of 90 days from the date on which an application for a tentative carryback adjustment is filed under subsection (a), or from the last day of the month in which falls the last date prescribed by law (including any extension of time granted the taxpayer) for filing the return for the taxable year of the net operating loss from which such carryback results, whichever is the later, the Secretary or his delegate shall make, to the extent he deems practicable in such period, a limited examination of the application, to discover omissions and errors of computation therein, and shall determine the amount of the decrease in the tax attributable to such carryback upon the basis of the application and the examination, except that the Secretary or his delegate may disallow, without further action, any application which he finds contains errors of computation which he deems cannot be corrected by him within such 90-day period or material omissions. Such decrease shall be applied against any unpaid amount of the tax decreased (including any amount of such tax as to which an extension of time under section 6164 is in effect) and any remainder shall be credited against any unsatisfied amount of any tax for the taxable year immediately preceding the taxable year of the net operating loss the time for payment of which tax is extended under section 6164. Any remainder shall, within such 90-day period, be either credited against any tax or installment thereof then due from the taxpayer, or refunded to the taxpayer.

(c) *Consolidated returns.* If the corporation seeking a tentative carryback adjustment under this section, made or was required to make a consolidated return, either for the taxable year within which the net operating loss arises, or for the preceding taxable year affected by such loss, the provisions of this section shall apply only to such extent and subject to such conditions, limitations, and exceptions as the Secretary or his delegate may by regulations prescribe.

§ 1.6411–1 *Tentative carryback adjustments*—(a) *In general.* Any taxpayer who has a net operating loss under section 172 may file an application under section 6411 for a tentative carryback adjustment of the taxes for taxable years prior to the taxable year of the loss which are affected by the net operating loss carryback resulting from such loss. The right to file an application for a tentative carryback adjustment is not limited to corporations, but is available to any taxpayer. A corporation may file an application for a tentative carryback adjustment even though it has not extended the time for payment of tax under section 6164.

(b) *Contents of application.* (1) The application for a tentative carryback adjustment shall be filed, in the case of a corporation, on Form 1139, and in the case of taxpayers other than corporations, on Form 1045. The application shall be filled out in accordance with the instructions accompanying the form, and all information required by the form and the instructions must be furnished by the taxpayer.

(2) An application for a tentative carryback adjustment does not constitute a claim for credit or refund. If such application is disallowed by the district director in whole or in part, no suit may be maintained in any court for the recovery of any tax based on such application. The filing of an application for a tentative carryback adjustment will not constitute the filing of a claim for credit or refund within the meaning of section 6511 for purposes of determining whether a claim for credit or refund was filed prior to the expiration of the applicable period of limitation. The taxpayer, however, may file a claim for credit or refund under section 6402 at any time prior to the expiration of the applicable period of limitation, and may maintain a suit based on such claim if it is disallowed or if the district director does not act on the claim within six months from the date it is filed. Such claim may be filed before, simultaneously with, or after the filing of the application for a tentative carryback adjustment. A claim for credit or refund under section 6402 filed after the filing of an application for a tentative carryback adjustment is not to be considered an amendment of such application. Such claim, however, in proper cases may constitute an amendment to a prior claim filed under section 6402.

(c) *Time and place for filing application.* The application for a tentative carryback adjustment shall be filed on or after the date of the filing of the return for the taxable year of the net operating loss and shall be filed within a period of twelve months from the end of such taxable year. Any application filed prior to the date the return for the taxable year of the loss is filed shall be considered to have been filed on the date such return is filed. The application shall be filed with the district director for the district in which the tax was paid or the assessment was made.

§ 1.6411–2 *Computation of tentative carryback adjustment*—(a) *Tax previously determined.* The taxpayer is to determine the amount of decrease, attributable to the carryback, in tax previously determined for each taxable year before the taxable year of the net operating loss. The tax previously determined is to be ascertained in accordance with the method prescribed in section 1314 (a). Thus, the tax previously determined will be the tax shown on the return as filed, increased by any amounts assessed (or collected without assessment) as deficiencies before the date of the filing of the application for a tentative carryback adjustment, and decreased by any amounts abated, credited, refunded, or otherwise repaid prior to such date. Any items as to which the Internal Revenue Service and the taxpayer are in disagreement at the time of the filing of the application shall be taken into account in ascertaining the tax previously determined only if, and to the extent that, they were reported in the return, or were reflected in any amounts assessed (or collected without assessment) as deficiencies, or in any amounts abated, credited, refunded, or otherwise repaid, before the date of filing the application. The tax previously determined, therefore, will reflect the foreign tax credit and the credit for tax withheld at source provided in section 32.

(b) *Decrease attributable to carryback.* The decrease in tax previously determined which is affected by the carryback or any related adjustments, is to be determined, except for such carryback and related adjustments, on the basis of the items which entered into the computation of such tax as previously determined; the tax previously determined being ascertained in the manner described in this section. In determining any such decrease, items shall be taken into account only to the extent that they were reported in the return, or were reflected in amounts assessed (or collected without assessment) as deficiencies, or in amounts abated, credited, refunded, or otherwise repaid, before the date of filing the application for a tentative carryback adjustment. If the Internal Revenue Service and the taxpayer are in disagreement as to the proper treatment of any item, it shall be assumed for purposes of determining the decrease in the tax previously determined that such item was correctly reported by the taxpayer unless, and to the extent that, the disagreement has resulted in the assessment of a deficiency (or the collection of an amount without an assessment), or the allowing or making of an abatement, credit, refund, or other repayment, before the date of filing the application. Thus, if the taxpayer claimed a deduction on its return of $50,000 for salaries paid its officers but the district director asserts that such deduction should not exceed $20,000, and the Internal Revenue Service and the taxpayer have not agreed on the amount properly deductible before the date the application for a tentative carryback adjustment is filed, $50,000 shall be considered as the amount properly deductible for purposes of determining the decrease in tax previously determined in respect of the application for a tentative carryback adjustment. In determining the decrease in tax previously determined, any items which are affected by the carryback must be adjusted to reflect such carryback. Thus, unless otherwise provided, any deduction limited, for example, by adjusted gross income, such as the deduction for medical, dental, etc., expenses is to be recomputed on the basis of the adjusted gross income as affected by the carryback.

§ 1.6411–3 *Allowance of adjustments*—(a) *Time prescribed.* The district director shall act upon any application for a tentative carryback adjustment filed under section 6411 (a) within a period of 90 days from whichever of the following two dates is the later:

(1) The date the application is filed; or

(2) The last day of the month in which falls the last date prescribed by law (including any extension of time granted the taxpayer) for filing the return for the taxable year of the net operating loss from which the carryback results.

(b) *Examination.* Within the 90-day period described in paragraph (a) of this section, the district director shall make, to the extent he deems practicable in such period, an examination of the application to discover omissions and errors of computation. He shall determine within such period the decrease in tax previously determined, affected by the carryback or any related adjustments, upon the basis of the application and such examination. Such decrease shall be determined in the same manner as that provided in section 1314 (a) for the determination by the taxpayer of the decrease in taxes previously determined which must be set forth in the application for a tentative carryback adjustment. The district director, however, may correct any errors of computation or omissions he may discover upon examination of the application. In determining the decrease in tax previously determined which is affected by the carryback or any related adjustment, he accordingly may correct any mathematical error appearing on the application and he may likewise correct any modification required by the law and incorrectly made by the taxpayer in computing its net operating loss, the resulting carrybacks, or its net operating loss deduction. If the required modification has not been made by the taxpayer and the district director has available the necessary information to make such modification within the 90-day period, he may, in his discretion, make such modification. In determining such decrease, however, the district director will not, for example, change the amount claimed on the return as a deduction for depreciation because he believes that the taxpayer has claimed an excessive amount; likewise, he will not include in gross income any amount not so included by the taxpayer, even though the district director believes that such amount is subject to tax and properly should be included in gross income.

(c) *Disallowance in whole or in part.* If the district director finds that an application for a tentative carryback adjustment contains material omissions or errors of computation, he may disallow such application in whole or in part without further action. If, however, he deems that any error of computation can be corrected by him within the 90-day period, he may do so and allow the application in whole or in part. The district director's determination as to whether he can correct any error of computation within the 90-day period shall be conclusive. Similarly, his action in disallowing, in whole or in part, any application for a tentative carryback adjustment shall be final and may not be challenged in any proceeding. The taxpayer in such case, however, may file a claim for credit or refund under section 6402, and may maintain a suit based on such claim if it is disallowed or if the district director does not act upon the claim within six months from the date it is filed.

(d) *Application of decrease.* (1) Each decrease determined by the district director in any previously determined tax which is affected by the carryback or any related adjustments shall first be applied against any unpaid amount of the tax with respect to which such decrease was determined. Such unpaid amount of tax may include one or more of the following:

(i) An amount with respect to which the taxpayer is delinquent;

(ii) An amount the time for payment of which has been extended under section 6164 and which is due and payable on or after the date of the allowance of the decrease; and

(iii) An amount (including an amount the time for payment of which has been extended under section 6161 or 6162, but not including an amount the time for payment of which has been extended under section 6164) which is due and payable on or after the date of the allowance of the decrease.

(2) In case the unpaid amount of tax includes more than one of such amounts, the district director, in his discretion, shall determine against which amount or amounts, and in what proportion, the decrease is to be applied. In general, however, the decrease will be applied against any amounts described in subparagraph (1) (i), (ii), and (iii) of this paragraph in the order named. If there are several amounts of the type described in subparagraph (1) (iii) of this paragraph, any amount of the decrease which is to be applied against such amounts will be applied by assuming that the tax previously determined minus the amount of the decrease to be so applied is "the tax" and that the taxpayer had elected to pay such tax in installments. The unpaid amount of tax against which a decrease may be applied under subparagraph (1) of this paragraph may not include any amount of tax for any taxable year other than the year of the decrease. After making such application, the district director will credit any remainder of the decrease against any unsatisfied amount of any tax for the taxable year immediately preceding the taxable year of the net operating loss the time for payment of which has been extended under section 6164.

(3) Any remainder of the decrease after such application and credits may, within the 90-day period, in the discretion of the district director, be credited against any tax or installment thereof then due from the taxpayer, and, if not so credited, shall be refunded to the taxpayer within such 90-day period.

§ 1.6411–4 Consolidated returns. For further rules applicable to affiliated

groups in the case of tentative carryback adjustments, see § 1.1502–19.

TERMINATION OF TAXABLE YEAR IN CASE OF JEOPARDY

§ 1.6851 *Statutory provisions; termination of taxable year.*

SEC. 6851. *Termination of taxable year—*(a) *Income tax in jeopardy*—(1) *In general.* If the Secretary or his delegate finds that a taxpayer designs quickly to depart from the United States or to remove his property therefrom, or to conceal himself or his property therein, or to do any other act tending to prejudice or to render wholly or partly ineffectual proceedings to collect the income tax for the current or the preceding taxable year unless such proceedings be brought without delay, the Secretary or his delegate shall declare the taxable period for such taxpayer immediately terminated, and shall cause notice of such finding and declaration to be given the taxpayer, together with a demand for immediate payment of the tax for the taxable period so declared terminated and of the tax for the preceding taxable year or so much of such tax as is unpaid, whether or not the time otherwise allowed by law for filing return and paying the tax has expired; and such taxes shall thereupon become immediately due and payable. In any proceeding in court brought to enforce payment of taxes made due and payable by virtue of the provisions of this section, the finding of the Secretary or his delegate, made as herein provided, whether made after notice to the taxpayer or not, shall be for all purposes presumptive evidence of jeopardy.

(2) *Corporation in liquidation.* If the Secretary or his delegate finds that the collection of the income tax of a corporation for the current or the preceding taxable year will be jeopardized by the distribution of all or a portion of the assets of such corporation in the liquidation of the whole or any part of its capital stock, the Secretary or his delegate shall declare the taxable period for such taxpayer immediately terminated and shall cause notice of such finding and declaration to be given the taxpayer, together with a demand for immediate payment of the tax for the taxable period so declared terminated and of the tax for the preceding taxable year or so much of such tax as is unpaid, whether or not the time otherwise allowed by law for filing return and paying the tax has expired; and such taxes shall thereupon become immediately due and payable.

(b) *Reopening of taxable period.* Notwithstanding the termination of the taxable period of the taxpayer by the Secretary or his delegate, as provided in subsection (a), the Secretary or his delegate may reopen such taxable period each time the taxpayer is found by the Secretary or his delegate to have received income, within the current taxable year, since a termination of the period under subsection (a). A taxable period so terminated by the Secretary or his delegate may be reopened by the taxpayer (other than a nonresident alien) if he files with the Secretary or his delegate a true and accurate return of the items of gross income and of the deductions and credits allowed under this title for such taxable period, together with such other information as the Secretary or his delegate may by regulations prescribe. If the taxpayer is a nonresident alien the taxable period so terminated may be reopened by him if he files, or causes to be filed, with the Secretary or his delegate a true and accurate return of his total income derived from all sources within the United States, in the manner prescribed in this title.

(c) *Citizens.* In the case of a citizen of the United States or of a possession of the United States about to depart from the United States, the Secretary or his delegate may, at his discretion, waive any or all of the requirements placed on the taxpayer by this section.

(d) *Departure of alien.* No alien shall depart from the United States unless he first procures from the Secretary or his delegate a certificate that he has complied with all the obligations imposed upon him by the income tax laws.

(e) *Furnishing of bond where taxable year is closed by the Secretary or his delegate.* Payment of taxes shall not be enforced by any proceedings under the provisions of this section prior to the expiration of the time otherwise allowed for paying such taxes if the taxpayer furnishes, under regulations prescribed by the Secretary or his delegate, a bond to insure the timely making of returns with respect to, and payment of, such taxes or any income or excess profits taxes for prior years.

§ 1.6851–1 *Termination of taxable period by district director*—(a) *Income tax in jeopardy*—(1) *In general.* If a taxpayer designs by immediate departure from the United States, or otherwise, to avoid the payment of income tax for the preceding or current taxable year, the district director may, upon evidence satisfactory to him, declare the taxable period for such taxpayer immediately terminated and cause to be served upon him notice and demand for immediate payment of the income tax for the short taxable period resulting from such termination, and of the income tax for the preceding taxable year, or so much of such tax as is unpaid. In such a case, the taxpayer is entitled to a deduction for his personal exemptions (as limited in the case of certain nonresident aliens) without any proration because of the short taxable period.

(2) *Corporations in liquidation.* If the district director finds that the collection of the income tax of a corporation for the current or the preceding taxable year will be jeopardized by the distribution of all or a portion of the assets of such corporation in the liquidation of the whole or any part of its capital stock, he shall declare the taxable period for such corporation immediately terminated and cause to be served upon the corporation notice and demand for immediate payment of the income tax for the short taxable period resulting from such termination, and of the income tax for the preceding taxable year, or so much of such tax as is unpaid.

(3) *Presumptive evidence of jeopardy.* In any proceeding in court brought to enforce payment of taxes made due and payable by virtue of the provisions of section 6851 and this paragraph, the finding of the district director shall be for all purposes presumptive evidence of jeopardy.

(4) *Bond.* For the provisions relating to the furnishing of a bond in lieu of making immediate payment of the taxes which become due by action pursuant to this paragraph, see § 1.6851–2.

(b) *Reopening of taxable period.* (1) If a taxpayer whose taxable period has been terminated under section 6851 and paragraph (a) of this section receives other income subsequent to such termination within his current taxable year, the district director may reopen the period so terminated and may, in accordance with section 6851 and paragraph (a) of this section, again terminate the taxable period of such taxpayer. In such case, tax liability shall be computed for the period beginning with the first day of the current taxable year of the taxpayer and ending at the time of the later termination.

(2) When a taxpayer whose taxable period has been terminated under section 6851 and paragraph (a) of this section files the return required by paragraph (c) of this section, the taxable period so terminated shall be reopened.

(c) *Taxable year not affected by termination.* Notwithstanding any action by a district director under section 6851 and this section, a taxpayer shall file a return in accordance with section 6012 and the regulations thereunder for his current taxable year showing all items of gross income, deductions, and credits for such taxable year. The term "current taxable year" means the taxpayer's usual annual accounting period determined without regard to any action under section 6851 and this section. Any tax paid as a result of a termination under section 6851 and this section will be applied against the tax due for his current taxable year.

§ 1.6851–2 *Furnishing of bond to insure payment.* If any income tax is made due and payable by virtue of the provisions of section 6851 and § 1.6851–1, a taxpayer may, in lieu of making immediate payment thereof, furnish the district director a bond in an amount equal to the amount of tax (including interest thereon to the date of payment as calculated by the district director) payment of which is sought to be stayed, conditioned upon the timely filing of returns with respect to such tax and the payment of such tax at the time it would otherwise be payable without regard to the provisions of section 6851 and § 1.6851–1. See section 7101 and the regulations thereunder, relating to the form of bond and the sureties thereon.

MISCELLANEOUS PROVISIONS

§ 1.9100–1 *Extension of time for making certain elections*—(a) *In general.* The Commissioner in his discretion may, upon good cause shown, grant a reasonable extension of the time fixed by the regulations in this chapter for the making of an election or application for relief in respect of tax under subtitle A of the Code provided—

(1) The time for making such election or application is not expressly prescribed by law;

(2) Request for the extension is filed with the Commissioner before the time fixed for making such election or application, or within such time thereafter as the Commissioner may consider reasonable under the circumstances; and

(3) It is shown to the satisfaction of the Commisioner that the granting of the extension will not jeopardize the interests of the Government.

(b) *Exceptions.* Notwithstanding the provisions of paragraph (a) of this section, the time fixed by the regulations in this chapter will not be extended in cases such as the following:

(1) An election required to be made in or with the taxpayer's original income tax return;

(2) An election required to be exercised by the filing of a claim for credit or refund, unless the election is required to be exercised on or before a date which precedes the date of expiration of the period of limitations provided in section 6511;

(3) An election required to be filed in a petition to the Tax Court;

(4) An application for permission to change a previous election;

(5) An application for permission to change an accounting method as described in §§ 1.77–1 and 1.446–1;

(6) An application for permission to change an accounting period as described in § 1.442–1; or

(7) An application for permission to change the method of treating bad debts as described in § 1.166–1.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 31]

WILLAPA NATIONAL WILDLIFE REFUGE, WASHINGTON

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to revise paragraph (f) of § 31.361, Subpart—Willapa National Wildlife Refuge, Washington, Title 50, Code of Federal Regulations, to read as set forth in tentative form below. The purpose of this amendment is to delineate a more satisfactory boundary of the public hunting areas on the Willapa National Wildlife Refuge without otherwise modifying the public hunting privileges that are available.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed amendment to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: September 15, 1958.

LANSING A. PARKER,
Acting Director,
Bureau of Sport
Fisheries and Wildlife.

§ 31.361 *Hunting of migratory waterfowl and coots.* * * *

(f) The hunting areas are described as follows:

Area I. The area of the refuge bounded on the east by the channel of Bear River; on the north by the line (projected) between Townships 10 and 11 North, W. M.; on the west by the line (projected) between Ranges 10 and 11 West; on the south by the outside (seaward) toe of the dike running easterly and southerly and by the south line of sec. 7, T. 10 N., R. 10 W., thence east to the channel of Bear River.

Area II. The area of the refuge bounded on the east by the north and south center line (projected) of sec. 1, T. 10 N., R. 11 W.; on the north by the line (projected) between Townships 10 and 11 north; on the west by the east bank of Tarlett Slough; and on the south by the outside (seaward) toe of the dike running northeasterly to said center line of sec. 1.

[50 CFR Part 155]

NORTHWEST ATLANTIC COMMERCIAL FISHERIES; HADDOCK AND COD PROVISIONS

NOTICE OF PROPOSED RULE MAKING

At its Fifth Annual Meeting held in Ottawa, Canada, June 6–11, 1955, the International Commission for the Northwest Atlantic Fisheries, a body created pursuant to Article II of the International Convention for the Northwest Atlantic Fisheries signed at Washington, D. C., under date of February 8, 1949, adopted three proposals recommending that the Contracting Governments take appropriate action to—

(1) Prohibit the taking of haddock and cod in Sub-area 3 of the Convention Area with a trawl net having a mesh size of less than four inches;

(2) Prohibit the taking of haddock and cod in Sub-areas 4 and 5 of the Convention Area with a trawl net having a mesh size of less than four and one-half inches;

(3) Permit persons to take haddock and cod in Sub-areas 3, 4, and 5 of the Convention Area with trawl nets having a mesh size less than that proscribed so long as such persons do not have in possession on board a vessel fishing primarily for other species, haddock or cod in amounts in excess of five thousand pounds for each species or ten percent by weight for each species of all fish on board such vessel, whichever is greater; and

(4) To prohibit the use of any means or device which would obstruct the meshes of the trawl net or which otherwise would have the effect of diminishing the size of the meshes of the net, except that the use of a protective covering (chafing gear) might be permitted to reduce and prevent damage to trawl nets so long as such protective covering is used in conformity with conditions prescribed by the Commission.

In each of the three Commission proposals, the recommended restrictions on the mesh size of a net are stated in terms of a trawl not constructed of manila twine, with the provision that when trawl nets other than manila are used they shall have a selectivity equivalent to that of a four-inch manila trawl net or a four and one-half inch manila trawl net, as the case may be.

The proposal relating to Sub-area 5 adopted at the Commission's Fifth Annual Meeting had the effect of superseding a proposal initially adopted at a Commission meeting held in St. Andrews, New Brunswick, Canada, June 30–July 9, 1952, which had recommended mesh size restrictions applicable only to haddock fishing in Sub-area 5 of the Convention Area. The three proposals adopted at the Commission's Fifth Annual Meeting recommended mesh size restrictions for cod fishing, as well as haddock fishing, in Sub-area 5 and, for the first time, recommended the institution of mesh size restrictions applicable to both haddock fishing and cod fishing within Sub-areas 3 and 4 of the Convention Area.

At its Sixth Annual Meeting held in Halifax, Nova Scotia, Canada, June 11–15, 1956, the Commission amended the proposal relating to Sub-area 5 which had been adopted at its Fifth Annual Meeting to provide for an alternative to the "five thousand pound-ten percent" exemption per fishing trip. The alternative exemption so proposed was limited in application to the taking of haddock and cod in Sub-area 5 only. Under the alternative provided by the Commission's amended proposal all Contracting Governments might also exempt from the mesh size restriction any person fishing in Sub-area 5 who does not catch, in any period of twelve months, haddock or cod in quantities in excess of ten percent for each species of all the trawl-caught fish taken by such person during such period of twelve months.

Acceptance of the proposal relating to Sub-area 5 adopted at the Commission's Fifth Annual Meeting, as amended by the Commission at its Sixth Annual Meeting, was completed by the Governments of the United States and Canada on November 26, 1956. Accordingly, in accordance with the provisions of the International Convention for the Northwest Atlantic Fisheries, the proposal as adopted and amended entered into force with respect to all Contracting Governments on March 26, 1957. Subsequently, the proposal was implemented with respect to persons under the jurisdiction of the United States engaged in fishing within Sub-area 5 through a revision of Part 155, Title 50, Code of Federal Regulations, issued on September 6, 1957 (22 F. R. 7426).

At its Seventh Annual Meeting held in Lisbon, Portugal, May 20–25, 1957, the Commission amended each of the three proposals adopted at its Fifth Annual Meeting to impose additional restrictions on the manner in which chafing gear may be fastened to the cod ends of trawl nets. Since Canada and the United States are the only Contracting Governments participating in Panel 5 for Sub-area 5, and both Governments having accepted the amendments made at the Commission's Seventh Annual Meeting, the amendment relating to Sub-area 5 will become effective on September 28, 1958, for all Contracting Governments to the Convention. Acceptance of the amendments for Sub-areas 3 and 4 not having been completed by all Contracting Governments participating in Panels 3 and 4, the effective dates of the amendments to the proposals for Sub-areas 3 and 4 are indeterminate. In the circumstances, the provisions of the 1955 Commission proposals governing the manner of fastening chafing gear to cod ends employed in fishing for haddock and cod in Sub-areas 3 and 4 thus far remain unchanged.

On November 29, 1957, the two proposals adopted at the Commission's

Fifth Annual Meeting recommending mesh size restrictions to govern haddock fishing and cod fishing in Sub-areas 3 and 4 became effective for all Contracting Governments, except for paragraph IV (restricting the use of chafing gear) which did not become effective until January 1, 1958.

In accordance with section 4 (a) of the Northwest Atlantic Fisheries Act of 1950, amendments to existing regulations which are now being proposed to implement the Commission's proposals, as described above, were submitted to the Advisory Committee to the United States Commissioners on the International Commission for the Northwest Atlantic Fisheries on February 6, 1958, and were again reviewed with the Advisory Committee on May 28, 1958. Revised regulations as herein proposed have thus received the approval, in principle, of the Advisory Committee.

Notice is hereby given, pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (60 Stat. 238, 5 U. S. C. 1003), that the Commissioner of Fish and Wildlife proposes to recommend to the Secretary of the Interior the adoption of the regulations set forth in tentative form below to replace Part 155—Haddock and Cod Fisheries. Aside from minor editorial changes, the regulations proposed for adoption differ from existing regulations in three major respects in that they will extend trawl net mesh size restrictions to Sub-areas 3 and 4; will give additional specifications for twines eligible for certification as having a dry-before use mesh size equivalent to that of a wet-after use mesh size; and will modify the restrictions applicable to the fastening of chafing gear to cod ends used in taking haddock and cod in Sub-area 5.

The proposed regulations, to become effective on or about November 1, 1958, are to be issued under the authority contained in section 7 (a) of the Northwest Atlantic Fisheries Act of 1950 (64 Stat. 1067, 1069; 16 U. S. C. 986).

Prior to the final adoption of the proposed regulations set forth below, consideration will be given to any written data, views, or arguments relating thereto which are received by the Director, Bureau of Commercial Fisheries, Fish and Wildlife Service, Washington 25, D. C., on or before September 30, 1958.

Dated: September 16, 1958.

ARNIE J. SUOMELA,
Commissioner of Fish and Wildlife.

Sec.
155.1 Meaning of terms.
155.2 Registration certificates.
155.3 Restrictions on fishing gear.
155.4 Temporary suspension of registration certificates.
155.5 Certain persons and vessels exempted.

§ 155.1 *Meaning of terms.* When used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this section.

(a) *Convention area.* The term "Convention area" means and includes all waters, except territorial waters, bounded by a line beginning at a point on the coast of Rhode Island in 71°40′ west longitude; thence due south to 39°00′ north latitude; thence due east to 42°00′ west longitude; thence due north to 59°00′ north latitude; thence due west to 44°00′ west longitude; thence due north to the coast of Greenland; thence along the west coast of Greenland to 78°10′ north latitude; thence southward to a point in 75°00′ north latitude and 73°30′ west longitude; thence along a rhumb line to a point in 69°00′ north latitude and 59°00′ west longitude; thence due south to 61°00′ north latitude; thence due west to 64°30′ west longitude; thence due south to the coast of Labrador; thence in a southerly direction along the coast of Labrador to the southern terminus of its boundary with Quebec; thence in a westerly direction along the coast of Quebec, and in an easterly and southerly direction along the coasts of New Brunswick, Nova Scotia, and Cape Breton Island to Cabot Strait; thence along the coasts of Cape Breton Island, Nova Scotia, New Brunswick, Maine, New Hampshire, Massachusetts, and Rhode Island to the point of beginning.

(b) *Regulatory area.* The term "regulatory area" means and includes the whole of those portions of the Convention area which are separately described as follows:

(1) *Sub-area 3.* The term "Sub-area 3" means that portion of the Convention area, including all waters except territorial waters, lying south of the parallel of 52°15′ north latitude; and to the east of a line extending due north from Cape Bauld on the north coast of Newfoundland to 52°15′ north latitude; to the north of the parallel of 39°00′ north latitude; and to the east and north of a rhumb line extending in a northwesterly direction which passes through a point in 43°30′ north latitude, 55°00′ west longitude, in the direction of a point in 47°50′ north latitude, 60°00′ west longitude, until it intersects a straight line connecting Cape Ray, on the coast of Newfoundland, with Cape North on Cape Breton Island; thence in a northeasterly direction along said line to Cape Ray.

(2) *Sub-area 4.* The term "Sub-area 4" means that portion of the Convention area, including all waters except territorial waters, lying to the west of Sub-area 3 as described in subparagraph (1) of this paragraph, and to the east of a line described as follows: Beginning at the terminus of the international boundary between the United States of America and Canada in Grand Manan Channel, at a point in 44°46′35.34″ north latitude, 66°54′11.23″ west longitude; thence due south to the parallel of 43°50′ north latitude; thence due west to the meridian of 67°40′ west longitude; thence due south to the parallel of 42°20′ north latitude; thence due east to a point in 66°00′ west longitude; thence along a rhumb line in a southeasterly direction to a point in 42°00′ north latitude, 65°40′ west longitude; thence due south to the parallel of 39°00′ north latitude.

(3) *Sub-area 5.* The term "Sub-area 5" means that portion of the Convention area, including all waters except territorial waters, bounded by a line beginning at the terminus of the international boundary between the United States of America and Canada in Grand Manan Channel at a point in 44°46′35.34″ north latitude, 66°54′11.23″ west longitude; thence due south to the parallel of 43°50′ north latitude; thence due west to the Meridian of 67°40′ west longitude; thence due south to the parallel of 42°20′ north latitude; thence due east to a point in 66°00′ west longitude; thence along a rhumb line in a southeasterly direction to a point in 42°00′ north latitude, 65°40′ west longitude; thence due south to the parallel of 39°00′ north latitude; thence due west to the Meridian of 71°40′ west longitude; thence due north to a point three miles off the coast of the State of Rhode Island; thence along the coasts of Rhode Island, Massachusetts, New Hampshire, and Maine at a distance of three miles to the point of beginning.

(c) *Haddock.* The word "haddock" denotes any fish of the species Melanogrammus aeglefinus.

(d) *Haddock fishing.* The words "haddock fishing" mean and include (1) the catching, taking or fishing for or the attempted catching, taking or fishing for fish of the species Melanogrammus aeglefinus; and (2) the outfitting and departure of a vessel for or the return of a vessel from haddock fishing.

(e) *Cod.* The word "cod" denotes any fish of the species Gadus callarias.

(f) *Cod fishing.* The words "cod fishing" mean and include (1) the catching, taking or fishing for or the attempted catching, taking or fishing for fish of the species Gadus callarias; and (2) the outfitting and departure of a vessel for or the return of a vessel from cod fishing.

(g) *Fishing vessel.* The words "fishing vessel" denote every kind, type or description of watercraft subject to the jurisdiction of the United States used in or outfitted for catching or processing fish or transporting fish from fishing grounds.

(h) *Trawl net.* The words "trawl net" mean any large bag net dragged in the sea by a vessel or vessels for the purpose of taking fish.

(i) *Cod end.* The words "cod end" mean the bag-like extension attached to the after end of the belly of the trawl net and used to retain the catch.

§ 155.2 *Registration certificates.* (a) Unless permitted to do so by § 155.5, after the _____ day of _____ 1958, no person shall engage in haddock fishing or cod fishing within the regulatory area, nor shall any person possess, transport or deliver by means of any fishing vessel haddock or cod taken within such area except under a registration certificate issued and in force in conformity with the provisions of this part.

(b) The owner or operator of a fishing vessel may obtain without charge a registration certificate by furnishing, on a form to be supplied by the Bureau of Commercial Fisheries, information specifying the names and addresses of the owner and operator of the vessel, the name, official number and home port of the vessel, and the period for which the registration certificate is desired. The form shall be submitted, in duplicate, to the Regional Director, Bureau of Commercial Fisheries, Gloucester,

Massachusetts, who shall grant the registration certificate for the duration specified by the applicant in the form but in no event to extend beyond the end of the calendar year during which the registration certificate is issued. New registration certificates shall similarly be issued to replace expired, lost or mutilated certificates. An application for replacement of an expiring registration certificate shall be made in like manner as the original application not later than ten days prior to the expiration date of the expiring certificate.

(c) The registration certificate issued by the Bureau of Commercial Fisheries shall be carried at all times on board the vessel for which it is issued and such certificate, the vessel, its gear and equipment shall at all times be subject to inspection for the purposes of this part by officers authorized to enforce the provisions of this part.

§ 155.3 *Restrictions on fishing gear.* (a) No person shall possess at any time on board a vessel for which a registration certificate is in force, or use or attempt to use from such vessel, a trawl net or nets, parts of nets, or netting of manila twine having a mesh size, as defined in this section, of less than four and one-half inches, or a trawl net or nets, parts of nets, or netting of material other than manila twine unless it shall have a selectivity equivalent to that of a four and one-half inch manila trawl net: *Provided*, That any person who shall have first obtained a special permit, issuable by the Regional Director, Bureau of Commercial Fisheries, Gloucester, Massachusetts, authorizing such possession and use for haddock fishing or cod fishing in Sub-area 3 of the regulatory area may possess on board a vessel for which a registration certificate is in force and may use from such vessel while engaged in haddock fishing or cod fishing within Sub-area 3 only, a trawl net or nets, parts of nets, or netting of manila twine having a mesh size, as defined in this section, of not less than four inches, or a trawl net or nets, parts of nets, or netting of material other than manila twine having a selectivity equivalent to that of a four-inch manila trawl net.

(b) As used in this section, the term "mesh size" shall mean: (1) With respect to any part of the net except the cod end, the average of the measurements of any twenty consecutive meshes in any row located at least ten meshes from the side lacings measured when wet after use; and (2) with respect to the cod end, the average of the measurements of any fifty consecutive meshes running parallel to the long axis of the cod end, beginning at the after end of the cod end, and being at least ten meshes from the side lacings or, if the cod end is less than fifty meshes in length, the average of the measurements of the meshes in any series of consecutive meshes running the full length of the cod end, parallel to the long axis of the cod end and located at least ten meshes from the side lacings, such measurements of the cod end to be made when wet after use, or, at the option of the user, a cod end which has been approved, in accordance with paragraph (d) of this section, by an authorized employee of the Bureau of Commercial Fisheries, as having a mesh size when dry before use equivalent to not less than four and one-half inches when wet after use.

(c) All measurements of meshes shall be made by the insertion into the meshes under pressure of not less than ten nor more than fifteen pounds of a flat wedge-shaped gauge having a taper of two inches in eight inches and a thickness of three thirty-seconds of an inch.

(d) For the purpose of approving a dry cod end before use, as contemplated by paragraph (b) of this section, the average mesh size of such cod end shall be determined by measuring the length of any single row of meshes running the length of the cod end, parallel to the long axis of the cod end and located at least ten meshes from the side lacings, when stretched under a tension of two hundred pounds, and dividing the length by the number of meshes in such row: *Provided*, That not more than ten per cent of the meshes in such row shall be more than one-half inch smaller when measured between knot centers than the average of the row. A cod end so measured which is constructed of one of the twines and is of not less than the average mesh size specified in the table below for such twine may be approved for haddock fishing or cod fishing by any authorized employee of the Bureau of Commercial Fisheries by the attachment to such cod end of an appropriate seal. The omission from the table of one or more specifications of twines shall not preclude the continued use of cod ends constructed from such twines where the cod ends received approval pursuant to the provisions of this part as the same were in effect between the dates of January 1, 1954, and October 24, 1956.

(e) The alteration, defacement or reuse of any seal affixed to a cod end in accordance with this section is prohibited.

(f) The repair, alteration or other modification of a cod end to which a seal has been affixed in accordance with this section shall invalidate such seal and such cod end shall not thereafter be deemed to be approved for haddock fishing or cod fishing. Nothing contained in this paragraph shall preclude the continued use at the option of the user of a cod end having an invalidated seal affixed thereto if such cod end after repair, alteration or other modification

does not have a mesh size of less than four and one-half inches as defined in paragraph (b) of this section.

(g) For the purposes of this section, a cod end constructed of twine other than manila and not subject to approval and certification when measured dry before use as provided in paragraph (d) of this section shall be deemed to have a selectivity equivalent to that of a four and one-half inch manila trawl net if such cod end has a mesh size of not less than four and one-quarter inches when measured wet after use in the manner prescribed in paragraph (b) of this section.

(h) The use in haddock fishing or cod fishing within the regulatory area of any device or method which will obstruct the meshes of the trawl net or which otherwise will have the effect of diminishing the size of said meshes is prohibited: *Provided*, That (1) a protective covering of canvas, netting, or other material may be attached to the underside of the cod end only of the net to reduce and prevent damage and (2) a rectangular piece of netting may be attached to the upper side of the cod end only of the net to reduce and prevent damage so long as the netting attached to the upper side of the cod end conforms to the following conditions:

(i) Such netting shall not have a mesh size less than that specified in this section. For the purposes of this paragraph the required four and one-half inch mesh size when measured wet after use shall be deemed to be the average of the measurements of twenty consecutive meshes in a series across the netting, such measurements to be made with a like gauge inserted into the meshes as specified in paragraph (c) of this section.

(ii) Such netting shall not exceed sixteen meshes in length counted parallel to the long axis of the cod end and the width of the netting shall be at least one and one-half times the width of the area of the cod end which is covered; such widths to be measured at right angles to the long axis of the cod end.

(iii) Such netting may be fastened to the cod end of the trawl net only along the forward and lateral edges of the netting and at no other place in the netting and when used in Sub-area 5 of the regulatory area the netting shall be fastened in such a manner that it extends forward of the splitting strap no more than four meshes and ends not less than four meshes in front of the cod line mesh.

§ 155.4 *Temporary suspension of registration certificates.* (a) The owner or operator of any fishing vessel which is proposed to be used in haddock fishing or cod fishing beyond the limits of the regulatory area or is proposed to be used in fishing within such area for species of fish other than haddock or cod, may obtain a temporary suspension of the registration certificate issued for such vessel for the specified period during which such nonregulated fishing is to be conducted.

(b) Temporary suspension of registration certificates shall be granted upon oral or written request, specifying the period of suspension desired, by an authorized officer of the State of Maine or or the State of Massachusetts or by an authorized officer of any one of the following agencies: Bureau of Commercial Fisheries, Coast Guard, Bureau of Customs, Post Office Department. Such officer shall make appropriate endorsement on the certificate evidencing the duration of its suspension.

§ 155.5 *Certain persons and vessels exempted.* Except as otherwise provided in this section, nothing contained in §§ 155.2 to 155.4 shall apply to:

(a) Any person or vessel authorized by the Secretary of the Interior to engage in haddock fishing or cod fishing for scientific purposes.

(b) Any vessel documented as a common carrier by the Government of the United States and engaged exclusively in the carriage of freight and passengers.

(c) Any person who in the course of taking fish other than haddock or cod, takes and possesses a quantity of haddock or cod not exceeding five thousand pounds for each, or ten percent by weight for each, of all fish on board the vessel from which the fishing is conducted whichever is the greater.

(d) Any person who, while engaged in fishing within Sub-area 5 of the regulatory area, does not take in any period of twelve months haddock or cod in quantities in excess of ten percent by weight for each of said species, of all the trawl-caught fish taken by such person within such period of twelve months. Any person desiring to avail himself of the exemption provided in this paragraph shall first obtain a certificate of exemption and shall comply with the following conditions:

(1) The owner or operator of a fishing vessel proposed to be operated under the exemption authorized in this paragraph may obtain without charge a certificate of exemption by furnishing, on a form to be supplied by the Bureau of Commercial Fisheries, information specifying the name and address of the owner and operator of the vessel and the name, official number, and the home port of the vessel. Each such application must be accompanied by a written statement, certified by the applicant to be correct, listing by weight, species, and catch by month, the total quantities of all fish taken within Sub-area 5 of the regulatory area by means of the vessel to be exempted during a period of twelve months immediately preceding the date of application. The application form and the certified statement shall be submitted, in duplicate, to the Regional Director, Bureau of Commercial Fisheries, Gloucester, Massachusetts, who shall grant a certificate of exemption valid for a period of twelve months from the date of issue and authorizing during such period the use of the vessel for which issued in the taking of haddock or cod within Sub-area 5 of the regulatory area without regard to the registration requirements and restrictions on fishing gear imposed, respectively, by §§ 155.2 and 155.3, so long as the vessel and its fishing gear are not used to take haddock or cod within Sub-area 5 in quantities in excess of ten percent by weight for each species of all the trawl-caught fish taken by means of such vessel during the 12-month period covered by the certificate. Duplicate certificates of exemption shall be issued to replace lost or mutilated certificates. An application for renewal of an expired certificate of exemption shall be made in like manner as the original application not later than 15 days prior to the expiration date of the expiring certificate, but no renewal shall be granted if it is determined by said Regional Director that the vessel for which a renewal is sought was used to take quantities of haddock or cod in excess of the allowable percentages during the 12-month period covered by the expiring certificate of exemption.

(2) The certificate of exemption issued by the Bureau of Commercial Fisheries shall be carried at all times on board the vessel for which it is issued, and such certificate, the vessel, its gear and equipment, and records pertaining to the catches of fish made by means of such vessel shall at all times be subject to inspection for the purposes of this part by any officer authorized to enforce the provisions of this part.

(3) The owner or operator of a fishing vessel for which a certificate of exemption is in force shall furnish on a form supplied by the Bureau of Commercial Fisheries, immediately following the delivery or sale of a catch of fish made by means of such vessel, a report, certified to be correct by the owner or operator, listing separately by species and weight the total quantities of all fish so sold or delivered. Such reports shall be delivered or mailed, in duplicate, to the said Regional Director.

(4) The owner or operator of a fishing vessel for which a certificate of exemption is in force, who proposes to use such vessel in fishing primarily for haddock or cod during any period of time within the 12-month period covered by the certificate, may obtain a temporary suspension of such certificate in like manner as provided in § 155.4 and may make application to engage finishing for haddock or cod under a registration certificate as provided in § 155.2. Any haddock or cod taken by means of a vessel for which a registration certificate is in force and by means of haddock fishing or cod fishing conducted in conformity with the restrictions on fishing gear prescribed by § 155.3 shall be excluded from the total of all trawl-caught fish taken during the applicable 12-month period when computing the ratio of haddock or cod to the trawl-caught fish taken during such period. For the purposes of computing the quantities of haddock or cod so to be excluded, the owner or operator of a fishing vessel covered by a suspended certificate of exemption and taking haddock or cod while operating under a registration certificate shall submit catch reports in like manner as provided in subparagraph (3) of this paragraph.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 921]

[Docket No. AO-222-A9]

MILK IN OZARKS MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement, and order regulating the handling of milk in the Ozarks marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D. C., not later than the close of business the 20th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order, were formulated, was conducted at Springfield, Missouri, on May 27, 1958, pursuant to notice thereof which was issued May 12, 1958 (23 F. R. 3302).

The material issues on the record of the hearing relate to:

1. The definition of pool plants;
2. The diversion of milk to nonpool plants;
3. Class I price at plants located in Benton and Washington Counties, Arkansas;
4. Compensatory payments on milk distributed by a handler operating a nonpool plant;
5. Deletion of Boone County, Arkansas, from the marketing area;
6. Permitting a cooperative association to act as a handler on bulk tank milk supplied to a producer-handler; and
7. Administrative and conforming changes in the order.

A proposal to substitute individual-handler pools for the present marketwide pool was not supported at the hearing, and no further reference to it will be made herein.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Pool plants.* Under the present pool plant provisions a distributing plant qualifies as a pool plant if 15 percent of the receipts of producer milk at the plant during the month is disposed of on routes in the marketing area. This definition should be supplemented by a requirement that at least half of the total supply of milk from Grade A dairy farmers and from other pool plants be distributed on routes either inside or outside of the defined marketing area. All of the plants currently distributing milk in the marketing area would easily meet this additional requirement. This change would require that any plant which qualifies as a distributing plant would be essentially in the fluid milk business. Plants with a lower percentage of distribution commonly operate as supply plants rather than as distributing plants and should more appropriately qualify as supply plants.

Under the present order, a supply plant qualifies as a pool plant when 25 percent of its total supply is shipped to distributing plants in April, May or June or 20 percent in any other month. In addition, a supply plant from which there is shipped to distributing plants at least 20 percent of the supply during each of the normally short months of September through December remains qualified as a pool plant during subsequent flush periods without making further shipments. These minimum percentages should be raised to reflect the progressively higher utilization of producer milk in this market. The demand for milk from supply plants is normally greatest during the fall and winter months of lowest production. Accordingly, a supply plant should qualify as a pool plant if at least 25 percent of its supply of milk from producers and other pool plants is shipped to distributing pool plants in August, 35 percent in September, 40 percent in October, 45 percent in November, 40 percent in December, and 35 percent in January. Any plant which qualifies in each of these six months should remain qualified as a pool plant during the following flush months of February through July without making further shipments. In the event a supply plant becomes associated with the market in some other month, it should be qualified on a month-to-month basis if it ships 25 percent of its supply in any of the months of February through July or the specified percentages in the fall and winter months.

The supply plants presently associated with the market have shipped substantially larger percentages of their total available supply to distributors during recent years and there was no testimony in opposition to these proposed changes in shipping requirements.

The amendments recommended herein cannot become effective until after the beginning of the fall qualifying period. Therefore, any supply plant which qualifies as a pool plant from the effective date of the recommended amendments through January 1959 will remain qualified during the flush months of 1959

The extent to which milk must be physically handled at a supply plant in order to qualify as a receipt and subsequent shipment to distributing plants was explored at the hearing.

The essential function for which supply plants were developed was to assemble the milk into tank car or tank truck lots for more economical shipment to city plants. This was a particularly important function with respect to milk gathered from the farms in 10-gallon cans, but also applies to milk picked up in bulk tanks to the extent that their loads are consolidated into larger tankers. In addition, many of the supply plants are equipped to manufacture the reserve milk, thereby saving the cost of transporting the whole milk to the city plants.

The degree of handling required at a supply plant to constitute a receipt at such a plant is a problem in this market. Some Ozarks distributors have developed a supply of bulk tank milk. Under the present order such milk can be routed through a supply plant at such times and in such quantity as may be needed to qualify the plant as a pool plant on an additional supply of milk which is not regularly shipped to distributing plants. Obviously, the supply plant operator would like to perform only the minimum of receiving functions on this bulk tank milk.

A token "receipt" of bulk tank milk at a supply plant and the subsequent shipment of essentially the same milk to a distributing plant does not constitute a useful supply plant function or increase the availability or utility of the Grade A milk involved. Neither should such a token receipt and shipment be allowed to help identify a given supply of milk with the market or the supply plant as a pool plant. Therefore, only those receipts at and shipments from a supply plant which involve a transfer from cans to tank trucks or from small or partially filled tank trucks into larger tank truck loads will be recognized in computing the shipping percentages specified in the pool plant standards of § 921.11 of the order.

2. *Diversion to nonpool plants.* The months when diversion of a producer's milk to nonpool plants is limited to 10 days production should be August through January instead of September through January.

August through January are the 6 months when supplies are usually lowest in relation to Class I sales in this market and also constitute the supply plant qualification period.

Diversion privileges are provided to facilitate the marketing of the daily and seasonal reserve supplies of milk. Diverted milk is that which is moved directly from the farms to nonpool plants rather than to the pool plant at which it is normally delivered. The farmer whose milk is so diverted remains a producer and his milk continues to share in the marketwide pool. It is frequently possible to save transportation costs by diversion instead of bringing the milk in to the pool plant and then transporting it to the nonpool plant. The diversion privilege should, however, apply only to milk primarily associated with the fluid requirements of the market.

During the months of flush production, when the pool plant does not require all the milk from its usual Grade A patrons some farm pickup routes may be so situated that they can be diverted to a nonpool plant on most days. On the other hand, diversion should ordinarily be needed only for weekend reserves and other unusual contingencies during the months of short production. A maxi-

mum of 10 days should be adequate to accommodate the reserves during these months.

It is conceivable that milk may be diverted to plants which are nonpool plants under the Ozarks order but are fully regulated under another order. If the dairy farmer thereby qualifies as a producer under the other order, he should not maintain producer status under the Ozarks order. The potential conflict involved in being a producer under two orders should be resolved in favor of the order under which the milk is physically received. If a producer's milk is diverted to a plant which is regulated under another order for only a portion of a month, he would be a producer under the other order on the diverted milk, and an Ozarks producer with respect to the milk received at the Ozarks pool plant.

3. *Class I price.* The Class I price at pool plants located in Benton and Washington Counties, Arkansas, should be 25 cents higher than in the remainder of the marketing area instead of 15 cents higher as now specified in the order.

The higher price is needed to help maintain an adequate supply of milk for these handlers. The procurement competition in Northwest Arkansas from the Tulsa, North Texas, and Central Arkansas markets is so intensive that the local handlers have had to pay substantial premiums over order prices in each month since January 1957.

The primary limitation on the Class I price in Benton and Washington Counties is its relationship to the Class I price at Springfield, Missouri. If the Arkansas price were higher than the Springfield price plus transportation costs, Arkansas handlers would have an incentive to abandon local supplies in favor of milk from a Springfield supply plant. Also, they would be at a competitive disadvantage with respect to those Springfield handlers who distribute milk on routes in Northwest Arkansas. The 25-cent Class I price difference herein provided compares with a cost of 22 cents per hundredweight for hauling milk from Springfield to Fayetteville in large tank trucks and a cost of 28.9 cents per hundredweight for transporting milk between these points in packaged form.

It is concluded that a 25-cent differential is appropriate with respect to the primary competitive relationships in both the procurement and sale of milk. There was no opposition at the hearing to the proposed increase in the Class I differential in these two counties.

4. *Handler operating nonpool distributing plants.* Consideration was given to a change in the provisions relative to a handler operating a nonpool plant. The present order provides that such a handler shall pay into the producer-settlement fund the value computed by multiplying the difference between the Class I price adjusted by the Class I butterfat and location differentials and the Class II price adjusted by the Class II butterfat differential by his Class I sales on routes in the marketing area.

On the basis of the record it is concluded that such handler should be given the option of making payments into the producer-settlement fund for the following amounts (1) the difference between the Class I and Class II price multiplied by the amount of Class I milk sold on routes in the marketing area, or (2) the amount by which total payments to dairy farmers are less than the total amount of the plant's obligation to producers if such obligation is computed as if such plant were a pool plant.

If the handler elects to make payment under the first option, the regulatory plan will be protected in the same manner and to the same extent as is provided with respect to compensatory payments on other scurce milk. If the handler chooses to pay the full utilization value of his milk either directly, to his own farmers or by combination of payments to his farmers and to the producer-settlement fund, his total minimum obligation for milk will be determined in exactly the same way as if he were a fully regulated handler.

Affording this last option to nonpool distributing plants from which some Class I milk is distributed in the marketing area will adequately protect the classified pricing and marketwide equalization plan in this particular market. Handlers in a position to use this option do not exist to an extent permitting any significant diversion of the revenue derived from the Class I sales in the marketing area to farmers only incidentally associated with the market, thus, dissipating the returns to pool producers of milk for which minimum class prices are established under the order and who are relied upon to produce an adequate and dependable supply of pure and wholesome milk for the marketing area.

It is expected that there will be relatively small difference between the amount which these partially regulated handlers will pay their dairy farmers and the minimum uniform price payable to producers by fully regulated handlers. Consequently, the exercise of this option could not have a disruptive influence on the handling of milk in the Ozarks area. For this reason, it is not necessary, in order to maintain the integrity of regulatory plan in the Ozarks market, to require these partially regulated plants to make payments into the producer-settlement fund if it is ascertained that they have paid their producers at least the total amount of money which they would be required to pay if they were fully regulated.

5. *Marketing area.* A group of five producers and a handler whose plant is located at Harrison, Arkansas, proposed that Boone County, Arkansas, be deleted from the marketing area. The only testimony given in support of this proposal was by the handler.

It is apparent that the distribution of Class I milk in Boone County has become increasingly competitive since this county was included in the marketing area. Besides the local handler, there are two regulated handlers from Springfield, Missouri, and one handler from Conway, Arkansas, who is regulated under the Central Arkansas order, distributing milk in this county. The Springfield handlers have approximately 65 percent of the total fluid milk business in the county. Thus, this county is an integral part of the Ozarks marketing area and should not be deleted therefrom.

6. *Milk in bulk tanks.* In the amendments effective April 1, 1957, a cooperative association was defined as the handler on bulk tank milk delivered in tank trucks owned and operated by such association. The definition should be changed so that the cooperative association will be the handler on bulk tank milk delivered to a producer-handler as well as on that delivered to other handlers. Under the present provision a producer-handler could become the handler on milk diverted to it more than the specified number of days through no fault of his own and lose his status as a producer-handler. Under the proposed change the cooperative association would be designated as the handler at all times and the milk would be handled on an inter-handler transfer basis without either changing the status of the producer-handler or requiring the milk to be physically received at a pool plant and then re-transferred to the producer-handler.

7. *Administrative changes.* The administrative changes considered at the hearing related to allowable shrinkage to a bottling operation at which a full supply is received from supply plants or from a cooperative in bulk tanks and to the advisability of a specific definition of approved milk.

The allocation provisions should be changed to conform more clearly to a change in the shrinkage provisions which became effective April 1, 1957. The clarification will provide that a distributing plant which receives its full supply of milk from a supply plant will receive credit for its allowable shrinkage as Class II. This can be accomplished by adding the allowable shrinkage back to Class II before deducting the receipts from other handlers.

The order should contain a definition of approved milk to cover that milk which is approved for fluid use and transferred between handlers. At present the producer milk definition is confined to the first receipt at a pool plant, and the interhandler transfers are dealt with by descriptive phrases. The definition would reduce the amount of subsequent phraseology used in the order.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order amending the order. The following order amending the order regulating the handling of milk in the Ozarks marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended:

1. Amend § 921.7 to read as follows:

§ 921.7 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk under a dairy farm permit issued by a health authority duly authorized to administer regulations governing the quality of milk disposed of in the marketing area or acceptable to agencies of the United States Government for fluid consumption in its institutions or bases in the marketing area which is (a) delivered from the farm to a pool plant, or (b) caused to be diverted from the farm to a nonpool plant (providing such nonpool plant is not subject to the classification and pricing provisions of another order issued pursuant to the Act) during any of the months of February through July, or to the extent of not more than 10 days' production during any of the months of August through January for the account of a handler. Milk so diverted shall be deemed to have been received at the pool plant from which diverted.

2. Amend § 921.8 (b) to read as follows:

(b) A cooperative association with respect to the milk of its member producers which is delivered to the pool plant of another handler or to a plant of a producer-handler in a tank truck owned or operated by or under contract to such cooperative association for the account of such cooperative association (such milk shall be considered as having been received by such cooperative association at the plant to which it is delivered); or

3. Amend § 921.11 to read as follows:

§ 921.11 *Pool plant.* "Pool plant" means:

(a) An approved plant which processes and packages as milk, skim milk or cream not less than 50 percent of its receipts of approved milk and from which not less than 15 percent of its receipts of approved milk during the month is disposed of as Class I milk in the marketing area to wholesale or retail outlets (including sales through plant stores or vendors);

(b) A supply plant from which a quantity of milk equal to at least 25 percent of its supply of approved milk is shipped to a plant described in paragraph (a) of this section during any of the months of February through August or the applicable percentage during any other month, as follows:

Month	Percentage
September	35
October	40
November	45
December	40
January	35

Provided, That if a supply plant qualifies as a pool plant during each of the months from the effective date hereof through January 1959, and in each of the months of August through January thereafter, such plant shall be designated as a pool plant during each of the subsequent months through the following July unless such plant requests nonpool designation by means of a prior written application to the market administrator: *And provided further,* That in the computation of the percentages specified herein only those receipts and shipments from a supply plant will be utilized which involves a receipt in cans and shipment by tank truck or receipt in small or partially filled tank and shipment by larger tank truck loads.

4. Add a new § 921.16 to read as follows:

§ 921.16 *Approved milk.* "Approved milk" means any skim milk or butterfat contained in producer milk or in milk, skim milk, or cream which is received from a pool plant and which is approved by the appropriate health authority for distribution as Class I milk in the marketing area.

5. In the opening paragraph of § 921.30 delete the phrase "except a producer-handler" and substitute therefor the following "except a producer-handler and a handler making payments pursuant to § 921.61 (a)".

6. In the opening paragraph of § 921.31 delete the phrase "who purchased or received milk from producers" and substitute therefor the following ", except a producer-handler and a handler making payments pursuant to § 921.61 (a),".

7. Amend § 921.32 to read as follows:

§ 921.32 *Other reports.* Each producer-handler and each handler making payments pursuant to § 921.61 (a) shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

8. Amend the opening paragraph of § 921.44 to read as follows:

§ 921.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

9. Amend § 921.46 (a) (6) and (7) to read as follows:

(6) Add to the pounds of skim milk remaining in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph;

(7) Subtract from the pounds of skim milk remaining in each class the skim milk received in milk, skim milk or cream from other handlers according to its classification pursuant to § 921.44 (a);

10. Amend § 921.51 (a) by deleting the proviso and substituting therefor the following: *"Provided,* That 25 cents shall be added to the price for Class I milk at pool plants located in Washington and Benton Counties, Arkansas."

11. Amend § 921.61 to read as follows:

§ 921.61 *Handlers operating nonpool plants.* In lieu of the payments required pursuant to §§ 921.80 to 921.88 each handler, other than a producer-handler and one exempt pursuant to § 921.62, who operates an approved plant which is not a pool plant during the month, shall pay to the market administrator on or before the 15th day after the end of the month the amounts calculated pursuant to paragraph (a) of this section unless the handler elects at the time of reporting pursuant to § 921.30 to pay the amounts calculated pursuant to paragraph (b) of this section:

(a) The following amount:

(1) For the producer-settlement fund, an amount equal to the value of all skim milk and butterfat disposed of as Class I milk on routes in the marketing area at the applicable Class I price less the value of such skim milk and butterfat at the applicable Class II price; and

(2) As his share of the expense of administration, the rate specified in § 921.88 with respect to Class I milk so disposed in the marketing area.

(b) The following amount:

(1) For the producer-settlement fund, any plus amount remaining after deducting from the value that would have been computed pursuant to § 921.70 if such handler had operated a pool plant the gross payments made by such handler for milk received during the month from dairy farmers whose milk was approved for fluid use. Gross payments to be included in this computation shall be limited to cash payments made to the dairy farmer or his assignee on or before the date of the report required pursuant to § 921.31, plus the value of any supplies or services furnished by the handler on prior written authorization or as evidenced by a delivery ticket signed by the dairy farmer; and

(2) As his share of the expenses of administration, an amount equal to that which would have been computed pursuant to § 921.88 had such plant been a pool plant.

12. Amend § 921.82 (b) by deleting the figure "15 cents" wherever it appears and substituting therefor the figure "25 cents".

13. Amend § 921.88 (c) to read as follows:

(c) the quantities of milk at plants of handlers operating nonpool plants as specified in § 921.61 (a) (2) or (b) (2).

Issued at Washington, D. C., this 16th day of September 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Part 729]

PEANUTS

NOTICE OF PROPOSED PROCLAMATION WITH RESPECT TO 1959 NATIONAL MARKETING QUOTA AND APPORTIONMENT OF NATIONAL ACREAGE ALLOTMENT TO STATES

Pursuant to Title III of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301-1393 and Supps.), the Secretary of Agriculture is required by section 358 (a) thereof to proclaim, between July 1 and December 1 of each calendar year, the amount of the national marketing quota for peanuts for the crop produced in the next succeeding calendar year. The amount of such quota is the total quantity of peanuts which will make available for marketing a supply of peanuts from the crop with respect to which the quota is proclaimed equal to the average quantity of peanuts harvested for nuts during the five years immediately preceding the year in which such quota is proclaimed, adjusted for current trends and prospective demand conditions.

Section 358 (a) of the Act further provides that the national marketing quota for peanuts shall be converted to a national acreage allotment by dividing such quota by the normal yield per acre of peanuts for the United States determined by the Secretary on the basis of the average yield per acre of peanuts in the five years preceding the year in which the quota is proclaimed, with such adjustment as may be found necessary to correct for trends in yields and for abnormal conditions of production affecting yields.

Section 358 (a) of the Act further provides that the national marketing quota established for any year subsequent to 1941 shall be a quantity of peanuts sufficient to provide a national acreage allotment of not less than that established for the crop produced in the calendar year 1941, which was 1,610,000 acres.

Section 358 (c) (1) of the Act provides that for any year subsequent to 1951, the national acreage allotment for that year, less the acreage to be allotted to new farms under section 358 (f) of the Act, shall be apportioned among the States on the basis of their share of the national acreage allotment for the most recent year in which such apportionment was made. Pursuant to this provision of the Act, the national acreage allotment for the 1959 crop of peanuts will be apportioned to States on the basis of their shares of the 1958 national acreage allotment.

Prior to proclaiming the national marketing quota, establishing the national acreage allotment, apportioning the national acreage allotment among the States and determining the percentage of the national acreage allotment to be reserved for new farms, consideration will be given to any data, views, and recommendations relating thereto which are submitted in writing to the Director, Oil and Peanut Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than 30 days after publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C. this 15th day of September 1958.

[SEAL] WALTER C. BERGER,
Administrator,
Commodity Stabilization Service.

PROMULGATION OF FEDERAL SHARE FOR PURPOSES OF LIBRARY SERVICES ACT, AS AMENDED

Pursuant to section 6 (d) of the Library Services Act (70 Stat. 293), as amended by section 25 of Public Law 896, 84th Congress (70 Stat. 911), and it having been found that the three most recent consecutive years for which satisfactory data are available from the Department of Commerce as to the per capita incomes of the States and of the continental United States are the years 1955, 1956, and 1957, the Federal shares for the purposes of such Act, as indicated below, for the several States, Alaska, Hawaii, the Virgin Islands, Puerto Rico, and Guam, as determined pursuant to said Act and on the basis of said income data, are hereby promulgated to be effective for the fiscal years ending June 30, 1960, and June 30, 1961:

State	Federal share (percent)
Alabama	66.00
Arizona	57.12
Arkansas	66.00
California	37.52
Colorado	51.74
Connecticut	33.00
Delaware	33.00
Florida	55.10
Georgia	64.20
Idaho	59.41
Illinois	39.49
Indiana	49.69
Iowa	57.12
Kansas	55.72
Kentucky	66.00
Louisiana	62.58
Maine	58.30
Maryland	46.82
Massachusetts	43.13
Michigan	44.95
Minnesota	54.48
Mississippi	66.00
Missouri	51.74
Montana	52.08
Nebraska	57.23
Nevada	38.88
New Hampshire	54.13
New Jersey	38.34
New Mexico	59.99
New York	37.31
North Carolina	66.00
North Dakota	64.07
Ohio	44.39
Oklahoma	59.71

Public Health Service

PROMULGATION OF STATE ALLOTMENT PERCENTAGES UNDER TITLE VI OF PUBLIC HEALTH SERVICE ACT

Pursuant to section 631 (a) and (b) of Title VI of the Public Health Service Act, as amended, (60 Stat. 1041, 42 U. S. C. 291i (a) and (b)),

And having found that the three most recent consecutive years for which satisfactory data are available from the Department of Commerce, as to the per capita incomes of States and of the Continental United States, are the years 1955, 1956, and 1957,

The following allotment percentages for the several States, Alaska, Hawaii, Puerto Rico, the District of Columbia, Guam, and the Virgin Islands, as determined pursuant to said Act and on the basis of said income data, are hereby promulgated for two fiscal years in the period beginning July 1, 1959:

State	Federal share (percent)
Alabama	67.71
Alaska	50.00
Arizona	57.12
Arkansas	71.25
California	37.52
Colorado	51.74
Connecticut	33½
Delaware	33½
District of Columbia	37.52
Florida	55.10
Georgia	64.20
Idaho	59.41
Illinois	39.49
Indiana	49.69
Iowa	57.12
Kansas	55.72
Kentucky	66.04
Louisiana	62.58
Maine	58.30
Maryland	46.82
Massachusetts	43.13
Michigan	44.95
Minnesota	54.48
Mississippi	75.00
Missouri	51.74
Montana	52.08
Nebraska	57.23
Nevada	38.88
New Hampshire	54.13
New Jersey	38.34
New Mexico	59.99
New York	37.31
North Carolina	66.43
North Dakota	64.07

State	Federal share (percent)
Ohio	44.39
Oklahoma	59.71
Oregon	51.31
Pennsylvania	48.39
Rhode Island	49.21
South Carolina	70.35
South Dakota	64.94
Tennessee	65.76
Texas	56.05
Utah	58.43
Vermont	58.66
Virginia	58.43
Washington	47.33
West Virginia	63.04
Wisconsin	52.36
Wyoming	50.46
Guam	75.00
Hawaii	50.00
Puerto Rico	75.00
Virgin Islands	75.00

Dated: August 29, 1958.

[SEAL] JOHN D. PORTERFIELD,
Surgeon General.

Approved: September 13, 1958.

Social Security Administration

PROMULGATION OF FEDERAL SHARES AND ALLOTMENT PERCENTAGES FOR PURPOSES OF CHILD WELFARE SERVICES UNDER TITLE V, PART 3 OF SOCIAL SECURITY ACT, AS AMENDED

Pursuant to sections 524 (a), (b) and (c) of Title V, Part 3 of the Social Security Act, as amended (section 601, Social Security Amendments of 1958, P. L. 85-840),

And it having been found that the three most recent calendar years for which satisfactory data are available from the Department of Commerce as to per capita income of States and of the continental United States are the years 1955, 1956 and 1957,

It is hereby promulgated (a) for the fiscal year ending June 30, 1959, that for purposes of child welfare services under Title V, Part 3, of the Social Security Act, as amended, for each of the forty-eight States, Alaska, Hawaii, Puerto Rico, the District of Columbia, and the Virgin Islands, the Federal shares shall be determined pursuant to the provisions of section 521 of the Social Security Act as in effect prior to the enactment of the Social Security Amendments of 1958; and (b) for each of the two fiscal years in the period ending June 30, 1961, that for the said purposes, for each of the forty-eight States, Alaska, Hawaii, Puerto Rico, the District of Columbia, the Virgin Islands and Guam, the Federal shares, as specified in said Act, or as determined pursuant thereto and on the basis of said income data, shall be as listed below.

It is hereby further promulgated for each of the three fiscal years in the period ending June 30, 1961, that for purposes of child welfare services under Title V, Part 3, of the Social Security Act, as amended, for each of the forty-eight States, Alaska, Hawaii, Puerto Rico, the District of Columbia, the Virgin Islands and Guam, the allotment percentages, as specified in said Act, or as determined pursuant thereto and on the basis of said income data, shall be as listed below; except, that for Guam the listed allotment percentage shall be for each of the two fiscal years in the period ending June 30, 1961.

State	Federal shares	Allotment percentages
Alabama	66⅔	67.71
Alaska	50.00	50.00
Arizona	57.12	57.12
Arkansas	66⅔	70.00
California	37.52	37.52
Colorado	51.74	51.74
Connecticut	33⅓	31.37
Delaware	33⅓	30.00
District of Columbia	37.83	37.83
Florida	55.10	56.10
Georgia	64.20	64.20
Guam	66⅔	70.00
Hawaii	54.48	54.48

ATOMIC ENERGY COMMISSION

[Docket No. 50-101]

NUCLEAR DEVELOPMENT CORPORATION OF AMERICA

NOTICE OF PROPOSED ISSUANCE OF CONSTRUCTION PERMIT AND FACILITY LICENSE

Please take notice that the Atomic Energy Commission proposes to issue to Nuclear Development Corporation of America a construction permit substantially as set forth below unless within fifteen (15) days after the filing of this notice with the Federal Register Division a request for a formal hearing is filed with the Commission as provided by the Commission's rules of practice (10 Part CFR 2). For further details see (1) the application submitted by Nuclear Development Corporation of America and amendment thereto and (2) a memorandum by the Division of Licensing and Regulation which summarizes the principal factors considered in reviewing the application for license, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Notice is also hereby given that if the Commission issues the construction permit, the Commission may without further prior public notice convert the construction permit to a Class 104 license authorizing operation of the reactor by Nuclear Development Corporation of America at the Corporation's facilities at Pawling, New York, if it is found that the reactor has been constructed in accordance with the specifications contained in the application, and in conformity with the provisions of the Act and of the rules and regulations of the Commission, and in the absence of any good cause being shown to the Commission that the granting of such license would not be in accordance with the provisions of the Act.

Dated at Germantown, Maryland this 16th day of September 1958.

For the Atomic Energy Commission.

E. R. PRICE,
Acting Director, Division of Licensing and Regulation.

PROPOSED CONSTRUCTION PERMIT

By application dated April 2, 1958, as amendment thereto dated June 30, 1958, Nuclear Development Corporation of America requested a Class 104 license defined in § 50.21 of Part 50, "Licensing of Production and Utilization Facilities", Title 10, Chapter I, CFR, authorizing construction and operation of a heavy water moderated and reflected training and research nuclear reactor (hereinafter referred to as "the reactor") designed to operate at a steady thermal power level of 5 watts and at power levels up to 100 watts for short periods. Reference to the application herein will be to the original application as amended.

The Atomic Energy Commission (hereinafter referred to as "the Commission") finds that:

A. The reactor will be a utilization facility as defined in the Commission's regulations contained in Title 10, Chapter 1, CFR, Part 50, "Licensing of Production and Utilization Facilities".

B. The reactor will be useful in the conduct of research and development activities of the types specified in section 31 of the Atomic Energy Act of 1954, as amended (hereinafter referred to as "the Act").

C. Nuclear Development Corporation of America is financially qualified to construct and operate the reactor in accordance with the regulations contained in Title 10, Chapter I, CFR.

D. Nuclear Development Corporation of America is technically qualified to design and construct the reactor.

E. Nuclear Development Corporation of America has submitted sufficient information to provide reasonable assurance that the reactor can be constructed at the proposed location without undue risk to the health and safety of the public.

F. The issuance of a construction permit to Nuclear Development Corporation of America will not be inimical to the common defense and security or to the health and safety of the public.

G. Nuclear Development Corporation of America has submitted proof of financial protection which satisfies the requirements of Commission regulations currently in effect.

Pursuant to the Act and Title 10, CFR, Chapter I, Part 50, "Licensing of Production and Utilization Facilities", the Commission hereby issues a construction permit to Nuclear Development Corporation of America to construct the reactor in accordance with the specifications contained in the application. This permit shall be deemed to contain and be subject to the conditions specified in §§ 50.54 and 50.55 of said regulations; is subject to all applicable provisions of the Act and rules, regulations and orders of the Commission now or hereafter in effect; and is subject to the additional conditions specified below:

A. The earliest completion date of the reactor is October 3, 1958. The latest completion date of the reactor is November 30, 1958. The term "completion date" as used herein means the date on which construction of the reactor is completed except for the introduction of the fuel material.

B. The reactor shall be constructed and located at the location in Pawling, New York, specified in the application.

Upon completion of the construction of the reactor in accordance with the terms and conditions of this permit, and upon finding that the reactor authorized has been constructed in conformity with the application and in conformity with the provisions of the Act and of the rules and regulation of the Commission, the Commission will issue a Class 104 license to Nuclear Development Corporation of America pursuant to section 104c of the Act, which license shall expire 20 years after the date of this construction permit.

Date of issuance:

For the Atomic Energy Commission.

Director, Division of Licensing and Regulation.

CIVIL AERONAUTICS BOARD

[Docket No. SR-2290]

DALE R. WELLING

NOTICE OF ORAL ARGUMENT

James T. Pyle, Administrator of Civil Aeronautics, Complainant, v. Dale R. Welling, Respondent; Docket No. SR-2290.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that oral argument in the above-entitled proceeding is assigned to be held on October 2, 1958, at 10:00 a. m., e. d. s. t., in Room 5042, Commerce Building, 14th Street and Constitution Avenue NW., Washington, D. C., before the Board. The Administrator has been allotted 30 minutes and the respondent 30 minutes to be presented in that order. The Administrator may reserve one-quarter of his allotted time for rebuttal.

Dated at Washington, D. C., September 15, 1958.

[Docket No. G-16241]

MOUND CO. ET AL.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

SEPTEMBER 12, 1958.

Mound Company et al. (Mound), on August 15, 1958, tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.
Purchaser: Transcontinental Gas Pipe Line Corporation.
Rate schedule designation: Supplement No. 4 to Mound's FPC Gas Rate Schedule No. 15.
Effective date: September 15, 1958 (effective date is the first day after expiration of the required thirty days' notice).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final decision, it is deemed advisable to suspend the said proposed increased rate and charge until September 16, 1958, and thereafter to permit it to become effec-

tive as of that date: *Provided*, That within 20 days from the date of this order Mound shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Mound's proposed increased rate be made effective as hereinafter provided and that Mound be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Mound's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until September 16, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in the above-designated supplement to Mound's FPC Gas Rate Schedule shall be effective as of September 16, 1958: *Provided, however*, That within 20 days from the date of this order, Mound shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Mound shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by Mound herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Mound shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Mound so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Mound shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of Mound Company et al. to Comply with the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G-16241, ---------- hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this ---------- day of ----------

---

Attest: By ----------

(Secretary)

Unless Mound is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Mound shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise it shall remain in full force and effect.

(G) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

G-13016; 8-5-57; Harrell Drilling Company and H. G. Nelms, Bank of the Southwest Building, Houston, Tex.; East Retama Field, Hidalgo County, Tex.; Texas Eastern Transmission Corp.

G-13017; 8-5-57; Farnswell Production Co., P. O. Box 1748, Shreveport, La.; Bethany Field, Harrison County, Tex.; United Gas Pipe Line Co.

G-13057; 8-12-57 as amended 11-25-57; C. R. Ridgway & W. B. Ridgway, 233½ East Capitol Street, Jackson, Miss.; Pistol Ridge Field, Forrest and Pearl River Counties, Miss.; United Gas Pipe Line Co.

G-13070; 7-22-57 as amended 4-7-58; National Cooperative Refinery Association, 305 Rule Building, Wichita, Kans.; Hardtner, Donald & Undesignated Pools, Barber County, Kans.; Cities Service Gas Co.

G-13124; 8-22-57; Bright & Schiff, 205 Mercantile Commerce Building, Dallas, Tex.; East Riverside Field, San Patricio County, Tex.; Texas Eastern Transmission Corp.

G-13185; 8-29-57; Nortex Oil & Gas Corp., 1900 Life of America Building, Dallas, Tex.; West Weesatche Field, Goliad County, Tex.; United Gas Pipe Line Co.

G-13318; 9-25-57; Jack W. Grigsby, 418 Market Street, Suite 512, Shreveport, La.; Bethany-Longstreet Field, De Soto Parish, La.; Texas Eastern Transmission Corp.

G-13323; 9-26-57; Phillips Petroleum Co., Bartlesville, Okla.; Camrick Southeast Pool, Texas County, Okla.; Natural Gas Pipeline Co. of America.

G-13330; 9-30-57; Sinclair Oil & Gas Co., Sinclair Oil Building, Tenth and Boston, Tulsa, Okla.; Premont Field, Jim Wells County, Tex.; Coastal States Gas Producing Co.

G-13333; 9-30-57; Shell Oil Company, 50 West 50th Street, New York 20, N. Y.; Orange Grove Field, Terrebonne Parish, La.; United Fuel Gas Co.

G-13816; 11-27-57; Aurora Gasoline Co., 15911 Wyoming Avenue, Detroit 38, Mich.; Barber County, Kans.; Cities Service Gas Co.

G-13826; 11-29-57; Magnolia Petroleum Co., P. O. Box 900, Dallas, Tex.; Parnell and Northrup Fields, Ochiltree County, Tex.; Northern Natural Gas Co.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 16, 1958, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 6, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

FEDERAL TRADE COMMISSION

[File No. 21-475]

WORK GLOVE INDUSTRY

NOTICE OF TRADE PRACTICE CONFERENCE

Notice is hereby given that a trade practice conference for the Work Glove Industry will be held under the auspices of the Federal Trade Commission in the Lower Tower Room of the Conrad Hilton Hotel, 720 South Michigan Blvd., Chicago, Illinois, on October 10, 1958, commencing at 10 a. m., c. d. t.

All persons, firms and organizations engaged in the manufacture, sale or distribution of gloves or mittens which are designed primarily for use during the performance of work or labor, are cordially invited to attend and participate in this meeting.

The conference is being held pursuant to application of the Work Glove Institute. Its purpose is to obtain recommendations and assistance from industry members in establishing a set of trade practice rules which will give guidance to the industry members as to the requirements of laws administered by the Commission which have applicability to trade practices in the industry and proscribe unfair methods of competition, unfair or deceptive acts or practices, and other trade abuses.

At the conference the applicant trade association will propose for consideration, among others, rules on the following subjects: discriminatory promotional allowances; discriminatory sales to jobbers, wholesalers, and purchasing groups; quantity discounts; deception (general); misrepresentation as to character of business; guarantees, warranties, etc.; and consignment distribution. Any industry member may submit additional rules, may suggest amendment or deletion of any proposed rules submitted, and may take part in the consideration and discussion of any proposal presented.

The announced conference constitutes the first step in proceedings to establish trade practice rules for this industry.

By direction of the Commission.

Issued: September 16, 1958.

[SEAL] ROBERT M. PARRISH,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 199]

KANSAS

DECLARATION OF DISASTER AREA

Whereas, it has been reported that during the month of September 1958, because of the effects of certain disasters, damage resulted to residences and business property located in certain areas in the State of Kansas;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act.

Now, therefore, as Deputy Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7 (b) of the Small Business Act may be received and considered by the Offices below indicated from persons or firms whose property situated in the following County (including any areas adjacent to said County) suffered damage or other destruction as a result of the catastrophe hereinafter referred to:

County: Cloud (Flash flood occurring on or about September 4).

Offices: Small Business Administration Regional Office, Home Savings Building, Fifth Floor, 1006 Grand Avenue, Kansas City 6, Mo. Small Business Administration Branch Office, 301 Bitting Building, 107 North Market Street, Wichita 2, Kans.

2. A special field office will be established at Clyde, Kansas.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to March 31, 1959.

Dated: September 8, 1958.

ALBERT C. KELLY,
Deputy Administrator.

Grounds for relief: Motor truck competition.

Tariff: Supplement 25 to Midwest Haulers, Inc., tariff MF-I. C. C. 21.

FSA No. 34969: *Fertilizer and fertilizer materials from La Platte, Nebr., Lawrence and Military, Kans.* Filed by Western Trunk Line Committee, Agent (No. A-2014), for interested rail carriers. Rates on fertilizer and fertilizer materials, in carloads, from La Platte, Nebr., Lawrence and Military, Kans., to specified points in Illinois.

Grounds for relief: Market competition and restore relationships.

FSA No. 34970: *Clay between points in the south.* Filed by O. W. South, Jr., Agent (SFA No. A3727), for interested rail carriers. Rates on clay, kaolin or pyrophyllite, crude, washed, shredded or ground, in bags, barrels, or in bulk, in carloads, from points in Alabama, Florida, Georgia, North Carolina, and South Carolina to points in southern territory.

Grounds for relief: Short-line distance formula and grouping.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

MOTOR CARRIER TRANSFER PROCEEDINGS

SEPTEMBER 16, 1958.

Synopses of orders entered pursuant to section 212 (b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 60955. By order of September 11, 1958, Division 4 approved the transfer to Archer Van Lines, Inc., Ogallala, Nebr., of a portion of Certificate No. 32107, issued April 14, 1955, to Archer and Archer, Inc., Julesburg, Colo., authorizing the transportation of: Household goods, as defined by the Commission, between Julesburg, Colo., and points within 75 miles of Julesburg, on the one hand, and, on the other, points in Wyoming, South Dakota, Nebraska, and Kansas. Marion F. Jones, 526 Denham Bldg., Denver 2, Colo., for applicants.

No. MC-FC 61357. By order of September 12, 1958, The Transfer Board approved the transfer to Clyde Wainscott and Donald R. Wainscott, A Partnership, doing business as Clyde Wainscott & Son, Mexico, Missouri, of certificate in No. MC 114221 Sub 1, issued June 30, 1954, to Clyde Wainscott, Mexico, Missouri, authorizing the transportation of: *Livestock, seeds,* and *fertilizer,* in bags, from East St. Louis, Ill., to Mexico, Mo., and points other than incorporated villages, towns, or cities, within a radius of 25 miles thereof. Joseph R. Nacy, 117 West High St., Jefferson City, Mo., for applicants.

No. MC-FC 61404. By order of September 12, 1958, The Transfer Board approved the transfer to Virgil Waugh, doing business as Virgil Waugh Truck Service, Liberal, Kans., of certificate in No. MC 82733 Sub 3, issued June 12, 1958, to Case Brothers Trucking Contractors, a Corporation, Gainesville, Texas, authorizing the transportation of: *Machinery, equipment,* materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products and by-products, and *machinery, materials, equipment, and supplies used* in, or in connection with, the construction, operation, repair, servicing maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, except the stringing and picking up of main or trunk pipe lines, over irregular routes between points in Kansas and Oklahoma. W. T. Brunson, 508 Leonhardt Bldg., Oklahoma City 2, Okla., for applicants.

No. MC-FC 61462. By order of September 12, 1958, The Transfer Board approved the transfer to Hubert Cotton, doing business as Boat Transport, Atlanta, Ga., of Certificate No. MC 113231, issued September 16, 1952, to Cutter's Incorporated, Atlanta, Ga., authorizing the transportation of Used boats, over irregular routes, between points in Georgia, on the one hand, and, on the other, points in Alabama, Florida, Tennessee, and South Carolina. Allan Watkins, 214 Grant Building, Atlanta 3, Ga., for applicants.

No. MC-FC 61464. By order of September 12, 1958, The Transfer Board approved the transfer to David Graham Company, a corporation, Philadelphia, Pa., of certificate in No. MC 80653, issued October 1, 1947, to David Graham, Philadelphia, Pa., authorizing the transportation of machinery and articles requiring specialized handling or rigging, because of size or weight, over irregular routes, between Philadelphia, Pa., and specified points in Pennsylvania and New Jersey, on the one hand, and, on the other points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, Virginia, West Virginia, North Carolina, and the District of Columbia. Robert H. Shertz, Shertz, Barnes & Shertz, 811-819 Lewis Tower Building, 225 South 15th St., Philadelphia 2, Pennsylvania, for applicants.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Reg., Amdt. 40-13]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

PILOT ROUTE AND AIRPORT QUALIFICATION REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 16th day of September 1958.

Section 40.303 of Part 40 of the Civil Air Regulations requires, in part, that each pilot in command in qualifying over a route shall make an entry into each regular, provisional, and refueling airport into which he is scheduled to fly. Section 40.304 governs the maintenance and reestablishment of route qualifications and requires compliance under certain circumstances with the provisions of § 40.303 by the pilot in command.

On January 20, 1955, the Bureau of Safety circulated Civil Air Regulations Draft Release No. 55-3 (20 F. R. 550) which dealt with the overall problem of pilot airport and route qualification. Attention was drawn to the development of motion picture panoramic views of airports and their environs which showed excellent promise of providing an effective means for attaining pilot airport qualification in lieu of actual entry. An objective in this proposal was to amend the regulations in a manner that would encourage further research and development of the visual training aids programs by various commercial sources and at the same time provide more acceptable airport qualification rules for use in the meantime. Furthermore, it seemed appropriate to permit methods of airport qualification other than physical entry, provided that such alternative methods had the approval of the Administrator.

Following circulation of Draft Release 55-3 for comment, the Board promulgated a series of Special Civil Air Regulations (SR-413, SR-414, SR-418, SR-418A) to permit the controlled introduction of new techniques in airport and route qualification. These techniques included the use of pictorial means within the training program which would enable pilots to qualify at specified airports by using color motion pictures or slides showing clear daylight views of the complete physical layouts of the airports, surrounding terrain, obstructions, approaches to all runways, restricted areas, and conspicuous reference points that are of value to pilots. Under these special regulations air carriers were also authorized to conduct operations at an airport in close proximity to an airport into which pilots were qualified when the Administrator found that such pilots were adequately qualified at the new airport. In making such findings, the Administrator took into consideration such things as the familiarity of the pilots with the layout, surrounding terrain, location of obstacles, and instrument approach and traffic control procedures at the new airport. In addition, under SR-418 and SR-418A, a pilot was expressly permitted to accomplish initial qualification into an airport without being accompanied by a pilot qualified at that airport if such initial entry were made under VFR weather conditions at the particular airport involved.

One of the principal purposes of these special regulations has been to provide sufficient opportunity for evaluation of pictorial means of airport and route qualification by industry and Government alike in order to guide the Board in its final action in amending the Civil Air Regulations. Experience gained under these special regulations up to the time of the adoption of SR-418A indicated that the various procedures provided therein for airport and route qualification, including pictorial means, had been successful. Therefore, the Board stated in the preamble to SR-418A that prior to the termination of that regulation, a proposal to incorporate its substance into Part 40 would be circulated for comment. Accordingly, the Board circulated Draft Release 58-13 to obtain comments as to the continued effectiveness and extent of use of the privileges of SR-418A and any other recommendations with respect to incorporation of the provisions of that regulation in Part 40 of the Civil Air Regulations.

It was proposed to incorporate the provisions of SR-418A into Part 40 with a slight revision of the requirement concerning route qualification on those routes on which navigation must be accomplished by pilotage and on which the flight is to be conducted at or below the

level of adjacent terrain. These changes were made in the interest of clarity.

In view of the wide acceptance of this means of qualification and in the absence of any contrary view, the Board believes it desirable to include the substance of the special regulations in Part 40 of the Civil Air Regulations as proposed.

Interested persons have been afforded an opportunity to participate in the making of this amendment (23 F. R. 8356), and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) as follows, effective September 24, 1958.

1. By amending § 40.303 to read as follows:

§ 40.303 *Pilot route and airport qualification requirements.* (a) An air carrier shall not utilize a pilot as pilot in command until he has been qualified for the route on which he is to serve in accordance with the provisions of this section and the appropriate instructor or check pilot has so certified.

(b) Each such pilot shall demonstrate adequate knowledge concerning the subjects listed below with respect to each route to be flown. Those portions of the demonstration pertaining to holding procedures and instrument approach procedures may be accomplished in a synthetic trainer which contains the radio equipment and instruments necessary to simulate the navigational and let-down procedures approved for use by the air carrier:

(1) Weather characteristics,
(2) Navigational facilities,
(3) Communication procedures,
(4) Type of en route terrain and obstruction hazards,
(5) Minimum safe flight levels,
(6) Position reporting points,
(7) Holding procedures,
(8) Pertinent traffic control procedures, and
(9) Congested areas, obstructions, physical layout, and all instrument approach procedures for each regular, provisional, and refueling airport approved for the route.

(c) Each such pilot shall make an entry as a member of the flight crew at each regular, provisional, and refueling airport into which he is scheduled to fly. Such entry shall include a landing and take-off. The qualifying pilot shall occupy a seat in the pilot compartment and he shall be accompanied by a pilot who is qualified at the airport.

(d) Such pilot shall not be required to meet the entry requirements of paragraph (c) of this section when:

(1) The initial entry is made under VFR weather conditions at the particular airport involved; or

(2) The air carrier shows that the pilot airport qualification can be accomplished by an approved pictorial means; or

(3) The air carrier notifies the Administrator that it intends to conduct operations at an airport in close proximity to an airport into which the pilot involved is presently qualified by entry, and the Administrator finds that such pilot is adequately qualified at the new airport. The Administrator, in making such finding, shall take into consideration at least the familiarity of the pilot with the layout, surrounding terrain, location of obstacles, and instrument approach and traffic control procedures at the new airport.

(e) On routes or route segments on which navigation must be accomplished by pilotage and on which flight is to be conducted at or below the level of the adjacent terrain which is within a horizontal distance of 25 miles on either side of the center line of the route to be flown, the pilot shall be familiarized with such route or route segments by not less than two one-way trips on the flight deck over the route or route segments under VFR weather conditions to permit the qualifying pilot to observe terrain along the route.

2. By amending § 40.304 (a) by changing the reference "§ 40.303 (d)" to read "§ 40.303 (e)".

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 609; 52 Stat. 1007, 1010, 1011, as amended; 49 U. S. C. 551, 554, 559)

[Civil Air Regs., Amdt. 41–19]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

PILOT ROUTE AND AIRPORT QUALIFICATION REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 16th day of September 1958.

Section 41.50 of Part 41 of the Civil Air Regulations provides, in part, that a pilot in qualifying over a route shall make at least one round trip or two one-way trips over the route, including a familiarization flight at each regular, provisional, or refueling airport, with one of the air carrier's check pilots. Section 41.51 governs the maintenance and re-establishment of route qualifications and requires compliance under certain circumstances with the provisions of § 41.50 by the pilot in command.

On January 20, 1955, the Bureau of Safety circulated Civil Air Regulations Draft Release No. 55–3 (20 F. R. 550) which dealt with the over-all problem of pilot airport and route qualification. Attention was drawn to the development of motion picture panoramic views of airports and their environs which showed excellent promise of providing an effective means for attaining pilot airport qualification in lieu of actual entry. An objective in this proposal was to amend the regulations in a manner that would encourage further research and development of the visual training aids programs by various commercial sources and at the same time provide more acceptable airport qualification rules for use in the meantime. Furthermore, it seemed appropriate to permit methods of airport qualification other than physical entry, provided that such alternative methods had the approval of the Administrator.

Following circulation of Draft Release 55–3 for comment, the Board promulgated a series of Special Civil Air Regulations (SR–413, SR–414, SR–418, and SR–418A) to permit the controlled introduction of new techniques in airport and route qualification. These techniques included the use of pictorial means within the training program which would enable pilots to qualify at specified airports by using color motion pictures or slides showing clear daylight views of the complete physical layouts of the airports, surrounding terrain, obstruction, approaches to all runways, restricted areas, and conspicuous reference points that are of value to pilots. Under these special regulations air carriers were also authorized to conduct operations at an airport in close proximity to an airport into which pilots were qualified when the Administrator found that such pilots were adequately qualified at the new airport. In making such findings, the Administrator took into consideration such things as the familiarity of the pilots with the layout, surrounding terrain, location of obstacles, and instrument approach and traffic control procedures at the new airport. In addition, under SR–418 and SR–418A, a pilot was expressly permitted to accomplish initial qualification into an airport without being

accompanied by a pilot qualified at that airport if such initial entry were made under VFR weather conditions at the particular airport involved.

One of the principal purposes of these special regulations has been to provide sufficient opportunity for evaluation of pictorial means of airport and route qualification by industry and Government alike in order to guide the Board in its final action in amending the Civil Air Regulations. Experience gained under these special regulations up to the time of the adoption of SR–418A indicated that the various procedures provided therein for airport and route qualification, including pictorial means, had been successful. Therefore, the Board stated in the preamble to SR–418A that prior to the termination of that regulation, a proposal to incorporate its substance into Part 41 would be circulated for comment. Accordingly, the Board circulated Draft Release 58–13 to obtain comments as to the continued effectiveness and extent of use of the privileges of SR–418A and any other recommendations with respect to incorporation of the provisions of that regulation in Part 41 of the Civil Air Regulations.

In view of the wide acceptance of this means of qualification and in the absence of any contrary view, the Board believes it desirable to include the substance of the special regulations in Part 41 of the Civil Air Regulations as proposed. The provisions contained in SR–418A concerning route qualification on those routes on which navigation must be accomplished by pilotage and on which the flight is to be conducted at or below the level of adjacent terrain also are being added to Part 41 by this amendment.

Interested persons have been afforded an opportunity to participate in the making of this amendment (23 F. R. 5356), and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 41 of the Civil Air Regulations (14 CFR Part 41, as amended) as follows, effective September 24, 1958.

1. By amending § 41.50 to read as follows:

§ 41.50 *Pilot route and airport qualification requirements.* (a) An air carrier shall not utilize a pilot as pilot in command until he has been qualified for the route on which he is to serve in accordance with the provisions of this section and the appropriate instructor or check pilot has so certified.

(b) Each such pilot shall demonstrate adequate knowledge concerning the subjects listed below with respect to each route to be flown. Those portions of the demonstration pertaining to holding procedures and instrument approach procedures may be accomplished in a synthetic trainer which contains the radio equipment and instruments necessary to simulate the navigational and letdown procedures approved for use by the air carrier:

(1) Weather characteristics,
(2) Navigational facilities,
(3) Communication procedures,
(4) Type of en route terrain and obstruction hazards,
(5) Minimum safe flight levels,
(6) Position reporting points,
(7) Holding procedures,
(8) Pertinent traffic control procedures, and
(9) Congested areas, obstructions, physical layout, and all instrument approach procedures for each regular, provisional, and refueling airport approved for the route.

(c) Each such pilot shall make an entry as a member of the flight crew at each regular, provisional, and refueling airport into which he is scheduled to fly. Such entry shall include a landing and take-off. The qualifying pilot shall occupy a seat in the pilot compartment and he shall be accompanied by a pilot who is qualified at the airport.

(d) Such pilot shall not be required to meet the entry requirements of paragraph (c) of this section when:

(1) The initial entry is made under VFR weather conditions at the particular airport involved; or

(2) The air carrier shows that the pilot airport qualification can be accomplished by an approved pictorial means; or

(3) The air carrier notifies the Administrator that it intends to conduct operations at an airport in close proximity to an airport into which the pilot involved is presently qualified by entry, and the Administrator finds that such pilot is adequately qualified at the new airport. The Administrator, in making such finding, shall take into consideration at least the familiarity of the pilot with the layout, surrounding terrain, location of obstacles, and instrument approach and traffic control procedures at the new airport.

(e) On routes or route segments on which navigation must be accomplished by pilotage and on which flight is to be conducted at or below the level of the adjacent terrain which is within a horizontal distance of 25 miles on either side of the center line of the route to be flown, the pilot shall be familiarized with such route or route segments by not less than two one-way trips on the flight deck over the route or route segments under VFR weather conditions to permit the qualifying pilot to observe terrain along the route.

2. By amending § 41.51 to read as follows:

§ 41.51 *Maintenance and re-establishment of pilot route and airport qualification for particular trips.* (a) To maintain pilot route and airport qualifications, each pilot being utilized as pilot in command, within the preceding 12-month period, shall have made at least one trip as pilot or other member of the flight crew between terminals into which he is scheduled to fly and shall have complied with the provisions of § 41.50 (e), if applicable.

(b) In order to re-establish pilot route and airport qualifications after absence from a route for a period in excess of 12 months, a pilot shall comply with the appropriate provisions of § 41.50.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 609, 52 Stat. 1007, 1010, 1011, as amended, 49 U. S. C. 554, 559)

By the Civil Aeronautics Board.

TITLE 7—AGRICULTURE

Chapter IV—Federal Crop Insurance Corporation

[Amdts. 8, 10]

PART 401—FEDERAL CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1958 AND SUCCEEDING CROP YEARS

Correction

The following corrections should be made in the issue for Saturday, September 6, 1958:

In Federal Register Document 58–7214 (Amdt. 8), published at page 6855, the 14th line of paragraph 9 (c) of the endorsement under § 401.28 should read "not included in items (1) through (3).".

In Federal Register Document 58–7216 (Amdt. 10), published at page 6857, the following changes should be made:

1. The text of the amendment in paragraph 4 should read:

State and County:	*Closing date*
Iowa:	
Delaware, Emmett, Howard, Humboldt and Ida Counties	March 31.
All other Iowa Counties	April 30.
Louisiana and Oregon	November 30.
Minnesota, North Dakota, South Dakota and Wisconsin	March 31.
Tennessee:	
Weakley County	March 31.
All other Tennessee Counties	September 30.
Wyoming	August 31.
All other States	September 30.

2. The fifth line of paragraph 5 (j) of the endorsement under § 401.29 should read: "not grade No. 4, No. 2, No. 3, No. 4 or better".

3. In the table under paragraph 8 of the endorsement under § 401.29, the termination date for indebtedness for Minnesota, North Dakota, South Dakota, and Wisconsin should read "Mar. 31".

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 154]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.454 *Valencia Orange Regulation 154*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922), regulating the handling of Valencia oranges

grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 18, 1958.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., September 21, 1958, and ending at 12:01 a. m., P. s. t., September 28, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 646,800 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 19, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lemon Reg. 757]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF HANDLING

§ 953.864 *Lemon Regulation 757*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based become available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 17, 1958.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 21, 1958, and ending at 12:01 a. m., P. s. t., September 28, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 186,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 18, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-7773; Filed, Sept. 19, 1958; 9:07 a. m.]

[Avocado Order 16, Amdt. 3]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969), regulating the handling of avocados grown in south Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted,

under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter set forth. A reasonable determination as to the time of maturity of avocados must await the development of the crop thereof, and adequate information thereon was not available to the Avocado Administrative Committee until September 16, 1958; a determination as to the time of maturity of the varieties of avocados covered by this amendment was made at the meeting of said committee on September 16, 1958, after consideration of all available information relative to such maturity and growing conditions prevailing during the current season for such avocados, at which time the recommendations and supporting information for such maturity regulation were submitted to the Department; such meeting was held to consider recommendation for such regulation after giving due notice thereof, and interested parties were afforded an opportunity to submit their views at this meeting; the provisions of this regulation are identical with the aforesaid recommendations of the committee and information concerning such provisions has been disseminated among the handlers of avocados; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

It is, therefore, ordered, That the provisions of paragraph (b) of § 969.316, as amended (23 F. R. 4349, 5476, 6318), are hereby further amended as follows:

1. Revise that portion of Table I applicable to the Booth 8, Blair, Rue, Black Prince, Sherman, Marcus, Booth 7, Booth 10, Lula, Hickson, Nelson, Vaca, Booth 5, Simpson, Collinson, Avon, Booth 11, Winslowson, Herman, Monroe, Booth 3, Ajax (B–7 B), Taylor, Booth 1, Dunedin, Hall, and Choquette varieties to read as follows:

Variety (1)	Date (2)	Minimum weight or diameter (3)	Date (4)	Minimum weight or diameter (5)	Date (6)	Minimum weight or diameter (7)	Date (8)
Booth 8	9-22-58	16 ounces 3 1/16 inches	10- 6-58	14 ounces 3 1/16 inches	10-20-58	12 ounces 3 9/16 inches	11- 3-58
Blair	9-29-58	16 ounces	10-13-58	14 ounces	10-27-58	11 ounces	11-10-58
Rue	10- 6-58	30 ounces 4 3/16 inches	10-13-58	24 ounces 3 1/16	10-27-58	18 ounces 3 9/16	11-10-58
Black Prince	10- 6-58	16 ounces	10-20-58	14 ounces	11- 3-58	11 ounces	11-24-58
Sherman	10-13-58	16 ounces	10-27-58	14 ounces	11-10-58	10 ounces	12- 1-58
Marcus	10-13-58	32 ounces	11-24-58				
Booth 7	10-13-58	16 ounces 3 1/16 inches	10-20-58	14 ounces 3 5/16 inches	10-27-58	11 ounces 3 5/16 inches	11-10-58
Booth 10	10-13-58	16 ounces 3 1/16 inches	10-20-58	14 ounces 3 5/16 inches	10-27-58	11 ounces 3 5/16 inches	11-10-58
Lula	10-13-58	18 ounces 3 1/16 inches	10-27-58	16 ounces 3 5/16 inches	11-10-58	14 ounces 3 5/16 inches	11-24-58
Hickson	10-20-58	15 ounces 3 9/16 inches	11- 3-58	13 ounces 3 5/16 inches	11-17-58	10 ounces 2 15/16 inches	12- 8-58
Nelson	10-20-58	15 ounces 3 9/16 inches	11- 3-58	13 ounces 3 9/16 inches	11-17-58	10 ounces 3 1/16 inches	12- 8-58
Vaca	10-20-58	16 ounces 3 9/16 inches	11- 3-58	14 ounces 3 5/16 inches	11-17-58	11 ounces 3 5/16 inches	12- 8-58
Booth 5	10-20-58	16 ounces 3 1/16 inches	11- 3-58	14 ounces 3 9/16 inches	11-17-58	10 ounces 3 5/16 inches	12- 8-58
Simpson	10-20-58	16 ounces	11- 3-58	14 ounces	11-17-58	11 ounces	12- 8-58
Collinson	10-20-58	16 ounces 3 1/16 inches	11- 3-58	14 ounces 3 5/16 inches	11-17-58	11 ounces 3 5/16 inches	12- 8-58
Avon	10-27-58	15 ounces 3 9/16 inches	11-10-58	13 ounces 3 7/16 inches	11-24-58	10 ounces 3 1/16 inches	12-15-58
Booth 11	10-27-58	16 ounces	11-10-58	14 ounces	11-24-58	11 ounces	12-15-58
Winslowson	10-27-58	18 ounces 3 1/16 inches	11-10-58	15 ounces 3 9/16 inches	11-24-58	11 ounces 3 5/16 inches	12-15-58
Herman	11- 3-58	16 ounces 3 5/16 inches	11-17-58	14 ounces 3 7/16 inches	12- 1-58	11 ounces 3 3/16 inches	12-22-58
Monroe	11- 3-58	24 ounces	11-24-58	20 ounces	12-15-58	14 ounces	1- 5-59
Booth 3	11-10-58	16 ounces 3 5/16 inches	11-24-58	14 ounces 3 7/16 inches	12- 8-58	11 ounces 3 3/16 inches	12-30-58
Ajax (B–7 B)	11-10-58	18 ounces 3 1/16 inches	11-24-58	15 ounces 3 5/16 inches	12- 8-58	11 ounces 3 3/16 inches	12-30-58
Taylor	11-17-58	14 oz. 3 5/16 in.	12- 1-58	12 oz. 3 3/16 in.	12-15-58	9 oz. 2 13/16 in.	1- 5-59
Booth 1	11-17-58	16 oz. 3 1/16 in.	12- 1-58	14 oz. 3 5/16 in.	12-15-58	11 oz. 3 3/16 in.	1- 5-59
Dunedin	11-17-58	16 oz. 3 1/16 in.	12- 1-58	14 oz. 3 5/16 in.	12-15-58	11 oz. 3 3/16 in.	1- 5-59
Hall	11-17-58	26 oz. 3 1/16 in.	12- 1-58	20 oz. 3 5/16 in.	12-15-58	14 oz. 3 3/16 in.	1- 5-59
Choquette	11-17-58	30 oz.	12- 8-58	22 oz.	12-22-58	18 oz.	1-12-59

2. Amend Table I by adding therein the varieties and maturity requirements applicable thereto as follows:

Variety (1)	Date (2)	Minimum weight or diameter (3)	Date (4)	Minimum weight or diameter (5)	Date (6)	Minimum weight or diameter (7)	Date (8)
Lardon	10-27-58	15 ounces	11-10-58	13 ounces	11-24-58	10 ounces	12-15-58
Murphy	10-27-58	16 ounces	11-10-58	14 ounces	11-24-58	11 ounces	12-15-58
Camp	11-10-58	16 ounces	11-24-58	14 ounces	12- 8-58	11 ounces	12-30-58
Leona	11-17-58	3 9/16 inches 20 ounces	12- 1-58	3 1/16 inches 16 ounces	12-15-58	3 5/16 inches 12 ounces	1- 5-59

3. Add to § 969.316 (b) a new subparagraph (9) as follows:

(9) During the period beginning at 12:01 a. m., e. s. t., November 3, 1958, and ending at 12:01 a. m., e. s. t., November 17, 1958, no handler shall handle any avocados of the Booth 8 variety unless the individual fruit weighs at least 16 ounces or measures at least 2 15/16 inches in diameter; and during the period beginning at 12:01 a. m., e. s. t., November 24, 1958, and ending at 12:01 a. m., e. s. t., December 8, 1958, no handler shall handle any avocadoes of the Lula variety unless the individual fruit weighs at least 11 ounces or measures at least 2 13/16 inches in diameter: *Provided*, That up to 10 percent, by count, of the individual fruit contained in each lot of Booth 8 or Lula avocados may weigh less than the minimum weight specified in this subparagraph for such variety and may be less than the minimum diameter so specified if such avocados weigh not more than two ounces less than the applicable specified weight. Such tolerance shall be on a lot basis, but not to exceed double such tolerance shall be permitted for an individual container in a lot.

The provisions of this amendment shall become effective at 12:01 a. m., September 22, 1958.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 17, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-7741; Filed, Sept. 19, 1958; 8:56 a. m.]

PART 1003—DOMESTIC DATES PRODUCED OR PACKED IN A DESIGNATED AREA OF CALIFORNIA

ADDITIONAL GRADE REGULATION

Pursuant to § 1003.40 of Marketing Agreement No. 127, as amended, and Order No. 103, as amended (Part 1003; 23 F. R. 6904), regulating the handling of domestic dates produced or packed in a designated area of California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation of the Date Administrative Committee and other available information, it is hereby found that amendment of § 1003.203 *Additional grade regulation* so as to include additional grade regulation for dates of the Deglet Noor variety which are to be withheld to meet restricted obligation and to revise the current additional grade regulation (§ 1003.203) for dates of such variety which may be handled as whole or pitted dates, as hereinafter set forth, will tend to effectuate the declared policy of the said act.

The quantity of marketable dates of the Deglet Noor variety (presently required to be at least U. S. Grade C or

U. S. Grade C (Dry), whichever is applicable, as provided in §§ 1003.12 and 1003.39) estimated to be available from inventories and 1958 production will be substantially more than known requirements for the crop year beginning August 1, 1958 and for carryout (i. e., handler carryover as of July 31, 1959). Particularly, the quantity of restricted dates (included in marketable dates) resulting from the current volume regulation (23 F. R. 6547) will be in excess of the quantity of Deglet Noor dates required in the outlets (i. e., manufacture of products for use as human food) prescribed for restricted dates; and hence, some of these dates would need to be disposed of in outlets for substandard dates. The dates to be disposed of in the outlets for substandard dates should be the least sound of the presently marketable dates, thereby making available for such manufacture only the better dates.

The amendment, set forth herein, of the present additional grade regulation will tighten the current minimum grade standard (U. S. Grade C or U. S. Grade C (Dry), whichever is applicable) for restricted Deglet Noor dates by requiring that, in addition to otherwise meeting such applicable U. S. Grade requirements, such dates shall score not less than 24 points for absence of defects and not less than 29 points for character. Currently, such restricted dates must score not less than 21 points for absence from defects and not less than 28 points for character (the respective minimum scores specified for such factors in U. S. Grade C and U. S. Grade C (Dry)). The minimum standard established herein for restricted dates of such variety becomes, by the provisions of § 1003.12, the minimum standard for marketable dates of such variety. The committee contemplates that the tightening of the minimum standard will reduce by 10 percent or about 3,300,000 pounds the aforesaid estimated quantity of marketable dates for the 1958–59 crop year.

The additional grade regulation (§ 1003.203) currently in effect prescribes that Deglet Noor dates handled as whole or pitted dates (free dates under volume regulation) shall meet the requirements of U. S. Grade C, provided that such dates shall score not less than 31 points for character. The amendment of such additional grade regulation set forth herein requires that such dates so handled shall meet U. S. Grade C or, if for further processing, U. S. Grade C (Dry), provided that the dates shall score not less than 24 points for absence of defects, as well as not less than 31 points for character. The added requirement with respect to absence of defects will further improve the quality of Deglet Noor dates handled as whole or pitted dates.

The available supply of Deglet Noor dates meeting all of the requirements of such additional grade regulation as herein amended is expected to exceed the trade demand for such dates. Therefore, volume regulation continues to be necessary to adjust the supply of Deglet Noor dates to the demand for such dates. However, due to the change in the supply of marketable Deglet Noor dates which will result from tightening the minimum grade standard applicable to such dates as provided herein, the currently effective order establishing free, restricted, and withholding percentages (§ 1003.206; 23 F. R. 6547) is modified by an order, effective at the same time as this amendment, published simultaneously herewith.

It is therefore, ordered, That § 1003.203 *Additional grade regulation* shall be, and it hereby is, amended to read as follows:

§ 1003.203 *Additional grade regulations*—(a) *Dates handled as whole or pitted dates.* Except as otherwise provided in paragraph (c) of this section, Deglet Noor dates handled under this part as whole or pitted dates shall, other than for the factors of absence of defects and of character, meet the requirements of U. S. Grade C or, if for further processing, U. S. Grade C (Dry) of the United States Standards for Grades of Dates (§§ 52.1001 to 52.1011 of this title), as from time to time amended or modified and in effect at the time of such handling, and shall score not less than 24 points for the factor of absence of defects and not less than 31 points for the factor of character, when scored in accordance with the scoring system outlined in said standards.

(b) *Dates withheld to meet restricted obligation.* Except as otherwise provided in paragraph (c) of this section, dates to be withheld from handling pursuant to § 1003.45 shall, other than for the factors of absence of defects and of character, meet the requirements of U. S. Grade C or U. S. Grade C (Dry), whichever is applicable, of the United States Standards for Grades of Dates, as aforesaid, and shall score not less than 24 points for the factor of absence of defects and not less than 29 points for the factor of character, when scored in accordance with the scoring system outlined in said standards.

(c) *Dates inspected and certified prior to the effective date of this section.* The provisions of this section shall not apply to Deglet Noor dates inspected and certified prior to September 20, 1958, as meeting the applicable requirements of this part in effect at the time of such inspection and certification.

It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and that good cause exists for making the provisions of this order effective not later than the date of publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.), in that: (1) Authority to establish additional grade requirements for restricted dates first became effective September 9, 1958 (23 F. R. 6904), whereas the current crop year began August 1, 1958; (2) the limited quantity of dates of the Deglet Noor variety now being handled is expected to increase substantially in the immediate future; (3) in order to effectuate the declared policy of the act, it is necessary that the additional grade regulations established herein become effective as early in the current crop year as possible so as to achieve (a) the required adjustment in the supply of marketable dates of such variety for the entire 1958–59 crop year, and (b) the maximum benefits from making available the higher quality dates for the manufacture of date products for human consumption and for purchase by the trade as whole or pitted dates; (4) since this action will require a revision of the free and restricted percentages (23 F. R. 6547) for dates of the Deglet Noor variety, with the resultant recomputation, as provided in § 1003.46, of handlers' obligations in connection with dates handled or certified for handling or further processing since the beginning of the current crop year, an early effective date for this action will also permit the prompt revision of the percentages and facilitate the required recomputation; and (5) in these circumstances, handlers should require no additional time to prepare for compliance with the provisions of this order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated September 17, 1958, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

[F. R. Doc. 58–7717; Filed, Sept. 19, 1958; 8:54 a. m.]

PART 1003—DOMESTIC DATES PRODUCED OR PACKED IN A DESIGNATED AREA OF CALIFORNIA

FREE, RESTRICTED AND WITHHOLDING PERCENTAGES FOR DEGLET NOOR DATES FOR 1958–59 CROP YEAR

Pursuant to the applicable provisions of Marketing Agreement No. 127 as amended, and Order No. 103 as amended (Part 1003; 23 F. R. 6904), regulating the handling of domestic dates produced or packed in a designated area of California, hereinafter referred to as the "order," effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," the Date Administrative Committee has unanimously recommended that, for marketable dates of the Deglet Noor variety, the free percentage should be revised from 74 to 80 percent, the restricted percentage from 26 to 20 percent, and the withholding percentage from 35.1 to 25 percent for the 1958–59 crop year.

Free, restricted, and withholding percentages of 74, 26, and 35.1, respectively, for such crop year were previously established for dates of the Deglet Noor variety by an order published in the FEDERAL REGISTER on August 23, 1958 (23 F. R. 6547). Such free, restricted, and withholding percentages for Deglet Noor dates were based on the committee's estimate of the total available supply of marketable Deglet Noor dates subject to volume regulation during the crop year beginning August 1, 1958, of approximately 35,700,000 pounds and on the committee's estimate of a required total free poundage of about 26,100,000 pounds to meet trade demand. An order amending § 1003.203 *Additional grade regulation*, published and effective simultaneously herewith, increases the current

grade requirements for marketable Deglet Noor dates so that the estimated total available supply of marketable dates of such variety subject to volume regulation in the 1958–59 crop year will be reduced to approximately 32,400,000 pounds. In order to permit the original, estimated total free poundage requirements (approximately 26,100,000 pounds) for Deglet Noor dates to be achieved, it is necessary to increase the current free percentage of 74 percent for such dates to 80 percent and to make corresponding changes in the restricted and withholding percentages.

After consideration of the committee's recommendation, the supporting data submitted by the committee, and other available information, it is hereby found that to increase, as hereinafter set forth, the free percentage for dates of the Deglet Noor variety to make it conform with the new relation found to exist between trade demand for, and available supply of, marketable dates of such variety and to revise the applicable restricted and withholding percentages accordingly, will tend to effectuate the declared policy of the act.

Therefore, it is hereby ordered, That § 1003.206 (23 F. R. 6547), which established the free, restricted, and withholding percentages for the Deglet Noor variety of dates for the crop year beginning August 1, 1958, is hereby revised by changing the provisions in § 1003.206 (a) to read as follows:

(a) Deglet Noor variety dates: Free percentage, 80 percent; restricted percentage, 20 percent; and withholding percentage, 25 percent;

It is hereby further found that it is impracticable, unnecessary and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and that good cause exists for making the provisions of this order effective upon publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.), in that: (1) Since the current crop year began on August 1, 1958, and the limited quantity of Deglet Noor dates now being handled is expected to increase substantially in the immediate future, handlers should know as soon as practicable the control percentages which are to be applicable to Deglet Noor dates during the entire crop year; (2) because this revision of the control percentages corrects a shortage in the quantity of Deglet Noor dates required to meet the trade demand for such dates which results from the amendment of § 1003.203 (to become effective upon publication in the FEDERAL REGISTER simultaneously herewith), it is necessary that this document become effective upon publication in the FEDERAL REGISTER so the revision of the control percentages will occur simultaneously with the amendment of § 1003.203 and thereby correct the shortage at the time it occurs; (3) as this revision would require recomputation of handlers' control obligations and adjustments in poundage, with respect to Deglet Noor dates as provided in § 1003.46, for the entire 1958–59 crop year, in order to mimimize, and facilitate, the making of such recomputation and adjustments it is necessary that this revision become effective as soon as possible and not later than the time hereinafter provided; (4) the revision in the control percentages was unanimously recommended by the committee, and handlers have been informed of it; and (5) in these circumstances, handlers should require no additional time to prepare for compliance with the provisions of this revision.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated September 17, 1958, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6931]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MAX J. RAFF ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.70 *Fictitious or misleading guarantees;* § 13.130 *Manufacture or preparation;* § 13.175 *Quality of product or service.* Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception;* § 13.1056 *Preticketing merchandise misleadingly.* Subpart—*Misbranding or mislabeling:* § 13.1220 *Guarantee;* § 13.1255 *Manufacture or preparation;* § 13.1295 *Quality or grade.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Max J. Raff et al. doing business as Aristocrat Clock Company, New York, N. Y., Docket 6931, August 13, 1958]

In the Matter of Max J. Raff, and Isadore A. Raff, Individually and as Copartners Doing Business as Aristocrat Clock Company.

This proceeding was heard by a hearing examiner on the complaint of the Commission charging distributors in New York City with representing falsely by means of labels, counter displays, display boxes, and trade circulars distributed to dealers and retailers, that their "Artco" watches were jeweled and contained jeweled movements; that watches designated "Seventeen" and "Twenty-One" contained seventeen and twenty-one jewels, respectively; and that the watches were fully guaranteed for one year; and with selling watches having bezels composed of base metal simulating gold without disclosing the true metal composition of the bezels.

At a hearing, respondents admitted all the allegations in the complaint, whereupon the hearing examiner made his initial decision, including findings, conclusion, and order to cease and desist. An unusual feature of the order was the postponement of the effective date requiring disclosure of the base metal bezels until December 31, 1958, which, upon review, was reworded by the Commission. As thus modified, the initial decision became on August 13 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Max J. Raff and Isadore A. Raff, individually and as co-partners doing business as Aristocrat Clock Company, or under any other name, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of watches in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that a watch is a "jeweled" watch, or that it contains a jeweled movement, unless such watch contains at least seven jewels, each of which serves a mechanical purpose as a frictional bearing.

2. Using the term "Seventeen" or the term "Twenty-One" as a designation for a watch which contains less than seventeen or twenty-one frictional bearing jewels, respectively; or otherwise representing that a watch contains a greater number of jewels than is the fact.

3. Representing, directly or by implication, that watches are guaranteed, unless the nature and extent of the guarantee and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed.

4. Offering for sale or selling watches the cases of which are composed in whole or in part of base metal which has been treated to simulate precious metal, without clearly disclosing on such cases the true metal composition of such treated cases or parts.

Provided, however, That nothing contained herein shall be deemed to require the respondents to comply with the requirements of Paragraph 4 of this order to cease and desist until December 31, 1958.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with Paragraphs 1, 2 and 3 of the order to cease and desist.

It is further ordered, That the respondents shall, on or before December 31, 1958, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with Paragraph 4 of the order to cease and desist.

Issued: August 13, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 58-7685; Filed, Sept. 19, 1958; 8:48 a. m.]

[Docket 7085]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

LANOLE PRODUCTS, INC., AND A. P. ABBEY

Subpart—*Advertising falsely or misleadingly:* § 13.15 *Business status, advantages, or connections:* Individual or private business as educational, religious or research institution; § 13.110 *Indorsements, approval, and testimonials;* § 13.170 *Qualities or properties of product or service;* § 13.205 *Scientific or other relevant facts.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Lanole Products, Inc., et al., Detroit, Mich., Docket 7085, August 13, 1958]

In the matter of Lanole Products, Inc., a Corporation, and A. P. Abbey, Individually, and as an Officer of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a seller in Detroit, Mich., of its "Lanole Scalp Treatment Kit" with advertising falsely that its products would prevent excessive hair fall and baldness in the majority of cases and that the principal cause of such conditions was bad scalp hygiene and scalp infection; that the business designated "Patten Research Institute" had engaged in research in connection with the hair and scalp or its preparations, and that it was an institute.

After acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 13 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondents, Lanole Products, Inc., a corporation, and its officers, and A. P. Abbey, individually and as an officer of said corporation, and their representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of their various cosmetic preparations known as Lanole Anhydrous or Prophylactic Shampoo, Lanole Scalp Lotion, Lanole Lasco Ointment and Professional Shampoo, or any preparations of substantially similar composition or possessing substantially similar properties, whether sold under said names or any other names, or any other preparations, do forthwith cease and desist from:

1. Disseminating, or causing to be disseminated by means of the United States mail, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication:

(a) That bad scalp hygiene or scalp infections, are the principal or major causes of excessive falling hair or baldness.

(b) That the use of respondents' preparations alone, or in any combination, or in conjunction with any method of application will prevent excessive hair fall or baldness unless such representations be expressly limited to cases other than male pattern baldness and unless it is clearly and conspicuously revealed that the great majority of cases of excessive hair fall and baldness are the male pattern type and that in such cases respondents' preparations will be of no value.

(c) That the business known as Patten Research Institute has engaged in research in connection with hair or scalp conditions or in connection with respondents' preparations, or that such business is an institute.

2. Disseminating, or causing to be disseminated, by any means, any advertisement for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of said preparations in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any of the representations prohibited in Paragraph 1 above, or which fails to comply with the affirmative requirements of subparagraph (b) of Paragraph 1 hereof.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 13, 1958.

By the Commission.

TITLE 22—FOREIGN RELATIONS

Chapter II—International Cooperation Administration, Department of State

PART 201—PROCEDURES FOR FURNISHING ASSISTANCE TO COOPERATING COUNTRIES

USED PROPERTY

ICA Regulation I is amended as follows:

Section 201.6 (q) is added to read as follows:

(q) *Used property.* The procurement of any type of used machinery, equipment, apparatus or supplies is not eligible for financing under any PA or PIO/C in the absence of an express provision authorizing such financing in the PA or PIO/C; provided, however, that this limitation shall not apply to the financing of procurement of U. S. Government-owned excess or surplus personal property through procedures established by ICA.

(Sec. 525, 68 Stat. 856, as amended; 22 U. S. C. 1785)

L. J. SACCIO,
Acting Director,
International Cooperation Administration.

TITLE 29—LABOR

Chapter XII—Federal Mediation and Conciliation Service

PART 1401—AVAILABILITY OF INFORMATION

PLACES AT WHICH INFORMATION MAY BE OBTAINED

Section 1401.1 is hereby revised to read as follows:

§ 1401.1 *Places at which information may be obtained.* Any individual, employer or union, or representative thereof, desiring information regarding the operations of the Service within a region should communicate with the regional office of the Service in the region in which the labor dispute or other matter exists with respect to which information is sought. General inquiries for information concerning the Service should be addressed to the Federal Mediation and Conciliation Service, Fourteenth St. and Constitution Avenue NW., Washington, D. C. The location of regional offices of the service and their respective jurisdictions are as follows:

Region No., Address, and Jurisdiction

1. Room 1016, Parcel Post Building, 341 Ninth Avenue, New York 1, N. Y.—Maine; New Hampshire; Vermont; Connecticut; Rhode Island; Massachusetts; New York; and Northern New Jersey (counties of Bergen, Essex, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Passaic, Somerset, Sussex, Union, and Warren).

2. Room 1015, Jefferson Building, 1015 Chestnut Street, Philadelphia 7, Pennsylvania—Pennsylvania; Delaware; Maryland; District of Columbia; West Virginia; Southern New Jersey (counties of Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Ocean and Salem); Northern Virginia (City of Alexandria and counties of Frederick, Arlington, Fairfax, Clarke, Loudoun, Prince William, Fauquier, Warren, Shenandoah, Rockingham, Page, Rappahannock, Culpepper, Stafford, King George, Madison, Greene, Northampton, Accomac, Albemarle, Augusta, Highland, Lancaster, Northumberland, Orange, Richmond, Spotsylvania and Westmoreland); counties of Belmont, Monroe, Washington, Noble and Guernsey in Ohio.

3. Room 346 Peachtree at 7th Street Building, 50 Seventh St., N. E., Atlanta 23, Georgia—Virginia (except those areas under Region 2 jurisdiction); Southwest Kentucky (counties of Fulton, Hickman, Carlisle, Ballard, McCracken, Graves, Marshall, Calloway, Livingston, Todd, Lyon, Trigg, Caldwell, Crittenden, Union, Webster, Hopkins, Christian, Muhlenberg, Logan, and Simpson); Tennessee; North Carolina; South Carolina; Georgia; Florida; Alabama; Mississippi; Louisiana; Puerto Rico; and the Virgin Islands.

4. Room 435, Old Federal Building, Public Square and Superior Street, Cleveland 14, Ohio—Indiana (counties of Clark and Floyd); Kentucky (except the counties under Region 3 jurisdiction); Ohio (except the counties of Belmont, Monroe, Washington, Noble and Guernsey); Michigan (lower peninsula; upper peninsula under Region 5 jurisdiction).

5. Room 1515 Consumers Building, 220 South State Street, Chicago 4, Illinois—Illinois (except the counties under Region 6 jurisdiction); Indiana (except Clark and Floyd counties under Region 4 jurisdiction); Wisconsin; Minnesota; North Dakota; South Dakota; and Michigan (upper peninsula; lower peninsula under Region 4 jurisdiction).

6. Room 404 Old Custom House Building, 815 Olive Street, St. Louis 1, Missouri—Iowa; Missouri; Southwest Illinois (counties of Cal-

houn, Greene, Jersey, Madison, Macoupin, Monroe, Randolph, and St. Clair); Arkansas; Nebraska; Kansas; Oklahoma; and Texas (except El Paso and Hudspeth counties under Region 7 jurisdiction).

7. Room 332 Appraisers Building, 630 Sansome Street, San Francisco 11, California—Washington; Oregon; California; Idaho; Montana; Wyoming; Nevada; Utah; Colorado; Arizona; New Mexico; Southwest Texas (counties of El Paso and Hudspeth); Alaska; Hawaii; and Guam.

(Sec. 202, 61 Stat. 153, as amended; 29 U. S. C. 172)

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 211—REAL ESTATE ACTIVITIES OF THE CORPS OF ENGINEERS IN CONNECTION WITH CIVIL WORKS PROJECTS

RECONVEYANCE OF LAND OR INTERESTS THEREIN ACQUIRED FOR GRAPEVINE, GARZA-LITTLE ELM, BENBROOK, BELTON AND WHITNEY RESERVOIR PROJECTS IN TEXAS, TO FORMER OWNERS

Pursuant to section 205, Public Law 85-500, July 3, 1958 (72 Stat. 316), § 211.101 to 211.111 are hereby prescribed as follows:

Sec.
211.101 Statutory provisions.
211.102 Definitions.
211.103 Determination of whether land is required for public purposes, including public recreational use.
211.104 Notice of former owners of availability of land for reconveyance.
211.105 Filing of application.
211.106 Filing of objection by abutting owner.
211.107 Notice of agreement between former owner and abutting owner.
211.108 Determination of price.
211.109 Contract for sale.
211.110 Conveyance.
211.111 Certification terminating rights of former owners.

AUTHORITY: §§ 211.101 to 211.111 issued under sec. 205, Pub. Law 85-500, July 3, 1958 (72 Stat. 316).

SOURCE: Regulations, DA, Sept. 4, 1958, 602-ENGLT.

§ 211.101 *Statutory provisions.* Section 205 of the Act of Congress approved July 3, 1958 (72 Stat. 316).

§ 211.102 *Definitions* — (a) *General.* Any term used in §§ 211.101 to 211.111 which is defined in section 205 of the Act of Congress approved July 3, 1958 (72 Stat. 316), shall have the meaning given to it in said act.

(b) *Land.* Any land or interest in land acquired by the United States for the Grapevine, Garza-Little Elm, Benbrook, Belton, and Whitney Reservoir projects, Texas.

(c) *The Act.* The term "the act", when used in §§ 211.101 to 211.111, shall mean section 205 of the Act of Congress approved July 3, 1958 (72 Stat. 316).

(d) *District Engineer.* The term "District Engineer", when used in §§ 211.101 to 211.111, shall mean the District Engineer, U. S. Army Engineer District, Fort Worth, at Fort Worth, Texas.

§ 211.103 *Determination of whether land is required for public purposes, including public recreational use.* The Chief of Engineers and/or the Assistant Chief of Engineers for Civil Works is hereby delegated authority to determine which lands are not required for public purposes, including public recreational use, and to determine the exceptions, restrictions and reservations, as are in the public interest, to be included in any reconveyance, including the reservation of such mineral rights as are determined necessary for the efficient operation of the project. This delegation of authority shall not apply to lands below the level of 529 feet in the Garza-Little Elm Reservoir project and below 560 feet in the Grapevine Reservoir project as the lands below these levels will not be available for reconveyance pursuant to the act.

§ 211.104 *Notice to former owners of availability of land for reconveyance.* Upon determination in accordance with §§ 211.101 to 211.111 that land is not required for public purposes, including public recreational use, the District Engineer shall give notice to the former owners thereof (a) by registered letter, addressed to the last known address of the former owner; and (b) by publication at least twice at not less than 15-day intervals in two newspapers having general circulation in the vicinity in which the land is located.

§ 211.105 *Filing of application.* Application for reconveyance of land shall be filed with the District Engineer. Said application shall be in writing, dated and signed by the former owner or by his attorney in fact, and shall identify the land for which he is making application for reconveyance. Any such application will be considered as filed timely when mailed to or delivered to the District Engineer within ninety (90) days from the date of the last publication of availability of the land for reconveyance to said former owners. The District Engineer may extend said ninety (90) day period for good cause. Any application may be withdrawn by written notice, executed by the former owner or by his attorney in fact, to the District Engineer at any time prior to the execution of the contract of sale.

§ 211.106 *Filing of objection by abutting owner.* An objection by an abutting owner to reconveyance of land to a former owner shall be filed with the District Engineer. Such objection shall be in writing, dated and signed by the abutting owner, or his attorney in fact, and shall include identification of the land to which the objection pertains, the name of the former owner, the reasons for the objection, and a reference to the land records where the ownership of the abutting owner is recorded. A copy of the letter addressed to the former owner objecting to the reconveyance shall be attached to the letter addressed to the District Engineer, or other evidence of such notice of objection shall be furnished to the District Engineer. No objection will be considered valid unless the party or individual making the objection is the record owner of land abutting or adjoining the land to which the objection pertains.

§ 211.107 *Notice of agreement between former owner and abutting owner.* After an objection has been made by an abutting owner to a reconveyance, any agreement reached concerning the reconveyance shall be furnished in writing, signed by both the abutting owner and the former owner, or their attorneys in fact, to the District Engineer. Such agreement must be mailed or delivered to the District Engineer within ninety (90) days after the date of receipt of the Notice of Objection by the District Engineer and the former owner. In the event an agreement in writing as prescribed herein is not mailed or delivered to the District Engineer, the District Engineer is hereby authorized to report the land involved to the General Services Administration for disposal as prescribed by the act.

§ 211.108 *Determination of price.* Upon receipt of an application from a former owner, the Chief of Engineers and/or the District Engineer is hereby delegated authority to determine the price at which the land will be sold pursuant to the provisions of section 205 (d) of the Act and the cost of any surveys or boundary markings necessary as an incident to the conveyance.

§ 211.109 *Contract of sale.* Upon determination of the price at which the land will be reconveyed, and after the reaching of an agreement by the former owner and the abutting owner if an objection to the reconveyance was made by the abutting owner, the District Engineer will prepare a contract of sale containing the terms and conditions of the reconveyance and deliver it to the applicant for acceptance. The contract of sale shall provide for the deposit of earnest money equal to twenty (20) percent of the price at which the land will be sold or the estimated cost of any surveys or boundary markings necessary as an incident to the reconveyance, whichever is greater. The deposit will be applied to the price at the time of settlement. In the event of default, the deposit will be retained by the Government as liquidated damages. Failure of the applicant to execute the contract of sale or to deposit the earnest money with the District Engineer within thirty (30) days after receipt of the contract, unless a written extension of said thirty (30) days is granted by the District Engineer, will be a basis for certification by the District Engineer, in accordance with section 205 (e) of the Act and the delegation contained in § 211.111, that within a reasonable time after receipt of a proper application for any reconveyance of such land, the parties have been unable to reach a satisfactory agreement with respect to the reconveyance of such land. Authority is hereby del-

sued to the Chief of Engineers and/or the District Engineer to execute the contract of sale for and on behalf of the United States of America.

§ 211.110 *Conveyance.* Reconveyance of the land will be by quitclaim deed executed by the Secretary of the Army.

§ 211.111 *Certification terminating rights of former owners.* If no application for reconveyance is made by a former owner within ninety (90) days, or authorized extension thereof, from the date of the last publication of the notice in a newspaper or if within a reasonable time after receipt of a proper application for any reconveyances the District Engineer and the former owner are unable to reach a satisfactory agreement with respect to the reconveyance, the Chief of Engineers and/or the District Engineer is hereby delegated authority to certify (a) that notice has been given to the former owner of such land pursuant to the act and §§ 211.101 to 211.111, and that no qualified applicant has made timely application for reconveyance of such land; or (b) that within a reasonable time after receipt of a proper application for reconveyance the parties have been unable to reach a satisfactory agreement with respect to the reconveyance of such land. After such certification has been executed, disposition of the land shall be made pursuant to the Federal Property and Administrative Services Act of 1949, as amended, subject to such reservations, restrictions, exceptions, and conditions as the Chief of Engineers and/or the Assistant Chief of Engineers for Civil Works consider necessary for the operation of the project or in the public interest.

(SEAL) HERBERT M. JONES,
Major General, U. S. Army,
The Adjutant General.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

MISCELLANEOUS AMENDMENTS

Correction

In Federal Register Document 58-6639, published at page 6357 in the issue for Tuesday, August 19, 1958, the following change should be made in § 21.248 (e): The word "capabilities" should read "capacities".

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 202—MINIMUM WAGE DETERMINATIONS

FINAL DECISION; BITUMINOUS COAL INDUSTRY

On June 5, 1958, notice was published in the FEDERAL REGISTER (23 F. R. 3933) of a tentative decision of the Secretary of Labor to amend the determination of prevailing minimum wages for the bituminous coal industry (41 CFR 202.51). Under the rules of practice (41 CFR 203.21 (d)), it is now appropriate to consider the exceptions and motions which have been filed, and to render final decision.

A single set of 44 exceptions, 5 motions, and a request for enlargement of the record has been filed by counsel on behalf of a group of 530 mines owned or operated by individuals or firms referred to by this document as "the operators." Of the total mines excepting, one is located in West Virginia, 30 in Kentucky and the remaining 499 in Virginia. Only 42 mines of the number filing exceptions appeared at, or participated in the hearing. They opposed redetermination. The remaining 488 mines neither appeared nor participated. Included in this latter group are found most of the large group of mines which were plaintiffs in the judicial review proceedings involving the currently effective determination of prevailing minimum wages for this industry, which resulted in the adjudication that it is "in all respects valid." Central Pennsylvania Open Pit Mining Association v. Mitchell, 12 WH Cases 696, and Ruth Elkhorn Coals Inc. v. Mitchell, 29 Labor Cases 69, 565 (D. C. D. C.), affirmed 248 F. 2d 635 (C. A. D. C.), certiorari denied 355 U. S. 935.

The only other communication responsive to the proposed determination is from Meader, Young and Holt Coal Company of Clay, Kentucky, which does not have a contract with the United Mine Workers of America, but which pays a higher minimum wage than such union's contract requires. It urges that the determination for Production District No. 9 (West Kentucky) be put in effect as tentatively proposed. The group of 12 mines which submitted a proposed finding to retain the 1955 minimum wage of $2.09 for this production district, has not taken exception to the tentative determination to increase that minimum to $2.59.

Most of the exceptions fall into one of four categories in which they will be grouped for discussion in this decision.

The first category includes those exceptions which do no more than express without supporting specification over-all conclusions of law in terms of the applicable statutes, to the effect that the proposed amendment to the existing determination is invalid. I have nevertheless reviewed the tentative decision for defects of the type nakedly asserted in these general exceptions and conclude that the decision has properly applied all of the governing statutory provisions. Each of these exceptions is, therefore, overruled.

The second category includes those exceptions directed at findings and conclusions based on uncontroverted, substantial evidence set forth and discussed in the tentative decision. I have reviewed the decision in the light of these exceptions, and none of them discloses error in the various findings and conclusions to which they are addressed. Each such exception is overruled.

The third category includes criticisms of incidental statements in the tentative decision, in exceptions which are too narrow in scope to bear in any substantial way on any material issue of fact, law, or discretion which is presented for decision on this record. Each such statement has been reviewed in the light of the criticism addressed to it, however, and each one is adhered to because it is the criticism which is untenable or in error. Each of these exceptions also is overruled.

The fourth category of exceptions includes those which rely primarily on derogation of the parties, witnesses, and attorneys who made substantial contributions to the record in these proceedings. There is no support or justification in the record either of these or of the cited 1955 proceedings, for the immoderate content of most of these exceptions. None of the witnesses were impeached. Their testimony was not contradicted by other evidence, and cross-examination did not affect its content or credibility. The long and freely disclosed interest of the parties and their officers in matters affected by these proceedings has contributed a large measure of knowledge and experience to their testimonial qualifications. All of these considerations lead me to rely on their testimony rather than to reject it in whole in contravention of the record as suggested by these exceptions, which I therefore overrule.

The operators additionally take exception to the findings because of an alleged failure to set forth in detail the portions of the record on which they are predicated. The reasons or bases are expressed for each of the findings and conclusions on the material issues of fact, law, and discretion, though record references are omitted. Such references are not required by the Walsh-Healey Act, the rules of practice issued under its authority, or the Administrative Procedure Act. This exception is overruled.

Exceptions urging or relying on denial of opportunity to present affirmative and rebuttal evidence, to cross-examine witnesses and to participate in the hearing, are based on the Hearing Examiner's denial of the motions to adjourn the hearing 8 months and to relocate it at points in Virginia and Kentucky.

These exceptions are without foundation as to the 488 excepting mines which neither participated nor otherwise appeared at the hearing, and submitted no proposed findings and conclusions or views or arguments after hearing. They now first take cognizance of these proceedings and seek to vitiate them by advancing untimely and precluded objections to the record as made. These excepting mines are not in a position retrospectively to urge denial of rights freely and fully available to them at the public hearing from which they wholly abstained, and which rights they abandoned and failed to pursue.

The remaining 42 excepting mines appeared but limited their participation at the hearing. The representative of Ruth Elkhorn Coals Inc. withdrew his client from the hearing at the end of the first of the three-day hearing, after his mo-

tion to adjourn and relocate the hearing was denied. The representative of the remaining 41 mines left the hearing without announcement at the end of the second day before the petitioners' case had concluded. Both representatives during their attendance freely cross-examined witnesses, entered objections to testimony and exhibits, voiced and argued motions and fully participated in the proceedings. However, both had already absented themselves when in due and regular course opportunity to present rebuttal evidence was provided. These 42 mines now contend denial of the motions to adjourn and relocate was prejudicial error and denied them opportunity to fully participate in the hearing.

The tentative decision reviewed and upheld the Examiner's ruling on each of the motions. Upon reconsideration of these rulings as excepted to, and for the reasons stated here and in the tentative decision, the contention that such rulings were unreasonable, arbitrary, discriminatory, capricious and denied due process is without basis in fact or law, and these exceptions are overruled.

The exceptions urge an additional ground of error in the tentative decision's approval of the Hearing Examiner's denial of the motion for an 8-month adjournment of the hearing. It is asserted that the Examiner in passing on the motion did not exercise the discretion vested in him by the rules of practice. The reason assigned is that he expressed a decision to agree with the reasons and conclusions I had reached in correspondence on this issue when I was requested to decide it before the hearing began.

The Hearing Examiner's somewhat abbreviated statement of this additional reason for denying the motion, on which this exception is based, is contained in five lines of colloquy which occurred when the Hearing Examiner developed, through questioning, that the motion before him was the same one which had previously been denied on several separate occasions in the course of the proceedings.

It is abundantly clear that the Hearing Examiner did not regard the eight-month postponement issue as one foreclosed by the prehearing correspondence. Had this been his view, he would have summarily overruled this motion each of the several times it was made at the hearing as only presenting an issue finally settled. Instead, on not less than three prior different occasions during the hearing, he granted the moving parties full opportunity to present, and fully develop the relevant facts and argument. At the end of the hearing day prior to the denial of the ruling in question, the same motion coupled with one to relocate was made by the author of these exceptions. The Hearing Examiner clearly and fully expressed his own reasons for overruling the motion, without once mentioning the prehearing correspondence or the reasoning expressed in it. His reasons for denial of the motion on this occasion were so decisive and clear that the author of these exceptions withdrew from the proceedings on that account, upon the prior instruction of his client.

For the reasons summarized here and in the tentative decision, I find that the Hearing Examiner reached a conclusion prompted by a sound exercise of his discretion. Under these circumstances, no useful purpose would be served by granting the motion to take the Hearing Examiner's deposition as to the reasons, already of record, for his various denials of the several motions for delay. This exception and the related motion are overruled.

The exceptions also allege that "The opponents were given no opportunity to present evidence as to violations" of the United Mine Workers contracts with signatory coal mines. All interested persons were given 53 days advance, official notice of the hearing, and of the subjects and issues involved. They were specifically invited to submit evidence of minimum wages paid. The record discloses that the 42 mines opposing redetermination at the hearing and filing this exception made no effort to procure such evidence and had none to present. Neither before nor during the hearing did they seek subpoenas for the attendance of witnesses who they speculated might give evidence of such alleged violations. The hearing was held on February 3, 4, and 5 of 1958. On February 3 the Government presented certain evidence and the petitioners were presenting their evidence when counsel who filed these exceptions and was appearing for only one mine operator, announced that he was "withdrawing from this proceeding." The hearing was adjourned until the next morning, but counsel did not return to it again. The only other opponent of redetermination neglected to appear again after the second day of the hearing, while petitioners were still presenting their case. After first delaying the hearing to await such opponent's presence, this presentation was completed at about noon on the third day after which the hearing examiner inquired whether anyone else had anything to offer. There was no affirmative response. In these circumstances all exceptions based on an alleged refusal to permit opponents to present a case are overruled.

The exceptions request that official notice be taken of the data collected by the Wage and Hour Division concerning wages paid in the coal mines in Production Districts 7 and 8. Even if all of the investigations of wages paid in coal mines in Production Districts 7 and 8 had revealed minimum wages below those found to be prevalent in the tentative decision, and official notice were taken of that fact, the evidentiary base for the determination would not be disturbed. An insufficient number of such investigations have been made within those limited areas during any period pertinent to this inquiry to reveal the prevailing minimum wages. The investigations that have been made could not fairly be regarded as representative of the whole group of such mines, because the process of selecting mines to investigate is designed to direct the investigation effort to the establishments where violations of the statutes administered by the Department have been complained of, or are most likely to be found.

The operators except to an alleged finding that the notice of hearing in this proceeding gives the terms or substance of the proposed rule within the meaning of the Administrative Procedure Act. No such finding was made because the notice of hearing does not give the terms or substance of any proposed rule. Section 4 (a) of the Administrative Procedure Act requires the notice to give "either the terms or substance of the proposed rule or a description of the subjects and issues involved." The notice here gave a description of the subjects and issues involved; it was not necessary, although permissible, for it to give the terms or substance of the proposed rule.

The operators' exceptions contend that they were denied a right to cross-examine the witness through whom United Mine Workers Exhibit No. 2 was introduced and denied a right to rebut the evidence in this exhibit by reason of the hearing examiner's limitations on their access to it. The exhibit is a list of thousands of mines operated by parties to the Union contract, giving for each its name, location, tonnage production, and employment. As required by the rules of practice (41 CFR 203.18 (c)), the exhibit was introduced in quadruplicate. From the moment it was identified, each of the persons at the hearing opposing redetermination was afforded temporary possession of one of the four copies, not only while the hearing was in progress but also during periods of recess or adjournment. One of them retained such possession until after the hearing was concluded. The other, author of these exceptions, announced that he was withdrawing from the hearing near the end of the first day. When counsel for the party who had prepared the exhibit suggested that counsel withdrawing from the proceedings should return it, the response was: "I will be very pleased to return it," which he thereupon did.

Counsel was thus not deprived of the opportunity of examining the exhibit further at that time, conducting cross-examination concerning it and presenting rebuttal evidence, by any ruling of the hearing examiner, but by his voluntary act of returning the exhibit and by his voluntary absence from the hearing at the time appropriate for his cross-examination and rebuttal. The opponent of redetermination who remained in attendance remained in possession of his copy of the exhibit and cross-examined the witness concerning it at length on the following day. He was specially invited to call witnesses, or to testify himself. No one was denied access to the exhibit for the purpose of preparing rebuttal evidence for presentation at the hearing, as the exceptions allege. The only restrictive ruling made was that the exhibit must be left with the Department at the conclusion of the hearing because only the requisite number had been filed, and this exhibit would have been very costly to reproduce. Transcripts of the testimony were made freely available to all who wanted them as soon as they

were prepared. In accordance with section 3 (c) of the Administrative Procedure Act and regulations of the Department (29 CFR 2.6 (a)), the exhibit was held available for examination by interested persons during regular business hours at the Department on each business day after the hearing, and it was announced at the hearing that this would be done. Though the mines then represented by the person who wanted to borrow the exhibit for an extended period have now filed exceptions through a practicing attorney in Washington, D. C., neither has visited the Department to examine the exhibit for this purpose. The exceptions based on an alleged lack of access to this exhibit are overruled.

The exception to an alleged ruling of the Hearing Examiner granting authority to refer to source material used in the preparation of United Mine Workers' Exhibit No. 2 is not valid. The Hearing Examiner was not requested to make any such ruling and actually made none. Government counsel requested the unanimous consent of those present at the hearing for such authority. An opponent of redetermination then present objected. The request was then abandoned, the source material has not been made available, and no such reference has been made.

Objection is made to so much of the tentative determination as declines to change the one presently in effect, except insofar as is required by the new wage data. This objection is based on some decrease in the number of bids on certain Government coal invitations, as well as on the objection to official notice which was fully discussed in the tentative determination. This change in the bare number of bids is not accompanied by material change in the geographic distribution of the points of origin of such bids such as to invalidate the geographically defined production districts as appropriately measuring the separate localities of competition for Government coal contracts. This objection is overruled.

Objection is expressed to the fact that the hourly rates tentatively determined are obtained by dividing the daily minimum wages by the total number of hours for which they are paid, including portal-to-portal travel time which is compensated as work time under the union contract. This objection overlooks the fact, explained in the tentative and final decisions incident to the 1955 determination and established in the judicial review of it, that this is the proper way of making sure that the union practice of paying for portal-to-portal travel time does not inflate the minimum hourly rate to be determined, and thus force the cost of this practice on those who have no such custom or practice.

The motions for rehearing and reopening the record for the purpose of conducting cross-examination and rebuttal and to adduce evidence of wages paid in U. M. W. mines in Districts 7 and 8, are made on behalf of the 488 mines which did not participate in the hearing and which have not, even now, assigned any reason for their absence. They are also made on behalf of the 42 mines which withdrew from the proceedings without valid cause before it was completed and which have made no showing that they are better prepared to offer proof now than they were at that time. These motions are denied. For reasons indicated earlier, the motion that official notice be taken of recent investigations under the Fair Labor Standards Act is also denied. The motion to dismiss for alleged procedural errors "discussed in the exceptions" is also overruled after consideration and rejection of all such exceptions as without merit. The request that the exceptions of the Virginia coal operators to the notice of proposed determination in the 1955 proceedings be incorporated in this record will not be granted, except to the extent that they are mentioned in the final decision in the 1955 proceedings, because the remaining portions of them were found to be without merit in those proceedings.

Each of the operators' 44 exceptions to the tentative decision in the present proceedings having been fully considered and each having been found without substance in fact, law or discretion, each is hereby overruled.

After making my tentative decision, it came to my attention that the proposed determination, as well as the 1955 determination, defines the industry to include the "furnishing" of bituminous coal, but publishes minimum wages only for areas of production. It does not clearly specify the rate which applies to employees who work at furnishing coal in their employment at coal yards located in or proximate to areas of consumption.

The resulting ambiguity is more technical than substantial. Total covered employment in such yards is very small in comparison to the large covered employment in the production of bituminous coal. Not many coal yards participate in furnishing coal to the Government under contracts subject to the Act. The competitive bidding system of procurement brings this largely about as it is cheaper to move coal directly from the mine to the Government delivery point or installation than it is to move it indirectly through the coal yard of an independent coal dealer. The record of proceedings does not include data on the wages paid at such coal yards. The reasons which led to the exclusion of auxiliary employees from the 1955 determination and which have led to their exclusion from the tentative determination apply with even greater force to suggest the exclusion of employees of regular dealers in coal and employees of contractors exempt from section 1 (a) of the Act pursuant to 41 CFR 201.603 (f). Accordingly, this final determination will add those employees to the list of auxiliary employees excluded from its operation.

Upon the findings and conclusions and the reasons therefor stated herein and in the notice of tentative decision in the amendment of the determination of prevailing minimum wages in the bituminous coal industry filed in these proceedings, and pursuant to authority of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. 35 et seq.) and in accordance with the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), 41 CFR 202.51 is amended as follows:

1. Section 202.51 is amended by deleting paragraph (e) and re-lettering paragraphs (f) and (g) as (e) and (f), respectively.

2. Section 202.51 (d) is amended by adding to the end thereof the following:

15. Employees of regular dealers in coal and employees of contractors who are exempt from section 1 (a) of the Act pursuant to § 201.603 (f), who do not work in or around coal mines.

3. Section 202.51 (b) is amended to read as follows:

(b) *Minimum wage.* The minimum wage per hour for employees (other than auxiliary workers) engaged in the performance of contracts with agencies of the United States subject to the provisions of the Act for production or furnishing of bituminous coal (including lignite) shall be the amount indicated for each area as follows:

District 1. Eastern Pennsylvania: $2.745

The following counties in Pennsylvania: Bedford, Blair, Bradford, Cambria, Cameron, Centre, Clarion, Clearfield, Clinton, Elk, Forest, Fulton, Huntingdon, Jefferson, Lycoming, McKean, Mifflin, Potter, Somerset, Tioga.

Armstrong County, including mines served by the Pittsburgh and Shawmut Railroad on the west bank of the Allegheny River, and north of the Conemaugh division of the Pennsylvania Railroad.

Fayette County, all mines on and east of the line of Indian Creek Valley branch of the Baltimore and Ohio Railroad.

Indiana County, north of but excluding the Saltsburg branch of the Pennsylvania Railroad between Edri and Blairsville, both exclusive.

Westmoreland County, including all mines served by the Pennsylvania Railroad, Torrance, and east.

All coal-producing counties in the State of Maryland.

The following counties in West Virginia: Grant, Mineral, and Tucker.

District 2. Western Pennsylvania: $2.745

The following counties in Pennsylvania: Allegheny, Beaver, Butler, Greene, Lawrence, Mercer, Venango, Washington.

Armstrong County, west of the Allegheny River and exclusive of mines served by the Pittsburgh and Shawmut Railroad.

Indiana County, including all mines served on the Saltsburg branch of the Pennsylvania Railroad north of Conemaugh River.

Fayette County, except all mines on and east of the line of Indian Creek Valley branch of the Baltimore and Ohio Railroad.

Westmoreland County, including all mines except those served by the Pennsylvania Railroad from Torrance, east.

District 3. Northern West Virginia: $2.745

The following counties in West Virginia: Barbour, Braxton, Calhoun, Doddridge, Gilmer, Harrison, Jackson, Lewis, Marion, Monongalia, Pleasants, Preston, Randolph, Ritchie, Roane, Taylor, Tyler, Upshur, Webster, Wetzel, Wirt, Wood.

That part of Nicholas County including mines served by the Baltimore and Ohio Railroad and north.

District 4. Ohio: $2.745

All coal-producing counties in Ohio.

District 5. Michigan

(No determination.)

District 6. Panhandle: $2.745

The following counties in West Virginia: Brooke, Hancock, Marshall, and Ohio.

District 7. Southern Numbered 1: $2.745

The following counties in West Virginia: Greenbrier, Mercer, Monroe, Pocahontas, Summers.

Fayette County, east of Gauley River and including the Gauley River branch of the Chesapeake and Ohio Railroad and mines served by the Virginian Railway.

McDowell County, that portion served by the Dry Fork Branch of the Norfolk and Western Railroad and east thereof.

Raleigh County, excluding all mines on the Coal River branch of the Chesapeake and Ohio Railroad.

Wyoming County, that portion served by the Gilbert branch of the Virginian Railway lying east of the mouth of Skin Fork of Guyandot River and that portion served by the main line and the Glen Rogers branch of the Virginian Railway.

The following counties in Virginia: Montgomery, Pulaski, Wythe, Giles, Craig.

Tazewell County, that portion served by the Dry Fork branch to Cedar Bluff and from Bluestone Junction to Boissevain branch of the Norfolk and Western Railroad and Richlands-Jewell Ridge branch of the Norfolk and Western Railroad.

Buchanan County, that portion served by the Richlands-Jewell Ridge branch of the Norfolk and Western Railroad and that portion of said county on the headwaters of Dismal Creek, east of Lynn Camp Creek (a tributary of Dismal Creek).

District 8. Southern Numbered 2: $2.745

The following counties in West Virginia: Boone, Clay, Kanawha, Lincoln, Logan, Mason, Mingo, Putnam, Wayne, Cabell.

Fayette County, west of, but not including mines of the Gauley River branch of the Chesapeake and Ohio Railroad.

McDowell County, that portion not served by and lying west of the Dry Fork branch of the Norfolk and Western Railroad.

Raleigh County, all mines on the Coal River branch of the Chesapeake and Ohio Railroad and north thereof.

Nicholas County, that part south of and not served by the Baltimore and Ohio Railroad.

Wyoming County, that portion served by Gilbert branch of the Virginian Railway lying west of the mouth of Skin Fork of Guyandot River.

The following counties in Virginia: Dickinson, Lee, Russell, Scott, Wise.

All of Buchanan County, except that portion on the headwaters of Dismal Creek, east of Lynn Camp Creek (tributary of Dismal Creek) and that portion served by the Richlands-Jewell Ridge branch of the Norfolk and Western Railroad.

Tazewell County, except portions served by the Dry Fork branch of Norfolk and Western Railroad and Branch from Bluestone Junction to Boissevain of Norfolk and Western Railroad and Richlands-Jewell Ridge branch of the Norfolk and Western Railroad.

The following counties in Kentucky: Bell, Boyd, Breathitt, Carter, Clay, Clinton, Elliott, Floyd, Greenup, Harlan, Jackson, Johnson, Knott, Knox, Laurel, Lawrence, Lee, Leslie, Letcher, McCreary, Magoffin, Martin, Manifee, Morgan, Owsley, Perry, Pike, Pulaski, Rockcastle, Wayne, Whitley, Wolfe.

The following counties in Tennessee: Anderson, Campbell, Claiborne, Cumberland, Fentress, Morgan, Overton, Pickett, Putnam, Roane, Scott.

The following counties in North Carolina: Lee, Chatham, Moore.

District 9. West Kentucky: $2.59

The following counties in Kentucky: Butler, Christian, Crittenden, Daviess, Hancock, Henderson, Hopkins, Logan, McLean, Muhlenberg, Ohio, Simpson, Todd, Union, Warren, Webster.

District 10. Illinois: $2.745

All coal-producing counties in Illinois.

District 11. Indiana: $2.78.

All coal-producing counties in Indiana.

District 12. Iowa: $1.40

All coal-producing counties in Iowa.

District 13. Southeastern: $2.515

All coal-producing counties in Alabama.

The following counties in Georgia: Dade, Walker.

The following counties in Tennessee: Marion, Grundy, Hamilton, Bledsoe, Sequatchie, White, Van Buren, Warren, McMinn, Rhea.

District 14. Arkansas-Oklahoma: $2.59

The following counties in Arkansas: All counties in the State.

The following counties in Oklahoma: Haskell, Le Flore, Sequoyah.

District 15. Southwestern: $2.59

All coal-producing counties in Kansas. All coal-producing counties in Texas. All coal-producing counties in Missouri.

The following counties in Oklahoma: Coal, Craig, Latimer, McIntosh, Muskogee, Okmulgee, Pittsburg, Rogers, Tulsa, Wagoner.

District 16. Northern Colorado: $2.796

The following counties in Colorado: Adams, Arapahoe, Boulder, Douglas, Elbert, El Paso, Jackson, Jefferson, Larimer, Weld.

District 17. Southern Colorado: $2.796

The following counties in Colorado: All counties not included in northern Colorado district.

The following counties in New Mexico: All coal-producing counties in the State of New Mexico, except those included in the New Mexico district.

District 18. New Mexico: $2.796

The following counties in New Mexico: Grant, Lincoln, McKinley, Rio Arriba, Sandoval, San Juan, San Miguel, Santa Fe, Socorro.

The following counties in Arizona: Final, Navajo, Graham, Apache, Coconino.

All coal-producing counties in California.

District 19. Wyoming: $2.82

All coal-producing counties in Wyoming.

The following counties in Idaho: Fremont, Jefferson, Madison, Teton, Bonneville, Bingham, Bannock, Power, Caribou, Oneida, Franklin, Bear Lake.

District 20. Utah: $2.82

All coal-producing counties in Utah.

District 21. North Dakota-South Dakota: $2.226

All coal-producing counties in North Dakota. All coal-producing counties in South Dakota.

District 22. Montana: $2.846

All coal-producing counties in Montana.

District 23. Washington: $2.736

All coal-producing counties in Washington. All coal-producing counties in Oregon.

4. Section 202.51 (g), which has by paragraph 1 hereof been re-lettered to be § 202.51 (f) is amended by deleting the date November 25, 1955, and substituting in place thereof the date October 20, 1958.

(Sec. 4, 49 Stat. 2038, as amended; 41 U. S. C. 38)

Signed at Washington, D. C., this 16th day of September 1958.

JAMES P. MITCHELL,
Secretary of Labor.

[F. R. Doc. 58-7758; Filed, Sept. 19, 1958; 8:56 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 31]

LOWER KLAMATH NATIONAL WILDLIFE REFUGE, CALIFORNIA AND OREGON

HUNTING OF PHEASANTS

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to revise § 31.200 of Subpart—Lower Klamath National Wildlife Refuge, California and Oregon, Chapter I, Title 50, Code of Federal Regulations, as set forth in tentative form below. The purpose of the proposed revision is to permit the hunting of pheasants during the 1958 season on certain lands of the Lower Klamath National Wildlife Refuge, California and Oregon, under certain limitations and subject to compliance with the laws and regulations of the respective States.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: September 16, 1958.

A. V. TUNISON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

§ 31.200 *Hunting of pheasants permitted.* Pheasants may be taken by hunting on portions of the Lower Klamath National Wildlife Refuge, California and Oregon, during the 1958 open season prescribed by the respective State conservation departments, subject to the following conditions and restrictions:

(a) Strict compliance with all State laws and regulations is required.

(b) Entry and use of the refuge shall be in accordance with Parts 18 and 21 of this chapter.

(c) Hunting dogs, not to exceed two per hunter, may be used for the purpose of hunting and retrieving, but such dogs shall not be permitted to run at large on the refuge.

(d) The hunting of pheasants is permitted on all of the lands of the refuge except units 1, 2, 3, 5, 6, 12, and 12a during the period from November 15 to November 30, 1958, both dates inclusive.

(e) The hunting of pheasants on units 1, 5, 6, 12, and 12a shall be permitted only during the period November 15, 16, and 17, 1958.

[F. R. Doc. 58-7675; Filed, Sept. 19, 1958; 8:46 a. m.]

[50 CFR Part 31]

TULE LAKE NATIONAL WILDLIFE REFUGE, CALIFORNIA

HUNTING OF PHEASANTS

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add § 31.351 to Subpart—Tule Lake National Wildlife Refuge, California, Chapter I, Title 50, Code of Federal Regulations, to read as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of pheasants during the 1958 season on certain lands of the Tule Lake National Wildlife Refuge, California, under certain limitations and subject to compliance with the laws and regulations of the State of California.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: September 16, 1958.

A. V. TUNISON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

§ 31.351 *Hunting of pheasants permitted.* Pheasants may be taken by hunting during the 1958 open season on portions of the Tule Lake National Wildlife Refuge, California, subject to the following conditions and requirements.

(a) During the period from November 15 to November 30, 1958, both dates inclusive, the hunting of pheasants is permitted on that part of the Tule Lake National Wildlife Refuge lying and being north of the following described line:

Beginning on the east boundary of the refuge at the E¼ corner of sec. 20, T. 47 N., R. 5 E., M. D. M., thence west along the center line of secs. 20 and 19, T. 47 N., R. 5 E., and the center line of secs. 24, 23, 22, 21, 20, and 19, T. 47 N., R. 4 E., to the point of intersection with the west boundary of the refuge.

(b) On November 15, 16, and 17, 1958, the hunting of pheasants is permitted on those lands of the refuge commonly known as the Frog Pond and Lower Sump areas of the refuge, and bounded on the south by the Lava Beds Road, on the east by the refuge boundary, on the north by the center line of secs. 20 and 19, T. 47 N., R. 5 E., and the center line of secs. 23 and 24, T. 47 N., R. 4 E., and on the west by the east dike of the Upper Sump and the west berm of the west dike of the Lower Sump, and on those lands of the refuge commonly known as the Panhandle buffer strip, as posted by the officer in charge, situated west of the west bank of the N Canal in the S½N½ sec. 16, T. 46 N., R. 5 E., M. D. M., and east of the west perimeter road around the Panhandle area in the S½N½ sec. 17.

(c) Strict compliance with all State laws and regulations is required.

(d) Entry on and use of the refuge shall be in accordance with Parts 18 and 21 of this chapter.

(e) Hunting dogs, not to exceed two per hunter, may be used for the purpose of hunting and retrieving, but such dogs shall not be permitted to run at large on the refuge.

[F. R. Doc. 58-7673; Filed, Sept. 19, 1958; 8:45 a. m.]

[50 CFR Part 35]

PARKER RIVER NATIONAL WILDLIFE REFUGE, MASSACHUSETTS

BOW AND ARROW DEER HUNTING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add § 35.81 to Subpart—Parker River National Wildlife Refuge, Massachusetts, Chapter I, Title 50, Code of Federal Regulations, as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of deer on certain lands of the Parker River National Wildlife Refuge, Massachusetts, under certain limitations and subject to compliance with the laws and regulations of the State of Massachusetts.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: September 15, 1958.

LANSING A. PARKER,
Acting Director, Bureau of Sport Fisheries and Wildlife.

§ 35.81 *Bow and arrow deer hunting permitted.* Subject to the provisions of Parts 18 and 21 of this chapter, the hunting of deer by means of bow and arrow only is permitted from November 21 to November 27, 1958, inclusive, on the hereinafter described lands of the Parker River National Wildlife Refuge, Massachusetts, subject to the following conditions, restrictions, and requirements:

(a) *Hunting area.* The following described area is open to hunting:

All of the Plum Island portion of the Parker River Refuge lying between the ocean beach and the east bank of Plum Island River and Plum Island Sound with the exception of posted area lying between the Plum Island road and Plum Island Sound comprising the two impoundment areas and the Patrol Headquarters site.

(b) *State laws.* Strict compliance with all applicable State laws and regulations is required.

(c) *Firearms prohibited.* The possession or use of firearms on the Refuge is prohibited.

(d) *Dogs prohibited.* Dogs are not permitted on the Refuge for use in the hunting of deer.

(e) *Checking stations.* Hunters, upon entering or leaving the hunting area, shall report at such checking stations as may be established for the purpose of regulating the hunting.

[F. R. Doc. 58-7674; Filed, Sept. 19, 1958; 8:45 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 963]

[AO-306]

APPLES GROWN IN DESIGNATED PART OF WASHINGTON

DETERMINATION ON BASIS OF RESULTS OF REFERENDUM ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Chelan, Washington, on May 6, 1958, and continued at Yakima, Washington, on May 12, 1958, pursuant to a notice thereof which was published in the FEDERAL REGISTER (23 F. R. 2201) upon a proposed marketing agreement and order regulating the handling of apples grown in designated part of Washington. The recommended decision (23 F. R. 5381) of the Deputy Administrator, Agricultural Marketing Service, and the decision (23 F. R. 6561) of the Acting Secretary of Agriculture setting forth the proposed marketing agreement and order were published in the FEDERAL REGISTER on July 16, 1958, and August 23, 1958, respectively. The Acting Secretary also issued an order, published in the FEDERAL REGISTER on August 23, 1958 (23 F. R. 6567), directing that a referendum be conducted among the producers of apples grown in designated part of Washington to determine whether the requisite majority of such producers favors or approves issuance of the proposed marketing order.

It is hereby determined on the basis of the results of the referendum conducted August 25 through September 2, 1958, pursuant to the aforementioned referendum order, that the issuance of proposed marketing Order No. 63, regulating the handling of apples grown in designated part of Washington, is not approved or favored (1) by at least two-thirds of the producers who participated in such referendum and who, during the determined representative period (August 1, 1957, through July 31, 1958), were engaged in the production for market of

apples grown in designated part of Washington, or (2) by producers of at least two-thirds of the volume of production of such apples represented in the aforesaid referendum.

It is hereby further determined that the proposed marketing order set forth in the Acting Secretary's decision of August 19, 1958 (23 F. R. 6561), should not be made effective and in view of the circumstances, that the proposed marketing agreement No. 120 should not be entered into.

Dated: September 17, 1958.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 91]

[Ex Parte No. 174]

LOCOMOTIVE INSPECTION

RULES AND INSTRUCTIONS FOR INSPECTION AND TESTING OF LOCOMOTIVES OTHER THAN STEAM

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 15th day of September A. D. 1958, it appearing, that the Association of American Railroads having received numerous inquiries regarding the application of some of the rules and instructions prescribed by the Commission in its report and order of March 4, 1958, in the above-entitled proceeding to become effective January 1, 1959, has requested the Commission for an interpretation of the rules in question;

And it appearing, that pursuant to such request, informal conferences and discussions have been held with interested parties with a view to reaching an agreement with respect to the application and interpretation of said rules;

And it appearing, that as a result of such conferences there is a need for an interpretation of §§ 91.201 (c) and (d), 91.204 (b), 91.205 (f), 91.211 (d), 91.220, 91.226 (a), 91.229 (f) and (g), 91.247 (a), 91.255 (b), and 91.323 (b) of the said rules and instructions:

It is ordered, That pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003), notice is hereby given of proposal to interpret the following sections of the Rules and Instructions for Inspection and Testing of Locomotives Other Than Steam (49 CFR 91.201 to 91.337) as follows:

SUBPART C—OTHER THAN STEAM LOCOMOTIVES AND APPURTENANCES

§ 91.201 *Locomotive unit.* • • •

(c) *Control of units.* When locomotive units are coupled in multiple control all parts and components of each unit capable of providing power for propulsion or supplying the retarding effect which will enable the enginemen to control the speed or stop the locomotive or train, shall respond to control from the enginemen's compartment of the controlling unit.

Interpretation: On locomotive units coupled in multiple control, the parts and components capable of producing power to propel the locomotive or train, the air brakes capable of retarding or stopping the locomotive or train, and the sanders, shall respond to control from the operating compartment.

(d) *Slipping or sliding wheel alarms.* Means shall be provided whereby alarms and indications of either slipping or sliding driving wheels on any unit in a locomotive used in road service will be shown in the enginemen's compartment of the controlling unit.

Interpretation: This rule does not require both an audible alarm, and a visual indication, but does require that either the one, or the other, must be provided.

The requirements of the rule are satisfied by a device which shows when either slipping or sliding occurs, even though not distinguishing between the one and the other.

BRAKE EQUIPMENT; AIR BRAKES

§ 91.204 *Brake pipe valve.* • • •

(b) Each road locomotive unit propelled by power other than steam built on or after January 1, 1957, shall be equipped with a brake pipe valve which is accessible to the fireman when stationed in his usual position in the enginemen's compartment. On car body type units a brake pipe valve shall be attached to the wall adjacent to each end exit door. The words "Emergency Brake Valve" shall be legibly stenciled near each brake pipe valve or shall be shown on a badge plate adjacent thereto. Each road locomotive unit propelled by power other than steam built before January 1, 1957, shall be so equipped the first time said unit receives heavy repairs after January 1, 1957, but not later than December 31, 1958.

Interpretation: The requirement for "a brake-pipe valve accessible to the fireman when stationed in his usual position" is complied with by installing at or adjacent to the fireman's position any type of valve which will bring about an emergency brake application.

The emergency valve at the hostler control station near the end of a unit meets the requirement of this rule if it can be operated from a position adjacent to the exit door at that end.

§ 91.205 *Main reservoir system.* • • •

(f) *Prevention of oil passage.* Each air brake system shall by January 1, 1959, be provided with a device in the air compressor discharge line which will effectively restrict passage of oil throughout the system. Such device shall be kept clean and drained before each trip or day's work.

Interpretation: If the devices presently installed effectively restrict the passage of oil throughout the air brake system, additional devices will not be required.

§ 91.211 *Leakage.* • • •

(d) *Control reservoir.* Leakage from control air reservoir, related piping, and pneumatically operated controls shall not exceed an average of 3 pounds per minute in a test of 3 minutes duration.

Interpretation: While no specific procedure is prescribed in order to determine compliance with this rule, the following is recommended: (1) The control-air system should be fully charged; (2) the pressure in the main reservoir should be reduced below the standard control-air pressure, unless a 3-way cock venting to the atmosphere is used; (3) the throttle should be placed in number one position, the reverser in either forward or reverse position, and on units so equipped the transition lever placed in number one position, and these should be kept in such positions throughout the test; and (4) the leakage as read on the control air gauge should be checked for 3 minutes.

RUNNING GEAR

§ 91.220 *Lateral motion.* The total uncontrolled lateral motion between the hubs of the wheels and boxes, between boxes and pedestals or both, on any pair of wheels shall not exceed the following limits: Truck wheels, 1 inch; driving wheels, more than one pair of wheels, ¾ inch. These limits may be increased if upon application to the director his investigation shows that conditions require additional lateral motion. The lateral motion shall in all cases be kept within such limits that the driving wheels, rods, crank pins, or armatures will not interfere with other parts of the locomotive.

Interpretation: The "total uncontrolled lateral motion" referred to in this rule means the lateral motion provided for in the design of the parts, plus any additional lateral motion due to wear.

WHEELS

§ 91.226 *Wheels*—(a) *Tight on axel.* (1) Wheels shall be securely pressed on axles except wheels and axles of special design and construction where other proper and safe means are provided for holding the wheels on the axles. Prick punching, shimming wheel fit, or pins driven in ends of axles will not be permitted.

(2) Mill scale shall be removed from plate and entire wheel then inspected before application to axle. Wheels shall be kept free from accumulations of oil, grease, or other material that could conceal cracks or other defects.

Interpretation: The second paragraph of this rule requires that wheels mounted on axles on and after the effective date of the rule shall have mill scale removed before application.

The second sentence of the second paragraph is not intended to impose unreasonable requirements, but is construed to mean that wheels shall be kept reasonably clean, so as to permit detection of cracks and other defects in the course of normal inspection.

CABS, CAB APRONS, PILOTS

§ 91.229 *Cab and aprons.* • • •

(f) *Heating.* (1) Enginemen's compartments shall be provided with heating arrangements that will maintain therein a temperature of not less than 50° F. Temperature shall be taken at substantially the center of compartment under normal winter weather conditions, under the running conditions of the locomotive, with doors and windows closed.

(2) Operating cabs or compartments shall be provided with proper ventilation.

Interpretation: The concluding sentence of this rule means that, regardless of adjustments of doors and windows, further ventilation shall be supplied to cabs by means of additional openings, located as required.

(g) *Passage between units.* Safe and suitable means shall be provided for passage between units with open-end platforms.

Interpretation: This rule requires that a safe and suitable passageway be provided between all units coupled in multiple control and operated in road service, except that, no passageway will be required through the nose-end of car-body type units similar in design to present diesel-electric "A" units.

ELECTRICAL EQUIPMENT

§ 91.247 *Jumpers; cable connections*—(a) *General precautions.* Jumpers or cable connections between locomotives or units shall be so located and guarded to prevent unnecessary peril, and shall not be allowed to hang with one end free.

Interpretation: The requirements of this rule relating to the location and guarding of jumpers and cable connections are satisfied by installing a device which will support the cable at a sufficient height to provide reasonable clearance.

INTERNAL COMBUSTION EQUIPMENT

§ 91.255 *Fuel tanks and piping; safety cut-out valve.* • • •

(b) A safety cut-out valve shall be provided in the fuel line adjacent to the supply tank, or in other safe location, which will automatically close when tripped. The cut-out valves shall be designed for hand operation from both outer sides of the unit and from inside of the enginemen's compartment. Operating handle locations shall be designated. Means shall be provided so that cut-out valves may be reset without hazard.

Interpretation: The requirements of the last sentence of this rule are satisfied if the cut-out valves may be reset without the necessity for employee getting under the locomotive.

BOILERS USED WITH LOCOMOTIVES OTHER THAN STEAM

§ 91.323 *Fuel tanks and piping.* • • •

(b) *Safety cut-out valve.* A safety cut-out valve shall be provided in the fuel line adjacent to the supply tank, or in other safe location, which will automatically close when tripped. The cut-out valves shall be designed for hand operation from both outer sides of the unit and from inside of the enginemen's compartment. Operating handle locations shall be designated. Means shall be provided so that cut-out valves may be reset without hazard.

Interpretation: The requirements of the last sentence of this rule are satisfied if the cut-out valves may be reset without the necessity for employee getting under the locomotive.

And it is further ordered, That this matter has not been assigned for oral hearing and none will be held unless a need therefor is shown. Interested parties wishing to make representations in favor or against the proposed interpretations may do so through the submission of written statements. The original and five copies of such submission shall be filed with the Secretary of the Commission on or before October 15, 1958.

Notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission for public inspection and by filing a copy with the Director, Federal Register Division.

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[F. R. Doc. 58-7688; Filed, Sept. 19, 1958; 8:49 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 230]

GENERAL RULES AND REGULATIONS SECURITIES ACT OF 1933

DEFINITIONS

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposed amendment of Rule No. 133 under the Securities Act of 1933.

On October 2, 1956 (Securities Act Release No. 3698), the Commission invited comment on a proposed revision of Rule 133 to provide that transactions of the character therein described involve the offer and sale of securities subject to the registration and prospectus provisions of the Securities Act of 1933. After study of the comments received in writing and at a public hearing held on January 17, 1957, the Commission announced on March 15, 1957 (Securities Act Release No. 3761) that it was deferring action upon the proposal pending further study.

On April 8, 1957 (Securities Exchange Act Release No. 5483), in its Findings and Opinion in the Matter of Great Sweet Grass Oils Limited and Kroy Oils Limited,[1] and on October 10, 1957 (in Securities Act Release No. 3846), the Commission discussed the scope and limitations of § 230.133 (Rule 133). In substance, the Commission indicated in these releases that (1) § 230.133 (Rule 133), where applicable, merely provides that registration of the securities, and presentation of a prospectus to the security holders, is not required in connection with the submission of a plan of merger or other transaction specified in the rule and the receipt of securities in consummation of the plan, (2) this does not mean that the securities issued in such a plan are "free" securities which need not be registered insofar as subsequent offers and sales of such securities are concerned; that is, that registration would be required for any subsequent offer and sale unless such activity were limited to casual sales by noncontrolling security holders which might fairly be described as trading transactions not involving a distribution or unless another exemption were available, and (3) § 230.133 (Rule 133) provides no exemption from the registration and prospectus requirements of the Act with respect to any public distribution of the securities received by a security holder who might be deemed to be a statutory underwriter.

Reference was also made to the opinion of the United States District Court for the Southern District of New York in S. E. C. v. Micro-Moisture Controls, Inc. (Civil No. 116-190, January 23, 1957)[2] that § 230.133 (Rule 133) is not applicable to an exchange of assets for stock which is "but a step in the major activity of selling the stock"; that is, where the transaction is part of a plan to use stockholders as a conduit for distributing a substantial amount of the securities to the public.

At the direction of the Commission, the staff has been engaged in a comprehensive review and re-examination of all relevant legislative and other statutory materials, prior Commission and staff actions, and the points of view and arguments expressed by those who appeared at the Commission's public hearing on the 1956 proposal, or who otherwise submitted comments to the Commission, or who have expressed themselves in various publications. Based upon the foregoing, the staff has recommended that the Commission abandon the 1956 proposal for revision of § 230.133 (Rule 133), that the Commission restate the purpose and effect of § 230.133 (Rule 133), and that the Commission adopt rules designed to clarify the applications and limitations of the rule.

After careful study of the voluminous materials submitted to the Commission in connection with the staff recommendations, the Commission has determined to publish for comment certain proposed rules submitted by the staff which are designed to implement these recommendations in order that the Commission may reach its final conclusion after consideration of the views of all persons having an interest in the matter. The staff recommendations are:

I. We recommend that Rule 133 be retained in its present form or in substantially its present form for the purpose of reflecting the present position of the Commission that registration is not required for the submission by a corporation to a vote of its stockholders of any of the plans, agreements or proposals therein described or for the vote of stockholders thereon or for the authorization, modification, issuance and delivery of securities pursuant thereto, all subject to the conditions and under the circumstances therein described.

II. We recommend that the Commission announce in a public release its opinion that the fact that a security has been acquired by a stockholder in a transaction to which Rule 133 is applicable does not make that security exempt from any provisions of the Act which would otherwise be applicable for purposes of any transactions by such stockholder in such security; and promulgate rules which define the circumstances under which distribution of securities by such stockholders may not be effected without compliance with the provisions of section 5

[1] Affirmed sub nom. Great Sweet Grass Oils Limited et al. v. S. E. C. (June 24, 1958) CCH Par. 90865; another appeal pending, Kroy Oils Limited v. S. E. C. (C. A. D. C. #13920).

[2] This opinion was issued in connection with the issuance of a preliminary injunction. On March 31, 1958, the Court issued its Findings of Fact and Conclusions of Law supporting the entry of a permanent injunction upon the ground that the stock sold to the public was the stock of persons in a control relationship with the issuer and that certain of the defendants acted as underwriters in the sale of such stock. Appeal Pending Micro-Moisture Controls, Inc. et al. v. S. E. C. (C. A. 2 #25242).

of the act, generally in accordance with the following:

(a) Define the term "underwriter" to include any constituent corporation other than an issuer and any person who controlled, was controlled by, or was under common control with such constituent corporation and who acquired securities in a Rule 133 transaction with a view to the distribution thereof. Exclude from the term "distribution," for purpose of this rule, public offerings of securities coming out of a Rule 133 transaction by or on behalf of a person so defined to be an underwriter in amounts not exceeding a limit to be set which attempts to distinguish between transactions of a trading character and transactions which have the characteristics of a distribution.

(b) Define the term "underwriter" to include any person who, pursuant to any contract, arrangement or understanding with the issuer (or any person who controls, is controlled by or is under common control with the issuer) directly or indirectly purchases from or sells for stockholders who acquired securities in a Rule 133 transaction, under circumstances involving a distribution.

III. We further recommend that consideration be given to the adoption of rules and forms which will, to an appropriate degree, make possible the employment of proxy material required to be filed pursuant to section 14 (a) of the Exchange Act, or which substantially complies with the provisions of Regulation 14 even though not required to be filed with the Commission pursuant thereto, as part of the prospectus to be filed in satisfaction of the registration requirements for distribution of securities of the character referred to in II.

These recommendations were based upon certain conclusions reached by the staff after a detailed discussion of the relevant authorities, prior actions, and a review of arguments and comments received or otherwise noted. These conclusions are:

Conclusion I. We do not agree with the proposition that the transactions described in Rule 133 do not involve a "sale" within the meaning of that term as defined in section 2 (3) of the Securities Act and that, therefore, the Securities Act has no application to such transactions. We reach this result essentially for two basic reasons:

(1) the concept of "sale" as defined in section 2 (3) is broader than the commercial or common-law meaning of that term, and embraces a number of situations which would not be regarded as sales in the commercial sense but fall within the purposes of the Securities Act; and

(2) the transactions described in Rule 133 do not, as is often said, occur solely by operation of law and without the element of individual consent by security holders, but on the contrary are basically contractual in their foundation, reflecting essentially contractual relationships among security holders and between security holders and corporations.

Conclusion II. We believe that the Commission has the power to promulgate or to continue in effect rules of interpretation or rules of definition which have the effect of declaring that transactions are not "sales" for purposes of sections 4 and 5 of the Act where the Commission concludes on the basis of its experience and the over-all structure of the Act that the procedural and liability provisions of the Act as they affect issuers, underwriters and dealers would not operate reasonably and effectively in such transactions.

Conclusion III. We believe, having regard to the nature, purposes and operation of the procedural provisions of sections 4 and 5, the civil liabilities for failure to comply with such procedures, and the operation of certain of the statutory exemptions from section 5, that Rule 133 represents a reasonable interpretation of the act in the application of section 5, one which is not inconsistent with the broad purposes of the act as derived from its structure and history, and a proper exercise of the Commission's defining and rule-making powers thereunder, particularly where, as here, this result reflects a consistent administrative interpretation over a period of almost twenty-four years.

Conclusion IV. We believe that a stockholder acquiring a new security in a transaction falling within Rule 133 "has purchased" that security from an issuer within the meaning of section 2(11) and accordingly certain stockholders may be defined as underwriters if they acquire the security with a view to distribution, and that in many cases this result conforms to the structure and policy of the act. We also believe, however, that ordinary investors not in a control relationship with any corporation participating in the transaction should not be defined as underwriters, although participation by the issuer in resales by them should require registration by the issuer. Rules embodying these distinctions should also make appropriate provision for what are essentially trading transactions by security holders, included in the definition of "underwriter," who are not in a control relationship to the issuer.

The proposal to amend Rule 133 as set forth below, is designed to implement these recommendations and conclusions. A proposed form, which could be used for registration of securities issued in distribution transactions of the character referred to ln the proposed rule is in preparation. Such a form may permit the use of a prospectus in the form of a proxy statement meeting the requirements of Regulation 14 under the Securities Exchange Act of 1934 where such proxy statement has been employed in connection with the transaction within Rule 133 which gives rise to the distribution, supplemented by certain necessary additional information.

§ 230.133 *Definitions, for purposes of section 5, of the "sale," "offer," "offer to sell," and "offer for sale" and of "distribution" and "brokers' Transactions" for certain transactions.* (a) For purposes only of section 5 of the act, no "sale," "offer," "offer to sell," or "offer for sale" shall be deemed to be involved so far as the stockholders of a corporation are concerned where, pursuant to statutory provisions in the State of incorporation or provisions contained in the certificate of incorporation, there is submitted to the vote of such stockholders a plan or agreement for a statutory merger or consolidation or reclassification of securities, or a proposal for the transfer of assets of such corporation to another person in consideration of the issuance of securities of such other person or voting stock of a corporation which is in control, as defined in section 368 (c) of the Internal Revenue Code of 1954, of such other person, under such circumstances that the vote of a required favorable majority (1) will operate to authorize the proposed transaction so far as concerns the corporation whose stockholders are voting (except for the taking of action by the directors of the corporation involved and for compliance with such statutory provisions as the filing of the plan or agreement with the appropriate State authority), and (2) will bind all stockholders of such corporation except to the extent that dissenting stockholders may be entitled, under statutory provisions or provisions contained in the certificate of incorporation to receive the appraised or fair value of their holdings.

(b) Any person who, in connection with any transaction specified in paragraph (a) of this section, purchases securities of the issuer from security holders of a constituent corporation with a view to, or offers or sells such for such security holders in connection with, a distribution thereof, pursuant to any contract or arrangement with the issuer or with any person who controls, is controlled by or is under common control with the issuer, or with any person who is acting as an underwriter for the issuer or any such person, shall be deemed to be an underwriter of such securities within the meaning of section 2 (11) of the Act.

(c) Any constituent corporation, or any person who controls, is controlled by or is under common control with a constituent corporation at the time any transaction specified in paragraph (a) of this section, is submitted to a vote of the stockholders of such corporation, who acquires securities of the issuer in connection with such transaction with a view to the distribution thereof, shall be deemed to be an underwriter of such securities within the meaning of section 2 (11) of the Act.

(d) Notwithstanding the provisions of paragraph (c) of this section, a person therein described shall not be deemed to be an underwriter nor to be engaged in a distribution with respect to securities acquired in any transaction specified in paragraph (a) of this section, which are sold by him in brokers' transactions as defined in section 4 (2) of the Act in accordance with the conditions and subject to the limitations specified in paragraph (e) of this section, and such person:

(1) Does not directly or indirectly solicit or arrange for the solicitation of orders to buy in anticipation of or in connection with such transactions;

(2) Makes no payment in connection with the execution of such transactions to any person other than the broker; and

(3) Limits such transactions to a sale or series of sales which together with all other sales of securities of the same class by or on his behalf within the preceding six months will not exceed the following:

(i) If the security is traded only otherwise than on a securities exchange, approximately one percent of the shares or units of such security outstanding at the time of receipt by the broker of the order to execute such transactions, or

(ii) If the security is admitted to trading on a securities exchange, the lesser of approximately (*a*) one percent of the shares or units of such security outstanding at the time of receipt by the broker of the order to execute such transactions or (*b*) the largest aggregate reported volume of trading on securities exchanges during any one week within the four calendar weeks preceding the receipt of such order.

(e) For the purposes of paragraph (d) of this section:

(1) The term "brokers' transactions" in section 4 (2) of the Act shall be deemed to include transactions by a broker acting as agent for the account of the seller where (i) the broker performs no more than the usual and customary broker's functions, (ii) the broker does no more than execute an order or orders to sell as a broker and receives no more than the usual or customary broker's commissions, (iii) the broker does not solicit or arrange for the solicitation of orders to buy in anticipation of or in connection with such transactions and (iv) the broker is not aware of any circumstances indicating this, his principal is failing to comply with the provisions of paragraph (d) of this section;

(2) The term "solicitation of such orders" in section 4 (2) of the Act shall be deemed to include the solicitation of an order to buy a security, but shall not be deemed to include the solicitation of an order to sell a security;

(3) Where within the previous 60 days a dealer has made a written bid for a security or a written solicitation of an offer to sell such security, the term "solicitation" in section 4 (2) shall not be deemed to include an inquiry regarding the dealer's bid or solicitation.

(f) For the purposes of this section, the term "constituent corporation" means any corporation other than the issuer which is a party to any transaction specified in paragraph (a) of this section.

All interested persons are invited to submit their views and comments on the above proposals, in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before November 14, 1958. Except where it is requested that such communications not be disclosed, they will be considered available for public inspection.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

SEPTEMBER 12, 1958.

[17 CFR Part 240]

GENERAL RULES AND REGULATIONS UNDER THE SECURITIES EXCHANGE ACT OF 1934

REPORTS OF SIGNIFICANT TRANSACTIONS

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to adopt § 240.17a-8 (Rule 17a-8) requiring brokers and dealers to report promptly to the Commission transactions with nonresidents of the United States involving a substantial amount of any security. The proposed action would be taken pursuant to the Securities Exchange Act of 1934, particularly sections 17 (a) and 23 (a) thereof.

The distribution of securities into the United States by or on behalf of foreign persons and institutions in possible violation of the registration provisions of the Securities Act of 1933 or the antifraud provisions of that Act and the Securities Exchange Act of 1934 have been a source of concern to the Commission for some time. There is reason to believe that foreign agencies and intermediaries have, on occasion, been employed in securities transactions for the purpose of endeavoring to conceal the identities of interested parties, or the nature and purpose of the transactions, in order to hinder the enforcement of the Federal securities laws.

The Commission ordinarily receives no notice of a distribution for a foreign account unless and until the matter comes to its attention in the course of its inspection or investigation work. It has been suggested that the Commission might be in a position to cope more promptly and effectively with the problem if it received prompt notice of significant transactions for foreign accounts, and the proposed rule is designed to accomplish this purpose in so far as brokers and dealers in the United States are involved in the transactions.

The proposed rule would require members of national securities exchanges and brokers and dealers to report to the Commission orders for a significant amount of a security received from non-resident persons and purchases of a significant amount of a security from a foreign source if the purchase is made for the account of the broker or dealer, or is made for the account of any other person who, to the knowledge of the broker or dealer, proposes to sell or is selling the securities in the United States. Transactions would be deemed to involve a significant amount of a security if a transaction or series of related transactions within a 6-months period involved the greater of one percent of the outstanding amount of the security or $50,000. Reports would have to be filed with the Commission within three business days after the transaction giving rise to the duty to report.

If the broker or dealer so desired, reports filed with the Commission under the rule would be confidential, except that they would be available for official use by Government agencies, securities exchanges, or securities associations, of which the reporting broker or dealer was a member, and any other person to whom the Commission authorized disclosure in the public interest.

The text of the proposed rule is as follows:

§ 240.17a-8 *Reports of significant transactions.* (a) This section shall apply to every member of a national securities exchange, and every broker or dealer who transacts a business in securities through the medium of any such member, and every broker or dealer registered pursuant to section 15 of the Securities Exchange Act of 1934.

(b) Every member, broker or dealer subject to this section shall file a report with respect to:

(1) Any order to purchase or sell a significant amount (as hereinafter defined) of any security for the account of any non-resident person, or

(2) Any purchase of a significant amount of any security by such broker-dealer for his own account from any non-resident person, or

(3) Any purchase of a significant amount of any security by such broker or dealer for the account of any person, from any non-resident person, if such member, broker or dealer knows that the purchaser of such securities plans to sell them in the United States, or if such member, broker or dealer receives from such purchaser an order to sell such securities, or to deliver them for purposes of sale, in the United States.

(c) For purposes of this section the term "significant amount" of any security shall mean the following:

(1) For purposes of paragraph (b) (1) of this section an order shall be deemed to involve a significant amount of a security if the amount to be bought or sold, together with the amounts bought or sold, as the case may be, in all other transactions in securities of the same class by or on behalf of the same person within the preceding 6 months equals or exceeds one percent of the shares or other units of such securities outstanding at the time of the receipt of the order by such member, broker or dealer: *Provided however,* That an order shall not be deemed to involve a significant amount of securities if the total consideration involved in all of the transactions of the character above described does not exceed $50,000.

(2) For the purposes of paragraph (b) (2) and (3) of this section a purchase shall be deemed to involve a significant amount of a security if the amount purchased for the account of the broker-dealer, or the account of any other person, as the case may be, together with the amounts purchased in all other transactions in securities of the same class by or on behalf of the same person and from non-resident persons within the preceding 6 months equals or exceeds one percent of the shares or other units outstanding at the time of such purchase: *Provided however,* That a purchase shall not be deemed to involve a significant amount of securities if the total consideration involved in all purchases of the character described above does not exceed $50,000.

(d) For the purposes of this section the term "non-resident person" shall mean (1) in the case of an individual, one who resides in or has his principal place of business in any place not subject to the jurisdiction of the United States; (2) in the case of a corporation, one incorporated in or having its principal place of business in any place not subject to the jurisdiction of the United States; (3) in the case of a partnership or other unincorporated organization or association, one having its principal place of business in any place not subject to the jurisdiction of the United States. The term "non-resident person" for purposes of this section shall also include any person who, to the knowledge of a member, broker or dealer effecting with or for such person transactions involving a significant amount of a security, is either controlled by a non-resident person as herein defined, or is acting in such transaction for the account of, or as agent for, such a non-resident person.

(e) Reports pursuant to this section shall include the name of the issuer of the securities involved in the transac-

tion, the title of the securities, the number of shares or other units involved, whether the order is a buy or sell order, the name and address of the person for whose account the transaction is to be effected and, in the case of reports pursuant to paragraph (b) (2) or (3) of this section the name and address of the person from whom the securities were purchased. In case a report is filed by reason of the fact that the order or purchase is deemed to involve a significant amount of the security by reason of other orders or purchases of the same security within a 6-months period, then the report shall include all other transactions in the same security by or on behalf of the same person within such 6-months period, except that if any of such other transactions have previously been reported a reference to that fact will be deemed sufficient. Such reports shall be signed by the member, broker or dealer or on his behalf by a duly authorized person.

(f) Reports of orders or purchases pursuant to this section shall be filed at the principal office of the Commission not later than 3 business days after the date of the order or the transaction of purchase being reported: *Provided however*, That if the report is filed pursuant to paragraph (b) (3) of this section by reason of the fact that the broker-dealer knows that the purchaser plans to sell the securities in the United States or receives an order from such purchaser to sell or deliver the securities in the United States, then the report shall be filed within 3 business days after the broker-dealer learns of the purchaser's plan or receives such order to sell or deliver the securities.

(g) If a member, broker or dealer so requests in a report pursuant to this section, the report shall be deemed confidential, except that it shall be available for official use by an official or employee of the United States or any state, by national securities exchanges and national securities associations of which the person making such report is a member, and by any other person to whom the Commission authorizes disclosure of such information as being in the public interest.

(h) Notwithstanding the foregoing provisions of this section, any non-resident broker or dealer, as that term is defined in § 240.17a–7 (c) (3), shall not be required to report any transactions pursuant to this rule unless the securities involved in such transactions are ordered by or sold to a person residing in any place subject to the jurisdiction of the United States.

All interested persons are requested to submit their views and comments on the proposed rule in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before October 15, 1958. Unless the person submitting any such comments or suggestions requests in writing that they be held confidential, they will be public records available for public inspection.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

The above areas aggregate 9,187.74 acres.

E. N. NIELSEN, *Assistant Commissioner.*

[Colorado 019106]

SEPTEMBER 15, 1958.

I concur.

The public domain lands shall continue to be administered by the Bureau of Land Management until they are needed for reclamation purposes.

EDWARD WOOZLEY, *Director, Bureau of Land Management.*

Notice for Filing Objections to Order Withdrawing Public Lands for the Collbran Project, Colorado

MARCH 22, 1957.

Notice is hereby given that for a period of 30 days from the date of publication of this notice, persons having cause to object to the terms of the above order withdrawing certain public lands in the State of Colorado, for use in connection with the proposed Collbran Project, may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C.

In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

E. G. NIELSEN, *Assistant Commissioner.*

REGIONAL DIRECTORS

DELEGATIONS OF AUTHORITY

SEPTEMBER 16, 1958.

Paragraph (i) of section 1 of Order No. 14, issued December 1, 1954 (19 F. R. 8324), as amended August 31, 1955 (20 F. R. 6752), and January 12, 1957 (22 F. R. 270), is amended to read as follows:

(i) Execution and termination of concession contracts and permits in excess of five years or involving a gross annual business of $100,000 or more, and the approval of subagreements thereunder regardless of the term of such subagreements, and approval of transfers and issues of corporate stock of concessioners which would vest in the transferee 50 percent or more of the outstanding stock or would otherwise result in a change of control of the corporation.

(Secretary's Order No. 2640; 5 U. S. C., 1952 ed., sec. 22; sec. 2, Reorg. Plan No. 3 of 1950)

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 12058, 12462; FCC 58M–993]

KBR STATIONS, INC., AND KENNETH E. SHAW

ORDER CONTINUING HEARING

In re applications of the KBR Stations, Inc., Keene, New Hampshire, Docket No. 12058, File No. BP–10732; Kenneth E. Shaw, Newport, New Hampshire, Docket No. 12462, File No. BP–11782; for construction permits.

On the Hearing Examiner's own motion: *It is ordered*, This 15th day of September 1958, that hearing in the above-entitled matter now scheduled for September 24, 1958, is continued to a date to be determined later; and that a pre-hearing conference will be held September 23, 1958, at 10:00 a. m., in the offices of the Commission in Washington, D. C.

Released: September 16, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 58–7704; Filed, Sept. 19, 1958; 8:53 a. m.]

[Docket Nos. 12058, 12462; FCC 58M–1007]

KBR STATIONS, INC. AND KENNETH E. SHAW

ORDER CONTINUING HEARING CONFERENCE

In re applications of the KBR Stations, Inc., Keene, New Hampshire, Docket No. 12058, File No. BP–10732; Kenneth E. Shaw, Newport, New Hampshire, Docket No. 12462, File No. BP–11782; for construction permits.

At the oral request of counsel for KBR and with the consent of all other parties to the proceeding: *It is ordered*, This 16th day of September 1958, that the pre-hearing conference now scheduled for September 23, 1958, is continued to October 1, 1958.

Released: September 17, 1958.

L & B BROADCASTING CO. AND PACIFIC BROADCASTERS (KUDE)

ORDER CONTINUING HEARING

In re applications of William L. Miller and Luther Pillow, d/b as L & B Broadcasting Company, Hemet, California, Docket No. 12467, File No. BP–11217; Walter N. Nelskog and Darrell R. Anderson, d/b as Pacific Broadcasters (KUDE), Oceanside, California, Docket No. 12468, File No. BP–11652; for construction permits.

The Hearing Examiner having under consideration a motion, filed by Pacific Broadcasters on September 11, 1958, for continuance and extension of the dates now set for exchange of exhibits, further prehearing conference, and hearing; and

It appearing, that counsel for L & B, Los Angeles Broadcasting Company and the Broadcast Bureau, three of the parties, have consented to the immediate consideration of the motion and have no objection to its grant; that negotiations are now in progress which may obviate the necessity for hearing or at least in part eliminate the existing conflict; and that in view of the present schedule the public interest requires consideration of the motion before the expiration of the period for filing opposition;

It is ordered, This 15th day of September 1958, that the motion is granted, and the dates for exchanging exhibits and for further prehearing conference are respectively extended from September 12 and 22, 1958, to September 22 and October 2, 1958, and the hearing is continued from September 29 to October 9, 1958.

Released: September 16, 1958.

FEDERAL POWER COMMISSION

[Docket No. G-15348]

LONE STAR GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 16, 1958.

Take notice that Lone Star Gas Company (Applicant), a Texas corporation with its principal place of business in Dallas, Texas, filed an application in Docket No. 15348 on June 20, 1958 pursuant to section 7 of the Natural Gas Act for (1) a certificate of public convenience and necessity authorizing the construction and operation of approximately 9.51 miles of 8-inch gas transmission pipeline, located in Wilbarger County, Texas, and Tillman County, Oklahoma and (2) for permission and approval to abandon and remove 9.5 miles of 6-inch gas pipeline from Line A-1, and replace the same with 8-inch pipe referred to above, subject to the jurisdiction of the Commission, and as more fully described in the application on file with the Commission and open for public inspection.

The application recites that the estimated total capital cost of the proposed facilities is $135,797, and will be defrayed from funds on hand. The salvage value of the 6-inch line to be abandoned is $34,300, with cost of removal stated to be $15,006.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission, by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 29, 1958, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 13, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7680; Filed, Sept. 19, 1958; 8:47 a. m.]

[Docket No. G-16247]

MIDSTATES OIL CORP. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

SEPTEMBER 16, 1958.

Midstates Oil Corporation (Operator), et al. (Midstates), on August 18, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdicton of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 15, 1958.

Purchaser: Arkansas Louisiana Gas Company.

Rate schedule designation: Supplement No. 5 to Midstates' FPC Gas Rate Schedule No. 1.

Effective date: September 26, 1958 (effective date is the effective date proposed by Midstates).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge.

This suspension, however, is based solely on the possibility of the additional tax being invalidated and that only such tax reimbursement shall be made effective subject to refund.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 5 to Midstates' FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 5 to Midstates' FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until September 27, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[1] Supplement No. 4 to Midstates' FPC Gas Rate Schedule No. 1 (Louisiana gathering tax increase), was suspended for 1 day until August 2, 1958, in Docket No. G-15567, and is now in effect subject to refund.

[Docket No. G-16248]

J. R. FRANKEL ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

SEPTEMBER 16, 1958.

J. R. Frankel, et al. (Frankel), on August 26, 1958, tendered for filing a proposed change in his presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 22, 1958.

Purchaser: Arkansas Louisiana Gas Company.

Rate schedule designation: Supplement No. 7 to Frankel's FPC Gas Rate Schedule No. 1.

Effective date: October 1, 1958 (effective date is the effective date proposed by Frankel).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge.

This suspension, however, is based solely on the possibility of the additional

[1] Supplement No. 6 to Frankel's FPC Gas Rate Schedule No. 1 (Louisiana gathering tax increase), was suspended for 1 day until August 2, 1958, in Docket No. G-15630, and is now in effect subject to refund.

tax being invalidated and that only such tax reimbursement shall be made effective subject to refund.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 7 to Frankel's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 7 to Frankel's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until October 2, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Project No. 2079]

PLACER COUNTY WATER AGENCY

NOTICE OF AMENDED APPLICATION FOR PRELIMINARY PERMIT

SEPTEMBER 16, 1958.

Public notice is hereby given that Placer County Water Agency, of Auburn, California, has filed an amended application under the Federal Power Act (16 U. S. C. 791a–825r) for a preliminary permit for proposed water-power Project No. 2079 to be located on Middle Fork of American River and its tributaries in Placer and El Dorado Counties, California; in the region of Auburn, Georgetown, and Foresthill, California, affecting lands of the United States in Tahoe and Eldorado National Forests. The County of Placer, original applicant in this proceeding, has assigned to Placer County Water Agency all applications, permits, licenses, and rights for development of this project. The proposed project would be known as Middle Fork American River Project and would have an estimated total installed capacity of 230,000 kilowatts. The amended application deletes those project works licensed as parts of Project No. 2101 and otherwise so modifies the proposed project that it is now described as follows: (a) Two headwater reservoirs; French Meadows on the Middle Fork of American River with a feeder tunnel from Duncan Creek, and Lower Hell Hole on the Rubicon River, with associated conduits and power plants; (b) a regulating reservoir at Parsley Bar on the Rubicon River; (c) a main power conduit consisting of a tunnel to Long Canyon and a canal along Ralston Ridge to a forebay at the end of the ridge; (d) a high-head Ralston Power Plant, served by a shaft and tunnel from Ralston Forebay and discharging into the Rubicon River arm of an American Bar Reservoir on the Middle Fork of American River; and (e) a low-head American Bar Power Plant discharging into the Middle Fork of American River and served by a tunnel from the American Bar Reservoir.

No construction is authorized under a preliminary permit. A permit, if issued, merely gives permittee, during the period of the permit, the right to priority of application for license while the permittee undertakes the necessary studies and examinations, including the preparation of maps and plans, in order to determine the economic feasibility of the proposed project, the means of securing the necessary financial arrangements for construction, the market for the project power, and all other information necessary for inclusion in an application for license, should one be filed.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is October 31, 1958. The application is on file with the Commission for public inspection.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7683; Filed, Sept. 19, 1958; 8:48 a. m.]

[Project No. 2179]

MERCED IRRIGATION DISTRICT

NOTICE OF APPLICATION FOR LICENSE

SEPTEMBER 16, 1958.

Public notice is hereby given that Merced Irrigation District, of Merced, California, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for license for proposed water-power Project No. 2179, to be located on the Merced River in Mariposa and Merced Counties, California, and to consist of the proposed Bagby and Snelling developments and the enlarged Exchequer development described in more detail as follows: (1) Bagby development, consisting of an earth and rock fill dam 418 feet high located about ½ mile downstream from the town of Bagby; a detached concrete saddle spillway with tainter gates; reservoir with storage of 415,000 acre-feet and area of 3,200 acres at maximum water surface elevation 1160 feet; intake structure; diversion tunnel and penstock totalling 1,300 feet in length; powerhouse containing two 40,000-horsepower turbines connected to two 25,000-kilowatt generators; substation; and appurtenant facilities; (2) Exchequer development, an enlargement of the applicant's existing Exchequer development (Project No. 88), and consisting of a concrete dam 486 feet high; an earth fill dike; a detached concrete saddle spillway with tainter gates; reservoir with storage of 1,000,000 acre-feet and area of 6,800 acres at maximum water surface elevation 865 feet; penstocks through the dam; powerhouse at toe of dam containing two 73,000-horsepower turbines connected to two 45,500-kilowatt generators; substation; and appurtenant facilities; and (3) Snelling development, consisting of a rock fill dam 116 feet high with gated spillway section located about 3½ miles upstream from the town of Snelling; 6 dikes; reservoir with storage of 190,000 acre-feet and area of 4,050 acres at maximum water surface elevation 400 feet; intake structure; tunnel and penstock through the dam; powerhouse near the left abutment of the dam containing a 40,000-horsepower turbine connected to a 25,000-kilowatt generator; substation; and appurtenant facilities. The Snelling development will inundate the Merced Falls project of Pacific Gas and Electric Company (Project No. 1335).

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is October 27, 1958. The application is on file with the Commission for public inspection.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

EMPLOYMENT OF LEARNERS

ISSUANCE OF SPECIAL CERTIFICATES

SEPTEMBER 16, 1958.

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 485 (23 F. R. 200) and Administrative Order No. 507 (23 F. R. 2720), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.24, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

M. Fine and Sons Manufacturing Co., Inc., 15th and Main Streets, New Albany, Ind.; effective 9-4-58 to 9-3-59 (cotton and wool work shirts and jackets).

Greenwood Shirt Co., Inc., 145 Maxwell Avenue, Greenwood, S. C.; effective 9-6-58 to 9-5-59 (men's and boys' sport shirts).

International Latex Corporation, Lafayette, Ala.; effective 9-22-58 to 9-21-59 (brassieres).

The Jerold Corp., Smithfield, N. C.; effective 9-15-58 to 9-14-59 (children's sportswear).

Lackawanna Pants Manufacturing Co., corner Brook Street and Cedar Avenue, Scranton, Pa.; effective 9-8-58 to 9-7-59 (trousers).

Wilcox Garment Co., Inc., Rochelle, Ga.; effective 9-8-58 to 9-7-59 (men's dress and semi-dress shirts).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Bearden Enterprises, Inc., Bearden, Ark.; effective 9-8-58 to 9-7-59; 10 learners (robes, shorts, capri pants, blouses).

Blue Bell, Inc., Ada, Okla.; effective 9-9-58 to 9-8-59; 10 learners (men's and boys' dungarees).

Jomar Manufacturing Co., 105 North 8th Street, Allentown, Pa.; effective 9-6-58 to 9-5-59; 4 learners (ladies' blouses).

Schoolhouse Togs, Inc., Rockport, Maine; effective 9-8-58 to 4-24-59; 10 learners (replacement certificate) (children's blouses).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Fairfield Manufacturing Co., Inc., Winnsboro, S. C.; effective 9-8-58 to 3-7-59; 30 learners (women's cotton dresses).

Roydon Wear, Inc., Oak Street, McRae, Ga.; effective 9-8-58 to 3-7-59; 30 learners (men's and boys' outerwear, trousers and shorts).

Stanley Manufacturing Co., Manila, Ark.; effective 9-8-58 to 3-7-59; 25 learners (women's and children's slacks).

Styl-Mac, Inc., Southerland Avenue, Monroe, N. C.; effective 9-6-58 to 3-5-59; 54 learners (boys' cotton pants).

Cigar Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.80 to 522.85, as amended).

General Cigar Co., Inc., White Owl Avenue and Robert Burns Drive, Mahanoy City, Pa.; effective 9-8-58 to 3-7-59; 75 learners for plant expansion purposes in the occupations of: (1) Cigar machine operator, and packer (cigars retailing for more than 6 cents), 320 hours each; and (2) packer (cigars retailing for 6 cents or less), and machine stripper, 160 hours each. All at 85 cents an hour.

General Cigar Co., Inc., White Owl and Robert Burns Drive, Mahanoy City, Pa.; effective 9-14-58 to 9-13-59; 10 percent of total number of factory production workers for normal labor turnover purposes in the occupations of: (1) Cigar machine operator, and packer (cigars retailing for more than 6 cents), 320 hours each; and (2) packers (cigars retailing for 6 cents or less), and machine stripper, 160 hours each. All at 85 cents an hour.

Glove Industry Learner Regulations, (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.60 to 522.65, as amended).

Burnham-Edina Manufacturing Co., Edina, Mo.; effective 9-8-58 to 9-7-59; 5 learners for normal labor turnover purposes (leather-palm work gloves).

Hosiery Industry Learner Regulations, (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.40 to 522.43, as amended).

Alamance Hosiery Mills, Inc., Burlington, N. C.; effective 9-12-58 to 9-11-59; 5 percent of the total number of factory production workers for normal labor turnover purposes (seamless).

Ellen Knitting Mills, Inc., Spruce Pine, N. C.; effective 9-9-58 to 3-8-59; 10 learners for plant expansion purposes (seamless).

Kayser-Roth Hosiery Co., Inc., Duke Division, Hickory, N. C.; effective 9-8-58 to 9-7-59; 5 percent of the total number of factory production workers for normal labor turnover purposes (finishing hosiery only, consisting of dyeing, boarding, pairing, transfer, etc.) (seamless).

Pickett Hosiery Mills, Inc., 258 Trade Street, Burlington, N. C.; effective 9-6-58 to 9-5-59; 5 learners for normal labor turnover purposes (seamless).

Shoe Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.50 to 522.55, as amended).

Sham-O-Kin Shoe Corp., Franklin Street, Shamokin, Pa.; effective 9-20-58 to 9-19-59; 10 percent of the total number of factory production workers for normal labor turnover purposes.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.11, as amended).

Harrisburg Manufacturing Co., 43 South Main Street, Harrisburg, Ill.; effective 9-8-58 to 3-7-59; 5 percent of the total number of factory production workers for normal labor turnover purposes in the occupation of sewing machine operator, for a learning period of 240 hours, at the rate of 90 cents an hour (caps).

B. H. Wilson Fisheries, Battery Street, Eastport, Maine; effective 9-8-58 to 3-7-59; 6 learners for normal labor turnover purposes in the occupation of sardine packer, for a learning period of 160 hours at the rates of 85 cents an hour for the first 80 hours and not less than 90 cents an hour for the remaining 80 hours (sardine canning).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), and Part 527 of the regulations issued thereunder (29 CFR Part 527) special certificates authorizing the employment of student-workers at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. Effective and expiration dates, occupations, wage

rates, number or proportion of student-workers as learners, and learning periods for the certificates issued under Part 527 are as indicated below.

Regulations Applicable to the Employment of Student-Workers (29 CFR 527.1 to 527.9).

Indiana Academy, Cicero, Ind.; effective 9-1-58 to 8-31-59; authorizing the employment of 40 student-workers in the furniture industry in the occupations of woodworking machine operator, assembler, furniture finisher helper, and related skilled and semiskilled occupations, for a learning period of 600 hours each, at the rates of 85 cents an hour for the first 300 hours and 90 cents an hour for the second 300 hours (replacement certificate).

Maplewood Academy, Hutchinson, Minn.; effective 9-2-58 to 8-31-59; authorizing the employment of: (1) 31 student-workers in the bookbindery industry in the occupations of bookbinder, bindery worker, and related skilled and semiskilled occupations, each for a learning period of 600 hours at rates of 85 cents an hour for the first 300 hours and 90 cents an hour for the second 300 hours; and (2) 25 student-workers in the woodworking furniture industry in the occupations of woodworking machine operator, assembler, finisher, and related skilled and semiskilled occupations, each for a learning period of 600 hours at rates of 85 cents an hour for the first 300 hours and 90 cents an hour for the second 300 hours.

Ozark Academy, Gentry, Ark.; effective 9-2-58 to 8-31-59; authorizing the employment of: (1) 2 student-workers in the venetian blind manufacturing industry in the occupations of rail cutter, machine operator, spray painter, slat cord and tape cutter and assembler, and related skilled and semiskilled operations, for a learning period of 400 hours at rates of 85 cents an hour for the first 200 hours and 90 cents an hour for the second 200 hours; and (2) 12 student-workers in broom making industry, in the occupations of broommaker, stitcher, sorter, winder, painter, and related skilled and semiskilled occupations each for a learning period of 360 hours at rates of 85 cents an hour for the first 180 hours and 90 cents an hour for the second 180 hours.

Southern Missionary College, Collegedale, Tenn.; effective 9-1-58 to 8-31-59; authorizing the employment of: (1) 42 student-workers in the print shop in the occupations of compositor, pressman, bookbinder, and related skilled and semiskilled occupations including incidental clerical work, each for a learning period of 1,000 hours at rates of 85 cents an hour for the first 500 hours and 90 cents an hour for the second 500 hours; (2) 55 student-workers in broom making industry in occupations of broommaker, stitcher, winder, sorter, and related skilled and semiskilled occupations, each for a learning period of 360 hours at rates of 85 cents an hour for the first 180 hours and 90 cents an hour for the second 180 hours; and (3) 20 student-workers in clerical occupations of typist, stenographer, and related skilled and semiskilled occupations, each for a learning period of 480 hours at rates of 85 cents an hour for the first 240 hours and 90 cents an hour for the second 240 hours.

Union College, Lincoln, Nebr.; effective 9-2-58 to 8-31-59; authorized the employment of: (1) 6 student-workers in the print shop in occupations of compositor, pressman, and related skilled and semiskilled occupations each for a learning period of 1,000 hours at rates of 85 cents an hour for the first 500 hours and 90 cents an hour for the second 500 hours; (2) 10 student-workers in the bookbindery industry in the occupations of bookbinder, bindery worker, and related skilled and semiskilled occupations each for a learning period of 600 hours at rates of 85 cents an hour for the first 300 hours and 90 cents an hour for the second 300 hours; (3) 5 student-workers in the broom making industry, in the occupations of broom maker, stitcher, and related skilled and semiskilled occupations each for a learning period of 360 hours at rates of 85 cents an hour for the first 180 hours and 90 cents an hour for the second 180 hours; (4) 30 student-workers in the furniture industry in the occupations of woodworking machines operator, assembler, finisher, and related skilled and semiskilled occupations, each for a learning period of 600 hours at rates of 85 cents an hour for the first 300 hours and 90 cents an hour for the second 300 hours; (5) 5 student-workers in clerical occupations of bookkeeper, business machines operator, and related skilled and semiskilled occupations, each for a learning period of 480 hours at rates of 240 hours at 85 cents an hour and 240 hours at 90 cents an hour.

These student-worker certificates were issued upon the applicant's representations and supporting material fulfilling the statutory requirements for the issuance of such certificates, as interpreted and applied by Part 527.

Signed at Washington, D. C., this 12th day of September 1958.

MILTON BROOKE,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 26]

MOTOR CARRIER TRANSFER PROCEEDINGS

SEPTEMBER 17, 1958.

Synopses of orders entered pursuant to section 212 (b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 60954. By order of September 12, 1958, The Transfer Board approved the transfer to Joseph Ribaul Transfer Co., Inc., Gretna, La., of Certificate No. MC 16741, issued March 24, 1954, to Mary D. Ribaul, doing business as Joseph Ribaul, Gretna, La., authorizing the transportation of general commodities, excluding household goods and other specified commodities, between points within seven miles of New Orleans, La., including New Orleans. Joseph Ribaul, Jr., 714 Fourth St., Gretna, La., for applicants.

No. MC-FC 61179. By order of September 12, 1958, The Transfer Board approved the transfer to Flanagan Bus Lines, Inc., Gardner, Mass., of Certificate No. MC 90827, issued February 21, 1941, to Thomas V. Flanagan and Michael J. Marnane, a partnership, doing business as Flanagan's Bus Lines, Gardner, Mass., authorizing the transportation of Passengers and their baggage, in charter service, over irregular routes, from Gardner, Mass., and points in Massachusetts within 25 miles of Gardner, to Thompson, Conn., and points in New Hampshire and Rhode Island, and return; and, from Fitzwilliam, New Hampshire to points in Massachusetts, and return. Wand, Bird and Donovan, 410 Main Street, Fitchburg, Mass., for applicants.

No. MC-FC 61413. By order of September 12, 1958, The Transfer Board approved the transfer to Floyd Grage, Manilla, Iowa, of Certificates Nos. MC 9551 and MC 9551 Sub 1, issued June 12, 1941 and August 31, 1950, respectively, to William A. Boyens, Denison, Iowa, authorizing the transportation of *Livestock* and *agricultural commodities*, over regular routes, between Denison, Iowa, and Omaha, Nebr., *Livestock, building, materials*, and *feed*, from Omaha, Nebr. to Denison, Iowa. *Livestock*, over regular routes, between Manilla, Iowa and Omaha, Neb., and *General commodities*, excluding household goods and other specified commodities, over regular routes, from Omaha, Nebr., to Manilla, Iowa.

No. MC-FC 61479. By order of September 12, 1958, The Transfer Board approved the transfer to R. E. Eidsvold and R. H. Eidsvold, a Partnership, doing business as Dawn Moving and Storage Company, Minneapolis, Minnesota, of Certificate No. MC 10240, issued November 10, 1943, to Manhardt Storage Co., a Corporation, Milwaukee, Wisconsin, authorizing the transportation of household goods, between points in Wisconsin, and between points in Wisconsin, on the one hand, and, on the other, points in Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, New York, Ohio, and Pennsylvania. Perry R. Moore, 1100 First National-Soo Line Building, Minneapolis 2, Minnesota, for applicants.

No. MC-FC 61509. By order of September 12, 1958, The Transfer Board approved the transfer to Fred Lee, doing business as La Cygne Truck Line, La Cygne, Kansas, of Certificates Nos. MC 29611 and MC 29611 Sub 1, issued June 23, 1941, and November 1, 1946, respectively, to George L. Harper, authorizing the transportation of *livestock*, and *general commodities*, excluding household goods and other specified commodities, between La Cygne, Kans., and Kansas City, Mo. Henry Vess, Agent, Western Tariff Services, Inc., 216 East 10th Street, Kansas City 6, Missouri, for applicants.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 25—FEDERAL EMPLOYEES PAY REGULATIONS

PART 30—ANNUAL AND SICK LEAVE REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Effective October 23, 1958, paragraphs (d) (6) and (e) (1) of § 25.11 are amended as set out below.

§ 25.11 *Definitions.* • • •

(d) • • •

(6) The period between (i) an individual's separation from active military duty (or hospitalization continuing thereafter as provided by law) and the date of restoration in accordance with his right of restoration; and (ii) the date of termination of employment of an employee and his reemployment under the mandatory provisions of any law, regulation, or Executive order.

(e) • • •

(1) Any increase in compensation granted by law after June 30, 1951;

2. Section 25.51, and paragraphs (b), (c), and (d) of § 25.52 are amended as set out below.

§ 25.51 *Scope.* Sections 25.51 to 25.54 apply to all officers and employees in or under the departments as defined in section 201 (a) of the Classification Act of 1949, as amended, subject to the exemptions specified in sections 202, 204, and 705 of that Act, in positions not above grade 15 of the General Schedule, who meet all of the conditions of eligibility for longevity step increases.

§ 25.52 *Definitions.* • • •

(b) "Longevity step increase" is a step increase above the maximum scheduled rate of the grade equal to a full step of the grade (except that the longevity step rate for grade GS–15 is the same as for grade GS–14), or an increase in an amount required to complete a full longevity step where the employee's existing rate of basic compensation is not a standard maximum or longevity rate for the grade in which the employee's position is placed.

(c) "Aggregate period" is a total of ten years in the present position, or in the present grade and equivalent or higher grades, of civilian service, including intervening military service which has interrupted civilian service, and excluding all periods of separation from the service and any unpaid absence in excess of 26 workweeks in any calendar year. For the purpose of this definition, an equivalent or higher grade under the Classification Act of 1949, as amended, shall be determined by the following table:

CPC-1, CPC-2, CPC-3	equivalent to GS–1	equivalent to SP-1, SP-2, CAF-1
CPC–4	equivalent to GS–2	equivalent to CAF–2, SP–3
CPC–5	equivalent to GS–3	equivalent to CAF–3, SP–4
CPC–6	equivalent to GS–4	equivalent to CAF–4, SP–5
CPC–7	equivalent to GS–5	equivalent to CAF–5, SP–6, P–1
CPC–8	equivalent to GS–6	equivalent to CAF–6, SP–7
CPC–9	equivalent to GS–7	equivalent to CAF–7, SP–8, P–2
CPC–10	equivalent to GS–8	equivalent to CAF–8
	GS–9	equivalent to CAF–9, P–3
	GS–10	equivalent to CAF–10
	GS–11	equivalent to CAF–11, P–4
	GS–12	equivalent to CAF–12, P–5
	GS–13	equivalent to CAF–13, P–6
	GS–14	equivalent to CAF–14, P–7
	GS–15	equivalent to CAF–15, P–8

Civilian service paid under authority other than the Classification Act of 1923, as amended, or the Classification Act of 1949, as amended, shall be deemed to be equivalent to the highest grade in the foregoing table in which the basic rate for such service would have been included at the time of such service.

(d) "Longevity period" is three years, of the aggregate period, of continuous service in a Classification Act position: (1) At the maximum scheduled rate of the employee's grade; or (2) at a longevity rate of the employee's grade; or (3) at a rate in excess of such maximum scheduled rate in accordance with a provision of law; or (4) at any of the rates specified in subparagraphs (1), (2), or (3) of this paragraph, in a grade higher

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

than his current grade. Intervening military service interrupting continuous service at one of the above rates is creditable for longevity step increases. A change of grade or rate of basic compensation prescribed by any law of general application does not begin a new longevity period. Any period of creditable service in excess of one or two complete longevity periods (except as otherwise provided in § 25.54 (c)), shall be credited toward the completion of the employee's next longevity step period. A new longevity period begins after a break in service in excess of four workweeks. The longevity period shall be extended for a sufficient amount of paid service to make up unpaid absences in excess of a total of six workweeks during such period.

3. Effective January 1, 1958, paragraphs (a) and (j) of § 25.102 are amended as set out below.

§ 25.102 *Definitions.* • • •

(a) "New appointment" is the first appointment, regardless of the tenure of appointment, as a Federal civilian officer or employee.

• • • • • •

(j) "Highest previous rate" is the highest basic salary rate previously paid to a Federal civilian employee occupying a position in any branch of the Federal Government (executive, legislative, or judicial), or in the municipal government of the District of Columbia, or in a mixed ownership corporation, irrespective of whether or not such position is subject to the pay schedules of the Classification Act The highest previous rate must be based on a regular tour of duty at such rate (1) under an appointment not limited to 90 days or less, or (2) for a continuous period of 90 days under one or more appointments without a break in service. If such highest previous rate was earned in a Classification Act position, it shall be increased by any subsequent amendments to the Classification Act pay schedules. If such highest previous rate was earned in a position not subject to the Classification Act it shall be increased only by those amendments to the Classification Act or other applicable statutory amendments which were enacted during a period when the employee was not in civilian service as described above.

(Sec. 1101, 63 Stat. 971; 5 U. S. C. 1072)

4. Effective on the first day of the first pay period which began on or after June 20, 1958, paragraph (b) of § 25.204 and paragraph (d) (3) of § 25.223 are amended as follows:

§ 25.204 *General pay computation method.* • • •

(b) Whenever, for the purposes of computing overtime, holiday, or night pay or additional pay on an annual basis under this subpart, it is necessary to convert a basic annual rate to a basic biweekly, weekly, daily, or hourly basic rate, the following rules shall govern:

(1) An hourly rate shall be derived by dividing the annual rate by two thousand and eighty;

(2) A daily rate shall be derived by multiplying the hourly rate by the number of daily hours of service required; and

(3) A weekly or biweekly rate shall be derived by multiplying the hourly rate by forty or eighty as the case may be.

(4) All rates shall be computed in full cents, counting a fraction of a cent as the next higher cent.

§ 25.223 *Computation of overtime compensation.* • • •

(d) • • •

(3) All rates shall be computed in full cents, counting a fraction of a cent as the next higher cent.

5. Effective on the first day of the first pay period which began on or after January 1, 1958, paragraph (h) of § 25.274 is amended as set out below.

§ 25.274 *Construction and computation of existing aggregate rates.* • • •

(h) An employee entitled to an existing aggregate rate shall have his "saved rate" increased by any pay increase authorized by law in an amount equal to the difference between the former top longevity rate and the current top longevity rate for his grade.

(Sec. 605, 59 Stat. 304; 5 U. S. C. 945)

6. Effective October 23, 1958, § 30.704 is amended as set out below.

§ 30.704 *Reestablishment of leave account as a credit or charge.* Any employee who leaves his civilian position to enter the military service shall have his existing leave account certified for credit or charge and such leave account shall be reestablished as a credit or charge when:

(a) He is restored in accordance with his right of restoration to his civilian position after separation from active military duty or hospitalization continuing thereafter as provided by law; or in accordance with the mandatory provisions of any statute, regulation, or Executive order; or

(b) He is reemployed in a position under the Act not later than 52 continuous calendar weeks after separation from active military duty.

(Sec. 206, 65 Stat. 681; 5 U. S. C. 2085)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter D—Soil and Water Conservation Loans

[FHA Instruction 442.1]

PART 351—POLICIES AND AUTHORITIES

SECURITY REQUIREMENTS FOR LOANS TO ASSOCIATIONS

Section 351.3 (f) (3) of Title 6, Code of Federal Regulations (20 F. R. 1966), is hereby amended to make it the responsibility of the applicant to obtain releases, consents, and subordinations to easements and rights-of-way across private lands as it deems necessary for the construction, operation, and maintenance of the facility, and to read as follows:

§ 351.3 *Loans to associations.* • • •

(f) *Security requirements.* • • •

(3) A lien will be taken on the interest of the applicant in all easements, rights-of-way, and water rights used in connection with the facility. In some instances, such easements or rights-of-

way will involve private lands, and will not be derived pursuant to State statutes authorizing the installation of facilities across lands of other owners. In such cases, it will be the responsibility of the borrower to obtain and record such releases, consents or subordinations to easements and rights-of-way from holders of outstanding liens as it determines, with the advice of its attorney, are necessary for the construction, operations, and maintenance of the facility on the right-of-way. However, when easements only are obtainable on sites for structures such as reservoirs and pumping stations, releases, consents, or subordinations may be required by the Farmers Home Administration. The mortgage will provide for the applicant to pay from its own funds any excess installation costs resulting from a failure to obtain adequate land, rights-of-way, or subordinations.

(R. S. 161, sec. 6, 50 Stat. 870, sec. 10, 68 Stat. 736; 5 U. S. C. 22, 16 U. S. C. 590w, 590x–3)

Dated: September 17, 1958.

[SEAL] H. C. SMITH,
Acting Administrator,
Farmers Home Administration.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

PART 83—SCREWWORMS

Pursuant to sections 1 and 2 of the Act of February 2, 1903, 32 Stat. 791, 792, as amended, and sections 4–7 of the Act of May 29, 1884, 23 Stat. 32, as amended (21 U. S. C. 111–113, 115, 117, 120), provisions to appear in a new Part 83, designated "Screwworms" in Title 9 of the Code of Federal Regulations, are hereby issued to read as follows:

Sec.
83.1 Definitions.
83.2 Notice relating to existence of screwworms.
83.3 Notice of regulation.
83.4 Interstate movements of affected livestock.
83.5 Cleaning and treatment of means of conveyance, facilities and premises; litter and manure.
83.6 Interstate movement of livestock from certain areas of recurring infestation by road vehicle or on foot.
83.7 Interstate movement of livestock from certain areas of recurring infestation by railroad or water or air carrier.
83.8 Interstate movement of livestock from areas of seasonal infestation or northern part of Florida.
83.9 Certificates; forms and distribution.
83.10 Designation of inspection station.
83.11 Permitted precautionary spray; approved treatments.
83.12 Exceptions.
83.13 Responsibility for handling livestock.
83.14 Applicability of general provisions in Part 71 of this chapter.

AUTHORITY: §§ 83.1 to 83.14 issued under sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 111. Interpret or apply secs. 4, 5, 6, 7, 23 Stat. 32, as amended; 21 U. S. C. 112, 113, 115, 117, 120.

§ 83.1 *Definitions.* As used in this part the following terms shall have the meanings set forth in this section:

(a) *Screwworms.* The communicable disease (myiasis) of livestock caused by the presence of the screwworm, Callitroga hominivorax.

(b) *Livestock.* Cattle, sheep, swine, goats, horses, mules, burros, or other livestock.

(c) *Director.* The Director of the Animal Disease Eradication Division, Agricultural Research Service, of the United States Department of Agriculture, or any other official of the Division to whom authority has heretofore been delegated or may hereafter be delegated to act in his stead.

(d) *Federal Inspector.* An inspector of the Agricultural Research Service of the United States Department of Agriculture responsible for the function involved or a State employee appointed by the Department as a collaborator to perform the function involved.

(e) *Accredited veterinarian.* A veterinarian approved by the United States Department of Agriculture to perform the functions involved.

(f) *Person.* Any person, company, or corporation.

(g) *State.* Any State, the District of Columbia, or Puerto Rico.

(h) *Interstate.* From one State into or through any other State or Territory.

(i) *Area of recurring infestation.* The States designated as such in §83.2 where screwworms usually exist throughout the year or where screwworms usually exist each year from May 1 through October 31.

(j) *Area of seasonal infestation.* The States designated as such in § 83.2 in which there is reason to believe screwworms may exist each year from May 1 through October 31.

(k) *Eradication area.* Alabama, Florida, Georgia, Mississippi, and South Carolina.

(l) *Florida quarantine line.* A line established by the State of Florida to separate areas quarantined by the State from non-quarantined areas lying to the north, such line beginning on the west coast of Florida at the mouth and on the north side of the Withlacoochee River and extending east along said river to U. S. Highway 19, then north along said highway to the intersection of that highway and State Highway 40 at Inglis, then east along said Highway 40 to the Town of Ocala and along its town limits so as to place all of the town south of the line, then east along State Highway 40 through the Town of New Smyrna Beach to the end of said Highway on the east coast of Florida east of the Indian River, then north to Ponce de Leon inlet.

(m) *Northern part of Florida.* That part of Florida north of the Florida quarantine line.

(n) *Southern part of Florida.* That part of Florida south of the Florida quarantine line.

(o) *Moved.* Shipped, transported or otherwise moved, or delivered or received for movement, by any person, via land, water, or air.

(p) *Permitted precautionary spray.* Any spray or other pesticide listed in § 83.11 or otherwise permitted by the Director in specific cases for use under the regulations in this part.

(q) *Approved treatment.* Any wound treatment listed in § 83.11 or otherwise permitted by the Director in specific cases for use under the regulations in this part.

(r) *Federally inspected slaughtering establishment.* Any establishment where slaughtering operations are conducted under Federal meat inspection pursuant to the Meat Inspection Act of March 4, 1907, as amended and extended (21 U. S. C. 71–96).

§ 83.2 *Notice relating to existence of screwworms.* Notice is hereby given that screwworms usually exist in Florida, Louisiana, Texas, and Puerto Rico throughout the year and usually exist in Arkansas during the period May 1 through October 31, both inclusive, of each year, and said areas are hereby designated as areas of recurring infestation. Notice is also hereby given that there is reason to believe that screwworms may exist in all other States of the United States during the period May 1 through October 31, both inclusive, of each year, and such States are hereby designated as areas of seasonal infestation.

§ 83.3 *Notice of regulation.* Notice is hereby given that in order to effectually suppress and extirpate screwworms, to prevent the spread and dissemination of the contagion thereof, and to protect the livestock of the United States, the regulations in this part or promulgated to govern the interstate movement of livestock from areas of recurring infestation and areas of seasonal infestation.

§ 83.4 *Interstate movements of affected livestock.* No livestock affected with, or carrying the contagion of, screwworms shall be moved interstate for any purpose.

§ 83.5 *Cleaning and treatment of means of conveyance, facilities and premises; litter and manure.* (a) (1) Railroad cars, trucks, boats, aircraft, and other vehicles used in connection with the interstate movement of any livestock affected with, or carrying the contagion of, screwworms shall be thoroughly cleaned and treated in accordance with this paragraph immediately after the livestock are unloaded at destination and at each point enroute where the livestock are transferred to another means of conveyance; if the carrier has been given notice from the United States Department of Agriculture or is otherwise on notice that the livestock are so affected or carry such contagion. Otherwise the boat, aircraft, or vehicle shall be so cleaned and treated immediately upon receipt of such notice and wherever it is then located, except that if the boat, aircraft, or vehicle is in transit at the time such notice is received such cleaning and treatment may be postponed until such means of conveyance arrives at its next destination, where it shall be immediately cleaned and treated in accordance with this paragraph. Compliance with this paragraph shall be the responsibility of the carrier having custody of the means of conveyance at the time that cleaning and treatment is required.

(2) Except as provided in subparagraph (1) of this paragraph, no person, knowing that a railroad car, truck, boat, aircraft, or other vehicle has contained any livestock affected with, or carrying the contagion of, screwworms shall move such boat, aircraft, or vehicle interstate for any purpose until it has been thoroughly cleaned and treated in accordance with this paragraph.

(3) Yards, pens, chutes, alleys, and other facilities and premises which have been used in connection with interstate shipments of any livestock affected with, or carrying the contagion of, screwworms shall be thoroughly cleaned and treated in accordance with this paragraph immediately after such use. Compliance with this requirement shall be the responsibility of the person in possession of such premises or facilities.

(4) All cleaning and treatment required by this paragraph shall be conducted under supervision of a Federal inspector, and shall be conducted in accordance with § 71.9 of this chapter except that all litter and manure removed from any means of conveyance, facilities or premises shall be handled in such a manner as is required by the inspector to insure the destruction of screwworms (in any stage of the life cycle) that might be contained therein; and instead of a permitted disinfectant, dieldrin or heptachlor shall be used in accordance with directions given by the Federal inspector to carry out the purposes of this part; and it shall not be necessary to treat the surfaces of fencing or troughs. Aircraft shall be subject to the same requirements as are applicable to boats, and all other vehicles shall be subject to the same requirements as are applicable to cars under this paragraph and § 71.9 of this chapter.

(b) Whenever any livestock are inspected at an inspection station or other place under § 83.6 or § 83.7 (a) or (b), all straw and other litter in the railroad car, truck, boat, aircraft, or other vehicle, used in connection with the movement of the livestock to such station or other place shall be thoroughly saturated with dieldrin, heptachlor or Bayer 21/199 under the supervision of the Federal inspector. No person, knowing that a railroad car, truck, boat, aircraft, or other vehicle, is one in which such livestock were moved to such an inspection station or other place under this part, shall move such means of conveyance interstate until all litter therein has been treated as required by this paragraph.

§ 83.6 *Interstate movement of livestock from certain areas of recurring infestation by road vehicle or on foot.* Except as authorized under § 83.12, no livestock shall be moved by road vehicle or on foot, interstate, into or through any part of the eradication area from Louisiana or Texas, or the southern part of Florida at any time, or from Arkansas during the period May 1 to October 31, both inclusive, of any year, unless:

(a) Such livestock have been inspected by a Federal inspector at an appropriate inspection station designated in § 83.10; have been found upon such inspection to be free of any evidence of screwworms; then have been thoroughly treated with a permitted precautionary spray under the supervision of the inspector at such inspection station; and have been certified by the inspector in accordance with § 83.9 (a) and are accompanied to destination by such certificate; or

(b) Such livestock are being moved, for immediate slaughter, to a federally inspected slaughtering establishment or to a slaughtering establishment specifically approved in § 78.15 (b) of this chapter; have been inspected by a Federal inspector at an appropriate inspection station designated in § 83.10; have been found upon such inspection to be free of any evidence of screwworms; any wounds of the livestock have been given an approved treatment under the supervision of the inspector at such station; and the livestock have been certified by the inspector in accordance with § 83.9 (b) and are accompanied to destination by such certificate; or

(c) Such livestock are lactating cows or goats for dairy purposes or any livestock under two weeks of age; have been inspected by a Federal inspector at an appropriate inspection station designated in § 83.10; have been found upon such inspection to be free of any evidence of screwworms; any wounds of the livestock have been given an approved treatment under the supervision of the inspector at such station; and the livestock have been certified by the inspector in accordance with § 83.9 (c) and are accompanied to destination by such certificate.

§ 83.7 *Interstate movement of livestock from certain areas of recurring infestation by railroad or water or air carrier.* (a) Except as authorized under § 83.12, no livestock shall be moved by railroad, interstate, into or through any part of the eradication area from Louisiana or Texas at any time, or from Arkansas during the period May 1 to October 31, both inclusive, of any year, unless: (1) Such livestock have been unloaded at a feed-water-and-rest station at Baton Rouge, Louisiana, or a public stockyard, designated in § 78.14 of this chapter, at New Orleans, Louisiana, or Memphis, Tennessee, where in either case Federal inspection is made available, or are moved to such a station in Vicksburg, Mississippi, from Louisiana by the shortest possible route; are inspected by a Federal inspector at such station or stockyard and found upon such inspection to be free of any evidence of screwworms; then are thoroughly treated at such station or stockyard with a permitted precautionary spray under the supervision of the inspector; and are certified by the inspector in accordance with § 83.9 (a) and are accompanied to destination by such certificate; or

(2) Such livestock are being moved, for immediate slaughter, to a federally inspected slaughtering establishment or to a slaughtering establishment specifically approved in § 78.15 (b) of this chapter; are moved to and unloaded and inspected at a feed-water-and-rest station or a public stockyard as provided in subparagraph (1) of this paragraph and found upon such inspection to be free of any evidence of screwworms; any wounds of the livestock are given an approved treatment under the supervision of the ispector at such station or stockyard; and the livestock are certified by the inspector in accordance with § 83.9 (b) and are accompanied to destination by such certificate; or

(3) Such livestock are lactating cows or goats for dairy purposes or any livestock under two weeks of age; are moved to and unloaded and inspected at a feed-water-and-rest station or a public stockyard as provided in subparagraph (1) of this paragraph and found upon such inspection to be free of any evidence of screwworms; any wounds of the livestock are given an approved treatment under the supervision of the inspector at such station or stockyard; and the livestock are certified by the inspector in accordance with § 83.9 (c) and are accompanied to destination by such certificate.

(b) Except as authorized under § 83.12, no livestock shall be moved by railroad or water or air carrier, interstate, into or through any part of the eradication area from the southern part of Florida at any time, unless prior to loading at the point of origin of the shipment such livestock have been inspected by a Federal inspector; have been found upon such inspection to be free of any evidence of screwworms; then have been thoroughly treated with a permitted precautionary spray under the supervision of the inspector; and have been certified by the inspector in accordance with § 83.9 (a) and are accompanied to destination by such certificate, except that (1) livestock being moved, for immediate slaughter, to a federally inspected slaughtering establishment or to a slaughtering establishment specifically approved in § 78.15 (b) of this chapter, and (2) lactating cows and goats for dairy purposes and any livestock under two weeks of age shall not be treated with the permitted precautionary spray but any wounds of such livestock shall be given an approved treatment under the supervision of the inspector and the livestock shall be certified by the inspector in accordance with § 83.9 (b) or (c), respectively.

(c) Except as authorized under § 83.12, no livestock shall be moved by water or air carrier, interstate, into or through any part of the eradication area from Louisiana, Texas or Puerto Rico at any time, or from Arkansas during the period May 1 to October 31, both inclusive, of any year, unless such livestock have been inspected by a Federal inspector or an accredited veterinarian within 36 hours prior to loading at the point of origin of the shipment; have been found upon such inspection to be free of any evidence of screwworms; any wounds of the livestock have been given an approved treatment under the supervision of the inspector; and the livestock have

been certified by the inspector in accordance with § 83.9 (d) and are accompanied to destination by such certificate.

§ 83.8 *Interstate movement of livestock from areas of seasonal infestation or northern part of Florida.* (a) Except as provided in paragraph (b), (c), or (d) of this section or under § 83.12, no livestock shall be moved by road vehicle, or on foot, or by railroad or water or air carrier, interstate, into or through any part of the eradication area from any of the areas of seasonal infestation outside the eradication area, during the period May 1 to October 31, both inclusive, of any year, or from the northern part of Florida at any time, unless such livestock have been inspected by a Federal inspector or an accredited veterinarian and found to be free of any evidence of screwworms within 36 hours prior to loading for such movement and have been certified by the inspector or veterinarian in accordance with § 83.9 (d) and the certificate accompanies the livestock to destination.

(b) Except as provided in pragraphs (c) and (d) of this section, livestock originating in North Carolina or Tennessee may be moved interstate into Mississippi, Alabama, Georgia, or South Carolina from North Carolina or Tennessee during the period May 1 to October 31, both inclusive, of any year directly to a federally inspected slaughtering establishment or to a slaughtering establishment specifically approved in § 78.15 (b) of this chapter, for immediate slaughter, or to a federally inspected stockyard or a specifically approved stockyard listed in § 78.14 of this chapter, without inspection and certification as required by paragraph (a) of this section, if the livestock are accompanied to destination by a certificate signed by the consigner of the livestock stating: (1) The number, kind, breed, and sex of livestock covered by the certificate; (2) the destination of the livestock; (3) the purpose for which the livestock are moved interstate; (4) the point from which the livestock are moved interstate; (5) the names and addresses of the consignor and consignee; and that to the best knowledge of the consignor such livestock bear no evidence of screwworms. The movement during said period from such stockyards to other destinations of such livestock must comply with the provisions of this part the same as if the livestock had been originally consigned direct from the point of origin to such destination except that any inspection and certification required shall be performed at such stockyards.

(c) Except as provided in paragraph (d) of this section or § 83.12, no livestock shall be moved by road vehicle, or on foot, or by railroad, or otherwise, interstate, into or through any part of the eradication area from any public stockyard designated in § 78.14 (a) of this chapter, where Federal inspection is maintained, at Memphis, Tennessee, during the period May 1 to October 31, both inclusive, unless: (1) Such livestock have been inspected by a Federal inspector at the stockyard; have been found upon such inspection to be free of any evidence of screwworms; then have been thoroughly treated under the supervision of a Federal inspector with a permitted precautionary spray at the stockyard; and have been certified by the Federal inspector in accordance with § 83.9 (a) and are accompanied to destination by such certificate, or (2) such livestock are being moved, for immediate slaughter, to a federally inspected slaughtering establishment or to a slaughtering establishment specifically approved in § 78.15 (b) of this chapter, have been inspected by a Federal inspector at such stockyard; have been found upon such inspection to be free of any evidence of screwworms; any wounds on the livestock have been given an approved treatment under the supervision of the inspeotor at such stockyard; and the livestock have been certified by the inspector in accordance with § 83.9 (b) and are accompanied to destination by such certificate; or (3) such livestock are lactating cows or goats for dairy purposes or any livestock under two weeks of age; have been inspected by a Federal inspector at the stockyard; have been found upon such inspection to be free of any evidence of screwworms; any wounds of the livestock have been given an approved treatment under the supervision of the inspector at such stockyard; and the livestock have been certified by the inspector in accordance with § 83.9 (c) and are accompanied to destination by such certificate.

(d) Any livestock being moved interstate from any of the areas of seasonal infestation through any of the areas of recurring infestation, except the northern part of Florida, in transit into or through any part of the eradication area, shall be deemed to be moving from such area of recurring infestation when they depart from it and shall be subject to the requirements of § 83.6 or § 83.7, instead of this section, unless they are moved through such area of recurring infestation wholly via air carrier, in which case they shall be subject to the applicable requirements of paragraph (a), (b), or (c) of this section.

§ 83.9 *Certificates; forms and distribution.* (a) When a lot of livestock has been inspected and found to be free of any evidence of screwworms and has been thoroughly treated with a permitted precautionary spray at an inspection station or other place in accordance with § 83.6 (a), § 83.7 (a) (1) or (b), § 83.8 (c) (1), or § 83.12 (a), the inspector may issue a certificate, in quadruplicate, reciting such facts, identifying the lot by number of livestock, kind, breed, and sex, and giving the date of inspection and treatment, the names and addresses of the consignor and consignee, and the point of origin and destination of the shipment.

(b) When a lot of livestock, to be moved under this part, for immediate slaughter, to a federally inspected slaughtering establishment or a slaughtering establishment specifically approved in § 78.15 (b) of this chapter, has been inspected and found free of any evidence of screwworms and treated at an inspection station or other place in accordance with § 83.6 (b), § 83.7 (a) (2) or (b), § 83.8 (c) (2), or § 83.12 (a), the inspector may issue a certificate in quadruplicate, reciting that the lot has been so inspected and found free of any evidence of screwworms and treated, identifying the lot by number of livestock, kind, breed, and sex, and giving the date of inspection, the names and addresses of the consignor and consignee, and the point of origin and destination of the shipment.

(c) When a lot of lactating cows or goats for dairy purposes or any livestock under two weeks of age has been inspected and found free of any evidence of screwworms and treated at an inspection station or other place in accordance with § 83.6 (c), § 83.7 (a) (3) or (b), § 83.8 (c) (3), or § 83.12 (a), the inspector may issue a certificate, in quadruplicate, reciting that the lot has been so inspected and found free of any evidence of screwworms and treated, identifying the lot by number of livestock, kind, breed, and sex, and giving the date of inspection and treatment, the names and addresses of the consignor and consignee, and the point of origin and destination of the shipment.

(d) When a lot of livestock, to be moved from an area of seasonal infestation or the northern part of Florida under § 83.8 (a), or by water or air carrier from an area of recurring infestation under § 83.7 (c), has been inspected by a Federal inspector or an accredited veterinarian and found to be free of any evidence of screwworms, in accordance with said sections, such inspector or veterinarian may issue a certificate, in quadruplicate, reciting that the lot has been so inspected and found free of any evidence of screwworms, identifying the lot by number of livestock, kind, breed, and sex, and giving the date of inspection, the names and addresses of the consignor and consignee, and the point of origin and destination of shipment. In the case of livestock moved under § 83.7 (c), the certificate shall also state that any wounds on the livestock have been given an approved treatment under the supervision of the inspector.

(e) The certificate forms may specify such other information as is required by the Director to carry out the purposes of this part.

(f) The original of each certificate provided for in this section shall be furnished to the applicant therefor and shall accompany the lot of livestock covered by it to destination. The official issuing the certificate should send a copy thereof to the State veterinarian and to the Federal veterinarian in charge of animal disease eradiction activities in the State of destination and should also retain a copy in his own file until other disposal is authorized by the Director of the Animal Disease Eradication Division.

§ 83.10 *Designation of inspection station.* (a) the following places along the eastern boundaries of Arkansas and Louisiana, the Louisiana-Mississippi State line and the Arkansas-Tennessee State line, are designated as inspection stations under this part for livestock moving by road vehicle or on foot, interstate, from Louisiana, Texas, or Arkansas into or through any part of the eradication area:

(1) The premises of Flowers Pierini in Chicot County, Arkansas, on the south side of U. S. Highway 82, approximately ¾ mile west of the Mississippi River Bridge at Greenville.

(2) The premises of Claude H. Brady in Delta, Madison Parish, Louisiana, fronting on U. S. Highway 80 and Railroad Avenue.

(3) The premises of Lum Brothers Stockyards in front of Lum Brothers Auction Barn on U. S. Highway 65 24, approximately five miles west of Vidalia, Concordia Parish, Louisiana.

(4) The premises of Frank W. Bennett in Norwood, East Feliciana Parish, Louisiana, on the east side of State Highway 19, approximately two miles south of the Louisiana-Mississippi State line.

(5) The premises of David A. DeLee in East Feliciana Parish, Louisiana, on the east side of State Highway 67 on a high mound approximately 7/10 mile south of the Louisiana-Mississippi State line.

(6) The premises of Louis Klotzbach in Tangipahoa Parish, Louisiana, on the east side of U. S. Highway 51, approximately 95 feet south of the Louisiana-Mississippi State line, 30 feet from the establishment known as Coulon's Package Liquor Store.

(7) The premises of Jasper J. Warner, Sr., in Warnerton, Washington Parish, Louisiana, on the east side of State Highway 25, approximately 7/10 mile south of the Louisiana-Mississippi State line.

(8) The premises of Dr. John L. Pope near Bogalusa in Washington Parish, Louisiana, on the south side of State Highway 10, beginning approximately 180 feet west from the west end of the Pearl River Bridge.

(9) The premises of G. H. Williams and Jerry Stewart in the Eighth Ward of St. Tammany Parish, in Pearl River, Louisiana, on U. S. Highway 11, approximately 80 feet south of the establishment known as Stewart's Bar.

(10) The premises of Mrs. Lois Daws Bolian in St. Tammany Parish, Louisiana, on the southeast side of U. S. Highway 90, near the Junction of U. S. Highways 90 and 190.

(11) The premises of the Gulf, Mobile, and Ohio Railroad Company in Angie, Washington Parish, Louisiana, bordering State Highway 21 on the west and the Gulf, Mobile and Northern Railroad on the east, approximately 150 feet south of a cotton gin.

(12) The premises of C. B. Hamilton in West Feliciana Parish, Louisiana, on the east side of U. S. Highway 61, approximately ¼ mile south of the Louisiana-Mississippi State line.

(13) The premises of the South Memphis Stockyards, 465 West Trigg Avenue, Memphis, Tennessee, located approximately 1 mile south of the U. S. Route 64 Arkansas-Tennessee Bridge.

(b) The following place on the Florida quarantine line in Florida is designated as an inspection station under this part for livestock moving by road vehicle or on foot, interstate, from the southern part of Florida into or through any part of the eradication area: The premises of Mills Auction Market in Ocala, Florida. Any premises in Florida located south of the Florida quarantine line may, for the purpose of the regulations in this part, be considered an appropriate inspection station for inspection, treatment, and certification of livestock to be moved interstate from the southern part of Florida in accordance with the regulations, if the shipper makes arrangements with a Federal inspector for such procedure; and such inspectors may perform all functions necessary for such inspection, treatment, and certification.

§ 83.11 *Permitted precautionary spray; approved treatments.* (a) The Department has authorized the use of the following as a permitted precautionary spray under this part:

Bayer 21/199 (CO–RAL) used as a suspension spray at a concentration of 0.25 percent. This spray shall be used for purposes of this part in strict accordance with directions to carry out the purposes of this part, given by the Federal inspectors under whose supervision the spray is applied.

(b) The Department has authorized the application of "EQ 335" or "Smear 62" as an approved treatment for wounds of livestock under this part.

(c) Other sprays or pesticides or wound treatments may be permitted in specific cases by the Director when it is demonstrated to his satisfaction that they are effective in preventing the dissemination of screwworms.

§ 83.12 *Exceptions.* (a) When the Director finds that any auction market is located within 8 air miles of any inspection station designated in § 83.10 and has adequate facilities for inspection, treatment, and certification of livestock in accordance with the requirements of this Part, and the operator of such stockyard has entered into an agreement with the State in which the stockyard is located, for its operation in accordance with specified safeguards, acceptable to the Director, to prevent the spread of screwworms, the Director shall issue administrative instructions designating such market as an inspection facility, auxiliary to such inspection station, for purposes of this paragraph. Thereafter, livestock arriving at such inspection station under § 83.6 may, if the shipper so desires, be moved to such market on the day of, or preceding the day of, the sale at such market, under permit issued by the inspector at such station, for inspection, treatment, and certification under § 83.6 in lieu of inspection, treatment, and certification at such station.

(b) The requirements of §§ 83.6 and 83.7 for treatment with a permitted precautionary spray shall not apply to equines which are shown to be primarily used for exhibition purposes and the appearance of which clearly indicates daily grooming, but the inspection and certification requirements of said sections shall apply to such animals except as provided in this paragraph. If on inspection such animals are found to have any wounds, the wounds shall be given an approved treatment under the supervision of the inspector. Certificates issued under Section 83.9 for such animals shall indicate that they have not been given the spray treatment but that any wounds have been given an approved treatment.

(c) The Director, in specific cases in which, in his opinion, no risk of spread of screwworms exists, may authorize the movement of livestock not known to be affected with, or to carry the contagion of, screwworms, and vehicles, boats, and aircraft, otherwise prohibited by this part, under such conditions as he may require to carry out the purposes of this part.

§ 83.13 *Responsibility for handling livestock.* All unloading, reloading, and other handling of livestock at the inspection stations or other places for purposes of inspection, treatment, and certification under this part shall be the responsibility of the carrier transporting the animals to such place.

§ 83.14 *Applicability of general provisions in Part 71 of this chapter.* The provisions in Part 71 of this chapter shall be applicable with respect to the movement of livestock and cleaning and treatment of means of conveyance, facilities and premises to prevent the dissemination of screwworms only insofar as they are not in conflict with the provisions in this part.

The foregoing provisions are intended to prevent the interstate spread of screwworms and to facilitate a Federal-State program now in operation for the control and eradication of the disease. In order to accomplish their purposes they should be made effective as soon as possible. Therefore, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice of rule-making and other public procedure with respect to such provisions are impracticable and contrary to the public interest and good cause is found for making them effective less than 30 days after their publication in the FEDERAL REGISTER.

The foregoing provisions shall become effective upon publication in the FEDERAL REGISTER.

Done at Washington, D. C., this 18th day of September 1958.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 58–7774; Filed, Sept. 22, 1958; 8:54 a. m.]

PART 83—SCREWWORMS

ADMINISTRATIVE INSTRUCTIONS

Pursuant to sections 1 and 2 of the Act of February 2, 1903, 32 Stat. 791, 792, as amended, and sections 4–7 of the Act of May 29, 1884, 23 Stat. 32, as amended (21 U. S. C. 111–113, 115, 117, 120), and § 83.12 of the regulations thereunder in 9 CFR Part 83, administrative instructions to appear in 9 CFR 83.12a are hereby issued as follows:

§ 83.12a *Administrative instructions designating auxiliary inspection facilities.* In accordance with § 83.12, the Director has found that the auction markets listed below are within 8 air miles,

respectively, of the inspection stations listed below and otherwise qualify for designation as auxiliary inspection facilities.

Inspection stations	*Auction markets*
1. The premises of Flowers Pierini in Chicot County, Ark., on the south side of U. S. Highway 82, approximately ¾ mile west of the Mississippi River Bridge at Greenville.	1. Tri-States Stockyard, Greenville, Miss.
2. The premises of Claude H. Brady in Delta, Madison Parish, La., fronting on U. S. Highway 80 and Railroad Avenue.	2. Lum Brothers Auction Market, Vicksburg, Miss.
3. The premises of Lum Brothers stockyards in front of Lum Brothers Auction Barn on U. S. Highway 65–84, approximately five miles west of Vidalia, Concordia Parish, La.	3. Lum Brothers Auction Market, Natchez, Miss.

Therefore, each such auction market is designated as an inspection facility, auxiliary to its respective inspection station for the purposes of § 83.12.

These instructions shall become effective upon publication in the FEDERAL REGISTER.

The foregoing instructions relieve certain restrictions of the new screwworm regulations which are published in the FEDERAL REGISTER concurrently herewith and will become effective upon publication. In order to effectuate the purposes of these instructions they should be made effective at the same time as the regulations. Therefore it is found upon good cause under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that notice and other public rule making procedure on the instructions are impracticable and contrary to the public interest, and since they relieve restrictions they may be made effective less than 30 days after publication. Done at Washington, D. C. this 18th day of September 1958.

(Sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 111)

[SEAL] R. J. ANDERSON,
Director,
Animal Disease Eradication Division.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 42-16]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

AUTHORIZATION FOR OPERATORS TO CONDUCT CERTAIN CHARTER AND OTHER SPECIAL SERVICE OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 17th day of September 1958.

Part 46 of the Civil Air Regulations, Scheduled Air Carrier Helicopter Certification and Operation Rules, will become effective on October 1, 1958.* The currently effective provisions of Part 42 permit a scheduled air carrier operating under Part 40 or 41 to conduct certain charter or other special service operations under Part 40 or 41 between points which it is authorized to serve under the terms of its operating certificate. However, the carrier is required to have its air carrier operating certificate amended to permit such operations.

In promulgating new Part 46, it was the Board's intention that similar authorization be granted to the holders of scheduled air carrier helicopter certificates as is presently afforded carriers operating under the provisions of Part 40 or 41 It is necessary, therefore, that Part 42 be amended prior to the effective date of Part 46 in order that this authority can be provided.

Since this amendment is permissive in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and it may be made effective in less than 30 days.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) effective October 1, 1958.

By amending § 42.0 (b) by changing the reference "Part 40 or 41" in the first sentence to read "Part 40, 41, or 46."

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 609, 52 Stat. 1007, 1010, 1011, as amended; 49 U. S. C. 551, 554, 559)

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 17]

PART 514—TECHNICAL STANDARD ORDERS FOR AIRCRAFT MATERIALS, PARTS, PROCESSES, AND APPLIANCES

TSO–C53, FUEL AND ENGINE OIL SYSTEM HOSE ASSEMBLIES

Minimum performance standards for fuel and engine oil system hose assemblies (rubber and wire braid construction) which are to be used on civil aircraft of the United States are defined in the new regulation § 514.52 (TSO–C53).

Section 514.52 appeared as a notice of proposed rule making in 23 F. R. 3546 on May 22, 1958. All interested persons have been afforded an opportunity to submit written views, data or argument. These comments have been considered and minor revisions to achieve consistency have been made in fire test procedure and requirements.

Section 514.52 is added under Subpart B of this part to read as follows:

§ 514.52 *Fuel and engine oil system hose assemblies (rubber and wire braid construction)—TSO–C53*—(a) *Applicability*—(1) *Minimum performance standards.* Minimum performance standards are hereby established for fuel and engine oil system hose assemblies[1] of the following types which are to be used on civil aircraft of the United States:

(i) *Type A.* Non-fire-resistant "normal" temperature hose assemblies which are intended to be used in locations outside fire zones where the fluid and ambient air temperatures do not exceed 250° F.

(ii) *Type B.* Non-fire-resistant "high" temperature hose assemblies which are intended to be used in locations outside fire zones where the fluid and ambient air temperatures do not exceed 450° F.

(iii) *Type C.* Fire-resistant "normal" temperature hose assemblies which are intended to be used in locations within fire zones where the fluid and ambient air temperatures do not exceed 250° F.

(iv) *Type D.* Fire-resistant "high" temperature hose assemblies which are intended to be used in locations within fire zones where the fluid and ambient air temperatures do not exceed 450° F.

(*a*) New models of fuel and engine oil system hose assemblies manufactured on or after October 15, 1958, shall comply with the minimum requirements stated below:

(*1*) Type A hose assemblies shall comply with the "3.3 Performance" section requirements of Military Specification MIL–H–8795 (ASG) dated January 6, 1956.[2] The hose incorporated therein shall conform to "3.6 Performance" section of MIL–H–8794 (ASG) dated January 6, 1956,[2] except as noted in subparagraph (2) of this paragraph.

(2) Type B hose assemblies shall comply with the "3.6 Performance" section of Military Specification MIL–H–25579 (USAF) dated April 25, 1957,[2] except as noted in subparagraph (2) of this paragraph.

(3) Type C hose assemblies shall comply with the above requirements for Type A hose assemblies and in addition shall pass the fire test described in subparagraph (3) of this paragraph.

(4) Type D hose assemblies shall comply with the above requirements for Type B hose assemblies and in addition shall pass the fire test described in subparagraph (3) of this paragraph.

(2) *Exceptions.* (i) Type A hose assemblies are not required to comply with sections 3.6.2.7, 3.7, 3.7.1 and 3.8 of Military Specification MIL–H–8794 (ASG) dated January 6, 1956.

(ii) Type B hose assemblies are not required to comply with sections 3.6.7 and 3.6.10 of Military Specification MIL–H–25579 (USAF) dated April 25, 1957.

(3) *Fire test procedure and requirements*—(i) *Test setup and flame requirements.* (*a*) For the purpose of this test, a length of hose at least five times the outside diameter shall be subjected to a flame of the size and temperature specified in (*d*) and (*e*) of this subdivision while the hose is in a horizontal position. The entire end fitting shall also be subjected to this flame.

(*b*) The hose assembly shall be installed horizontally in the test setup in such a manner that it includes at least one full 90° bend.

(*c*) During the test the end fitting which is subjected to flame shall be vibrated at the rate of 2,000 cycles per minute through a total amplitude of not less than 1/16 inch, i. e., a displacement of 1/32 inch on each side of the neutral position.

(*d*) The flame temperature shall be 2,000° F., plus or minus 50° F. as measured within ¼ inch of the surface of the hose and end fitting at the point nearest the flame. Suitable shielded thermocouples or equivalent temperature measuring devices shall be used for measuring the flame temperature. Thermocouple(s) should be chromel-alumel and of No. 18 gage wire or preferably platinum-platinum plus 13 percent rhodium combination with 0.037 diameter wire. A sufficient number of these shall be used to assure that the specified temperature exists at least along the entire end fitting and along the hose for a distance of not less than three times the outside diameter of the hose.

(*e*) The flame diameter shall not be less than three times the outside diameter of the hose. The length of the flame shall be such that it extends beyond the end fitting and hose when they are in place during the test for a distance of not less than three times the outside diameter of the hose. (For larger diameter hose assemblies more than one source of heat may be required.)

(*f*) During the test the end fitting shall be subjected to flame shall be vibrated at the rate of 2,000 cycles per minute through a total amplitude of not less than 1/16 inch, i. e., a displacement of 1/32 inch on each side of the neutral position.

(*d*) The flame temperature shall be 2,000° F., plus or minus 50° F. as measured within ¼ inch of the surface of the hose and end fitting at the point nearest the flame. Suitable shielded thermocouples or equivalent temperature measuring devices shall be used for measuring the flame temperature. Thermocouple(s) should be chromel-alumel and of No. 18 gage wire or preferably platinum-platinum plus 13 percent rhodium combination with 0.037 diameter wire. A sufficient number of these shall be used to assure that the specified temperature exists at least along the entire end fitting and along the hose for a distance of not less than three times the outside diameter of the hose.

(*e*) The flame diameter shall not be less than three times the outside diameter of the hose. The length of the flame shall be such that it extends beyond the end fitting and hose when they are in place during the test for a distance of not less than three times the outside diameter of the hose. (For larger diameter hose assemblies more than one source of heat may be required.)

(*f*) During the test the SAE 20 oil or equivalent shall be circulated through the hose assembly and the oil shall enter the hose assembly at a temperature of not less than 200° F.

(ii) *Fire test procedure.*

Pressure: 30 psi.
Oil flow rate: 5×(Hose assembly actual ID in inches)². (Example: Flow rate for −16 size=5×(1)²=3.8 GPM.)
Duration: 5 minutes.

(iii) *Criteria for acceptability.* The hose assembly shall be considered acceptable if it complies with these test conditions without evidence of leakage.

NOTE: The use of full length protective sleeves over the hose and end fittings is permitted to facilitate compliance with the fire test requirement. Sleeves should be secured at both ends with steel clamps or safety wire.

(*b*) *Marking.* The markings required are specified in § 514.3 with the following exceptions:

(1) Trademark may be used in lieu of name, and manufacturer's address is not required.

(2) In lieu of the weight specified in paragraph (c) of § 514.3, the size of the hose assembly shall be shown.

(3) The applicable TSO number shall be followed immediately by the appropriate type designation, as TSO–C53–Type B. Where a protective sleeve is employed, the information should be legibly stamped on a steel (or other fireproof) band securely affixed to the hose assembly.[1]

(*c*) *Data requirements.* The following information and data should be submitted with the letter of conformance:

(1) One copy of drawing showing the hose assembly construction, materials, part numbers and the recommended maximum and minimum fluid and ambient temperatures for continuous operation. The following data should be shown for each size: Burst pressure (minimum), Operating pressure (maximum), Bending radius (minimum).

(2) One copy of any installation instructions and/or other pertinent information (may be shown on drawing).

(*d*) *Effective date.* October 15, 1958.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

[SEAL] WILLIAM B. DAVIS,
Acting Administrator
of Civil Aeronautics.

SEPTEMBER 16, 1958.

[Amdt. 29]

PART 550—FEDERAL AID TO PUBLIC AGENCIES FOR DEVELOPMENT OF PUBLIC AIRPORTS

PROJECT COSTS

Acting pursuant to the authority vested in me by the Federal Airport Act, I hereby amend Part 550 of the regulations of the Civil Aeronautics Administration as follows:

Section 550.4 (c) is hereby amended to read as follows:

§ 550.4 *Project costs.* * * *

(c) United States share of project costs. * * *

(1) *Project costs other than costs of installation of high intensity lighting on runways designated instrument landing runways.* The United States share of the project costs (other than costs of installation of high intensity lighting on runways designated instrument landing runways) of an approved project for the development of an airport, regardless of the size or location of the airport to be developed, shall be 50 percent of the allowable project costs of the project (other than costs of installation of high intensity lighting on runways designated instrument landing runways), except that this share, in the case of any State containing unappropriated and unreserved public lands and nontaxable Indian lands (individual and tribal) exceeding 5 percent of the total area of all lands therein shall be increased as provided in section 10 (b) of the Act and except that the United States share shall be 75 percent in the case of the Territory of Alaska and the Virgin Islands, all as set forth in the following table:

UNITED STATES' PERCENTAGE SHARE OF ALLOWABLE PROJECT COSTS IN STATES CONTAINING UNAPPROPRIATED AND UNRESERVED PUBLIC LANDS AND NONTAXABLE INDIAN LANDS

Arizona	60.96	New Mexico	56.30
California	54.12	Oregon	55.92
Colorado	53.28	South Dakota	52.74
Idaho	55.74	Utah	62.20
Montana	53.24	Washington	51.68
Nevada	62.50	Wyoming	57.19

NOTE: The percentages listed in this table will vary as changes occur with respect to the area of unappropriated and unreserved public lands and nontaxable Indian lands in the several States, in which event such changed percentages will be used by the Administrator in determining the United States share of allowable project costs other than costs of installing high intensity runway lighting on runways designated as instrument landing runways.

(Secs. 1–15, 60 Stat. 170–178, as amended; 49 U. S. C. and Sup., 1101–1114)

This amendment shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator
of Civil Aeronautics.

SEPTEMBER 16, 1958.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7051]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

LOUIS SEAMON ET AL.

Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 13.1056 *Preticketing merchandise misleadingly.* Subpart—*Misbranding or mislabeling:* § 13.1185 *Composition;* § 13.1280 *Price.* Subpart—*Misrepresenting oneself and goods*—Prices: § 13.1811 *Fictitious preticketing.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Louis Seamon et al. d/b/a A & L Seamon, Brooklyn, N. Y., Docket 7051, August 23, 1958]

In the Matter of Louis Seamon, Irene Seamon, Al Seamon, and Bessie Seamon, Individually and as Co-partners d/b/a A & L Seamon

This proceeding was heard by a hearing examiner on the complaint of the Commission charging manufacturers in Brooklyn, N. Y., with stamping wallets and billfolds as "genuine leather" or "top grain cowhide" which were not entirely made of either, and attaching to them price tickets with purported retail prices which were fictitiously high.

After acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 23 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondents Louis Seamon, Irene Seamon, Al Seamon and Bessie Seamon, individually and as co-partners doing business as A & L Seamon or under any other name and respondents' representatives, agents and employees directly or through any corporate or other device in connection with

[1] Hose assemblies for use in propeller feathering lines are covered in TSO–C42.

[2] Copies of these specifications may be obtained by addressing a request to: Commander, Air Materiel Command, Wright-Patterson Air Force Base, Dayton, Ohio.

the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of wallets and billfolds or other articles of merchandise, do forthwith cease and desist from:

1. Representing directly or by implication that billfolds and wallets or other articles made in whole or in part of substance other than leather are made of leather.

2. Representing directly or by implication that billfolds and wallets or other articles made in whole or in part of substance other than top grain cowhide are made of top grain cowhide.

3. Supplying purchasers of billfolds, wallets or other merchandise with price tags having prices or amounts which are in excess of the usual or regular retail selling prices of said billfolds, wallets or other merchandise or otherwise representing that the usual or regular retail price of merchandise is any amount greater than the price at which such merchandise is usually and regularly sold.

4. Putting into operation any plan whereby retailers or others may misrepresent the regular and usual retail price of their products.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 22, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary*.

[F. R. Doc. 58-7736; Filed, Sept. 22, 1958; 8:47 a. m.]

[Docket 7022]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

ECONOMY PUBLISHERS

Subpart—*Advertising falsely or misleadingly:*

§ 13.115 *Jobs and employment service.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Carl V. Torrey doing business as Economy Publishers, Clearwater, Fla., Docket 7022, August 27, 1958]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a publisher in Clearwater, Fla., with using misleading employment offers—such as "cutting wanted items from your newspapers", "copying names for advertisers", "addressing envelopes", etc.—in newspapers and periodicals as a means of selling his pamphlets, booklets, and other printed materials.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 27 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent Carl V. Torrey, doing business as Economy Publishers or under any other trade name, and respondent's representatives, agents and employees, directly or through any corporate device, in connection with the offering for sale, sale or distribution of publications or other products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from using any advertising matter which represents, directly or by implication, that employment is offered by respondent or that payment will be made by respondent for services to be rendered when, in fact, the advertisement is only an offer to sell a product.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Carl V. Torrey, doing business as Economy Publishers shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: August 28, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary*.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54688]

PART 8—LIABILITY FOR DUTIES; ENTRY OF IMPORTED MERCHANDISE

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

MISCELLANEOUS AMENDMENTS

1. Section 8.8 (f) of the Customs Regulations, dealing with the entry of packed packages, includes a reference to § 8.52 but the latter section, which also deals with this subject, contains no cross reference to § 8.8 (f). In order to add such a reference, § 8.52 (a) is amended to read as follows:

(a) Packed packages, which may be separately entered under the provisions of section 484 (f), Tariff Act of 1930, as amended,[2] and § 8.8 (f), shall be marked to indicate that they are packed packages.

(Secs. 484, 624, 46 Stat. 722, as amended, 759; 19 U. S. C. 1484, 1624)

2. Foreign vessels are permitted to engage in coastwise trade only rarely. To avoid possible misunderstanding, the Bureau deems it advisable to amend the form of the declaration of trade or business required under § 10.64 (a) of the Customs Regulations when a foreign vessel proceeds in ballast from the port of lading of articles withdrawn conditionally free under section 309 (a) of the Tariff Act of 1930, as amended.

Accordingly, the declaration of business or trade which may be required from a foreign vessel as set forth in § 10.64 (a) of the Customs Regulations is amended by changing the period after "4. Trade between the United States and any of its possessions" to a comma and adding "when such trade is not prohibited by coastwise laws."

(Secs. 309, 624, 46 Stat. 690, as amended, 759; 19 U. S. C. 1309, 1624)

[SEAL] D. B. STRUBINGER, *Acting Commissioner of Customs.*

Approved: September 16, 1958.

A. GILMORE FLUES, *Acting Secretary of the Treasury.*

[F. R. Doc. 58-7751; Filed, Sept. 22, 1958; 8:50 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

[T. D. 6316]

PART 170—MISCELLANEOUS REGULATIONS RELATING TO LIQUOR

DISTILLED SPIRITS AND BEER

The purpose of this Treasury decision is to provide regulations implementing sections 207 and 210 (f) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress).

PARAGRAPH 1. Section 210 (f) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress) reads as follows:

SEC. 210 (f). *Continuation of Distiller's Notice and Bond.* Notwithstanding any provision of section 5175 or 5176 (a) of the Internal Revenue Code of 1954, the Secretary of the Treasury or his delegate may waive, as to registered distillers or registered fruit distillers qualified to operate under bond on April 30, 1959, requirements for filing notice and executing new bond on May 1, 1959, if the distiller and the surety have executed consent to continuation of the terms of the existing bond to cover operations from May 1, 1959, to June 30, 1959, both dates inclusive. Nothing in this subsection shall be construed as limiting the authority of the Secretary of the Treasury or his delegate under section 5176 (b) or (c) of the Internal Revenue Code of 1954.

Pursuant to the above provisions of law, the following new subpart, Subpart H, is added to 26 CFR Part 170:

SUBPART H—WAIVER OF REQUIREMENTS FOR DISTILLER'S NOTICE AND BOND ON MAY 1, 1959

Sec.
170.141 Scope of subpart.

DEFINITIONS

170.142 Meaning of terms.

WAIVER OF REQUIREMENTS CONCERNING DISTILLER'S NOTICE AND BOND

Sec.
170.143 Authority.
170.144 Qualification for waiver.

CONSENT OF SURETY ON DISTILLER'S BOND (OR INDEMNITY BOND)

170.145 Execution.
170.146 Authority to approve.
170.147 Disposition by assistant regional commissioner.

AUTHORITY: §§ 170.141 to 170.147 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

§ 170.141 *Scope of subpart.* This subpart provides procedures under section 210 (f) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress) to permit continuation of the terms of existing distillers' bonds to cover operations from May 1, 1959, to June 30, 1959, both dates inclusive.

DEFINITIONS

§ 170.142 *Meaning of terms.* When used in this subpart, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural form shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine as well. The terms "includes" and "including" do not exclude things not enumerated which are in the same general class.

Assistant regional commissioner. An assistant regional commissioner (alcohol and tobacco tax) who is responsible to, and functions under the direction and supervision of, a regional commissioner of internal revenue.

Director. The Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington 25, D. C.

Distiller. The qualified proprietor of a registered distillery or a registered fruit distillery.

I. R. C. The Internal Revenue Code of 1954.

Registered distillers or registered fruit distillers. The proprietors of registered distilleries established and operated under 26 CFR Part 220, or the proprietors of registered fruit distilleries established and operated under 26 CFR Part 221.

U. S. C. The United States Code.

WAIVER OF REQUIREMENTS CONCERNING DISTILLER'S NOTICE AND BOND

§ 170.143 *Authority.* Notwithstanding the provisions of Part 220 or Part 221 of this chapter which require distillers to file notice and execute new bond annually on the first day of May, assistant regional commissioners may waive the filing of notice and the execution of new bond on May 1, 1959, by a distiller who is qualified to operate on April 30, 1959, if the distiller files the request for waiver and the consent of surety as provided in § 170.144.

§ 170.144 *Qualification for waiver.* Every distiller who desires a waiver of the requirements for filing notice and new bond on May 1, 1959, shall submit a written request for such waiver to the assistant regional commissioner. The request must be accompanied by the surety's consent to the extension of the term of the bond to cover the period May 1, 1959, to June 30, 1959, both dates inclusive, executed as prescribed in § 170.145. Where the distiller does not have a clear title to the tract of land on which the distillery is situated, or does not own the distilling apparatus and equipment, and has on file a consent on Form 1602 which expires April 30, 1959, a consent on Form 1602 for the period May 1, 1959, to June 30, 1959, both dates inclusive, shall accompany the request for waiver. The Form 1602 shall be executed as provided in Part 220 or 221 of this chapter, as the case may be. Where the distiller has filed an indemnity bond on Form 3–A, in lieu of a consent on Form 1602, the surety's consent on Form 1533 to extension of such bond to cover the period from May 1, 1959 to June 30, 1959, both dates inclusive, executed as prescribed in § 170.145, shall also accompany the request for waiver.

CONSENT OF SURETY ON DISTILLER'S BOND (OR INDEMNITY BOND)

§ 170.145 *Execution.* Consents of surety submitted under the provisions of this subpart must be executed on Form 1533, in duplicate, by the distiller and the surety, in accordance with the instructions in the notice on the form. The Form 1533 must properly identify the bond affected thereby and contain the following statement of purpose:

To continue in effect the terms and conditions of said bond (including all extensions or limitations of such terms and conditions previously consented to and approved) to cover operations from May 1, 1959, to June 30, 1959, both dates inclusive.

§ 170.146 *Authority to approve.* Assistant regional commissioners are authorized to approve consents of surety required under this subpart.

§ 170.147 *Disposition by assistant regional commissioner.* Where the assistant regional commissioner approves the consent of surety, he will notify the distiller in writing that he is authorized to operate his distillery from May 1, 1959, to June 30, 1959, both dates inclusive, and will furnish him a copy of the approved consent of surety, Form 1533. The assistant regional commissioner will forward to the Director one copy of the letter of notification to the distiller, and forward to the Commissioner of Accounts one copy of each such consent of surety.

PAR. 2. Section 207 of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress) reads as follows:

SEC. 207. *Beer lost by reason of floods of 1951 or hurricanes of 1954*—(a) *Authorization.* The Secretary of the Treasury or his delegates shall pay (without interest) to the person specified in subsection (b) an amount equal to the amount of the internal revenue tax paid under section 3150 (a) of the Internal Revenue Code of 1939 on any fermented malt liquor which was lost, rendered unmarketable, or condemned by a duly authorized health official of the United States or of a State, by reason of the floods of 1951 or the hurricanes of 1954.

(b) *Conditions.* The payment provided by subsection (a) shall be made only if—

(1) Such fermented malt liquor was lost, rendered unmarketable, or condemned while in the possession of (A) the person who paid such tax, or (B) a dealer selling fermented malt liquor at wholesale or retail;

(2) The person paying the tax, or a dealer specified in paragraph (1) (B), files a claim for such payment with the Secretary of the Treasury or his delegate within 6 months after the effective date of this section; and

(3) The person filing such claim furnishes proof establishing to the satisfaction of the Secretary of the Treasury or his delegate (A) that the internal revenue tax on such fermented malt liquor was fully paid, (B) that such fermented malt liquor was lost, rendered unmarketable, or condemned, by reason of the floods of 1951 or the hurricanes of 1954, (C) in the case of fermented malt liquor rendered unmarketable or condemned, that such liquor has been destroyed, (D) that the claimant was not indemnified against loss of the tax by any valid claim of insurance or otherwise, and (E) if the claimant was not the possessor of the fermented malt liquor at the time it was so lost, rendered unmarketable, or condemned, (i) that such claimant has either reimbursed such possessor for the full cost of such fermented malt liquor, or has replaced for such possessor the full equivalent thereof, without receiving payment or credit of any kind in respect of the tax on such fermented malt liquor, and (ii) that such possessor was not indemnified against loss of the tax by any valid claim of insurance or otherwise (other than by such reimbursement or replacement by the claimant).

(c) *Regulations.* The Secretary of the Treasury or his delegate may prescribe such regulations as may be necessary to carry out the provisions of this section.

Pursuant to the above provisions of law, the following new subpart, Subpart I, is added to 26 CFR Part 170:

SUBPART I—BEER LOST BY REASON OF THE FLOODS OF 1951 OR HURRICANES OF 1954

Sec.
170.155 Scope of subpart.

DEFINITIONS

170.156 Meaning of terms.

PAYMENTS

170.157 Circumstances under which payment may be made.
170.158 Persons to whom payment may be made.

CLAIMS PROCEDURE

170.159 Execution and filing of claim.
170.160 Return of claim for completion.
170.161 Claimant to furnish satisfactory proof.
170.162 Supporting evidence.
170.163 Reimbursement or replacement.
170.164 Action by assistant regional commissioner.

PENALTIES

170.165 Penalties.

AUTHORITY: §§ 170.155 to 170.165 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

§ 170.155 *Scope of subpart.* This subpart prescribes the requirements necessary to implement section 207 of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress), concerning payments which may be made by the United States of amounts equal to the internal revenue tax paid on fermented malt liquor which was lost, rendered unmarketable, or condemned by reason of the floods of 1951 or the hurricanes of 1954.

DEFINITIONS

§ 170.156 *Meaning of terms.* When used in this subpart, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural form shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine as well. The terms "includes" and "including" do not exclude things not enumerated which are in the same general class.

Assistant regional commissioner. An assistant regional commissioner (alcohol and tobacco tax) who is responsible to, and functions under the direction and supervision of, a regional commissioner of internal revenue.

Beer or fermented malt liquor. All kinds and types of liquors produced by the fermentation of malt, wholly or in part, or from any substitute therefor.

Claimant. The person to whom payment may be made, as provided in § 170.158, and, in an instance where the beer has been replaced, such person and the possessor shall join in the claim.

Full equivalent. A quantity of beer, expressed in barrels of 31 gallons and fractions of barrels, equal to the quantity lost, rendered unmarketable, or condemned.

Health authority. Any health official having authority to authorize the condemnation of beer.

Person paying tax. The person, such as a brewer or importer, who originally paid the internal revenue tax on the beer under section 3150 (a) of the Internal Revenue Code of 1939.

Possessor. The person in whose possession the beer was held at the time it was lost, rendered unmarketable, or condemned, as specified in § 170.157.

Tax. The amount of internal revenue tax paid on the beer under section 3150 (a) of the Internal Revenue Code of 1939. From April 1, 1944, to October 31, 1951, the rate of such tax was $8 per barrel; from November 1, 1951, through the calendar year 1954, the rate of such tax was $9 per barrel.

PAYMENTS

§ 170.157 *Circumstances under which payment may be made.* Assistant regional commissioners are authorized to allow payment (without interest) of an amount equal to the amount of tax paid on beer which was lost, rendered unmarketable, or condemned by health authorities, by reason of the floods of 1951 or the hurricanes of 1954. Such payment may be made only if the beer was lost, rendered unmarketable, or condemned while in the possession of the person paying the tax or in the possession of a dealer selling beer at wholesale or retail and if a valid claim for payment is timely filed as provided in § 170.159.

§ 170.158 *Persons to whom payment may be made.* Claims may be filed by and payment may be made to any of the possessors referred to in § 170.157. Claims may also be filed by and payment made to (a) the person paying the tax, or (b) a dealer selling beer at wholesale or retail who has either reimbursed such possessor for the full cost of the beer or has replaced the full equivalent thereof for such possessor without receiving payment or credit of any kind in respect of the tax on such beer.

CLAIMS PROCEDURE

§ 170.159 *Execution and filing of claim.* A claim for payment shall be executed on Form 843 in accordance with such instructions thereon as are applicable, and must be filed with the assistant regional commissioner of the internal revenue region in which the beer was lost, rendered unmarketable, or condemned, within 6 months after the day following the date of enactment of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress). Any claim filed after the specified 6-month period will be rejected.

§ 170.160 *Return of claim for completion.* The regulations in this subpart contemplate that claims will be filed (a) where the possessor has been reimbursed for the cost of the beer or has received the full equivalent of the beer before the filing of the claim, and (b) where the completion of the claim is to await determination, as provided in § 170.163, of the quantity of beer lost, rendered unmarketable, or condemned, and the quantity to be replaced or for which reimbursement is to be made. In the event of (b), the claim will be returned to the claimant, on completion of such determination, for insertion of the necessary data.

§ 170.161 *Claimant to furnish satisfactory proof.* The claimant shall furnish proof establishing to the satisfaction of the assistant regional commissioner that:

(a) The internal revenue tax on the beer was fully paid.

(b) The beer was lost, rendered unmarketable, or condemned by a duly authorized health official, by reason of the floods of 1951 or the hurricanes of 1954.

(c) The beer, if rendered unmarketable or condemned, has been destroyed.

(d) The claimant was not indemnified against loss of the tax by any valid claim of insurance or otherwise.

(e) If the claimant was not the possessor of the beer at the time it was so lost, rendered unmarketable, or condemned, (1) that such claimant has either reimbursed such possessor for the full cost of such beer, or replaced for such possessor the full equivalent thereof, without receiving payment or credit of any kind in respect of the tax on such beer, and (2) that neither the claimant nor the possessor was indemnified against loss of the tax by any valid claim of insurance or otherwise (other than by such reimbursement or replacement by the claimant).

§ 170.162 *Supporting evidence.* The claimant shall support his claim with any evidence (such as inventories, statements, invoices, bills, records, stamps, and labels) that he is able to submit, relating to the quantity of taxpaid beer on hand at the time of the flood or hurricane and averred to have been lost, rendered unmarketable, or condemned, as a result thereof.

§ 170.163 *Reimbursement or replacement.* The reimbursement of the full cost of the beer or the physical replacement of the beer for a possessor and the completion by the claimant of the claim may be delayed until determination has been made by the assistant regional commissioner as to the quantity of beer lost, rendered unmarketable, or condemned, by reason of a flood or hurricane, as provided in § 170.164. The findings of the assistant regional commissioner in this respect may be made available to the claimant and the possessor. The claim shall be fully completed with respect to evidence of reimbursement or replacement before being further processed by the assistant regional commissioner as provided in § 170.164. Nothing in this section shall be construed as extending the 6-month period provided by law for the original filing of claims under this subpart.

§ 170.164 *Action by assistant regional commissioner.* The assistant regional commissioner will date stamp and examine each claim filed under this subpart and will cause such investigation to be made as may be necessary to determine the quantities of beer lost, rendered unmarketable, or condemned, by reason of a flood or hurricane, and the validity of the claim. The claim will then be processed by him in accordance with existing procedures.

PENALTIES

§ 170.165 *Penalties.* Penalties are provided in sections 7206 and 7207 of the Internal Revenue Code for the execution under the penalties of perjury of any false or fraudulent statement in support of any claim and for the filing of any false or fraudulent document under this subpart.

Because sections 207 and 210 (f) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress) are effective on the day following the date of enactment of the Act, it is found that it is impractical and contrary to the public interest to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act (60 Stat. 238, 5 U. S. C. 1003) or subject to the effective date limitation of section 4 (c) of such Act. Accordingly, this Treasury decision shall be effective on the day following the date of enactment of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress).

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

Approved: September 17, 1958.

NELSON P. ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 58-7752; Filed, Sept. 22, 1958; 8:51 a. m.]

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter IV—Secret Service, Department of the Treasury

PART 400—ILLUSTRATIONS OF UNITED STATES POSTAGE STAMPS

REVOCATION OF PART

Prior to the Act of September 2, 1958, 72 Stat. 1771 (Public Law 85-921, 85th Cong.), the use of illustrations of United States postage stamps was controlled by regulations issued by the Secretary of the Treasury, subject to the approval of the President, pursuant to the Act of January 27, 1938, 52 Stat. 6 (Pub. Law 772, 80th Congress; 18 U. S. C. 504). The Act of September 2, 1958 amended existing law to make the use of such illustrations a matter governed by statute rather than by regulations issued by the Secretary of the Treasury, with the approval of the President.

Part 400 is obsolete and should be deleted.

[SEAL] U. E. BAUGHMAN,
Chief,
U. S. Secret Service.

[F. R. Doc. 58-7754; Filed, Sept. 22, 1958; 8:51 a. m.]

PART 404—FILM RECORDATION OF UNITED STATES AND FOREIGN OBLIGATIONS OR OTHER SECURITIES

REVOCATION OF PART

The Act of September 2, 1958, 72 Stat. 1771 (Pub. Law 85-921, 85th Cong.) amended existing law to permit the making of microfilms of obligations and securities of the United States for projection upon a screen, but not for advertising purposes, except philatelic advertising. Since microfilms of United States securities, checks, warrants, and paper money are now permitted by statute, regulations to permit the making of such films by banking institutions are no longer necessary.

Part 404 is hereby revoked.

[SEAL] U. E. BAUGHMAN,
Chief,
U. S. Secret Service.

[F. R. Doc. 58-7753; Filed, Sept. 22, 1958; 8:51 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

PART 590—GENERAL PROVISIONS

PART 592—PROCUREMENT BY NEGOTIATION

PART 595—FOREIGN PURCHASES

MISCELLANEOUS AMENDMENTS

1. Sections 590.450 and 590.451 are revised and in § 590.453, revise paragraphs (g) and (h) and revoke paragraph (i), as follows:

§ 590.450 *Selection and appointment of contracting officers—(a) Appointing authority.* Contracting officers, as defined in § 1.201-5 of this title, shall be those designated by the persons listed below, or by persons who are authorized by the persons listed below to designate contracting officers. When so designated, they shall have the authority set forth in § 590.402 and the general responsibilities set forth in § 590.453.

(1) The Secretary of the Army.

(2) The Under Secretary of the Army or Assistant Secretary of the Army (Logistics).

(3) The Deputy Chief of Staff for Logistics, Headquarters, Department of the Army.

(4) Chief, Contracts Branch, Office of the Deputy Chief of Staff for Logistics, Headquarters, Department of the Army.

(5) Head of any procuring activity.

(6) Attachés.

(7) Chiefs of foreign missions (Army).

(8) Chiefs of Department of the Army sections of any joint military mission not operating under the jurisdiction of a major oversea command.

(9) Superintendent, United States Military Academy, West Point, N. Y.

(10) Such others as may be specifically designated in writing from time to time.

(b) *Selection.* The following shall be considered as required qualifications of individuals to be designated as contracting officers:

(1) Successful completion of the Procurement Management Course, Army Logistics Management Center, Fort Lee, Virginia, or equivalent training and experience.

(2) Evidence of business acumen and ability to exercise mature judgement.

(3) High standards of character, reputation, and business ethics.

(4) Desirable personality traits.

(5) Previous on-the-job training in a purchasing office.

(c) *Evaluation.* The following general guidelines shall be used in evaluating equivalent training referred to in paragraph (b) (1) of this section.

(1) Knowledge of Government contract law.

(2) Familiarity with the preparation of contracts and purchase orders.

(3) Thorough knowledge of Army procurement regulations and policies.

(4) Familiarity with commercial purchasing and contracting methods and practices.

(5) Ability to analyze, interpret, and evaluate the factors involved in the determination of reasonable price.

In evaluating an individual's training on the basis of the above general guidelines, consideration shall be given to the type of procurements to be made by the individual, i. e., formal advertising or negotiation, and the magnitude and complexity of procurements. For example, satisfactory completion of the Post, Camp, and Station Procurement Course, conducted by the Quartermaster School, Fort Lee, Virginia, or equivalent training, should normally provide an individual sufficient training to qualify him for appointment as a contracting officer at a post, camp, or station, or for similar type duties.

(d) *Surveillance.* In view of the high degree of individual responsibility and authority vested in a contracting officer, care will be exercised to insure that only well qualified individuals are appointed and retained in such positions. Performance of their duties as contracting officers will therefore be kept under close surveillance.

(e) *Appointment.* (1) Each contracting officer shall be designated by the name in special orders or by other appropriate administrative written instrument issued by the headquarters of the appointing authority and shall include a statement of the specific authorities delegated to such appointee. Such designation shall be rescinded in the same manner upon termination of the individual's assignment as contracting officer.

(2) Civilian personnel in grades below GS-12 or military personnel below the grade of major shall not be designated contracting officers with authority to execute a contractual document involved in the purchase of supplies, services, research and development or military construction in amounts of $100,000 or more. Exceptions to this requirement shall be made only in the most unusual cases.

§ 590.451 *Designation of representatives.* A contracting officer may designate any officer or civilian official, who is appropriately qualified, to act as his authorized representative. Such designation shall be in writing and shall define the scope and limitations of the authorized representative's authority.

§ 590.453 *General responsibility of contracting officers.* * * *

(g) Contracting officers are responsible for the legal, technical, and administrative sufficiency of the contracts they make. They should not hesitate to secure legal and technical (pricing, financial, production, inspection, etc.) advice within the Department of the Army.

(h) Contracting officers are responsible for knowing the scope and limitation of their authority.

(i) [Revoked]

2. Revise §§ 592.216-2, 592.216-3, 592.216-4, and 592.217-2 to read as follows:

§ 592.216-2 *Application—(a) General.* Supporting data transmitted with a request for a determination and findings under 10 U. S. C. 2304 (a) (16) must clearly demonstrate that the item to be procured is of such nature that procurement must be made by negotiation in order to meet the objectives stated in the applicable determination (§ 3.216-3 of this title).

(b) *Property.* Supporting data transmitted with request for approval and signature of determinations and findings for property shall include, as a minimum, the following information submitted pursuant to § 592.306:

(1) Statement that the supplies appear in the "Department of Defense Preferential Planning List of End Items," or "Department of the Army Planning List" (or statement that action has been initiated and is pending inclusion in such list);

(2) Initial and reorder lead times for the supplies;

(3) Minimum quantity required for economical production of the supplies;

(4) List by name, of planned mobilization suppliers;

(5) List by name, of current producers of the property;

(6) Government investment in facilities and tooling in plants of planned mobilization suppliers; and

(7) Description of any production or industrial mobilization characteristics of the property or services, the procurement of which requires limited competition.

(c) *Industrial mobilization projects.* (1) Supporting data transmitted with requests for approval and signature of determinations and findings for industrial mobilization projects shall include, as a minimum, the following information submitted pursuant to § 592.306:

(i) The items of property to which each measure or activity is related;

(ii) The type of measure or activity (pilot line, etc.) which is proposed and a brief description thereof;

(iii) The estimated cost of each measure or other activity; and

(iv) If not included elsewhere in the submission, a statement as to why award of a contract by competition is not feasible.

(2) Requests for determinations and findings pertaining to industrial mobilization projects will not be forwarded to the Deputy Chief of Staff for Logistics until the initial program approval has been obtained at the beginning of the fiscal year. Request for determinations and findings for industrial mobilization projects which have program approval, but require project approval at technical service level, may be processed to the Deputy Chief of Staff for Logistics before the project approval has been obtained. Other requests for determinations and findings for industrial mobilization projects will be submitted to the Deputy Chief of Staff for Logistics as an inclosure to one of the following:

(i) Request for inclusion of a new project in a previously approved program; or

(ii) Requests for approval of projects which have program approval and which require project approval by the Assistant Secretary of the Army (Logistics) or the Deputy Chief of Staff for Logistics.

§ 592.216–3 *Limitation.* When the proposed procurement of mobilization base items is substantially larger than the quantity which must be awarded in order to meet the objectives stated in the applicable determinations, under 10 U. S. C. 2304 (a) (16), that portion not required to meet such objectives shall ordinarily be obtained through formal advertising or by negotiation under another appropriate section of 10 U. S. C. 2304 (a).

§ 592.216–4 *Records and reports.* Reports required by § 3.216–4 of this title shall be made in the form and manner prescribed by Subpart C, Part 606 of this chapter.

§ 592.217–2 *Application.* 10 U. S. C. 2304 (a) (17) preserves the authority to negotiate contracts specifically conferred by statute other than the 10 U. S. C. 2301 et seq. Except as authorized in § 1.706–7 of this title, contracts shall not be negotiated under this authority without the prior approval of the Chief, Contracts Branch, Office of the Deputy Chief of Staff for Logistics, Department of the Army. Requests for such approvals, with respect to either individual or classes of contracts, shall contain a statement of pertinent facts and reasons therefor, including the citation of the applicable statute, and shall be submitted through the Head of the Procuring Activity concerned to the Chief, Contracts Branch, Office of the Deputy Chief of Staff for Logistics, Department of the Army, Washington 25, D. C.

3. In § 592.303, revise paragraph (b), and revise §§ 592.305 and 592.306, as follows:

§ 592.303 *Determinations and findings by the head of a Procuring Activity signing as "a Chief Officer responsible for procurement."* • • •

(b) The head of a Procuring Activity may delegate authority to make the determinations and findings required by §§ 3.403–4, 3.404, 3.405–1 and 3.405–2 of this title to the Deputy Head, Assistant Head, or to the Chief of Staff of the Procuring Activity, and to chiefs of such purchasing offices as he may designate. He may also personally select one alternate for each such delegate: *Provided, however,* That such alternate will be empowered to make the required determination only during periods of official absence of the delegate for whom he has been selected as alternate. Neither delegates nor their alternates may redelegate this authority.

§ 592.305 *Forms of determinations and findings*—(a) *Authority to negotiate an individual contract*—(1) *Form.* Individual determinations and findings with respect to the negotiation of contracts under the authority of §§ 3.211 to 3.216 of this title inclusive and as otherwise required by this subchapter shall be prepared substantially in the form set forth below and in the manner prescribed in § 592.306 (the signed statement is required only on the original copy when approval of the Secretary is required).

DEPARTMENT OF THE ARMY

DETERMINATION AND FINDINGS

Authority To Negotiate an Individual Contract

1. I hereby find that:

a. The (insert name of Procuring Activity) proposes to procure by negotiation (describe briefly the scope of the work, or the nature of the property or services called for).

b. The estimated cost of the proposed procurement is $----------

c. The procurement by negotiation of the above described property (or service) is justified because (see pertinent paragraph of ASPR relating to "Application").

2. Upon the basis of the findings set forth above, I hereby determine that (insert statement of required determination under applicable paragraph of Part 2, Section III, ASPR or APP).

3. Subject to the availability of funds and providing that the above property (or services) has otherwise been authorized for procurement, it may, therefore, be procured by negotiation pursuant to 10 U. S. C. 2304 (a) (insert applicable subsection) and paragraph (insert applicable ASPR authority) of the Armed Services Procurement Regulation.

The statements made herein (and in the attachments hereto) are correct to the best of my knowledge and belief. Signature is recommended.

(Signature)
(Title: Head of Procuring Activity, his Deputy or Chief of Staff)

(2) *Scope of determinations and findings.* In general, each determination and findings will be confined to a single page, setting forth the necessary findings as briefly as possible. Facts shall be limited to those which are necessary and relevant to support the determination to be made. With respect to the determination, it is important to set forth only that one which is most responsive to the various findings, and necessarily to confine it to the requirements and the particular language set forth under the applicable exception in provision of 10 U. S. C. 2301 et seq.; further in this connection, it is important to guard against a determination in the alternative (except possibly for the one relating to "experimental, developmental, or research work"). If certain requirements are optional, however, it is desired that the determination and findings list only those requirements of the exception which are essential and can be strongly supported. All other pertinent information should be included in the request for approval and signature of the determination and findings by the Secretary.

(b) *Authority to negotiate a class of purchases or contracts.* Determinations and findings with respect to the negotiation of classes of purchases or contracts, as referred to in § 3.301 of this title and § 592.301, shall be prepared as set forth in paragraph (a) of this section, with appropriate modifications to make it applicable to a class of purchases or contracts.

(c) *Advance payments.* Determinations and findings with respect to advance payments is set forth in Subpart B, Part 3 of this title and this part.

(d) *Method of contracting.* Determination and findings with respect to the use of a cost, cost-plus-a-fixed-fee, or incentive type contract, as set forth in Subpart D, Part 3 of this title and this part, shall be prepared for the signature of the Head of the Procuring Activity, or the officer or individual to whom authority to sign such determination and finding has been delegated pursuant to § 592.303 (b), substantially in the following form. (Heads of procuring activities and contracting officers may use the form set forth below as a guide in making the determination required by § 3.405–1 of this title and § 592.405–1.)

DEPARTMENT OF THE ARMY

DETERMINATION AND FINDINGS

Method of Contracting

1. I hereby find that:

a. The (insert name of Procuring Activity) proposes to procure (describe briefly the scope of the work, or the nature of the property or services called for).

b. The estimated cost of the proposed procurement is $------ (including, when applicable, a statement to the percentage of proposed fixed fee), chargeable to Fiscal Year ----- funds.

c. The use of a (insert type of a contract to be used) contract is the most practicable and likely to be the least costly method of contracting because (summarize such pertinent facts as are available and relevant to support the determination to be made in paragraph 2).

2. Upon the basis of the findings set forth above, I hereby determine that pursuant to 10 U. S. C. 2306 (a), and paragraph (insert applicable ASPR authority) of the Armed Services Procurement Regulation, that the use of a (insert type of contract) contract (a) is likely to be less costly than other methods of contracting, or (b) that it is impracticable to secure property (or services) of the kind or quality required without the use of a (insert type of contract) contract.

(Signature)

(Title)

§ 592.306 *Procedure with respect to determinations and findings.* (a) Requests for approval of determinations and findings referred to throughout Part 3 of this title and this part, which requires the signature of the Secretary of the Army or the Assistant Secretary of the Army, shall contain (1) a complete statement of facts, including supporting data necessary to demonstrate the applicability of the cited section of 10 U. S. C. 2301 et seq.; (2) a recommendation that the determinations and findings be signed; and (3) a determinations and findings prepared for the appropriate signature.

(b) Requests for approval of determinations and findings of authority to negotiate submitted for the signature of the Assistant Secretary of the Army (Logistics) will be signed by or for the Head of the Procuring Activity and shall include the following information in support of the requested determination:

(i) Complete statement of facts on the proposed procurement. The statement should contain sufficient descriptive information to enable the Assistant Secretary of the Army (Logistics) to make the determination required by 10 U. S. C. 2304 (a). The following minimum data should be contained in this statement, except that additional data required by § 592.211–3 (c) (1) to (5) shall be included when the determination is to be made under § 3.211 of this title and § 592.211.

(ii) Detailed description in nontechnical language of the property or services to be procured.

(ii) The following statement will be included in requests for determinations and findings for procurement of supplies: "The proposed procurement is supported by valid requirements and the required program approvals have been obtained."

(iii) Expected starting and completion dates of the contracts and the estimated dollar amount of the purchase, for individual determinations and findings. For class determinations and findings, the estimated total number of purchases with the estimated total dollar amount, for the time period to be covered by the determination. Designation of funds by type and source, i. e., Research and Development, Procurement of Equipment and Missile Army, Operations and Maintenance, other Departments or Government agencies. In those instances where more than one type of funds will be utilized, the amount applicable to each category shall be indicated. When Operations and Maintenance funds are designated, justification will be included for the proposed use of such funds. When Military Assistance Program funds are designated the common item order numbers, quantity and country will be indicated.

(iv) Cite the data, page number, and item number of the approved buying list (such as shopping list of Current Material Program Annex VI—Procurement Schedules) when Procurement of Equipment and Missile Army funds are utilized.

(a) If the funds to be utilized are chargeable to a specific fiscal year, the statement shall indicate both the appropriate fiscal year and funds.

(b) If No Year Funds will be utilized for the proposed procurement, the statement shall read as follows: "The estimated cost of this procurement is $------ chargeable to (designate the appropriation) No Year Funds."

(v) Date of the original contract, name of the contractor, and total funds obligated to date, when the purchase action submitted for determination and findings is a contract modification.

(vi) Type of contract which is anticipated will be utilized (e. g., fixed-price, incentive, cost-plus-a-fixed-fee, etc.). If it is anticipated that a Time and Materials contract or a Labor Hour contract will be utilized a copy of the determination required by § 3.405–1 or § 3.405–2 of this title will be inclosed. Type of contract will not be listed for class determinations and findings.

(vii) Statement that there will be competition on the proposed procurement. If, however, solicitation is to be limited to a single source, the name and location of the firm and a brief explanation why the solicitation is to be limited will be included in lieu of the statement concerning competition.

(viii) Reason why procurement of the property or services by formal advertising is not feasible. Summarize such pertinent facts as are available and relevant to support the determinations to be made in paragraph 2 of the determinations and findings.

(2) Data indicating applicability of 10 U. S. C. 2304 (a). This data should demonstrate that the property, work, and circumstances are of the nature described by the pertinent section of 10 U. S. C. 2304 (a) (1) et seq. Department of the Army approved programs and projects should be cited if they serve to indentify the procurement as research and development, interests of industrial mobilization, etc. Previous contracts, status of Government tooling and facilities, and mobilization planning status are examples of other data which serve to identify the procurement with the cited section of 10 U. S. C. 2304 (a) (1) et seq.

(3) Data supporting designation of any classes for class determinations and findings.

(4) Recommendation for signature of the determinations and findings.

(c) The expiration date of a determination and finding is the end of the fiscal year in which it is signed unless otherwise specified in the determination and findings. Negotiations must be completed and the contract awarded prior to the expiration date of the determination and finding.

(d) The primary test in determining the quantity and dollar amount covered by a determination and finding is the actual demonstrated requirement that exists at the time the determination and finding is submitted to the Assistant Secretary of the Army (Logistics) for signature. The recitation of the estimated amount of a proposed procurement in a determination and findings, issued under § 3.305 (a) of this title, is not in itself to be regarded as a monetary limitation upon the authority of the contracting officer to negotiate the existing contract. However, such determination and findings may not be relied upon by a contracting officer as authority to negotiate a contract which includes work or services outside the scope of such determinations and findings.

(e) The determination and findings, request for approval and signature, and all supporting documents shall be submitted in an original and seven copies (if Military Interdepartmental Purchase Requests or similar documents relating to the transfer of funds are being submitted, duplicate copies of such documents will be sufficient) to the Deputy Chief of Staff for Logistics, Department of the Army, Washington 25, D. C., Attn: Chief, Contracts Branch.

4. Paragraph (a) of § 592.405–3 is revised to read as follows:

§ 592.405–3 *Letter contract.* • • •

(a) *Approval requirement.* Letter contracts, or any other type of preliminary contract, shall not be used without prior approval of the Chief, Contracts Branch, Deputy Chief of Staff for Logistics, Headquarters, Department of the Army, except that subject to the limitation set forth in § 3.405–3 of this title and this section, chiefs or deputy chiefs or a general officer of their immediate staff responsible for procurement are authorized to issue letter contracts in amounts representing not more than 50 percent of the total estimated amount of the definitive contract, provided, the estimated amount of the definitive contract does not exceed the approval authority of the particular technical service as authorized in §§ 606.204–3, 606.204–4, and 606.204–6 of this chapter. This authority shall not be redelegated. When the total estimated amount of the proposed definitive contract exceeds that which the procuring technical service is authorized to approve, or where it is desired to award a letter contract in amount in excess of 50 percent of the total estimated amount of proposed definitive contract, prior approval of the Chief, Contracts Branch, Deputy Chief of Staff for Logis-

tics, Headquarters, Department of the Army, is required.

5. Subpart O is added to Part 595, as follows:

SUBPART O—ADMINISTRATION OF THE BUY AMERICAN ACT—PURCHASES OF PETROLEUM PRODUCTS

Sec.
595.1500 Scope of subpart.
595.1501 General.
595.1502 Definitions.
595.1503 Procedures.
595.1503–1 Contract clauses.
595.1503–2 Evaluation of bids and proposals.

AUTHORITY: §§ 595.1500 to 595.1503–2 issued under sec. 3012, 70A Stat. 157; 10 U. S. C. 3012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U. S. C. 2301–2314.

§ 595.1500 *Scope of subpart.* This subpart sets forth procedures applicable to the purchase of petroleum products for use in the United States, in implementation of Executive Order 10761, dated March 27, 1958 (23 F. R. 2067, March 28, 1958).

§ 595.1501 *General.* The President, by Executive Order 10761, requested the executive departments and agencies to adopt certain procedures in making purchases of crude petroleum and petroleum products, and also provided that Executive Order 10582, December 17, 1954, which prescribes uniform procedures for certain determinations under the Buy American Act, shall not be applicable to purchases of crude petroleum and petroleum products. Pending the revision of Part 6 of this title and this part, to incorporate the procedures set out in Executive Order 10761, the procedures set forth in this subpart shall be followed in the administration of the Buy American Act with respect to purchases of petroleum products. To the extent that Part 6 of this title and the preceding subparts of this part, are inconsistent herewith, the provisions of this subpart shall govern.

§ 595.1502 *Definitions.* As used in this subpart, the following terms have the meanings set forth below:

(a) "Domestic petroleum product" means any product refined in the United States entirely from crude petroleum of wholly domestic origin.

(b) "Complying petroleum product" means any product refined in the United States in whole or in part from crude petroleum of foreign origin, all of which has been, or will be imported by a firm which, during the period of contract performance and for the three months preceding the month in which a bid is submitted to the Department of the Army, has imported crude petroleum in compliance with the Voluntary Oil Import Program, or which is certified by the Administrator, Voluntary Oil Import Program, as being in compliance under that Program.

(c) "Non-complying petroleum product" means any product refined in the United States in whole or in part from crude petroleum of foreign origin, other than "complying petroleum product."

(d) "Foreign refined petroleum product" means any petroleum product refined outside the United States.

(e) "United States" means the United States and any place subject to the jurisdiction of the United Sates (§ 6.101 (c) of this title).

§ 595.1503 *Procedures.*

§ 595.1503–1 *Contract clauses.* Every contract entered into by the Department of the Army for the purchase in the United States of petroleum products shall contain the following clause in lieu of the clause prescribed in § 6.104–5 of this title:

Buy American Act and Executive Order No. 10761

(a) For the purpose of this clause:

(i) "Domestic petroleum product" means any product refined in the United States from crude petroleum of wholly domestic origin;

(ii) "Complying petroleum product" means any product refined in the United States in whole or in part from crude petroleum of foreign origin, all of which has been, or will be imported by a firm which, during the period of contract performance and for the three months preceding the month in which the bid or offer which resulted in this contract is submitted, has imported crude petroleum" in compliance with the Voluntary Oil Import Program, or which is certified by the Administrator, Voluntary Oil Import Program, as being in compliance under that Program.

(iii) "United States" means the United States and any place subject to the jurisdiction thereof.

(b) Contractor agrees that there will be delivered under this contract only refined petroleum products of one of the types set forth above, except:

(i) When the petroleum products are for use outside the United States;

(ii) When the Government determines that neither domestic petroleum product nor complying petroleum product is produced or refined in the United States in sufficient and reasonably available quantities and of a satisfactory quality;

(iii) When the Secretary determines it would be inconsistent with the public interest to apply the preference to domestic petroleum product or complying petroleum product; or

(iv) When the Secretary determines the cost to the Government of domestic petroleum product or complying petroleum product to be unreasonable.

(c) If the supplies to be delivered hereunder are refined in the United States in whole or in part from imported crude, the Contractor agrees that during the contract period he will comply in all respects with the Voluntary Oil Import Program.

§ 595.1503–2 *Evaluation of bids and proposals.* (a) In evaluating bids or offers, no price differential will be applied between bids or offers of domestic petroleum product and those offering complying petroleum product.

(b) Otherwise acceptable bids or offers of foreign refined petroleum products will be accepted if such bid or offer is the lowest available bid or offer and (1) no bid or offer of domestic petroleum product or complying petroleum product is available for consideration, or (2) the lowest available bid or offer of a domestic petroleum product or complying product is 6 percent or more in excess of the sum of such bid or offer of foreign refined petroleum product, all costs of delivery to the place specified in the solicitation and the import tax or duty (whether or not an import tax or duty-free entry certificate may be issued).

(c) Bids or offers of non-complying petroleum product shall not be accepted.

(d) In determining whether a product is a complying petroleum product, a certificate issued by the Administrator, Voluntary Oil Import Program, shall be accepted as conclusive evidence of such compliance. In the absence of such a certificate, a certification or representation of compliance made by the supplier may be considered presumptive evidence of compliance.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter XIV—General Services Administration

[Rev. 1, Amdt. 8]

REG. 6—MANGANESE REGULATION: DOMESTIC MANGANESE PURCHASE PROGRAM

PARTICIPATION IN THE PROGRAM

Pursuant to the authority vested in me by Executive Order 10480, dated August 14, 1953 (18 F. R. 4939), as amended, General Services Administration Regulation 6 entitled "Manganese Regulation: Domestic Manganese Purchase Program," as heretofore revised and amended, is further amended as follows:

1. In the first sentence of section 4 (a) delete the date "June 30, 1958" and in lieu thereof substitute the date "December 31, 1958" so that said first sentence reads as follows: "Any producer of ore or any operator of a manganese milling plant desiring to participate in the program shall apply in writing on or before December 31, 1958, to the nearest General Services Administration regional office for a certificate of participation."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. 2154. Interpret or apply sec. 303, 64 Stat. 801, as amended; 50 U. S. C. App. 2093)

All other provisions of said regulation, as revised and amended, shall remain in full force and effect.

This amendment shall be effective upon publication in the FEDERAL REGISTER.

Dated: September 17, 1958.

EDWARD K. MILLS, JR.,
Acting Administrator of General Services.

[F. R. Doc. 58–7757; Filed, Sept. 22, 1958; 8:52 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART C—WAR ORPHANS' EDUCATIONAL ASSISTANCE ACT OF 1956

MISCELLANEOUS AMENDMENTS

1. In § 21.3051, paragraph (a) is amended to read as follows:

§ 21.3051 *Conditions governing payment of educational assistance allowance.* (a) The educational assistance allowance shall be paid to the guardian of the eligible person; to the person recognized as legal custodian pursuant to section 1502, Public Law 85–56, and § 13.207 of this chapter; to the eligible person himself if he has attained his majority and has no known legal disability; or to the person so designated under paragraph (c) of this section.

(1) The minority of a person who has been discharged from the Armed Forces will not preclude direct payment of educational assistance allowance to such person (sec. 1502, Public Law 85–56).

(Sec. 1502, 71 Stat. 136; 38 U. S. C. 3502)

2. In § 21.3054, that portion of paragraph (b) preceding subparagraph (1), and paragraph (b) (2) are amended to read as follows:

§ 21.3054 *Effective beginning dates of entrance or reentrance into training and for payment of educational assistance allowance.* • • •

(b) Except as provided in subparagraph (3) of this paragraph, the effective beginning date for the payment of educational assistance allowance upon original entrance into training will be the date of receipt of application, date of commencement of the course as certified by the institution on VA Form VB 7–5499, or the effective date of approval of the course by the appropriate approving agency or by the Veterans Administration, whichever is later. The effective date of the approval of the course by the appropriate approving agency shall be the effective date specified by the approving agency in its notice of approval, if such notice of approval is received by the Veterans Administration not later than 60 days after the effective date specified therein by the State approving agency. Where the notice of approval is not received by the Veterans Administration within 60 days from the effective date set forth in the notice of approval, the effective date of approval for the purpose of this paragraph shall be as of the date 60 days prior to the date notice of approval is received by the Veterans Administration. However, where counseling is delayed by an eligible person for 12 or more months, for other than a reason beyond his control, he will be considered as having abandoned his application for benefits under Public Law 634, 84th Congress. Should he at a later date report for and promptly complete counseling, his application will be considered reopened. Under these conditions the effective beginning date for payment of educational assistance allowance will be the date of reopening, i. e., the date he reports for counseling, if otherwise in order.

• • • • •

(2) Except as provided in subparagraph (3) of this paragraph, the effective beginning date for payment of educational assistance allowance upon approved reentrance into training which involves a change of program or a change of institution will be the date of commencement or recommencement of the course as certified by the institution on VA Form VB 7–5499, or the date the eligible person's request (concurred in by his guardian or legal custodian) for such change was received by the Veterans Administration, whichever is later. However, where counseling is delayed by an eligible person for 12 or more months, for other than a reason beyond his control, he will be considered as having abandoned his application for a change of program or change of institution. Should he at a later date report for and promptly complete counseling, his application for a change of program or change of institution will be considered reopened. Under these conditions the effective date for resumption of educational assistance allowance will be the date of reopening, i. e., the date he reports for counseling, if otherwise in order.

(Sec. 210, 71 Stat. 91; 38 U. S. C. 2210. Interpret or apply secs. 101, 102, 201–205, 301–313, 401–404, 501–509, 512, 70 Stat. 411–422, as amended; 38 U. S. C. 1031–1041, 1044, 1051–1055, 1061–1073, 1081–1084)

This regulation is effective September 23, 1958.

[SEAL] ROBERT J. LAMPHERE,
Acting Deputy Administrator.

[F. R. Doc. 58–7755; Filed, Sept. 22, 1958; 8:51 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1731]

[Juneau 010160]

ALASKA

RESERVING LANDS WITHIN NATIONAL FORESTS FOR USE OF FOREST SERVICE AS RECREATION AREAS AND ADMINISTRATIVE SITES

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands within the national forests hereinafter designated are hereby withdrawn from all forms of appropriation under the public land laws, including the mining but not the mineral-leasing laws nor the act of July 31, 1947 (61 Stat. 681; 69 Stat. 367; 30 U. S. C. 601–604) as amended, and reserved for use of the Forest Service, Department of Agriculture, as recreation areas and administrative sites:

CHUGACH NATIONAL FOREST

TRAIL RIVER–KENAI RECREATION AREA

Beginning at a point on the line of mean high water on the north shore of Kenai Lake, from which corner 2, lot A, United States Survey No. 2520 bears N. 83° E., approximately 45.75 chains, thence
North, 24.00 chains;
N. 66° E., 41.75 chains to mean high water on west shore Trail River;
Southerly, along west shore Trail River to shore Kenai Lake;
Westerly, along line of mean high water Kenai Lake to point of beginning.
The tract described contains 141 acres.

MILE 38 JUNCTION–SEWARD–ANCHORAGE HIGHWAY

All land within 400 feet of the center line of the Seward–Anchorage Highway between BPR Highway Station 410+90 and Station 423+71.6 Section B–2 and all land within 400 feet of the center line of the Kenai River Highway between the BPR Station 450+90.2 Project 5–B2 to the above two said stations on the Seward–Anchorage Highway, in approximate Latitude 60°32' N., Longitude 149°33' W., thus forming a triangle junction of the two highways and known as Mile 38 Junction and located approximately 38 miles from Seward, Alaska, containing an area of approximately 130 acres.
The tract described contains 130 acres.

UPPER TRAIL LAKE RECREATION AREA (TRACT C)

Beginning at a point on the line of mean high water on the south shore of Upper Trail Lake, due north of BPR Station No. 162—Seward–Anchorage Highway, Section A2, B3, approximate Latitude 60°32' N., Longitude 149°33' W., thence
Southeasterly, 56.00 chains, approximately, along line of mean high water of Upper Trail Lake to a point due north of BPR Station No. 130, Section A2, B3, Seward–Anchorage Highway;
South, 11.50 chains;
West, 43.50 chains;
North, 25.00 chains to point of beginning.
The tract described contains approximately 75 acres.

TONGASS NATIONAL FOREST

MILL CREEK INDUSTRIAL AREA

Beginning at U. S. C. & G. Station "Virgin" located at Mill Creek on the east shore of Eastern Passage, thence
East, ¼ mile;
North, 1½ miles;
West, 1 mile to U. S. C. & G. Station "Mill";
Southerly, along line of mean high tide of Eastern Passage to point of beginning.
The tract described contains approximately 336 acres.
The tracts total in the aggregate approximately 682 acres.

This order shall be subject to existing withdrawals for power purposes so far as they affect any of the above-described lands, and shall take precedence over, but not otherwise affect the existing reservation of the lands for national forest purposes.

FRED G. AANDAHL,
Acting Secretary of the Interior.

[Fairbanks 014424]

ALASKA

RESERVING LANDS AT NORTHWAY JUNCTION FOR USE OF BUREAU OF LAND MANAGEMENT AS AN ADMINISTRATIVE SITE; PARTIALLY REVOKING PUBLIC LAND ORDER NO. 386 OF JULY 31, 1947

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation, including the mining but not the mineral-leasing laws, nor disposals under the act of July 31, 1947 (61 Stat. 681; 30 U. S. C. 601–604) as amended, and reserved for use of the Bureau of Land Management, Department of the Interior, as an administrative site:

NORTHWAY JUNCTION

A parcel of land situated on the southerly side of the Alaska Highway and easterly side of the Northway Road in the immediate vicinity of their junction at approximate latitude 63°00'54" N., longitude 141°47'00" W., more particularly described as follows:

Beginning at a point identical to Corner No. 4, of U. S. Survey No. 2781; thence

N. 54°57' W., 1.50 chains to a point on the centerline of Northway Road;
N. 33°03' E., 15.57 chains along said centerline to a point on the centerline of the Alaska Highway;
S. 54°57' E., 10.00 chains along said centerline;
S. 35°03' W., 15.57 chains;
N. 54°57' W., 3.40 chains to Corner No. 3 of U. S. Survey No. 2781;
N. 54°57' W., 5.10 chains along Line 3–4 of U. S. Survey No. 2781 to the point of beginning.

The tract described contains 15.57 acres.

2. Public Land Order No. 386 of July 31, 1947, is hereby revoked so far as it affects any of the lands described in paragraph 1 of this order.

FRED G. AANDAHL,
Acting Secretary of the Interior.

[716554]

MICHIGAN

REVOKING EXECUTIVE ORDER NO. 2638 OF JUNE 12, 1917, WHICH RESERVED LITTLE LIME ISLAND FOR LIGHTHOUSE PURPOSES

By virtue of the authority vested in the President, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Order No. 2638 of June 12, 1917, which reserved the following-described public lands in Michigan for lighthouse purposes, is hereby revoked:

MICHIGAN MERIDIAN

T. 42 N., R. 6 E.,
Sec. 6, Little Lime Island, Unsurveyed.

The island is located in the Straits of St. Mary, South of Lime Island, and is estimated to contain approximately 13 acres.

2. The lands will not be open to further disposition under the public land laws, unless and until, after survey, a notice is issued by an authorized officer of the Bureau of Land Management, of the filing of an official plat of survey, which notice shall specify the time and manner for filing of applications.

FRED G. AANDAHL,
Acting Secretary of the Interior.

SEPTEMBER 17, 1958.

[Public Land Order 1734]

[77731]

WASHINGTON

POWER SITE RESTORATION NO. 537; PARTLY REVOKING EXECUTIVE ORDERS OF JULY 2, 1910 AND JUNE 30, 1916, WHICH CREATED POWER SITE RESERVES NOS. 74 AND 534, RESPECTIVELY; OPENING CERTAIN LANDS WITHIN OTHER EXISTING POWER WITHDRAWALS

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The Executive Orders of July 2, 1910 and June 30, 1916, creating Power Site Reserves No. 74 and No. 534, respectively, are hereby revoked, so far as they affect the following-described lands:

WILLAMETTE MERIDIAN

POWER SITE RESERVE NO. 74

T. 7 N., R. 5 E.,
Sec. 30, lot 9.
T. 7 N., R. 6 E.,
Sec. 23, NE¼ and NE¼SE¼.

POWER SITE RESERVE NO. 534

T. 33 N., R. 10 E.,
Sec. 4, lots 6, 7, E½SW¼, and W½SE¼;
Sec. 9, SW¼SW¼;
Sec. 10, lot 9.

The areas described aggregate 550 acres.

2. An order of the Director of the Geological Survey of November 19, 1957 (22 F. R. 9437), cancelled Power Site Classifications Nos. 75, 126, 156, and 207, so far as they affect the following-described lands:

WILLAMETTE MERIDIAN

T. 37 N., R. 5 E.,
Sec. 21, lots 2 and 7.
T. 40 N., R. 6 E.,
Sec. 28.
T. 3 N., R. 7 E.,
Sec. 1, lot 2.
T. 12 N., R. 8 E.,
Sec. 10, N½SE¼.
T. 33 N., R. 10 E.,
Sec. 20, lot 9;
Sec. 22, lot 2.

Totalling 195 acres.

3. In DA–134–Washington, issued June 8, 1956, the Federal Power Commission vacated the existing power withdrawal created by the filing of an application for preliminary permit on November 14, 1921, for Power Project No. 264, affecting the following-described lands:

WILLAMETTE MERIDIAN

T. 7 N., R. 5 E.,
Sec. 30, lots 1, 2, 9, NW¼NE¼, and NE¼NW¼.
T. 7 N., R. 6 E.,
Sec. 23, NE¼ and NE¼SE¼.

The areas described aggregate 339.92 acres.

4. In DA–134-Washington, the Federal Power Commission made a favorable determination under section 24 of the Federal Power Act respecting the following-described lands:

WILLAMETTE MERIDIAN

POWER PROJECTS NOS. 2071 AND 2111

T. 7 N., R. 4 E.,
Sec. 34, E½SE¼.
T. 7 N., R. 5 E.,
Sec. 26, lot 7.
T. 7 N., R. 6 E.,
Sec. 26, lots 4, 7, and 8.

The areas described aggregate 228.63 acres.

5. The lands described in this order are timber lands lying in western Washington. Topography for the most part is rough and mountainous, and the soil is a shallow, rocky clay loam.

6. No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

7. Subject to any valid existing rights and the requirements of applicable law, the lands described in this order are hereby opened to filing of applications, selections and locations, in accordance with the following, the lands described in paragraph 4, however, being opened subject to the provisions of section 24 of the Federal Power Act, and subject to the prior right of the United States, its licensees or permittees, to use for power purposes those portions of the lands within the project boundary of Project No. 2071, as shown on map designated Exhibit "K"–7 (Federal Power Commission No. 2071–28), and the project boundary of Project No. 2111, as shown on the map designated Exhibit "K" (Federal Power Commission No. 2111–12) and both filed in the Office of the Federal Power Commission:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284, as amended), presented prior to 10:00 a. m. on October 23, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on January 22, 1959, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on January 22, 1959, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

8. The lands have been open to applications and offers under the mineral leasing laws, and, excepting those described in paragraph 4, which are within the boundaries of licensed Project No. 2071 and proposed Project No. 2111, to location under the United States mining laws pursuant to the act of August 11, 1955 (69 Stat. 682; 30 U. S. C. 621, et seq.).

9. All the lands described in this order shall be subject until 10:00 a. m. on December 18, 1958, to application by the State of Washington under any statute or regulation applicable thereto, for rights-of-way for public highways, or as a source of material for the construction and maintenance of such highways, pursuant to section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended.

10. Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Spokane, Washington.

FRED G. AANDAHL,
Acting Secretary of the Interior.

SEPTEMBER 17, 1958.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 24]

TYDEN AND AUTOMATIC METAL SEALS

NOTICE OF PROPOSED INCREASE IN PRICE

Notice is hereby given pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that, under the authority of title V, section 501 of the Act of August 31, 1951 (5 U. S. C. 140), it is proposed to amend § 24.13 (e) of the Customs Regulations to increase the charge for in-bond and in-transit seals sold by collectors of customs.

The purpose of the proposed amendment is to recover the cost to customs, including the contract purchase price, shipping costs, storage, distribution, sale, accounting, and other overhead costs covering Tyden and automatic metal seals issued and sold by collectors of customs for emergency use by common carriers and other authorized users of such seals, the price to be paid to collectors of customs to be increased from 5 cents to 10 cents per seal, with a minimum order to consist of 10 seals for $1. The terms of the proposed amendment, in tentative form, are as follows:

The last sentence of paragraph (e) of § 24.13, is amended to read as follows: "In-bound and in-transit seals sold by collectors of customs shall be charged for at the rate of 10 cents per seal, with a minimum order to consist of 10 seals for $1."

Prior to the final adoption of such amendment, consideration will be given to any relevant data, views, or arguments pertaining thereto which are submitted in writing to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., and received not later than 20 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

Approved: September 16, 1958.

A. GILMORE FLUES,
Acting Secretary of the Treasury.

POST OFFICE DEPARTMENT

[39 CFR Part 15]

MATTER MAILABLE UNDER SPECIAL RULES

CONCEALABLE FIREARMS

Section 1715 of Title 18, United States Code, declares pistols, revolvers, and other firearms capable of being concealed on the person, to be nonmailable, with exceptions in favor of bona fide dealers in firearms, manufacturers, officers of the Armed Forces, and other persons. The law gives authority to the Postmaster General to prescribe regulations governing permissible shipments of firearms. The Departmental regulations are contained in § 15.5 of Title 39, Code of Federal Regulations.

Various chief legal officers of the Department have taken the view that it would frustrate the legislative intent of the law to hold a pistol to be mailable solely because it uses a propellent other than gunpowder. In the Postal Bulletin of June 12, 1951, and again in the Postal Bulletin of February 23, 1954, the chief legal officer of the Department caused to be published instructions to the effect that gas and air pistols are within the purview of the law in 18 U. S. C. 1715.

It is proposed to amend the regulations contained in § 15.5 of Title 39, Code of Federal Regulations, to bring such interpretive rulings within the scope of the regulations by making them applicable to gas, air, and spring-action pistols.

The proposed amendment relates to a proprietary function of the Government. It also is in a nature of an interpretive ruling. Accordingly, this amendment is exempted from the rule making requirements of the Administrative Procedure Act (5 U. S. C. 1003). However, the Postmaster General desires voluntarily to give postal patrons an opportunity to present their written views concerning the proposed regulations. Accordingly, the final regulations to be adopted by the Department will be considered in the light of such views which may be received.

Comments may be submitted to Richard S. Farr, Acting Assistant General Counsel, Room 5226, Post Office Department, Washington 25, D. C., at any time prior to November 1, 1958.

The proposed amendment is as follows:

In Part 15—Matter Mailable Under Special Rules, amend § 15.5 *Concealable firearms* by the addition of a new paragraph (h) to read as follows:

(h) *Gas, air, spring-action pistols.* Gas and air pistols, as well as those which operate solely by a spring action, are regarded as firearms and their mailing must comply with the requirements of this section.

NOTE: The corresponding Postal Manual section is 125.5.

(R. S. 161, as amended, 396, as amended, sec. 1, 62 Stat. 781, as amended; 5 U. S. C. 22, 369; 18 U. S. C. 1715)

[SEAL] HERBERT B. WARBURTON,
General Counsel.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1014]

[Docket No. AO-304]

HANDLING OF MILK IN MISSISSIPPI GULF COAST MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order regulating the handling of milk in the Mississippi Gulf Coast marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 20th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed marketing agreement and order, as hereinafter set forth, were formulated, was conducted at Gulfport, Mississippi, on April 15–18, 1958, pursuant to notice thereof which was issued March 25, 1958 (23 F. R. 2073).

The material issues of record relate to:

1. Whether the handling of milk produced for sale in the proposed marketing area is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk or its products;

2. Whether marketing conditions show the need for the issuance of a milk marketing agreement or order which will tend to effectuate the policy of the Act; and

3. If an order is issued what its provisions should be with respect to:

(a) The scope of regulation;

(b) The classification and allocation of milk;

(c) The determination and level of class prices;

(d) Distribution of proceeds to producers; and

(e) Administrative provisions.

Findings and conclusions—1. *Character of commerce.* All milk to be regulated by the proposed marketing agreement and order is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk and its products.

There is regular interstate commerce in the distribution of milk. One distributor whose plant is located just outside Mobile, Alabama, distributes approximately half of the total quantity of milk sold in Pascagoula and other portions of Jackson County. Another handler makes regular distribution of milk in several Gulf Coast cities from a plant located in New Orleans, Louisiana. Also, distributors from outside Mississippi frequently bid on the contract for Keesler Air Force Base at Biloxi. At the time of the hearing, the major part of the Keesler Field contract was supplied by a distributor whose plant is located at Pensacola, Florida. Within recent years part of the contract has also been held by a Shreveport, Louisiana, handler and by the previously mentioned Mobile handler.

The procurement of milk is also interstate in character. A plant located at Picayune, Mississippi, from which milk is distributed in the marketing area obtains its entire supply of milk from a receiving station operated by the Louisiana-Mississippi Milk Producers Association at Poplarville, Mississippi. The Poplarville station receives milk from farms located both in Mississippi and Louisiana and at the time of the hearing was serving primarily as a receiving station for the New Orleans market. It was a fully regulated pool plant under the New Orleans milk marketing order. There is also considerable overlapping of milksheds between the Gulf Coast and the Central Mississippi Federal order market. The Central Mississippi market, in turn, is directly involved in interstate commerce. Several Central Mississippi handlers, regulated under that order, not only procure milk in direct competition with Gulf Coast handlers but also distribute milk in the Gulf Coast area.

Producers for the Mississippi Gulf Coast market supply milk primarily for fluid use. However, there is necessarily some reserve for daily and seasonal variations in sales and production. This reserve milk is commonly manufactured into such storable dairy products as butter, nonfat dry milk, and cheese which compete directly with similar products which are marketed nationally. At times such reserve milk from the Gulf Coast market has been moved in fluid form to a plant in Louisiana for manufacture.

2. *Need for an order.* The issuance of a marketing agreement or order will tend to effectuate the declared policy of the Act.

Stability of marketing conditions, together with a reasonable certainty of an adequate supply of pure and wholesome milk, can be assured for the Gulf Coast marketing area by providing for equal costs of milk according to use for each handler distributing milk in the area or supplying milk to such distributors and by providing for all farmers to share equally in proceeds from the sale of their milk to these handlers. These conditions do not now exist.

Producers supplying milk to plants which would qualify as pool plants hereunder are represented by three cooperative associations. Two of these associations have had very little success in bargaining with the distributors with respect to prices to be paid for their milk, the quantities used in each class, the checking of weights and butterfat tests, or the furnishing of essential market information. The other cooperative has had somewhat greater success in these matters because it operates a receiving station at which the milk is received from members and transferred in bulk to the bottling plant of the distributor.

Some of the producers supplying several of the local plants belong to the Mississippi Milk Producers Association. For a period of several months, one of the handlers at Biloxi was subject to the Central Mississippi order. During that time the Mississippi Milk Producers Association performed marketing services for its members supplying this plant. When the plant was no longer subject to the order, the Association was unable to continue representing its producers with respect to marketing services or price bargaining. At the time of the hearing the Association performed no marketing services for its members at this or the other plants which would be subject to a Gulf Coast order.

Other producers serving the local plants belong to the Gulf Coast Dairymen's Association. This Association has also been unsuccessful in its efforts to perform marketing services for its members, to bargain for price, or to obtain check-off of association dues.

The third cooperative association of producers is the Louisiana-Mississippi Milk Producers Association. It owns and operates a receiving station at Poplarville, Mississippi, and at the time of the hearing this plant was qualified as a pool plant under the New Orleans order. The association ships a full supply of milk by bulk tank to the Picayune, Mississippi, plant of the Brown's Velvet Dairy Products, Inc. Under such an arrangement, this association obviously has substantial influence on the marketing of its members' milk. It can effectively represent them in bargaining for prices and has complete control over the weighing and testing of member milk, payments to producers and providing of marketing information.

The Gulf Coast area lacks a complete system of classifying and pricing milk in accordance with the use made of it by distributors. A partial program of classification and pricing is carried out under the State of Mississippi Milk Audit Law. However, this program is limited in several important respects, including the fact that it provides for an announcement of minimum class prices to be paid to producers by handlers but does not specify such minimum prices, does not apply to milk originating outside the State, and provides market information only for the State as a whole rather than for the several marketing areas within the State.

A retail price war between distributors was developing in the Gulf Coast area while the hearing was in progress. In this particular instance the price competition did not originate from a reduction in prices paid for milk to producers since the distributors who were most aggressively reducing prices were fully subject to Federal orders in the Central Mississippi and New Orleans markets. However, one of the means available to local distributors in meeting the competition created by lower retail prices was to reduce the prices paid to the local dairy

farmers. Obviously, if the Gulf Coast dealers were required by a Federal order to pay specified minimum prices to producers for milk used in each class, any reduction they might make in retail and wholesale prices would have to be financed from their own operating margins rather than by any reduction in prices paid to dairy farmers.

A second instance of price instability involves the contracts to supply milk to Keesler Air Force Base at Biloxi. Contracts for the mess hall and commissaries at the base are let quarterly. Commissary privileges are extended not only to military personnel but to civilian employees at the base. Some of the handlers who would be regulated under the proposed order regularly submit bids for these contracts and have frequently obtained one or both contracts in the past. At the time of the hearing, however, the contracts were held by the operator of a plant located at Pensacola, Florida. The prices paid to dairy farmers for milk to supply this contract were well below the competitive level of prices paid for milk for bottling purposes. It appears highly probable that the milk used to supply the contract was a seasonal surplus of Grade A milk which would otherwise have had to be utilized for manufacturing purposes and did not represent a supply which would be available on a regular basis for this market.

The lack of a complete system of classified pricing and the inability of producers to achieve orderly marketing conditions through cooperative association activities clearly demonstrate the need for a Federal order to establish and maintain orderly marketing conditions throughout the Gulf Coast marketing area. In addition to the essential pricing and pooling functions of an order, the audit of records and receipts of utilization of milk, the checking of butterfat tests and weights of milk and the publication of the current marketwide information will contribute greatly to the achievement of this objective in this market.

3. *Order provisions*—(a) *Scope of regulation.* Federal milk orders achieve marketing and pricing stability by using techniques authorized by the Agricultural Marketing Agreement Act of 1937, as amended. Important among these techniques are the requirements that (1) regulated distributors (handlers) pay at least specified minimum prices to producers in accordance with a classified use plan established in an order, and (2) these payments are distributed to each producer on a uniform basis through either an individual-handler pool, or a marketwide pool. Under the circumstances it is important to establish clearly which plants and which milk will be subject to all or part of the pricing provisions of the orders and, in turn, which producers will participate in the distribution of returns through the equalization pool. To identify such persons and to facilitate reference to them throughout this decision and in the proposed orders, such terms as marketing area, producer, types of milk plants, handler, producer milk, and other source milk are defined and are used herein.

Marketing area. The Mississippi Gulf Coast marketing area should include all the territory within the outer boundaries of Jackson, Harrison, Hancock, George, Stone, Pearl River, and Greene Counties in Mississippi. This territory comprises a contiguous area within which there is such competition in the sale and procurement of milk as to constitute a distinct marketing area to which a single system of pricing is applicable.

This seven-county marketing area constitutes the block of territoy bordering the Gulf Coast and extending north to the southern boundary of the Central Mississippi milk marketing area, except that Beat 2 of Lamar County is not included in the Central Mississippi area and was not proposed for inclusion in the Gulf Coast market. The major cities in the area are Biloxi, Gulfport, and Pascagoula, all of which are located on the Gulf. The total population in the proposed area is just over 200,000.

The area is served mainly by six local handlers. One distributing plant is located at Picayune, one at Gulfport, two at Biloxi, one at Pascagoula and one in Lucedale. Several of these distributors sell throughout most of the defined area and only one of them has any significant volume of sales outside the defined area. In this respect these counties form an unusually homogeneous market. This group of handlers receives approximately 4 million pounds of milk per month from about 500 producers.

The sanitary requirements relative to the production, processing and sale of milk are uniform throughout the area. The State of Mississippi standards are effective throughout the territory and are uniformly applied in all the jurisdictions. The extensive overlapping of sales territories by the plants located in the market and the acceptance of milk of comparable sanitary standards from plants located outside the area demonstrate the uniformity of these standards.

Although the local handlers sell very little milk outside the area, several outside handlers have distribution in the Gulf Coast. Some handlers whose plants are regulated under the Central Mississippi order sell comparatively small volumes of milk in the Gulf Coast area. Milk is also sold in several Gulf Coast locations by a distributor regulated under the New Orleans order.

The major competition from outside sources is provided by the Dairy Fresh Corporation operating a distributing plant at Pritchard, Alabama, just north of Mobile. This handler has extensive Class I sales in Pascagoula and throughout Jackson County. At various times he has also had part of the contract to supply milk to Keesler Air Force Base, near Biloxi in Harrison County. His primary sales territory is the city of Mobile, Alabama, and surrounding areas. His principal source of milk supply is a receiving station located at Greensboro, Alabama. The milk purchased there from dairy farmers is subject to the regulations of the Alabama Milk Control Board.

The Dairy Fresh Corporation proposed that Jackson County, Mississippi, be eliminated from the proposed marketing area. This handler has steadily increased his volume of sales in Jackson County since World War II. The record evidence is conflicting as to the proportion of Class I sales in Jackson County made by this handler but it is apparent that he does approximately half of the total Class I business.

Jackson County is an important outlet for the milk of proponent producers. Gulf Coast handlers still supply approximately one-half of the fluid sales in the county. One of them does the major portion of his business in the county. Accordingly, it is concluded that Jackson County should be included in the Mississippi Gulf Coast marketing area.

It is intended that the sales of fluid milk from piers, docks and wharves and to crafts moored thereat be included as sales in the marketing area. It is also intended that the area include all of the territory occupied by Government reservations, institutions or other such establishments whether municipal, State or Federal, if they lie within the limits of the area as defined. The quality requirements for milk for such outlets are similar to those for milk sold in other parts of the marketing area. These installations, by location, represent logical areas of distribution for handlers who would become regulated under the proposed order or for regulated handlers under adjacent Federal orders. Unless they are included, regulated handlers will be placed at a serious disadvantage in competing with unregulated handlers for such sales. The inclusion of these areas will assure as between handlers uniform minimum cost of milk received from producers.

Definitions. The term "route" is used in the definition of distributing plant and pool plant to cover a number of types of distributing operations in which handlers may engage in the proposed marketing area. "Route" should be defined as a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product, other than a delivery to any milk processing plant.

The definition of a pool plant should be such as to determine which plants will be subject to pool regulation and which dairy farmers will be considered as producers and their milk included in the determination of a marketwide uniform price. Pool plant standards are needed because some of the plants involved in supplying milk to Gulf Coast area consumers are also involved in other areas. The pool plants should be those whose operations are identified in a substantial way with the Gulf Coast market and who are not more substantially associated with some other Federal milk marketing area.

Milk handling plants may conveniently be classified in two major groups according to the functions they perform. One consists of the distributing plants at which milk is processed, bottled, and distributed on routes in the marketing area. The second category of plants is those at which milk is received from dairy farmers, cooled, and combined into tank truck loads for shipment to the bottling plants. These

plants are commonly referred to as supply plants. The order should include specific definitions of each of these two types of plants, preliminary to the subsequent definition of pool plants.

A "distributing plant" should be defined as a plant at which fluid milk products, conforming to the Grade A sanitation requirements of any duly constituted health authority having jurisdiction in the marketing area, are processed and packaged and from which fluid milk products are disposed of on a route(s) in the marketing area.

A "supply plant" should be defined as a plant at which milk, produced in conformity with Grade A health regulations for the marketing area, is received from dairy farmers and from which fluid milk products are moved to a distributing plant.

A "pool plant" should be specifically defined as (1) a distributing plant from which 20 percent or more of the total receipts of Grade A milk is distributed as fluid milk products on routes in the marketing area and 50 percent or more on routes either within or outside the marketing area, or (2) a supply plant from which 50 percent or more of the milk received from dairy farmers in any given month is shipped to distributing plants which qualify as pool plants. It should also be provided that if a supply plant qualifies as a pool plant during each of the low production months of September through January, it should be able to retain pool plant status during the following flush months of February through August without making additional shipments.

The requirement that at least 20 percent of the total supply at a distributing plant be sold as fluid milk products within the marketing area is an appropriate standard for designating such plants as pool plants. Any plant with a lower proportion of its business in the marketing area would be primarily identified with some other market. It would be inequitable to require that such a plant pay the Gulf Coast class prices on its entire sales or that the producers supplying such plant be included in the Gulf Coast utilization pool. Such a plant should, however, be subject to partial regulation with respect to the volume sold in the marketing area, as hereinafter described.

The requirement that at least half of the total supply at a distributing plant be distributed on routes in the form of fluid milk products is necessary to distinguish between plants which are primarily identified with the market as distributing plants and those which are primarily engaged in supply plant and milk manufacturing operations. All of the plants presently associated with the market as distributing plants utilize nearly their entire supply of milk for fluid purposes, do not supply significant quantities of milk to other plants, and have only limited facilities for the processing of milk into manufactured products.

With respect to supply plants, the requirement that at least 50 percent of the milk received from dairy farmers be shipped to Gulf Coast distributing plants demonstrates a primary association with this market and is an appropriate pool plant standard. The demand for milk from supply plants is commonly greatest during the fall and winter months of lowest production. On the other hand, during the flush production months, the demand on supply plants is normally lowest, and the milk is either manufactured in the supply plant or shipped to manufacturing plants instead of being shipped to the distributing plants. Accordingly, any supply plant which qualifies as a pool plant during the five low-production months of September through January is, in fact, an integral part of the market supply of milk for fluid purposes. Such plant and producers shipping thereto should therefore remain pooled during the subsequent flush production season regardless of the proportion of milk actually shipped to distributing plants unless the operator specifically requests nonpool status.

A "handler" should be defined as (1) any person in his capacity as the operator of a pool plant(s), (2) the operator of a nonpool distributing plant with route distribution in the marketing area, or (3) a cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant.

The handler is the person who receives milk from producers and who is responsible for reporting receipts and utilization of milk and payment thereof, with certain exceptions noted below. A cooperative association which markets the milk of its producer members may for short periods of time need to divert producers' milk from pool plants to nonpool plants. If the association is defined as a handler for such milk, even though it has no plant, the producers whose milk is so diverted should continue to receive the uniform price under the order until their milk will be needed for fluid use.

"Producer-handler" should be defined as any person who operates both a dairy farm and a distributing plant and who receives no milk from other dairy farmers or nonpool plants. The order is not intended to establish minimum prices for such operators, but they should be required to make reports to the market administrator. Such reports are necessary to determine whether the operator is a producer-handler.

The limitations of the proposed producer-handler definition would remove any cost advantage that a producer-handler might gain over a pool handler through the purchase of supplemental milk. By limiting the supply of a producer-handler to his own production and receipts from pool plants, he could not receive unpriced milk and retain his producer-handler status. He must, therefore, purchase his supplemental needs from pool plants and such milk would be priced as Class I.

At the hearing, consideration was given to a quantity limitation on the Class I sales of a producer-handler. At present, however, only two small-scale producer-handlers are serving the market. Moreover, the principal objective sought by the quantity limitation would be achieved by limiting producer dealers to their own production and purchases from pool plants.

Classification provisions of the proposed order should provide that any milk, skim milk, or cream transferred from a pool plant to the plant of a producer-handler will be Class I milk. Any supplemental supplies of milk which may be obtained from pool plants may, by virtue of the type of operation involved, be presumed to be needed by the producer-handler for fluid use and should be classified in the supplying handler's plant as Class I milk. A producer-handler may receive milk from pool plants and still maintain his status as a producer-handler. Pursuant to the attached order, any milk which a handler receives from a producer-handler would be other source milk and would, therefore, be allocated to the lowest class utilization at the pool plant of a handler after the allocation of shrinkage on producer milk.

"Producer" should be defined as a person, other than a producer-handler, who produces Grade A milk, in conformity with the sanitation requirements issued by a duly constituted health authority, for consumption in the marketing area as a fluid milk product and whose milk is received at a pool plant. It should also include a person whose milk is diverted from a pool plant by a handler, including a cooperative association, to a nonpool plant for the handler's account. Such milk should be deemed to have been received at the location of the pool plant from which diverted. In order to distinguish between milk which may be temporarily diverted and that which has become disassociated from the Gulf Coast market, some limitation on the length of time that milk may be diverted and still be considered as producer milk under the order is desirable. Based on the conditions in the market, it is concluded that milk of a dairy farmer which is diverted to a nonpool plant in excess of 10 days' production during the normally low production months of September through January should not be considered as producer milk under the order. Milk of a dairy farmer which is moved to a nonpool plant in a quantity that exceeds 10 days' production during any of the months September through January when the regulated plants are in greatest need of milk, is not sufficiently associated with this market to be priced and pooled with other producer milk. Unlimited diversion of milk during the flush months of February through August will facilitate the economical disposal of seasonal reserve supplies. Such provisions will permit milk regularly associated with the market to be diverted to manufacturing plants during periods of seasonal flush production and over weekends and holidays when supply and demand relationships may require some reserve to be manufactured in plants not regulated by the order. The diversion provisions will facilitate interplant movements of milk for the purpose of short time adjustments of supply and demand without depriving dairy farmers producing the regular supply for the market of their status as producers.

"Other source milk" should be defined to include all skim milk and butterfat contained in fluid milk products received

by a handler at his plant(s), except producer milk and fluid milk products received from other pool plants. Any receipts from a producer-handler would be other source milk since such a person is neither producer nor the operator of a pool plant. This definition would also include milk products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed and converted to another product in the plant during the month. Supplemental supplies of other source milk from nonpool plants are occasionally needed and the amounts needed vary from season to season and between handlers.

"Fluid milk product" is specifically defined in the order because of frequent references to this group of items. The fluid milk products are those which constitute Class I use and should be defined as all the skim milk (including concentrated and reconstituted skim milk) and butterfat disposed of in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks or concentrated milk (not sterilized or in hermetically sealed containers), eggnog, yogurt, cream (sweet or sour), and any fluid mixture of cream and milk or skim milk (except aerated cream, ice cream mix, and frozen dessert mix).

(b) *The classification and allocation of milk.* Milk should be classified in two classes reflecting the principal differences in the value of milk used for different purposes. Class I should include all skim milk and butterfat disposed of for consumption as a fluid milk product and Class II should include the manufacturing uses.

Because skim milk and butterfat are not used in most products in the same proportions as received from producers, these components should be accounted for and classified separately. Class prices, however, will apply per hundredweight of milk, and will be adjusted for the butterfat content of the milk actually used in each class through butterfat differentials.

The fluid milk products which are included in Class I are those distributed to consumers in fluid form and required by the health authorities having jurisdiction in the marketing area to be obtained from milk or milk products from Grade A sources. The extra cost of Grade A quality milk produced and delivered to the market in the condition and quantities required makes it necessary to provide a price for milk used as Class I somewhat higher than for milk used for manufacturing purposes. It is appropriate that all of the products required to be from Grade A milk be included in a single class so that all milk required to make such products may contribute uniformly to the cost of supplying the market needs for Grade A milk. Plant loss of producer skim milk and butterfat in excess of 2 percent and skim milk and butterfat not accounted for as Class II should also be classified as Class I.

Reserve milk not needed seasonally, or at other times such as weekends, for Class I use must be disposed of for use in manufactured products. These products are not required to be made from inspected milk, must be sold in competition with products made from uninspected sources produced over a large area and generally are less perishable than fluid milk products. Milk so used should be classified as Class II and priced in accordance with its value in such outlets.

Class II should therefore include skim milk and butterfat used to produce any product other than a fluid milk product, including but not limited to such products as ice cream, ice cream mix, ice milk, frozen desserts and mixes, frozen cream, aerated cream, dried milk products, whole and nonfat, condensed or evaporated products, butter, cottage cheese and hard cheese. Class II should also include plant loss of other source milk, actual plant loss on producer milk not in excess of 2 percent, all skim milk dumped or accounted for as disposed of for livestock feed, and inventories of fluid milk products on hand at the end of any month. Cream which is frozen and placed in storage should be Class II since such cream is intended primarily for use in ice cream or ice cream mix. Any frozen cream or other Class II products which may be used later in a fluid milk product would be considered as other source milk at the time of such use and assigned to the lowest priced utilization in the plant.

Handlers have inventories of fluid milk products at the beginning and end of each month which must enter into the accounting for current receipts and utilization. The record testimony indicates that an appropriate classification of the inventory of fluid milk products is as Class II. This manner of classifying inventory with correlated steps in the allocation procedure provides a means of charging each handler for his Class I sales each month at the current Class I price. Fluid milk products whether in bulk or packaged form should be inventoried and classified as Class II. Manufactured milk products are not included in inventory accounting because the skim milk and butterfat used for such products are accounted for in the month when such products are manufactured.

Uniformity of cost to handlers and simplicity of accounting are achieved if, so far as possible, Class I utilization each month is assigned to current receipts of producer milk. This can be accomplished by classification of closing inventory as Class II, and allocation of opening inventory to Class I only when current receipts of producer milk (except allowable Class II shrinkage) are less than Class I sales. In such case the handler should pay the difference between the Class II price for such milk in the preceding month and the current Class I price. The volume on which this charge is made should not exceed the volume (in excess of allowable Class II shrinkage) for which producers were paid at the Class II price in the preceding month.

Inventories of products designated as Class I on hand at a pool plant at the beginning of any month during which such a plant becomes qualified for the first time should likewise be subtracted from the Class II utilization of such plant. This will preserve the priority of assignment of current producer receipts to current Class I use for each month.

The allocation of inventory to Class I which is in excess of the producer milk classified as Class II in the preceding month should be subject to the same rate of compensatory payment as a current receipt of other source milk.

Unaccounted for milk in excess of a reasonable allowance for plant loss should be Class I so as to require full accounting by handlers for their receipts. Two percent is considered a reasonable maximum allowance for plant loss. No limit need be put on shrinkage of other source milk since such milk is deducted from the lowest use class under the allocation procedures. Since it is not feasible to segregate shrinkage of producer milk from that of other source milk in the same plant, total shrinkage is prorated on the basis of the volume of receipts. Allowance for loss on producer milk diverted to another pool plant should be at the pool plant where actually received. When milk is moved in bulk from one pool plant to another pool plant the loss on producer milk should be prorated at the rate of 0.5 percent to the shipping plant and 1.5 percent to the receiving plant to reflect the greater losses in the bottling operation. Each handler must be held responsible for full accouuting of all his receipts of skim milk or butterfat in any form. The handler who first receives the milk from producers should be responsible for establishing the classification of and the payment for producer milk. Except for such limited quantities of shrinkage as may be classified in Class II, all skim milk and butterfat which is received and for which the handler cannot establish utilization should be classified as Class I milk. This provision is necessary to remove any advantage to handlers who fail to keep complete and accurate records and to assure that prbducers receive full value for their milk on the basis of its use.

Transfers of milk between plants. Classification of butterfat and skim milk used in the production of Class II items should be considered to have been established when the product is made. Classification of Class I milk should be established when the butterfat or skim milk is disposed of. However, since some Class I items may be disposed of to other milk plants for processing, separate classification procedure should be prescribed for transfers to other plants.

Milk, skim milk, cream or other fluid milk products transferred by a handler to the pool plant of another handler should be classified as Class I milk unless both handlers indicate in their reports to the market administrator that they desire such milk to be classified as Class II milk. However, sufficient Class II utilization must be available at the transferee plant for such assignment after prior allocation of shrinkage and other source milk, as described below. On the other hand, if the transferring handler had other source milk during the month, the assignment of products

transferred to another plant to the Class I utilization of such plant should be limited so that other source milk in the transferring handler's plant will not be allocated to Class I milk while at the same time producer milk is allocated to Class II milk in the transferee handler's plant.

Milk, skim milk or cream transferred or diverted from Mississippi Gulf Coast pool plants to nonpool plants should be classified as Class I to the extent that the receipts from regulated plants under this order or any other order exceeds the Class II usage in the nonpool plant. In the event fluid milk products are received at a nonpool plant from more than one plant regulated by a Federal order, any skim milk or butterfat classified as Class I at such a nonpool plant should be shared pro rata between pool plants of this and other orders. In order to substantiate a Class II classification the nonpool plant must have and make available records adequate to verify any Class II utilization claimed.

There was no evidence indicating that the Mississippi Gulf Coast market carries milk supplies for other markets and therefore producers have no claims of priority to Class I sales in other markets resulting from transfers from pool plants to nonpool plants in such markets. Accordingly, only ungraded supplies at the nonpool plant are assigned to Class II uses before the milk transferred from a Gulf Coast pool plant is assigned.

Allocation. When handlers receive butterfat and skim milk from sources other than from producers, it is necessary to provide a method for allocating such receipts to the classes of utilization in such a manner as to determine the classification of producer milk. Inasmuch as producer milk is the regular available supply for fluid consumption in the marketing area, producer milk should be assigned the Class I utilization in preference to other source milk. This is necessary to insure the effectiveness of the classified pricing program of the proposed order. The system of assigning utilization of milk to receipts from different sources which will carry out this objective is set forth in detail in the proposed marketing agreement and order.

In general this procedure requires that skim milk and butterfat, respectively, remaining in each class be assigned to producer milk by making the following deductions from the gross utilization of each handler starting with Class II milk, except as otherwise noted:

(1) Class II shrinkage of producer milk;

(2) Other source milk unregulated;

(3) Other source milk under Federal regulation;

(4) Beginning inventory;

(5) Receipts from other handlers (according to classification);

(6) Add shrinkage deducted in (1); and

(7) Overage.

Since uniform prices paid producers by each handler are to be calculated monthly, the assignment of utilization described above should be carried out with respect to all receipts during the month.

(c) *Class prices.* For the first 18 months the order is in effect, the Class I price for the Mississippi Gulf Coast market should be the same as the Class I price under the Central Mississippi milk marketing order.

The Gulf Coast marketing area is bounded on the north by the Central Mississippi marketing area. There is substantial competition between the two markets, both in procurement and sale of milk. With respect to procurement, over 15 percent of the total number of shippers supplying the Gulf Coast handlers are actually located within the Central Mississippi marketing area. Conversely, substantial numbers of Central Mississippi producers shipping to handlers located at Hattiesburg and other points are located in these same counties and in the seven counties which comprise the Gulf Coast marketing area. In addition, several Central Mississippi handlers make regular route sales of milk in the Gulf Coast.

There is also substantial competition between the Gulf Coast and New Orleans markets. The plant operated by the Louisiana-Mississippi Milk Producers' Association at Poplarville, Mississippi, is regulated as a pool supply plant under the New Orleans order. From this plant the association also furnishes a full supply of milk by bulk tank truck to a Picayune, Mississippi, bottling plant which would be subject to regulation hereunder. In addition, a New Orleans distributor has regular route sales in the southwestern portion of the Gulf Coast market. Under the New Orleans order the Class I and uniform prices are announced at the 60–70-mile zone. Poplarville is in the 81–90-mile zone and has a minus 4-cent differential.

In both the New Orleans and Central Mississippi orders, Class I prices are set at stated differentials over identical basic formula prices. In New Orleans the differentials are $2.30 during the flush months of March through June and $2.50 in the other 8 months, for an average of $2.43. In Central Mississippi the differentials for the corresponding months are $1.85 and $2.25, for an average of $2.12. The New Orleans Class I price is further subject to a supply-demand adjustment which raises the differential whenever supplies are below normal in relation to Class I sales and lowers it when an over-supply is indicated. In each of these orders the Class I prices have been in effect for a sufficient length of time to demonstrate that they are adequate to induce the production of a sufficient supply of pure and wholesome milk for the needs of the market.

Since the Gulf Coast market is most directly in competition with Central Mississippi, that market rather than New Orleans should serve as the primary determinant of Class I prices in the Gulf Coast. The Gulf Coast is, of course, more distant from the usual sources of supplemental milk (Missouri, Iowa, Minnesota, and Wisconsin) than the major cities in Central Mississippi. Supplemental milk would, therefore, be expected to cost more because of the added transportation to Gulf Coast points. On the other hand, the location adjustment which would apply to milk furnished to Central Mississippi from a plant at Gulfport would be 10.5 cents per hundredweight. However, the primary competitive factor in this case is the procurement of milk. Many of the shippers in the northern portion of the Gulf Coast market and in the southeastern portion of the Central Mississippi market can readily ship to either area at approximately the same hauling cost. By setting the Gulf Coast Class I price at the same level as in Central Mississippi, the blend prices will determine which market is the more attractive to these producers. They will tend to ship to the market with the higher blend price and this will be the market in which supplies are lowest in relation to Class I sales.

Some time after the order has been in operation a full year, a hearing can be called to consider more permanent Class I price provisions. At such time considerable marketwide data on all aspects of the marketing of milk in the area will have become available. These data can be expected to provide for a reappraisal of the Class I price structure.

Class II price. The Class II price should reflect the value of milk for general manufacturing uses in the Mississippi Gulf Coast milkshed. The average of the prices paid at four Mississippi dairy manufacturing plants provides an appropriate indication of the value of milk for such uses in the area. The four plants selected are in the general area of the Mississippi Gulf Coast milkshed and are not operated or controlled by persons who will be handlers under the order.

To the monthly average of prices paid at local dairy manufacturing plants 10 cents per hundredweight should be added for the months of March through July and 20 cents in all other months. The proposed Class II price will be the same as the Class III price under the Central Mississippi order and will be slightly lower than the New Orleans Class II price. In 1957 the Central Mississippi Class II price averaged $3.29 while the New Orleans Class II price averaged $3.31.

The cooperative associations are in a position to divert milk directly from producers' farms to a manufacturing plant if the occasion arises. There are a number of plants located within the surplus disposal area where the associations would be able to dispose of reserve supplies of milk.

However, the proposed Class II price will be a level that will tend to discourage handlers from procuring needless supplies of Grade A milk for Class II uses and thus will tend to maximize returns to producers for Grade A milk used in Class II.

Butterfat differentials. Butterfat and skim milk will be accounted for separately for classification purposes since they are not used in most products in the same proportions as received from producers. The basic test for which class prices are determined is 4.0 percent butterfat content, the usual fat test at which prices are quoted in the area, and on which the market has operated for

many years. It will then be necessary to adjust Class I and Class II prices of milk to handlers in accordance with the average test of milk used in each class. Butterfat differentials which reflect differences in value due to differences in butterfat content are used for this purpose.

Producers proposed that the handler butterfat differential for Class I milk be 0.12 times the Chicago price of 92-score butter. In the Mississippi Gulf Coast area, fluid cream must be from Grade A milk and is therefore priced as Class I milk. Butterfat in cream from inspected sources sold as fluid cream or cream mixtures has a higher value than that in ungraded milk which will be approximately reflected by a butterfat differential 0.12 times the Chicago butter price. Such a differential should be used to adjust the hundredweight price of Class I milk for each one-tenth percent variation for 4.0 percent butterfat content. The Class II butterfat differential should be 0.11 times the Chicago butter price as proposed. Such a differential reflects an appropriate value of butterfat for Class II uses in this area.

The butterfat differential used in making payments to producers should be calculated at the average of the returns actually received from the sale of butterfat in producer milk. The rate to be used for this purpose would be the average of the Class I and Class II differentials weighted by the proportion of butterfat in producer milk classified in each class. Thus, producer returns for butterfat will reflect the actual sales value of their butterfat at the class differentials provided in the order. The producer butterfat differential in no way affects the handlers' cost of milk but merely divides returns among producers according to the varying butterfat tests of their milk.

Location differentials. Fluid milk products, because of their bulky, perishable nature, incur a relatively high transportation charge if moved a considerable distance. Milk delivered directly by farmers to plants in or near the urban centers in the marketing area is therefore worth more to a handler than milk which is received from farmers at a plant located many miles from the market. This is so because in the latter instance the handler must incur the additional cost of moving that milk into the central market. The producer, in turn, receives less for milk delivered to points distant from the market area in lieu of incurring the additional cost of hauling his milk into the central market. Under these conditions the value of producer milk delivered to plants located some distance from the central market is reduced in proportion to the distance (and the cost of transporting such milk) from the point of receipt to the central market.

Distant plants not subject to another order may become partially or fully regulated by this order. The operator of such a plant would incur a substantial transportation cost on the bulk or packaged milk before reaching any portion of the marketing area and should be allowed an offsetting credit in order to be fully competitive with the pool plants located within the marketing area. The means of allowing for transportation costs under the order is to establish the Class I price for such milk delivered to plants at a point in the market and then provide a schedule of deductions from the Class I price as location differentials. This will place all handlers on an equal competitive basis on the Class I milk distributed in the marketing area.

In applying location differentials under the Mississippi Gulf Coast order the mileage zone of a plant should be determined by the shortest highway distance, as determined by the market administrator, from the Court House at Gulfport or Pascagoula, Mississippi, whichever is closer. These cities are so situated with respect to the overall marketing area so that basing location differential mileage zones from the nearer of them would be equitable to all handlers.

Because of the close competition between the plants which are located within the marketing area, it would be inappropriate to have location differentials applicable at such plants. Accordingly, it is concluded that the announced Class I price would be applicable at all plants located less than 100 miles from either Gulfport or Pascagoula, whichever is closer. For plants which are located in the 100–110 mile zone the Class I price should be reduced by 15 cents and by an additional 1.5 cents for each additional 10 miles or fraction thereof that such plant is located beyond 110 miles.

The location differential proposed herein is economically sound and will be applicable to all handlers wherever located. The proposed rates are fundamentally the same as those contained in various other orders and are representative of the cost of hauling milk by an efficient means to the market.

The producer should receive less for milk delivered to points which are distant from the marketing area in lieu of incurring the additional cost of hauling his milk to the marketing area. Under these conditions the value of producer milk delivered to plants should be reduced in proportion to the distance that such plant is from Gulfport or Pascagoula, Mississippi, by the same rate that applies to Class I milk.

Equivalent price. An equivalent price provision is designed to meet an emergency situation in which a price quotation necessary in the determination of class prices, or for any other purpose, may not be available. In such event, the Secretary would determine a price equivalent to the price quotation normally available. The provision proposed will remove uncertainty as to the procedure to be followed in the absence of any price quotation provided for in the order and thereby will prevent unnecessary interruption in the administration of the order.

Payments on unpriced milk. The order should provide compensatory payments with respect to unpriced milk which is allocated to Class I in a pool plant, in any month when receipts from producers exceed 112 percent of Class I utilization at all pool plants in the market.

Plant operators must have available a larger supply of milk than is necessary to fill their Class I requirements on any given day. Reserves are needed because production fluctuates seasonally without corresponding changes in the demand for Class I milk. Reserves are also needed to cover short-time fluctuations in receipts and for variations in Class I requirements resulting from 5- or 6-day bottling, the heavy weekend demand at grocery stores, holidays, and similar factors. The reserve milk is commonly manufactured into the more storable and transportable dairy products which are sold in competition with products made from manufacturing grade milk. The existence of this reserve Grade A milk, which must be marketed at a lower price, is a primary element of instability affecting fluid milk markets.

There are considerable volumes of such Grade A reserve milk close enough to be available to Gulf Coast handlers. A Grade A supply plant for the Houston, Texas, market operated by the South Texas Milk Producers Association at Magnolia, Mississippi, is one available source of unpriced reserve milk. The distributor from Pensacola who was holding part of the Keesler Field contract at the time of the hearing had apparently obtained another supply of such milk.

Since this reserve milk in other markets is ordinarily converted to manufactured dairy products, the seller would be willing to market it at any price which would net him more than the manufacturing value. Consequently, handlers under the Gulf Coast order could expect to obtain such reserve milk at approximately manufacturing values as reflected in the Class II price under the order. It is, therefore, appropriate that the compensatory payment on other source milk allocated to Class I should be the difference between the Class II price and the Class I price, adjusted to the location of the plant from which such other source milk was received from farmers. This rate will reflect generally the difference in value between unregulated and regulated milk for Class I use. The payment will, therefore, remove any competitive sales advantage which the regulated handler might otherwise obtain by substituting other source milk for available producer milk.

The compensatory payment should apply in all months except those in which the market supply of producer milk is inadequate to fill Class I requirements, including an operating reserve of 12 percent. On the basis of past experience, it appears that during times when producer supplies in the Gulf Coast market have not been adequate, the other nearby sources have also been in short supply. At such times milk must be obtained from Missouri, Wisconsin, or other distant sources and has commonly cost more delivered to Mississippi points than the Class I prices paid to local producers. Under these circumstances, there is no competitive advantage to be gained by the use of other source milk, and compensatory payments would be inappropriate.

It is administratively necessary to use the stated rate of compensatory payment

instead of attempting to determine an appropriate rate in each given case. Pool plant operators may obtain other source milk with little or no advance notice from a wide variety of sources. Any attempt to determine the actual cost of such milk to the regulated handler would be complicated by the number of plants involved, the fact that some of the plants supplying the other source milk might be operated by the same handler in which case the interplant billing would be purely arbitrary, the possibility of arbitrary billing even where the plants were not under common ownership, and the fact that the originating plant would not be subject to the audit and payment provisions of the order. It is, therefore necessary to have definite and specified rates applicable to all handlers similarly situated. The rates herein provided are those which will best effectuate the intent of the Act under current marketing conditions in the area.

Other source milk used in the form of concentrated milk products should be considered to be from a source at the location of the pool plant where it is used. In some instances there will be no, and in all cases insignificant, transportation charges per hundredweight experienced by handlers on such other source milk under the skim milk equivalent basis of accounting provided in the order. By following this procedure, the compensatory payment on other source milk derived from concentrated products, such as condensed milk or nonfat dry milk solids, will be comparable to that on any other source milk which is allocated to Class I milk.

No compensatory payments are required on milk which has been classified and priced under any other Federal order. The alignment of Class I prices for the Gulf Coast market with those provided under the Central Mississippi and New Orleans markets has already been described. It follows that there is little opportunity for handlers in any one of the markets to achieve any appreciable competitive advantage over handlers regulated by other Federal orders.

Another category of unpriced milk is that sold on routes in the marketing area by handlers operating nonpool plants. There are the plants which are primarily associated with some other market but from which less than 20 percent of the total supply is sold as Class I within the Gulf Coast marketing area. Also, it is conceivable that a distributing plant might fail to achieve pool status because less than half of its total receipts were disposed of in fluid form.

These nonpool distributors should have the choice of paying either the difference between the Class I and Class II prices on their sales within the area or any amount by which such operator has failed to pay his Grade A dairy farmers the use value of milk at order prices.

Handlers operating nonpool distributing plants are required to file such reports as will enable the market administrator to verify their nonpool status. Under the second option described in the preceding paragraph (that of proving minimum payments to dairy farmers) the nonpool distributor would file a complete report of receipts and utilization. From such reports, subject to audit, the value of his disposition of milk would be computed at the class prices adjusted for location and butterfat content in the same manner as for a pool plant. From this utilization value, the market administrator would subtract cash payments to the Grade A dairy farmers who constitute the regular supply of milk at the nonpool plant. Only such payments would be recognized as had been made to dairy farmers by the 20th day following the end of the delivery month. The payments would be the gross amount paid for milk delivered by farmers to the nonpool plant; the only deductions allowed would be those authorized in writing by the dairy farmers for supplies or services, including hauling. Any amount by which such payments fail to equal the utilization value of the milk would be payable to the utilization fund. In this way, the nonpool plant operator would be fully equated, so far as the utilization cost of his milk is concerned, with the pool plant operators.

In case the nonpool plant receives no milk or only part of its supply directly from dairy farmers, the application of these provisions should follow those which would be applied to similarly situated pool plants. For example, on the basis of the operations described in the record the Dairy Fresh Corporation plant at Prichard, Alabama, would be a nonpool plant. No milk is received directly from farms at the Prichard plant; its principal supply is from a receiving plant located at Greensboro, Alabama. In this instance, the Greensboro plant constitutes a supply plant and the entire operation there and at Prichard would be reported and audited to compare payments to dairy farmers delivering at Greensboro with class utilization and values of all milk received at and disposed of from the two plants.

The milk production area around Greensboro, Alabama, is entirely separate from that drawn upon by those Gulf Coast handlers who would be fully regulated hereunder. There was no proposal for extending regulation into Alabama, nor did producers there desire to be included under a Federal order at this time. In the circumstances, the Gulf Coast producers and handlers were concerned only that this Alabama handler, or any other nonpool handler who might be affected, be denied any competitive advantage based on minimum class prices paid to producers. They were not concerned about the possibility that nonpool handlers would have any competitive advantage in the procurement of milk through lack of pooling.

Other nonpool handlers may purchase some milk from dairy farmers and the remainder from other sources. The other source and dairy farmer milk will be allocated in the same fashion as if the plant were a pool plant, and compensatory payments computed if the other source milk did not come from plants subject to a Federal order.

The option of paying the difference between the Class I and Class II prices on the quantities sold as Class I in the marketing area should also be available to any handler operating a nonpool plant. Such payment will remove any competitive sales advantage as compared with fully regulated handlers just as in the case of other source milk allocated to Class I at a pool plant.

The assessment of administrative expenses should depend upon which option is chosen by the nonpool distributor. If he elects to pay the difference between Class I and Class II prices on his in-area sales, he should continue to pay administrative expense only on such quantities. However, if he elects the payment-to-dairy farmers option, he should pay administrative expense on his entire receipts from the Grade A dairy farmers. Obviously, the second option involves fully as much verification of receipts and utilization by the market administrator as at a pool plant. Such verification might well include the checking of weights and butterfat tests of receipts from dairy farmers and of the product sold as well as an audit of the books and records. Also, some of the fully regulated plants have nearly as large a proportion of out-of-area sales as a nonpool distributor yet are assessed administrative expense on their entire receipts.

(d) *Distribution of proceeds to producers; type of pool.* Returns from the sale of milk should be distributed to producers through a marketwide pool rather than through individual-handler pools. Under the marketwide pool, all producers regularly supplying the market would receive the same uniform price for their milk regardless of its utilization by the particular handler who received it. This type of pool provides for the uniform distribution among all producers in the market of the sales proceeds from the Class I and reserve supplies of milk.

A marketwide pool will also accommodate the previously described distribution of milk by the Alabama handler located at Prichard, Alabama, without either directly involving his primary market in Mobile, Alabama, through complete regulation or leaving his milk unpriced. It will be recalled that this handler will be an operator of a nonpool plant under this order and will be subject to the compensatory payment provisions applicable to such handler.

The marketwide pool will also contribute to the flexibility of milk marketing in the Mississippi Gulf Coast area in two important respects. One is that supplemental supplies can be freely distributed among handlers without affecting the prices paid to producers at each plant. The second is that temporary or seasonal reserves can be moved between plants either by transfer of the milk or of the shippers without affecting the prices paid to producers at the individual plants.

A marketwide pool will permit any handler to bid on contracts as those offered by military installations and other public institutions and to obtain supplies for such sales without upsetting

the market whenever the business might shift from one handler to another.

Base-excess plan. A base and excess plan of distributing returns for milk among producers for the purpose of encouraging level production should be adopted for this market.

A base and excess plan would be an effective means of improving the seasonal pattern of milk deliveries because it would relate producer returns directly to deliveries of milk during the low production months. Such a plan will help achieve a production pattern more nearly fitted to the sales pattern for fluid milk products in this area. A base and excess plan that is uniformly applied to all producers by being made a part of the attached order, will play an essential role in stabilizing marketing conditions in the Mississippi Gulf Coast area.

Fundamentally the base-excess plan proposed by the cooperative association and included herein is similar to that now being used by most of the handlers in the area. The period for base-making would be the months of September through January. Each producer would be assigned a daily base equal to his deliveries during that period divided by the number of days from the first day of his deliveries (using days of production in the case of a bulk tank shipper) to the last day of January, or by 120, whichever is more. The daily bases for each producer should be announced on or before March 1 of each year.

During the months of March through July separate uniform prices would be computed for base milk and excess milk for the purpose of allocating Class I sales first to base milk. Base milk would be that quantity of milk delivered by each producer up to his average daily base multiplied by the number of days in the month during which he delivers milk to any handler. The excess price would be the Class II price except in these months when the total Class I sales exceed the total quantity of base milk. During such months the excess price would be a blend of the Class I and Class II usage of excess milk. The base price is determined by dividing the total base milk into the remaining returns for all producers after subtracting the value of excess milk and the value of milk from producers with no base. The proposed method of arriving at uniform prices for base and excess milk will avoid the possibility that the price for base milk could exceed the Class I price.

Certain rules regulating the transfer of established bases were proposed and are adopted herein subject to some modification. Transfers within these rules should be made only on written request filed with the market administrator. The rules permit reasonable transfer of bases and correspond closely to present practices in the market.

The proposed rules provide for computing bases for dairy farmers on deliveries during the preceding base-forming period whenever any plant first achieves pool plant status in a base paying period. This provision will permit these producers to share equally with all other producers in the returns for milk.

Payments to producers and cooperative associations. The order should provide that each handler make final payment to each producer for milk received at the appropriate uniform price(s) on or before the 15th day after the end of each month. Since it has been the practice in this area for handlers to pay producers semimonthly, provision has been made for partial payments to producers on or before the 25th of each month for milk delivered during the first 15 days of such month at not less than the Class II price per hundredweight for the preceding month. No adjustment for butterfat content or location is required on such advance payment.

Provision should also be made for the handler, if authorized in writing by the producer, to make proper deductions from the final settlement for goods or services furnished, or for payments made on behalf of the producer.

The order should provide that handlers shall, if so requested, make payment directly to qualified cooperative associations for milk received from producer members of such association. This provision is necessary to enable producer cooperative associations to carry out their essential functions as authorized by the Act.

The successful operation of any classified pricing program and of a milk marketing order is dependent in large measure upon the cooperative marketing activity of producers supplying the market. The collective marketing activities of cooperative associations are of benefit not only to member producers, but also to producers not members of the association who are able to market their milk in a stable and orderly market at prices comparable to those received by association members. Under such marketing conditions, all producers are assured that they will be paid for their fair share of the fluid sales. They are assured, also, that their milk will not be displaced with milk purchased from other producers at lower prices than they received. The stable and orderly marketing conditions which may be achieved and maintained by cooperative action of producers likewise are of benefit to consumers and distributors in that they foster a dependable supply of pure and wholesome milk.

In order for a cooperative association to be able to carry out these functions, it is important that such association have full authority and not be impeded in collective bargaining and in selling milk. In order for a cooperative association to be able to market milk effectively and distribute returns therefrom to producer members, it may be necessary for them to receive payments for such milk. Thus, payments to all members of the association may be made in accordance with the association's pooling program authorized by the Act. Under the authority of the Marketing Agreement Act, payments may be received by a cooperative association on behalf of its members for milk caused to be marketed by the association.

At the time handlers make payment to producers or to cooperative associations for milk they should be required to furnish each such producer or cooperative association with a statement. This statement should show the pounds and butterfat tests of milk received, together with the rate or rates of payment for such milk and a description of any deductions claimed by the handler.

Producer-settlement fund. Since the amount which the order requires a particular handler to pay for his milk may be more or less than the amount he is required to pay to producers or cooperative associations, some method of balancing these amounts is necessary. A producer-settlement fund should be established for this purpose. All handlers who are required to pay more for their milk on the basis of their utilization than they are required to pay to producers or cooperative associations should pay the difference into the producer-settlement fund, and all handlers who are required to pay more to producers or cooperative associations than they are required to pay for their milk on the basis of utilization should receive the difference from the producer-settlement fund. Amounts paid into and out of the producer-settlement fund for this purpose will be equal except for minor differences that may result from rounding of uniform prices. In order to permit this rounding of prices, to allow for unavoidable delays in receiving payments from handlers, and to permit payments to be made to any handler which audit by the market administrator reveals is due such handler from the producer-settlement fund, a reserve should be held in the producer-settlement fund at all times. The amount of the reserve contemplated in the proposed order should be sufficient for these purposes. This reserve would be accumulated by deducting between 4 and 5 cents each month from the uniform or base price, as applicable, after adding half of the unobligated balance to the pool from which such prices are computed. Since excess milk will rarely share in the higher class uses of the market, and deduction for the reserve from the excess milk price would reduce this price below the level of ungraded manufacturing milk prices, excess milk need not contribute to this revolving reserve fund in months when payments are computed under the base-excess plan.

If at any time the balance in the producer-settlement fund is insufficient to cover payments due to all handlers from the producer-settlement fund, payments to such handlers should be reduced uniformly per hundredweight of milk. The handlers may then reduce payments to producers by an equivalent amount per hundredweight. Amounts remaining due such handlers from the producer-settlement fund should be paid as soon as the balance in the fund is sufficient, and handlers should then complete payments to producers.

(e) *Administrative provisions.* The remaining provisions of the order are of a general administrative nature, are incidental to the other provisions of the order, and are necessary for the proper and efficient administration of the order. They provide for the selection of a market administrator, define his powers and duties, provide for an administrative assessment, prescribe the information to

be reported by handlers and set forth the rules to be followed in making the computations required by the order. They also prescribe the length of time that records must be retained and provide a plan for the liquidation of the order in the event of its suspension or termination. They are similar to like provisions of other orders, and except as set forth below require no comment.

Expenses of administration. As his share of the expenses of administering this order each handler should pay not in excess of 5 cents per hundredweight with respect to all producer milk received, all other source milk received at a pool plant which was classified as Class I milk, and as prescribed in § 1014.61 of the attached order with respect to a handler operating a nonpool plant. The market administrator must verify receipts and utilization of all such milk; therefore all such milk should be subject to the expenses of administration. Experience in other markets indicates that 5 cents per hundredweight with respect to all such milk should yield sufficient money to cover expenses of administration. If payment of expenses of administration at the rate of 5 cents per hundredweight yields more money than is needed, provision is made for the Secretary to prescribe a lesser rate of payment from time to time.

Marketing services. A provision should be included in the order for furnishing market services to producers, such as verifying the tests and weights of producer milk and furnishing market information. These should be provided by the market administrator and the cost should be borne by the producer receiving the service. If a cooperative association is performing such services for any member-producers and is approved for such activities by the Secretary, the market administrator may accept this in lieu of his own service.

There is need for a marketing service program in connection with the administration of an order in this area. Orderly marketing will be promoted by assuring individual producers that payments received for their milk are in accordance with the classification, pricing and pooling provisions of the order, and reflect accurate weights and tests of such milk. To accomplish this fully, it is necessary that the butterfat tests and weights of individual producer deliveries of milk as reported by the handler be verified for accuracy.

An important phase of the marketing service program of the order is to furnish producers with correct market information. Efficiency in the production, utilization and marketing of milk will be promoted by the dissemination of current information on a marketwide basis to all producers.

In the case of producers who are members of the cooperative operating a plant, the matter of milk-testing and milk-weighing is under the complete control of such producers and is assessed against such producers either through an association check-off or as a plant operating cost. The bargaining associations were not performing check weighing and testing services at Gulf Coast plants at the time of the hearing. However, whenever such services are adequately performed by cooperatives, the market administrator need not duplicate the services. The additional service of providing market information to producers is carried on to some extent at present by the cooperatives although detailed information regarding market prices, supplies, and the utilization of milk is not available either to the cooperative associations and their members or the independent producers.

To enable the market administrator to furnish these marketing services, provision should be made for a maximum deduction of 7 cents per hundredweight with respect to receipts of milk from producers for whom he renders marketing services. If later experience indicates that marketing services can be performed at a lesser rate, provision is made for the Secretary to adjust the rate downward without the necessity of a hearing. In the event any qualified cooperative association of producers is determined by the market administrator to be performing such services for its members, handlers would be required to pay to the cooperative association such association dues as are authorized by its members.

Records and reports. Reports are required from handlers on receipts and utilization so that the market administrator may make the computations necessary to the marketwide pooling operation and the uniform price to producers. Handlers would also be required to submit payroll reports which would show the details of milk receipts from each producer, the value of the milk received from the producer, deductions therefrom, and net amount paid to the producer.

The order should provide limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time in which obligations under the order shall terminate. The provision made in this regard is identical in principle with the general amendment made to all orders in operation on July 30, 1957, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444) covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as a part of the decision.

Time schedule. Dates must be prescribed for announcing prices, filing reports and making payments. The following time schedule should allow all interested persons adequate time to perform each function. (These time limits apply to the indicated day of the month following the month for which computations are being made.)

Day of the Month and Function

6th—Submission of monthly reports of receipts and utilization by handlers.

6th—Announcement of class price and butterfat differentials by the market administrator.

10th—Announcement of uniform price and producer butterfat differential by market administrator.

12th—Payments by handlers of amounts due producer-settlement fund and expenses for administration and marketing services.

13th—Payments by market administrator due handlers from producer-settlement fund.

15th—Final payment to producers.

25th—Partial payment to producers.

Milk subject to other Federal orders. A handler who operates a plant at which minimum prices to dairy farmers are established under another order issued pursuant to the act, but nevertheless supplies milk for distribution in the Mississippi Gulf Coast marketing area should be exempt from the provisions of this order, except for reporting his volume of Class I sales in the marketing area. It would be impracticable to attempt to regulate a handler under two separate orders with respect to the same milk. The applicable order should be determined by the volume of Class I sales.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions, and the evidence in the record were considered in making the findings and conclusions set forth above.

To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or to reach such conclusions are denied for the reasons previously stated in this decision.

General findings. (a) The proposed marketing agreement and order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in public interest; and

(c) The proposed marketing agreement and order will regulate the handling of milk in the same manner as, and will be applicable to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order. The following order regulating the handling of milk in the Mississippi Gulf Coast marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the proposed order.

DEFINITIONS

§ 1014.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1014.2 *Secretary.* "Secretary" means Secretary of Agriculture of the United States, or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 1014.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

§ 1014.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 1014.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association, to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the Capper-Volstead Act.

§ 1014.6 *Mississippi Gulf Coast marketing area.* "Mississippi Gulf Coast marketing area", hereinafter called the marketing area, means all the territory, including incorporated municipalities and military reservations, within the counties of George, Greene, Hancock, Harrison, Jackson, Pearl River, and Stone, all within the State of Mississippi.

§ 1014.7 *Route.* "Route" means a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product, other than a delivery to any milk processing plant.

§ 1014.8 *Distributing plant.* "Distributing plant" means any plant at which fluid milk products, eligible for distribution in the marketing area under a Grade A label, are processed and packaged and from which fluid milk products are disposed of on a route(s) in the marketing area.

§ 1014.9 *Supply plant.* "Supply plant" means any plant at which milk eligible for distribution in the marketing area under a Grade A label, is received from dairy farmers and from which fluid milk products are moved to a distributing plant.

§ 1014.10 *Pool plant.* "Pool plant" means:

(a) A distributing plant, other than that of a producer-handler or one described in § 1014.62, from which during the month:

(1) Disposition in the marketing area of fluid milk products on routes is 20 percent or more of the total receipts of Grade A milk; and

(2) Total disposition of fluid milk products on routes is 50 percent or more of the total receipts of Grade A milk; or

(b) A supply plant from which during the month 50 percent or more of receipts from dairy farmers is moved to a plant described in paragraph (a) of this section. Any supply plant that was a pool plant during the months of September through January immediately preceding shall continue to be a pool plant each of the following months of February through August unless written notice to the market administrator is received before the first day of the month of its intention to withdraw in which case such plant shall thereafter be a nonpool plant, unless it again qualifies as a supply plant by shipping 50 percent or more of its receipts from dairy farmers to a plant described in paragraph (a) of this section.

§ 1014.11 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 1014.12 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of a pool plant(s);

(b) The operator of a nonpool distributing plant with route distribution in the marketing area; or

(c) A cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant in accordance with § 1014.14.

§ 1014.13 *Producer-handler.* "Producer-handler" means a dairy farmer who operates a distributing plant at which no fluid milk or fluid milk products are received during the month except his own production or transfers from a pool plant(s).

§ 1014.14 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is received during the month at a pool plant or is diverted by a handler from a pool plant to a pool plant or to a nonpool plant, which is not subject to another order issued pursuant to the Act, for the account of such handler but for not more than 10 days production during any months of September through January. Milk diverted for the account of such handler shall have been deemed to have been received at the plant from which it was diverted.

§ 1014.15 *Producer milk.* "Producer milk" means all skim milk and butterfat received at a pool plant directly from producers, or diverted pursuant to § 1014.14.

§ 1014.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month of fluid milk products except (1) fluid milk products from pool plants, and (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month, or for which other utilization or disposition is not established.

§ 1014.17 *Fluid milk product.* "Fluid milk product" means all the skim milk (including concentrated and reconstituted skim milk) and butterfat disposed of in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks or concentrated milk (not sterilized or in hermetically sealed containers), eggnog, yogurt, cream (sweet or sour) and any mixture in fluid form of cream and skim milk or milk (except aerated cream, ice cream mix, frozen dessert mix).

§ 1014.18 *Chicago butter price.* "Chicago butter price" means the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

MARKET ADMINISTRATOR

§ 1014.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1014.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary, complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1014.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon, satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 1014.88, the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 1014.87, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Verify all reports and payments of each handler by examination of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and by such other means as are necessary;

(h) Publicly disclose, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 1014.30 and 1014.31, or payments pursuant to §§ 1014.80 to 1014.82, 1014.84 and 1014.86 to 1014.88;

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing:

(1) On or before the 6th day of each month, the minimum price for Class I milk pursuant to § 1014.50 (a) adjusted by the applicable location adjustments pursuant to § 1014.52 and the Class I butterfat differential computed pursuant to § 1014.51 (a), both for the current month, and the minimum price for Class II milk computed pursuant to § 1014.50 (b) and the Class II butterfat differential computed pursuant to § 1014.51 (b) both for the previous month;

(2) On or before the 10th day after the end of each of the months of August through February, the uniform price computed pursuant to § 1014.71, adjusted by the applicable location adjustments pursuant to § 1014.82, and by the butterfat differential computed pursuant to § 1014.81; and

(3) On or before the 10th day after the end of each of the months of March through July, the uniform prices for base milk and for excess milk computed pursuant to § 1014.72, adjusted by the applicable location adjustment pursuant to § 1014.82, and the butterfat differential computed pursuant to § 1014.81;

(j) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report, the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by each handler; and

(k) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information concerning the operation of this order which do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

§ 1014.30 *Reports of receipts and utilization.* On or before the 6th working day, excluding Sundays and holidays, of each month each handler, other than a producer-handler or a handler making payment pursuant to § 1014.61 (a), shall report for the preceding month to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat in:

(1) Milk received from producers and for the months of March through July the total quantity of base and excess milk. In lieu thereof the operator of a nonpool distributing plant shall report aggregate receipts from dairy farmers who would be producers if such plant were a pool plant;

(2) Fluid milk products received from other pool plants;

(3) Other source milk; and

(4) Inventories of fluid milk products on hand at the beginning and end of the month; and

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including separate statements with respect to:

(1) Disposition of fluid milk products on routes within the marketing area from plants described in §§ 1014.61 and 1014.62, and from other plants for which the market administrator requires such information as a basis for determination of status or obligations; and

(2) Class I milk outside the marketing area;

(c) Such other information with respect to sources and utilization of skim milk and butterfat as the market administrator may prescribe.

§ 1014.31 *Other reports.* (a) On or before the 20th day of each month each handler operating a pool plant(s) and each cooperative association which is a handler pursuant to § 1014.12 (c) shall report its producer payroll for the preceding month which shall show for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer and for the base-operating months of March through July the total pounds of base and excess milk;

(3) The number of days on which milk was received from such producer if less than a full calendar month;

(4) The average butterfat content of such milk; and

(5) The net amount of such handler's payment, the price paid and the amount and nature of any deductions;

(b) Each handler who received producer milk for which payment is to be made to a cooperative association pursuant to § 1014.80 (c) shall report to such cooperative association with respect to each such producer, as follows:

(1) On or before the 20th day of each month, the total pounds of milk received during the first 15 days of the month;

(2) On or before the 10th day after the end of each month;

(i) The daily and total pounds of milk received during the month with separate totals for base and excess milk for the months of March through July, and the average butterfat test thereof; and

(ii) The amount or rate and nature of any deductions.

(c) On or before the 25th day after the end of the month each handler (other than a producer-handler or one described in § 1014.62) operating a nonpool distributing plant and making payments pursuant to § 1014.61 (b) shall report his payments to dairy farmers qualified to be producers if such plant were a pool plant, showing for each such dairy farmer:

(1) The pounds of milk;

(2) The average butterfat content thereof; and

(3) The date and net amount of payment to such dairy farmer with a statement of the prices, deductions and charges used in computing such payment and the nature of each.

§ 1014.32 *Producer-handler reports.* Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator shall prescribe.

§ 1014.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business, such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data for each month with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and butterfat and other content of all milk, skim milk, cream, and other milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers, and disbursement of money so deducted.

§ 1014.34 *Retention of records.* All books and records required under this part to be made available to the market administrator, shall be retained by the handler for a period of three years to begin at the end of the calendar month, to which such books and records pertain: *Provided,* That if within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 1014.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat required to be reported pursuant to § 1014.30 shall be classified (separately as skim milk and butterfat), pursuant to § 1014.41 to § 1014.46.

§ 1014.41 *Classes of utilization.* Subject to the conditions set forth in § 1014.42 to § 1014.46 the classes of utilization shall be as follows:

(a) Class I shall be all skim milk and butterfat (1) disposed of in the form of fluid milk products, except those classified pursuant to paragraph (b) (2) and (5) of this section; and (2) not accounted for as Class II;

(b) Class II shall be all the skim milk and butterfat (1) used to produce any product other than a fluid milk product, (2) in skim milk authorized by the market administrator to be dumped or accounted for as disposed of for livestock feed, (3) in shrinkage allocated to receipts of producer milk but not in excess of 2 percent of receipts of skim milk and butterfat directly from producers, plus 1.5 percent of receipt of skim milk and butterfat, respectively, transferred in bulk from pool plants of other handlers, less 1.5 percent of receipt of skim milk and butterfat, respectively, transferred in bulk lots to pool plants of other handlers, (4) in shrinkage of other source milk, and (5) in inventories of fluid milk products on hand at the end of the month.

§ 1014.42 *Assignment of shrinkage.* The market administrator shall assign shrinkage at the pool plant(s) of each handler as follows:

(a) Compute the total shrinkage of skim milk and butterfat.

(b) Assign the resulting amount, prorated to the handler's receipts of skim milk and butterfat, respectively, in (1) milk received directly from producers and from other pool plants and (2) other source milk.

§ 1014.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 1014.44 *Transfers.* Skim milk and butterfat transferred or diverted during the month as milk, skim milk or cream from a pool plant to:

(a) The pool plant of another handler shall be classified as Class I unless Class II is indicated by the operators of both plants in their reports submitted pursuant to § 1014.30 and:

(1) The receiving plant has utilization in such class of equivalent amounts of skim milk and butterfat, respectively; and

(2) Such skim milk and butterfat shall be classified so as to allocate to producer milk the greatest possible total Class I in the two plants;

(b) A plant operated by a producer-handler shall be Class I;

(c) A nonpool plant, except as specified in paragraph (b) of this section, shall be Class I unless:

(1) The transfer is in bulk form and the transferring handler claims Class II use on his report for the month;

(2) The operator of the nonpool milk plant maintains books and records which are made available for examination upon request by the market administrator and which are adequate for verification of such Class II use; and

(3) The skim milk and butterfat respectively, received at the nonpool plant during the month from a pool plant(s) and from a plant(s) at which milk is priced pursuant to another order issued pursuant to the act does not exceed the skim milk and butterfat, respectively, resulting from the following computation:

(i) Determine the skim milk and butterfat, respectively, used to produce any items of Class II milk (as defined pursuant to § 1014.41 (b)) at such nonpool plant during the month;

(ii) Add the skim milk and butterfat, respectively, in fluid bulk cream transferred from such nonpool plant to a plant at which milk is priced pursuant to this part or another order issued pursuant to the act and such cream is allocated to other than Class I (under the applicable order definitions and allocation procedures at the transferee plant);

(iii) Add the skim milk and butterfat, respectively, in fluid bulk cream transferred from such nonpool plant to a second nonpool plant which is not in excess of the items of Class II processed in such second nonpool plant plus the bulk fluid cream shipped from such second nonpool plant to other nonpool plants which do not disposed of milk or cream for consumption in fluid form: *Provided,* That the second nonpool plant meets the conditions of subparagraph (2) of this paragraph; and

(iv) Subtract the skim milk and butterfat, respectively, received in fluid milk products at such nonpool plant from any source(s) other than that which has been approved by a governmental agency as a source(s) of Grade A fluid milk products. In the event that the remaining skim milk and butterfat, respectively, computed pursuant to this subdivision is less than the skim milk and butterfat, respectively, received at such nonpool plant from a pool plant(s) and from a plant(s) at which milk is priced pursuant to another order issued pursuant to the act, the difference shall be assigned pro rata, to each pool plant (in accordance with receipts of skim milk and butterfat, respectively, from all plants regulated pursuant to the act), and shall be classified as Class I milk.

§ 1014.45 *Computation of the skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and other obvious errors the reports of receipts and utilization for the pool plant(s) of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an

amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 1014.46 *Allocation of skim milk and butterfat.* After making the computation pursuant to § 1014.45, the market administrator shall determine the classification of producer milk as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 1014.41 (b) (3);

(2) Subtract from the pounds of skim milk remaining in each class in series beginning with Class II, the pounds of skim milk in other source milk, except that to be subtracted to subparagraph (3) of this paragraph;

(3) Subtract from the pounds of skim milk remaining in each class in series beginning with Class II, the pounds of skim milk in other source milk subject to the pricing and payment provisions of another order issued pursuant to the Act.

(4) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk products on hand at the end of the month;

(5) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received from pool plants of other handlers in such class pursuant to §§ 1014.41 and 1014.44 (a);

(6) Add to the remaining pounds of skim milk in Class II the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(7) If the remaining pounds of skim milk in all classes exceeds the pounds of skim milk in milk received from producers, subtract such excess from the remaining pounds of skim milk in each class in series beginning with Class II;

(b) Determine the pounds of butterfat in each class to be allocated to producer milk in the same manner prescribed in paragraph (a) of this section for determining the allocation of skim milk to producer milk.

(c) Add the pounds of skim milk and butterfat allocated to producer milk in each class calculated pursuant to paragraphs (a) and (b) of this section and determine the percent of butterfat in such milk in each class.

MINIMUM PRICES

§ 1014.50 *Class prices.* Subject to the provisions of §§ 1014.51 to 1014.53 the minimum prices per hundredweight for the month shall be as follows:

(a) *Class I price.* For the first eighteen months beginning with the effective date of prices the price per hundredweight for Class I milk of 4.0 percent butterfat content shall be the price for Class I milk computed pursuant to § 987.51 (a) of this chapter (handling of milk in the Central Mississippi marketing area).

(b) *Class II price.* The price per hundredweight for Class II milk shall be the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture; plus 10 cents during each of the months of March through July and plus 20 cents during all other months.

Present Operator and Location

Kraft Cheese Co., Newton, Miss.
Borden Co., Starkville, Miss.
Carnation Co., Tupelo, Miss.
Pet Milk Co., Kosciusko, Miss.

§ 1014.51 *Butterfat differentials to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices determined pursuant to § 1014.50 shall be increased or decreased, respectively, for each one-tenth of one percent of butterfat by multiplying the Chicago butter price by the applicable factor specified below, and rounding to the nearest one-tenth cent.

(a) *Class I milk.* Multiply such price for the preceding month by 0.12; and

(b) *Class II milk.* Multiply such price for the current month by 0.11.

§ 1014.52 *Location differentials to handlers.* For milk which is received from producers at a pool plant located more than 100 miles by the shortest highway distance as determined by the market administrator from the courthouse in Gulfport or Pascagoula, Mississippi, whichever is closer, and which is classified as Class I milk the prices computed pursuant to § 1014.51 (a) shall be reduced by 15 cents if such plant is located more than 100 miles but not more than 110 miles from such courthouse and by an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 110 miles: *Provided*, That, for the purposes of calculating such location differentials, fluid milk products are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 1014.46 (a) (1), (2) and (3), and the comparable steps in § 1014.46 (b) for such plant, such assignment to transferor-plants to be made first to plants at which the greatest location differential is applicable.

§ 1014.53 *Use of equivalent prices.* If for any reason a price specified by this part for computing class prices or for other purposes is not available in the manner described in this part, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is specified.

APPLICATION OF PROVISIONS

§ 1014.60 *Producer-handlers.* Sections 1014.40 to 1014.46, 1014.50 to 1014.53, 1014.61, 1014.70 to 1014.72, and 1014.80 to 1014.88 shall not apply to a producer-handler.

§ 1014.61 *Handler operating a nonpool distributing plant.* In lieu of the payments required pursuant to §§ 1014.80 to 1014.88 each handler, other than a producer-handler or one exempt pursuant to § 1014.62, who operates during the month a nonpool distributing plant, shall pay to the market administrator on or before the 25th day after the end of the month the amount calculated pursuant to paragraph (a) of this section unless the handler elects at the time of reporting pursuant to § 1014.30, to pay the amounts computed pursuant to paragraph (b) of this section.

(a) The following amounts:

(1) For the producer-settlement fund, an amount equal to the value of all skim milk and butterfat disposed of as Class I milk on routes in the marketing area at the Class I price applicable at the location of such handler's plant, less the value of such skim milk and butterfat at the Class II price; and

(2) As his share of the expense of administration, the rate specified in § 1014.88 with respect to Class I milk so disposed of in the marketing area.

(b) The following amounts:

(1) For the producer-settlement fund, any plus amount remaining after deducting from the value that would have been computed pursuant to § 1014.70 if such handler had operated a pool plant the gross payments made by such handler for milk received during the month from Grade A dairy farmers at such plant or at a plant(s) which serves as a supply plant(s); and

(2) As his share of the expense of administration, an amount equal to that which would have been computed pursuant to § 1014.88 had such plant been a pool plant.

§ 1014.62 *Plants subject to other Federal orders.* The provisions of this part, except §§ 1014.30 (b) (1), 1014.33 and 1014.34, shall not apply to:

(a) A distributing plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless a greater volume of Class I is disposed of from such plant during the month on routes in the Mississippi Gulf Coast marketing area than in the marketing area defined in such other order.

(b) A supply plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless such plant qualified as a pool plant during each of the preceding months of September through January.

DETERMINATION OF UNIFORM PRICE

§ 1014.70 *Computation of the value of milk received from producers by each handler.* The value of milk received during each delivery period by each handler from producers shall be a sum of money computed as follows:

(a) Multiply the pounds of milk in each class computed pursuant to § 1014.46 (c) by the applicable respective class prices and add together the resulting amounts;

(b) Add an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 1014.46 (a) (7) and (b) by the applicable respective class prices;

(c) Add an amount computed by multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified as Class II milk (other than shrinkage) during the preceding month of the hundredweight of milk subtracted from Class I milk pursuant to § 1014.46 (a) (4) and (b), whichever is less; and

(d) For any skim milk or butterfat subtracted from Class I milk pursuant to § 1014.46 (a) (2) and (b), and pursuant to § 1014.46 (a) (4) and (b) which is in excess of the skim milk and butterfat applied pursuant to paragraph (c) of this section, add an amount equal to the differences between the values of such skim milk and butterfat at the Class I price and at the Class II price: *Provided*, That such calculation shall not apply if the total receipts of producer milk at pool plants during the month are not more than 112 percent of the total Class I utilization of such plants for the month.

§ 1014.71 *Computation of uniform price.* For each of the delivery periods of August through February the market administrator shall compute the uniform price per hundredweight for milk received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1014.70 for all handlers specified in § 1014.12 (a) and (c), and who made the payments pursuant to §§ 1014.80 and 1014.84 for the preceding delivery period;

(b) Add the aggregate of the values of all allowable location differential adjustments to producers pursuant to § 1014.82;

(c) Add an amount equal to one-half of the unobligated balance in the producer-settlement fund;

(d) Subtract for each one-tenth percent by which the average butterfat content of the milk included in these computations is greater than 4.0 percent, or add for each one-tenth percent that such average butterfat content is less than 4.0 percent an amount computed by multiplying the butterfat differential computed pursuant to § 1014.81 by the total hundredweight of such milk;

(e) Divide by the total hundredweight of milk included in these computations; and

(f) Subtract not less than 4 cents nor more than 5 cents. The resulting figure shall be the uniform price for milk of 4.0 percent butterfat content received at pool plants f. o. b. marketing area.

§ 1014.72 *Computation of uniform price for base milk and excess milk.* For each of the delivery periods of March through July the market administrator shall compute uniform prices per hundredweight for base milk and for excess milk as follows:

(a) Combine into one total the values computed pursuant to § 1014.70 for all handlers specified in § 1014.12 (a) and (c) and who made the payments pursuant to §§ 1014.80 and 1014.84 for the preceding delivery period;

(b) Add the aggregate of the values of all allowable location differential adjustments to producers pursuant to § 1014.81;

(c) Add an amount equal to one-half of the unobligated balance in the producer-settlement funds;

(d) Subtract for each one-tenth percent by which the average butterfat content of the milk included in these computations is greater than 4.0 percent or add for each one-tenth percent that such average butterfat content is less than 4.0 percent, an amount computed by multiplying the butterfat differential computed pursuant to § 1014.82 by the total hundredweight of such milk;

(e) Compute the total value of excess milk included in these computations by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in these computations by the price for Class II milk of 4.0 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 4.0 percent butterfat content and adding together the resulting amounts;

(f) Divide the total value of excess milk obtained in paragraph (e) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat received from producers;

(g) Subtract the value of excess milk obtained in paragraph (e) of this section from the aggregate value of milk obtained in paragraph (d) of this section and adjust by any amount involved in adjusting the uniform price of excess milk to the nearest cent;

(h) Divide the amount obtained in paragraph (g) of this section by the total hundredweight of base milk included in these computations; and

(i) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (h) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers at pool plants, f. o. b. marketing area.

§ 1014.73 *Notification of handlers.* On or before the 11th day after the end of each month, the market administrator shall mail to each handler, who submitted the report(s) prescribed in § 1014.30, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of March through July the amounts and value of his base and excess milk respectively;

(c) The uniform price(s) computed pursuant to §§ 1014.71 and 1014.72 and the butterfat differential computed pursuant to § 1014.81; and

(d) The amounts to be paid by such handler pursuant to § 1014.84, § 1014.87, § 1014.88, or § 1014.61; and the amount due such handler pursuant to § 1014.85.

BASE RATING

§ 1014.75 *Determination of daily base.* The daily base of each producer shall be calculated by the market administrator as follows: Divide the total pounds of milk received by all handlers from such producer during the months of September through January by the number of days from the first day milk is received from such producer during said months to the last day of January, inclusive, but not less than 120 days.

§ 1014.76 *Computation of base.* The base of each producer to be applied during the months of March through July shall be a quantity of milk calculated by the market administrator in the following manner: Multiply the daily base of such producer by the number of days production delivered by such producer to handlers during the month.

§ 1014.77 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall be assigned to the producer for whose account milk is received at a pool plant during the months of September through January and to each person for whose account milk was delivered to a plant that did not qualify as a pool plant during each month of the base forming period, but which qualifies as a pool plant during any of the months of March through July, bases shall be assigned on deliveries at such plant in the same manner as if such plant had been a pool plant during each month of the base forming period; and

(b) An entire base shall be transferred by the market administrator to another person upon receipt of an application form, approved by the market administrator, and signed by the baseholder(s), or his heirs, and by the person to whom such base is transferred subject to the following condition:

(1) If a base is transferred to a producer already holding a base, a new base shall be computed by adding together the producer milk deliveries of the transferee and transferor during the base forming period and dividing the total by the number of days from the first day of delivery by either the transferee or transferor during the base forming period to the last day of January inclusive but not less than 120 days.

§ 1014.78 *Announcement of established bases.* On or before March 1 of each year, the market administrator shall notify each producer and the handler receiving milk from such producer of the daily base established by such producer.

PAYMENTS

§ 1014.80 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of each delivery period during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) pursuant to § 1014.71 or § 1014.72, adjusted by the butterfat differential computed pursuant to § 1014.81, subject to the location adjustment to producers pursuant to § 1014.82, and less the following amounts (1) the payments made pursuant to paragraph (b) of this section, (2) marketing service deductions pursuant to § 1014.87, and (3) any proper deductions authorized in writing by the producer: *Provided*, That if by such date such handler has not received full payment for such delivery period pursuant to § 1014.85 he may reduce his total payment to all producers uniformly by not less than the amount of reduction in payment from the market administrator;

the handler shall, however, complete such payments not later than the date for making such payments pursuant to this paragraph next following receipts of the balance from the market administrator.

(b) On or before the 25th day of each delivery period to each producer (1) for whom payment is not received from the handler by a cooperative association pursuant to paragraph (c) of this section and (2) who had not discontinued shipping milk to such handler before the 18th day of the delivery period, an advance payment with respect to milk received from such producer during the first 15 days of the delivery period at the approximate value of such milk, not to be less than the Class II price for 4.0 percent milk for the preceding delivery period, without deduction for hauling; and

(c) To a cooperative association which has filed request for such payment with such handler and with respect to producers for whose whole milk the market administrator determines such cooperative association is authorized to collect payment as follows:

(1) On or before the 23d day of the delivery period, an amount equal to not less than the sum of the individual payments otherwise payable to producers pursuant to paragraph (b) of this section less any deductions authorized in writing by such cooperative association;

(2) On or before the 13th day after the end of each delivery period an amount equal to not less than the sum of the individual payments otherwise payable to producers pursuant to paragraph (a) of this section, less proper deductions authorized in writing by such cooperative association.

(d) In making payments to producers pursuant to paragraph (a) of this section, each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 1014.80, 1014.81 and 1014.82;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (b) of this section and § 1014.87 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

§ 1014.81 *Producer butterfat differential.* In making payments pursuant to § 1014.80, the uniform price shall be increased or decreased for each one-tenth of one percent of butterfat content in milk received from each producer is above or below 4.0 percent, as the case may be, by a butterfat differential equal to the average of the butterfat differentials pursuant to § 1014.51 weighted by the pounds of butterfat in producer milk in each class, rounded to the nearest one-tenth cent.

§ 1014.82 *Producer location differentials.* In making payments pursuant to § 1014.80, for all milk which is received from producers at a pool plant located more than 100 miles but not more than 110 miles by the shortest highway distance as determined by the market administrator from the Courthouse at Gulfport or Pascagoula, Mississippi, whichever is closer, there shall be deducted 15 cents per hundredweight and an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 110 miles.

§ 1014.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1014.61 (a) (1) and (b) (1) and 1014.84 and all appropriate payments pursuant to § 1014.86 and out of which he shall make all payments pursuant to § 1014.85 and all appropriate payments pursuant to § 1014.86: *Provided*, That payments due to any handler shall be offset by payments due from such handler.

§ 1014.84 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each delivery period, each handler shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers during such delivery period as determined pursuant to § 1014.70 is greater than the amount required to be paid producers by such handler pursuant to § 1014.80 before deductions (a) for marketing services pursuant to § 1014.87 and (b) authorized by the producer.

§ 1014.85 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each delivery period during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during such delivery period as determined pursuant to § 1014.70 is less than the amount required to be paid producers by such handler pursuant to § 1014.80 before deductions (a) for marketing services pursuant to § 1014.87 and (b) authorized by the producer: *Provided*, That if at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payment and shall complete such payments as soon as the necessary funds are available.

§ 1014.86 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due the market administrator or any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of the amount due and payment thereof shall be made within 5 days if such amount is due the market administrator, or on or before the next date for making payments to producers or a cooperative association, if such amount is due them. Whenever such audit discloses errors resulting in moneys due such handler from the market administrator, payment shall be made within 5 days.

§ 1014.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to producers other than himself pursuant to § 1014.80 (a) shall deduct 7 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from producers during the delivery period, and shall pay such deductions to the market administrator on or before the 12th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from and to provide market information to such producers.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section each handler shall in lieu of the deductions specified in paragraph (a) of this section, make such deductions from the payments to be made directly to producers pursuant to § 1014.80 (a), as are authorized by such producers, and, on or before the 12th day after the end of each delivery period, pay over such deductions to the association of which such producers are members, accompanied by a statement showing the amount of the deduction and the quantity of milk for which it was computed for each such producer.

§ 1014.88 *Expense of administration.* As his pro rata share of the expense of the administration of this part, each handler shall pay the market administrator, on or before the 12th day after the end of each delivery period, 5 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Receipts of producer milk, including such handler's own production;

(b) Other source milk allocated to Class I pursuant to § 1014.46 (a) (2) and (b) and

(c) The quantities of milk at the plants of handlers operating nonpool plants as specified in § 1014.61 (a) (1) or (b) (1).

§ 1014.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representative all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligations are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1014.90 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 1014.91.

§ 1014.91 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision of this part whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 1014.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations under this part the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1014.93 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1014.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1014.101 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 17th day of September 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 58-7743; Filed, Sept. 22, 1958; 8:48 a. m.]

[7 CFR Part 1024]

[Docket No. AO-308]

MILK IN OHIO VALLEY MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the City Council Chambers of the City Hall, 126 South East Third Street, Evansville, Indiana, beginning at 10:00 a. m., on October 14, 1958, with respect to a proposed marketing agreement and order to regulate the handling of milk in the Ohio Valley marketing area.

This public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions, which relate to the proposed marketing agreement and order, hereinafter set forth, and any appropriate modifications thereof; and for the purpose of determining (1) whether the handling of milk in the area proposed for regulation is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects interstate or foreign commerce, (2) whether there is need for a marketing agreement or order regulating the handling of milk in the area, and (3) whether provisions specified in the proposals or some other provisions appropriate to the terms of the Agricultural Marketing Agreement Act of 1937, as amended, will tend to effectuate the declared policy of the Act.

The proposals set forth below have not received the approval of the Secretary of Agriculture.

Proposed by the Ohio Valley Milk Producer's Association, Inc., Evansville, Indiana:

1. The following milk marketing order and agreement:

DEFINITIONS

§ 1024.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1024.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 1024.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency as may be authorized by Act of Congress or by Executive order to perform the price reporting functions of the United States Department of Agriculture.

§ 1024.4 *Person.* "Person" means any individual, partnership, corporation, association or any other business unit.

§ 1024.5 *Ohio Valley marketing area.* "Ohio Valley marketing area" means all of the territory included within Daviess, Henderson and Hancock Counties, all within the State of Kentucky, and all of the territory included within Vanderburgh, Posey, Warrick, and Spencer Counties, all within the State of Indiana.

§ 1024.6 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and is authorized by its members to make collective sales or to market milk or its products for the producers thereof.

§ 1024.7 *Producer-handler.* "Producer-handler" means any person who produces Grade A milk under a dairy farm inspection permit issued by any duly constituted health authority, and

who operates a pool plant, but who receives no milk from producers or from other sources except from operators of pool plants.

§ 1024.8 *Pool plant.* "Pool plant" means any:

(a) Milk distributing plant approved or recognized by any health authority having jurisdiction in the marketing area for the receiving or processing of Grade A milk and from which Class I milk equal to not less than 50 percent of its receipts of milk from other pool plants and from producers is disposed of during the month on a route(s) and from which Class I milk equal to not less than 15 percent of its total Class I disposition is disposed of during the month on a route(s) in the marketing area.

§ 1024.9 *Nonpool plant.* "Nonpool plant" means any milk receiving, manufacturing, processing or bottling plant other than a pool plant.

§ 1024.10 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) A cooperative association with respect to milk of producers diverted for the account of such association to a nonpool plant in accordance with the provisions of § 1024.6; or

(c) A cooperative association as defined in § 1024.6 with respect to a milk receiving station operated by such cooperative provided 50 percent or more of the Grade A milk received from members is delivered to handlers either directly or through the receiving station.

§ 1024.11 *Producer.* "Producer" means any person, except a producer-handler, who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority having jurisdiction in the marketing area, which milk is received at a pool plant: *Provided*, That if such milk is diverted for his account by a handler as defined in § 1024.10 (a) from a pool plant to any other milk plant during the months of March through July; the milk so diverted shall be deemed to have been received by the diverting handler at a pool plant at the location of the plant from which it was diverted.

§ 1024.12 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk:

(a) Received at the pool plant directly from producers, or

(b) Diverted from the pool plant to any other milk plant in accordance with the provisions of §§ 1024.10 and 1024.11.

§ 1024.13 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk and skim milk drinks, cream (except storage cream), cultured sour cream or sour cream, or any mixture in fluid form of milk, skim milk and cream (except sterilized products packaged in hermetically sealed containers, ice cream and ice milk mix and aerated cream).

§ 1024.14 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 1024.15 *Route.* "Route" means any delivery (including delivery by a vendor or a sale from a plant or plant store) of a fluid milk product other than a delivery to any milk processing plant.

§ 1024.16 *Base milk.* "Base milk" means milk received by a handler from a producer during any of the months of April through July which is not in excess of such producer's daily average base computed pursuant to § 1024.60 multiplied by the number of days in such month for which such producer delivered milk to such handler.

§ 1024.17 *Excess milk.* "Excess milk" means milk received by a handler from a producer during any of the months of April through July which is in excess of base milk received from such producer during such month, and shall include all milk received during such month from a producer for whom no daily average base can be computed pursuant to § 1024.60.

MARKET ADMINISTRATOR

§ 1024.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1024.21 *Powers.* The market administrator shall have the powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 1024.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 1024.87, (1) the cost of his bond and of the bond of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 1024.88, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose at his discretion to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 1024.30 and 1024.31 or (2) payments pursuant to §§ 1024.80 and 1024.82.

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and information concerning the operation hereof as are necessary and essential to the proper functioning of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) On or before the date specified, publicly announce and notify each handler in writing of the following: (1) The 10th day of each month, the Class I price, and the Class I butterfat differential, both for the current month; (2) the 6th day of each month, the Class II price and the Class II butterfat differential, both for the preceding month; and (3) the 10th day after the end of each month, the uniform price(s), and the producer butterfat differential for the preceding month.

REPORTS, RECORDS AND FACILITIES

§ 1024.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall report for each of his pool plants for such month to the market administrator in the detail and on forms prescribed by the market administrator;

(a) The quantities of skim milk and butterfat contained in producer milk including for the months of April through July a statement of the aggregate quantity of base milk;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other handlers;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of fluid milk products on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 1024.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe;

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his pool plants his producer payroll for such month which shall show for each producer: (i) The total pounds of milk received from such producer or cooperative association, including, for the months of April through July, the total pounds of base and excess milk, (ii) the days on which milk was received from such producer, if less than a full month, (iii) the average butterfat content of such milk, and (iv) the net amount of such handler's payment to each producer or cooperative association, together with the price paid and the amount and nature of any deductions;

(2) Such other information with respect to his utilization of butterfat and skim milk as the market administrator may prescribe.

§ 1024.32 *Records and facilities.* Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to (a) verify the receipts and utilization of all skim milk and butterfat and, in case of errors or omission, ascertain the correct figures; (b) weigh, sample, and test for butterfat content all milk and milk products handled; (c) verify payment to producers; and (d) make such examination of operations, equipment, and facilities, as are necessary and essential to the proper administration of this part of any amendments thereto.

§ 1024.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertains: *Provided*, That if within such three year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c 15 (A) of the Act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 1024.34 *Reports to cooperative associations.* On or before the 15th day after the end of each month, the market administrator shall report to each cooperative association as described in § 1024.6, upon request by such association, the percentage of milk caused to be delivered by such association or by its members which was used in each class by each handler receiving any such milk. For the purpose of this report the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handlers were used in each class.

CLASSIFICATION OF MILK

§ 1024.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat to be reported for pool plants pursuant to § 1024.30 shall be classified each month pursuant to the provisions of §§ 1024.41 to 1024.45.

§ 1024.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1024.42 to 1024.45, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk and butterfat (1) disposed of from the plant in the form of fluid milk products, except those classified pursuant to paragraph (b) (3) of this section, and (2) not specifically accounted for as Class II milk, and

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than a fluid milk product, (2) in skim milk disposed of for livestock feed, (3) in cream stored and frozen, (4) in inventories of fluid milk products on hand at the end of the month, and (5) in shrinkage not to exceed 2 percent, respectively, of the skim milk and butterfat contained in producer milk (except that diverted pursuant to § 1024.12 (b)) and other source milk; such shrinkage to be assigned pro rata to the skim milk or butterfat contained in producer milk (except that diverted pursuant to § 1024.12 (b)) and other source milk, respectively.

§ 1024.42 *Responsibility of handlers and reclassification of milk.* All skim milk and butterfat shall be classified as Class I milk, unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified in Class II.

§ 1024.43 *Transfers.* Skim milk or butterfat disposed of by a handler from a pool plant either by transfer or diversion shall be classified as follows:

(a) As Class I milk if transferred or diverted in the form of a fluid milk product to a pool plant of another handler, unless utilization in another class is mutually indicated in the reports submitted to the market administrator by both handlers pursuant to § 1024.30 on or before the 7th day after the end of the month: *Provided*, That if upon inspection of the records of the transferee-handler it is found that an equivalent amount of skim milk or butterfat, respectively, was not actually used in such indicated use, the remaining quantity shall be classified as Class I milk: *And provided further*, That if either or both handlers received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the highest priced possible class utilization to the producer milk of both handlers;

(b) As Class I milk if transferred or diverted to a producer-handler in the form of a fluid milk product;

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream in bulk to a nonpool plant located less than 250 airline miles from the Court House in Owensboro, Kentucky, or Evansville, Indiana.

(1) The handler claims classification in Class II in his report submitted to the market administrator pursuant to § 1024.30;

(2) The operator of the nonpool plant maintains books and records showing the receipts and utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for verification;

(3) An amount of skim milk or butterfat, respectively, of not less than that so claimed by the handler was used in products included in Class II milk;

(4) The classification reported by the handler results in an amount of skim milk and butterfat in Class I milk claimed by all handlers transferring or diverting milk to such nonpool plant of not less than the amount of assignable Class I milk remaining after the following computation:

(i) From the total skim milk and butterfat, respectively, in fluid milk products disposed of from such nonpool plant and classified as Class I milk, pursuant to the classification provisions of this order applied to such nonpool plant, subtract the skim milk and butterfat received at such plant directly from dairy farmers who hold permits to supply Grade A milk and who the market administrator determines constitute the regular source of supply for such nonpool plant;

(ii) From the remaining amount of Class I milk, subtract the skim milk and butterfat respectively, in fluid milk products received from another market and which is classified and priced as Class I milk pursuant to another order issued pursuant to the Act: *Provided*, That the amount subtracted pursuant to this subdivision shall be limited to such markets pro rata share of such remainder based on the total receipts of skim milk and butterfat, respectively, at such nonpool plant which are subject to the pricing provisions of an order issued pursuant to the Act;

(5) If the skim milk and butterfat, respectively, transferred by all handlers to such a nonpool plant and reported as Class I milk pursuant to this paragraph is less than the skim milk and butterfat assignable to Class I milk, pursuant to subparagraph (4) of this paragraph, an equivalent amount of skim milk and butterfat shall be reclassified as Class I milk pro rata in accordance with the total of the lower price classification reported by each of such handlers;

(d) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream in bulk to a nonpool plant located 250 airline miles or more from the Court House in Owensboro, Kentucky, or Evansville, Indiana.

§ 1024.44 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall

correct for mathematical and other obvious errors the monthly report submitted for the pool plant(s) of each handler pursuant to § 1024.30 and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before such product is disposed of by a handler, the hundredweight of skim milk disposed of in such products shall be considered to be an amount equivalent to the nonfat solids contained in such product, plus all of the water originally associated with such solids.

§ 1024.45 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations each month with respect to the pool plant(s) of each handler, shall be the pounds of skim milk in such class allocated to the producer milk of such handler for such month.

(1) Subtract from the total pounds of skim milk in Class II milk the shrinkage of skim milk in producer milk classified as Class II pursuant to § 1024.41 (b).

(2) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk which was not subject to the Class I pricing provisions of an order issued pursuant to the Act: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk.

(3) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk which was subject to the Class I pricing provisions of another order issued pursuant to the Act: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk.

(4) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk contained in inventories of fluid milk products on hand at the beginning of the month: *Provided*, That if the pounds of skim milk in such inventory exceed the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk remaining in Class I milk.

(5) Subtract the pounds of skim milk in fluid milk products received from pool plants of other handlers from the pounds of skim milk remaining in the class to which assigned, pursuant to § 1024.43 (a).

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph.

(7) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in milk received from producers, subtract such excess from the pounds of skim milk remaining in the various classes in series beginning with Class II milk. Any amount so subtracted shall be known as "overage".

(b) Determine the pounds of butterfat in each class to be allocated to producer milk in the manner prescribed in paragraph (a) of this section for determining the allocation of skim milk to producer milk; and

(c) Add the pounds of skim milk and pounds of butterfat in each class calculated pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in the producer milk allocated to each class.

MINIMUM PRICES

§ 1024.50 *Basic formula price.* The basic formula price per hundredweight to be used in determining the price for Class I milk pursuant to § 1024.51 (a) shall be the highest of the prices per hundredweight for milk of 4.0 percent butterfat content computed pursuant to paragraph (a), (b), or (c) of this section:

(a) To the arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 5th day after the end of the month:

Company and location
Borden Co., Mount Pleasant, Mich.
Borden Co., Orfordville, Wis.
Carnation Co., Richland Center, Wis.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., New Glarus, Wis.
White House Milk Co., Manitowoc, Wis.
Borden Co., New London, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Wayland, Mich.
White House Milk Co., West Bend, Wis.

Add an amount computed by multiplying the butterfat differential computed pursuant to § 1024.52 (a) by 5.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph: (1) add 20 percent to the Chicago 92-score butter price for the month, as reported by the U. S. Department of Agriculture, and multiply by 4.0 (2) from the simple average as computed by the market administrator, of the weighted averages of carlot prices per pound of nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month, by the Department of Agriculture, deduct 5.5 cents and multiply by 8.2.

(c) The arithmetical average of the field prices paid per hundredweight for 4 percent milk used for manufacturing purposes delivered at the following plants for the current month:

Producers' Dairy Marketing Association, Orleans, Ind. Kraft Cheese Co., Dale, Ind. Swift and Co., Russellville, Ky. Pet Milk Co., Bowling Green, Ky. Pet Milk Co., Mayfield, Ky. Average of the field prices paid by all Tennessee manufacturing plants for milk for manufacturing purposes as listed from time to time in the Nashville, Tennessee, Federal order.

§ 1024.51 *Class prices.* Subject to the provisions of §§ 1024.52 and 1024.53 each handler shall pay producers or cooperative associations at the time and in the manner set forth in §§ 1024.80 to 1024.86, not less than the prices per hundredweight computed as follows for the respective quantities of Class I milk, and Class II milk computed pursuant to § 1024.45.

(a) *Class I milk price.* The price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month plus $1.50 during all months of the year.

(b) *Class II milk.* The price per hundredweight shall be the average price reported by the Department for the previous month for milk for manufacturing purposes, f. o. b. plant, United States, adjusted to a 4 percent butterfat basis by direct ratio, plus 10 cents: *Provided*, That during the months of March through August this price shall be reduced by 20 cents per hundredweight for skim milk and butterfat utilized in the manufacture of butter, powder and Cheddar cheese.

§ 1024.52. *Butterfat differential to handlers.* If the weighted average butterfat test of that portion of producer milk which is classified, respectively, in any class of utilization for a handler, pursuant to § 1024.45, is more or less than 4.0 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of 1 percent that such weighted average butterfat test is above or below, respectively, 4.0 percent, a butterfat differential (computed to the nearest 10th of a cent), calculated for each class of utilization as follows:

(a) *Class I milk.* Multiply by 0.12 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the immediately preceding month;

(b) *Class II milk.* Multiply by 0.12 the average daily wholesale price per pound of 92-score butter in the Chicago market as reported by the Department of Agriculture during the month: *Provided*, That such butterfat differential shall not exceed the result obtained by dividing the Class II price computed pursuant to § 1024.51 (b) by 40.

§ 1024.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 60 miles or more miles from the Court House in Owensboro, Kentucky, or Evansville, Indiana, by shortest hard surface highway distance, as determined by the market administrator, and which is transferred in the form of products designated as Class I milk in § 1024.41 (a) (1) to another pool plant and assigned to Class I pursuant to the provision of this section, or otherwise classified as Class I milk, the price specified in § 1024.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the Court House in Evansville, Ind., or Owensboro, Ky. (miles):	*Rate per hundredweight (cents)*
60 but less than 90	15
For each additional 10 miles or fraction thereof, an additional	1.5

Provided, That for purposes of calculating such location differential, products so designated as Class I milk which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 1024.45 (a) (1) to (4) and the comparable steps in § 1024.45 (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

DETERMINATION OF BASE

§ 1024.60 *Daily average base.* Subject to the rules set forth in § 1024.61, the daily average base for each producer shall be an amount calculated by dividing the total pounds of producer milk received from such producer by all handlers during the months of September through February immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of February, inclusive, but not less than 120 days: *Provided*, That in the case of a producer whose milk is received at a plant which becomes fully subject to regulation for the first time upon the effective date of this order, such base shall be that which would have been calculated for such producer for the entire base forming period beginning September 1, or that which would have been calculated for the period beginning November 1, whichever is higher.

§ 1024.61 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) Bases may be transferred only during the period of April through July by notifying the market administrator in writing before the last day of any month that such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

(b) A producer who ceases to deliver milk to a pool plant for more than 45 consecutive days shall forfeit his base.

§ 1024.62 *Announcement of established bases.* On or before April 1, of each year, the market administrator shall notify each producer, the handler receiving milk from such producers and the cooperative association of which such producer is a member of the daily base established by such producer.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 1024.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of such milk in each class by the applicable respective class prices (adjusted pursuant to §§ 1024.52 and 1024.53) and add together the resulting amounts;

(b) Add an amount computed by multiplying the pounds of any overage deducted from each class pursuant to § 1024.45 (a) (7) by the applicable class price(s); and

(c) Add any charges computed as follows:

(1) Add an amount calculated by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1024.45 (a) (2) and (b) by the rate of payment on unpriced milk determined pursuant to § 1024.93 adjusted where required by the location differential applicable at the nearest nonpool plant(s) from which an equivalent amount of other source skim milk or butterfat was received: *Provided*, That if the nonpool plant source of any milk or milk product received at a pool plant is not clearly established, such milk or product shall be considered to have been received from a source at the location of the pool plant where it is classified;

(2) For any skim milk or butterfat in inventory reclassified which is not in excess of the quantity in producer milk classified as Class II milk (other than as shrinkage) in the handler's plant(s) for the preceding month, a charge shall be computed at the difference between its value at the Class I price for the current month and its value at the Class II price of the preceding month;

(3) For any other skim milk or butterfat reclassified in Class I a charge shall be computed at the difference between its value at the Class I price for the current month and its value at the Class II price for the month in which previously classified as Class II milk.

§ 1024.71 *Computation of aggregate value used to determine price(s).* For each month, the market administrator shall compute an aggregate value from which to determine the uniform price(s) per hundredweight for milk of 4.0 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1024.70 for all handlers who made the reports prescribed in § 1024.30 and who made the payments pursuant to §§ 1024.80 and 1024.84 for the preceding month.

(b) Add the aggregate of the values of all allowable location adjustments to producers pursuant to § 1024.85 (b).

(c) Add not less than one-half of the cash balance on hand in the producer-settlement fund less the total amount of the contingent obligations to handlers pursuant to § 1024.84.

(d) Subtract if the average butterfat content of the milk included in these computations is greater than 3.0 percent, or add if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 1024.85 and multiplying the resulting figure by the total hundredweight of such milk.

§ 1024.72 *Computation of uniform price.* For each of the months of August through March the market administrator shall compute the uniform price per hundredweight for all milk of 4.0 percent butterfat content received from producers as follows:

(a) Divided the aggregate value computed pursuant to § 1024.71 by the total hundredweight of milk included in such computation; and

(b) Subtract not less than 4 cents nor more than 5 cents.

§ 1024.73 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through July the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, as follows:

(a) Compute the total value on a 4.0 percent butterfat basis of excess milk included in these computations by multiplying the hundredweight of such milk in excess of the total quantity of Class II milk included in these computations by the price for Class II milk of 4.0 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 4.0 percent butterfat content, and adding together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat received from producers;

(c) Subtract the value of excess milk obtained in paragraph (a) of this section from the aggregate value of milk computed pursuant to § 1024.71 and adjust by any amount involved in adjusting the uniform price of excess milk to the nearest cent;

(d) Divide the amount obtained in paragraph (c) of this section by the total hundredweight of base milk included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers.

PAYMENTS

§ 1024.80 *Time and method of payment for producer milk.* (a) On or before the 25th day of each month each handler shall make payment to each producer for milk received from him during the first 15 days of such month at not less than the following schedule

for the preceding month without adjustment for butterfat differential, hauling or other deductions:

If the Class II price for the preceding month is:	*Partial payment per hundredweight shall be—*
Under $1.00	$0.00
$1.00 to $1.49	$1.00
$1.50 to $1.99	$1.50
$2.00 to $2.49	$2.00
$2.50 to $2.99	$2.50
$3.00 to $3.49	$3.00
$3.50 to $3.99	$3.50
$4.00 to $4.49	$4.00
$4.50 to $4.99	$4.50
$5.00 to $5.49	$5.00
$5.50 to $5.99	$5.50
$6.00 or over	$6.00

(b) On or before the 13th day after the end of the month during which the milk was received, to each producer to whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) for such month computed pursuant to § 1024.72 and adjusted by the butterfat differential computed pursuant to § 1024.85, subject to location adjustments to producers pursuant to § 1024.85 (b) and less the amount of the payment made pursuant to paragraph (a) of this section: *Provided*, That if by such date such handler has not received full payment pursuant to § 1024.83, he may reduce his total payments to all producers uniformly by not less than the amount of reduction in payment from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance from the market administrator;

(c) (1) Upon receipt of written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of written promise to reimburse the handler for the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association, each handler shall,

(i) Pay to the cooperative association on or before the 10th and 23d days of each month, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section, an amount equal to the gross sum due for all milk received from certified members, less amounts owed by each member producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer,

(ii) Submit to the cooperative association on or before the 8th day of each month written information which shows for each member producer,

(*a*) The total pounds of milk received during the preceding month,

(*b*) The total pounds of butterfat contained in such milk,

(*c*) The number of days on which milk was received,

(*d*) For the months of April through July the amount of base and excess milk received, and

(*e*) The amounts withheld by the handler in payment for supplies sold, and

(iii) Submit to the cooperative association on or before the 23d day of each month, written information which shows for each member producer the total pounds of milk received during the first 15 days of the current month. The foregoing payment and submission of information shall be made with respect to milk of each producer, who the cooperative association certifies is a member, which is received on and after the first day of the calendar month next following the receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association; and

(2) A copy of each such request, promise to reimburse, and certified list of members shall be filed simultaneously with the market administrator by the cooperative and shall be subject to verification at his discretion through audits of the records of the cooperative association pertaining thereto.

Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member or by a handler shall be made by written notice to the market administrator and shall be subject to his determination.

§ 1024.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1024.82, 1024.84 and 1024.92, and out of which he shall make all payments pursuant to §§ 1024.83 and 1024.84: *Provided*, That payments due to any handler shall be offset by payments due from such handler.

§ 1024.82 *Payments to the producer-settlement fund.* On or before the 11th day after the end of each month each handler shall pay to the market administrator any amount by which the total value of his milk computed pursuant to § 1024.70 for such month is greater than the value of milk received by such handler from producers during the month, computed at the applicable minimum uniform prices as specified in §§ 1024.71 and 1024.72 adjusted for the differentials provided for in § 1024.85.

§ 1024.83 *Payments out of the producer-settlement fund.* On or before the 12th day after the end of each month, the market administrator shall pay to each handler, any amount by which the total value of his milk computed pursuant to § 1024.70 for such month is less than the value of his producer milk received during the month, computed at the applicable minimum uniform prices as specified in §§ 1024.71 and 1024.72 adjusted for the differentials provided for in § 1024.85. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly per hundredweight such payments and shall complete such payments as soon as the appropriate funds are available.

§ 1024.84 *Adjustment of errors in payment.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to § 1024.82, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to § 1024.83, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 1024.80, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 1024.85 *Butterfat and location differentials to producers.*—(a) *Butterfat differential to producers.* If, during the month, any handler has received, from any producer or cooperative association, milk having an average butterfat content other than 4.0 percent, such handler, in making payments prescribed in § 1024.80 (b), shall add to the uniform price(s) per hundredweight paid to such producer or cooperative association for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent not less than, or may deduct from the uniform price(s) per hundredweight for each one-tenth of 1 percent that the average butterfat content of such milk is below 4.0 percent, respectively, at the rate shown in the schedule below, according to the price range within which the 92-score Chicago butter price reported by the Department of Agriculture for the month falls:

Butter price range (cents):	*Rate (cents)*
Not more than 17.50	2
17.50 to 22.499	2½
22.50 to 27.499	3
27.50 to 32.499	3½
32.50 to 37.499	4
37.50 to 42.499	4½
42.50 to 47.499	5
47.50 to 52.499	5½
52.50 to 57.499	6
57.50 to 62.499	6½
62.50 to 67.499	7
67.50 to 72.499	7½
72.50 to 77.499	8
77.50 to 82.499	8½
82.50 to 87.499	9
87.50 to 92.499	9½
92.50 and over	10

(b) *Location differential to producers.* In making payment to producers pursuant to § 1024.80, the uniform price to be paid for producer milk and the uniform price for base milk received at a pool plant located 60 miles or more from the Court House in Evansville, Indiana, or Owensboro, Kentucky, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced according to the loca-

tion of the pool plant where such milk was received at the following rate:

Distance from the Court House in Evansville, Ind., or Owensboro, Ky. (miles):	Rate per hundredweight (cents)
90 but less than 90	15
For each additional 10 miles or fraction thereof, an additional	1.5

§ 1024.86 *Statement to producers.* In making payments required by § 1024.80 each handler shall furnish each producer or cooperative association with a supporting statement in such form that it may be retained by the producer which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer including for the months of April through July, the pounds of base milk and excess milk;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 1024.80 and 1024.85;

(d) The rate which is used in making the payment if such rate is more than the applicable minimum;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler including any deduction made pursuant to § 1024.88, together with a description of the respective deductions; and

(f) The net amount of payment to the producer or cooperative association.

§ 1024.87 *Expense of administration.* As his pro rata share of the expense of the administration of this part, each handler shall pay to the market administrator on or before the 15th day after the end of each month, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to butterfat and skim milk contained in (a) producer milk (including such handler's own production), (b) other source milk at his pool plant(s) classified as Class I, and (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the Act.

§ 1024.88 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1024.80 (b), shall deduct 8 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from such producer (except such handler's own farm production), during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

§ 1024.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before December 1, 1951, under section 8c (15) (A) of the Act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the Act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 1024.90 *Producer-handlers.* Sections 1024.40 to 1024.45, 1024.50 to 1024.53, 1024.60 to 1024.62, 1024.70 to 1024.73, and 1024.80 to 1024.88 shall not apply to a producer-handler.

§ 1024.91 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing agreement or order issued pursuant to the Act and whose milk is classified and priced under such other order, the provisions of this subpart shall not apply except that the handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

§ 1024.92 *Handlers operating nonpool plants.* Sections 1024.42 to 1024.45, 1024.50 to 1024.53, 1024.70 to 1024.73, 1024.80 to 1024.83, 1024.87 and 1024.88 shall not apply to a handler in his capacity as the operator of a nonpool plant, except that such handler shall pay to the market administrator on or before the 12th day after the end of each month for deposit into the producer-settlement fund an amount of money computed by multiplying the hundredweight of Class I milk disposed of from his nonpool plant(s) (except any nonpool plant subject to the classification and pricing provisions of another order issued pursuant to the Act) during the month to retail or wholesale outlets in the marketing area (including deliveries by vendors or sales through plant stores) by the rate of payment on unpriced milk calculated pursuant to § 1024.93.

§ 1024.93 *Rate of payment on unpriced milk.* The rate of payment per hundredweight on unpriced Class I milk shall be calculated as follows:

(a) For the months of March through August, subtract the Class II price, adjusted by the Class II butterfat differential, from the Class I price, adjusted by the Class I butterfat differential and the Class I location differential.

(b) For the months of September through February, subtract the uniform price to producers from the Class I price.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1024.100 *Effective time.* The provisions of this part, or any amendments to this part, shall become effective at

such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1024.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 1024.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 1024.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, the market administrator or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handler and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1024.110 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 1024.111 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Proposed by Southern Indiana Milk Producers' Association, Inc., Holland, Indiana:

2. That the marketing area include Dubois, Crawford, Pike, and Orange counties, Indiana, in addition to the counties proposed by the Ohio Valley Milk Producers' Association.

3. That the order, if made, contain provisions for individual handler pools so that all plants having milk sales in the marketing area be fully regulated.

4. That the order, if made, establish no base price formulated as set forth in the proposal, by the Ohio Valley Milk Producers' Association, but that a seasonal price differential be used.

Proposed by Western Kentucky Cooperative Milk Producers' Association, Madisonville, Kentucky:

5. The "Ohio Valley Marketing Area" shall include all of the territory within the Counties of Daviess, Henderson, Hopkins and Hancock in the State of Kentucky, and all of the territory within the Counties of Vanderburgh, Posey, Warrick and Spencer in the State of Indiana.

6. A "pool plant" shall include a distributing plant from which not less than 50 percent of its receipts of milk from producers and from other pool plants is distributed during the month as Class I milk on routes to wholesale or retail outlets (including plant stores) and from which not less than 10 percent of such receipts is distributed as Class I milk during the month on routes to wholesale or retail outlets (including plant stores) located in the marketing area.

7. The "Class I milk price" per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month plus $1.50 during all months of the year.

8. The "Class II milk price" shall contain a proviso that the price per hundredweight computed for all producer milk classified in Class II shall not be less than the average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the month at the following milk plants, plus 20 cents per hundredweight:

Swift and Co., Russellville, Ky.
Pet Milk Co., Bowling Green, Ky.
The Borden Co., Hopkinsville, Ky.

9. Compensatory payments required to be made to the producer-settlement fund by the operator of a nonpool plant with respect to Class I sales in the marketing area may be determined, if the handler elects, by computing an amount equal to the value of milk which would be computed for the operator of a nonpool plant for milk received from dairy farmers at such plant for the month as if such handler operated a pool plant; and deduct the gross payments, exclusive of authorized deductions, made by the handler to dairy farmers with respect to the milk for which such value is computed.

10. In the classification of skim milk and butterfat shrinkage which is in excess of 2 percent shall be classified in Class I and shrinkage not in excess of 2 percent shall be allocated to Class I and Class II according to the percentages of utilization in the respective classes, and the shrinkage classified as Class II milk shall be assigned pro rata to producer milk and other source milk.

Proposed by American Dairy, Inc., Evansville, Indiana; David Beathal Dairy, Mount Vernon, Indiana; Hillsworth Brothers, Huntingburg, Indiana; Henderson Creamery Company, Henderson, Kentucky; Herrmann Dairy Company, Evansville, Indiana; Ideal Pure Milk Company, Evansville, Indiana; Model Dairy Products Company, Owensboro, Kentucky; Mount Vernon Creamery Company, Mount Vernon, Indiana; Owensboro Ice Cream and Dairy Products, Owensboro, Kentucky; and U. C. Milk Company, Madisonville, Kentucky:

11. "Ohio Valley Marketing Area" hereinafter called the "marketing area", means all the territory within the boundaries of the counties of Daviess, McLean, Muhlenberg, Union, Hopkins, Webster, Butler, Edmonson, Henderson, Hancock, Breckinridge, Grayson, and Ohio including all cities and municipalities within said boundaries, all in the State of Kentucky; and all the territory within the boundaries of the counties of Gibson, Vanderburgh, Posey, Warrick, Spencer, Perry, and Dubois, including all cities and municipalities within said boundaries all in the State of Indiana.

Proposed by Holland Custard and Ice Cream, Inc., Holland, Indiana:

12. Define the marketing area to include Gibson, Dubois, Pike, Perry and Orange counties, Indiana, in addition to the counties proposed by the Ohio Valley Milk Producers' Association.

13. That the definition of a "pool plant" as defined in the Ohio Valley Milk Producers' Associations' proposals should be amended to include any plant having Class I milk sales in the area to be established by the order.

Proposed by Beatrice Foods Company, Vincennes, Indiana:

14. Include Gibson, Pike, Dubois and Orange Counties, Indiana, in the marketing area.

Copies of this notice may be procured from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 17th day of September 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 58-7742; Filed, Sept. 22, 1958; 8:48 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Parts 657, 672, 670]

[Administrative Order 514]

VARIOUS INDUSTRIES IN PUERTO RICO

APPOINTMENT TO INVESTIGATE CONDITIONS AND RECOMMEND MINIMUM WAGES; NOTICE OF HEARING

Pursuant to authority contained in the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Reorganization Plan No. 6 of 1950 (3 CFR, 1950 Supp., p. 165), I hereby appoint, convene, and give notice of the hearings of Industry Committee No. 42-A for the Tobacco Industry in Puerto Rico; Industry Committee No. 42-B for the Stone, Clay, Glass, Cement, and Related Products Industry in Puerto Rico; and Industry Committee No. 42-C for the Construction, Business Service, Motion Picture, and Miscellaneous Industry in Puerto Rico.

Industry Committee No. 42-A is composed of the following representatives:

For the public

Jose R. Noguera, Chairman, San Juan, P. R.
Mortimer H. Gavin, St. Louis, Mo.
John F. Frederick, Muskegon, Mich.

For the employees

Edwin L. Wheatley, East Liverpool, Ohio.
Bertrand R. Seidman, Washington, D. C.
Luis G. Estades, San Juan, P. R.

For the employers

John T. Hall, East Liverpool, Ohio.
Alfons Mayer, Caguas, P. R.
Francisco Verdiales, Caguas, P. R.

For the purpose of this order, the tobacco industry in Puerto Rico is defined as follows:

The processing of leaf tobacco including, but without limitation, the grading, fermenting, stemming, chopping, packing, storing, drying, and handling of tobacco; and the manufacture of cigarettes, cigars, cheroots, little cigars, snuff, chewing tobacco, and smoking tobacco.

Industry Committee No. 42-B is composed of the following representatives:

For the public

Jose R. Noguera, Chairman, San Juan, P. R.
Mortimer H. Gavin, St. Louis, Mo.
John F. Frederick, Muskegon, Mich.

For the employees

Edwin L. Wheatley, East Liverpool, Ohio.
Bertrand R. Seidman, Washington, D. C.
Luis G. Estades, San Juan, P. R.

For the employers

John T. Hall, East Liverpool, Ohio.
E. Kenneth Koos, Vega Baja, P. R.
Martin H. Johnson, Santurce, P. R.

For the purpose of this order, the stone, clay, glass, cement, and related products industry in Puerto Rico is defined as follows:

The mining, quarrying, or other extraction and the further processing of all minerals (other than metal ores, chemical and fertilizer minerals, coal, petroleum, or natural gases) and the manufacture of products from such minerals, including, but without limitation, structural clay products, china, pottery, tile, and other ceramic products and refractories; glass and glass products (except lenses); dimension and cut stone; crushed stone, sand and gravel; hydraulic cement; abrasives; lime, concrete, gypsum, mica, plaster, and asbestos products; and the manufacture of products from bone, horn, ivory, shell, and similar natural materials: *Provided, however*, That the industry shall not include any product or activity included in the button, jewelry, and lapidary work industry (29 CFR Part 616); the chemical, petroleum, rubber, and related products industry (29 CFR Part 670); or the metal, machinery, transportation equipment, and allied products industry (29 CFR Part 604), as defined in the wage orders for these industries in Puerto Rico; or in the construction, business service, motion picture, and miscellaneous industry, as defined in this Administrative Order; and *Provided, further*, That the industry shall not include any of the activities defined and described in § 678.2 (a) of this part.

Industry Committee No. 42-C is composed of the following representatives:

For the public

Jose R. Noguera, Chairman, San Juan, P. R.
Mortimer H. Gavin, St. Louis, Mo.
John F. Frederick, Muskegon, Mich.

For the employees

Edwin L. Wheatley, East Liverpool, Ohio.
Bertrand R. Seidman, Washington, D. C.
Luis G. Estades, San Juan, P. R.

For the employers

John T. Hall, East Liverpool, Ohio.
Jorge I. Rosso, Santurce, P. R.
Eugenio L. Santoni, Hato Rey, P. R.

For the purpose of this order, the construction, business service, motion picture, and miscellaneous industry in Puerto Rico is defined as follows:

The design, construction, reconstruction, alteration, repair, and maintenance of buildings, structures, and other improvements; the assembling at the construction site and the installation of machinery and other facilities in or upon buildings, structures, and other improvements; the dismantling, wrecking, or other demolition of buildings, structures, and other improvements; the activity carried on by any business or nonprofit enterprise performing real estate, professional, advertising, education, or research activities, or engaged in the furnishing of other facilities or services to industrial or commercial establishments or to the consumer; the production of photographs and blueprints, the production and distribution of motion pictures and all activities incidental thereto; and all activities which are not included in the definition of other industries in Puerto Rico for which wage orders have been issued: *Provided, however*, That the industry shall not include any activity carried on by an establishment primarily engaged in another industry for its own use, or any activity included in the definition of any industry in Puerto Rico for which a wage order has been issued: *And provided, further*, That the industry shall not include any of the activities defined and described in § 672.2 (a) of this part (23 F. R. 3).

I hereby refer to each of the above-named industry committees the question of the minimum wage rate or rates to be fixed under the provisions of section 6 (c) of the Act in the particular industries with which they are concerned. Each industry committee shall investigate conditions in its industry, and the committee, or any authorized sub-committee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the committee to perform its duties and functions under the Act.

Industry Committee No. 42-A shall convene at 10:00 a. m. on October 20, 1958, in the office of the Wage and Hour Division, United States Department of Labor, New York Department Store Building, Fortaleza and San Jose Streets, San Juan, Puerto Rico, to conduct its investigation, and shall commence its hearing at 2:00 p. m. on the same date at the same place. Following this hearing, Industry Committees Nos. 42-B and 42-C shall convene consecutively at the same place in that order at hours designated by the committee chairmen to conduct their investigations and to hold their hearings.

In order to reach as rapidly as is economically feasible the objective of the minimum wage prescribed in paragraph (1) of section 6 (a) of the Act, each industry committee shall recommend to the Administrator the highest minimum wage rate or rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry, and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico, the Virgin Islands, and American Samoa. Where an industry committee finds that a higher minimum wage may be determined for employees engaged in certain activities or in the manufacture of certain products in the industry, the industry committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein which will not substantially curtail employment in such classifications and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within the industry, in making such classifications, and in determining the minimum wage rates for such classifications, the committee shall consider, among other relevant factors, the following: (1) Competitive conditions as affected by transportation, living, and production costs; (2) the wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (3) the wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

The Administrator shall prepare an economic report for each committee containing such data as he is able to assemble pertinent to the matters herein referred to that committee. Copies of each such report may be obtained at the national and Puerto Rican offices of the United States Department of Labor as soon as they are completed and prior to

the hearings. Each committee will take official notice of the facts stated in the economic report to the extent they are not refuted at the hearings.

The procedure of these industry committees will be governed by Part 511 of Title 29, Code of Federal Regulations. As a prerequisite to participation as witnesses or parties these regulations require, among other things, that interested persons in the present matters shall file prehearing statements containing certain specified data, not later than October 10, 1958.

Signed at Washington, D. C., this 18th day of September, 1958.

JAMES P. MITCHELL,
Secretary of Labor.

DEVELOPMENT LOAN FUND

ORGANIZATIONAL STATEMENT

Creation and authority. The Development Loan Fund was first authorized by Title II, of the Mutual Security Act of 1954, as amended in 1957 (22 U. S. C. Sec. 1870) as part of the International Cooperation Administration. In 1958 the DLF was incorporated as an independent Government corporation by the Mutual Security Act of 1958 (72 Stat. 262).

Organization. The Fund is a wholly-owned Government corporation with management vested in a five-man Board of Directors consisting of the Under Secretary of State for Economic Affairs, who is chairman, the Director of the International Cooperation Administration, the Chairman of the Board of Directors of the Export-Import Bank, the Managing Director of the Fund, and the United States Executive Director of the International Bank for Reconstruction and Development. The Board carries out its functions subject to the foreign policy guidance of the Secretary of State.

Capitalization. Three Hundred Million Dollars ($300,000,000) was appropriated to capitalize the Fund in fiscal 1958 and an additional appropriation of Four Hundred Million Dollars ($400,000,000) for this purpose has been added in fiscal 1959, of which One Million Two Hundred and Fifty Thousand Dollars ($1,250,000) is available for administrative expenses of the Fund.

Purpose. The purpose of the Fund is to promote the development of underdeveloped free nations. To be eligible for Fund financing a project must contribute to the economic growth of the country in which it is located, must be economically sound and technically feasible, must not have any undue adverse effect on the economy of the United States, and must present reasonable prospects of repayment. The Fund will not finance a project which can obtain financing on reasonable terms from other free world sources.

The Fund's charter expresses the policy of Congress that the Fund shall be administered so as to support and encourage private investment and other private participation furthering development, and shall be administered so as not to compete with private investment capital, the Export-Import Bank or the International Bank for Reconstruction and Development.

DEMPSTER MCINTOSH,
Managing Director.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 1178, etc.; FCC 58-870]

JAMES W. MILLER ET AL.

MEMORANDUM OPINION AND ORDER AMENDING ISSUES

In re applications of James W. Miller, Milford, Connecticut; Docket No. 11781, File No. BP-10500; Orange County Broadcasting Corporation (WGNY), Newburgh, New York; Docket No. 12411, File No. BP-11635; Vincent De Laurentis, Hamden, Connecticut; Docket No. 12412, File No. BP-11607; Albert L. Capstaff, tr/as EASTERN STATES BROADCASTING CO. Hamden, Connecticut; Docket No. 12413, File No. BP-11760; for construction permits.

1. The Commission has under consideration (1) Petition to Enlarge Issues filed June 3, 1958 by Alfred L. Capstaff, tr/as Eastern States Broadcasting Company; (2) Statement in Support of Petition to Enlarge Issues filed June 26, 1958 by the Commision's Broadcast Bureau; (3) Comments in Support of Petition to Enlarge Issues filed June 26, 1958 by Vincent De Laurentis; (4) Opposition to Petition to Enlarge Issues filed June 26, 1958 by James W. Miller; and (5) Reply to Opposition to Petition to Enlarge Issues filed July 7, 1958 by Albert L. Capstaff, tr/as Eastern States Broadcasting Company.

2. Petitioner, Eastern States, applicant for a construction permit for a new standard broadcast station (1220 kc, 1 kw, daytime) at Hamden, Connecticut, requests an enlargement of issues with respect to James W. Miller, applicant for similar facilities at Milford, Connecticut.

3. Eastern States requests the addition of the following issue: "To determine whether James W. Miller has engaged in trafficking in broadcast authorizations and, if so, whether he is thereby disqualified from receiving a grant herein."

4. Petitioner refers to four specific instances in which it is alleged that Miller participated in the transfer, sale or other disposition of construction permits or station licenses under circumstances sufficiently indicative of "trafficking"[1] in broadcast authorizations to warrant a hearing with respect to his basic qualifications to receive a grant in this proceeding. The four specific standard broadcast authorizations to which reference is made are as follows: (1) South Bridge; (2) Orange; (3) Great Barrington; and (4) Milford; all of the above communities are located in Massachusetts.

5. It appears, from the allegations of petitioner, that Miller, after obtaining construction permits for authorizations at South Bridge and Milford, assigned the same within a period of three months thereafter for the purpose of making a profit. In the case of Orange, it appears that Miller assigned the station license within a period of three months after the station went on the air.

6. De Laurentis and the Broadcast Bureau support the Petition to Enlarge Issues. They both assert that the facts outlined in the petition raise a substantial question as to whether Miller has engaged in the trafficking of broadcast licenses thereby affecting his qualifications to receive a grant in this proceeding.

7. In his opposition to the petition, Miller sets forth, in considerable detail, the circumstances surrounding the disposition of the authorizations referred to in Eastern's petition. He maintains that the various transfers or assignments were prompted by compelling business reasons or to make it possible for other persons to participate in station ownership and management.

8. In the Commission's judgment, sufficient facts have been alleged to justify enlarging the issues. Enlargement, of course, does not constitute rejection of Miller's explanation, but rather is a recognition that a full evidentiary development of the facts and circumstances is necessary to a proper disposition of the trafficking question.

Accordingly, it is ordered, This 17th day of September 1958, that the Petition for Enlargement of Issues filed June 3, 1958, by Alfred L. Capstaff, tr/as Eastern States Broadcasting Company, is granted;

It is further ordered, That Issue No. 7 in our May 13, 1958, Order of Designation (FCC 58-420) is renumbered Issue No. 8 and the additional Issue No. 7 is ordered to read as follows: "To determine whether James W. Miller has engaged in trafficking in broadcast authorizations and, if so, whether he is thereby disqualified from receiving a grant herein."

Released: September 18, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 58-7768; Filed, Sept. 22, 1958; 8:53 a. m.]

[1] In American Television Co., Inc., 12 RR 1433, the Commission defined "trafficking" as the acquisition of a construction permit or license with the view of disposing of the license to another immediately or after holding it for a period of time and held that there was no trafficking where the assignors had intended to construct and operate the proposed station at the time they received the grant and did not acquire it for the purpose of reselling it at a profit.

[Docket Nos. 11925, 11926; FCC 58-877]

NORTHWEST BROADCASTERS, INC., AND HALDANE JAMES DUFF

ORDER AMENDING ISSUES

In re applications of Northwest Broadcasters, Inc., Bellevue, Washington; Docket No. 11925, File No. BP-10521; Rev. Haldane James Duff, Seattle, Washington; Docket No. 11926, File No. BP-10638; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of September 1958;

The Commission having under consideration (1) the matters of record in the above-described proceeding involving the mutually exclusive applications for construction permits to establish standard broadcast stations of Northwest Broadcasters, Inc., and the Reverend Haldane James Duff; (2) the initial decision herein of Examiner Millard F. French, proposing a grant of the application of Northwest Broadcasters; and (3) the exceptions to the initial decision filed by Reverend Duff, Northwest Broadcasters, and the Commission's Broadcast Bureau;

It appearing that prior to the issuance of a decision herein, it is necessary that additional information be adduced which will permit a determination as to whether the city of Bellevue is a separate community, as contemplated by section 307 (b) of the Communications Act, or whether, because of its location and urban and industrial characteristics, Bellevue is an integral part of the city of Seattle; and

It further appearing that, therefore, the issues herein must be appropriately enlarged to inquire into this matter and into other questions related thereto, and that the applications of Northwest Broadcasters, Inc., and Rev. Haldane James Duff must be remanded to the Hearing Examiner for hearing under the enlarged issues and for the preparation of a supplemental initial decision;

Accordingly, it is ordered, That the above-described applications of Northwest Broadcasters, Inc., and Rev. Haldane James Duff are remanded to the Hearing Examiner for further hearing under the added issues as set forth below, and for the preparation of a supplemental initial decision; and

It is further ordered, That, existing issue No. 3 is amended and renumbered issue No. 5; existing issue No. 4 is renumbered issue No. 3; existing issue No. 5 is renumbered issue No. 7; the issues herein are amended by the addition of new issues 4, 6 (a), 6 (b) and 6 (c); and that the issues in the above-entitled proceeding are amended to read as follows:

1. To determine the areas and populations which would receive primary service from each of the proposed operations, and the availability of other primary service to such areas and populations.

2. To determine whether, because of the interference which would be received by the proposed operation of the Reverend Haldane James Duff, his proposed operation would comply with § 3.28 (c) of the Commission's rules; and if compliance with § 3.28 (c) is not achieved, whether circumstances exist which would warrant a waiver of said section of the rules.

3. To determine the financial qualifications of the applicant, Reverend Haldane James Duff, to construct and operate the station as proposed.

4. To determine whether the city of Bellevue is a separate community, as contemplated by section 307 (b) of the Communications Act, or whether, because of its location and urban and industrial characteristics, Belleveue is an integral part of the city of Seattle.

5. In the event that it is concluded that Bellevue is a separate community, to determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-captioned applications would better provide a fair, efficient and equitable distribution of radio service.

6. In the event that it is concluded that Bellevue is an integral part of the city of Seattle:

(a) To determine whether the operation proposed by Northwest Broadcasters, Inc., would adequately serve the city of Seattle in accordance with the provisions of § 3.188 (a) (1), (b) (1) and (2) of the rules.

(b) To determine whether, because of the interference received, the operation proposed by Northwest Broadcasters, Inc., would comply with the provisions of § 3.28 (c) of the Commission's rules, and if compliance is not achieved, whether circumstances exist which would warrant a waiver of said section of the rules.

(c) To determine on a comparative basis which of the operations proposed by Northwest Broadcasters, Inc., and the Reverend Haldane James Duff would better serve the public interest, convenience and necessity in the light of the evidence adduced herein and the record made with respect to the significant differences between the said two applicants as to:

(i) The background and experience of each having a bearing on its ability to own and operate the proposed standard broadcast station.

(ii) The proposals of each with respect to the management and operation of the proposed station.

(iii) The programming services proposed in each of the said applications.

7. To determine in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

Released: September 18, 1958.

COMPOSITE WEEK FOR PROGRAM LOG ANALYSIS

SEPTEMBER 18, 1958.

The Federal Communications Commission announces that the following dates will constitute the composite week for the preparation of program log analyses in connection with renewal applications of all AM, FM, and TV broadcast stations whose licenses expire in 1959. Attention is directed to the fact that the date for Sunday is in the year 1957, whereas, all other dates are in the year 1958.

Monday	January	20, 1958
Tuesday	March	18, 1958
Wednesday	April	9, 1958
Thursday	May	15, 1958
Friday	July	25, 1958
Saturday	September	13, 1958
Sunday	November	17, 1957

The attention of licensees is also directed to section IV, page 3, Item 10, of the renewal application which permits the submission of any additional program data that the applicant desires to call to the Commission's attention, if, in the applicant's opinion, the statistics based on the composite week do not adequately reflect the program service rendered.

Adopted: September 17, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-14276]

REPUBLIC NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 16, 1958.

Take notice that Republic Natural Gas Company (Applicant), a Delaware corporation with a principal office in Dallas, Texas, filed an application in Docket No. G-14276 on January 16, 1958 pursuant to section 7 of the Natural Gas Act for permission and approval to abandon service to Gas Gathering Company (Gas Gathering) due to failure of gas production from the E. C. Merseberger Lease located in the East Mathis Field, San Patricio County, Texas, subject to the jurisdiction of the Commission, as more fully described in the application on file with the Commission, and open for public inspection.

The application recites that the service proposed to be abandoned is covered by a gas sales contract dated August 7, 1953, as amended, on file with the Commission as Applicant's FPC Gas Rate Schedule No. 2, as supplemented. Applicant was authorized on April 24, 1956 in Docket No. G-7638 to sell its gas from the Merseberger No. 1 well to Gas Gathering in addition to gas from the other wells in the field.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission, by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 30, 1958, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 13, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefore is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7729; Filed, Sept. 22, 1958; 8:46 a. m.]

[Docket No. G-15911]

NORTHERN NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 16, 1958.

Take notice that Northern Natural Gas Company (Applicant), a Delaware corporation with principal place of business at 2223 Dodge Street, Omaha, Nebraska, filed in Docket No. G-15911 on August 12, 1958, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate, as an integral part of its existing natural-gas system, a side tap and a measuring and regulating station to deliver interruptible gas to Central Electric and Gas Company (Central Electric), an existing customer, for resale to the Behlen Manufacturing Company (Behlen) in Platte County, Nebraska. The proposed facilities will be located on Applicant's 8-inch line in Platte County, near Columbus, Nebraska, and are estimated to cost about $2,760 for which Central Electric will reimburse Applicant.

Central Electric will construct, own and operate the necessary lateral facilities extending from the plant to the outlet of Applicant's measuring station. Annual sales to Behlen are estimated at 9,870 Mcf and maximum daily requirements are estimated at 130 Mcf. Behlen will use the gas for space heating on an interruptible basis and deliveries will be curtailed under Step 6 in accordance with the provisions of Applicant's effective FPC Gas Tariff. Behlen will have dual fuel-burning equipment and will use propane as its standby fuel.

Applicant estimates that the requested facilities can be constructed and placed in operation within thirty days after authorization is received. The application states that the proposed sale of gas to Behlen will not result in any increase in contract demand or system salable capacity, nor will it adversely affect Applicant's ability to serve the firm requirements of its utility customers.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections

7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 21, 1958, at 9:20 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 9, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7730; Filed, Sept. 22, 1958; 8:46 a. m.]

[Docket No. G-16250]

SOUTHWEST GAS PRODUCING CO., INC., ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

SEPTEMBER 16, 1958.

Southwest Gas Producing Company, Inc., et al. (Southwest), on August 27, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 26, 1958.

Purchaser: Mississippi River Fuel Corporation.

Rate schedule designation: Supplement No. 4 to Southwest's FPC Gas Rate Schedule No. 2.

Effective date: October 1, 1958 (effective date is the effective date proposed by Southwest).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge.

This suspension, however, is based solely on the possibility of the additional tax being invalidated and that only such tax reimbursement shall be made effective subject to refund.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 4 to Southwest's FPC Gas Rate Schedule No. 2 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 4 to Southwest's FPC Gas Rate Schedule No. 2.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until October 2, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7731; Filed, Sept. 22, 1958; 8:47 a. m.]

[Docket No. G-16251]

MIDSTATES OIL CORP.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

SEPTEMBER 16, 1958.

Midstates Oil Corporation (Midstates) on August 26, 1958, tendered for filing proposed changes in its presently effective rate schedules [1] for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, dated August 25, 1958.

Purchaser: Arkansas Louisiana Gas Company.

Rate schedule designation: Supplement No. 5 to Midstates' FPC Gas Rate Schedule No. 3; Supplement No. 6 to Midstates' FPC Gas Rate Schedule No. 5.

Effective date: October 1, 1958 (effective date is the effective date proposed by Midstates).

The increased rates and charges so proposed are intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rates and charges.

These suspensions, however, are based solely on the possibility of the additional tax being invalidated and that only such tax reimbursement shall be made effective subject to refund.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 5 to Midstates' FPC Gas Rate Schedule No. 3, and Supplement No. 6 to Midstates' FPC Gas Rate Schedule No. 5 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 5 to Midstates' FPC Gas Rate Schedule No. 3, and Supplement No. 6 to Midstates' FPC Gas Rate Schedule No. 5.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until October 2, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

---

[1] Supplement No. 3 to Southwest's FPC Gas Rate Schedule No. 2 (Louisiana gathering tax increase), was suspended for 1 day until August 2, 1958, in Docket No. G-15663, and is now in effect subject to refund.

[1] Supplement No. 4 to Midstates' FPC Gas Rate Schedule No. 3, and Supplement No. 5 to Midstates' FPC Gas Rate Schedule No. 5 (Louisiana gathering tax increases), were suspended for 1 day until August 2, 1958, in Docket No. G-15567, and are now in effect subject to refund.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7732; Filed, Sept. 22, 1958; 8:47 a. m.]

[Docket No. G-16252]

OHIO OIL CO. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

SEPTEMBER 16, 1958.

The Ohio Oil Company, (Operator), et al., (Ohio Oil), on August 26, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.
Purchaser: Arkansas Louisiana Gas Company.
Rate schedule designation: Supplement No. 7 to Ohio Oil's FPC Gas Rate Schedule No. 20.
Effective date: October 1, 1958 (effective date is the effective date proposed by Ohio Oil).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge.

This suspension, however, is based solely on the possibility of the additional tax being invalidated and that only such tax reimbursement shall be made effective subject to refund.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 7 to Ohio Oil's FPS Gas Rate Schedule No. 20 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 7 to Ohio Oil's FPC Gas Rate Schedule No. 20.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until October 2, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[1] Supplement No. 6 to Ohio Oil's FPC Gas Rate Schedule No. 20 (Louisiana gathering tax increase), was suspended for 1 day until August 2, 1958, in Docket No. G-15606, and is now in effect subject to refund.

[Project No. 1888]

METROPOLITAN EDISON CO.

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

SEPTEMBER 16, 1958.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a-825r) by Metropolitan Edison Company, of Reading, Pennsylvania, licensee for Project No. 1888, known as York Haven Project, located on the Susquehanna River in Dauphin, Lancaster, and York Counties, Pennsylvania, affecting navigable waters of the United States for amendment of its license for the project. The license was issued on September 30, 1949, for a period effective January 1, 1938, and terminating June 30, 1970. Licensee requests (1) that its license be amended so that the same shall run from a date not earlier than September 1, 1949, for a full period of 50 years; (2) that its license be amended in such other respects as may be appropriate to conform to the new license period requested by the Licensee; and (3) that the Licensee be given credit against future annual license fee payments for amounts which the Licensee paid by way of license fees prior to the new effective date of the license requested by the Licensee.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is October 31, 1958. The application is on file with the Commission for public inspection.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Project No. 1892]

NEW ENGLAND POWER CO.

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

SEPTEMBER 16, 1958.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a-825r) by New England Power Company, of Boston, Massachusetts, licensee for Project No. 1892, known as Wilder Project, located on the Connecticut River in Windsor and Orange Counties, Vermont, and Grafton County, New Hampshire, affecting navigable waters of the United States, for amendment of its license for the project. Licensee seeks to amend the license (1) by changing the commencement of the license period from January 1, 1938 to June 19, 1947 and by changing the termination date from June 30, 1970 to June 18, 1997; (2) by including the amortization reserve provisions described at 16 F. P. C. 1125-1126; (3) by revising the original cost provisions; and (4) by revising provisions relating to removal of obsolete structures.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is October 31, 1958. The application is on file with the Commission for public inspection.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7735; Filed, Sept. 22, 1958; 8:47 a. m.]

[Docket Nos. G-10591, G-15320]

MID-SOUTH GAS CO. AND TEXAS GAS TRANSMISSION CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 18, 1958.

In the matters of Mid-South Gas Company, Docket No. G-10591; Texas Gas Transmission Corporation, Docket No. G-15320.

Take notice that Texas Gas Transmission Corporation (Texas Gas), a Delaware corporation with its principal place of business in Owensboro, Kentucky, filed on June 30, 1958, as supplemented on July 17 and August 4, 1958, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction, installation and operation of certain facilities and the sale of natural gas, as hereinafter

described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Texas Gas proposes to increase the contract demands for firm service to its existing customers for the winters 1958–59 and 1959–60.

Texas Gas proposes to construct and operate the following mainline facilities:

(1) Approximately 92.03 miles of 30-inch loop segments at several locations principally in Louisiana, but also in Arkansas and Mississippi.

(2) Approximately 34.28 miles of 26-inch and smaller diameter loop line in Kentucky, Indiana, and Illinois.

(3) An additional 2,000 horsepower unit at the existing Pineville, Louisiana, station; an additional 1,320 horsepower unit each at the existing Kenton, Tennessee; Slaughters, Kentucky; and Dillsboro, Indiana, stations; two 1,320 horsepower units at the existing Calvert City, Kentucky, station; and an additional 440 horsepower unit at the existing Petersburg, Indiana, station.

(4) A new compressor station at Dixie, Kentucky, to consist of three 600 horsepower units relocated from the existing Guthrie, Louisiana, station.

(5) Scrubbers and other miscellaneous additions to existing compressor stations.

In addition to the mainline facilities as described, Texas Gas proposes to expand its existing storage facilities at the Oaktown and Alford fields in Indiana and the Dixie and Hickory School fields in Kentucky principally by reconditioning existing storage wells, and enlarging the gathering systems.

Included in the facilities required at the Wilfred field is a 700 horsepower compressor unit and 3 miles of 12" lateral line.

The total overall cost of the proposed project is $20,169,638. The immediate cost of construction of the proposed facilities will be accomplished by 4 percent short term bank loans. The permanent financing is to be accomplished through a $17,000,000 bond issue in the latter part of 1959, at an anticipated 4¾ percent interest rate, with the balance of money to be obtained through retained earnings.

By means of the proposed facilities, Texas Gas' system sales capacity is estimated to be increaed by 133,700 Mcf per day. Of this capacity, 113,200 Mcf per day has been contracted for. The remaining volume of 20,500 Mcf per day will be used to meet increasing demands as they develop.

In Docket No. G–10591, Mid-South requests amendment of its certificate of public convenience and necessity issued on October 23, 1956, in said docket to authorize the transportation of an additional 3,000 Mcf per day for Arkansas-Missouri Power Company, making a total of 8,000 Mcf per day.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 20, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 7, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 58–7761; Filed, Sept. 22, 1958; 8:52 a. m.]

[Docket No. G–15824]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 17, 1958.

Take notice that United Gas Pipe Line Company (Applicant), a Delaware corporation with its principal place of business in Shreveport, Louisiana, filed an application on August 5, 1958, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of natural gas facilities as hereinafter described subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant by its budget-type application filed pursuant to the Commission's order No. 185, seeks authority to construct and operate certain unspecified field facilities to enable it to take into its certificated main pipeline system natural gas which it will purchase during the year 1959 from producers in the general area of its existing transmission system.

The application states that the authorization sought herein will eliminate numerous certificate filings by Applicant during 1959 for the sole purpose of installing minor facilities to attach new supplies of gas to its system where expansions of its main transmission facilities are not involved.

Applicant estimates that the total cost of all facilities proposed will not be in excess of $3 million and the total cost of any single project will be limited to a maximum of $400,000.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 28, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 17, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. G–16256]

AMERADA PETROLEUM CORP.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

SEPTEMBER 17, 1958.

Amerada Petroleum Corporation (Amerada) on August 18, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notice of Change, dated August 11, 1958.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 9 to Amerada's FPC Gas Rate Schedule No. 4.

Effective date: September 18, 1958 (effective date is the effective date proposed by Amerada).

In support of the proposed redetermined rate increases Amerada cites the "favored-nation" clause of the price section of its contract with El Paso.

The increased rates and charges as proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

[1] These rates are presently in effect subject to refund in Docket No. G–13897.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 9 to Amerada's FPC Gas Rate Schedule No. 4 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 9, to Amerada's FPC Gas Rate Schedule No. 4.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 18, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G-16258]

SUN OIL CO. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

SEPTEMBER 17, 1958.

Sun Oil Company (Operator), et al. (Sun) on August 19, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 15, 1958.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 4 to Sun's FPC Gas Rate Schedule No. 80.

Effective date: September 19, 1958 (effective date is the effective date proposed by Sun).

In support of the proposed redetermined rate increase, Sun cites the "favored-nation" provision of the pricing section of its contract, states that the aforementioned provision of the contract was arrived at by arm's-length bargaining, and that it is an integral part of the considerations upon which the contract is based.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 4 to Sun's FPC Gas Rate Schedule No. 80 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increase rate and charge contained in Supplement No. 4 to Sun's FPC Gas Rate Schedule No. 80.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 19, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G-16257]

SUN OIL CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

SEPTEMBER 17, 1958.

Sun Oil Company (Sun) on August 19, 1958, tendered for filing proposed changes in its presently effective rate schedules [1] for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, dated August 15, 1958.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 11 to Sun's FPC Gas Rate Schedule No. 58; Supplement No. 5 to Sun's FPC Gas Rate Schedule No. 61; Supplement No. 3 to Sun's FPC Gas Rate Schedule No. 65; Supplement No. 5 to Sun's FPC Gas Rate Schedule No. 1; Supplement No. 5 to Sun's FPC Gas Rate Schedule No. 30.

Effective date: September 19, 1958 (effective date is the effective date proposed by Sun).

In support of the proposed redetermined rate increases, Sun cites the "favored-nation" provisions of the pricing sections of its contracts, states that the aforementioned provisions of the contracts were arrived at by arm's length bargaining, and that they are an integral part of its considerations upon which the contracts are based.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 11 to Sun's FPC Gas Rate Schedule No. 58, Supplement No. 5 to Sun's FPC Gas Rate Schedule No. 61, Supplement No. 3 to Sun's FPC Gas Rate Schedule No. 65, Supplement No. 5 to Sun's FPC Gas Rate Schedule No. 1, and Supplement No. 5 to Sun's FPC Gas Rate Schedule No. 30 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 11 to Sun's FPC Gas Rate Schedule No. 58, Supplement No. 5 to Sun's FPC Gas Rate Schedule No. 61, Supplement No. 3 to Sun's FPC Gas Rate Schedule No. 65, Supplement No. 5 to Sun's FPC Gas Rate Schedule No. 1, and Supplement No. 5 to Sun's FPC Gas Rate Schedule No. 30.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until February 19, 1959, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7764; Filed, Sept. 22, 1958; 8:53 a. m.]

[1] These rates are presently in effect subject to refund in Docket Nos. G-12880 and G-12841.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

SEPTEMBER 15, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34971: *Substitution service—Rail for motor—Chicago and Eastern Illinois Railroad Company, etc.* Filed by Household Goods Carriers Bureau, Agent, (No. 16), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars in substituted service between specified substitution points served by the Chicago and Eastern Illinois Railroad Company, The Pennsylvania Railroad Company, Missouri-Kansas-Texas Railroad Company, and the Missouri-Kansas-Texas Railroad Company of Texas.

Grounds for relief: Motor truck competition.

Tariff: Supplement 6 to Household Goods Carriers Bureau tariff MF-I. C. C. 77.

FSA No. 34972: *Petroleum pentane and petroleum iso-pentane to points in Kansas.* Filed by Western Trunk Line Committee, Agent, (No. A-2016), for interested rail carriers. Rates on petroleum iso-pentane and petroleum pentane, in tank-car loads from points in Kansas and Missouri to points in Kansas.

Grounds for relief: Rates constructed on the basis of a mileage scale.

FSA No. 34973: *Sugar—Southern points to points in Illinois and Iowa.* Filed by O. W. South, Jr., Agent (SFA No. A3731), for interested rail carriers. Rates on sugar, carloads from specified points in Alabama, Florida, Louisiana, and Mississippi to Rock Island, Ill., Burlington, Clinton, Davenport, Dubuque, Fort Madison, and Muscatine, Iowa.

Grounds for relief: Market competition with Colorado producing points.

Tariff: Supplement 74 to Southern Freight Association tariff I. C. C. 434.

FSA No. 34974: *Sand—Official territory to the south.* Filed by O. E. Schultz, Agent (ER No. 2460), for interested rail carriers. Rates on sand, carloads, as described in the application from specified points in Illinois, Indiana, Iowa, Mary-

land, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, and Wisconsin to destinations in southern territory.

Grounds for relief: Short-line distance formula, grouping, short-line, and Florida arbitraries.

Tariff: Supplement 6 to Trunk Line-Central Territory Railroads tariff I. C. C. 4797.

By the Commission.

[Notice 27]

MOTOR CARRIER TRANSFER PROCEEDINGS

SEPTEMBER 18, 1958.

Synopses of orders entered pursuant to section 212 (b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 61153. By order of September 16, 1958, The Transfer Board approved the transfer to Glen V. Brubaker and Gerald B. Tweed, a Partnership, doing business as Cargo Carriers, San Diego, California, of Certificates Nos. MC 38673 and MC 38673 Sub 5, issued June 30, 1944, and September 9, 1952, respectively, to Ralph E. Sorkness, doing business as Sorkness Truck Lines, San Diego, California, authorizing transportation, over irregular routes, of specified commodities and general commodities, excluding household goods and other specified commodities, between designated points in California, and of liquid carbon dioxide, in bulk, in tank vehicles, from Niland, Calif., and Greeley, Colo., to points in California, Oregon, Washington, Montana, Idaho, Wyoming, Utah, Nevada, Colorado, Arizona, and New Mexico, and from Agnew, Calif., to points in Oregon, Washington, Idaho, and Montana, and solidified carbon dioxide, from Niland, Calif., to points in Arizona, Nevada, and New Mexico, and to the boundary of United States and Mexico at Calexico and San Ysidro, Calif. T. A. L. Loretz, 108 West Sixth Street, Los Angeles 14, California, for applicants.

No. MC-FC 61352. By order of September 16, 1958, the Transfer Board approved the transfer to John McKenna, doing business as McKenna Motor Express, Little Falls, N. J., of permit in No. MC 60021, issued July 31, 1958, to Albert G. Hopkinson, doing business as White Star Trucking, Paterson, N. J., authorizing the transportation of: *Such merchandise* as is dealt in by wholesale, retail and chain grocery and food business houses, and, in connection therewith, *equipment, materials and supplies* used in the conduct of such business, and, *fruits, vegetables, farm products, poultry,* and *sea food,* in the respective seasons of their production between points in a specified territory in New Jersey, New York, and Pennsylvania. John M. Zachara, Post Office Box 2860, Paterson 28, N. J., for applicants.

No. MC-FC 61398. By order of September 16, 1958, the Transfer Board approved the transfer to Orofino Motor Freight, Inc., Lewiston, Idaho, of certificates Nos. MC 114119 and MC 114119 Sub 2, issued August 13, 1953 and April 22, 1957, respectively, to C. R. Pingree and C. L. Avery, a partnership, doing business as Star Motor Freight, Lewiston, Idaho, authorizing the transportation of: *General commodities,* with the usual exceptions, including household goods, between Lewiston, Idaho, and Grangeville and Stites, Idaho, serving all intermediate points; between Lewiston, Idaho, and junction Idaho Highways 14 and 13 serving certain intermediate points, and, serving the site of the U. S. Army Radar Station near Cottonwood, Idaho, as an off-route point in connection with the regular route operation between Lewiston, Idaho, and Grangeville and Stites, Idaho. Reed Clements, Weisgerber Building, Lewiston, Idaho, for applicants.

No. MC-FC 61405. By order of September 16, 1958, the Transfer Board approved the transfer to Alfred W. Packer, doing business as Packer Transfer, Princeton, N. J., of certificate in No. MC 92624, issued September 21, 1948, to Evan M. Thomson, doing business as Thomson's Express and Storage, Princeton, N. J., authorizing the transportation of: *Household goods,* as defined by the Commission, between Princeton, N. J., and points within 10 miles of Princeton, on the one hand, and, on the other, points in Delaware, Maryland, New York, Pennsylvania, and the District of Columbia. Harvey S. Moore, Jr., 245 Nassau Street, Princeton, N. J., for applicants.

No. MC-FC 61426. By order of September 16, 1958, the Transfer Board approved the transfer to Elroy Francis Cronin, doing business as Cronin-Joyce Express, Malden, Mass., of Certificate No. MC 6051, issued June 9, 1958, to John F. Cronin, doing business as Cronin-Joyce Express, Malden, Mass., authorizing the transportation of: *Toy novelties, cushion pads, woolen sweaters, drugs,* and *spices,* in truckload lots only, from Medford and Malden, Mass., to New York, N. Y.; *Silk rayon, electric cable,* and *canned goods,* in truckload lots only, from New York, N. Y., to Malden and Boston, Mass.; *woolen yarn,* in truckload lots only, from Malden, Mass., to Phenix and Providence, R. I., and from Passaic, N. J., to Boston, Mass.; *Cloth shoddy,* in truckload lots only, from Malden, Mass., to Phenix and Providence, R. I. Elroy Francis Cronin, 68 Florence Street, Malden 48, Mass., for applicants.

No. MC-FC 61435. By order of September 16, 1958, The Transfer Board approved the transfer to Burcham Trucking Service, Inc., Millville, New Jersey, of certificate No. MC 102698, issued October 25, 1949, to Russell M. Burcham, doing business as Burcham's Trucking Service, Millville, New Jersey, authorizing the transportation of agricultural commodities, from points in Cumberland County, N. J., to Baltimore, Md., Washington, D. C., New York, N. Y., Philadelphia, Wilkes-Barre, Scranton, Johnstown, and Pittsburgh, Pa., Providence, R. I., Hartford, Conn., Boston, Mass., and Newark, Del.; fertilizer, from Bridgeton, N. J., to Harrisburg, Pa., glass containers, from Bridgeton, N. J., to Bridgeport, Conn., Baltimore, Md., Philadelphia, Pa., and New York, N. Y., canned goods, from Bridgeton, N. J., to Philadelphia, Pa., and New York, N. Y., oysters, from Port Norris, N. J., to Baltimore, Md., fertilizer and fertilizer materials, from Baltimore, Md., Philadelphia, Pa., and New York, N. Y. to Bridgeton, N. J., empty baskets and crates, from New York, N. Y., to Salisbury, Md., to Bridgeton, N. J., peat-moss, from Philadelphia, Pa., to Bridgeton, N. J., coal, from Pottsville, Pa., to Bridgeton, N. J., and sand, from Manumuskin and Millville, N. J., to points in New Castle County, Del., those in specified portions of Pennsylvania and Maryland. Robert H. Shertz, 811 Lewis Tower Building, 225 South Fifteenth Street, Philadelphia 2, Pa., for applicants.

No. MC-FC 61436. By order of September 16, 1958, The Transfer Board approved the transfer to Southern Express Terminal Company, A Corporation, Cicero, Illinois, of certificate in No. MC 114360 issued November 8, 1954, to Southern Express Co., A Corporation, Cicero, Illinois, authorizing the transportation of general commodities, excluding household goods and other specified commodities, over a regular route, between Hammond, Ind., and the junction of U. S. Highway 6 and Indiana Highway 152, serving no intermediate points. Jack Goodman, Axelrod, Goodman & Steiner, 39 South LaSalle Street, Chicago 3, Illinois, for applicants.

No. MC-FC 61534. By order of September 16, 1958, The Transfer Board approved the transfer to Jim Schaben, doing business as Dunlap Transfer, Dunlap, Iowa, of Certificate No. MC 30189, issued August 29, 1955, to Donald A. Thompson and Earl D. Thompson, a partnership, doing business as Thompson Bros., Dunlap, Iowa, authorizing the transportation of General commodities, excluding household goods and other specified commodities, from Omaha, Nebr., to Dunlap, Iowa, serving intermediate and off-route points within 15 miles of Dunlap. Jim Schaben, Doing Dunlap Transfer, Dunlap, Iowa, for applicants.

No. MC-FC 61541. By order of September 16, 1958, The Transfer Board approved the transfer to Richard J. Cormier, doing business as Richard the Mover, Lawrence, Massachusetts, of certificate in No. MC 6082, issued October 22, 1953 to Leo O. Demers, doing business as O. Demers & Sons, Lawrence, Massachusetts, authorizing the transportation of general commodities, excluding household goods, and other specified commodities, over regular routes, between Boston, Mass., and Haverhill, Mass., serving certain intermediate and off-route points; coke and electrical appliances, over irregular routes, from Lawrence, Mass., to Salem, N. H.; and household goods, over irregular routes, between North Andover, Mass., and points within five miles of North Andover, on the one hand, and, on the other, points in New Hampshire, and between Lawrence, Mass., on the one hand, and, on the other, points in Connecticut and Rhode Island. George C. O'Brien, The Eight Floor, 33 Broad Street, Boston 9, Mass., for applicants.

[Order No. 170-58]

ESTABLISHMENT OF A FEDERAL PRISON CAMP AT DONALDSON AIR FORCE BASE, GREENVILLE, SOUTH CAROLINA

By virtue of the authority vested in me by section 4125 of title 18 of the United States Code and section 2 of Reorganization Plan No. 2 of 1950 (64 Stat. 1261), it is ordered as follows:

I hereby authorize the Director of the Bureau of Prisons to establish, equip, and maintain a Federal Prison Camp at Donaldson Air Force Base, Greenville, South Carolina; and I hereby designate that camp as a place for confinement of persons convicted of offenses against the laws of the United States, and authorize the commitment and transfer thereto of such United States prisoners as the Director of the Bureau of Prisons may order from time to time. Prisoners committed and transferred to that camp may be employed as authorized by section 4125 of title 18 of the United States Code and may receive so much of the commutation of sentence for good conduct authorized by section 4162 of that title as the Director of the Bureau of Prisons may in his discretion approve.

Dated: September 12, 1958.

WILLIAM P. ROGERS, *Attorney General.*

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 20—RETENTION PREFERENCE REGULATIONS FOR USE IN REDUCTIONS IN FORCE

ACTIONS

Effective October 24, 1958, paragraph (d) of § 20.5 is amended as set out below.

§ 20.5 *Actions.* • • •

(d) *Reasonable change in position*—(1) *How determined.* A change between positions is reasonable if the representative rate of one position is the same as the representative rate of the other position; however, if the employee cannot be changed to a position with the same representative rate, a change in position is reasonable if made with the least reduction in representative rate.

(2) *Representative rate.* For the purposes of this section, the representative rate is the fourth step of the grade for a position under the Classification Act, the prevailing rate for a position outside the Classification Act using a wage-board or similar wage-determining procedure, and for all other positions it is the rate designated by the agency as truly representative of the position.

(3) *Choice of position.* An agency is not required to give an employee a choice between reasonable changes in position. Any agency is not required to fill a vacant position, to change an employee to a position with a higher representative rate, or to move an employee to a different duty station, but an agency is not prohibited from taking these actions. No employee rendering satisfactory service in a position shall be required to be displaced by a competing employee who is not qualified for such position under the regulations in this part.

(Secs. 11, 19, 58 Stat. 390, 391; 5 U. S. C. 860, 868)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

[F. R. Doc. 58-7789; Filed, Sept. 23, 1958; 8:47 a. m.]

PART 20—RETENTION PREFERENCE REGULATIONS FOR USE IN REDUCTIONS IN FORCE

APPEALS

Effective November 23, 1958, paragraphs (a) and (b) of § 20.9 are amended, a new paragraph (c) is added, and the present paragraphs (c) and (d) are redesignated as paragraphs (d) and (e), as set out below.

§ 20.9 *Appeals*—(a) *Employee appeals to the Commission.* Any employee who receives a specific notice of reduction in force and who believes that the regulations in this part have not been correctly applied may appeal to the appropriate office of the Commission stating reasons why he believes the action to be taken or taken is improper. The appeal may be filed at any time from the date the employee receives the notice but not later than ten (10) calendar days after the effective date of the action.

(b) *Further appeals.* The Commission office that makes the initial adjudication of an appeal submitted pursuant to paragraph (a) of this section shall notify the employee, or his designated representative, and the agency of the decision in writing. The written decision shall contain notification of the right of either party to appeal to the Board of Appeals and Review, U. S. Civil Service Commission, Washington 25, D. C. (hereinafter referred to as the "Board"), within seven (7) calendar days after receipt of such decision.

(c) *Extension of time limit.* The time limits specified in paragraphs (a) and (b) of this section may be extended upon a showing that circumstances beyond the control of the appellant or the employing agency prevented the filing of an appeal within the prescribed time limit.

(d) *Finality of decisions.* It is mandatory for the agency to take corrective action in accordance with the decision of the Commission office that made the initial adjudication of the appeal, unless an appeal is made to the Board. The decision of the Board shall be final. There is no further right of appeal. A recommendation for corrective action by the Board is mandatory and must be complied with by the agency.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 43-9]

PART 43—GENERAL OPERATION RULES

PILOT CERTIFICATE REQUIREMENTS FOR OPERATION OF UNITED STATES AND FOREIGN REGISTERED AIRCRAFT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 19th day of September, 1958.

Section 43.40 of Part 43 of the Civil Air Regulations requires in effect that no person shall pilot a civil aircraft within the United States unless he has in his personal possession a valid U. S. airman certificate or valid foreign pilot certificate. The language of this section, however, does not clearly distinguish between the pilot certificate required for the operation of U. S. registered aircraft as against that required for the operation of foreign registered aircraft. As a result, numerous requests have been made for individual interpretations of this section.

Section 602 (a) of the Civil Aeronautics Act of 1938, as amended, empowers the authority (Administrator) "to issue airman certificates specifying the capacity in which the holders thereof are authorized to serve as airmen in connection with aircraft."

Section 610 (b) authorizes the Civil Aeronautics Board to exempt foreign aircraft and airmen serving in connection therewith from the certificate requirements of section 610 (a) provided the exemption is considered to be in the public interest.

Section 1102 provides "In exercising and performing its powers and duties under this Act, the Authority shall do so consistently with any obligation assumed by the United States in any treaty, convention, or agreement that may be in force between the United States and any foreign country or foreign countries * * *."

Article 32 of the Chicago Convention provides "(a) The pilot of every aircraft and other members of the operating crew of every aircraft engaged in international navigation shall be provided with certificates of competency and licenses issued or rendered valid by the State in which the aircraft is registered."

Consistent with these provisions, § 43.40 of Part 43 of the Civil Air Regulations has always been interpreted as prohibiting a person from operating a United States registered aircraft unless he has a valid United States pilot certificate; and as prohibiting a person holding only a foreign pilot certificate from operating aircraft in the United States unless the pilot certificate was issued or rendered valid by the country in which the foreign aircraft is registered. While the application of § 43.40 to holders of United States pilot certificates apparently is understood, the provisions of this section have been susceptible to the erroneous interpretation that a holder of only a foreign pilot certificate may operate, within the United States, an aircraft of United States registry or of a registry other than of the country which issued the pilot certificate. In view of this difficulty with the present language in § 43.40, and in order to eliminate the need for individual interpretations, the Board considers it advisable to revise this section to clearly define the pilot certificate requirements for operation of both United States and foreign registered aircraft in the United States.

Since the changes effected by this amendment are clarifying in nature and impose no additional burden on any person, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 43 of the Civil Air Regulations (14 CFR Part 43, as amended) effective October 24, 1958.

By amending § 43.40 to read as follows:

§ 43.40 *Pilot certificate.* No person shall pilot within the United States a civil aircraft registered in the United States, unless he has in his personal possession while piloting such aircraft, a valid pilot certificate with appropriate ratings issued by the Administrator; or pilot within the United States a civil aircraft registered in a foreign country and eligible for operation in the United States, unless he has in his personal possession while piloting such aircraft a valid pilot certificate with appropriate ratings issued or rendered valid by the country of registry of the aircraft, or a valid United States pilot certificate issued by the Administrator. Such certificate shall be presented for examination to any inspector of the Administrator or State or local law enforcement officer upon the request of such inspector or enforcement officer.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 602, 610, 1102, 52 Stat. 1007, 1008, 1012, 1026, as amended; 49 U. S. C. 551, 552, 560, 672, sec. 6, 44 Stat. 573 as amended; 49 U. S. C. 176)

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter II—National Bureau of Standards, Department of Commerce

Subchapter B—Standard Samples and Reference Standards

PART 230—STANDARD SAMPLES AND REFERENCE STANDARDS ISSUED BY THE NATIONAL BUREAU OF STANDARDS

SUBPART B—STANDARD SAMPLES AND REFERENCE STANDARDS WITH SCHEDULE OF WEIGHTS AND FEES

DESCRIPTIVE LIST; SPECTROGRAPHIC STANDARDS

In accordance with the provisions of section 4 (a) and (c) of the Administrative Procedure Act, it has been found that notice and hearing on these schedules of fees are unnecessary for the reason that such procedures, because of the nature of these rules, serve no useful purpose. This amendment is effective from September 8, 1958.

In § 230.11 *Descriptive list,* paragraph (m) *Spectrographic standards* is amended by the addition of a new series to read as follows:

(7) *Zinc spelter samples.*

Sample [1] No.	Kind	Price per sample
631	Zinc spelter (modified)	$10.00

[1] Size: Bar segments 1¾ inch square and ¾ inch thick.

(Sec. 9, 31 Stat. 1450, as amended; 15 U. S. C. 277. Interprets or applies sec. 8, 31 Stat. 1450, as amended; 15 U. S. C. 276)

A. V. ASTIN,
Director,
National Bureau of Standards.

Approved: September 17, 1958.

SINCLAIR WEEKS,
Secretary of Commerce.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, Sec. 8, 65 Stat. 179; 15 U. S. C. 45 69f) [Cease and desist order, Gershcow Fur Company et al., St. Paul, Minn., Docket 7047, August 14, 1958]

In the Matter of Gershcow Fur Company and Joseph Gershcow, Individually and as President of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a furrier in St. Paul, Minn., with violating the Fur Products Labeling Act by failing to comply with the labeling and invoicing requirements; by advertising in newspapers which failed to disclose the names of animals producing certain furs, the country of origin of imported furs, or that some products contained artificially colored or cheap fur, and which named animals other than those producing certain furs; and by failing to maintain adequate records as a basis for pricing claims in advertising.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 14 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, Gershcow Fur Company, a corporation, and its officers, and Joseph Gershcow, individually and as president of said corporation, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or in the transportation and distribution in commerce, of any fur product, or in connection with the sale, advertising, offering for sale, transportation, or distribution of any fur product, which has been made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur", and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the Rules and Regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is the fact;

(e) The name, or other indentification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

(f) The name of the country of origin of any imported furs used in the fur product;

(g) The item number or mark assigned to a fur product.

2. Setting forth on labels attached to fur product:

(a) Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form;

(b) Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with non-required information;

(c) Information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed, or artificially colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is the fact;

(e) The name and address of the person issuing such invoices;

(f) The name of the country of origin of any imported furs contained in the fur product.

C. Falsely or deceptively advertising fur products, through the use of any advertisement, representation, public announcement, or notice, which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

1. Fails to disclose:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur products contain or are composed of bleached, dyed or otherwise artificially colored fur, when such is the fact;

(c) The name of the country of origin of any imported furs contained in a fur product.

2. Contains the name of an animal or animals other than the name or names of the animal or animals that produced the fur.

D. Makes claims or representations in advertisements respecting comparative prices or values of fur products unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 14, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[Cease and desist order, Leo Walzer et al. trading as H. Walzer & Company, Chicago, Ill., Docket 7088, August 14, 1958]

In the Matter of Leo Walzer and Joseph Walzer, Individuals and Copartners, Trading as H. Walzer & Company

This proceeding was heard by a hearing examiner on the complaint of the Commission charging furriers in Chicago, Ill., with violating the Fur Products Labeling Act by attaching to fur products tags bearing fictitious prices purporting to be regular retail prices, by advertising in newspapers which failed to disclose the names of animals producing the fur in certain products or that some products contained artificially colored fur, which misused the term "blended", and which falsely advertised percentage savings and distress sales; by failing to maintain adequate records as the basis for such pricing claims; and by failing in other respects to comply with the labeling, invoicing, and advertising requirements of the Act.

Following acceptance of an agreement for a consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 14 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, Leo Walzer and Joseph Walzer, individually and as co-partners trading as H. Walzer & Company, or under any other name, and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the introduction into commerce or the sale, advertising, offering for sale, transportation or distribution of fur products, in commerce, or in connection with the sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce as "commerce", "fur", and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Representing on labels attached to fur products, or in any other manner, that certain amounts are the regular and usual prices of fur products when such amounts are in excess of the prices at which such products are usually and customarily sold by respondents in the recent regular course of their business.

2. Falsely or deceptively labeling or otherwise identifying any such product as to the name or names of the animal or animals that produced the fur from which such product was manufactured.

3. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed by the rules and regulations.

(b) That the fur product contains or is composed of used fur, when such is the fact.

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is the fact.

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is the fact.

(e) The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale, in commerce, or transported it in commerce.

(f) The name of the country of origin of any imported furs used in the fur product.

(g) The item number or mark assigned to a fur product.

4. Setting forth on labels attached to fur products:

(a) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations thereunder in abbreviated form.

(b) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations thereunder mingled with non-required information.

(c) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations thereunder in handwriting.

5. Failing to show separately on labels attached to a fur product composed of two or more sections containing different animal furs information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations thereunder with respect to the furs comprising each section.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guild and as prescribed under the rules and regulations.

(b) That the fur product contains or is composed of used fur, when such is the fact.

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is the fact.

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is the fact.

(e) The name and address of the person issuing such invoice.

(f) The name of the country of origin of any imported furs contained in the fur products.

C. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote, or assist, directly or indirectly, in the sale or offering for sale of fur products and which:

1. Fails to disclose:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations.

(b) That the fur products contain or are composed of bleached, dyed or otherwise artificially colored fur, when such is the fact.

(c) All the information required under section 5 (a) of the Fur Products Labeling Act and the rules and regulations thereunder in type of equal size and conspicuousness and in close proximity with each other.

2. Contains the term "blended" as part of the information required under section 5 (a) of the Fur Products Labeling Act and the rules and regulations thereunder to describe the pointing, bleaching, dyeing or tip-dyeing of furs.

3. Represents directly or by implication that respondents' regular price of any fur product is any amount which is in excess of the price at which respondents have regularly or customarily sold such products in the recent regular course of their business.

4. Represents directly or by implication through percentage savings claims that the regular or usual retail prices charged by respondents for fur products in the recent regular course of their business were reduced in direct proportion to the amount of savings stated, when contrary to the fact.

5. Represents directly or by implication that any fur products offered for sale are from the stock of a business in a state of liquidation, when contrary to the fact.

D. Making claims and representations in advertisements respecting comparative prices, percentage savings claims or claims that prices are reduced from regular or usual prices unless there is maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 14, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F. R. Doc. 58-7786; Filed, Sept. 23, 1958; 8:46 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

Subchapter C—Drugs

PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

TETRACYCLINE HYDROCHLORIDE-NEOMYCIN SPRAY OINTMENT TOPICAL; TETRACYCLINE-TRIACETYLOLEANDOMYCIN FOR ORAL SUSPENSION

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (22 F. R. 1045), the regulations for tests and methods of assay and certification of antibiotic and antibiotic-containing drugs (21 CFR Parts 141c, 146c) are amended by adding the following new sections:

§ 141c.244 *Tetracycline hydrochloride-neomycin spray ointment topical*—(a) *Potency*—(1) *Tetracycline hydrochloride content.* Spray the entire contents of the well-shaken sample into a large tared beaker. Place in a vacuum desiccator, evacuate, and allow to stand at room temperature for 16 to 18 hours. After the gas has volatilized, accurately weigh the beaker and contents and determine the weight of the ointment ejected when used as directed in its labeling. Place an accurately weighed sample of approximately 1 gram in an extraction funnel prepared by fusing a ground-glass joint to the top of a medium-porosity sintered-glass filter funnel (30-millimeter diameter). Wash with five 10-milliliter portions of warm iso-octane and draw off the ointment base under vacuum. Discard the iso-octane washings. Wash the residue in the funnel four times with 10-milliliter portions of 0.3 percent piperidine in acetone solution. Withdraw each washing under vacuum. Combine the four washings in a 100-milliliter volumetric flask and make to mark with acetone. Remove an aliquot of this solution and proceed as directed in § 141c.218 (a). The sample may also be assayed by using a 1-gram sample weighed as described above and proceeding as directed in § 141c.202 (a). The tetracycline hydrochloride content is satisfactory if it is not less than 85 percent of that which it is represented to contain.

(2) *Neomycin content.* The residue remaining in the funnel after the extraction described in subparagraph (1) of this paragraph contains the neomycin. Wash this residue five times, using 10-milliliter aliquots of distilled water, drawing each washing off under vacuum. Combine the washings in a 100-milliliter volumetric flask and make to mark with distilled water. Using an aliquot of this aqueous solution, proceed as directed in § 141e.410 (b) of this chapter. The sample may also be assayed by using a 1-gram sample weighed as described in subparagraph (1) of this paragraph and proceeding as directed in § 141c.242 (a) (2), except first prepare the sample by blending in an appropriate volume of 0.1 *M* potassium phosphate buffer, pH 8.0, using a high-speed blender. The content of neomycin is satisfactory if it is not less than 85 percent of that which it is represented to contain.

(b) *Sterility.* Wipe the valve with a suitable disinfectant before spraying. Using an amount of spray (usually evacuated in 5 to 8 seconds) equivalent to approximately 20 milligrams of tetracycline hydrochloride for each container tested, proceed as directed in § 141a.2 of this chapter, except that neither penicillinase nor the control tube is used in the test for bacteria.

(c) *Moisture.* Proceed as directed in § 141a.8 (b) of this chapter.

§ 141c.245 *Tetracycline-triacetyloleandomycin for oral suspension*—(a) *Potency, toxicity, pH.* Prepare the drug as directed in its labeling and proceed as directed in § 141c.240.

(b) *Moisture.* Proceed as directed in § 141a.5 (a) of this chapter.

§ 146c.244 *Tetracycline hydrochloride-neomycin spray ointment topical*—(a) *Standards of identity, strength, quality, and purity.* Tetracycline hydrochloride-neomycin spray ointment topical is tetracycline hydrochloride and neomycin in a suitable and harmless ointment base and one or more suitable and harmless inert gases. Each gram of ointment contains not less than 15 milligrams of tetracycline hydrochloride and not less than 15 milligrams of neomycin. It is sterile. Its moisture content is not more than 3.0 percent. The tetracycline hydrochloride used conforms to the requirements of § 146c.218 (a), except §146c.218 (a) (1), (2), (3), (4), and (5), but its potency is not less than 720 μg. per milligram. The neomycin used conforms to the standards prescribed by § 146e.410 (a) (2) of this chapter for potency, moisture, and pH. Each other ingredient used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* In all cases the immediate container shall be a tight container as defined by the U. S. P. and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused that are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded. Each such container shall contain not less than 30 grams of ointment and shall contain one or more suitable and harmless inert gases.

(c) *Labeling.* Each package shall bear on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The number of milligrams of tetracycline hydrochloride and the number of milligrams of neomycin per gram of ointment and the number of grams of ointment that will be ejected when used as directed in the labeling.

(iii) The statement "Expiration date _____," the blank being filled in with the date that is 24 months after the month during which the batch was certified.

(2) On the outside wrapper or container:

(i) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(ii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information and a statement that such brochure or other printed matter will be sent on request: *Provided, however,* That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(3) On a circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless they were previously submitted) the dates on which the latest assays of the tetracycline hydrochloride and neomycin used in making such batch were completed, the quantity of each ingredient used in making such batch, the date on which the latest assay of the drug comprising such batch was completed, and that each ingredient used in making the batch conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch: The number of milligrams of tetracycline hydrochloride and the number of milligrams of neomycin per gram; sterility; moisture.

(ii) The tetracycline hydrochloride and neomycin used in making the batch: Potency, moisture, pH, crystallinity.

(3) Except as otherwise provided in subparagraph (4) of this paragraph, such person shall submit in connection

with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than six or more than 12 immediate containers.

(b) For sterility testing: 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) The tetracycline hydrochloride used in making the batch: 10 packages, each containing approximately equal portions of not less than 60 milligrams, packaged in accordance with the requirements of § 146c.218 (b).

(iii) The neomycin used in making the batch: Five packages, each containing approximately equal portions of not less than 0.5 gram.

(iv) In case of an initial request for certification, each other ingredient used in making the batch: One package of each component of the ointment base, each containing approximately 200 grams.

(4) The results referred to in subparagraph (2) (ii) of this paragraph and the samples referred to in subparagraph (3) (ii) and (iii) of this paragraph are not required if such results or samples have been previously submitted.

(e) *Fees.* The fees for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $5.00 for each immediate container in the sample submitted in accordance with paragraph (d) (3) (i) (*a*) of this section; $10.00 for all immediate containers submitted in accordance with paragraph (d) (3) (i) (*b*) of this section; $4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (ii), (iii), and (iv) of this section.

(2) If the Commissioner considers that investigations other than examination of such immediate containers are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fees prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d) of this chapter.

§ 146c.245 *Tetracycline-triacetyloleandomycin for oral suspension.* Tetracycline-triacetyloleandomycin for oral suspension conforms to all requirements and procedures prescribed by § 146c.240 for tetracycline-triacetyloleandomycin syrup, except that:

(a) It is a dry powder which, when reconstituted with a diluent as directed in its labeling, conforms to the standards prescribed for tetracycline-triacetyloleandomycin syrup.

(b) Its moisture content is not more than 5 percent.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments covered by this order.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: September 17, 1958.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

MISCELLANEOUS AMENDMENTS TO CHAPTER

Chapter II of Title 24 is amended as follows:

Subchapter C—Mutual Mortgage Insurance and Servicemen's Mortgage Insurance

PART 221—MUTUAL MORTGAGE INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING ONE- TO FOUR-FAMILY DWELLINGS

In § 221.42, paragraph (b) (3) is amended to read as follows:

§ 221.42 *Eligibility of miscellaneous type mortgages.* * * *

(b) * * *

(3) Executed in connection with the sale by the Government, or any agency or official thereof, or any of the so-called Greenbelt towns, or parts thereof, including projects, or parts thereof, known as Greenhills, Ohio; Greenbelt, Maryland; and Greendale, Wisconsin, developed under the Emergency Relief Appropriation Act of 1935; or of any of the village properties or employee's housing under the jurisdiction of the Tennessee Valley Authority; or of any housing under the jurisdiction of the Department of the Interior located within the town area of Coulee Dam, Washington, acquired by the United States for the construction, operation, and maintenance of Grand Coulee Dam and its appurtenant works or of any permanent housing under the jurisdiction of the Department of the Interior constructed under the Boulder Canyon Project Act of December 21, 1928, as amended and supplemented, located within the Boulder City municipal area; or

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b. Interprets or applies sec. 207, 52 Stat. 16, as amended; 12 U. S. C. 1713)

Subchapter D—Multifamily and Group Housing Insurance

PART 232—MULTIFAMILY HOUSING INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING MULTIFAMILY HOUSING

In § 232.30, paragraph (b) (3) is amended to read as follows:

§ 232.30 *Eligibility of miscellaneous type mortgages.* * * *

(b) * * *

(3) Executed in connection with the sale by the Government, or any agency or official thereof, or any of the so-called Greenbelt towns, or parts thereof, including projects, or parts thereof, known as Greenhills, Ohio; Greenbelt, Maryland; and Greendale, Wisconsin, developed under the Emergency Relief Appropriation Act of 1935; or of any of the village properties or employee's housing under the jurisdiction of the Tennessee Valley Authority; or of any housing under the jurisdiction of the Department of the Interior located within the town area of Coulee Dam, Washington, acquired by the United States for the construction, operation, and maintenance of Grand Coulee Dam and its appurtenant works or of any permanent housing under the jurisdiction of the Department of the Interior constructed under the Boulder Canyon Project Act of December 21, 1928, as amended and supplemented, located within the Boulder City municipal area; or

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b. Interprets or applies sec. 207, 52 Stat. 16, as amended; 12 U. S. C. 1713)

PART 241—COOPERATIVE HOUSING INSURANCE; ELIGIBILITY REQUIREMENTS FOR PROJECT MORTGAGE

In § 241.45, paragraph (b) (3) is amended to read as follows:

§ 241.45 *Eligibility of miscellaneous type mortgages.* * * *

(b) * * *

(3) Executed in connection with the sale by the Government, or any agency or official thereof, or any of the so-called Greenbelt towns, or parts thereof, including projects, or parts thereof, known as Greenhills, Ohio; Greenbelt, Maryland; and Greendale, Wisconsin, developed under the Emergency Relief Appropriation Act of 1935; or of any of the village properties or employee's housing under the jurisdiction of the Tennessee Valley Authority; or of any housing under the jurisdiction of the Department of the Interior located within the town area of Coulee Dam, Washington, acquired by the United States for the construction, operation, and maintenance of Grand Coulee Dam and its appurtenant works or of any permanent housing under the jurisdiction of the Department of the Interior constructed under the Boulder Canyon Project Act of December 21, 1928, as amended and supplemented, located within the Boulder City municipal area; or

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b. Interprets or applies sec. 213, 64 Stat. 54, as amended; 12 U. S. C. 1715e)

Issued at Washington, D. C., September 18, 1958.

NORMAN P. MASON,
Federal Housing Commissioner.

[F. R. Doc. 58-7803; Filed, Sept. 23, 1958; 8:49 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 58-902]

[Rules Amdts. 1-7, 9-24, 17-6]

PART 1—PRACTICE AND PROCEDURE

PART 9—AVIATION SERVICES

PART 17—CONSTRUCTION, MARKING AND LIGHTING OF ANTENNA STRUCTURES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 9 of the Commission's rules to delete the construction permit requirement for various classes of ground stations in the Aviation Services, and amendment of Parts 1, 9, and 17 of the Commission's rules to adopt a composite application form for ground stations in the Aviation Services (FCC Form 406).

At a session of the Federal Communications Commission held in its offices in Washington, D. C., on the 17th day of September 1958;

The Commission having under consideration the amendment of Part 1—Practice and Procedure, Part 9—Aviation Services, and Part 17—Construction, Marking and Lighting of Antenna Structures, to delete the construction permit requirement for various classes of ground stations in the Aviation Services, and to adopt a composite application form for such stations (other than Civil Air Patrol); and

It appearing that by order released September 1, 1955 (20 F. R. 6553), the Commission amended Part 1 of the rules to exempt certain classes of stations from the construction permit requirement; and

It further appearing that under the terms of that order, as applied to the Aviation Services, the construction permit requirement was retained only with respect to operational fixed stations and stations having special antenna considerations; and

It further appearing that Part 9 of the Commission's rules should be amended to bring it into conformity with Part 1 of the rules with respect to the circumstances under which a construction permit is no longer a condition precedent to obtaining a station license in the Aviation Services; and

It further appearing that concurrent with the amendment of Part 9, a new aviation ground station application form should be adopted by the Commission in recognition of the fact that construction permits are no longer required in most instances, and in order to simplify application processing by combining existing forms and adapting questions to the current requirements of the Aviation Services; and

It further appearing that general notice of proposed rule making, as prescribed by section 4 (a) of the Administrative Procedure Act, is unnecessary in view of the procedural and editorial nature of the changes herein ordered; and

It further appearing that authority for the issuance of this order is contained in sections 4 (i), 303 (r), 307 (d), 308 (a), 308 (b), and 319 (d) of the Communications Act of 1934, as amended:

It is ordered, That effective December 22, 1958, Parts 1, 9, and 17 of the Commission's rules are amended, as set forth below; and

It is further ordered, That a new composite application form (FCC Form 406)[1] "Application for Ground Station Authorization in the Aviation Services" replacing FCC Forms 401, 401-A, 403, 405-A, 701, and 702 in the Aviation Services, is hereby adopted, the use of which shall be mandatory upon the effective date of this order; and

It is further ordered, That until the effective date of this order, the Commission will continue to entertain applications covering aviation ground facilities submitted on FCC Forms currently in use.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply secs. 301, 303, 307, 48 Stat. 1081, 1082, 1083; 47 U. S. C. 301, 303, 307)

Released: September 19, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

A. Amend Part 1—Practice and Procedure, as indicated below:

1. Amend paragraph (b) of § 1.502 to read as follows:

(b) All applications, except those for renewal of station license, for authority to establish or operate stations (other than ship stations and stations in the Aviation Services) in the Alaska area subject to this part, including correspondence relating thereto, shall be filed in triplicate with the Commission's Engineer in Charge at Seattle, Washington. The provision of this paragraph shall apply to each application for construction permit, license, or modification of construction permit or license.

2. Amend § 1.522 by inserting the following in numerical order:

FCC Form and Title	
406	Application for Ground Station Authorization in the Aviation Services.

3. Delete subdivisions (ii) and (iii) of subparagraph (2), paragraph (b), § 1.524, and substitute new subdivisions (ii), (iii), (iv) and (v) as follows:

(ii) FCC Form 406, "Application for Ground Station Authorization in the Aviation Services," may be used in applying for assignment of ground station authorizations in the Aviation Services.

(iii) FCC Form 505, "Application for Citizens Radio License," for consent to transfer of control of corporation holding a Citizens Radio Station license.

(iv) FCC Form 702, "Application for Consent to Assignment of Radio Station Construction Permit or License (for stations in services other than Broadcast)."

(v) FCC Form 703, "Application for Consent to Transfer of Control of Corporation Holding Construction Permit or Station License (for stations in services other than Broadcast)."

4. Amend paragraph (b) of § 1.536 to read as follows:

(b) Application for renewal of authorization to operate an amateur station in the Radio Amateur Civil Emergency Service shall be filed on FCC Form 481-1 and shall be submitted concurrently with the application for renewal of the basic amateur radio station license. Application for renewal of Civil Air Patrol radio station authorizations shall be submitted on FCC Form 404. Application for renewal of aircraft radio station licenses, other than Civil Air Patrol, shall be submitted on FCC Form 404. Application for renewal of ground station authorizations in the Aviation Services, other than Civil Air Patrol, shall be submitted on FCC Form 404. Application for renewal of Citizens Radio Station License shall be submitted on FCC Form 505.

5. Amend paragraph (b) of § 1.531 to read as follows:

(b) Application for extension of time within which to construct a station in Public Safety, Industrial, and Land Transportation Radio Services shall be submitted on FCC Form 400-A; in the Aviation Services on FCC Form 406; in the Citizens Radio Service on FCC Form 505; and in all other services on FCC Form 701. Such application shall be filed at least 30 days prior to the expiration date of the construction permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than 30 days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

B. Amend Part 9—Aviation Services, as indicated below:

1. Delete in their entirety §§ 9.103 to 9.116 inclusive, and substitute the following:

§ 9.103 *Subscription and verification of applications.* Each application or amendment thereto shall be personally subscribed and verified by the person in whose name application is made if the applicant is an individual, by any one of the general partners if an applicant is a partnership, and by an officer if the applicant is a corporation or unincorporated association: *Provided, however,* That subscription and verfication may be made by an attorney in the event of

[1] Copies of FCC Form 406 will be available from the Federal Communications Commission, Washington 25, D. C., in the near future.

the applicant's physical disability or absence from the continental United States, in which event the attorney must set forth in the verification the grounds of his belief as to all matters not stated upon his knowledge and the reason for applicant's inability to sign and verify. Where more than one copy of an application is required to be filed with the Commission, only the original need be signed and verified.

§ 9.104 *Full disclosures.* Each application shall contain full and complete disclosures with regard to the real party or parties in interest and as to all matters and things required to be disclosed by the application form. Additional information of a purely explanatory nature submitted in letter form need not be notarized.

§ 9.105 *Application for aircraft radio station license.* (a) (1) Application for new, modified, or renewal of aircraft radio station licenses, shall be made on FCC Form 404. The purchaser or assignee of a radio-equipped aircraft shall apply for a new aircraft radio station license on FCC Form 404.

(2) An air carrier, in applying for aircraft radio station licenses, may specify on a single FCC Form 404, the total number of air carrier aircraft stations in the fleet. Under these circumstances, a single instrument of authorization (fleet license) may be issued for operation of all radio stations aboard the aircraft of the fleet.

(3) Any U. S. air carrier conducting operations pursuant to an interchange or lease agreement authorized by the Civil Aeronautics Board may include in its application for fleet license a request for permission to transfer the control of any of its air carrier aircraft radio stations temporarily to another U. S. air carrier, curently licensed by the FCC and with which it has such an interchange or lease agreement, in order to enable the transferee to operate the station while the agreement is in effect. Such request must specify the names of the air carriers participating in the interchange or lease agreement.

(b) Application for new, modified, or renewal of Civil Air Patrol mobile (including aircraft) radio station licenses shall be made on FCC Form 480.

(c) The purchaser of new aircraft with factory-installed radio equipment may operate a private aircraft radio station on the aircraft for a period of 30 days under special temporary authority evidenced by a copy of a certificate (FCC Form No. 453–B) executed by the manufacturer, dealer, or distributor of such aircraft, the original of which has been mailed to the Commission with an application for new station license on FCC Form 404.

§ 9.106 *Application for ground station authorization.* (a) Application for new, modified, renewal of, or assignment of ground station authorizations, except Civil Air Patrol, shall be submitted on FCC Form 406. A construction permit must be obtained prior to commencement of construction in the case of operational fixed stations and stations involving special antenna considerations, in which case application shall be made on FCC Form 406.

(b) Applications for new, modified, or renewal of Civil Air Patrol land station authorizations shall be submitted on FCC Form 480.

(c) Applications for transfer of control by reason of sale or exchange of voting stock, or by other means, shall be submitted on FCC Form 703.

§ 9.107 *Interim operation pending renewal.* Unless otherwise directed by the Commission, each application for renewal of license shall be filed during the last 60 days of the license term. In any case in which the licensee has, in accordance with the Commission's rules, made timely and sufficient application for renewal of license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined.

§ 9.108 *Application for special temporary authority.* (a) Applications for special temporary authority may be filed either formally (by submission of an appropriate application form) or informally (by letter or telegram) to operate new facilities, or to operate existing facilities in a manner beyond that authorized in the current authorization. The nature of the emergency, equipment failure or other circumstances which, in the opinion of the applicant justifies issuance of a special temporary authorization, must be fully described in the request.

(b) Informal requests for special temporary authority shall contain the following information:

(1) Name, address, and citizenship status of applicant;

(2) Statement of facts on which the request is based, including estimated duration of proposed use;

(3) Class of station and nature of service;

(4) Location of station including, when appropriate, geographical coordinates;

(5) Equipment to be used, specifying manufacturer and model number, frequencies desired, types of emission, power, and other pertinent information; and

(6) Description of proposed antenna structure if any.

(c) Information presently on file with the Commission may be included by reference.

§ 9.109 *Amendment of applications.* (a) Any amendment to an application shall be subscribed, verified, and submitted in the same manner, and with the same number of copies, as was the original application.

(b) An application may be amended as a matter of right prior to the designation of such application for hearing by filing the appropriate number of duly executed copies of the amendment.

§ 9.110 *Dismissal of applications.* (a) Any application may be dismissed upon written request signed by the applicant or his attorney, without prejudice and as a matter of right at any time prior to the designation of such application for hearing.

(b) Failure to prosecute an application or failure to respond to official correspondence or request for additional information will be cause for dismissal.

§ 9.111 *Defective applications.* (a) Applications which are incomplete with respect to completeness of answers, supplementary statements, execution, or other matters of a formal character shall be deemed to be defective and may be returned to the applicant with a brief statement as to such defects.

(b) Applications will also be deemed to be defective and may be returned to the applicant in the following cases:

(1) Statutory disqualification of applicant;

(2) Proposed use or purpose of station would be unlawful;

(3) Requested frequency is not allocated for assignment for the service proposed.

(c) Applications which are not in accordance with the provisions of this chapter, or other requirements of the Commission will be considered defective and may be dismissed unless accompanied either by (1) a petition to amend any rule or regulation with which the application is in conflict, or (2) a request of the applicant for waiver of, or exception to, any rule, regulation, or requirement with which the application is in conflict. Such request shall show the nature of the waiver or exception desired and set forth the reasons in support thereof. Applications may be dismissed, if the accompanying petition for waiver or amendment of rules does not set forth reasons which would justify a waiver or change of the rules.

§ 9.112 *Partial grants.* Where an application is granted in part, or with terms and conditions other than those requested, without hearing thereon, such action of the Commission shall be considered acceptable and final unless rejected in writing by the licensee within 30 days of grant. Upon receipt of a written rejection, the Commission will set aside the outstanding authorization and may, in appropriate circumstances, designate the application for hearing.

§ 9.113 *License period.* Authorizations in the Aviation Services are normally issued for a term of five years.

§ 9.114 [Reserved].

§ 9.115 [Reserved].

§ 9.116 [Reserved].

§ 9.117 [Reserved].

2. Amend § 9.141 to read as follows:

§ 9.141 *Notification of completion of station construction.* The following notification procedure shall be observed in those instances in which a construction permit is required by the Commission's rules and has been issued by the Commission:

(a) When construction has been completed in accordance with the terms and conditions of the construction permit, the Engineer in Charge of the local radio district shall be notified of the date on which the transmitter will first be energized in such manner as to produce radiation. Such notification shall be

given in writing at least two days in advance and shall include the name of the permittee, station location, call sign (if any) and frequencies on which tests are to be conducted. FCC Form 456 may be used for this purpose. No acknowledgement from the radio district office is necessary before testing is begun.

(b) After testing, but on or before the date on which the station is first placed in regular operation, the permittee shall mail to the Federal Communications Commission, Washington 25, D. C., an application for station license on FCC Form 406. The station may thereafter be used as though licensed, pending Commission action on the license application.

3. Amend that portion of § 9.411 preceding paragraph (a) thereof to read as follows:

§ 9.411 *Frequencies available.* In applying for an airdrome control radio station authorization, the applicant need not specify the proposed operating frequencies, inasmuch as the assigned frequencies are determined by the Commission after coordination with other agencies of government. The following frequencies are available to airdrome control stations.

4. Amend paragraph (h) of § 9.447 to read as follows:

(h) In filing an application for an operational fixed station authorization in the aeronautical fixed service, the applicant may specify the desired frequency band in lieu of specific frequencies, since it will be necessary for the Commission to determine the assignable frequencies.

5. Amend that portion of § 9.511 preceding paragraph (a) thereof, to read as follows:

§ 9.511 *Frequencies available.* In applying for a radionavigation station authorization, the applicant need not specify the proposed operating frequencies, inasmuch as the assigned frequencies are determined by the Commission after coordination with other agencies of government.

6. Amend § 9.1105 to read as follows:

§ 9.1105 *Application for aeronautical metropolitan station authorization.* A single application may be submitted for any number of aeronautical metropolitan stations for the same licensee in a metropolitan area. The application shall specify the location of the station at the main air terminal, and the location of each station at subordinate landing areas.

C. Amend Part 17—Construction, Marking and Lighting of Antenna Structures, as indicated below:

1. Amend that part of § 17.3 preceding paragraph (a) to read as follows:

§ 17.3 *Form to be used to describe proposed antenna structures.* Applications for radio facilities in the Radio Broadcast Services shall be accompanied by FCC Form 301, Section V–G (antenna); applications in the Aviation Services shall be accompanied by FCC Form 406 (Part II); and applications in all other services shall be accompanied by FCC Form 401–A (revised) when:

2. Delete footnote number 2 which pertains to § 17.3.

[7 CFR Part 1066]

Irish Potatoes

NOTICE OF PROPOSED REGULATIONS GOVERNING IMPORTS

Notice is hereby given that the Secretary of Agriculture is giving consideration to grade, size, quality, and inspection regulations that are to be made applicable to the importation of Irish potatoes into the United States pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat 906, 1047), and the applicable General Regulations (7 CFR Part 1060).

The proposed regulations will replace §§ 1066.2 to 1066.6, inclusive (7 CFR Part 1066) and will constitute, when issued, the complete Part 1066.

The regulations under consideration are to apply to all imports of Irish potatoes on the same basis as regulations imposed upon handlers of (1) round white or red skin varieties of Irish potatoes grown in the State of Maine pursuant to regulations issued under Marketing Agreement No. 122 and Order No. 70 (§ 970.305, 23 F. R. 7061), and (2) long varieties of Irish potatoes grown in certain designated counties in Idaho and Malheur County, Oregon, pursuant to regulations issued under Marketing Agreement No. 98 and Order No. 57, as amended (§ 957.317, 23 F. R. 5157, 6171, 6742, 6903, and 7169).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 10 days following publication of this notice in the Federal Register. The proposals are as follows:

§ 1066.11 *Import of Irish potatoes—*
(a) *Import restrictions.* During the period from October 13, 1958, through July 15, 1959, no person shall import any Irish potatoes, except certified seed potatoes, unless they meet the following requirements:

(1) Round white or red skin varieties shall be U. S. No. 1, or better, grade, 2¼ inches minimum diameter and 4 inches maximum diameter.

(2) Long white varieties (including, but not limited to, the Russet Burbank variety) shall be U. S. No. 2, or better, grade, 2 inches minimum diameter or 4 ounces minimum weight, size A. All long varieties may not be more than "slightly skinned."

(3) All varieties shall be at least 50 percent "fairly clean."

(b) *Minimum quantities.* Any importation which in the aggregrate, does not exceed 500 pounds, may be imported without regard to the provisions of this section.

(c) *Plant quarantine.* No provisions of this section shall supersede the restrictions or prohibitions of potatoes under the Plant Quarantine Act of 1912.

(d) *Certified seed imports.* Any person may import certified seed potatoes, which shall include only those potatoes which are officially certified and tagged as seed potatoes by the Plant Protection Division, Science Service, Canada Department of Agriculture.

(e) *Designation of governmental inspection service.* Fruit and Vegetable Inspection Service, Fruit and Vegetable Division, Marketing Service, Canada Department of Agriculture, is hereby designated, pursuant to § 1060.4 (a) of this chapter, as a governmental inspection service for the purpose of certifying the grade, size, quality, and maturity of Irish potatoes that are imported, or to be imported, from Canada into the United States under the provisions of section 8e of the Act.

(f) *Inspection and official inspection certificates.* (1) Inspection by the Federal or Federal-State Inspection Service, by the Fruit and Vegetable Inspection

Services, Fruit and Vegetable Division, Marketing Service, Canada Department of Agriculture, or by such other governmental inspection service as may be designated, or approved, by the Administrator, with appropriate evidence thereof in the form of an official inspection certificate issued by the respective service and applicable to a particular shipment of potatoes, is required on all imports of potatoes, other than certified seed, pursuant to § 1060.3 of this chapter.

(2) Inspection certificates shall cover only the quantity of potatoes that is being imported at a particular port of entry by particular importers.

(3) The inspections performed, and certificates issued, by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this title). Cost of inspection and certification shall be borne by the applicant therefor.

(4) Each inspection certificate issued with respect to any Irish potatoes to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection;

(ii) The name of the shipper, or applicant;

(iii) The name of the importer (consignee);

(iv) The commodity inspected;

(v) The quantity of the commodity covered by the certificate;

(vi) The principal identifying marks on the containers;

(vii) The railroad car initials and number, the truck and trailer number, the name of the vessel, or other identification of the shipment; and

(viii) The following statement if the facts warrant: Meets U. S. Import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

(g) *Findings and determinations with respect to imports of Irish potatoes.* Pursuant to section 8e of the Agricultural Adjustment Act of 1933, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), it is hereby found and determined that during the effective time hereof (1) imports of potatoes of the long varieties are in most direct competition with such varieties of Irish potatoes which are grown in Districts Nos. 1 and 3 in the production area defined in Order No. 57 (Part 957 of this chapter; designated Counties of Idaho and Malheur County, Oregon), and (2) imports of Irish potatoes of the round and white and red skin varieties are in most direct competition with such varieties of Irish potatoes which are grown in the production area defined in Order No. 70 (Part 970 of this chapter; the State of Maine).

(2) It is hereby determined that the grade, size, and quality regulations hereby established for the respective varieties of Irish potatoes that may be imported into the United States are equivalent or comparable to those imposed upon domestic Irish potatoes under the aforesaid marketing orders.

(h) *Definitions.* (1) The terms "U. S. No. 1," "U. S. No. 2," "fairly clean," "moderately skinned," and "Size A," mean U. S. No. 1 grade, U. S. No. 2 grade, fairly clean, moderately skinned, and Size A, respectively, as set forth in the United States Standards for Potatoes (§§ 51.1540 to 51.1556, inclusive, of this title; 23 F. R. 3141), including the tolerances set forth therein. For the purposes of this section, potatoes meeting the requirements of Canada No. 1 grade and Canada No. 2 grade shall be deemed to comply with the requirements of the U. S. No. 1 grade and U. S. No. 2 grade, respectively, except that the tolerances for size, as set forth in said United States Standards, may be used.

(2) All other terms have the same meaning as when used in the general regulations (Part 1060 of this chapter) applicable to the importation of listed commodities.

Dated: September 18, 1958.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

Agricultural Research Service

[7 CFR Part 301]

DOMESTIC QUARANTINE NOTICES

MOVEMENT OF FRESH OKRA FROM PUERTO RICO OR VIRGIN ISLANDS

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Administrator of the Agricultural Research Service, pursuant to sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), is considering the amendment of § 301.58-3 (a) of the regulations supplemental to the quarantine relating to fruits and vegetables from Puerto Rico or the Virgin Islands (7 CFR 301.58-3 (a)) by adding the words "and fresh okra," between the words "in the pod," and "will be certified" in the second paragraph thereof.

The proposed amendment, if adopted, would allow the movement of fresh okra from Puerto Rico or the Virgin Islands of the United States to Baltimore, Maryland, and Atlantic Coast ports north thereof under certification but without further treatment. With this limitation it is believed that fresh okra that has been examined by an inspector and found free from injurious insect infestation and is so certified, may enter without constituting a hazard of spreading dangerous insects. The amendment would also allow the movement of fresh okra from Puerto Rico or the Virgin Islands of the United States to any mainland port when it has been treated and so certified.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Director of the Plant Quarantine Division, Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of the publication of this notice in the FEDERAL REGISTER.

(Secs. 8, 9, 37 Stat. 318, as amended; 7 U. S. C. 161, 162)

Done at Washington, D. C., this 19th day of September 1958.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 58-7814; Filed, Sept. 23, 1958; 8:50 a. m.]

Commodity Stabilization Service

[7 CFR Part 730]

RICE

NOTICE OF DETERMINATIONS TO BE MADE WITH RESPECT TO MARKETING QUOTAS, NATIONAL, STATE, AND COUNTY ACREAGE ALLOTMENTS, COUNTY NORMAL YIELDS AND PROPOSED DATE FOR CONDUCTING REFERENDUM ON MARKETING QUOTAS FOR 1959 CROP

Pursuant to the authority contained in applicable provisions of the Agricultural Adjustmentt Act of 1938, as amended (7 U. S. C. 1301, 1352, 1353, 1354, 1377), the Secretary of Agriculture is preparing to determine whether marketing quotas are required to be proclaimed for the 1959 crop of rice, to determine and proclaim the national acreage allotment for the 1959 crop of rice, to apportion among States and counties the national acreage allotment for the 1959 crop of rice, to establish county normal yields for the 1959 crop of rice, and to establish a date for conducting a referendum on marketing quotas in the event quotas are proclaimed for the 1959 crop of rice.

Section 354 of the act provides that whenever in the calendar year 1958 the Secretary determines that the total supply of rice for the 1958-59 marketing year will exceed the normal supply for such marketing year by more than 10 per centum, the Secretary shall, not later than December 31, 1958, proclaim such fact and marketing quotas shall be in effect for the crop of rice produced in 1959. Within thirty days after the issuance of such proclamation, the Secretary shall conduct a referendum by secret ballot of farmers engaged in the production of the immediately preceding crop of rice to determine whether such farmers are in favor of or opposed to such quotas. In the event that the Secretary proclaims quotas in effect for the 1959 crop of rice, it is proposed that the date for holding the referendum be set as Monday, December 15, 1958.

Section 352 of the act, as amended, provides that the national acreage allotment of rice for 1959 shall be that acreage which the Secretary determines will, on the basis of the national average yield of rice for the five calendar years 1954 through 1958 produce an amount of rice adequate, together with the estimated carry-over from the 1958-59 marketing year, to make available a supply for the 1959-60 marketing year not

less than the normal supply. The Secretary is required under this section of the act to proclaim such national acreage allotment not later than December 31, 1958.

Section 353 (c) (6) of the act, as amended, provides that the national acreage allotment of rice for 1959 shall be not less than the national acreage allotment for 1956, including the 13,512 acres apportioned to States pursuant to paragraph (5) of section 353 (c) of the act. Under this provision, the national acreage allotment of rice for 1959 will be not less than 1,652,596 acres.

As defined in section 301 of the act, for purposes of these determinations, "total supply" for any marketing year is the carry-over of rice for such marketing year, plus the estimated production of rice in the United States during the calendar year in which such marketing year begins and the estimated imports of rice into the United States during such marketing year; "normal supply" for any marketing year is the estimated domestic consumption of rice for the marketing year ending immediately prior to the marketing year for which normal supply is being determined, plus the estimated exports of rice for the marketing year for which normal supply is being determined, plus 10 per centum of such consumption and exports, with adjustments for current trends in consumption and for unusual conditions as deemed necessary; and "marketing year" for rice is the period August 1 to July 31.

Section 353 (a) and (c) (6) of the act require that the national acreage allotment of rice for the 1959 crop, less a reserve of not to exceed one per centum thereof for apportionment to farms receiving inadequate allotments because of insufficient State or county allotments or because rice was not planted on the farm during all the years of the base period, be apportioned among the several States in which rice is produced in the same proportion that they shared in the total acreage allotted to States in 1956 (State acreage allotments plus the additional acreage allocated to States under section 353 (c) (5) of the act, as amended).

Section 353 (b) of the act requires that the State acreage allotment of rice for the 1959 crop shall be apportioned to farms owned or operated by persons who have produced rice in the State in any one of the five calendar years, 1954 through 1958, on the basis of past production of rice in the State by the producer on the farm taking into consideration the acreage allotments previously established in the State for such owners or operators; abnormal conditions affecting acreage; land, labor, and equipment available for the production of rice; crop rotation practices; and the soil and other factors affecting the production of rice. Provision is made that if the State committee recommends such action and the Secretary determines that such action will facilitate the effective administration of the act, he may provide for the apportionment of part or all of the State acreage allotment to farms on which rice has been produced during any one of such period of years on the basis of the foregoing factors, using past production of rice on the farm and the acreage allotments previously established for the farm in lieu of past production of rice by the producer and the acreage allotments previously established for such owners or operators.

Provision is also made that if the Secretary determines that part of the State acreage allotment shall be apportioned on the basis of past production of rice by the producer on the farm and part on the basis of the past production of rice on the farm, he shall divide the State into two administrative areas, to be designated "producer administrative area" and "farm administrative area", respectively, which areas shall be separated by a natural barrier which would prevent each area from being readily assessible to rice producers in one area from producing rice in the other area, and each area shall be composed of whole counties. Not more than 3 per centum of the State acreage allotment shall be apportioned among farms operated by persons who will produce rice in the State in 1959 but who have not produced rice in the State in any one of the years, 1954 through 1958, on the basis of the applicable apportionment factors set forth herein: *Provided*, That in any State in which allotments are established for farms on the basis of past production of rice on the farm such percentage of the State acreage allotment shall be apportioned among the farms on which rice is to be planted during 1959 but on which rice was not planted during any of the years, 1954 through 1958, on the basis of the applicable apportionment factors set forth herein. In determining the eligibility of any producer or farm for an allotment as an old producer or farm under the first sentence of this subsection or as a new producer or farm under the second sentence of this subsection, such producer or farm shall not be considered to have produced rice on any acreage which under subsection (c) (2) is either not to be taken into account in establishing acreage allotments or is not to be credited to such producer. For purposes of this section in States which have been divided into administrative areas pursuant to this subsection the term "State acreage allotment" shall be deemed to mean that part of the State acreage allotment apportioned to each administrative area and the word "State" shall be deemed to mean "administrative area", wherever applicable.

Section 353 (c) (1) of the act provides that if farm acreage allotments are established by using past production of rice on the farm and the acreage allotments previously established for the farm in lieu of past production of rice by the producer and the acreage allotments previously established for owners or operators, the State acreage allotment shall be apportioned among counties in the State on the same basis as the national acreage allotment is apportioned among the States and the county acreage allotments shall be apportioned to farms on the basis of the applicable factors set forth in subsection (b) of the section: *Provided*, That if the State is divided into administrative areas pursuant to subsection (b) of this section the allotment for each administrative area shall be determined by apportioning the State acreage allotment among counties as provided in this subsection and totaling the allotments for the counties in each area: *Provided*, That the State committee may reserve not to exceed 5 per centum of the State allotment, which shall be used to make adjustments in county allotments for trends in acreage and for abnormal conditions affecting plantings.

Section 301 (b) (13) (D) of the act provides that the "normal yield" of rice for 1959 for any county shall be the average yield per acre of rice for the county during the five calendar years 1954 through 1958 adjusted for abnormal weather conditions and trends in yields. Provision is made therein that if for any such year data are not available, or there is no actual yield, an appraised yield for such year, determined in accordance with regulations of the Secretary, taking into consideration the yields obtained in surrounding counties during such year and the yield in years for which data are available, shall be used as the actual yield for such year.

Section 301 (b) (13) (F) of the act provides that if on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, the yield for any county for any year during the years 1954 through 1958 is less than 75 per centum of the average, 75 per centum of such average shall be substituted therefor in calculating the normal yield per acre; and if on account of abnormally favorable weather conditions, the yield for any county for any year during the years 1954 through 1958 is in excess of 125 per centum of the average, 125 per centum of such average shall be substituted therefor in calculating the normal yield per acre.

Section 377 of the act provides that in any case in which the acreage planted to rice on any farm in 1959 is less than the 1959 rice acreage allotment for the farm, the entire acreage allotment for such farm shall be considered for purposes of future State, county, and farm acreage allotments to have been planted to rice in 1959. Provision is made therein that if the amount of rice required to be stored to postpone or avoid payment of penalty has been reduced because the 1959 rice acreage allotment for the farm was not fully planted, the owner or operator of the farm will not be permitted to preserve such allotment.

Sections 106 and 112 of the Soil Bank Act provide that the acreage on any farm which is determined to have been diverted from the production of rice under the 1958 acreage reserve or conservation reserve program shall be considered as rice acreage for the purpose of establishing 1959 farm, county, and State acreage allotments under the Agricultural Adjustment Act of 1938, as amended.

Prior to making any of the foregoing determinations with respect to marketing quotas and national, State and county acreage allotments and county normal yields for the 1959 crop of rice, including national, State, and county

reserves, consideration will be given to data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Grain Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than fifteen days after the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C., this 19th day of September 1958.

[SEAL] WALTER C. BERGER,
Administrator.

AMATEUR RADIO SERVICE

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of §§ 12.64, 12.111, and 12.231 (a) of the Commission's rules so as to permit remote control of stations in the Amateur and Radio Amateur Civil Emergency Services when operating in the 220-225 Mc band and to permit use of 6F2 emission by stations in these services when operating between 50.35 and 50.75 Mc; Docket No. 12607.

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. Petitions filed by the United States Civil Defense Amateur Radio Alliance seek amendment of §§ 12.64 (b) and 12.231 (a) (2) of the Commission's rules so as to allow stations in the Radio Amateur Civil Emergency Service[1] to use the frequencies in the 220-225 Mc RACES band for radio remote control of base stations" and to "use 6F2 emission in the 50.35 to 50.75 Mc band * * *."

3. The petitioner, in support of its request for amendments necessary to permit remote control operation by RACES stations in the 220-225 Mc band, alleges:

(a) Remote control is not presently permitted on a frequency available for utilization by RACES stations, which fact "is hampering progress in the development of the full capabilities of the service";

(b) Terrain conditions in the areas where many "Civil Defense Control Centers" are situated make maintenance of "the required primary communication links" impossible without physically relaying messages so long as remote control operations are not permitted;

(c) Use of wire lines for the remote control of RACES base stations will hamper the "mission" of amateur radio in Civil Defense, "to supply emergency communications", because "if all wire lines are intact after attack, RACES will not be called upon to play more than a minor role in communications."

(d) Adoption of the requested amendments would make it "possible to minimize error" by elimination of the necessity for physical relay of messages, thus enhancing the value of the Radio Amateur Civil Emergency Service in time of disaster.

4. Arguments advanced by the petitioner in support of the requested amendment of § 12.231 (a) (2) so as to allow use of 6F2 emission by RACES stations when operating on frequencies between 50.35 and 50.75 Mc include the following:

(a) 6F2 emission is presently permitted when RACES stations are operated between the frequencies 53.35 and 53.75 Mc and the characteristics of such frequencies are substantially identical to the characteristics of frequencies between 50.35 and 50.75 Mc.

(b) Authority to use 6F2 emission when operating on frequencies between 50.35 and 50.75 Mc as well as when operating on frequencies between 53.35 and 53.75 is required "in order that simultaneous transmission and reception of radio teletype signals be maintained, thereby affording maximum use of available frequencies at greater speed of transmitting and receiving."

(c) Rules presently restrict emissions on frequencies between 50.35 and 50.75 Mc suitable for telegraphy to type "A" emissions and equipment necessary for utilization of such emissions in radio telegraphy is unsatisfactory, not readily available and more expensive than that which would be required to utilize 6F2 emission.

(d) "Permission to use 6F2 in the 50.35 to 50.75 Megacycle band will encourage the Radio Amateur Civil Emergency Service to develop radio teletype communications in civil defense networks" and will aid in "increasing the speed with which traffic can be moved" by RACES stations.

5. The requested amendment of § 12.64 (b) would, if promulgated, permit not only RACES stations but also other amateur radio stations to be authorized for conduct of remote control operations on frequencies in the 220-225 Mc band. Remote control operation by such stations is presently permitted only on "frequencies within amateur frequency bands 420 Mc or higher." The requested amendment of § 12.231 (a) (2) which would permit use of 6F2 emission by RACES stations on frequencies between 50.35 and 50.75 Mc would not provide for such use of 6F2 emission by other amateur radio stations operating on these same frequencies. Authorizations for operation of RACES stations are issued only to persons holding an amateur radio operator's license and "an appropriate amateur radio station license." Therefore, it would appear that if provision is made for use of 6F2 emission by RACES stations on frequencies between 50.35 and 50.75 Mc, similar provision should be made in § 12.111 (h) for use of this emission by other amateur radio stations.

6. The requested amendments appear to have sufficient merit to warrant issuance of a Notice of Proposed Rule Making envisioning effectuation thereof.

Amendment of § 12.111 (h) so as to permit use of 6F2 emission by amateur radio stations operating on frequencies between 50.0 and 54.0 Mc is also being proposed.

7. Proposed amendments of §§ 12.64 (b), 12.111 (h) and 12.231 (a) (2) of the Commission's rules are contained below and are issued pursuant to the authority delegated to the Commission by section 303 (e) and (f) of the Communications Act of 1934, as amended.

8. Any interested person who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before November 20, 1958, written data, views or briefs setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments in reply to the original comments may be filed within ten days from the last day for filing said original data, views or briefs. The Commission will consider all such comments prior to taking final action in this matter.

9. In accordance with the provisions of § 1.54 of the Commission's rules, an original and fourteen copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: September 17, 1958.

Released: September 19, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. Amend § 12.64 (b) (6) to read as follows:

(6) In the event that operation of an amateur transmitter from a remote control point by radio is desired, an application for a modified station license on FCC Form No. 610 or FCC Form No. 602, as appropriate, should be submitted with a letter requesting authority to operate in such a manner stating that the controlling transmitter at the remote location will operate within amateur frequency bands 220 megacycles or higher

[1] Hereinafter sometimes referred to as RACES stations.

and that there will be full compliance with subparagraphs (1) through (5) of this paragraph. Supplemental statements and diagrams should accompany the application and show how radio remote control will be accomplished and what means will be employed to prevent unauthorized operation of the transmitter by signals other than those from the controlling unit. There should be included complete data on control channels, relays and functions of each, directional antenna design for the transmitter and receiver in the control circuit, and means employed for turning on and off the main transmitter from the remote control location.

2. Amend § 12.111 (h) to read as follows:

(h) 50.0 to 54.0 Mc using types A1, A2, A3, and A4 emissions and narrow band frequency or phase modulation for radiotelephony or radiotelegraphy 51.0 to 54.0 Mc using type Aø emission, and on frequencies 52.5 to 54.0 Mc special emission for frequency modulation (radiotelephone transmissions and radiotelegraph transmissions employing carrier shift or other frequency modulation techniques).

3. Amend § 12.231 (a) (2) to read as follows:

(2) For use by all authorized stations:

Frequency band:	Authorized emission
28.55–28.75 Mc	0.1A1, 6A3, 6A4, 6F3.
29.45–29.65 Mc	0.1A1, 1.1F1, 6A3, 6A4, 40F3.
50.35–50.75 Mc	0.1A1, 6A2, 6A3, 6A4, 6F2, 6F3.
53.35–53.75 Mc	0.1A1, 1.1F1, 6A2, 6F2, 6A3, 6A4, 40F3.
145.17–145.71 Mc	0.1A1, 1.1F1, 6A2, 6F2, 6A3, 6A4, 40F3.
146.79–147.33 Mc	0.1A1, 1.1F1, 6A2, 6F2, 6A3, 6A4, 40F3.
220–225 Mc	0.1A1, 1.1F1, 6A2, 6F2, 6A3, 6A4, 40F3.

NOTICES

DEPARTMENT OF AGRICULTURE

Office of the Secretary

OHIO

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), as amended, it has been determined that in Hardin County, Ohio, a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named county after June 30, 1959, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 19th day of September 1958.

WICOMICO BROADCASTING CO. (WICO)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Elizabeth Evans and W. Courtney Evans d/b as Wicomico Broadcasting Company (WICO), Salisbury, Maryland, Docket No. 12599, File No. BP–11470; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 17th day of September 1958;

The Commission having under consideration the above captioned application of Elizabeth Evans and W. Courtney Evans d/b as Wicomico Broadcasting Company for a construction permit to increase the power of Station WICO, Salisbury, Maryland from 500 watts to one kilowatt, and to continue operation on 1320 kilocycles, daytime only;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate Station WICO as proposed, but that the proposed operation would involve mutual interference with Stations WGH, Newport News, Virginia (1310 kc, 5 kw, DA–1, U) and WLLY, Richmond, Virginia (1320 kc, 1 kw, Day); and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated July 23, 1958 of the aforementioned interference and that the Commission was unable to conclude that a grant of the

application would be in the public interest; and

It further appearing that a timely reply to the Commission's letter was filed by the applicant; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WICO as proposed, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of Station WICO would cause objectionable interference to Stations WGH, Newport News, Virginia, or WLLY, Richmond, Virginia, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other primary service to such areas and populations.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether the above-captioned application should be granted.

It is further ordered, That Hampton Roads Broadcasting Corporation and WLLY, Inc., licensees of Stations WGH and WLLY, are made parties to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicant and respondents herein, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

Released: September 18, 1958.

[Docket Nos. 12600, 12601; FCC 58-894]

SHELBY COUNTY BROADCASTING CO. AND ROUNSAVILLE OF CINCINNATI, INC. (WCIN)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of H. T. Parrott, R. D. Ingram, J. W. Pickett & Edwin L. Rogers d/b as Shelby County Broadcasting Company, Shelbyville, Indiana, Docket No. 12600, File No. BP-11202; Rounsaville of Cincinnati, Inc. (WCIN), Cincinnati, Ohio, Docket No. 12601, File No. BP-11539; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of September 1958;

The Commission having under consideration the above-captioned applications of H. T. Parrott, R. D. Ingram, J. W. Pickett & Edwin L. Rogers d/b as Shelby County Broadcasting Company for a construction permit for a new standard broadcast station to operate on 1480 kilocycles with a power of 500 watts utilizing different directional antenna patterns for day and night operation, unlimited time at Shelbyville, Indiana; and of Rounsaville of Cincinnati, Inc., to increase the power and hours of operation of Station WCIN, Cincinnati, Ohio and to operate on the presently assigned frequency of 1480 kilocycles with a power of 500 watts, nighttime, 5 kilowatts, daytime, utilizing different directional antenna patterns for day and night operation, unlimited time;

It appearing that except as indicated by the issues specified below, both applicants are legally, financially, technically and otherwise qualified to operate their proposed stations but that the simultaneous operation of both proposals would result in mutual interference; that the interference which would be received by the proposed operation of the Shelby County Broadcasting Company from the existing and proposed operations of Station WCIN would affect more than ten percent of the population within the proposed normally protected primary service area in contravention of § 3.28 (c) of the Commission's rules; and that the proposed operation of the Shelby County Broadcasting Company would cause interference to Station WCBC, Anderson, Indiana (1470 kc, 1 kw, Day); and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the applicants were advised by letter dated June 30, 1958, of the aforementioned interference and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that a timely reply was received from each of the applicants; and

It further appearing that the Shelby County Broadcasting Company has requested a waiver of § 3.28 (c) of the Commission's rules; and

It further appearing that by letter of January 23, 1958, the licensee of Station WCBC requested that the application of the Shelby County Broadcasting Company be designated for hearing; and

It further appearing that the proposed operation of Station WCIN would receive some interference in a small area from the proposal made in the application, File No. B-12277 of James E. Vaughn and George W. Vaughn d/b as WXEN, requesting authority to construct a new standard broadcast station to operate on 1500 kilocycles with a power of 250w, daytime only, at Xenia, Ohio; and that, in the event of favorable action on the WCIN application in the hearing ordered below, a grant of said application should be on condition that WCIN shall accept any interference which may result in the event of a grant of the Xenia proposal; and

It further appearing that the Commission, after consideration of the above is of the opinion that a hearing on the applications is necessary and is unable to make a determination, on the basis of the data before it, as to whether the Shelby County Broadcasting Company's request for a waiver of § 3.28 (c) of the Commission's rules should be granted and is of the opinion that an evidentiary hearing is necessary to obtain complete information relative to the application of the Shelby County Broadcasting Company and the grounds advanced in support of the request for a waiver of § 3.28 (c) of the rules to enable the Commission to determine whether the public interest would be served by a grant of said application;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operation of the Shelby County Broadcasting Company and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which would be expected to gain or lose primary service from the operation of Station WCIN as proposed and the availability of other primary service to such areas and populations.

3. To determine whether the proposed operation of the Shelby County Broadcasting Company would cause objectionable interference to Station WCBC, Anderson, Indiana, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine the nature and extent of the interference, if any, that each of the instant proposals would cause to and receive from each other and all other existing standard broadcast stations, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

5. To determine whether, because of interference received, the proposed operation of the Shelby County Broadcasting Company would comply with § 3.28 (c) of the Commission's rules; and if compliance with § 3.28 (c) is not achieved, whether circumstances exist which would warrant a waiver of said section of the rules.

6. To determine, in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service.

7. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the instant applications should be granted.

It is further ordered, That the Civic Broadcasting Corporation, licensee of

Station WCBC, is made a party to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and respondent herein, shall, within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the issues in this proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

It is further ordered, That, in the event of favorable action on the WCIN application in the hearing ordered above, any construction permit which may be granted to Rounsaville of Cincinnati, Inc., shall include the following condition: Permittee shall accept any interference that may result in the event of the grant of the application, File No. BP-12277, of James E. Vaughn and George W. Vaughn d/b as WXEN for a new standard broadcast station to operate on 1500 kilocycles at Xenia, Ohio.

Released: September 19, 1958.

[Docket Nos. 12602, 12603; FCC 58-896]

KANKAKEE DAILY JOURNAL CO. (WKAN) AND WILLIAM F. HUFFMAN RADIO, INC. (WFHR)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Kankakee Daily Journal Company (WKAN), Kankakee, Illinois, Docket No. 12602, File No. BP-11287; William F. Huffman Radio, Inc. (WFHR), Wisconsin Rapids, Wisconsin, Docket No. 12603, File No. BP-11986; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of September 1958;

The Commission having under consideration the above-captioned applications of the Kankakee Daily Journal Company for a construction permit to increase the hours of operation of Station WKAN, Kankakee, Illinois, from daytime only to unlimited time, to operate with a nighttime power of 500 watts utilizing a nighttime directional antenna and to continue operation on the presently assigned frequency of 1320 kilocycles with a daytime power of one kilowatt; and of William F. Huffman Radio, Inc., for a construction permit to change the facilities of Station WFHR, Wisconsin Rapids, Wisconsin, from operation on 1340 kilocycles with a power of 250 watts, unlimited time, to operation on 1320 kilocycles with a power of 500 watts, nighttime, 5 kilowatts, daytime, utilizing a directional antenna at night, unlimited time;

It appearing that except as indicated by the issues specified below, both applicants are legally, financially, technically and otherwise qualified to construct and operate the stations as proposed but that the proposed operation of Station WKAN would cause nighttime interference to the proposed operation of Station WFHR; the proposed operation of WFHR would cause interference to Station KMAQ, Maquoketa, Iowa (1320kc, 500w, Day); that, due to the nighttime interference which would be received by the proposed operation of WFHR, the station would not comply with § 3.188 (a) (1) of the Commission's rules in that the proposed nighttime limitation contour would not encompass the entire city of Wisconsin Rapids nor would the proposal satisfy the provision of § 3.28 (c) of the Commission's rules permitting population loss in excess of ten percent of those residing within the proposed normally protected primary service area if the proposal provides a standard broadcast nighttime facility to a community not having such a facility; and that, in the event of favorable action on the WFHR application in the hearing ordered below, the construction permit should include a condition requiring the applicant to submit current distribution measurements along the antenna conductors in order to establish the proposed electrical characteristics; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the applicants were advised by letter dated July 18, 1958, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either of the applications would be in the public interest; and

It further appearing that a timely reply was received from each of the applicants; and

It further appearing that by letter of August 12, 1958, the permittee of Station KMAQ expressed an intention of appearing at a hearing on the application of William F. Huffman Radio, Inc.; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would be expected to gain or lose primary service from the operation of Stations WKAN and WFHR, as proposed herein, and the availability of other primary service to such areas and populations.

2. To determine the nature and extent of the interference, if any, that each of the instant proposals would cause to and receive from each other and all other existing standard broadcast stations, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether the proposed operation of Station WFHR would involve objectionable interference with Station KMAQ, Maquoketa, Iowa, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine whether the proposed operation of Station WFHR would provide satisfactory nighttime service to the city sought to be served as required by § 3.188 (a) (1) of the Commission's rules.

5. To determine whether, because of interference received the proposed operation of Station WFHR would comply with § 3.28 (c) of the Commission's rules; and if compliance with § 3.28 (c) is not achieved, whether circumstances exist which would warrant a waiver of said section of the rules.

6. To determine, in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the proposals herein would better provide a fair, efficient and equitable distribution of radio service.

7. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

It is further ordered, That Nathan L. Goetz, Robert Goetz and Merlin J. Meythaler d/b as Jackson County Broadcasting Company, permittee of Station KMAQ, is made a party to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and respondent herein, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the issues in this proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

It is further ordered, That, in the event of favorable action on the application of William F. Huffman Radio, Inc., in the hearing proceeding ordered above, a grant of the application shall be upon the following condition: Permittee shall submit antenna current distribution measurements to establish that the antenas exhibit the electrical characteristics of 234 degree towers.

Released: September 19, 1958.

[Docket No. G-16242]

NICKLOS OIL & GAS CO. ET AL.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

SEPTEMBER 17, 1958.

Nicklos Oil & Gas Company, et al. (Nicklos), on August 18, 1958, tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 13, 1958.

Purchaser: Texas Gas Transmission Corporation.

Rate schedule designation: Supplement No. 2 to Nicklos' FPC Gas Rate Schedule No. 1.

Effective date: September 18, 1958 (effective date is the first day after expiration of the required thirty days' notice).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1959 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final decision, it is deemed advisable to suspend the said proposed increased rate and charge until September 19, 1958, and thereafter to permit it to become effective as of that date; provided that within 20 days from the date of this order Nicklos shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Nicklos' proposed increased rate be made effective as hereinafter provided and that Nicklos be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Respondent's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until September 19, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of September 19, 1958: *Provided, however,* That within 20 days from the date of this order, Nicklos shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Nicklos shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes

refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event a proportionate part of the interest so received by Nicklos herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Nicklos shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Nicklos so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Nicklos shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of Nicklos Oil & Gas Company, et al. to Comply with the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued _____, in Docket No. G–16242, _____ hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this _____ day of _____.

_____
By_____

Attest:

_____
(Secretary)

Unless Nicklos is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Nicklos shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58–7783; Filed, Sept. 23, 1958; 8:46 a. m.]

[Docket No. G–16312]

BEN C. W. HYDE, JR.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

SEPTEMBER 17, 1958.

Ben C. W. Hyde, Jr. (Operator), (Hyde), on August 18, 1958, tendered for filing a proposed change in his presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 11, 1958.

Purchaser: Jernigan and Morgan Transmission Company.

Rate schedule designation: Supplement No. 1 to Hyde's FPC Gas Rate Schedule No. 1.

Effective date: September 18, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed periodic rate increase, Hyde states that the increased price results from a contract entered into at arm's length in a competitive market, is just and reasonable and to deny same would be inequitable, unfair and confiscatory.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to Hyde's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Hyde's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 18, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] MICHAEL J. FARRELL, *Acting Secretary.*

[Docket No. G–13792 etc.]

PERMIAN BASIN PIPELINE CO. ET AL.

NOTICE OF DATE OF HEARING

SEPTEMBER 18, 1958.

In the matters of Permian Basin Pipeline Company, Docket No. G–13792; Sun Oil Company (Southwest Division), Docket No. G–13931; Phillips Petroleum Company, Operator, Docket No. G–14131.

On September 15, 1958, the Secretary of the Commission issued notice of the postponement of the hearing in the above-captioned proceedings set for September 24, 1958, to a date to be fixed by future notice, due to the filing of a petition for leave to intervene by Minneapolis Gas Company.

By telegram filed September 17, 1958, Minneapolis Gas Company, through its attorney, withdrew its petition to intervene and requested reinstatement of the shortened procedure hearing as originally set.

Take notice that the hearing in the above-entitled matters, as described in the notice of the Secretary issued on August 20, 1958, will be held on September 30, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G–14894]

GULF OIL CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 18, 1958.

Take notice that on April 15, 1958, Gulf Oil Corporation (Applicant) filed in Docket No. G–14894 an application, pursuant to section 7 (b) of the Natural Gas Act, for approval of the abandonment of natural gas service as hereinafter described, subject to the jurisdiction of the

Commission, all as more fully represented in the application. Applicant proposes to abandon service to Transcontinental Gas Pipe Line Corporation (Transco) from Applicant's ½ interest in certain acreage in the Washington Field, St. Landry Parish, Louisiana, covered by a gas sales contract dated September 2, 1953, as amended, between Gulf Refining Company (predecessor to Applicant) and Transco, presently designated in the files of the Commission as Gulf Oil Corporation FPC Gas Rate Schedule No. 72. Said contract, as amended, covers the sale of (1) gas well gas from the Cockfield "B" and "D" reservoirs and (2) casinghead gas from the oil reservoir.

The application, which is on file with the Commission and open to public inspection, states that production and sale of gas to Transco under authority granted to Applicant's predecessor were discontinued on May 21, 1955, and a program of cycling and pressure maintenance in the subject field was begun on September 30, 1956, pursuant to orders of the Louisiana Conservation Commissioner, which cycling program will continue for several years. Applicant does not intend to resume deliveries to Transco after the cycling program has been completed, and Transco has indicated that it does not object to the termination of all deliveries of gas to it by Applicant from the Washington Field.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 31, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issue presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 8, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7799; Filed, Sept. 23, 1958; 8:48 a. m.]

[Docket Nos. G-15053, G-15130]

AMERICAN LOUISIANA PIPE LINE CO. AND PAN AMERICAN PETROLEUM CORP.

NOTICE OF APPLICATIONS AND DATE OF HEARING

SEPTEMBER 18, 1958.

In the matters of American Louisiana Pipe Line Company, Docket No. G-15053; Pan American Petroleum Corporation, Docket No. G-15130.

Take notice that American Louisiana Pipe Line Company (American), a Delaware Corporation with a principal place of business in Detroit, Michigan, filed an application in Docket No. G-15053 on May 6, 1958, pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of approximately 28 miles of 12-inch lateral supply pipeline, to extend from a point of connection with its existing 26-inch Lowry-Tepetate main transmission pipeline in Cameron Parish, Louisiana to a purchase meter station to be installed by American in the Big Lake Field in Cameron Parish subject to the jurisdiction of the Commission, all as more fully described in the application filed with the Commission and open to public inspection.

American proposes to construct and operate the facilities for the purpose of receiving natural gas produced in the Big Lake Field by Pan American Petroleum Corporation (Pan American). The estimated total initial cost of the proposed facilities is $1,523,200, which cost will be financed by American from funds on hand.

Take further notice that Pan American, a Delaware corporation with its principal place of business in Tulsa, Oklahoma, filed an application on May 19, 1958 in Docket No. G-15130 for a certificate of public convenience and necessity authorizing the sale of natural gas produced in the Big Lake Field, Cameron Parish, Louisiana, in interstate commerce to American for resale for ultimate public consumption, subject to the jurisdiction of the Commission and as more fully described in the application on file with the Commission and open for public inspection.

American states that remaining recoverable dry gas dedicated to it by Pan American in the Big Lake Field area totals 91,788 Mcf at 14.73 psia, as of July 1, 1957; and that American will be able to substitute a permanent gas supply from a portion of the approximately 40,000 Mcf daily of gas purchased on a spot basis.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 27, 1958, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 12, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7800; Filed, Sept. 23, 1958; 8:49 a. m.]

[Docket No. G-15319]

CITIZENS GAS AND COKE UTILITY

NOTICE OF APPLICATION

SEPTEMBER 18, 1958.

In the matter of City of Indianapolis, d/b/a Citizens Gas and Coke Utility; Docket No. G-15319.

Take notice that the City of Indianapolis, by and through its Board of Directors for Utilities of its Department of Public Utilities, a municipal corporation of the State of Indiana, Successor Trustee of a public charitable trust doing business under its registered name of Citizens Gas and Coke Utility (Applicant), with principal place of business at 2020 North Meridian Street, Indianapolis 9, Indiana, filed in the above-entitled proceeding on June 20, 1958, an application, pursuant to section 7 (a) of the Natural Gas Act, for an order directing certain interstate pipeline companies to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant is presently a general-service customer of Panhandle Eastern Pipe Line Company (Panhandle) and, although Applicant has an agreement with Panhandle providing for a contract demand of 44,000 Mcf per day during the winter months, Applicant avers that it has been unable to obtain from Panhandle an increase in its winter contract demand since December 1, 1955. Applicant operates a plant for the production of manufactured gas and mixes its manufactured gas with the natural gas it purchases from Panhandle to make an 800-Btu mixed gas for distribution to its customers.

The application states that during the past winter it was necessary to curtail deliveries to 25 firm industrial customers to protect service to its other customers and that the temperature on the peak day was three degrees Fahrenheit and total sendout of 800-Btu gas was 99,965 Mcf on that day.

Last winter Applicant's actual peak-day requirements of 1,000-Btu gas were 84,042 Mcf, and Applicant estimates its peak-day requirements of 1,000-Btu gas for the next three years as follows: First year, 114,175 Mcf, second year, 129,375 Mcf and third year, 144,775 Mcf.

Applicant has had restrictions upon the attachment of additional residential, commercial and industrial customers since July 16, 1946. Applicant presently has 10,248 househeating applications on file and states that this number "• • • would be substantially greater but for the general public's knowledge of restrictions on the attachment of househeating".

Applicant avers that it "• • • will need, commencing not later than November 1, 1958, 35,000 Mcf of natural gas per day in addition to the quantities which it presently receives from Panhandle; thereafter its requirements will increase at the rate of not less than 15,000 Mcf per day each year for the two years 1959 and 1960".

In order to obtain the above-mentioned increased quantities of gas, Applicant proposes that the Commission issue an order, in the alternative:

(1) Directing American Louisiana Pipe Line Company (American Louisiana) to establish physical connection of its transportation facilities with the facilities of Applicant and to sell and deliver not less than 35,000 Mcf per day directly to Applicant; or

(2) Directing Texas Gas Transmission Corporation (Texas Gas) to establish physical connection of its transportation facilities with the facilities of Applicant and to sell and deliver not less than 35,000 Mcf per day directly to Applicant; or

(3) Directing American Louisiana to establish physical connection of its transportation facilities with the facilities of Applicant, and directing American Louisiana and Texas Gas to establish physical interconnection of their respective transportation facilities with each other, and directing Texas Gas to sell not less than 35,000 Mcf per day to Applicant and American Louisiana to deliver such natural gas to Applicant; or

(4) Directing American Louisiana and Texas Gas to make the interconnections specified in paragraph (3) above, but requiring both American Louisiana and Texas Gas to sell and deliver an aggregate amount of not less than 35,000 Mcf per day to Applicant through the facilities of American Louisiana; or

(5) Directing Panhandle to sell and deliver 35,000 Mcf per day to Applicant in addition to the 44,000 Mcf per day which Panhandle is presently obligated to deliver to Applicant.

Applicant states that it is willing to build at its own expense the required 21.7 miles of 20-inch line necessary to connect the Applicant's system with the facilities of American Louisiana, and that it is willing to share the expense of building, or build at its own expense, the 70 miles of 20-inch line necessary to connect Applicant's system with the facilities of Texas Gas. Applicant estimates the cost of the 21.7-mile line at approximately $2,000,000, and the cost of the 70-mile line at about $7,000,000.

Take further notice that protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 10, 1958.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7801; Filed, Sept. 23, 1958; 8:49 a. m.]

[Docket No. G-15884]

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 18, 1958.

Take notice that El Paso Natural Gas Company, (Applicant), a Delaware corporation with a principal place of business in El Paso, Texas, filed an application on August 5, 1958, pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of (1) approximately 20.5 miles of 6-inch transmission pipeline looping part of an existing 4-inch lateral line between Alamogordo and White Sands Proving Grounds, and (2) an addition of 125 H. P. to its Alamogordo Compressor in Otero County, New Mexico, attached to a 4-inch lateral, subject to the jurisdiction of the Commission, as more fully described in the application on file with the Commission, and open for public inspection. Applicant estimates that the proposed facilities will increase the capacity of the Alamogordo lateral from 8,754 to 11,534 Mcf per day.

The application recites that the facilities are required to enable Applicant to sell and deliver additional volumes of natural gas to Southern Union Gas Company (Southern Union), an existing customer. Southern Union proposes (a) to resell the gas at retail in the City of Alamogordo, the Town of Tularosa, White Sands Proving Grounds and Holloman Air Force Base, all in Otero County, New Mexico and (b) to construct 13.8 miles of 6-inch pipeline from a connection with El Paso's existing line at Alamogordo to Tularosa, New Mexico.

The application recites that annual and peak day requirements for the first three years will be:

Years	Annual (Mcf) requirements	Peak day requirements
1	1,308,471	9,977
2	1,512,392	11,534
3	1,726,065	13,165

The estimated capital cost of the proposed facilities is $344,000, which will be financed out of current working funds or short term bank loans.

The matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 30, 1958, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 15, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in ommission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7802; Filed, Sept. 23, 1958; 8:49 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-1172]

AMERICAN MUTUAL FUND, INC.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION

SEPTEMBER 17, 1958.

Notice is hereby given that American Mutual Fund, Inc. ("American"), a registered open-end investment company, has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting from the provisions of section 22 (d) of the Act the proposed issuance of its shares at net asset value for substantially all of the cash and securities of Selected Securities Corporation ("Selected").

The amended application contains the following representations:

American, a Delaware corporation, is an open-end investment company, whose shares are offered to the public on a continuous basis at net asset value plus varying sales charges dependent on the amount purchased. As of June 30, 1958 the net assets of American amounted to $79,814,380, and there were outstanding 10,327,846 shares of stock.

Selected is an investment company having less than 100 stockholders and is exempt from registration under the Act by reason of the provisions of section 3 (c) (1) thereof. Pursuant to an agreement between American and Selected substantially all of the cash and securities owned by Selected with a total value of $1,852,488, as of June 30, 1958, will be transferred to American in exchange for shares of American. The number of shares of American to be delivered to Selected will be determined by dividing the net asset value per share of American in effect at the close of the New York Stock Exchange on the third business day preceding the closing date into the value of Selected assets to be exchanged. The American shares to be acquired by Selected are to be distributed immediately to its shareholders and so far as known to American such shareholders intend to retain such shares.

The value of the Selected assets will be determined in substantially the same manner as used for calculating net asset value for the purpose of issuing American's shares, except that the aggregate value of such assets will be discounted by 2.27 percent. The amount of this discount factor was determined as a result of arm's-length negotiations between the principals of American and of Selected and took into account the unrealized appreciation of assets of the respective companies, the character of the holdings of American and of Selected and other considerations deemed appropriate.

As of June 30, 1958, net unrealized appreciation on the Selected net assets amounted to $650,683 or 35.1 percent of the value of all assets held, namely, $1,852,488, as compared with the net unrealized appreciation of $11,409,923 or 14.3 percent of the value of the net assets of American, namely, $79,814,380. The unrealized appreciation of Selected in excess of the amount which would result from applying American's ratio of 14.3 percent to the market value of Selected's assets of $1,852,488 is $385,777. The discount of 2.27 percent applied to $1,852,488 amounts to $50,017 which is approximately 13 percent of the excess unrealized appreciation of Selected as above set forth. If the transaction had been consummated on June 30, 1958, Selected would have received 233,178 shares of American or approximately 2.25 percent of the total shares of American then outstanding.

Section 22 (d) of the Act provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current offering price described in the prospectus, with certain exceptions not applicable here. Under the terms of the Agreement, however, the shares of American are to be issued to Selected at a price other than the public offering price stated in the prospectus, which lists a sales charge of 2½ percent for sales of $200,000 or over.

Section 6 (c) of the Act authorizes the Commission by order upon application to exempt, conditionally or unconditionally, any transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that the Commission finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than September 30, 1958 at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the Act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[Notice 235]

MOTOR CARRIER APPLICATIONS

SEPTEMBER 19, 1958.

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers and by brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other procedural matters with respect there to (49 CFR 1.241).

All hearings will be called at 9:30 o'clock a. m., United States standard time (or 9:30 o'clock a. m., local daylight saving time), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 2962 (Sub No. 22), filed August 25, 1958. Applicant: A. & H. TRUCK LINE, INC., 1277 Maxwell Ave., Evansville, Ind. Applicant's attorney: Howell Ellis, 520 Illinois Bldg., Indianapolis, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty shipper-owned tank trailers* used in transporting paints, varnishes, lacquers, synthetic resin solutions, oils compounded, thinning compounds, and lacquer and varnish solvents, from points in Alabama, Arkansas, Colorado, Florida, Georgia, Indiana, Illinois, Iowa, Kansas, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, and Wisconsin, to Louisville, Ky. Applicant is authorized to conduct operations in Illinois, Indiana, Missouri, Ohio, Tennessee, Alabama, Arkansas, Colorado, Florida, Georgia, Kansas, Louisiana, Mississippi, Nebraska, New York, North Carolina, Oklahoma, South Carolina, Texas, Virginia, and Kentucky.

NOTE: Applicant is authorized to transport the above-described commodities from Louisville, Ky., to points in the above-described origin territory, in Certificates MC 2962 Sub Nos. 12 and 15.

HEARING: October 23, 1958, at 1:00 p. m. United States Standard Time (or 1:00 p. m. Local Daylight Saving Time, if that time is observed), at the U. S. Court Rooms, Indianapolis, Ind., before Examiner John P. McCarthy.

No. MC 4405 (Sub No. 305), filed July 28, 1958. Applicant: DEALERS TRANSIT, INC., 12601 South Torrence Avenue, Chicago 33, Ill. Applicant's attorney: James W. Wrape, Sterick Bldg., Memphis, Tenn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trucks, with water and oil well drilling machines mounted*, in secondary movements in driveaway service, from points in Wayne County, Ind., to points in Arizona, Nevada, Oregon and Vermont; (2) *Trailers*, except those designed to be transported by passenger automobiles, in initial movements in truckaway service, from points in Wayne County, Ind., to points in the United States; (3) *Well drilling machines*, from points in Wayne County, Ind., to points in the United States. Applicant is authorized to conduct operations throughout the United States.

HEARING: October 27, 1958, at the U. S. Court Rooms, Indianapolis, Ind., before Examiner John P. McCarthy.

No. MC 6119 (Sub No. 1), filed August 6, 1958. Applicant: GEORGE B. KING, JR., Onawa, Iowa. Applicant's attorney: Carroll K. Wood, First State Bank Bldg., Webster City, Iowa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Buildings* and *houses*, prefabricated or portable, and feeders, between Onawa, Iowa, and points in Illinois and Indiana. (2) *Insulation*, from Aurora, Ill., to Onawa, Iowa; (3) *roofing* and *steel*, from Chicago, Ill., to Onawa, Iowa; (4) *nails*, from Peoria, Ill., to Onawa, Iowa. Applicant is authorized to conduct operations in Iowa and Nebraska.

HEARING: November 14, 1958, at the Federal Office Building, 5th & Court Avenues, Des Moines, Iowa, before Joint Board No. 53, or, if the Joint Board waives its right to participate, before Examiner William R. Tyers.

No. MC 19201 (Sub No. 104), filed September 8, 1958. Applicant: PENNSYLVANIA TRUCK LINES, INC., 110 South Main Street, Pittsburgh, Pa. Applicant's attorney: Gilbert Nurick, Commerce Building, P. O. Box 432, Harrisburg, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including commodities of unusual value, commodities in bulk*, and *commodities requiring special equipment*, but excluding Class A and B explosives, and household goods as defined by the

Commission, in service auxiliary to, or supplemental of, rail service of The Pennsylvania Railroad Company, (1) between Altoona, Pa., and Barnesboro, Pa., from Altoona over Pennsylvania Highway 36 to Hastings, Pa., thence over unnumbered highway to Barnesboro, and return over the same route, serving all intermediate points which are stations on the rail line of The Pennsylvania Railroad Company; (2) between Barnesboro, Pa., and junction U. S. Highway 22 and Pennsylvania Highway 53 south of Cresson, Pa., from Barnesboro over U. S. Highway 219 to junction U. S. Highway 22 at Ebensburg, Pa., thence over U. S. Highway 22 to junction Pennsylvania Highway 53 south of Cresson, and return over the same route, serving said junction as a point of joinder only, and serving all intermediate points which are stations on the rail line of The Pennsylvania Railroad Company, and the off-route point of Bakerton, Pa., (3) between junction Pennsylvania Highway 764 and unnumbered highway south of Altoona, Pa., and Gallitzin, Pa., from junction Pennsylvania Highway 764 and unnumbered highway south of Altoona, Pa., over unnumbered highway to Gallitzin, and return over the same route, serving all intermediate points which are stations on the rail line of The Pennsylvania Railroad Company, and (4) between junction unnumbered highway and Pennsylvania Highway 53 west of Gallitzin, Pa., and Ashville, Pa., from junction unnumbered highway and Pennsylvania Highway 53 west of Gallitzin over Pennsylvania Highway 53 to Ashville, and return over the same route, serving all intermediate points which are stations on the rail line of The Pennsylvania Railroad Company. Applicant is authorized to conduct operations in Ohio, Pennsylvania and West Virginia.

NOTE: Common control may be involved.

HEARING: October 29, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Charles H. Riegner.

No. MC 20783 (Sub No. 35), filed August 20, 1958. Applicant: TOMPKINS MOTOR LINES, INC., 120 Ewing Lane, Nashville, Tenn. Applicant's attorney: David Axelrod, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Packing-house products, vegetable oil shortenings, mayonnaise* and *salad dressing*, and *oleomargarine*, from Cincinnati, Ohio to points in Tennessee, Alabama, Georgia, Florida, South Carolina, and North Carolina, and *empty containers or other such incidental facilities* (not specified) used in transporting the above-specified commodities on return. Applicant is authorized to conduct regular route operations in Georgia, North Carolina, and Tennessee, and irregular route operations in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee.

HEARING: November 5, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner William R. Tyers.

No. MC 29886 (Sub No. 122), filed September 5, 1958. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. Applicant's attorney: Charles Pieroni, 523 Johnson Bldg., Muncie, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Construction machinery and equipment*, and *parts thereof* as defined in Appendix VIII to the Report in Description of Motor Carrier Certificates, 61 M. C. C. 209, *including excavating and earth scraping machines*, in truckaway and driveaway service or by combination of both services, between South Bend, Ind., on the one hand, and, on the other, points in the United States. Applicant is authorized to conduct operations throughout the United States.

NOTE: Applicant states that transportation to South Bend, Ind., to be restricted to such of the aforementioned commodities as are being transported to the manufacturer for rebuilding, repair, or testing, or which are for demonstration or show purposes.

HEARING: November 6, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner William R. Tyers.

No. MC 36060 (Sub No. 19), filed August 8, 1958. Applicant: ROCHESTER CARTAGING COMPANY, a Corporation, 25 North Washington Street, Rochester, N. Y. Applicant's attorney: Robert V. Gianniny, 25 Exchange Street, Rochester 14, N. Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Stainless steel and glass lined tanks*, from Rochester, N. Y., to points in Connecticut, Rhode Island, Virginia and New Hampshire. Applicant is authorized to conduct operations in New York, Pennsylvania, New Jersey, Delaware, Connecticut, Rhode Island, Massachusetts, New Hampshire, Maine, Vermont, Ohio, Indiana, Illinois, Maryland, Virginia, North Carolina, Georgia, Florida, the District of Columbia and West Virginia.

HEARING: October 30, 1958, at the Seneca Hotel, Rochester, N. Y., before Examiner William J. Cave.

No. MC 49368 (Sub No. 76), filed August 22, 1958. Applicant: COMPLETE AUTO TRANSIT, INC., 18465 James Couzens Highway, Detroit 35, Mich. Applicant's attorney: Edmund M. Brady, Guardian Bldg., Detroit 26, Mich. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *New automobiles* and *parts* and *accessories therefor*, when moving with such vehicles to which they are to be attached in initial movements in truckaway and driveaway service, from the sites of the plants of the General Motors Corporation at Willow Run, Washtenaw County, Mich., to points in the United States. Applicant is authorized to conduct operations throughout the United States.

HEARING: October 27, 1958, at the Federal Building, Detroit, Mich., before Examiner William R. Tyers.

No. MC 52657 (Sub No. 525), filed July 31, 1958. Applicant: ARCO AUTO CARRIERS, INC., 7530 S. Western Avenue, Chicago 20, Ill. Applicant's attorney: G. W. Stephens, 121 West Doty St., Madison, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Trailers*, other than those having trailers and mobile homes, in initial truckaway and driveaway service, from points in Luzerne and Lackawanna Counties, Pa., to points in the United States; and (B) *Tractors*, in secondary driveaway service, only when driving trailers moving in initial driveaway service, as described above, from points in Luzerne and Lackawanna Counties, Pa., to points in Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Kansas, Louisiana, Maine, Mississippi, Montana, Nevada, New Hampshire, New Mexico, North Dakota, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Vermont, Washington, Wyoming, and Washington, D. C. Applicant is authorized to conduct operations throughout the United States.

HEARING: October 30, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner William R. Tyers.

No. MC 52657 (Sub No. 526), filed July 31, 1958. Applicant: ARCO AUTO CARRIERS, INC., 7530 S. Western Avenue, Chicago 20, Ill. Applicant's attorney: G. W. Stephens, 121 West Doty Street, Madison, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Trailers*, other than those having trailers and mobile homes, in initial truckaway and driveaway service, from points in Luzerne and Lackawanna Counties, Pa., to points in the United States; and (B) *Tractors*, in secondary driveaway service, only when driving trailers moving in initial driveaway service, as described above, from points in Luzerne and Lackawanna Counties, Pa., to points in Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Kansas, Louisiana, Maine, Mississippi, Montana, Nevada, New Hampshire, New Mexico, North Dakota, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Vermont, Washington, Wyoming, and Washington, D. C. Applicant is authorized to conduct operations throughout the United States.

HEARING: October 30, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner William R. Tyers.

No. MC 52657 (Sub No. 527), filed August 18, 1958. Applicant: ARCO AUTO CARRIERS, INC., 7530 S. Western Avenue, Chicago 20, Ill. Applicant's attorney: Glenn W. Stephens, 121 West Doty Street, Madison, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Trailers*, in initial truckaway service, from South Bend, Ind., to points in the United States except points in Alabama, Georgia, Illinois, Iowa, Kentucky, Minnesota, Missouri, New Mexico, North Carolina, Ohio, Tennessee, South Carolina and Texas; (B) *trailers*, in initial driveaway service, from South Bend, Ind., to points in the United States except to points in Alabama, Georgia, North Carolina, South Carolina, Tennessee and Wisconsin; and (C) *tractors*, in secondary driveaway service when drawing trailers in initial driveaway service, from South Bend, Ind., to points in Arizona, Arkansas, California, Colorado, Idaho, Kansas, Louisiana, Maine, Mississippi, Montana, Nevada, New Hampshire, New Mexico, North Dakota, Oklahoma, Oregon, Texas, Utah, Vermont, Washington, Wyoming, the District of Columbia. Applicant is authorized to conduct operations throughout the United States.

HEARING: October 30, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner William R. Tyers.

No. MC 52657 (Sub No. 528), filed August 18, 1958. Applicant: ARCO AUTO CARRIERS, INC., 7530 S. Western Ave., Chicago 20, Ill. Applicant's attorney: Glenn W. Stephens, 121 West Doty Street, Madison, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Cargo containers, cargo container bodies*, and *cargo container boxes*, from Edgerton and Stoughton, Wis., to points in the United States; (B) *trailers* (other than house trailers and mobile homes), in initial driveaway service, from Edgerton and Stoughton, Wis., to points in the United States; and (C) *tractors*, in secondary driveaway service only when drawing trailers moving in initial driveaway service as described above, from Edgerton and Stoughton, Wis., to points in Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Kansas, Louisiana, Maine, Mississippi, Montana, Nevada, New Hampshire, New Mexico, North Dakota, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Vermont, Washington, Wyoming, the District of Columbia. Applicant is authorized to conduct operations throughout the United States.

NOTE: Applicant states the above-described portion (A) is being filed as a precaution in view of a possible question as to whether the involved commodities are within the scope of its authority from these origins as contained in MC 52657 Sub Nos. 7 and 297.

HEARING: November 3, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner William R. Tyers.

No. MC 52657 (Sub No. 529), filed September 6, 1958. Applicant: ARCO AUTO CARRIERS, INC., 7530 S. Western Avenue, Chicago 20, Ill. Applicant's attorney: G. W. Stephens, 121 W. Doty Street, Madison, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Construction machinery and equipment*, and *parts thereof* as defined in Appendix VIII to the report in Description of Motor Carrier Certificates, 61 M. C. C. 209, *including excavating and earth scraping machines*, in truckaway and driveaway service or by combination of both services, between South Bend, Ind., on the one hand, and, on the other, points in the United States. Applicant is authorized to conduct operations throughout the United States.

NOTE: Applicant states that the transportation to South Bend, Ind., to be restricted to such of the aforementioned commodities as are being transported to the manufacturer for rebuilding, repair, or testing, or which are for demonstration or show purposes.

HEARING: November 6, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner William R. Tyers.

No. MC 52704 (Sub No. 36), filed May 26, 1958. Applicant: GLENN McCLENDON TRUCKING COMPANY, INC., Lafayette, Ala. Applicant's attorney: D. H. Markstein, Jr., 818–821 Massey Building, Birmingham 3, Ala. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass bottles* and *glass food containers*, from Laurens, S. C., to points in Arkansas, Kentucky, Louisiana, and Texas, and *cullet* (broken glass) on return. Applicant is authorized to conduct operations in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina and Tennessee.

HEARING: November 3, 1958, at the Wade Hampton Hotel, Columbia, S. C. before Examiner C. Evans Brooks.

No. MC 59150 (Sub No. 9), filed August 26, 1958. Applicant: PLOOF TRANSFER COMPANY, INC., 1901 Hill Street, Jacksonville, Fla. Applicant's attorney: Martin Sack, 900 Atlantic National Bank Bldg., Jacksonville 2, Fla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in South Carolina to points in Florida. Applicant is authorized to conduct operations in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia.

HEARING: October 28, 1958, at the Mayflower Hotel, Jacksonville, Fla., before Joint Board No. 354, or, if the Joint Board waives its rights to participate, before Examiner C. Evans Brooks.

No. MC 65525 (Sub No. 11), (CORRECTION), filed July 31, 1958, published issued September 4, 1958. Applicant: WHITE BROTHERS TRUCKING CO., a Corporation, Wasco, Ill. Applicant's representative: George S. Mullins, 4704 W. Irving Park Road, Chicago 41, Ill. Previous publication incorrectly designated Franklin, Ill., instead of Frankfort, Ill., in route (3). Correctly stated it should read: (3) From Algonquin, *Frankfort*, Hodgkins, Lemont, McCook and Plano, Ill., to points in Indiana and Wisconsin.

HEARING: Remains as assigned, October 6, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 76032 (Sub No. 125), filed July 14, 1958. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver 23, Colo. Applicant's attorney: O. Russell Jones, 54½ E. San Francisco St., Southwest Corner Plaza, Santa Fe, N. Mex. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities, including Class A and B explosives*, but excluding commodities of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the Navajo Dam Site in New Mexico (on the San Juan River near the New Mexico-Colorado State Line) and points within ten (10) miles thereof as off-route points in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in New Mexico, California, Arizona, Texas, Colorado, Illinois, Missouri, Nebraska, Indiana, Oklahoma, Iowa and Kansas.

HEARING: October 2, 1958, at the New Mexico State Corporation Commission, Santa Fe, New Mexico, before Joint Board No. 87, or, if the Joint Board waives its rights to participate, before Examiner Leo A. Riegel.

No. MC 85934 (Sub No. 7), filed August 14, 1958. Applicant: MICHIGAN TRANSPORTATION COMPANY, a Corporation, 1650 Waterman Avenue, Detroit 9, Mich. Applicant's attorney: Rex Eames, 2606 Guardian Bldg., Detroit 26, Mich. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Calcium chloride*, in bulk, in dump truck vehicles, from Midland, Mich., to points in Illinois, Indiana, Iowa, Kentucky, Ohio, Pennsylvania, and Wisconsin. Applicant is authorized to conduct common carrier operations under Certificate No. MC 85934 (Sub No. 1) in Alabama, Illinois, Indiana, Kentucky, Michigan, Mississippi, Missouri, Ohio, Pennsylvania, Tennessee, and Wisconsin; it is also authorized to conduct contract carrier operations under Permit No. MC 52978 and Sub Nos. thereunder. Section 210 (dual operations) may be involved.

NOTE: A proceeding has been instituted under section 212 (c) in No. MC 52978 (Sub No. 15) to determine whether applicant's status is that of a contract or common carrier.

HEARING: October 24, 1958, at the Federal Building, Detroit, Mich., before Examiner William R. Tyers.

No. MC 94350 (Sub No. 12), filed September 15, 1958. Applicant: TRANSIT HOMES, INC., Box 273, Main Street, Anderson, S. C. Applicant's attorney Harold G. Hernly, 1624 Eye St. NW., Washington 6, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers and/or mobile homes* designed to be drawn by passenger automobiles, in initial movement, by truckaway service, from Crossville, Tenn., and points within ten (10) miles thereof, to points in the United States. Applicant is authorized to conduct similar operations throughout the United States.

HEARING: September 25, 1958, at the Dinkler-Andrew Jackson Hotel, Nashville, Tenn., before Examiner Reece Harrison.

No. MC 100148 (Sub No. 15), filed July 18, 1958. Applicant: THOMAS K. BUBER, INC., 308 Antoine Street, Wyandotte, Mich. Applicant's attorney: John M. Veale, Guardian Bldg., Detroit 26, Mich. Authority sought to operate as a *common or contract carrier*, by motor vehicle, over irregular routes, transporting: *Clay products*, from Summerville, Lewis Run, Eastvale, Darlington and Bessemer, Pa., and Fairdale, Ky., to points in Michigan and *damaged, defective, returned and rejected shipments* of clay products from points in Michigan to the above-specified origin points. Applicant is authorized to conduct operations in Indiana, Michigan, Ohio, Pennsylvania and West Virginia. A proceeding has been instituted under section 212 (c) of the Interstate Commerce Act to determine whether applicant's status is that of a contract or common carrier, assigned Docket No. MC 100148 (Sub 13).

HEARING: October 24, 1958, at the Federal Building, Detroit, Mich., before Examiner William R. Tyers.

No. MC 102401 (Sub No. 3), filed August 28, 1958. Applicant: TAYLOR HEAVY HAULING, INC., 412 E. Tutt Street, South Bend, Ind. Applicant's attorney: Ferdinand Born, 1019 Chamber of Commerce Bldg., Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building, earth moving, excavating and scraping machines* and *machinery, and such other machines and machinery* as are set forth in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M. C. C. 209, *equipment, materials* and *attachments*, in haulaway and driveaway service or by a combination of both services, between South Bend, Ind., and all points in the United States, except those in Indiana, including all ports of entry on the International Boundary line between the United States and Canada. Applicant indicates transportation to South Bend, Ind., to be restricted to such of the aforementioned commodities as are being transported to the manufacturer for rebuilding, repair, or testing, or which are for demonstration or show purposes. Applicant is authorized to conduct operations throughout the United States.

HEARING: November 6, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner William R. Tyers.

No. MC 103378 (Sub No. 103), filed July 3, 1958. Applicant: PETROLEUM CARRIER CORPORATION, 369 Margaret Street, Jacksonville, Fla. Applicant's attorney: Martin Sack, 500 Atlantic National Bank Bldg., Jacksonville, 2, Fla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Methanol*, in bulk, in tank vehicles, from Pace Junction, Fla., to Mobile, Ala. Applicant is authorized to conduct operations in Alabama, Florida, Georgia, North Carolina and South Carolina.

HEARING: October 27, 1958, at the Mayflower Hotel, Jacksonville, Fla., before Joint Board No. 98, or, if the Joint Board waives its right to participate, before Examiner C. Evans Brooks.

No. MC 103378 (Sub No. 104), filed July 10, 1958. Applicant: PETROLEUM CARRIER CORPORATION, 369 Margaret Street, Jacksonville, Fla. Applicant's attorney: Martin Sack, 500 Atlantic National Bank Bldg., Jacksonville 2, Fla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lubricating oil*, in bulk, in tank vehicles, from Savannah, Ga., to the plant site of Bell Laboratories, near Orlando, Fla. Applicant is authorized to conduct operations in Alabama, Florida, Georgia, North Carolina and South Carolina.

HEARING: October 27, 1958, at the Mayflower Hotel, Jacksonville, Fla., before Joint Board No. 64, or, if the Joint Board waives its right to participate, before Examiner C. Evans Brooks.

No. MC 103378 (Sub No. 106), filed August 7, 1958. Applicant: PETROLEUM CARRIER CORPORATION, 369 Margaret Street, Jacksonville, Fla. Applicant's attorney: Martin Sack, Atlantic National Bank Bldg., Jacksonville 2, Fla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fuming nitric acid*, in bulk, in tank trucks, from the plant site of Hercules Powder Company, near Bessemer, Ala., to Eglin Air Force Base, Fla. Applicant is authorized to conduct operations in Florida, Georgia, Alabama, and South Carolina.

HEARING: October 27, 1958, at the Mayflower Hotel, Jacksonville, Fla., before Joint Board No. 98, or, if the Joint Board waives its right to participate, before Examiner C. Evans Brooks.

No. MC 103378 (Sub No. 107), filed August 13, 1958. Applicant: PETROLEUM CARRIER CORPORATION, 369 Margaret Street, Jacksonville, Fla. Applicant's attorney: Martin Sack, 500 Atlantic National Bank Bldg., Jacksonville 2, Fla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, between points in Alabama, Florida, Georgia and South Carolina. Applicant is authorized to conduct operations in Alabama, Florida, Georgia and South Carolina.

HEARING: October 30, 1958, at the Mayflower Hotel, Jacksonville, Fla., before Examiner C. Evans Brooks.

No. MC 104801 (Sub No. 8), filed August 4, 1958. Applicant: ELMER VITALIS, doing business as VITALIS TRUCK LINES, 1656 East Grand Avenue, Des Moines, Iowa. Applicant's attorney: Stephen Robinson, 1020 Savings & Loan Bldg., Des Moines 9, Iowa. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, in containers, from South Bend, Ind., to Des Moines and Marshalltown, Iowa, and *empty containers or other such incidental facilities* (not specified) used in transporting Malt Beverages on return. Applicant is authorized to transport similar commodities in Illinois and Iowa, and other commodities in Iowa, Kansas, Minnesota, and Missouri.

HEARING: November 14, 1958, at the Federal Office Building, 5th & Court Avenues, Des Moines, Iowa, before Joint Board No. 53, or, if the Joint Board waives its right to participate, before Examiner William R. Tyers.

No. MC 106647 (Sub No. 34), filed September 2, 1958. Applicant: CLARK TRANSPORT COMPANY, Junction Highway 30–83, P. O. Box 295, Chicago Heights, Ill. Applicant's attorney: Edmund M. Brady, Guardian Bldg., Detroit 26, Mich. Authority sought to operate as a *common carrier*, by motor vehicle, over *regular and irregular routes*, transporting: *Automobiles, trucks* and *trailers*, from, to and between various points in Minnesota, North Dakota, Montana and Michigan as presently authorized in Certificate No. MC 106647 (Sub No. 31), issued May 21, 1957. Applicant states that the purpose of this application is to remove the restriction contained in the above mentioned certificate reading as follows: "Restriction: The initial and secondary movement operating rights authorized herein shall not be combined with any operating rights otherwise held by the carrier for the purpose of performing a through service under such combination", and to insert in place thereof the following restriction which is contained in Certificate No. MC 106647 (Sub No. 32), issued May 21, 1958, reading as follows: "Restriction: The operating rights authorized hereinabove are restricted against the combining of carrier's existing initial-movement rights with any of the secondary-movement rights authorized above, or any of the initial-movement rights authorized with any of carrier's existing secondary-movement rights, for the purpose of performing a single-line through service under a combination of initial and secondary movement rights." Applicant is authorized to conduct operations throughout the United States.

HEARING: October 28, 1958, at the Federal Building, Detroit, Mich., before Examiner William R. Tyers.

No. MC 106965 (Sub No. 121), filed September 4, 1958. Applicant: M. O'BOYLE & SON, INC., doing business as O'BOYLE TANK LINES, 1825 Jefferson Place, N. W., Washington 6, D. C. Applicant's attorney: Dale C. Dillon, 1825 Jefferson Place, N. W., Washington 6, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid glue*, in bulk, in tank vehicles, from Fayetteville, N. C., to points in Massachusetts, Maine, New Hampshire, and Vermont. Applicant is authorized to conduct operations in Delaware, Illinois, Indiana, Maryland, Michigan, Minnesota, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Virginia, Washington, West Virginia, Wisconsin, and the District of Columbia.

HEARING: October 27, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Charles H. Riegner.

No. MC 107500 (Sub No. 19), filed August 15, 1958. Applicant: BURLINGTON TRUCK LINES, INC., 547 West Jackson Blvd., Chicago, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Quincy, Ill., and Hannibal, Mo., from Quincy over Illinois Highway 57 to junction with Illinois F. A. 80 Spur (also known as the Hannibal Short Cut Road), thence over Illinois F. A. 80 Spur to junction with U. S. Highway 36, thence over U. S. Highway 36 to Hannibal, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular routes (1) between Chicago, Ill., and Hannibal, Mo., and (2) between St. Joseph, Mo., and Quincy, Ill. Applicant is authorized to conduct operations in Colorado, Nebraska, Missouri, Illinois and Iowa.
